Welcome to The USGenWeb Project! We are a group of volunteers working together to provide free genealogy websites for genealogical research in every county and every state of the United States. This Project is non-commercial and fully committed to free genealogy access for everyone.

Organization is by county and state, and this website provides you with links to all the state genealogy websites which, in turn, provide gateways to the counties. The USGenWeb Project also sponsors important Special Projects at the national level and this website provides an entry point to all of those pages, as well.

Clicking on a State link (on the left) will take you to the State's website. Clicking on the tabs above will take you to additional information and links. You can also use the drop-down menu in the upper left hand corner which will also take you to the State's website of your choice.

All of the volunteers who make up The USGenWeb Project are very proud of this endeavor and hope that you will find their hard work both beneficial and rewarding. Thank you for visiting!

## Biographical Note

Sigurda Aamot was born on July 16, 1908 in Samnanger, Norway to Ragned Haug and Magdelee Ranghilda Englesdotter Drogboda. She had two sisters: Magdalena and Marget. Sigurda's father died when she was one year old, and the family moved to Osøyro, where her mother began working at a fish cannery. At the age of thirteen, Sigurda began working at a restaurant, and later worked in a factory. Her first husband was Mr. Nordström, with whom she had her son Robert, but they were divorced prior to Sigurda's emigration to America. Sigurda and Robert left for America in December 1929, and upon arrival to the country, they went to Tacoma, Washington, where Magdalena and her husband lived.

During her first six years in Tacoma, Sigurda did housework for various families, but was unhappy with this line of employment as it kept her away from her son. In 1935, she found janitorial work, which provided her with better pay and hours. Soon after that, she met Olaf Aamot during a dinner party at her sister's house. Olaf was a logger and had changed his name from the original Norwegian spelling of Aamot to Aamot upon arrival to the United States (Sigurda herself later returned to the original spelling). Olaf and Sigurda were married in 1936 and had two children: Lynn and Arthur. In 1960, Sigurda joined the Daughters of Norway, and she also took part in Leikaring dances, which was previously involved with in Norway as well. In Tacoma, Sigurda served as a Leikaring instructor and danced at various Norwegian events, including May 17th and June 23rd. Other activities she enjoyed were oil painting and writing poetry. Sigurda returned to Norway on several occasions and was very proud to be of Viking descent. Nevertheless, she loved America and declared that she would stick with the country under any circumstances, including war with Norway.

A large, faint image of a handwritten ledger or account book. The page is filled with multiple columns and rows of text, likely representing financial or accounting records. The handwriting is cursive and somewhat difficult to read due to the low contrast and blurriness of the scan. The layout appears to be a standard ledger with columns for dates, descriptions, and monetary values.

### Introduction

Death Records from 1907-1960

Washington State Death Certificate Index 1907-1960

**Images for this title are unavailable. If you are interested in purchasing a certified copy of a death record from July 1, 1907 to 3 months before the present, please contact the Washington State Center for Health Statistics telephone contact: (360) 236-4313 or (360) 236-4312.**

In 1891, a law was passed requiring the county auditors to keep a register of all births and deaths in their counties (prior to 1891 births and deaths were not regularly recorded in Washington). By 1907, it was recognized that a state-wide register was needed, so in 1907 a law was passed which required the State Board of Health to centralize all records of births and deaths within the state.

### Introduction

This database contains the Social Security Death Index (SSDI) for those individuals who either had a Social Security card issued in Washington State, had their last residence in Washington state, or had their last benefit payment mailed to an address in Washington State just prior to their death.

### Citation:

The Social Security Administration (SSA) maintains a Death Master File, a record of approximately 70 million deaths that were reported to SSA. The SSA publicly releases the Social Security Number of deceased individuals to prevent identity theft. This allows banks and other businesses to deny the use of these inactive SSNs and prevents a living person from assuming the identity of a deceased person.

To learn more, go to: <http://www.ntis.gov/products/ssa-dmf.aspx>

The Social Security Administration does not release the SSNs of living persons.

# Welcome to the Online Historical Newspapers Website

Have you ever wished you could find links to all the online historical newspapers in one place? A place where they were listed by county and city so you could find the newspapers your ancestors read? This is the purpose of the Online Historical Newspapers Website. It is meant to be used as an aid to genealogists, historians, and other researchers.

There's a lot of work that needs to be done to this site, and with all the digitized newspapers becoming available, it's likely this project will be a continuous work-in-progress!

My goal is to first list all I can find for the United States and then go on to add newspapers for other countries. There will be also lists of resources, articles, and ideas of where to find offline historical newspapers.

These links include both free sites and subscription database websites.

**THE WALLA WALLA UNION** is rejoiced to learn that at the next session of the Legislature the Territory will be divided into as many council and representative districts as is required by law, allowing a Representative for every 2,083, and a Councilman for every 4,166 inhabitants. After the apportionment will have been made, the Union predicts that Eastern Washington will have within one vote of a majority in both Houses of the Legislature. In the new apportionment the number of council districts shall not exceed twelve, and the representative districts shall not exceed twenty-four. The present representation consists of nine in the Council and thirty in the House, creating a change in the representation in the Legislature two years hence.

The *Tacoma Times* was one of several West Coast papers founded by Edward Willis (E. W.) Scripps. Scripps' approach was to provide minimal funding for printing equipment and facilities in small or mid-sized cities. Scripps left the day-to-day operation of his newspapers in the hands of ambitious young editors who were offered stock in the company. E. H.
