OUR Jefferson County returns, published in tabular form, do not show the vote for precinct officers, or separate articles to the constitution. Separate article No. 1 received 76 votes for and 233 against. No. 2, 74 for and 235 against; No. 3, 128 for and 186 against. The precinct officers elected are as follows: Port Townsend—for Justices of the Peace, W. H. H. Learned and J. T. Norris, Constable, Chas. Finn. Port Discovery—Justice, Jas. A. Smith; Constable, D. D. Andrews. Port Lullow—Justice, Wm. Korter; Constable, J. S. Noyes. Chinacum—Justice, Ed. Strant; Constable, A. Johnson. Duckabush—Justice, Jno. Clements; Constable, E. P. Brennan. Colceed—Justice, C. N. Marshall; Constable, Jas. Donovan. The precinct officers will assume the duties of their respective offices on the first Monday in January, 1879.

KING county gives Brents 204 majority; A. Siorah, 331; J. H. Smith, 228; F. W. Sparling, 238; D. W. Smith, 238; Irving Ballard, 656; S. G. Dudley, Rep., against Jos. Foster, Dem., for councilman, 44; Thos. Burke, Dem., for Probate Judge, 111; L. V. Wychoff, Rep., for Sheriff, 159; M. S. Booth, Dem., for Auditor, 19; Geo. D. Hill, Rep., for Treasurer, 589; and elects E. S. Ingraham Co. Supt. Schools—no opposition. Her vote for Representatives stood: L. P. Smith, Rep., 925; D. B. Ward, Rep., 616; Ira Woodin, Rep., 583; P. P. Padden, Dem., 537; White Dem., 730; Wm. Pickering, Dem., 562; A. S. Miller, Ind., 272. The vote for adopting the State Constitution was nearly unanimous, and respectable majorities were given for each of the three separate articles.

FIRE.—Port Townsend came near having another episode yesterday about noon, in the way of a small sized conflagration. The Anous building took fire in the casing around one of the large fire-places, near the ground floor. Fortunately it was discovered before it had made much headway, and the alarm was given. Dozens of kind citizens came to the rescue in less than three minutes; and, by prompt action, everything was saved, no damage of consequence occurring. The lumber, however, in the old building was as dry as tinder, and had the flame once got a good start it could not have been saved. Members of the fire company were nearly all on hand, but acted as individuals merely, their new organization not being in working condition yet.

We learn verbally from San Juan Co. that Mr. Cline, (Dem.) has a majority of 18 for Joint Councilman, and that Mr. S. Troy, (Dem.), has a majority of 42 for Joint Representative with Clalam. Mr. Cline is elected over Messrs. Hastings and Alexander, by a large majority. Mr. Troy is elected over Messrs. Morris and Garfield by about 30 majority, as near as we can learn.

HON. Alfred Snyder, of Kitsap county, Republican candidate for Joint Representative with Jefferson county, against H. B. Emery, is elected by 152 majority. Mr. Snyder is a very estimable gentleman, and will demonstrate that the selection in this instance was a wise one.

NOTHING can preserve your equanimity of temper and good health so much, during the coming bad weather, as to go to Mr. Fitzpatrick and tell him you want your feet warmly clad for winter. He knows just what the public want, and can accommodate all.

THE schooner Winefred, Capt. Gilbert, has been in our harbor during the past few days, making things look "kinder wat'ral like."

THE "Press" folks have long advocated "bedrock democracy" through their columns; they wanted no "arf-and-arf," or "illy-livered Democrats," &c. They hoisted the name of N. P. Caton for Delegate, but did no work for him, and then went out on election day and supported Brents and Ballard. We had no objections to their votes for Republicans, as they helped out to the extent of their number, but we do like to see men live up to their professions. This incubus has long since had its day in deluding the people. They are finding out the deception pretty well. An Island county Democrat told us that the paper had but 2 Democratic supporters in that county; that the party repudiated it, &c.

YESTERDAY afternoon, too late for publication this week, we received two communications from Chinacum. One of them is from a party who evidently does not yet understand the license allowed to lawyers in pleading cases, as it attacks Mr. Smith, of this place, for remarks made in the prosecution of Clawson and Davidson for the murder of Dennis Haight and wife. The other was in reference to the Chinacum election. The writer claims that four fraudulent votes were cast in that precinct, which might, if contested, change the election in case of Ryan and Tucker. He says whisky was freely used, and that the whole affair was a disgrace.

IN our recapitulation of majorities exhibited by the election returns of this county, we omitted to mention Prof. Huffman's majority of 44 over Dr. Willson for County School Superintendent.

BLANCHARD told the people at Port Discovery that he wouldn't mind being called a lawyer. No doubt, although he doesn't get any practice.

THE Seattle "Tribune" is taking the lead of the other Sound papers in the matter of hashing up old witticisms and dealing them out to its readers as though they were original.

WHY don't the "Press" tell us about those grand victories for the "people," which the recent election was to have brought forth?

WON'T Blanchard's account of the political meeting at Port Discovery sound flat to those who were there and knew of the facts?

OUR young apothecary, Mr. Daniel Hill, has gone over to Whidby Island dear hunting. We wish him success.

CLALAM County, we learn, elected most of her Republican county ticket.

MR. Jno. M. Izett, of Island Co., paid our town a brief visit this week.

ISLAND Co. elected nearly all of her Democratic county nominees.

MR. Humphrey Hill returned to San Francisco by the Alaska.

FOR A. I coal oil, go to Dr. Hill.

THE Dakota arrived yesterday.

ELECTION NEWS.

We cannot, even yet, publish complete election reports from all parts of the Territory, but give returns from some of the counties, as follows, together with a little Eastern news.

Ballard and Bloomfield, Republicans, are elected prosecuting attorneys in the 3d and 2d districts, respectively. No report from first district.

- The following are the majorities in the counties heard from:
- Chehalis, Caton 20 majority.
 - Clalam; Brents 22 majority.
 - Columbia, Brents 80 majority.
 - Island, Caton 17 majority.
 - King, Brents 294 majority.
 - Klickitat, Brents 200 majority.
 - Pierce, Caton 60 majority.
 - Pacific, Brents 200 majority.
 - Skamania, Caton 33 majority.
 - Thurston, Brents 80 majority.
 - Walla Walla, Brents 140 majority.
 - Brents majority, 1204.
 - Whatcom county gives Brents 93 majority, and the Constitution 343.
 - Whatcom, Brents 50 majority.
 - Snohomish, Brents 70 majority.
 - Jefferson, Brents 70 majority.
 - Kitsap, Brents 60 majority.
 - Lewis, Brents 40 majority.
 - Wahkiakum, Caton 64 majority.
 - Clarke, Brents 100 majority.
 - Cowlitz, Brents 24 majority.

