

This schedule applies to: All Local Government Agencies

Scope of records retention schedule

This records retention schedule authorizes the destruction/transfer of the public records of all local government agencies relating to the common functions of the management of the agency, and management of the agency's assets, finances, human resources, and information resources. It is to be used in conjunction with the other approved schedules that relate to the functions of the agency.

All current approved records retention schedules can be accessed online at: <http://www.sos.wa.gov/archives/recordsretentionschedules.aspx>.

Disposition of public records

Public records covered by records series within this records retention schedule must be retained for the minimum retention period as specified in this schedule. Washington State Archives strongly recommends the disposition of public records at the end of their minimum retention period for the efficient and effective management of local resources.

Public records designated as Archival (Permanent Retention) or Non-Archival (with a retention period of "Life of the Agency" or "Permanent") must not be destroyed. Records designated as Archival (Appraisal Required) must be appraised by the Washington State Archives before disposition. Public records must not be destroyed if they are subject to ongoing or reasonably anticipated litigation. Such public records must be managed in accordance with the agency's policies and procedures for legal holds. Public records must not be destroyed if they are subject to an existing public records request in accordance with [chapter 42.56 RCW](#). Such public records must be managed in accordance with the agency's policies and procedures for public records requests.

In addition to the minimum retention requirements specified in this schedule, there may be additional (longer) retention requirements mandated by federal, state, and/or local statute, grant agreement, and/or other contractual obligations.

Revocation of previously issued records retention schedules

All previously approved disposition authorities for records that are covered by this retention schedule are revoked, including those listed in all general and agency unique retention schedules. Local government agencies should take measures to ensure that the retention and disposition of public records is in accordance with current approved records retention schedules.

Authority

This records retention schedule was approved by the Local Records Committee in accordance with [RCW 40.14.070](#) on August 4, 2021.

GLOSSARY

Appraisal

The process of determining the value and disposition of records based on their current administrative, legal, and fiscal use; their evidential and informational or research value; and their relationship to other records.

Archival – See ***Archival (Appraisal Required)*** and ***Archival (Permanent Retention)***.

Archival (Appraisal Required)

Public records which may possess enduring legal and/or historic value and must be appraised by the Washington State Archives on an individual basis.

Public records will be evaluated, sampled, and weeded according to archival principles by archivists from Washington State Archives (WSA). Records not selected for retention by WSA may be disposed of after appraisal.

Archival (Permanent Retention)

Public records which possess enduring legal and/or historic value and must not be destroyed. Local government agencies must either transfer these records to Washington State Archives or retain and preserve these records according to archival best practices until such time as they are transferred to Washington State Archives (WSA).

WSA will not sample, weed, or otherwise dispose of records fitting the records series description designated as “Archival (Permanent Retention)” other than the removal of duplicates. Master indexes, lists, registers, tracking systems, databases and other finding aids for public records designated as Archival should be retained with the records and transferred to Washington State Archives.

Disposition

Actions taken with records when they are no longer required to be retained by the agency.

Possible disposition actions include transfer to Washington State Archives and destruction.

Disposition Authority Number (DAN)

Control numbers systematically assigned to records series or records retention schedules when they are approved by the Local Records Committee.

Employee

Any individual who performs tasks or assumes responsibilities for or on behalf of the agency regardless of pay status.

Includes the agency's paid staff (permanent full- or part-time, short-term/term-limited, contract, temporary, hourly, etc.), volunteers, interns, work-study students, etc. This definition applies only in relation to legal disposition authority and does not refer to legal employment status.

Essential Records

Public records that local government agencies must have in order to maintain or resume business continuity following a disaster. While the retention requirements for essential records may range from very short-term to archival, these records are necessary for an agency to resume its core functions following a disaster.

Security backups of these public records should be created and may be deposited with Washington State Archives in accordance with chapter 40.10 RCW. Copies of master indexes, lists, registers, tracking systems, databases, and other finding aids should also be transferred with the records.

Local Records Committee

The committee established by RCW 40.14.070 to review and approve disposition of local government records.

Its three members include the State Archivist and one representative each from the Offices of the Attorney General and the State Auditor.

Migration

The periodic transfer of data from one electronic system to another in order to ensure continued integrity and accessibility of data despite changes over time in hardware, software, and storage media.

Non-Archival

Public records which do not possess sufficient historic value to be designated as "Archival". Agencies must retain these records for the minimum retention period specified by the appropriate, current records retention schedule.

Agencies should destroy these records after their minimum retention period expires, provided that the records are not required for litigation, public records requests, or other purposes required by law.

Non-Essential Records

Public records which are not required in order for an agency to resume its core functions following a disaster, as described in chapter 40.10 RCW.

Obsolete

Public records which are no longer relevant to current program or primary functional responsibilities of a department or office.

Office of Record

The group, department, or office within an agency responsible for maintaining a primary record from creation (or receipt) through disposition.

OFM (Office Files and Memoranda)

Public records which have been designated as “Office Files and Memoranda” for the purposes of RCW 40.14.010.

RCW 40.14.010 – Definition and classification of public records.

(2) “Office files and memoranda include such records as correspondence, exhibits, drawings, maps, completed forms, or documents not above defined and classified as official public records; duplicate copies of official public records filed with any agency of the state of Washington; documents and reports made for the internal administration of the office to which they pertain but not required by law to be filed or kept with such agency; and other documents or records as determined by the records committee to be office files and memoranda.”

OPR (Official Public Records)

Public records which have been designated as “Official Public Records” for the purposes of RCW 40.14.010.

RCW 40.14.010 – Definition and classification of public records.

(1) “Official public records shall include all original vouchers, receipts, and other documents necessary to isolate and prove the validity of every transaction relating to the receipt, use, and disposition of all public property and public income from all sources whatsoever; all agreements and contracts to which the state of Washington or any agency thereof may be a party; all fidelity, surety, and performance bonds; all claims filed against the state of Washington or any agency thereof; all records or documents required by law to be filed with or kept by any agency of the state of Washington; ... and all other documents or records determined by the records committee... to be official public records.”

Permanent – See **Archival (Permanent Retention)** and **Non-Archival**.

Potentially Archival or **Potential archival value** – See **Archival (Appraisal Required)**.

Primary Records

The original record (whether created or received by the agency) which serves as the official record, and must be retained in accordance with a current approved records retention schedule.

Public Records

RCW 40.14.010 – Definition and classification of public records.

“... The term "public records" shall include any paper, correspondence, completed form, bound record book, photograph, film, sound recording, map drawing, machine-readable material, compact disc meeting current industry ISO specifications, or other document, regardless of physical form or characteristics, and including such copies thereof, that have been made by or received by any agency of the state of Washington in connection with the transaction of public business...”

Records Series

A group of records, performing a specific function, which is used as a unit, filed as a unit, and may be transferred or destroyed as a unit. A records series may consist of a single type of form or a number of different types of documents that are filed together to document a specific function.

Secondary Records

Copies (or duplicates) of the agency’s primary records used for specific legal, fiscal, or administrative purposes.

Secondary records exist for convenience of reference, or for informational purposes, and may be discarded when no longer needed for agency business in accordance with GS50-02-04.

Security Microfilm

Silver duplicate or first-generation microfilm which is stored at Washington State Archives under strictly-controlled environmental conditions and serves as an emergency/disaster back-up, in accordance with chapter 40.10 RCW.

Washington State Archives provides security microfilm storage and inspection services to local government agencies.
