SUCH IS LIFE!
 The largest and best selected stock of General Merchandise Ever offered in this country, can be found at
Schwabacher Bros. & Co.
 Our new two-story building is filled from Garret to Celar; all of which we offer at prices that
DEFY COMPETITION!!
 Our past success in business is sufficient guarantee to the Public that they will be dealt with
ON THE SQUARE.
 Our stock consists in part of the following, viz:
Dry Goods, Clothing, Hats and Caps, Boots and Shoes, Groceries, Provisions, Liquors, Tobacco and Cigars, Crockery and Glassware, Paints, Oil, Varnish, Brushes, Carpets, Oil-cloths, Curtains and Window blinds, Shelf Hardware, Carpenter and Blacksmith tools, Iron, Steel, Chain, Bolts, Rivets, Ship Chandler's and Cordage, Lime, Cement, Plaster of Paris, Hay, Feed, Cumberland Coal, Plows and other farming implements.
 In fact anything and everything in general use in this country.
 We do not import "Direct from England," but one of our firm keeps a Chinese servant whom he imported direct from Oregon.
 We have a resident partner in the Market and our purchases are made to the VERY BEST ADVANTAGE.
 To Country Dealers we would say, and say it in truth too, that they can make saving by purchasing of us instead of going below.
 Thankful for past patronage, we take this method of inviting the Public to give us a call and we guarantee that they shall not regret doing so.
SCHWABACHER BROS. & CO.

City Drug Store.
J. F. MORRILL & CO., Proprietors.
Drugs, Medicines, Toilet Articles, etc.
 Prescriptions carefully compounded, day and night.

Puget Sound Dispatch.
A VALUABLE COAL MINE.—Mr. E. M. Smithers has sold his coal mine, with 280 acres of land, to Mr. Ruel Robinson, for \$25,000. Mr. Robinson has also purchased adjoining lands from Robert Abrams and Mr. McAllister, to the amount of nearly \$10,000, making his purchases aggregate about \$35,000, and it is the opinion of expert coal miners that the property is worth a great deal more than the price paid for it.
 This mine is situated between Cedar and Black rivers, near the confluence of the two rivers, about ten miles southeast of Seattle, and not over one-half mile, over level ground, from the waters connecting with this harbor, navigable for light draft steamers. The mine, as yet, has only been prospected, but it is the most valuable coal deposit ever opened upon the Pacific coast, both in quality and quantity. It is in a hill between two and three hundred feet high, with the coal extending below the water level as deep as has yet been explored and to within a few feet of the surface on the top of the hill, in horizontal layers from six to ten feet in thickness, which has been traced from the foot of the hill on the Black river side to the foot of the hill on the Cedar river side, a distance of about two miles, which is covered by Mr. Robinson's purchase. A level of about thirty feet half way to the top of the hill, discloses a perpendicular face of coal of about 20 feet upon a horizontal vein. Like all other coal deposits, this coal improves in quality the further it is from the surface. Several others besides ourselves have burned coal taken from this mine, and all concur in pronouncing the best coal for domestic uses and for steamers they ever found in this country. It is nearer of an anthracite character than any heretofore found upon the Pacific coast, and the experts who have examined the mine express their firm conviction that it will lead to anthracite.
 Mr. Robinson proposes to organize a joint stock company to work these mines and providing facilities for conveying the coal to market, and to commence active operations very soon.

COAL AND TRANSPORTATION COMPANY.
 As a matter of public interest, we would earnestly commend to the favorable consideration of our capitalists, traders, property owners and business men generally, the plan of operations proposed by Mr. Ruel Robinson for working the coal mines to which we alluded yesterday:
 Whereas, a company for the development of the coal mines on Cedar River, to be called the "Renton Coal Company," is about being incorporated, with a capital stock of thirty thousand shares of one hundred dollars each, par value; said company to be incorporated under the laws of the State of California;
 And whereas, the proprietors of said mine are desirous to commence work immediately, offer to subscribers the following inducements to subscribe, to wit:
 1st, Will sell shares at fifty dollars, payable in monthly instalments of five dollars each.
 2d, The share holders will be entitled to receive, in Seattle, six tons of coal per annum, at four dollars a ton, for each share held by them.
 3d, The proceeds from sale of certificates of stock to be used for the development of the mine, transportation and incidental expenses, and for no other purpose.
 4th, Charles H. Burnett is duly authorized to solicit subscriptions and receive payments monthly, and issue certificates for amount received from subscribers.
 5th, On the payment of fifty dollars, unassessable stock to be issued.
 Upon the conditions above stated alone are subscriptions solicited. Each share holder, it will be observed, on the payment of fifty dollars is guaranteed six tons of coal a year at four dollars a ton—half the usual price—which is nearly equal to fifty per cent. a year upon the investment, in addition to the dividends from the earnings of the Company and a share in the property to which all the money paid in is to be invested. No scheme has ever been presented to the public more certain of profitable results to stockholders, and the personal character of the managers of this enterprise is an ample guarantee that it will be faithfully carried out.
 This mine is so situated that it can be profitably worked on a small investment of capital, and is capable of sustaining an almost unlimited expansion of capital in its working with an increased pro rata profit. It is proposed at first to transport the coal to Seattle on barges towed by a small steamer. The coal can be loaded upon box cars in the level and by a tramway from thence to the river, run on board the barge and transported on shipboard in this harbor without breaking bulk other than emptying the cars into the hold of the vessel. When, however, the amount of