Mason elects the entire Democratic ticket and gives Caton about 50 majority and J. S. Walker about 30, so far as reported.

Walla Walla, Brents 655; Caton, 525. Brents' majority, 140. Dr. J. H. Day is elected to the Territorial Council, and three Republican representatives and one Democrat are elected. The Democrats elected the sheriff, and the Republicans the auditor, treasurer and commissioners.

There will be a large majority for constitution on the Sound, while the separate articles will fail. East of the mountains it is thought the majority will be against constitution.

The indications now are that Brents will have from 800 to 1200 majority in the Territory.

The Republicans of Thurston county have elected their entire county and legislative ticket, with but one or two minor exceptions, by majorities ranging from ten to three hundred and thirty-two.

IN New York, Republicans have a majority of the legislature, 20 out of 29 congressmen, so far as reported, and Tammany candidates are mostly defeated in New York City.

IN Pennsylvania, Republican governor elected. Congressional delegation the same in number as before.

IN Massachusetts, Talbot is elected over Butler by a large plurality.

IN New Hampshire, legislature largely Republican.

IN New Jersey, Republicans elected 5 of 7 congressmen and a majority of the legislature.

IN Delaware, Democrats have governor and congressmen.

IN Maryland, Democrats have at least 5 or 6 congressmen.

IN Virginia, North, and South Carolina, Florida, Alabama, Georgia, Louisiana, Arkansas, Kentucky, Tennessee and Missouri seem to have gone solid for the Democrats.

KANSAS, Nebraska, Illinois, Michigan, Wisconsin and Minnesota, have given increased Republican majorities, and there has been a small gain in Republican congressmen.

Telegraphic Summary.

JACKSONVILLE, Fla., Nov. 9.—Returns thus far received give Busbec, Republican, for Congress \$50 majority over Hull, Democrat, with three counties to hear from. These in 1276 gave a Democratic majority of 753. It is expected there will be a falling off in the vote this year.

CHICAGO, Nov. 9.—The "Tribune's" Springfield special says: Morrison (dem) is undoubtedly elected in the 17 district. Republicans generally concede this.

DES MOINES, Iowa, Nov. 9.—Republican majorities in the late state election range from \$,744 to 16,906, according to the official count.

NORFOLK, Nov. 9.—Full returns from the 1st congressional district of North Carolina, show the election of Martin, (rep.) over Yates (dem.), present incumbent, by about 100 majority.

JACKSONVILLE, Fla., Nov. 6.—The election of Busbec (rep.) is now conceded by about 225 majority.

NEW ORLEANS, Nov. 10.—Physicians have reported 1,500 cases of yellow fever treated by them during the epidemic, and heretofore reported. Maj. H. W. Branham, of the Howard Association, who is now assisting in placing a report of the work of the Howards during the epidemic of 1878, expresses the opinion that there have been during the past four months, 40,000 cases of fever in New Orleans and vicinity. The Howard Association physicians did not report to the board of health.

YANKTON, Nov. 9.—Bennett, Republican, for Congress has 1,050 majority with five more counties to hear from, which will make his majority 1,500. Returns from nine of the thirteen legislative districts give the Republicans 24 and the Democrats four.

The above institution having been placed on a permanent footing, as the United States Hospital for Marine Patients on Puget Sound, the proprietor takes pleasure in announcing that no pains or expense will be spared in ministering to the comfort and convenience of private patients. This is the largest General Hospital north of San Francisco, and by far the most complete in equipment. It has been thoroughly refitted and refurnished. Its general wards have accommodations for about one hundred patients and are peculiarly adapted for cases requiring the most careful treatment and constant supervision at limited expense. Those who desire them will be furnished with private rooms, entirely separate and distinct, at a slight additional cost. The attention of Mill owners, and those interested in shipping, is called to the fact that seamen suffering from contagious diseases will be treated outside the Hospital without expense to the vessel.

OFFICIAL PAPER OF JEFFERSONICO.

EDITORIAL NOTES.

THREE cheers and a tiger for Brents!!!

THE renewal of hostilities in Europe seem almost imminent.

Where's Catou? He wanted to "see the color of the Democrat's hair who would vote for Brents."

The pioneer order of Sons of Temperance still exists in the United States, and has a membership of about 3000.

Election returns indicate that the state constitution will be adopted by nearly the full vote of the Territory. Now is the time for our friend of the N. P. "Times" to come to the front and demonstrate his infallibility as a prophet.

Politics in Oregon have been at a red-hot and boiling-over point for some time. The "Oregonian" has been suffering from "Bee" stings, Messrs. Noltner and Brown are catching at straws, and Senator Mitchell is quietly chuckling over the gradual re-action in public sentiment which will return him to the national capital when the time comes.

Now that our friend Mr. B. S. Miller has been re-elected to the responsible position of sheriff of Jefferson county, we shall exercise that ever sacred right to comment. First, then, we believe that he will be a more thorough and efficient officer during the coming two years than he has been in the past—for the simple reason that his experiences in letting prisoners get away have taught him to be more vigilant in discharging his duties. We are sorry that Mr. Drummond was not elected, because he was the regular Republican nominee and there was no good reason for scratching his name from the ticket to insert Miller's. We believe he would have been an excellent officer; but he that as it may, the people have made their choice and that ends the matter. The causes which produced the result were various. There was a good deal of sympathy with Mr. Miller because he had discharged the most of his duties well, and because his misfortunes with prisoners caused him to spend hundreds of dollars of his own money in trying to recapture—the office being really an expense to him if anything. Then again, he had made many friends on his rounds through the country while assessing; Mr. Drummond has been strongly identified with the active Temperance people of the county for some time past, and this doubtless influenced a certain portion of the vote against him, &c. We might go on and name other causes, but it is not necessary. Mr. Drummond made an honorable race, and his defeat is not at all humiliating. Mr. Clinger we regard a personal friend, and would not do him injury for anything; but he was "running with the wrong crowd," where even the charity plea would not win. The fact that the "Press" advocated his election did more to defeat him than anything else, and its unjust personal abuse of Mr. Miller helped the latter gentleman wonderfully. The people have given Mr. Miller another opportunity, and we hope he will improve it by showing them how well he CAN do his duty. We have criticised his shortcomings heretofore, and shall do so hereafter if we have occasion to, but we hope it will never be necessary. One thing, however, we do wish to do, and that is to correct a

statement which we hear was made by the "Press" crowd in some of the outside precincts to the effect that Mr. Miller was an independent candidate and not the regular Democratic nominee. The defeat of the entire "Press" ticket, and the election of a PORTION of the regular Democratic ticket prove conclusively that the latter was what it claimed to be and that the former was the bolters' ticket.

