This schedule applies to: Utility Service Providers

Scope of records retention schedule
This records retention schedule authorizes the destruction/transfer of public records of all local government agencies relating to the unique functions of providing utility services (power generation/distribution, water, sewer, irrigation water, and solid waste management, surface water drainage, etc.). The schedule is to be used in conjunction with the Local Government Common Records Retention Schedule (CORE), which authorizes the destruction/transfer of public records common to all local government agencies.

Disposition of public records
Public records covered by records series within this records retention schedule must be retained for the minimum retention period as specified in this schedule. Washington State Archives strongly recommends the disposition of public records at the end of their minimum retention period for the efficient and effective management of local resources.

Public records designated as Archival (Permanent Retention) or Non-Archival (with a retention period of “Life of the Agency” or “Permanent”) must not be destroyed. Records designated as Archival (Appraisal Required) must be appraised by the Washington State Archives before disposition. Public records must not be destroyed if they are subject to ongoing or reasonably anticipated litigation. Such public records must be managed in accordance with the agency’s policies and procedures for legal holds. Public records must not be destroyed if they are subject to an existing public records request in accordance with chapter 42.56 RCW. Such public records must be managed in accordance with the agency’s policies and procedures for public records requests.

Revocation of previously issued records retention schedules
All previously issued records retention schedules for records that are covered by this retention schedule are revoked. Local government agencies must ensure that the retention and disposition of public records is in accordance with current, approved records retention schedules.

Authority
This records retention schedule was approved by the Local Records Committee in accordance with RCW 40.14.070 on June 2, 2021.

<th>Date of Approval</th>
<th>Extent of Revision</th>
</tr>
</thead>
<tbody>
<tr>
<td>Initial</td>
<td>1981</td>
<td>First public utilities retention schedule.</td>
</tr>
<tr>
<td>1.0</td>
<td>December 2, 2010</td>
<td>All records series relating to the provision of public utilities were transferred from the <em>Local Government General Records Retention Schedule (LGGRRS) Ver. 5.1</em>. Records series prefix changed from GS to UT, and all notes about previous revisions and corrections removed. Some titles were shortened by removing functions/activities (“UTILITIES ACCOUNTING”, “ELECTRIC POWER GENERATION”, etc.). Electric Utilities section was restructured, and three new records series added: two to Power Generation, and one to Power Distribution. An additional series covering critical cyber assets was added, and additional series were revised. (See Revision Guide.)</td>
</tr>
<tr>
<td>1.1</td>
<td>April 26, 2012</td>
<td>Added new series related to nuclear power utilities. Updated format and disposition actions for consistency. (No Revision Guide issued.)</td>
</tr>
<tr>
<td>1.3</td>
<td>May 18, 2017</td>
<td>Minor revisions to the Asset Management – Advice and Technical Assistance; Irrigation Utilities; Surface Water Drainage Documentation; and Utilities Accounting sections as well as formatting updates throughout the schedule.</td>
</tr>
<tr>
<td>1.4</td>
<td>February 6, 2019</td>
<td>Minor revisions to the Asset Management – Security; Power Generation; and Solid Waste Management sections as well as formatting updates throughout the schedule.</td>
</tr>
<tr>
<td>1.5</td>
<td>June 2, 2021</td>
<td>Minor revisions to the Agency Management—Reporting; Asset Management—Electronic Information Systems; Power Distribution; Power Generation; Sewer and Water Systems Documentation; and Utilities Accounting sections.</td>
</tr>

1. AGENCY MANAGEMENT

The function relating to the overarching management of the local government agency and its general administration, where not covered by the Local Government Common Records Retention Schedule (CORE).

1.1 PLANNING, MISSION, AND CHARTER

The activity of documenting and determining the local government agency’s objectives, and the means for obtaining them.

<table>
<thead>
<tr>

<td>Forecasts – Electric Utilities</td>
<td>Retain for 3 years then Transfer to Washington State Archives for appraisal and selective retention.</td>
<td>ARCHIVAL (Appraisal Required) NON-ESSENTIAL OFM</td>
</tr>
</tbody>
</table>

Includes forecasts of estimated power loads, future income, receipts and expenditures in connection with financing, construction and operations, including acquisitions and disposals of properties or investments prepared for internal administrative or operating purposes.

Note: See 18 CFR §125.3 39.
## 1.2 REPORTING

The activity of reporting information relating to the agency as required by federal, state, and local law.

<table>
<thead>
<tr>

</tbody>
</table>

Records documenting the reporting of plant issues requiring cause analysis and meeting the criteria of Lifetime Quality Assurance Records.