stock taken, or the earnings of the Company will warrant the investment, it is in contemplation to connect the mine with the harbor by railway, and put on a line of propellers to ply regularly between this port and San Francisco. All this is not only possible but probable within the next twelve months.
How TACOMA IS REGARDED.—The Duluth *Minnesotan*, the first recognized organ of the N. P. Railroad at Duluth, notes an article from the DISPATCH of January 8th, as follows:
 "Articles of incorporation have been filed in the office of the Secretary of the Territory, of the 'Tacoma Land Company,' of which Theodore Hosmer is the resident agent. The property of this company embraces the town plat of the new town of Tacoma, which has been represented as belonging to the N. P. Railroad Company. The records show that those representations were false and fraudulent; that the Railroad Company has no interest in the town and that its means and corporate name have been used by dishonest agents for the benefit of private speculators. Under more faithful management the whole rotten scheme will soon be repudiated and abandoned by the Railroad Company."
 Prosch says: "Budlong was in Tacoma last week and went to Seattle on Saturday's Zephyr. From the last DISPATCH, we should judge that he had tickled the editor's palm with a two-and-a-half piece." A very correct judgement from Prosch's stand point.—No man better knows "how it is himself." But it happens in this case, as in most other matters of fact from the same source, that Budlong did not come to Seattle in the Zephyr, and that we never saw the man, to our knowledge.

THE GRANGES.—The rapid increase of the order of the Patrons of Husbandry is among the marvels of the age, and shows that the great mass of the producing classes were prepared to embrace any opportunity or join in any movement which promised relief from the growing oppressions of chartered monopolies, the tyranny of the party caucus system, and the immunity to official speculation and corruption. The organization is nominally and ostensibly non-political; that is, there is nothing in the ritual or obligation of membership prescribing a political or religious test; but the objects of the association are such as can only be attained by political action, and it would be folly to suppose they will hazard the main object of their organization by division of their strength upon political or party issues foreign to the subject. Like the Grand Army of the Republic, or the Methodist Episcopal Church—neither of which apply any political party test to membership—the Granges will vote as a unit in all political elections in which party issues are involved. This is the only way in which they can make their organization of any avail in reforming the political abuses at which they aim. If they severally adhere to their old party organizations, allow their votes to be controlled by manipulated caucuses and packed conventions, in the main managed to defeat instead of to express the popular sentiment, they but aid in perpetuating the wrongs of which they complain, without taking any efficient means to remedy the evils.
 The membership of the Granges in the United States now number over one million, and organizers are kept constantly employed in every State adding to the numbers. There are now 109 Granges in Oregon and 21 in Washington Territory, where it has only been started within the last year. It is reasonable to believe that this vast body of intelligent voters, drawn about equally from each of the old political parties, will consent to become the tail to a party kite with no other guarantee than the promises of professional politicians.

PROCEEDINGS PROBATE COURT.
 [ADJOURNED TERM.]
 SEATTLE, Feb. 23, 1874.
 In the matter of the guardianship of John Buckley, guardian's accounts settled and guardian discharged.
 In the matter of the estate of Andrew Nelson, J. R. Stark, executor: final account settled and payment of debts ordered.
 In the matter of the estate of George R. Bartlett, John Collins, administrator: Order to sell personal property granted.
 In the matter of the estate of John Buckley, C. D. Young, Administrator: Order to sell personal property granted.
 Court adjourned to March 23, 1874.

THANKS.—We are indebted to Mr. McCracken, news dealer, for late Eastern papers.
SOME EGGS.—Mr. W. H. Gilliam laid an egg upon our table which measures full 8 inches in circumference one way and 6 inches the other, and weighs 44 ounces. It was produced by a hen of common breed.

Marine Intelligence.
SAN FRANCISCO, Feb. 26.—Sailed, Forest Queen for Port Townsend; Caroline Reed, Port Blakely; Grey Howard, Port Townsend.
VICTORIA, Feb. 26.—Sailed, Prince Alfred at 5 o'clock p. m.
PORT MADISON, Feb. 26.—Sailed, Oakland.
VICTORIA, Feb. 26.—Arrived, Prince Alfred, at ten past eight.

A POWERFUL ORGANIZATION.—There are now over 12,000 Granges of the Patrons of Husbandry, numbering over 1,000,000 members, and the numbers are rapidly increasing. This is a powerful organization for weal or woe to this Republic. We confidently hope it may be for the former, for all its ostensible purposes are for the public weal; the reform of abuses manifest and patent to all.

Capt. Finch told Mr. Morgan, while he was in San Francisco, that he intended to bring the steamer *Olympia* up on the Sound next April. She would most likely run between Seattle and Fort Wrangle. If she comes it is not improbable that Capt. Finch may secure the mail contract between here and Victoria. It is certain that *Olympia* will have some representatives in the competition for that contract.—*Courier.*

The Mountaineer says: "The religious revival that has been going on in the Protestant churches of Dalles City for the past three months has resulted in much good. The Methodist Church has received thirty-three new converts, the Baptist Church has received fifteen, and the Congregational Church five or six. This is a very good showing, considering the raw material the preachers had to work upon."

MUSICAL.—The Philharmonic and Choral Society of Seattle will hold its next rehearsal and business meeting on Monday evening next at seven o'clock, at the Congregational Church. At its last meeting it was unanimously resolved to give a public concert during the month of March. The Society already numbers about sixty members, and is rapidly increasing, and composed of the best musical talent in Seattle. Under the leadership of Prof. Ward, the Musical Director, rapid progress is being made, and a musical treat may be expected when the Society makes its public debut, and favor and encouragement at its first concert to be given during the coming month.

The Walla Walla Union says: In all directions we hear of very deep snows in the mountains. There has already more snow fallen this Winter than in any other preceding one for many years. And thus far there has been no thawing in the mountains, all the snow that has fallen is still lying there. Not a week passes but that more is being added. The prospects now are that when the snows on the head waters of the large streams begin to melt there will be very high waters soon after.—Portland will need to move her cellars back on higher ground before the 10th of June. But the pleasing feature of all this is that there is a better prospect for a good mining season, and a heavier yield of gold than we have had for some time.