The old Democratic party, defeated years ago in national contests, has been shifting positions ever since, through the management of its leaders, in the vain hope of achieving victory in some way. Its last change of base was to partially fuse with the great mongrel, Greenback-Communist-Butler-Kearney-Labor-Reform party. The new organization has taken on a variety of forms in different localities, though wherever it has achieved even partial success the result has been due to absorption of a portion of the Democratic vote. In such cases the Democrats have abandoned their standard, hard money principles in favor of inflation, fiat money, repudiation, or some particular feature of this many-headed monster erroneously called a "National" party. We refer our readers to the "Catechism in Finance and Politics," which we publish elsewhere for a simple elucidation of the "Greenback" question.

In order that the whole matter may be cleared up, will the editor of the "Democratic Press" please inform the public whether or not he, or the "Press" Publishing Company, were paid ANYTHING [either in money or pledges] to support Mr. Ballard in the recent campaign?

Prof. D. C. Gunn, of the Puget Sound Business College, died in Seattle on the 5th inst., from a rupture of one of the blood vessels near the heart.

REPORT says that a telegraph line is to be built between Victoria and Nanaimo, B. C.

FROM PORT DISCOVERY.

November, 5th, 1878.

EDITOR ARGUS:—At a school meeting held in this district on the 20th inst., for the purpose of electing officers for the ensuing term, Mrs. Wm. Jenkins was elected school director. There was a very wise and important suggestion proposed and adopted, to the effect that the school clerk should receive no remuneration for services performed—excepting where actual expense occurred.

The ship War Hawk, Capt. Calhoun, sailed on the 2d for San Francisco, with a full cargo of lumber. Providentially, just as the War Hawk had completed her cargo, the main shaft connecting with the "hawking machine" gave way in two places, causing the mill to shut down until the broken shaft could be replaced with a heavier and more substantial one.

We had the pleasure of listening to a very interesting political address delivered by Mr. C. M. Bradshaw last Saturday evening. Also Messrs. Kuhn, Miller, and Tucker, being present, were severally called upon and made a few remarks in their own behalf as candidates for office. Their success or defeat will be decided ere this is set in type.

Monday evening preceeding the election, the political excitement waxed the hottest during the campaign at this place. No more excitement until Christmas.

The Glover arrived here to-day, making the run up in 12 days.

NOW AND THEN.

The above was intended to be inserted in last Thursday's issue, but for some reason or other did not reach us until Friday.—ED.

CONSTITUTIONAL PROHIBITION.

Olympia "Standard"

Ever since the first agitation of the temperance question in this country, which may be forty or fifty years ago, an abundance of evidence shows that the people, as a mass, are opposed to the liquor traffic. We believe, if at this time, the question of license or no license were candidly put to the people of every State and Territory in the Union, there would be a respectable majority against the granting of licenses for selling intoxicating drinks. We are unwise in judging the sentiments of the people at large by the results obtained at precinct elections, or the vote of even larger districts. The popular vote is the only true criterion by which we can be guided, or to which we must look to predicate the probabilities of the future of the temperance question. Now we believe, if the question of license, or some form of a loc option law, could be brought simultaneously before the people of the United States, the majesty of sound morality and good order would assert itself in an overwhelming vote on the side of strictly temperance principles. In other words, the people would rise up in the sovereignty of their might and say, "No license for us." But let us see what has already been done in this direction, and then we may judge the future by the experience of the past. In 1847, the question of prohibition was submitted to the people of Vermont and a majority of 7,000 in favor of prohibition was the result. A similar result was again obtained in 1850. The same question, in all its bearings, has been submitted to the people of Maine, a number of times and always with a result largely on the side of temperance. In 1853, the question was decided by the ballot-box in Wisconsin and a majority of 3,000 counted in favor of prohibition, even although, as is well-known, this State stands second as to its percentage of foreign citizenship. In 1874, a majority of 7,000 was obtained in Ohio in favor of "no license." In the State of New York, the question was submitted, in 1846, to the voters of 1,490 towns, when, as a result, it was found that 656 of those towns were against the sale of liquors in any manner whatever. A popular vote being taken in the same State, resulted in a majority of over 67,000 in favor of a no license law. Now we think that quite enough has been said to show fairly and conclusively that the "vox populi" is substantially and decidedly against the liquor traffic. It has often been said that all great moral reforms have succeeded only in proportion as they were carried on by or through strictly organized effort. We believe this is the true method of doing all things that involve the common interests of the people. Temperance principles most assuredly involve the dearest rights and interests of the people of the United States, and hence, we believe, as has been already intimated, that the reformatory effort should be made by the people themselves. This is just the kind of organized effort that must be brought to bear if grand results of a national character are to be expected.

Too Thin.—Mr. Bradshaw, we understand, claims to have "sacrificed himself for the sake of Mr. Brents;" that is, he allowed the "Press" crowd to use his name for Probate Judge in order to secure their votes for Brents. Considering the facts in the case, this story will hardly "hang together." The convention which nominated Blanchard for Probate Judge did so with the understanding that he would quietly withdraw in favor of Bradshaw, provided the latter failed to secure the Republican nomination for Prosecuting Attorney. This shows that there was a preconcerted arrangement before Brents was nominated. Then again Bradshaw told the people, in his campaign speeches, that he was "running to test his popularity in the county;" that he "wanted to show Mr. Laudes and others that he could be elected to a county office," &c. If either of these statements is the correct one, the others must be crooked. If Mr. Bradshaw secured the vote of the "Press" crowd for Brents, what is the position in which his statement places those ranters for "bedrock Democracy?" Mr. Bradshaw attacks the ARGUS very fiercely in regard to his proposition to Col. Briggs, and says the latter offered to support him in consideration of his surrendering certain letters, &c. Col. Briggs says this is an unqualified falsehood; that he made no such proposition, and that he absolutely refused to entertain any proposition whatever looking to affiliation with Bradshaw in the campaign just closed.