Lifetime Quality Assurance Records as defined by American National Standards Institute (ANSI) standard N45.2.9 and relating to the identification, cause, and corrective action of a condition adverse to quality.

Includes, but is not limited to:

- Failures, malfunctions, deficiencies, and deviations;
- Defective material and equipment;
- Nonconformance.

Note: See ANSI N45.2.9-1974 Appendix A reference to Nonconformance Reports and ANSI N45.2.9-1974 section 2.2.1 for definition of Lifetime Quality Assurance Record.
1.2 REPORTING

### 2.5 SECURITY

*The activity of protecting the agency’s assets against danger, loss, or threat.*

<table>
<thead>
<tr>
<th>DISPOSITION AUTHORITY NUMBER (DAN)</th>
<th>DESCRIPTION OF RECORDS</th>
<th>RETENTION AND DISPOSITION ACTION</th>
<th>DESIGNATION</th>
</tr>
</thead>
</table>
| UT2019-001 Rev. 0                  | *Authorization – Nuclear Facility Access (Denials)*  
Records documenting the denial of unescorted access at a nuclear facility.  
Excludes records covered by *Authorization – Employee Access (DAN GS2010-002)*.  
*Note: Retention based on Nuclear Energy Institute guidance document NEI 03-05’s requirement that denials be retained permanently.* | Retain until plant decommissioned  
then  
Destroy. | NON-ARCHIVAL  
NON-ESSENTIAL OPR |
| UT2010-088 Rev. 1                  | *Security – Cyber Vulnerability Assessments (Electric Power Agencies)*  
Records documenting annual vulnerability assessments of an electric power system agency’s Critical Cyber Assets (CCA) in accordance with CIP-005-5.  
Includes, but is not limited to:  
- Access control lists;  
- All access and external connection points (physical and electronic);  
- Multiple user accounts and account passwords;  
- Network management and protocols;  
- IP addresses;  
- Final report of assessment.  
*Note: Records relating to cyber security at a nuclear facility are covered by either Security Monitoring (Nuclear Facilities) – Incident (DAN UT2012-010) or Security Monitoring (Nuclear Facilities) – No Incident (DAN UT2012-011).* | Retain for 3 years after end of calendar year  
and  
investigations completed/ violations corrected (if any)  
then  
Destroy. | NON-ARCHIVAL  
NON-ESSENTIAL OPR |
## 2.5 SECURITY

The activity of protecting the agency’s assets against danger, loss, or threat.

<table>
<thead>
<tr>

<td>ARCHIVAL (Appraisal Required) ESSENTIAL (for Disaster Recovery) OPR</td>
</tr>
</tbody>
</table>

Records relating to the investigation of threats, thefts, and sabotage (actual or suspected) relating to special nuclear material, high-level radioactive wastes, nuclear facilities, and other radioactive materials and activities regulated by the United States Nuclear Regulatory Commission (U.S.NRC), where an incident has occurred.

Includes, but is not limited to:

- Investigation records and reports;
- Routine patrol logs;
- Access/entry logs;
- Vital area door tests;
- Records relating to the protection of safety-related systems.

Excludes official agency policy and procedure directives and plans (physical security, local law enforcement, cyber security, etc.) covered by Official Agency Policy and Procedure Directives, Regulations and Rules (DAN GS50-01-24) in the Local Government Common Records Retention Schedule (CORE).

Note: See 10 CFR 73.54 and 10 CFR 73.55.

Note: If litigation commences, these records become part of the litigation case file and are covered by GS53-02-04.

Note: Records designated as Safeguards or other records that could hinder the security objectives of the nuclear facility per 10 CFR 2.390 shall be retained at the nuclear facility.
### 2.5 SECURITY

*The activity of protecting the agency’s assets against danger, loss, or threat.*

</tr>
</tbody>
</table>

Records relating to the implementation of security programs and contingency plans designed to prevent (and respond to) threats, thefts, and sabotage relating to special nuclear material, high-level radioactive wastes, nuclear facilities, and other radioactive materials and activities regulated by the United States Nuclear Regulatory Commission (U.S.NRC), *where no incident has occurred.*

Includes, but is not limited to:

- Routine patrol logs;
- Access/entry logs;
- Vital area door tests;
- Records relating to the protection of safety-related systems.