LAMENTABLE ACCIDENT.—News has just reached Barkerville that at eight o'clock yesterday morning Mr. Kimbal, the Keathly expressman, was buried in a snow slide near the Gorge on the six-mile creek in the neighborhood of Antler Creek. It appears that he was in company with "Kansas John"—the men were on their way to William Creek—the weather being soft—they noticed the snow on the mountain side looked threatening, it being very steep at this place, and aware of the danger, they hurried along to reach a place of safety which was but a short distance from the scene of the accident. Suddenly they heard a sound as of thunder—the avalanche had caught them—Kansas John, who was about six feet behind his unfortunate companion, escaped unhurt; Kimbal saw the slide coming, but was unable to save himself, he was heard to cry out in an agony of horror, "Oh, God, we're gone!" the next moment he was swept away and buried in the merciless slide. Kansas John hastened back for assistance to Antler Creek; all the men there, on hearing the sad intelligence, hastened to the spot, where they worked all day and night without finding the body. A messenger was then dispatched to Barkerville with the sad news, which cast quite a gloom over the town—a party is organizing here to go out and aid in the search, distant from

Barkerville about 18 miles. It is feared that long ere this the poor man is dead. Besides the mail and express, it is said he had considerable treasure in his possession at the time of the accident. Mr. Kimbal was an American; he was a very well educated man, and was highly esteemed by all who knew him.—*Guardian*, (British Columbia.)

The Lake Superior and Puget Sound Land Company, a Maine corporation, organized to buy town sites on the line of the Northern Pacific Railroad, and to deal in lands generally on or in the neighborhood of the line, is to be wound up and go out of existence. The necessity is said to have arisen from the hostilities of the directors of the Northern Pacific Company, these gentlemen having refused from the start to sell the Town Site Company an acre of land, or to promote their success in any way whatever. An arrangement was made last Thursday between the two companies that the Town Site Company should sell enough of its stock to give the Northern Pacific Railroad Company the control of its organization, and should part with all the land it owns along the line of the road and elsewhere at fair prices, to be paid for in Railroad Company's bonds. These lands will, we are told, be thrown into the General Land Department of the Northern Pacific Company and be sold as its other lands are. The Railroad Company will surrender the charter of the Town Site Company. The bargain made is said to be a hard one for the Northern Pacific; but its directors found it necessary to remove all occasion for talk about a "Land Ring" within their organization.—*Winona (Minn.) Republican.*

A letter from Fort Wrangall says: "Through the courtesy of Mr. Flonney, Inspector of Customs, I was shown the readings of the thermometer at this place, from the 26th of November to the 27th of December. From November 26 to December 1, the average temperature, noted twice a day, 9 A. M. and 3:30 P. M. was 31°; from the 1st to the 28th of December, the average was 29°. The coldest snap was in January, when the mercury congealed. No doubt there will be considerable suffering from exposure to the weather by those who go up before the 1st of May. The mines cannot be prospected to advantage before June, on account of ice and snow."

Puget Sound Dispatch

BERNARD BROWN, EDITOR. Seattle, W. T., March 5, 1874

TELEGRAPH—INCREASED RATES—The rates for telegraphing to and from Seattle on ten words, will probably be increased as follows:

- San Francisco, from \$1.50 to \$2.75; Portland, from 75cts. to \$1.25; Olympia, from 50cts. to 75cts.; Tacoma, from 25cts. to 50cts.

The immediate cause of this increase of rates is the taxation of the line in the Territory, at rates which the Company regards as excessive. The assessment in this county, for instance, is 50 per cent more than the first cost of the line, which has been in operation several years, is constantly needing repair, and is not worth more than half as much as when new.

LOCAL ENTERPRISE.—No town ever yet prospered without local enterprise, any more than an individual can prosper without personal enterprise.

CONGRESSIONAL RECOGNITION.—The power of the organization of the Patrons of Husbandry has at length been felt and recognized by Congress.

JOHN BRIGHT ON THE PULPIT.—In a letter published in the Evangelical Magazine, Mr. John Bright says: "As to what is best for the pulpit (reading a sermon or delivering one extemporaneously) I may not venture to say much."

"If," says a Western editor, the day before Thanksgiving, "we had a dollar for every glass of lemon-sod, sweetened wine, beer and thicker things that will be drunk to-morrow, we wouldn't run another subscriber in a year."

The Walla Walla Statesman says: Our farmer friends tell us that the continuous snows and rains of the winter have thoroughly saturated the ground, and as a result the crop of 1874 may be counted upon to greatly in excess of any former year.

THE ALASKA BING.—A Washington dispatch says that a bill to provide for the extension of the United States system of land surveys over the Territory of Alaska has been framed, but has been snipped in the bud by opposition from the Interior Department.

SLAUGHTER OF THE INNOCENTS.—"Mrs. Winslow's Soothing Syrup" has several times been condemned in our columns, says the Druggist's Circular, "but we have not published the formula."

LADIES BEWARE.—A certain lady, who has become an inordinate chaffer of gum, applied to a doctor the other day in great distress, the blood having almost completely stopped circulating.

A bachelor says if you hand a lady a newspaper with a paragraph cut out of it, no line of it will be read, but every bit of interest felt in the paper by the lady will center in finding out what the missing paragraph contained.

NO MORE SUBSIDIES.—From Washington we get the information that the house committee on railroads at a recent private consultation, determined that no railroad scheme involving a subsidy or expenditure in any shape, or the contraction of any obligation by the government, whether by guaranty of interest, endorsement of bonds, or otherwise, should be reported favorably to the house.