By the returns published to-day, our readers will notice that Mr. Tucker, the Democratic nominee for representative, was elected by two votes majority over Mr. Ryan. Philbrick, the "Press" nominee, ran a long way behind. We believe Mr. Tucker's election was a surprise, even to himself, Mr. Ryan being deservedly popular. The only adequate explanation lies in the fact that Mr. Tucker had many warm personal friends among the Republicans of Port Townsend, and that he canvassed the county, while Mr. Ryan remained comparatively at home, attending to his duties. However, Mr. Tucker, so far from being an "illiterate laborer," is a man of fair education, good judgment and the general qualifications necessary for a desirable legislator. He has been a resident of the county for a long time, and been placed in positions of trust before. We believe he will acquit himself in the legislature to the satisfaction of his constituents.

From what we can learn, Mr. Elliot Cline, of Dungeness, is elected Joint Councilman from the counties of Jefferson, Island, Clallam and San Juan. Mr. Cline is a good old Democrat; and, although not remarkable for great abilities, is a man of reasonable good judgment and strict honor. In this instance he is largely the creature of circumstances. Being fortunate enough to be a candidate when a division among the Republicans brought two candidates into the field from that party, he walked over the course handsomely. As we said before election that we would be satisfied with Mr. Cline, provided Mr. Hastings was defeated, we say still that he will safely conduct the affairs of the people. Mr. Cline has served several times as a member of the lower House, and was once in the Council before, we believe. We have known him for the past eighteen years, and are gratified to have this opportunity of hearing witness to his desirable qualities.

EASTERN POLITICS.—Republican gains are reported from all quarters of the New England States. Ben. Butler deserted the old Republican ranks and ran for Governor of Massachusetts on a mongrel ticket. He played the "greenback" and "labor-reform" cards strong, but got buried about 25,000 deep. In the Southern states, where the hue and cry had long been raised that the federal troops intimidated voters, Republican victories are announced. This shows that the noise about intimidation was merely clap-trap. Cypher dispatches and Democratic Potter chickens came home to roost in such a way that the Democratic majority in the lower House of Congress will be reduced to a small figure if not entirely wiped out.

We learn that the Port Ludlow mill property was bought by the Puget Mill Co., for the sum of \$64,850. It is estimated that the repairs will cost about \$30,000. We are not informed whether they intend to resume operations soon or not.

Judge Jacobs left on the Alaska, en route for Washington City. He goes with the assurance that his constituents are more than satisfied with his past course as a representative of their interests at the national capital.

Mr. Hermes Hicklin, the new principal of the Olympia Union Academy, is a young man of high capabilities. He graduated from that institution last year. We wish him success.

As far as heard from, Brents' majority ranges between 1,200 and 1,300.

THE THANKSGIVING PROCLAMATION.

The President has issued the following proclamation, setting apart Thursday, November the 28th, as a day of thanksgiving: The recurrence of that season at which it is the habit of our people to make devout and public confession of their constant dependence upon Divine favor for all the good gifts of life and happiness, and of public peace and prosperity, exhibits in the record of the year abundant reason for our gratitude and thanksgiving. Exuberant harvest, productive mines, ample crops of staples of trade and manufactures have enriched the country. The resources thus furnished to our reviving industry and expanding commerce are hastening the day when the discords and distresses through the length and breadth of the land will under the continued favor of Providence have given way to confidence and energy and a sured prosperity. Peace with all nations has remained unbroken; domestic tranquillity has prevailed, and the institution of liberty and justice which the wisdom and virtue of our fathers established remain—a glory and defense to their children. The general prevalence of the blessing of health throughout our wide land has made more conspicuous the sufferings and sorrows which the dark shadow of pestilence has cast upon a portion of our people. This heavy affliction even the Divine ruler has tempered to the suffering communities in the universal sympathy and succor which have flowed to their relief, and the whole nation may rejoice in the unity of spirit in our people by which they cheerfully share another's burdens. Now, therefore, I, Rutherford B. Hayes, President of the United States, do appoint Thursday, the 28th day of November next, as a day of national thanksgiving and prayer; and I earnestly recommend that, withdrawing themselves from secular cares and labors, the people of the United States do meet together on that day in their respective places of worship, there to give thanks and praise to Almighty God for his mercies, and to devoutly beseech their continuance.

In witness whereof I have hereunto set my hand and caused the seal of the United States to be affixed.

CAPT. Harker, recently of the steamer Otter, of the Starr line, took passage on the Alaska for San Francisco, intending to visit his friends in the East.

We learn that the City of Dublin, which recently ran aground at the mouth of the Columbia, is to be raised and repaired.

Prof. Roberts promises a concert in a short time.

PUGET SOUND ARGUS.

LOCAL NEWS.

A DRUNKEN CAROUSAL.—Last Saturday evening, at about 10 o'clock a row occurred at the lodging department of the Washington Hotel of this city. Our reporter gleaned a few facts. It seems that a few sailors who had been discharged from the ship *Landshire*, just from China, had started out upon that sailors' delight, a spree. After creating some disturbance in the bar-room of the house in question, they ascended to the lodging rooms up stairs where a general fight took place, in which one man was severely cut in the head with a knife; they then descended to the bar-room where one of them, as a salute to the proprietor, threw a water pitcher at his head. Compliments were returned, and the sailor knocked down and kicked out of the house. Our efficient town marshal and night watchman, Mr. Finn, received him in a loving embrace and after a desperate struggle succeeded in hand-cutting him. On his way to jail he made the night hideous with his jeers and curses. On descending to the lower part of the jail he vociferated, "I belong to the United States navy; I will lick ye's all if ye'll untie my hands."

On Sunday morning last the P. M. S. S. Co., steamer *Alaska* arrived and departed for San Francisco. She had on board from the Sound, the following amount of freight, besides a portion which we did not get: 12,000 sks. oats, 300 lbs. salmon, 200 bales hops, 600 bales staves and barrels, 200 green hides, 175 dry do., 370 tons Tacoma coal. A large number of passengers also went from the Sound.

