

**WA OSOS RFI 16-04 Elections Modernization System
Amendment 8
Q&A December 7, 2015**

Q47: We have been working with a few of our partners in this space and devising potential strategies for a joint response to any upcoming RFPs, as we remain interested in the final solution, but don't have specific packages available to address the needs of the RFI. For purposes of the RFI, does the Secretary of State require a formal response from stating our overall interest in the project?

A47: No formal response is necessary. Response is not required. However for clarification, response to the RFI is not intended to be in reference to the particular solution you intend to propose, but rather your recommendations pertaining to our requirements (those documented in exhibit B and those not yet documented) based upon requests 1-17 on pages 5 and 6 of the RFI.