THE PENNSYLVANIA SENATE has before it a proposition to appropriate one million dollars for the construction of what is to be called a "Centennial Memorial Hall."

IN A FRENCH industrial establishment, employing six hundred and thirty men, chiefly vegetarians, the sick fund was constantly in debt.

HAVE WE A PEABODY HERE?—From an excellent article in a California exchange, on "What shall be done with the growing generation?" we take the following:

"But boys are boys. They are a class of society that cannot be ignored. It becomes a community to deal with boys as a fact. What shall be done with the boys that are growing up around us, and who will soon push us off the stage of action? Put them to work, is the obvious reply. Learn them to do something. Put the young scoundrels to a trade, so that they may grow up men and play men's parts in the drama of life."

AT A recent meeting of New York Episcopal ministers, the Rev. Dr. Rylance read an essay on the relation of the Church to amusements. He argued that the present state of affairs promoted hypocrisy. Christians abhor operas and go to concerts, stum theatres and patronize tableaux, prescribe novels in general and read particular ones.

General Sherman says that when he met Mr. Lincoln at Fort Monroe and asked him whether he should catch Jeff Davis or let him run, the discreet Illinoisian replied with a story of a reformer and a toper, who on being offered a drink, said: "I can't take it, because I have signed the pledge; but perhaps you can fix it so I could drink it unbeknown to myself."

ONE OF THE most wonderful things in the world is the uniformity of apparent accidents. Thus in Great Britain, where the statistics are much better preserved than in this country, the total number of deaths by human violence in 1870 was 16,953; in 1869 it 18,497; it was 16,968 in 1868; 16,866 in 1867; 16,915 in 1866; 17,374 in 1865, and 17,018 in 1864.

THE PENNSYLVANIA SENATE has before it a proposition to appropriate one million dollars for the construction of what is to be called a "Centennial Memorial Hall."

"Where shall I put this paper so as to be sure of finding it to-morrow?" inquired Mary Jane of her brother Charles. "On the looking-glass," was her brother's reply.

A RAILROAD JUDGE.—The New York Sun says: "The appointment of Chief Justice Waite is regarded in well-informed circles as a great thing for the railroads, and for Jay Cooke & Co.'s North-western Pacific in particular."

MRS. DR. MAYNARD IS PREPARED to take a few patients at her Hospital two doors South of the U. S. Hotel. Careful attendance guaranteed. Seattle, March 3, 1874.

CITY COLLECTOR'S Notice of Sale. BY VIRTUE OF A TAX LIST AND Warrant issued by the Common Council of the City of Seattle, King County, Washington Territory, to me directed and delivered, I have levied upon the following described property of the following named persons, which I will offer for sale at PUBLIC AUCTION in front of my office in the city of Seattle, on

SATURDAY, MARCH 14, 1874 at the hour of 10 o'clock, A. M., unless the same be sooner redeemed by the said parties or their agents; the same being levied upon for CITY TAX, now due and unpaid, the property being subject to redemption within two years by process of law.

E. W. BLAKE, City Collector. Seattle, Feb. 26, 1874.

Puget Sound Dispatch.

OFFICIAL PAPER OF THE CITY.

Seattle, W. T. March 5 1874.

FRESH CREAM CAKES—Every Wednesday and Saturday, at the Confectionery on Front street.

DIED—At Port Gamble, February 20, 1874, Timothy McCarthy, a native of County Cork, Ireland, aged 35 years.

From the personal tone of the Olympia press, we should judge that a whole caravan of "sleeping lions"—as Froesch calls them—had been aroused. They make a terrible noise, but we believe nobody's hurt.

COUNTY HOSPITAL—At the last term the County Commissioner's Court for this county, the keeping of the indigent sick was awarded to Dr. Weed, who has made arrangements for opening a hospital in one of the Plummer buildings, two doors above the late Tremont House.

QUAKER FESTIVAL—The Ladies of the Congregational Society propose holding an Apron Festival and Quaker Supper, on Thursday evening, 19th inst. Costumes, language, and arrangements throughout, after the manner of the Friends. Programme next week.

Gen. Milroy has arrived from Washington, and will immediately resume the office of Superintendent of Indian Affairs for this Territory, from which he was suspended for mild irregularities, under promise of amendment for the future. Rev. George F. Whitworth, of this city, will be his chief clerk.

UNIVERSITY—The summer term of the University will begin on Monday, March 9th. Some of the higher classes will be out and therefore we can accommodate all the primary grades. Tuition \$8 00 for four months. Do not fail to send your pupils the first day.

APOLGY—Rev. Mr. Leod requested us to say that he inadvertently omitted the reading of a notice of the lecture of Judge Greene, as requested, and to express his regret at the omission, which was only occasioned by a lapse of memory. We take this occasion to say that Judge Green will lecture at the Pavilion on the 12th inst., for the benefit of the Seattle Library Association.

THE CHRIS. MITCHELL ASHORE—We hear that the bark Chris. Mitchell is ashore on the spit at New Dungeness. The bark was on the return trip from San Francisco, and a portion of the cargo was goods for this place. No further particulars received.

LATER—We have just received the news by telegraph that three men were drowned, and the vessel is a total loss.

BENEFIT TO THE MISSES BELL—Arrangements are in progress by our citizens for a complimentary concert for the benefit of the young misses who have heretofore contributed their wonderful musical ability to the benefit of others, and the delight of every audience before which they have appeared. All will feel an interest in making this occasion a grand success. The concert will be under the direction of Professors Wood and Luranger.