DIED.—In Port Townsend, of consumption, on the 31 inst., Harriet, wife of Jno. C. Appleton of this place. Deceased was aged 35 years. The bereaved husband, Mr. Appleton, is well and favorably known to most of our citizens. He is left with the care of several small children. The sympathies of many friends are extended.

THAT CABBAGE.—A few days ago we received a nice little head of cabbage from Mr. Thor, Berger, of Port Discovery Bay. It measured 39 inches in circumference, one way, and 40 inches the other, and weighed 30 pounds. We intend going into winter quarters soon.

The examination, before Judge Learned, of the young man Clawson and his supposed accomplice in the Haight murder case resulted in their being held for trial at the next term of the District Court at this place. "Probable cause" is the reason given.

Mr. W. H. Cadwell, of Port Ludlow, went to Lopez Island last week, with a view to securing a home. He reports himself quite pleased with the prospect and says he thinks seriously of locating there.

Mr. W. B. Crosson, one of the publishers of the *Dalles Itemizer*, and brother of Mrs. W. A. Inman, of this place, called on us during the past week. Mr. Crosson is on a visit to friends and relatives here.

The carpenter work on Mr. Eisenbeis' new building has all been done, except to hang a few doors. Proceedings in that line have been stayed until the plastering shall have been completed.

The second of Prof. Roberts series of dances will take place to-night in Fowler's Hall. Dancing will commence punctually at 8 o'clock. Admission \$1. Ladies free.

MARRIED.—In Olympia, November 5, 1878, by Rev. Jno. R. Thompson, Mr. John V. Yantis and Miss Maggie Hume, all of Thurston county.

Mr. Mastick, of the firm of Mastick & Co., Port Discovery, went down to San Francisco on the *Alaska*; also Mr. Hadlock, of this place.

We received a pleasant call this week from Mr. Jno. H. Carr, of Lopez Island. He had been to Port Gamble with a sloop load of produce.

Our young friend Don. Parrish, after a protracted stay in Seattle, has returned to Port Townsend with the intention of remaining.

ONE man in Island county voted against adopting the new constitution. The other 164 voters in the county all voted to adopt.

Owing to the crowded state of our columns last week, we could not publish all the election news received.

Mr. Bradshaw left for Snohomish City, on Monday last, to attend the session of the district court at that place.

We are indebted to Mr. H. L. Tibbals, agent of the P. M. S. S. Co., for favors extended.

By the official returns of the election in this county, which we publish today, it will be seen that 332 votes out of 392 were cast in favor of adopting the new state constitution. We have not the vote on the separate articles, but believe they were voted down. The majorities range as follows:

Delegate to Congress.	70
Brigadier General,	52
Adjutant General,	65
Quartermaster General,	67
Commissary General,	44
Prosecuting Attorney,	96
Joint Councilman,	96
Joint Representative,	14
Representative,	2
Probate Judge,	120
Sheriff,	82
Treasurer,	215
Co. Commissioners,	137
Surveyor,	151
Coroner,	39
Wreckmaster,	118

Of these candidates, Brents, Ballard, Slorah, Sparling, Bartlett, Bishop, Smith, Morgan and Hoxsie were the Republican nominees. Mr. Seavey, Rep., for Auditor, had no opposition. Murphy, H. B. Emery, Tucker and Miller were the regular Democratic nominees. Kuhn, Hill, Huffman and Tibbals were both Republican and Democratic nominees. The "Press" crowd had a third ticket in the field, with the names of Brents and Ballard thereon, and the county nominations filled out by their convention. None of their nominees, however were elected, although they hoisted the names of Bradshaw for Probate Judge, and Hastings for county Treasurer.

REPORT comes that Mr. Newell, editor of the Walla Walla "Statesman" is very ill.

Experiments made with the fiber of the common nettle at Langensch-walbach, Prussia, are reported to have shown that, treated in the same way as hemp, a fiber was produced soft as silk and yet strong as linen. WHAT BECOMES OF WEALTH.—A boot and shoe dealer was hanging in his store a pair of boots worth seven dollars. They constitute a part of his wealth, and a portion of the wealth of the world. A man buys them and begins to wear them; by friction against the pavement, little particles of the leather are rubbed off, and thus separated from the rest of the sole. Every particle that is thus removed takes out a portion of the value of the boots, and when the boots are entirely worn out, the seven dollars of wealth which they formed is consumed. The wheat, corn, etc., which was raised by our farmers last Summer is being eaten up. No particle of matter is destroyed by this process, but the value which was in the grain is destroyed.

As, while men are wearing out clothing and eating up food, they are busily employed in producing wealth of some kind, the wealth of the world is not usually diminished by the consumption, but it is changed. This applies, however, only to personal property; town lots and farms generally retain their value, but personal property is subject to perpetual destruction and renewal. As the several particles of water which constitute a river are forever rolling away to the ocean, while their places are being supplied from the springs and fountains, so the movable wealth of the world is constantly being consumed to gratify human wants, and constantly being renewed by the restless activity of human industry.

BIG WORDS AND GOOD HOUSE KEEP-ING.

A little woman with a tear trem-bling on the end of her nose has been walking up and down the hall for ten minutes, and as the last visitor de-parted she entered the parlor where Bijah superintends the operations of justice, sank into the rocking chair and timidly asked:

"Mr. Joy can I trust you?"

"Madam, you can!" he promptly replied. I don't like to hear a man praise himself, but I believe I can go to any grocery in Detroit and get trusted for a dozen clothes pins with-out having to leave any security whatever. I now have in my pos-session twenty-five cents which were handed to me by a street car driver to buy him some tinted note paper, and if I embezzle one cent of it I hope to be bald-headed all my days!

"Yes, madam, you can trust me."

"I—I was married about three years ago," began the woman, after considerable hesitation.

"Don't doubt it in the least, madam, and I suppose it was a case of love?"

"It seemed so. My husband seemed to think everything of me, and I know I almost worshipped him. We were very, very happy until a year ago."

"Yes, I suppose so, madam." As Milton says:

"He called me his birdie—his angel— I thought him the dearest on earth; And we'll dance all night, 'till broad daylight, And—and—and so forth."

"A few months ago," she softly continued, "he began finding fault with me because I did not use more big words in talking, and he said my grammar was perfectly awful. Not a day passes that he does not up-braid me, and sometimes I even wish I were dead!"

"Madam, does he find any fault with your cooking?"

"No, not any."

