	Kindle app for Kindle Book format eBooks in Overdrive collection		
	Scholastic Digital [Flix series: BookFlix, TrueFlix, etc.] (Multimedia)	mobile compatible website	
	Sesame Street eBooks		
	Tumble Books (Multimedia)	mobile optimized website	
	Washington Anytime Library [OverDrive Consortium], see >> OverDrive		
	Zinio (Magazines)		

Under the Resource column, media formats are listed in parentheses, comma separation indicates that the primary app works with all formats listed, vertical bar (|) separation indicates different apps are required for each separate format listed. Alternate product names are listed in square brackets, alternate provider names in curly brackets. If a mobile app is available, its icon will be listed in the App column, otherwise the resource is only accessible via web browser. The Blio app uses a different icon image for each of its system versions (icon image order matches listed system order).

	App is universally available to iPads and iPhones (including iPod Touches)
	App is designed for the iPhone (available to, but not optimized for, iPads, e.g. smaller screen resolution, etc.)
	App is designed for iPads, not available to iPhones (or iPod Touches)
	Android App (available to Google Play devices: Nook HD +, Samsung Galaxy, Kobo Arc 7, Google Nexus, Asus Transformer)
	Android App with limitations, see below
	Android App only available to Kobo Arc 7 tablets
	Amazon Kindle Fire App (available from the Kindle Fire's Appstore)
	Windows (Surface) App
	Axis 360 app (in beta) provides access to digital collection/account, iOS device issues for libraries not requiring PINs. Per the EBSCOhost FAQ dated Sept. 2014, Audiobook and eBook Collections are not compatible with the EBSCOhost app.
website	No dedicated app, only accessible via web browser app (Android Browser, Safari, Silk, Chrome, Internet Explorer, etc.)
mobile compatible website	This generally means access to resource across mobile devices have been tested and confirmed. Video is available in formats other than Flash (which iOS devices do not support). May need to enable Flash playback in Kindle Fire Settings.
iOS compatible website	Mobile device compatibility limited to iOS devices, currently doesn't work for Android devices.
mobile optimized website	A separate website optimized for mobile devices, may offer more functionality than a merely compatible website.
<p>Techniques for installing the following Android apps (not currently available through the Kindle Appstore) onto Kindle Fire devices. Apps installed in this manner are not automatically updated.</p> <p>SlideME App Downloads:</p>  <p>Android Apps with Direct Download links:</p> 	<p>On the Kindle Fire, navigate to Device Settings (swipe down from the top of the screen to open the Settings Menu, tap More, then tap Device) and enable the option to "Allow Installation of Applications". Launch the Silk browser, available from the Apps Menu off the Home screen. If known, navigate to the given Android app's download link (see list below, files end in .apk), otherwise navigate to m.SlideME.org (or other Android store such as m.GetJar.mobi, the Google Play store, play.google.com, is not an option, because it only downloads to Google account registered devices and Kindles are Amazon account registered devices), search for and download the selected app. After download, from the Silk Browser's Navigation Panel, swipe right from the screen's left edge or tap the Navigation Menu icon  (three horizontal lines along top left corner), and tap Downloads. Install and Open the downloaded app by tapping its icon  and moving through the various prompts. For SlideME downloads, the SlideME Application Manager (SAM) will launch first before installing the Android app. Initiating a download from within the SAM app requires a free SlideME Account, to avoid this, continue to download free apps off the website via the Silk browser (installing the Zinio app through SlideMe requires the SAM app).</p> <p>http://ebookdownload.3m.com/apps/android/3mcloudlibrary.apk http://apps.axis360.org/axisreader http://apps.axis360.org/blio http://www.bluefirereader.com/files/BluefireReader.apk http://imgs.zinio.com/faq/ZinioReader.2.1.6195.KindleFire.apk</p>
