This schedule applies to: **School Districts and Educational Service Districts**

**Scope of records retention schedule**
This records retention schedule covers the public records of School Districts and Educational Service Districts relating to the function of education. It is to be used in conjunction with the *Local Government Common Records Retention Schedule (CORE)*, which can be found at:

**Disposition of public records**
Public records covered by records series within this records retention schedule (regardless of format) must be retained for the minimum retention period as specified in this schedule. Washington State Archives strongly recommends the disposition of public records at the end of their minimum retention period for the efficient and effective management of local resources.

Public records designated as Archival or Permanent must not be destroyed. Records designated as Potentially Archival must be appraised by the Washington State Archives before disposition. Public records must not be destroyed if they are subject to ongoing or reasonably anticipated litigation. Such public records must be managed in accordance with the agency’s policies and procedures for legal holds. Public records must not be destroyed if they are subject to an existing public records request in accordance with RCW 42.56. Such public records must be managed in accordance with the agency’s policies and procedures for public records requests.

**Revocation of previously issued records retention schedules**
All previous versions of the *School Districts and Educational Service Districts Records Retention Schedules* are revoked. Agency heads should take measures to ensure that the retention and disposition of public records is in accordance with current, approved records retention schedules.

**Authority**
This records retention schedule was approved by the Local Records Committee in accordance with RCW 40.14.070 on July 30, 2009.

For the Attorney General: Cindy Evans  
For the State Auditor: Mark Rapozo  
The State Archivist: Jerry Handfield

4.4. PAYROLL

*The activity relating to the monetary compensation of employees on a periodic basis.*

The district must be aware that it is responsible for providing information for the Washington State Department of Retirement Systems’ audits of employee pay history. This information includes hours worked and gross pay per calendar month for the entire term of each employee’s employment with the district. Such information must be retained for at least 60 years. Choice of records series for long-term verification of retirement eligibility should be confirmed with the Washington State Department of Retirement Systems. Chosen records series may be retained on microfilm instead of hard copy.

GLOSSARY

Archival
Public records which possess enduring legal and/or historic value and must not be destroyed. Local government agencies must either transfer these records to Washington State Archives or retain and preserve these records according to archival best practices until such time as they are transferred to Washington State Archives.

Essential
Public records that local government agencies must have to maintain or resume business continuity following a disaster. The retention requirements for these records may range from very short-term to archival, but are necessary for an agency to resume its core functions following a disaster.

Security backups of these public records must be created and deposited with Washington State Archives in accordance with RCW 40.10.

OFM
Public records which have been designated as “Office Files and Memoranda” for the purposes of RCW 40.14.010.

OPR
Public records which have been designated as “Official Public Records” for the purposes of RCW 40.14.010.

Permanent
These records must not be destroyed. Permanent records which are not designated as archival or potentially archival must remain in the agency’s legal custody.

Potential Archival Value and Potentially Archival
Public records whose enduring legal and/or historic value must be appraised by Washington State Archives on an individual basis. Public records will be reviewed for sampling/selective retention by archivists from Washington State Archives. Records not selected for retention by Washington State Archives may be disposed of after appraisal.

Record Series
A group of records, performing a specific function, which is used as a unit, filed as a unit, and may be transferred or destroyed as a unit. A records series may consist of a single type of form or a number of different types of documents that are filed together to document a specific function.
