2014 Digital Skills Training Grants

The purpose of this Agreement is to support Digital Skills Training projects in local libraries. Projects focus on providing training and resources to directly enhance the skills of patrons to improve their ability to navigate an increasingly digital world.

**Grant Number:** 14-DST-001  
**Award:** $4,600.00  
**Organization:** Yakima Valley Libraries  
**Title:** Yakima Valley Libraries eReaders and Tablet Outreach and Training  
**Abstract:** Yakima Valley Libraries is requesting funds to purchase nine different devices to better train our staff and patrons on using eReaders. As we continue to increase our eBook and eAudio collection we must prepare for all of the questions that our patrons may have about the use of various devices to accommodate their reading needs.

**Grant Number:** 14-DST-002  
**Award:** $45,185.00  
**Organization:** Walla Walla County Rural Library District  
**Title:** Crossing the Divide  
**Abstract:** We intend to have 14 classes taught at each of our 5 locations with an outcome of middle school children through elderly crossing or climbing the Digital Divide by acquiring new skills and knowledge with software and hardware purchased with grant funding and professional level training provided.

**Grant Number:** 14-DST-003  
**Award:** $50,000.00  
**Organization:** Whitman County Library  
**Title:** Technology Made Easy  
**Abstract:** "Technology Made Easy" will improve the digital literacy skills of community members by providing a variety of informative classes and workshops at regionally centered locations throughout Whitman County. Additionally, it will provide digital learning stations and an organized instructor pool that will support digital training well into the future.

**Grant Number:** 14-DST-004  
**Award:** $49,000.00  
**Organization:** Pierce County Library System  
**Title:** Digital PC  
**Abstract:** The Digital PC project is an initiative designed to increase digital literacy skills across the county. Pierce County Library will introduce an online service to learn coding, train staff on services, execute in-branch programming, and market a suite of services that allow residents free access to technology training.

**Grant Number:** 14-DST-005  
**Award:** $19,200.00  
**Organization:** Spokane County Library District  
**Title:** Ready for Work - Digital Skills for Employment and Workforce Development (in partnership with WorkSource Spokane)  
**Abstract:** This project is designed to bring materials, instructional sessions, and counseling sessions on employment skills, career information, and technology training to rural populations in Spokane County to increase employment and employability of Spokane County residents. We hope to reduce barriers to technology training by bringing sessions closer and providing childcare.

**Grant Number:** 14-DST-006  
**Award:** $12,480.00  
**Organization:** Longview Public Library  
**Title:** Get Connected – Computer Classes  
**Abstract:** “Get Connected” is designed to improve technology and digital skills in adults and senior citizens to help them better connect with employers, family and community, increase knowledge and awareness of available resources, and to provide a foundation for continued learning.
Grant Number: 14-DST-007    Award: $6,000.00
Organization: Port Townsend Public Library
Title: Digital Skills Project
Abstract: Digital Skills Project - Individuals will learn digital competencies with tablet computers, computer programming, be exposed to computer science and other technology careers and practice collaborating on real-life projects. Participants will acquire the ability to use technology skills independently and advance their skills according to individual interests.

Grant Number: 14-DST-008    Award: $33,644.00
Organization: Lopez Island Library
Title: Traveling Tech Trainers
Abstract: Traveling Tech Training - Weekly outreach to promote digital skills such as Microsoft IT Academy courses and other topics related to digital literacy skills and workforce development. We will target those looking to enhance their skill set and non-computer users needing basic digital skills training. The desired outcome is increased ease in using digital resources.

Grant Number: 14-DST-009    Award: $25,907.00
Organization: Nisqually Indian Tribe
Title: Digital Literacy: "Digital Literacy: Bridging Opportunity Gaps with Tech-Knowledge eTraining"
Abstract: "Digital Literacy: Bridging Opportunity Gaps with Tech-Knowledge eTraining" This project aims to literally meet Nisqually people with digital skills deficiencies where they are at, by providing in-neighborhood trainings aboard the library’s bookmobile-cum-Computer Skills Development Lab. We are planning seven sites, six sessions each. We anticipate significant measurable increases in our patrons’ ability to utilize digital tools and information.

Grant Number: 14-DST-010    Award: $21,383.00
Organization: Ellensburg Public Library
Title: Employment Seeking and Skill Building in a Digital Age
Abstract: Employment Seeking and Skill Building in a Digital Age
This project will provide a series of trainings designed to prepare unemployed and underemployed Kittitas County residents to seek employment by gaining digital literacy skills. There will be group training sessions complimented by twelve additional weeks of one-on-one help.

Grant Number: 14-DST-011    Award: $47,600.00
Organization: Yakama Nation Library
Title: Yakama Nation Library Digital Literacy Project
Abstract: Yakama Nation Library Digital Literacy Project
The Yakama Nation Library will implement the Microsoft IT Academy and digital literacy classes that help the Lower Valley community to improve digital literacy skills to connect with others, improve job skills, access online resources, introduce new technology and apply for online job opportunities.

Grant Number: 14-DST-012    Award: $38,873.00
Organization: North Central Regional Library
Title: NCRL Mobile Makerspace for Teens
Abstract: NCRL Mobile Makerspace for Teens will provide educational programs at rural NCRL branch libraries and community schools to foster the development of digital literacy skills. Teens will learn skills that will be useful for future careers by learning about programming and design for robotics, digital photography, music and video production and web design.