PROMPT AND HONORABLE—The Port Townsend Argus has been informed that Capt. Starr, on the arrival of the North Pacific at Victoria, after going on the rocks at San Juan, promptly paid the drover's (who owned the cattle which were thrown overboard) for their lost stock, and also paid their expenses to their homes. This expenditure amounted to several thousand dollars. Captain Starr is deserving of much credit for his prompt action in this matter.

HOMICIDE AT PORT TOWNSEND—A dispatch received from Port Townsend this (Wednesday) morning, says Henry Quayle, alias "Poker Jack," was mortally stabbed by John Martin, alias "Brick Top." A later dispatch to Fred. Dyer, says: "Poker Jack was stabbed in the stomach, by John Martin, this morning, in Hunt's saloon. Said to have been on account of an old grudge between them, though the cutting was unprovoked at the time. Martin was arrested and will be examined this afternoon. No hopes of Jack's recovery."

Both of these men were gamblers, and well known in every town upon the Sound. There has long been a deadly feud between them, and their acquaintances have all anticipated a tragical result. Quayle was tried for murder at Port Townsend a year ago and acquitted not he ground that the killing was done in self-defence.

The Walla Walla Spirit of the West, dated Feb. 28th, says that "Mr. Thos. B. Morris, late Chief Engineer of the Northern Pacific Railroad Company, arrived in this city on last Friday. Mr. Morris is now in the employ of the Seattle and Walla Walla Railroad Company, and came here for the purpose of beginning a survey at this end, which survey, together with the portion of the line surveyed by him for the Northern Pacific Company is to extend through to Seattle. Mr. Morris, with his assistants, began the survey last Tuesday, taking as we understand General Tilton's survey as far as the Touchet, from whence the actual survey commences. It is expected that the survey will be finished and estimates of the cost of building the road submitted to the Company by the first of April."

MURDERER CAUGHT—Edward Sebirt, the boy who killed his father with an axe, on the Snohomish, last Sunday, about nine o'clock on Saturday evening came to Mr. McAllister's house at the brick-yard, just south of this city, inquiring for work and for a night's lodging. He said that he came from Snohomish. Mr. McAllister told him he could sleep in the cellar, into which he went. McAllister then sent for Herod Wells, who, in Company with the City Marshal, proceeded to the house and arrested the boy. While Wells was after the Marshal, the boy confessed to Mr. McAllister that he was Sebirt and he had killed his father. He stated that his father had threatened his life and he killed him to save himself. The boy is half-witted, said to be made so by the cruel beatings inflicted by his father. He was taken to Snohomish on the Zephyr, under the charge of Mr. Jewett, who was specially deputized for that purpose.

FATAL ACCIDENT—At Port Gamble, this morning, while a party of men were engaged in stowing lumber on the bark Buena Vista, a large quantity fell, killing James Giles and seriously injuring three others. The accident was caused by the men neglecting to properly wedge the upper tier of lumber.

Telegraphic

EXCLUSIVELY TO THE DAILY DISPATCH.

WASHINGTON NEWS—The intelligent and interesting Washington correspondent of the Olympia Standard, under date February 9, gives the following news items of interest to our people:

"Delegate McFadden has been untiring in his labors before the committees and Departments. He expects a report from the Senate Committee on Territories on Monday next, favorable to the Olympia and Tenino Railroad. There will be some restrictions imposed by the committee.

"The Seattle and Walla Walla Railroad bill, and the Olympia, with the Columbia River and Walla Walla Railroad bills, have been referred to a sub-committee on Territories in the House, and a report will be prepared soon as the Senate Committee on Territories shall have reported on the Olympia bill. The friends of the measures are confident that the reports will be favorable.

"The bills denoting the tide flats at Olympia and Seattle have been referred to a sub-committee on public lands. The committee meet on Friday of this week to consider the measures. There appears to be but little doubt that the reports will be favorable.

"Senator Nesmith and Delegate McFadden are confident they will obtain a favorable report from the Committee on Commerce for the survey and estimates for the improvement of the Columbia river.

"Your Delegate is pressing his bill for the wagon road from Wallula to the Sound, and in this he also has the active aid of Nesmith, while the members from the Pacific Coast are a unit on all measures of local interest.

"The several memorials passed by the Legislature of your Territory have been received and presented to Congress and appropriately referred.

"The Secretary of the Interior has recommended to Congress the payment of the DeVore-Montgomery award, in the case of H. A. Webster, whose lands were taken to enlarge the Makah Indian Reservation at Neah Bay.

"Mr. McNaught and Gen. Tilton are here, busy with the interests they represent. They co-operate most cordially with your Delegate."

VICTORIA, Feb. 27.—The elections for the Commons, with exception of Cariboo District, are over, with the following result: DeCosmos, Roscoe, Cunningham, Dewdney and Bunster.

The elections for the Local House took place yesterday in this district. Dr. Iolmie and Mr. Robertson were returned.

From Nanaimo we learn that the Levi Stevens is at Newcastle, the Commodore at Douglas, the James Bell and Wellington at Departure Bay, the latter waiting to be towed out.

The House of Assembly will, be prorogued on Monday next, the military acting as an escort to the Lieut. Governor.

Weather cool and clear.

WASHINGTON, Feb. 28.—Clayton has received a paper signed by all bankers and about 300 prominent merchants of San Francisco, favoring in strong terms the reappointment of Stone, whom they commend as an efficient and acceptable officer.

A bill introduced in the House to-day by Kasson, amendatory of the act to prevent the extinction of fur-bearing animals in Alaska, authorizes the Secretary of the Treasury to designate the months in which fur-bearing seal may be taken for their skins, on the Islands of St. Paul and St. George, and adjacent waters, and to fix the number taken at or about each island.

Luttrell to-day discovered in the War Department pigeon-holes another lot of California claims for Modoc War supplies, and will push them to settlement.

