This schedule applies to: Department of Health

Scope of records retention schedule
This records retention schedule authorizes the destruction/transfer of the public records of the Department of Health and the State Board of Health relating to the unique functions of protecting and improving the health of the people of Washington State. The schedule is to be used in conjunction with the State Government General Records Retention Schedule (SGGRRS) which authorizes the destruction/transfer of public records common to all state agencies.

Disposition of public records
Public records covered by records series within this records retention schedule (regardless of format) must be retained for the minimum retention period as specified in this schedule. Washington State Archives strongly recommends the disposition of public records at the end of their minimum retention period for the efficient and effective management of state resources.

Public records designation as “Archival (Permanent Retention)” must not be destroyed. Records designated as “Archival (Appraisal Required)” must be appraised by the Washington State Archives before disposition. Public records must not be destroyed if they are subject to ongoing or reasonably anticipated litigation. Such public records must be managed in accordance with the agency’s policies and procedures for legal holds. Public records must not be destroyed if they are subject to an existing public records request in accordance with chapter 42.56 RCW. Such public records must be managed in accordance with the agency’s policies and procedures for public records requests.

Revocation of previously issued records retention schedules
All previously issued records retention schedules to the Department of Health and its predecessors are revoked. The Department of Health must ensure that the retention and disposition of public records is in accordance with current, approved records retention schedules.

Authority
This records retention schedule was approved by the State Records Committee in accordance with RCW 40.14.050 on June 5, 2019.

Signature on File
For the State Auditor: Al Rose
For the Attorney General: Suzanne Becker
For the Office of Financial Management: Gwen Stamey
The State Archivist: Steve Excell
## REVISION HISTORY

<table>
<thead>
<tr>
<th>Version</th>
<th>Date of Approval</th>
<th>Extent of Revision</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.0</td>
<td>December 5, 2012</td>
<td>Consolidation and major revision of all existing disposition authorities.</td>
</tr>
</tbody>
</table>
| 1.1     | December 4, 2013 | Revisions to the Program Management, Investigations, Environmental Health, Healthcare Professions, Shellfish Operations, Radiation Facility and Professional Licensing and Radionuclide Free Food Certifying, and Legacy Records sections, with other minor revisions for clarification. Addition of the Indoor Air Quality section. Addition of the Healthcare Professional Credential Applications – Imaged Source Records series approving destruction of the paper copies of Healthcare Professional Credential Applications that have been scanned. Major changes include:  
- Designations of all Permanent Archival Records after appraisal by the Archives;  
- Designations of all Essential Records;  
- Retention cut-offs simplified, wherever possible; and,  
- Addition of a Subject Index and Essential Records Index. |
| 1.4     | June 5, 2019    | Minor revisions to the Licenses, Permits, Credentials section for functions transferred from the Department of Social and Health Services as part of the Behavior Health Initiative and for functions transferred to the Office of the Insurance Commissioner relating to Independent Review Organizations. |
For assistance and advice in applying this records retention schedule, please contact the Department of Health’s Records Officer or Washington State Archives at:

1. AGENCY MANAGEMENT

This section covers records relating to the overarching management of agency business and its general administration not currently covered by the State Government General Records Retention Schedule.

See State Government General Records Retention Schedule for additional records relating to agency management.

### 1.1 EXECUTIVE LEVEL RECORDS

Records relating to the executive level of the agency not currently covered by the State Government General Records Retention Schedule.

<table>
<thead>
<tr>
<th>DISPOSITION AUTHORITY NUMBER (DAN)</th>
<th>DESCRIPTION OF RECORDS</th>
<th>RETENTION AND DISPOSITION ACTION</th>
<th>DESIGNATION</th>
</tr>
</thead>
<tbody>
<tr>
<td>12-12-68386 Rev. 1</td>
<td><em>Agency-Wide Accreditation Files</em>&lt;br&gt;Records created or used in development of applications for agency-wide certifications submitted to national accreditation programs. The certification process assists the agency to continually improve its performance and transparency. May include but is not limited to agency plans, policies, procedures, reports, performance measurements, and statistics. Includes, but is not limited to:&lt;br&gt;&lt;li&gt;Public Health Standard Accreditation Files.&lt;/li&gt;</td>
<td>Retain for 6 years after accreditation then Destroy.</td>
<td>NON-ARCHIVAL NON-ESSENTIAL OPR</td>
</tr>
</tbody>
</table>
1.2 RISK MANAGEMENT

Records relating to the identifying and migrating risks to the state government agency including disaster preparedness not currently covered by the State Government General Records Retention Schedule.

