Guide to Registering Voters
Introduction

In the following pages you will find many ways to become involved and learn about the election process. People involved with elections are passionate about what they are doing, and with the help of organizations and citizens we will be able to engage new voters and assist those who have questions about the election process.

The Secretary of State’s Guide to Voter Registration Drives is designed to help political parties, voter registration drive coordinators, and volunteers understand their responsibilities and requirements when helping people register to vote.

As our state becomes increasingly diverse, we seek to make voting as inclusive and accessible as possible, and will continue to work with organizations, and provide them with tools to run successful voter registration drives.

The Basics

Vote By Mail
Washington State votes by mail.

Ballots
Ballots are mailed 18 days prior to an election.

Registration
Voters must register at least 29 days before election day to receive a ballot.

Voters’ Pamphlet
Voters’ Pamphlets are sent to every household in Washington state before your ballot.

Party Affiliation
Voters in Washington state do not register by political party.

Administration
Elections are administered by each county elections division,
Voter Eligibility

Voters must meet all of the following requirements in order to register to vote:

1. U.S. Citizen
   Permanent residency or having a green card is not citizenship.

2. Legal resident of Washington State
   A person must establish a residential address at least 30 days before Election Day.

3. At least 18 years old by Election Day
   If a person is currently 17 but will be 18 years old by Election Day, they can register to vote.

4. Not disqualified from voting due to a court order
   Only a Superior Court Judge can declare a person unable to vote due to mental incompetency. Do not assume that a person under guardianship due to mental incapacity is ineligible to vote.

5. Not under the Department of Corrections supervision for a Washington felony conviction
   A felon's right to vote is restored as long as they are no longer in prison or on community custody (supervision, parole) with the Washington State Department of Corrections (DOC). Once their right to vote is restored, a citizen must re-register to vote.

Laws & Rules

Volunteers

Anyone may register voters. Volunteers who are not eligible to vote themselves may still register others to vote.

Compensation for Volunteers

Voter registration coordinators may not compensate or reward staff members/volunteers based on the number of voters they register. However, pay or rewards are permitted for time spent registering voters (RCW 29A.84.130).

Rewards, Prizes, or Gifts

Rewards, prizes, or gifts may not be offered in exchange for registering to vote. Promotional gifts, such as buttons or candy, must be given to anyone who asks, regardless of their eligibility, party preference, or intention to register to vote.

Partisan Materials

Partisan materials cannot be handed out if your organization is a 501(c)3, or if you receive state funds.

Completed Registration Forms

Return completed registration forms no later than five days after you receive them, or at least 29 days before election day (whichever is first). New registrations and updates submitted after the deadline will take effect for the next election and will prevent voters from participating in the current election.
An organization may make discrete marks on the voter registration forms to keep track of volunteers and for quality assurance purposes.
Best Practices

Storing Completed Forms

Have a safe place set aside for completed forms. This could be a box, envelope, or other container to prevent forms from being lost or damaged.

Forms from Multiple Counties

If you have forms from many counties, it’s best to send the forms to the Secretary of State Elections Division. The state will forward the registration forms to the appropriate counties.

Collaboration

Team up with existing event organizers if there’s something going on in your city, town or campus that’s sure to draw a crowd.

Name Changes

The voter must complete a new registration if the driver’s license or state ID has the new name. (See pages 12-15)

Tracking

If your organization wants to track the number of registrations and updates submitted through MyVote, the State Elections Division can provide a unique URL. (See page 14)
Paper Registration

When using a paper voter registration form, double-check that all the required fields have been completed. Missing information can cause registrations to be delayed or rejected.

1. The residential address must be in Washington State. The residential address determines which candidates and measures will be on a voter’s ballot. PO boxes may not be used as a residential address. Include a mailing address if it is different from the residential address. The mailing address is where the ballot will be sent. The mailing address can be anywhere in the world.

2. Verify the person has answered both questions.

3. Complete this section if they are a military or overseas voter.

4. To complete the form, a person will need a Washington State driver licence, state ID number or the last 4 digits of their Social Security number. Applicants without one of these standard IDs may leave this blank but will be asked for alternative ID by their county elections department before the registration is approved.