Excludes official agency policy and procedure directives and plans (physical security, local law enforcement, cyber security, etc.) covered by *Official Agency Policy and Procedure Directives, Regulations and Rules (DAN GS50-01-24)* in the *Local Government Common Records Retention Schedule (CORE).*

*Note: See 10 CFR 73.54 and 10 CFR 73.55.*
## 2.5 SECURITY

The activity of protecting the agency’s assets against danger, loss, or threat.

| UT2021-003 Rev. 0                 | **Security—Reportable Cyber Security Incidents (Electric Power Agencies)**  
Records documenting electric power system agency reportable cyber security incidents and resulting response actions in accordance with CIP-005-3 and CIP-008-5.  
Includes, but not limited to:  
- All access and external connection points (physical and electronic);  
- Original and revised versions of Cyber Security Incident response plan(s);  
- Initial notices to the Electricity Sector Information Sharing and Analysis Center (ES-ISAC);  
- Incident handling (e.g., containment, eradication, recovery/incident resolution);  
- Incident reports, logs, and notes kept during incident response process, and follow-up documentation;  
- Security logs, police reports, emails, response forms or checklists, forensic analysis results, restoration records, and post-incident review notes;  
- “Lessons-learned” reports, notes, logs, and communications from tests;  
- Evidence of plan update distribution including, but not limited to emails, USPS or other mail service, electronic distribution system, or training sign-in sheets.  

*Note: Records relating to cyber security at a nuclear facility are covered by either Security Monitoring (Nuclear Facilities) – Incident (DAN UT2012-010) or Security Monitoring (Nuclear Facilities) – No Incident (DAN UT2012-011).* | **Retain** for 3 years after date of incident  
*and*  
investigations completed/violations corrected (if any)  
*then*  
**Destroy.** | NON-ARCHIVAL  
NON-ESSENTIAL OPR |
3. HUMAN RESOURCE MANAGEMENT

The function of managing the local government agency’s workforce, where not covered by the *Local Government Common Records Retention Schedule (CORE)*.

### 3.1 OCCUPATIONAL HEALTH AND SAFETY

*The activity of creating and maintaining a safe and healthy work environment for employees.*

|                                   | Includes records defined as “Nonpermanent Quality Assurance Records” in accordance with ANSI N45.2.9 – 1974, Section 2.2.2.  
|                                   | Includes, but is not limited to:  
|                                   |   • Confined space permit logs;  
|                                   |   • Transient material permits;  
|                                   |   • Shift turnover sheets.  
|                                   | Excludes records covered by:  
|                                   |   • Employee Assignment History – Radiological (DAN UT2012-012);  
|                                   |   • Radiological/Contamination Monitoring (DAN UT2012-008).  
|                                   | Note: See ANSI N45.2.9 Appendix A sections A.6 for additional examples.                |                                                 |                                  |
| UT55-05D-12 Rev. 0                | **Pollution Reports/Studies**                                                          | Retain for 10 years then Transfer to Washington State Archives for appraisal and selective retention. | ARCHIVAL (Appraisal Required) ESSENTIAL (for Disaster Recovery) OFM |
|                                   | Documentation and data compiled on to waste accumulation and pollution generated by or around facilities. Does not include hazardous materials.  
<p>|                                   | Note: For documentation of pollution involving hazardous materials, see GS50-19-03 and GS50-19-06 in the Local Government Common Records Retention Schedule (CORE). |                                                 |                                  |</p>

Excludes records covered by Utility Meter Readings – For Billing (DAN UT55-05B-18). | Retain until no longer needed for agency business  
then  
Destroy. | NON-ARCHIVAL NON-ESSENTIAL OFM |
GLOSSARY

ANI
American Nuclear Insurers.
A joint underwriting association created by insurance companies in the United States with a purpose to pool the financial assets pledged by member companies to provide the significant amount of property and liability insurance required for nuclear power plants and related facilities throughout the world.

ANSI
American National Standards Institute.
A private not-for-profit organization with a purpose to coordinate the development of voluntary consensus standards for products, processes and systems in the United States.

Appraisal
The process of determining the value and disposition of records based on their administrative, legal, and fiscal use; their evidential and informational or research value; and their relationship to other records.

Archival (Appraisal Required)
Designation for public records that may possess enduring legal and/or historical value and must be appraised by the Archives. Such records are to be evaluated, sampled, and weeded according to archival principles by Archives staff. Records appraised as non-archival may be destroyed after their retention has been met.