<table>
<thead>
<tr>
<th>DISPOSITION AUTHORITY NUMBER (DAN)</th>
<th>DESCRIPTION OF RECORDS</th>
<th>RETENTION AND DISPOSITION ACTION</th>

<td>Accidents/Incidents (Hazardous Materials) – Human Exposure</td>
<td>Retain for 100 years after individual’s date of birth or 30 years after individual’s date of death, whichever is sooner then Destroy.</td>
<td>NON-ARCHIVAL ESSENTIAL (for Disaster Recovery) OPR</td>
</tr>
</tbody>
</table>

Records documenting accidents and incidents, occurring on agency property or to agency staff that involve human exposure to potentially hazardous materials. Includes, but is not limited to:
- Description of accident/incident, response, and investigation;
- Personal exposure information, physical examination reports, etc.;
- Analyses of medical or exposure records (WAC 296-802-20015);
- Other records as specified (or excluded) in WAC 296-802-20010.

Hazardous materials include, but are not limited to:
- Toxic substances or harmful physical agents as defined by CFR 1910.1020(c)(13);
- Hazardous materials as defined by RCW 70.136.020;
- Dangerous waste, extremely dangerous waste, hazardous substances or hazardous waste as defined by RCW 70.105.010; and
- Pesticides as defined by RCW 15.58.030.

Excludes records of exposure of agency employees (includes contractors and volunteers) covered by Employee Medical and Exposure Records (DAN GS 03039).

Note: There is no limitation of action on the agency’s liability for the exposure of individuals to hazardous materials.
## 1.2 RISK MANAGEMENT

Records relating to the identifying and migrating risks to the state government agency including disaster preparedness not currently covered by the State Government General Records Retention Schedule.

GLOSSARY

Appraisal
The process of determining the value and disposition of records based on their current administrative, legal, and fiscal use; their evidentiary and informational or research value; and their relationship to other records.

Archival (Appraisal Required)
Public records which may possess enduring legal and/or historic value and must be appraised by the Washington State Archives on an individual basis. Public records will be evaluated, sampled, and weeded according to archival principles by archivists from Washington State Archives (WSA). Records not selected for retention by WSA may be disposed of after appraisal.

Archival (Permanent Retention)
Public records which possess enduring legal and/or historic value and must not be destroyed. State government agencies must transfer these records to Washington State Archives (WSA) at the end of the minimum retention period. WSA will not sample, weed, or otherwise dispose of records fitting the records series description designated as “Archival (Permanent Retention)” other than the removal of duplicates.

Disposition
Actions taken with records when they are no longer required to be retained by the agency. Possible disposition actions include transfer to Washington State Archives and destruction.

Disposition Authority Number (DAN)
Control numbers systematically assigned to records series or records retention schedules when they are approved by the State Records Committee.
Essential Records
Public records that state government agencies must have in order to maintain or resume business continuity following a disaster. While the retention requirements for essential records may range from very short-term to archival, these records are necessary for an agency to resume its core functions following a disaster.

Security backups of these public records should be created and may be deposited with Washington State Archives in accordance with Chapter 40.10 RCW.

Non-Archival
Public records which do not possess sufficient historic value to be designated as “Archival”. Agencies must retain these records for the minimum retention period specified by the appropriate, current records retention schedule.

Agencies should destroy these records after their minimum retention period expires, provided that the records are not required for litigation, public records requests, or other purposes required by law.

Non-Essential Records
Public records which are not required in order for an agency to resume its core functions following a disaster, as described in Chapter 40.10 RCW.

OFM (Office Files and Memoranda)
Public records which have been designated as “Office Files and Memoranda” for the purposes of RCW 40.14.010.

(2) “Office files and memoranda include such records as correspondence, exhibits, drawings, maps, completed forms, or documents not above defined and classified as official public records; duplicate copies of official public records filed with any agency of the state of Washington; documents and reports made for the internal administration of the office to which they pertain but not required by law to be filed or kept with such agency; and other documents or records as determined by the records committee to be office files and memoranda.”

OPR (Official Public Records)
Public records which have been designated as “Official Public Records” for the purposes of RCW 40.14.010.

(1) “Official public records shall include all original vouchers, receipts, and other documents necessary to isolate and prove the validity of every transaction relating to the receipt, use, and disposition of all public property and public income from all sources whatsoever; all agreements and contracts to which the state of Washington or any

GLOSSARY
agency thereof may be a party; all fidelity, surety, and performance bonds; all claims filed against the state of Washington or any agency thereof; all records or documents required by law to be filed with or kept by any agency of the state of Washington; ... and all other documents or records determined by the records committee... to be official public records.”