The Secretary of the Interior has written a letter to the Secretary of War in relation to the hostile Sioux Indians, in which he states that the officials of the Interior Department, in asking for troops at the Red Cloud and Spotted Tail agencies, wanted to prevent and not to cause hostilities, and that it was supposed that these troops might be needed

as a protection and not as an aggressive force. The Senate Military Committee reported adversely and the Senate has postponed indefinitely the bill authorizing the President to restore Capt. Louis C. Sanshair, now of Mare Island, to his original position on the Navy Register, next below Commodore Reynolds. He claims that others were unjustly promoted over him.

A Dry Tortugas dispatch says a steamer just arrived from Havana reports that there is great excitement in that city, owing to the alleged departure from Baltimore of the steamer Edgar Stuart on a filibustering expedition, and that Spanish naval officers are determined to sink her with all on board if found near the Cuban coast.

LONDON, March 2.—At Blackburn, Lancashire, a boiler exploded, killing 20 persons and wounding 30, several fatally.

Rumors are current that the Ashantee expedition is in great peril.

LA CONNER, March 2.—A Lightning Creek, B. C., dispatch of the first says the following is the wash-up for the past week: Lightning Company, 52 ounces; Spruce, 50; Point, 92; Van Winkle, 60; Victoria, 420; and Vancouver Co., 129 ounces.

On Friday morning a heavy snow slide came down into town, smashing into Madame Bendacoe's saloon, carrying away doors and windows, besides seriously injuring the proprietress, who was buried under two feet of snow, where she remained fifteen minutes, before she could be resurrected.

The roads from Barkerville to Cottonwood are almost impassable, no travel except express having gone over them for nearly a month.

NEW YORK, March 2.—The Tribune this morning publishes 5 columns showing the alleged history of the Sanborn contracts, which it calls the biggest conspiracy of the age. It alleges that this conspiracy involves Geo. S. Boutwell, W. E. C. Bonfield, Wm. A. Richardson, Frederick A. Sawyer, of the Treasury Department, General Butler, Geo. Sanborn and Geo. Bliss, U. S. District Attorney for this District. It has shown that the whole scheme was planned years ago and that a special law was smuggled through Congress to cover the swindle, and that to carry it out, a whole force of Supervisors and Collectors of Internal Revenue and United States Court's machinery have been used by Sanborn and his confederates.

INDIANAPOLIS, March 2.—A large meeting of prominent business men was held to-night. They adopted resolutions favoring an increase of volume of paper currency, deprecating an immediate return to specie payments, and endorsing the position of the Indiana Senators on the subject.

MADRID, March 2.—Official reports of the battle on the Heights of Somorostro admit that the Government troops lost 800 in killed and wounded. Subscriptions have been raised here for the wounded.

SAN FRANCISCO, March 3.—The case of the People vs. A. E. R. Whitney, for usurping the office of Chief Engineer, came before the 15th District Court again this morning, and the defendant is now introducing his proofs. The trial will not be concluded to-day.

Physicians pronounce the boy S. L. Upkey, shot by young Baker, out of danger. He has recovered his sight, which was thought to be lost and will be able to testify in the case two weeks hence, when the matter will be investigated in the police court. The other lad, shot through the abdomen by the boy B. Hughes, is also reported in a fair way to recover. There was a heavy fall of rain last night and occasional showers to-day.

Greenbacks unchanged. Michael Hydenger is the name of the man who died suddenly last evening, aken in a fit on one of the street cars.

Marine Intelligence.

LONDON, March 2.—Arrived at Liverpool, ships British Commodore, Ophelia, and Vanderbilt, from San Francisco; bark Romeo, from Portland, Ogn. Arrived at Queenstown, ships Enterpe, Jas. L. Wright, and Knight Commander, from San Francisco.

SAN FRANCISCO, March 3.—Arrived, David Crockett, New York; Tidal Wave, Port Madison. Sailed, Warhawk, Port Discovery; Lookout, Port Townsend; Columbus, Liverpool; Lady Blessington, Astoria; R. H. Ramsdale, Coos Bay.

PORT GAMBLE, March 4.—Sailed, bark Milan.

SEATTLE, Feb. 28.—Sailed, brig W. M. Myers, with lumber, for San Francisco.

PORT GAMBLE, March 1.—Arrived, Isaac Jeanes.

2.—Arrived, bark Camden, from Honolulu.

PORT MADISON, March 3.—Arrived, barkentine W. H. Gawley and bark Northwest, from San Francisco.

VICTORIA, Feb. 28.—Sailed, Lady Lampon Gaudin, London.

crusade against whiskey saloons. The difficulty seems to be to get any one to take the lead in the campaign.

LONDON, March 3.—A special correspondent of the News in India telegraphs that the villagers in Eastern Tirhoot are slowly starving to death, and that the future in other districts looks terribly ominous.

NEW YORK, March 2.—A Hong Kong dispatch announces that the Alaska sailed for San Francisco, Feb. 25, with a full cargo and 600 emigrants.

HAVANA, March 2.—A detachment of 600 volunteers, the first mobilized since the Captain General's decree was issued, went to Cincovilla District to-day for active service in the field. 3,000 more will leave to-night for Puerto Principi.

DAYTON, Ohio, March 2.—Several prayer bands of women visited a number of saloons here to-day. None surrendered but several were willing to sell out or be set up in other business. Three new saloons opened to-day. The women are not discouraged, but are determined to persevere.

COLUMBUS, O., March 2.—A temperance meeting was held here to-night.—The enthusiasm appears to increase. Speeches were made by a number of prominent citizens, including several ladies.

WORCESTER, Mass., March 2.—A meeting is being held here with the view of organizing a temperance crusade after the Ohio style. Much excitement and interest manifested.

