Re: **PUBLIC RECORDS ACT REQUEST**

Dear Mr. Logan:

Anecdotal reports around the state from the media, poll watchers, concerned citizens, and in one case an election worker who contacted us, cause us serious concern that there have been irregularities, errors, or perhaps worse in the conduct of this election. Among other things, the treatment of "no signature on file" ballots has raised many questions. It appears there may have been problems getting ballots out to military and overseas voters, resulting in voters not receiving ballots despite their requests or receiving them late. Our observers report that ballots have been enhanced or designated as overvotes using standards that changed throughout the counting process. We have heard reports that thousands of new registrations may not have been processed on time, and we are concerned about the ultimate disposition of those new registrations. We are also concerned about the process of verifying signatures, including those on provisional ballots that the voters were allowed to update or verify after the fact.

As I am sure you will agree, it is in the public interest to ensure that such reports are investigated. Rumors, even those that turn out to be false, can damage the confidence of Washington voters in our electoral process if they are not promptly investigated and resolved.

So that we may begin gathering information to allow us to decide how to proceed, and how best to investigate our concerns, we are requesting copies of the following records from September 1, 2004 to the present (except as noted), pursuant to the Pursuant to the Public Disclosure Act, RCW 42.17:

Subject: AV Ballots / Auto Suspend and Reissue Rules

Harry-

Whenever a voter has been issued a "ballot by mail" prior to the close of registration AND THAT VOTER REREGISTERS TO VOTE, a potential problem arises: Is that voter still qualified to vote the ballot he/she has been issued?

To assist with the situation above, the County has a choice of six settings for suspending and reissuing absentee ballots automatically when the voter record is changed. The six settings are ALWAYS, ASK, NEVER, ASK SUSPEND ONLY, PROHIBIT, or WARN.

King County is currently set to ASK. The system will ask the user if the absentee ballot should be automatically suspended and reissued or not, but only if any of the following circumstances are encountered:

1. The voter's precinct changed; or,
2. The voter's status changed; or,
3. The voter's name changed; or,
4. The voter's party changed

If the user answers yes to the question, the system suspends and reissues the ballot. Users can get an AV Report of these voters by checking the MULTIPLE BALLOTS CAST checkbox. If the user answers no, the absentee ballot status does not change and an AV Report can be run to detect these voters.

OTHER OPTIONS:

Always – The system will always suspend an absentee ballot and reissue a replacement whenever the voter's address changes. The user does nothing special and no report is created to indicate the changed voters.

Never – The system does not suspend and reissue absentee ballots when the address changes on the home record and from time to time an AV Report can be run to notify the user of these voters.

Ask Suspend Only – The system will ask the user if the absent voter ballot should be suspended. If the user answers yes, the ballot is suspended but not re-issued. No report is created.

Prohibit – Locks the system and does not allow the user to change a voter record. The absent voter ballot would need to be suspended, the record changed and the ballot re-issued. No report is created.

Warn – Warns the user that an absent voter ballot has been issued for an upcoming election. Does nothing to the AV record and allows updates to the voter record. The user can print the screen for follow up on the absent voter record. Based on California Secretary of State Guidelines, this is the recommended setting for the California counties.

Any ideas?? Sam is using 2.66 because she has had to run the file from her computer for mailing out ballots. Robin is using the other version of DIMS - 2.54.

Hey, Nicole- I am going back in to take the credit away from these people from the buffer, and I was watching out for the Batch# to appear to see if they were legitimately returned and if not, take credit away. However, part way through doing this I realized the batch# does not show on the first screen, I have to go to the second tab for the batch and envelope number to appear. So, I don't know how many (if any) I have taken the credit away from that I shouldn't have because returned batch # info was hidden.

And now, Robin is helping me go through this list. But on her version of DIMS the batch # info is on the first screen, which is good. Except for the ones that were legitimately given credit with a batch number and all, they all say batch zero, which I thought meant that we gave them credit yesterday. But since no return date shows, I don't know if they really have credit or not. HELP!!!!

Hey, I think this is coming up way too much, people being put on inactive even though they had an address change after their undeliverable ballot was mailed, and I think these people were on perm. Abs. Of course, you know I have been out of it today so maybe I'm wrong ☺

Nancy,

I am very sorry for the problems regarding your registration records and getting your ballot. I know this has been frustrating for you and I can understand why. I have checked on your and your husband's records and you are both now on active status as permanent absentee voters. In the meantime, would it work for you if I were to email the ballot to you? This way we will know for sure that you have gotten it. I could have it to you by this evening. Please let me know if you would like me to do this for you. Again I apologize for the inconvenience and worry this has caused you; we do want to make sure that you get to exercise your voting rights. Feel free to contact me directly anytime you have questions or concerns regarding your ballots.

Thank you very much.

Sincerely,

Neither I nor my husband has received our ballots. I called last Friday and still don't have them. I called today and my husband was still inactive because ours were marked "Undeliverable" and your employee last Friday did not fix the problem.

Why they were returned as Undeliverable is a mystery to me. We have lived at this address over a year and got our Primary ballots with no problem. A conspiracy - incompetence? You tell me.

I talked to someone today and supposedly we will get our ballots, but time is running out. This is an important election and the person I spoke with today said this is happening to a lot of people. You are depriving people of their right to vote - please make sure our ballots are in the mail today.

I also emailed you almost a week ago - pretty slow response!

Thank you.
