

# Current Congressional Districts: Estimated Deviation from Target Population

Produced by the Washington State Redistricting Commission  
December 2010

The total official population of 6,724,540 was distributed proportionally among the nine existing Congressional Districts based on 2010 district population estimates by the Small Area Estimates Program of the Washington State Office of Financial Management. The target district population is the 2010 state population equally divided among ten Congressional Districts.

Map data by United States Census Bureau and Washington State Department of Transportation.

**Estimated deviation from target population of 672,454 per Congressional District - based on official Census 2010 state population of 6,724,540.**

**Ranked by amount over target population**

7th 33,851 above target	4th 90,280 above target
6th 34,024 above target	2nd 91,463 above target
5th 50,404 above target	3rd 115,002 above target
9th 53,174 above target	8th 137,570 above target
1st 66,685 above target
