

INITIATIVE 321

I, Sam Reed, Secretary of State of the State of Washington and custodian of its seal, hereby certify that, according to the records on file in my office, the attached copy of Initiative Measure No. 320 to the Legislature is a true and correct copy as it was received by this office.

Be it enacted by the People of the State of Washington: that we will not tolerate gas prices to go higher than they are now. We know that the oil barons create profit by enslaving our society. We demand that the price of gas be commensurate to a reasonable low price and that the people of the state of Washington be the ones voting on any price change for petroleum derived products including gas and it must be noted by the people of the State of Washington that a percent (%) of the oil and profits be truly given to educate our young. The school that is recipient of oil profits must use these for the sole purpose of public education from kindergarten to high school.
