To shape the future of Southwest Washington through philanthropy. We do so by receiving and managing funds to build a permanent endowment that addresses the unmet needs of our community. We grant funds to support worthy projects in the areas of social and human services, arts and culture, education, and quality of life. We provide a flexible way for donors, with varied philanthropic desires, to effect positive changes in their particular areas of interest. We act as a leader in the local philanthropic community, identifying and exploring important issues and concerns, and shaping effective responses.

Friends of the Children connects young children facing the highest risks with paid, professional mentors who serve as advocate, coach and motivator. Children facing challenges including poverty, homelessness and poor academic performance and family histories of domestic violence and substance abuse -are selected in Kindergarten, and receive mentoring through high school graduation. Our unique strength is that our mentors (called Friends) are full-time, salaried, college-educated professionals who have previous experience working with children. Each Friend works with no more than eleven children, and meets weekly with each child. We believe that our society's most vulnerable, children have the potential to rise above adverse circumstances if given the opportunity. Our Friends provide that opportunity. Potential to build a learning mindset, learn life skills, and plan for their future.

Through a safe all-girl environment, Girl Scouts offers an endless array of activity choices to meet the needs and interests of all girls ages 5-17. Working in partnership with competent adult volunteers, Girl Scouting encourages and enables girls to develop to their fullest potential. Activities are girl planned, empowering them to practice setting and achieving goals and developing lifelong leadership skills. Girls learn the value of working with others for the benefit of all and acquire the confidence, determination and decision-making skills to deal with the critical issues they will face in today's world and beyond.

Applications for grants are considered only from tax-exempt 501(c)(3) organizations (private, non-profit organizations) with clearly defined goals aimed at solutions to, or the prevention of, important problems, either through research or the application of existing knowledge and capabilities, rather than those which deal with the consequences of problems or merely react to "needs." Also favored are proposals which address critical priorities of regional or national, rather than local, significance. Of major concern are endeavors which expand man's knowledge of himself and his world and which promote those values and activities of society leading to a happier, healthier, freer, and more-productive life.

Provides financial assistance to students from Western Washington who are entering or attending accredited institutions of higher learning which receive their fundamental support from sources other than taxes. Each student will have unrestricted choice of the institution of higher learning which he or she will attend. Awards will be made only to students who need financial assistance and will be in the amount of \$5,000 per student per year, except in those cases where the need is less. Those applying for financial assistance as first-year students should have outstanding scholastic records at their secondary schools and combined math and verbal S.A.T. scores over 1200. Recipients of assistance are not selected on the basis of scholarship alone, but on the basis of all factors which the Trustees of the Foundation consider relevant, without regard to race, sex, color, ethnic, origin, religious belief, marital status, or physical handicap.
