Enriching the lives of children with special needs, supporting their families & strengthening communities through the sport of fishing.

C.A.S.T. for Kids Program

Our flagship program, where children with special needs (ages 6-18) and their caretakers come together with community volunteers for a fun day of fishing, and a refreshing break from their daily challenges. Our goal is to spread a positive message that kids with disabilities can accomplish anything.

Fishing Kids Program

Built around the slogan "Getting more kids fishing, more often," this program is designed to introduce and engage urban youth in the sport of fishing, providing fishing opportunities they might not have otherwise have access to.

Take a Warrior Fishing Program

Designed to support military personnel and their families, this program creates an adaptive community-based outdoor recreation experience through the sport of fishing. Our goal is to restore the disconnect by increasing family interaction, encouraging outdoor recreation, and supporting positive, social interactions that help transitioning service members rebuild connections with the civilian world.
