

2011 eBook Reader Pilot Project Awards

In an effort to assist libraries train their staff to meet this demand the Washington State Library is developing a pilot program that will place eBook Readers in a limited number of libraries for the purpose of gathering information on the libraries experiences with using the Reader.

The goal of the pilot program is to develop "best practices." Participants in the pilot program will be expected to share their eBook reader experiences with other libraries in the state. This will be done at least twice via the Elluminate software. Participants will also be expected to contribute their information about their experiences for a proposed WLA program. One written report at the end of the program will also be expected.

Awarded Circulation Projects

Project: 11-EBC-001

Organization: Seattle Public Schools, Whitman Middle School

Title: Circulating eBook Readers for Fiction...and Non-Fiction!

Project: 11-EBC-002

Organization: Yelm High School

Title: Sharing Books with Nooks