"And in making the bed you don't get the foot the highest?"

"Oh, no."

"And he never finds the buttons off his shirts—never comes home to meals and finds the stove cold, and you gossiping over the gate?"

"He never has to wait one minute for any of his meals, sir."

"Your husband had no fault to find for a year or two—didn't seem to notice your lack of big words while the honey-moon lasted?"

"No."

"Very well, madam, your hus-band's coat is too big to fit him in the back, but I think we can put another on him. Now, then, will you do as I tell you to?"

"Oh, sir, I couldn't poison him—couldn't do such a thing!" she ex-claimed.

"Pizen, madam? Do I resemble a fiend? Do I seem like a murderer? I don't want you to kill him, but I want to help you win back his love and get his nose down where it used to be. What time do you have sup-per?"

"At six, sir."

"Well, you go home from here and upset two or three chairs in the sitting room, toss the broom out doors, scatter the contents of the work-basket around the house, and make things look as if there had been a tramp meeting held there; put in just half enough tea; burn your biscuit, and for sauce cut up the hardest peaches you can find in the market. As he comes home have on an old dress and your hair down, and the minute he enters the house you must remark that 'the loveli-ness of the evening seems to perco-late the entire catastrophe of the hy-genic influence.' Big words, you see—grammar till his hair stands up! If he finds fault with the supper, tell him that 'the encumbrance ap-pears to elucidate the tarantula,' and if that doesn't fetch him you can con-tinue to affiliate with the pabulistic enigma. Give him big words and bad biscuit—XXXgrammar and slop-py tea—and I'll bet five hundred bag puddings agin a penny whistle that he'll get up from that table with his nose as low down as the mercury in January.—Detroit "Free Press."

It was reported in Portland a few days ago that the Chinamen en-gaged in excavating and clearing rubbish from the corner of Second and Alder streets, unearthed \$800 in gold. Where the "find" was said to have been struck was on the site of an old Chinese gambling den. The workmen seemed quite happy, but to questions asked them, they invari-ably grinned and answered, "me no sabe."

ONE GREAT CAUSE OF HARD TIMES.

You copy from the Buffalo "Cour-ier" to the effect that in 1877 the people of the United States con-sumed 70,000,000 gallons of spirits; 10,000,000 barrels of beer; \$100,000,000 worth of smoking, chewing and snuffing tobacco; besides 200,000,000 cigars, or fifty each, a year, for every man woman and child.

This may seem to be an exaggera-tion, but eleven years ago, in 1867, Commissioner Wells reported the amount of liquor and beer only sold, to be \$1,483,490,865.00. The same year statistician Delmar gave the value of all the railroads in this country, fully equipped, to be \$1,654,050,799.00, or only an eighth more! Every year the people of this Republic nearly drink up the value of all the railroads in it! Why shouldn't they curse the capitalists who built them? What a pile of money is drank and smoked away every year, principally by very poor people.

WOMEN doctors in Russia are in trouble. They are forbidden to prac-tice, and a connection with Nihilism is given as the excuse. From the military school of surgery in St. Petersburg a number of women have graduated, after passing through the whole course of necessary study, and this edict, it is feared, will be likely to check and discourage wo-men in all their highest aspirations, not only as regards medicine, but in all departments of useful knowledge. The Russian government openly gives an explanation of its action. Women doctors, it says, while study-ing at St. Petersburg, are naturally brought into contact with the young male students and thus infected with the Socialistic doctrines which pre-vail amongst them. It seems to sup-pose that under the guise of the study of medicine a regularly or-ganized propagander would be carried on with female influ-ence. It is well known that medi-cal schools have been in France and Germany, centres of political discon-tent, and that those of the Sorbonne in Paris have been almost since their foundation the hotbeds of discussion and ferment.

HAYES TITLE.

HOW'S YOUR LIVER?

If the skin be yellow and muddy, the bowels constipated; if you have ringing in your ears, dull pains in the side, sick headache, sour stomach, hot or dry skin, spots before the eyes, bad taste in the mouth, cold feet and hands, sleepiness, giddiness, loss of appetite, bad circulation of the blood, swelled limbs, &c., you may safely conclude your liver is out of order. The liver is more apt to become disordered than any other organ of the body, as its duty is to filter the purities from the blood. When it becomes weak, obstructed and diseased it must fail to do its duty, and the whole body suffers. Try White's Prairie Flower, the greatest known liver panacea in the world. Sample bottle 25 cents, large size 75 cents. For sale every-where.

BATTISTE'S HAIR INVIGORATOR.

M. Battiste Delaitang, Tonsorial ar-tiste of Port Townsend, Washington Ter-ritory, begs to inform his numerous pa-trons and the public generally, that he has prepared from the original receipt of Professor Montalbert, the celebrated chem-ist of Paris, and from chemical extracts of rare medicinal plants found only on the North-west coast of America, a most elegant addition to the usual toilette arti-cles in the shape of an invigorator and reju-venator of the hair. This delightful prepa-ration cleanses the hair from all impurities; prevents dandruff, heals all skin disease of the head, imparts a gloss and softness and beautiful color to the hair; restores its growth by its healthy and tonic action, and prevents its falling off. In short

Battiste's Hair Invigorator

Is the "sine qua non" of all the inventions for the improvement, beautifying and growth of the hair. The material of which it is composed are harmless and can be used freely according to directions ac-companying each bottle. OLD, TRIED, AND TRUE.
People are getting acquainted—and those who are not ought to be—with the wonderful merits of that great American Remedy, the **MEXICAN Mustang Liniment,** FOR MAN AND BEAST.

This liniment very naturally originated in Amer-ica, where Nature provides in her laboratory such surprising antidotes for the maladies of her chil-dren. Its fame has been spreading for 35 years, until now it encircles the habitable globe. The Mexican Mustang Liniment is a matchless remedy for all external ailments of man and beast. To stock owners and farmers it is invaluable. A single bottle often saves a human life or restores the usefulness of an excellent horse, ox, cow, or sheep. It cures foot-rot, hoof-ail, hollow horn, grub, screw-worm, shoulder-rot, mange, the bites and stings of poisonous reptiles and insects, and every such drawback to stock breeding and bush life. It cures every external trouble of horses, such as lameness, scratches, gwinny, sprains, founder, wind-gall, ring bone, etc., etc. The Mexican Mustang Liniment is the quickest cure in the world for accidents occurring in the family, in the absence of a physician, such as burns, scalds, sprains, cuts, etc., and for rheuma-tism, and stiffness engendered by exposure. Particularly valuable to Miners. It is the cheapest remedy in the world, for it penetrates the muscle to the bone, and a single application is generally sufficient to cure. Mexican Mustang Liniment is put up in three sizes of bottles, the larger ones being proportion-ately much the cheapest. Sold everywhere.