Archival (Permanent Retention)
Designation for public records that possess enduring legal and/or historical value and must not be destroyed. State government agencies must transfer these records to the Archives at the end of their minimum retention period. Local government agencies must either transfer these records to the Archives or retain and preserve them according to archival best practice until transferred to the Archives. Other than removing and disposing of duplicates, the Archives will not sample, weed, or otherwise dispose of records with this designation.

BAL
Resource and Demand Balancing reliability standards.
Standards issued by the North American Electric Reliability Corporation to which bulk electric systems of North America must adhere.
**CFR**

*Code of Federal Regulations.*
The codification of the general and permanent rules published in the Federal Register by the executive departments and agencies of the Federal Government.

**CIP**

*Critical Infrastructure Protection.*
Standards issued by the North American Electric Reliability Corporation to which bulk electric systems of North America must adhere.

**Disposition**

*Actions taken with records when they are no longer required to be retained by an agency. Possible disposition actions include transfer to the Archives and destruction.*

**Disposition Authority Number (DAN)**

*Control number for a specific records series in a retention schedule that authorizes a retention period and disposition action for records belonging to that series.*

**Essential Records**

*Public records that agencies must have in order to maintain or resume business continuity or to document the legal standing and rights of individuals and organizations. While the retention requirements for essential records may range from very short-term to archival, these records are necessary for an agency to resume its core functions following a disaster. Security backups of these public records should be created and may be deposited with the Archives in accordance with chapter 40.10 RCW. Copies of master indexes, lists, registers, tracking systems, databases, and other finding aids should also be transferred with the records.*

**INT**

*Interchange Scheduling and Coordination reliability standards.*
Standards issued by the North American Electric Reliability Corporation to which bulk electric systems of North America must adhere.

**IRO**

*Interconnection Reliability Operations and Coordination reliability standards.*
Standards issued by the North American Electric Reliability Corporation to which bulk electric systems of North America must adhere.
Lifetime Quality Assurance Records (as defined in ANSI N45.2.9 – 1974, Section 2.2.1)

2.2.1 Lifetime Quality Assurance Records. Lifetime records are those which meet one or more of the following criteria:

1. Those which would be of significant value in demonstrating capability for safe operation.
2. Those which would be of significant value in maintaining, reworking, repairing, replacing, or modifying the item.
3. Those which would be of significant value in determining the cause of an accident or malfunction of an item.
4. Those which provide required baseline data for inservice inspection.

Local Records Committee

Committee established by RCW 40.14.070 to review and approve disposition of local government records through records retention schedules. The Committee’s three members include the State Archivist and one representative each from the Office of the Attorney General and the State Auditor.

Non-Archival

Designation given to public records that do not possess sufficient historical value to be designated as “Archival.” Agencies must retain these records for the minimum retention period specified by the appropriate current records retention schedule. Agencies should destroy these records after their minimum retention period expires, provided the records are not required for litigation, public records requests, or other purposes required by law.

Non-Essential Records

Public records which are not required in order for an agency to resume its core functions following a disaster, as described in chapter 40.10 RCW.

Nonpermanent Quality Assurance Records (as defined in ANSI N45.2.9 – 1974, Section 2.2.2)

2.2.2 Nonpermanent Quality Assurance Records. Nonpermanent Records are those which meet all of the following criteria:

1. Those of no significant value in demonstrating capability for safe operation.
2. Those of no significant value in maintaining, reworking, repairing, replacing, or modifying the item.
3. Those of no significant value in determining the cause of an accident or malfunction of an item.
4. Those which do not provide baseline data for inservice inspection.

OFM (Office Files and Memoranda)

Public records not defined and classified as official public records in RCW 40.14.010 and other documents or records as determined by the records committee to be office files and memoranda.
**OPR (Official Public Records)**

Public records necessary to document transactions relating to public property, public finances, and other agency business, or records determined by the records committee to be official public records.

**Public Records**

Records that have been created or received by any government agency in Washington State in connection with the transaction of public business regardless of physical form or characteristics.

**Records Series**

A group of records performing a specific function, which is used as a unit, filed as a unit, and may be transferred or destroyed as a unit. A records series may consist of a single type or a number of different types of documents that are filed together to document a specific function.

**State Records Committee**

Committee established by RCW 40.14.050 to review and approve disposition of state government records. Its four members include the State Archivist and one representative each from the Office of the Attorney General, Office of the State Auditor, and the Office of Financial Management.

**U.S.NRC**

**United States Nuclear Regulatory Commission.**

An independent agency of the United States government with a purpose to regulate commercial nuclear power plants and other uses of nuclear materials, such as in nuclear medicine, through licensing, inspection, and enforcement of its requirements.