PHILADELPHIA, March 2.—Women's temperance movement is still progressing and liquor dealers exhibit considerable uneasiness at the prospects.

St. LOUIS, Mo., March 2.—A fire to-day, which originated in the basement of North 4th St., destroyed \$50,000 worth of rubber goods stored there, belonging to the Goodyear rubber Co., and completely gutted the premises of J. A. Laton, on the first floor. Laton's loss cannot be ascertained to-night. Insurance on the rubber stock \$40,000.

Lewis M. Oak, real estate agent, blew his brains out this evening. Cause, financial troubles.

INDIANAPOLIS, March 2.—A large meeting of prominent business men was held to-night. They adopted resolutions favoring an increase of volume of paper currency, deprecating an immediate return to specie payments, and endorsing the position of the Indiana Senators on the subject.

MADRID, March 2.—Official reports of the battle on the Heights of Somorostro admit that the Government troops lost 800 in killed and wounded. Subscriptions have been raised here for the wounded.

SAN FRANCISCO, March 3.—The case of the People vs. A. E. R. Whitney, for usurping the office of Chief Engineer, came before the 15th District Court again this morning, and the defendant is now introducing his proofs. The trial will not be concluded to-day.

Physicians pronounce the boy S. L. Upkey, shot by young Baker, out of danger. He has recovered his sight, which was thought to be lost and will be able to testify in the case two weeks hence, when the matter will be investigated in the police court. The other lad, shot through the abdomen by the boy B. Hughes, is also reported in a fair way to recover. There was a heavy fall of rain last night and occasional showers to-day.

Greenbacks unchanged. Michael Hydenger is the name of the man who died suddenly last evening, aken in a fit on one of the street cars.

Marine Intelligence.

Egyptian Bitters

OF THE TREE OF LIFE.

Patented June, 1866, to Peter Poncin

THIS VALUABLE MEDICINE, IN USE for several years past in the Eastern States, with marvellous success, has just been introduced in this place by the patentee. The first person who tried it here, offers the following testimony to its merits: "I have been a sufferer for several years from chronic bilious affections from which no medicine tried by me afforded any relief. An experiment, I tried Mr. Poncin's Egyptian Bitters from the effects of which I have experienced the most gratifying results. I can sincerely commend it to others similarly afflicted."

Manufactured and sold by P. PONCIN, On Second Street, corner above Methodist Church, Aug 20

R. ABRAMS' LIVERY STABLE,

Cor. Commercial and Washington Sts SEATTLE, W. T. This Livery Stable is in the centre of the city, and to persons desirous of having Buggies, Carriages, and spirited saddle animals, can find them at this stable. Horses boarded by the day or week. R. ABRAMS.

DEFY COMPETITION!!

Our past success in business is sufficient guarantee to the Public that they will be dealt with

ON THE SQUARE.

Our stock consists in part of the following, viz:

Dry Goods, Clothing, Hats and Caps, Boots and Shoes, Groceries, Provisions, Liquors, Tobacco and Cigars, Crockery and Glassware, Paints, Oil, Varnish, Brushes, Carpets, Oil-cloths, Curtains and Window blinds, Shelf Hardware, Carpenter and Blacksmith tools, Iron, Steel, Chain, Bolts, Rivets, Ship Chandler and Cordage, Lime, Cement, Plaster of Paris, Hay, Feed, Cumberland Coal, Plows and other farming implements.

In fact anything and everything in general use in this country.

We do not import "Direct from England," but one of our firm keeps a Chinese servant whom he imported, DIRECT from Oregon.

We have a resident partner in the Market and our purchases are made to the VERY BEST ADVANTAGE.

To Country Dealers we would say, and say it in truth too, that they can make Saving by purchasing of us instead of going below.

Thankful for past patronage, we take this method of inviting the Public to give us a call and we guarantee that they shall not regret doing so.

SCHWABACHER BROS. & CO.

Telegraphic

EXC. USUALLY TO THE DAILY DISPATCH.

LONDON, Feb. 22.—Dispatches from Nagasaki say the insurrection is spreading and the situation is critical. The insurgents are advancing on that place and at last accounts were so near that the foreign residents were preparing to leave.

A Times special from India gives the details of the distress by the famine in Bengal, in two districts of which 18,000 are in distress. It is estimated that in the famine stricken territory half a million would perish if it were not for Government aid, by which alone they now subsist.

It is represented that Gladstone has determined to no longer take an active part in Parliamentary proceedings, and there is much speculation as to who will succeed him as head of the Opposition. The Observer hopes that Gladstone's determination is not final.

23.—It is stated that on the assembling of the new Parliament it will be immediately prorogued until the 12th of March, to admit of the reelection of those who have accepted office, and the Queen's speech will not be delivered until then.

MADRID, Feb. 22.—Severe fighting has been going on in Biscay for several days. Gen. Dargagary with twenty-five thousand insurgents holds the heights above Somorostro. The Republicans have taken the first height. Their losses are heavy. The wounded are coming into Santander. A fleet has left that port to attack Portugalette, which will be simultaneously assaulted by land.

Later—the fleet entered the river on Friday and found that Portugalette had been abandoned by the Carlists.

BAYONNE, Feb. 22.—The Carlists have taken the town of Vinaroz, in Valencia. The garrison, numbering 290, were taken prisoners by the Carlists.

PORT JERTS, N. Y., Feb. 22.—At 2 p. m. to-day an engine ran off the track at Uniondale, on the Jefferson branch, between Sasquehanna and Carbondale and fell down an embankment 75 feet, killing Conductor J. H. Harding, Engineer Cramer, Fireman Daniel Cramer, and Brakeman, Thos. Ripley.