Public Records
“... The term "public records" shall include any paper, correspondence, completed form, bound record book, photograph, film, sound recording, map drawing, machine-readable material, compact disc meeting current industry ISO specifications, or other document, regardless of physical form or characteristics, and including such copies thereof, that have been made by or received by any agency of the state of Washington in connection with the transaction of public business...”

Records Series
A group of records, performing a specific function, which is used as a unit, filed as a unit, and may be transferred or destroyed as a unit. A records series may consist of a single type of form or a number of different types of documents that are filed together to document a specific function.

State Records Committee
The committee established by RCW 40.14.050 to review and approve disposition of state government records.
Its four members include the State Archivist and one representative each from the Office of the Attorney General, Office of the State Auditor, and the Office of Financial Management.

SUBJECT INDEX

Note: The use in this index of SGGRRS refers to the State Government General Records Retention Schedule.

A

accidents/incidents
  hazardous materials ........................................... 8
  not involving hazardous materials........ see SGGRRS
  agency-wide.................................................. 7
  healthcare professional education providers.... 38
  program level................................................. 11
adjudicative audio recordings............................. 48
adjudicative clerk files....................................... 48
adult hemoglobin specimen cards ......................... 59
adverse event reports......................................... 57
air emissions (radioactive) facility files ................. 43
alcohol program certifications .............................. 25
animal importation documents ............................. 16
audits .......................................................... see SGGRRS

B

background checks............................................. 38
backups .......................................................... see SGGRRS
bat importation documents .................................. 16
Behavioral Risk Factor Surveillance System ............ 52
bids (contracts) .................................................. see SGGRRS
bills (legislation) .............................................. see SGGRRS
biotoxins
  bulletins ................................................................ 21
  commercial closure log ..................................... 21
  test reports ..................................................... 63
birth records ..................................................... 66
budgets ........................................................... see SGGRRS

C

Cancer Registry .................................................... 51
certificate of need
  application files .............................................. 31
  facility files .................................................... 31
charity care
  complaints ..................................................... 57
  policies .......................................................... 57
CHARS ............................................................ 52
chemical dependency treatments
  patient records (closed agencies) ............... 32
  program certification ................................... 25
children with special needs tracking systems ....... 13
chronic condition statistics ................................. 51
collaborative drug therapy agreements ................. 58
communicable disease outbreak investigations ....... 17
community health
  planning and implementation records ............... 64
complaints ....................................................... see SGGRRS
complaints (healthcare facilities) ......................... 48
complaints (healthcare professionals) ................. 48
compliance/post-order files ................................. 49
Comprehensive Hospital Abstract Reporting System
  ............................................................................. 52
correspondence
  executive ......................................................... see SGGRRS
  general ............................................................ see SGGRRS
  program .......................................................... see SGGRRS
  radiation protection program ......................... 41
credential renewal notices (healthcare professionals)
  ............................................................................. 34
cross connection annual summary reports .......... 27
cross connection control data .............................. 28
cultural review files ........................................... 27
cytogenetic testing applications ......................... 13
INDEX TO:
SUBJECTS

D
data sharing agreements .................. see SGGRRS
death records .................................. 66
Death with Dignity Act
compliance forms .................................. 50
delayed birth records .......................... 66
dietary disease specimen cards ........ 59
disease cluster investigations ............. 23
disease statistics .................................. 51
divorce records .................................. 66
dog importation documents ................ 16
domestic partnership records .............. 66
drinking water systems
bacteriology laboratory test results ........ 63
cross connection annual summary reports .. 27
cross connection control data ............... 28
cultural review files .......................... 27
data tracking systems ........................ 28
enforcement action tracking ............... 28
enforcement case files ....................... 49
engineering/planning project files – approved . 29
engineering/planning project files –
disapproved/withdrawn ...................... 25
operating permit data ........................ 28
operating permit fee statements .......... 28
privacy records ................................ 11
sampling notifications ....................... 29
sanitary surveys ................................ 28
water conservation reports ............... 28
waterworks operator applications-approved .. 30
drug lab cleanup credential applications .... 34
drug loss/destruction reports .............. 58
drug program certifications ................. 25

E
emergency cardiac/stroke categorization .... 56
emergency response
incident (radioactive ) records .............. 55
incident records .................................. 55
medical supply records ........................ 55
EMS training course files - approved ...... 35
EMS training program files - approved .... 35
engineering/planning project files –
disapproved/withdrawn ...................... 25
environmental chemistry laboratory test results .. 63
environmental health
assessments, studies, research projects .... 23
environmental radiation
laboratory test results .......................... 62
projects ........................................... 23
sampling records ................................ 24
site monitoring and assessment files .... 24
testing quality control and assurance .... 61
equipment calibration and testing (radiation
protection) ........................................ 41
ergonomic assessment reports .............. 9
