

Message about June 16 WorldShare ILL enhancements

SUBJECT: New printing options and more now added to WorldShare Interlibrary Loan

OCLC's new resource sharing service, WorldShare® Interlibrary Loan, now has new features including 2-per-page printing of book straps and requests. As a member of the Washington group, you have the unique opportunity participate in a managed migration from WorldCat Resource Sharing to the new service. It's important to take advantage of this opportunity for training in the new service before access to WorldCat Resource Sharing ends in December.

OCLC will continue to add features to WorldShare Interlibrary Loan on an ongoing basis. These additions will expand the service to deliver functionality beyond that available in WorldCat Resource Sharing, including enhancements made in response to suggestions from WorldShare Interlibrary Loan users.

New features now available in WorldShare Interlibrary Loan that are not available in WorldCat Resource Sharing are:

- 2-per-page book strap printing
- 2-per-page request printing
- Completion of recalled requests. Allows you to remove recalled requests from your queue of active transactions

“Reasons for No” have also been expanded:

- Two new reasons added to both WorldShare Interlibrary Loan and WorldCat Resource Sharing are: “Offsite” and “Too new to lend.”
- Reasons in WorldShare Interlibrary Loan now match those in WorldCat Resource Sharing

Visit the list of [future functionality](#) to see updates on plans for future enhancements to the new service.

If you have not already registered for WorldShare ILL, please register at [Washington registration form](#).

Training for Washington libraries will be held at 11 am Pacific time:

- WorldShare Interlibrary Loan Getting Started-
 - Tuesday, July 16 [Register](#)