"BEATEN AND DISGRACED" is the heading of a leading editorial in that great Democratic exponent, the N. Y. "Sun," from which we extract this language: "It is not beaten, alone, that the Democrats are, on the whole, in the recent election—they are disgraced also. They had two positions, natural for them to take, which were impregnable. One was the observance of the constitutional provisions for the election of president and vice president; the other was the sound doctrine of a gold basis for currency. They abandoned both. They surrendered all principle, and withal were ignominiously beaten, as they ought to have been. We do not say the Republicans merited success; but Democrats certainly deserved the defeat they have sustained. Independent patriots will best manifest their attachment to the constitution by voting against the Democratic party. It will be bad for the party, but it will be good for the country. When any party deliberately abandons all principle, it should in turn be abandoned by the people. The Democratic party, at the recent state convention, silently turned its back to the constitution. Let voters at the polls silently turn their backs upon the Democratic party. Those who have timidly and basely lowered the flag should ask in vain for victory to perch upon it. Unworthy of leadership, let them be overwhelmed."

OUR WASHINGTON LETTER.

WASHINGTON, D. C., Oct. 26, 1878.

The near approach of the elections lends intense interest to the account from all sections received at the Committee headquarters of both the old parties. The Democrats are indulging in a large amount of bluster, but it is likely that a good deal of it will end in smoke. They talk loudly about expecting 50 majority in the next House, over both the Republicans and Greenbackers, and about a combined Democratic and Greenback majority of two-thirds, but when pushed to the wall they cannot name the districts which they expect to gain so generally, and they would be willing to be assured of half the figures they make. The Republican Committee go right along with their work, and it is good work—leaving bluster to their enemies. It is true that they do not expect to make gains enough to affect the bull-dozed gains of the Democrats in the South; neither could they expect, had they a small majority of honestly elected members, to get control of the next House, since the Democrats have the making of the list to be seated upon prima facie evidence, and the power to unseat all who may be open to objection. But they do not expect to hold their ground against disloyalty and communism, and will have a strong force in the next Congress to resist the encroachments of the "rebel Brigadiers."

The accounts from New York and Pennsylvania, at the Republican headquarters are very encouraging compared to the accounts received a month ago. The Philadelphians are especially hopeful. Judge Keely will come back with flying colors; unless their canvass is very much at fault in its reckoning, and they are now counting on the defeat of Randall as among the gains. He is fighting a desperate battle, but good judges say he is losing ground. As the Democrats and Greenbackers have failed to unite in any essential part of the contest, the Republicans also promise to carry the State ticket and the Legislature, thus securing a United States Senator. In New York, the contest bears equal promise. Senator Conkling and his friends are making a noble fight for Republicanism, and even the N. Y. "Sun" admits that they will gain one or two Congressional districts. The legislature contests are the all important object there, as a Republican legislature will re-elect Senator Conkling. The differences between the Tammany and anti ring Democrats in the city give the Republicans a manifest advantage in these contests. The National Committee are confident that Roscoe Conkling will be triumphantly returned.

From New Hampshire and Connecticut the accounts are cheering. Wm. E. Chandler is doing good service in the former State by exposing the untrustworthiness of rebel "conciliation" and by maintaining the true Republican doctrine of protection to human rights. His denunciation of the perfidy of Hampton and his South Carolina bull-dozers furnishes one of the best campaign documents of the season. The National Committee promise under this inspiration to gain one Congressman in that State, and they also count upon defeating Landers in the first District of Connecticut. While the accounts from other States are not as full and definite, they are cheering.

The sure sign that Congress is coming is the appearance of the Central Pacific Railroad ring, with their well paid lobby, to fight the Government in its effort to make that bloated corporation pay its honest obligations, and to fight the people in their effort to get a competing line to the Pacific Ocean. The Government and the business people begin to understand that this gigantic monopoly cannot be brought to decency except by competition, and the people of Southern California in particular are very earnest in their demand for relief in this way from the exactions of their oppressors. They will make a strong claim upon Congress to help them to an independent line through Arizona, New Mexico and Texas.

UP SALT RIVER!

Our sails are set, the steam is up, and we are on board. On the canvass is written a list of our disappointments. Here we sit with grief in our countenances and tears in our eyes; sad indeed is our appearance. Before we cast off the rope and push out into the stream, let us for a moment mark the condition of these disappointed passengers.

On the wharf can be seen a crowd of "honorable men", chuckling and rejoicing over our defeat. Two of our passengers, grey with age, have held office in this county, more or less, ever since the organization of the Territory; and during that time no proof can be found that these old men have ever been guilty of political dishonesty. Can those "honorable men" say as much?

"Come on, old fellows; you are good for another fight!"

Back in the stern sheets sits a young limb of the law—fair in face and honest in heart. Don't look so sad, young man; you have a future.

Our pilot, of legal lore and Roman nose, has the chart before him; knock him down, but he is sure rise again. Steam up!

One of our passengers, a "merchant" independent and truthful; therefore he is along with us—good fellow! But don't boil over; get your grub and come on.

The passenger with the trowel had got with an unreliable crowd—worse than untempered mortar. Pick up your trowel and go forward; you can live yet.

Good old Jack who is full of law and justice, but cannot now have the honor to deal out law and justice from the bench. Come on Jack—hold up your head; there will be another day.

Get up, Pill Bags! we are all sick; emetic and pills for us will be in demand.

Here we are, lawyers, doctors, merchants, mechanics and farmers. A jolly crew! Hurrah! we are off—up Salt River. Don't grieve, follow travelers; better than we have taken this voyage. Good by! Cast off the rope! Farewell, "honorable men". We may meet you again at Phillippi.

ONE OF THE PASSENGERS.