5. If a voter was previously registered under a different name or address, please complete this section.

6. Make sure the voter signs and that the signature is clear.

By voting, we add our voice to the chorus that forms opinions and the basis for actions. - Jens Stoltenberg

MyVote

MyVote is an easy-to-use online voter portal where you can register to vote, update your address, get up-to-date voting information, including elected officials, voters’ guide, ballot drop box locations, voting center locations, online ballot and ballot status. Using MyVote to submit a new registration or voter information update requires a valid Washington State driver license or state ID.

01
Go to myvote.wa.gov and log in. New users will be given the option to “Register to Vote” by leaving the fields blank and clicking on “Continue” at the bottom.

02
Complete the Washington State Identification page, and make sure the name, date of birth and driver license or state ID number match the information exactly as it appears.

03
If the security check words are not legible, you can press the circular arrow button on the right to get a new word, or click on the audio symbol to get an audio version.
Log in to myvote.wa.gov with first and last name, and date of birth exactly as it appears in the voter registration records. If MyVote is unable to find the person in the system, ask if they registered using a name variation, such as Bill or Will.

Make sure their residential and mailing addresses are current and their registration status is active. If the residential and mailing addresses are not current, click on “Update my address”. If registration status says inactive, the person should update their address (even if their address hasn’t changed), to change their voter registration status to active.
Registration FAQs

For a complete list of FAQs, please visit our website at vote.wa.gov. We have general and election-specific FAQs, which are regularly updated. If you still have any questions that haven’t been answered, please don’t hesitate to contact us.

How can I verify a voter’s registration status?

Roughly 60% of the registration applications submitted are from people who are already registered, but who either forget that they are already registered or need to update an address. The Secretary of State’s Office has a new online portal called MyVote that allows voters to confirm whether they are already registered. MyVote also allows voters to update an address if they moved within the same county, eliminating the need to submit a new registration application.

Can a voter’s registration status change?

Yes, the same registration may have multiple transactions. For example, the same registration may:
- Become active in 2004;
- Become inactive when the voter moves in February 2005 and fails to notify the County Auditor;
- Become active again when the voter updates his or her registration in July 2005;
- Become inactive when the voter moves again in March 2006; and
- Be cancelled in 2009 if the registration remains inactive through two federal general elections.

What is an “inactive” registration?

If an election-related piece of mail is returned by the post office as undeliverable to the voter at that address, the registration is placed on “inactive” status. A voter who is on inactive status may return to active status at any time by updating his or her address, requesting a ballot, or submitting a new voter registration application. This process is pursuant to state and federal law.
Can an inactive registration be cancelled?

If the registration remains on inactive status through two consecutive federal general elections, the registration is cancelled. This is in compliance with state law and the federal National Voter Registration Act.

Is notice provided to a voter when the status of his or her registration changes?

Yes. Both state and federal law require that a notice be sent to the voter any time a change in the status of a registration occurs.

Can a registration be cancelled if the voter does not vote?

No. If the voter remains at the same address and chooses not to vote, the registration cannot be cancelled. If the voter moves, however, and election-related mail is returned to the county elections office as undeliverable, the registration will be placed on inactive status. An inactive registration can be cancelled if the voter does not vote in two federal general elections.

Can a registration be “removed” or “purged” for no reason?

No. The voter can only be cancelled for the following reasons:

- The voter requests that his or her registration be cancelled;
- The registration file duplicates another, more current, registration file for the same voter;
- The registration has been on “inactive” status through two federal general elections;
- The voter is ineligible to vote due to mental incompetence;
- The voter is ineligible to vote due to a felony conviction; or the voter dies

What if a voter wants to know why the status of a particular registration was changed?

If a voter wants to know why the status of a registration changed, or is concerned that a registration was changed in error, a voter can contact the county elections department in the county where the voter is registered to get specific information on a registration file.

Where can I find the state and federal laws that govern voter registration?