The writer of the above is evidently feeling very sore over defeat. He regards us as one of the "Honorable men" referred to; all of which we take as complimentary, considering the fact that when he strikes at us in that way he includes every one of the county officers recently elected. He seems to consider himself one of the "Press" crew, which is proper enough, but we think he includes one or two defeated candidates who would hardly take passage with them. We are at a loss to know what he is driving at; but publish his production because it pleases him and doesn't harm anybody. About the only real hit he makes is where he recognizes Mr. Bradshaw as the pilot for the expedition. We presume this was unintentional, as it perhaps grew out of the already formed habit on the part of the "Press" gang to look upon that gentleman as their leader. The failing of our artist may be noticed in the fact that his picture is not complete. The ex-journalistic aspirant for a seat in the legislature ought to be represented with a placard inviting purchasers for his political support.

At a wedding it was formerly a custom to drink honey, dissolved in water, for thirty days—a moon's age. Hence the origin of the honey moon. An old bachelor adds as a reason for it being so called, "because it was full of 'sells'."

The second number of the "West Shore," in its new form, has appeared. Puget Sounders will recognize the engraving of Jno. W. Ackerson, of Tacoma, which appears in the October number.

A big Yankee from Maine, on paying his bill in a London restaurant, was told that the sum put down didn't include the waiter. "Wall," he roared, "I didn't eat any waiter, did I?"

DEAN Swift proposed to tax female beauty, and leave every lady to rate her own charms. He said the tax would be cheerfully paid, and be very productive.

HERMES Hicklin has been offered the position of principal in the East Olympia Academy and that institution was opened last Monday.

What is a Government bond? Answer. A printed obligation of the Government to pay a certain number of dollars, with interest.

What is a greenback?—A. A Government note promising to pay the bearer one or more dollars, without interest.

What is a dollar?—A. An United States Government coin worth 100 cents.

If a man takes up his own note and gives a new note of his own making for an old note, is the debt thereby paid?—A. It is not; the obligation to pay is renewed, but not paid.

If the Government takes up one form of its obligation and gives another for it, is the debt thereby paid?—A. It is not; the obligation to pay is renewed in another form.

Can the Government pay its bonds in greenbacks?—A. It cannot, any more than a man can pay his own note by giving a new note for the old one.

If A. holds B's note, drawing interest at 6 per cent. per annum, and B, when called upon for payment, should offer to pay his note to A. by giving him a new note, drawing no interest, what would all honest men think of B. and his proposition?—A. They would think that B. was either a fool or a knave, and his proposition the emanation of a weak-minded or dishonest man.

A greenback being a Government note, promising to pay dollars, what gives it value?—A. The general belief that the Government will fulfill its promise.

Why is a greenback worth more now than during the late war of the rebellion?—A. Because of the near approach of the time when the Government will fulfill its promise, and the belief that the Government will be able to pay in coin for all the greenbacks that will be presented for payment after the 1st day of January, 1879.

How much would it add to the value of greenbacks if the Government would receive them in payment of customs duties?

A. Not more than from 1/2 to 2/3 of a cent on a dollar at the most.

What will make greenbacks always worth as much as coin?—A. Making them redeemable in coin on demand.

Can it be done in any other manner?—A. It cannot for any great length of time.

What is money?—A. Coin.

Has not the Government the power to make money of paper by law and keep it equal with coin?—A. It has no power to make money of paper or to keep paper equal in value with coin unless it be exchanged for coin.

Is not a greenback money?—A. It is not money; it is a promise to pay money.

Is not a greenback just as good as coin if made a legal tender for all debts?—A. It is not. There are other uses for money besides paying debts, and unless greenbacks are to be payable in coin they must necessarily be at a discount, greater or less, according to circumstances.

Is there enough paper currency in the country?—A. There is.

How can we tell when there is too much paper currency in the country? A. When there is no coin in circulation it is an indication that there is too much paper afloat. When there is too much paper in circulation it becomes depreciated in value below coin, and the coin is hoarded.

Why did the Government pass a law refusing to accept greenbacks and payment of customs duties in coin?—Because the Government needed the coin to pay the interest on its bonds, and this was the simplest and easiest way to get it. And Congress during the war did not wish to place itself at the mercy of the gold gamblers every time its payments of interests were due.

Why not pay the interest on the Government bonds in greenbacks? A. Because greenbacks are not money, and the Government must in the end pay money for its obligations, both principal and interest. It cannot honestly forever refuse to pay its obligations and continue exchanging one obligation for another for all time.

If the national banking system was destroyed and the Government issued all the paper currency of the country, the amount being equal to that of its bonds issued since the commencement of the late civil war, what would be the result?—A. The country would be flooded with depreciated paper, prices of everything

would be unsettled, confidence and credit would be destroyed, fortunes would be made and lost on paper, all coin would be hoarded, and all shrewd business men would prepare for the final crash, which would be inevitable sooner or later.

Why is not a greenback based on the resources of the nation the best paper currency in the world?—A. Because it is based simply on the policy and will of political parties in Congress assembled, and in the event of the policy of Congress being controlled by those who once fought to destroy the country the value of the greenback would be greatly imperilled, and might be destroyed, by adverse legislation.

Why have so many honest people adopted the greenback or "national" scheme concerning national finances?—A. Because they have not fully examined the other side of the question.

What is the principal plank in the National Greenback Labor platform? A. Repudiation.

Take this away, and what is left? A. Communism.

Which would be the least detrimental to the interests of the Government and civilized society, repudiation, communism, or highway robbery?—A. Highway robbery, by far.

Is a majority of the National Greenback Labor party composed of dishonest men?—A. No.

Why, then, are they training under such leaders, who are generally disreputable political weathercocks and tricksters?—A. Because they jumped aboard the craft under a misapprehension of the facts.

How long will this long named, conglomerate National Greenback Labor Communist party continue to exist?—A. Until its true character is fully known.

It is, then, a new party, as it is called?—A. No; France had such a party nearly a century ago.

What was their national paper money, founded on the property, the faith and the resources of France, and a full legal tender for all debts, finally worth when the grand national monetary system collapsed?—A. Nothing.

Why so?—A. Because it was not redeemable in coin.

Who are some of the prominent statesmen and patriots of this country who favored a coin basis for currency circulating as money? A. Washington, and a host of others, living and dead.

Who are the leading advocates of a national monetary system with a paper currency to be used as money and not to be redeemed in coin? A. M. M. Pomeroy [Brick]; and a few other ranting nobodies.

Whose opinions in regard to financial matters are worth the most, the statesmen beginning with Washington, or the repudiation pigmies beginning with Brick Pomeroy? Let the people answer.