WASHINGTON, Feb. 22.—Senate Appropriations Committee will propose the abolition of the postal car system on railroads, and of the system of free delivery of letters; the latter on the ground that large sums are thus spent for the benefit of residents of a few cities, which the people at large are taxed to pay for. It is estimated that such changes would well nigh cover the estimated deficiency in the Postal Department for the ensuing year.

WASHINGTON, Feb. 25.—The Attorney General has decided that the Secretary of the Treasury may withhold from a railroad company compensation for transportation services, when such a company has received from the United States, to aid in the construction of such road, bonds, upon which it has not paid the interest, though the services were rendered on another of its roads, to which no Government aid was given.

WASHINGTON, Feb. 27.—Luttrell presented in the House and Hagar in the Senate the resolution of the California Legislature, asking an investigation of Central Pacific Railroad and the Contract and Finance Company matters.

Senate Post Office Committee to-day agreed to amend the Postal Telegraph bill in various minor particulars suggested by the arguments of Hubbard and Orton.

VERMILION, Feb. 25.—When Ex-President Thiers entered the Assembly to-day he was greeted with a perfect ovation from the members of the Left, in consequence of his letter published yesterday, stating his conviction that a republic is the only form of government for France.

PARIS, Feb. 25.—It is proposed to hold another International Exhibition in this city in 1875.

LONDON, Feb. 25.—The War Office has received no reports of the battle said to have occurred between Sir Garnett Woolesey's army and the Ashantees, but an unofficial, though circumstantial dispatch was received at the Admiralty Office, stating that a battle was fought at Accomba, Jan. 31, not at Comassie, as reported. Among the killed are Maj. Baird and Capt. Buckle. The Globe says if the news be true a great disaster has befallen the British arms, and the only course left to Sir Garnett is to effect a safe retreat to the coast.

A special to the Standard says the Ashantees entirely surrounded the British army, but were eventually driven off with great loss. The principal war chief of the Ashantees was killed. The king has taken command of his armies in person, and it is expected that he would renew the attack. February 5th was the day decided upon for the storming of Comassie.

Further details of the battle between Sir Garnett Woolesey's force and the Ashantees state that the fight lasted from 6 in the morning till three in the afternoon. 17 British officers were killed or wounded. The loss sustained by the native allies is unknown, but was very heavy. The communications of the British troops with the rear is threatened. It is believed another large force of Ashantees is approaching Comassie from the Southwest.

PRITTSBURG, Pa., Feb. 26.—At a meeting to-day temperance women adapted a plan of operations for praying brigade to attack saloons of this City, and fixed upon Tuesday next to commence the campaign.

DAYTON, Ohio, Feb. 26.—Women continue their prayer meetings with the usual spirit. Advisory Committee took legal advice to-day and it is rumored that they have decided for the present against street prayer, in consequence of a stringent ordinance against obstructing streets. The ladies may yet conclude to test the ordinance.

CLEVELAND, Ohio, Feb. 26.—Locomotive Engineers have elected R. Maruther, of Albany, N. Y., Grand Chief Engineer vice Chas. Wilson resigned. Brotherhood is still in secret session.

Later—a special meeting of the brotherhood of Locomotive Engineers is in secret session. A resolution was adopted asking Chas. Wilson, Chief Engineer, to resign on account of his action in recent strikes, and he at once resigned and left the convention.

NEW YORK, Feb. 26.—K. C. King, who shot Anthony F. O'Neil in November, 1872, was pined on trial to-day on charge of murder. O'Neil was a friend of and a witness for Mrs. King in suing for a divorce. The trial of King has been delayed owing to his complete prostration from consumption.

NEW YORK, Feb. 26.—Superintendent of Postal Car service has ordered the postmaster to stop sending through matter on the Erie railroad while the strike lasts.

HORNSVILLE, N. Y., Feb. 26.—The strike of Brakemen on the Erie Railroad is ended and all passenger and freight trains are running regularly.

BAYONNE, Feb. 25.—It is rumored that Garionez has been badly defeated before Bilbao with the loss of a large number of his troops and compelled to retreat to Santander.

HANANNA, Feb. 26.—An aide-de-camp of the Captain General died to-day of the vomit.

Several hundred Chinese have arrived at Havana from Tareka and sailed for Mexico.

KINGSTON, Feb. 26.—French Canadian Societies of this country, benevolent and protective, are agitating the question of annexation, have formed a Central Union and will hold a convention next summer.

CHICAGO, Feb. 26.—The disagreement between the Union and Central Pacific Railroads and the Rock Island, Chicago and Burlington and the Northwestern roads, on the question of pro rata freight is virtually settled, nothing being left to complete the arrangement except some details. This settlement was brought about to-day at a meeting of the general freight agents of the above roads. Another meeting is to be held to-morrow, when the terms upon which the roads are willing to prorogue will be definitely settled.

NEW YORK, Feb. 29.—A Washington dispatch says Mrs. Myra Clark Gaines, of New Orleans, has been before the sub-committee in the case of Judge Durrell, and that her testimony is regarded as of such a character as to require a prompt presentation of articles of impeachment. Mrs. Gaines, it seems, had a conversation about Durrell with her lawyer, Stone, who said: "He (Durrell) will set upon your cases and decide in your favor upon certain conditions, which are, that Sheriff Parker retains in his hands \$21,000 for the main streets in the property litigated by the heirs of Cavarocaris Davenport. Durrell can arrange it, if you will give him \$20,000. You can have the remainder, to be given to the above named heirs; and every other lot in the two squares designated is also to be given to Durrell."

Subsequently, at the house of Norton, the assignee in the bankruptcy case of Mrs. Gaines, she met Durrell and asked why he could not see her case. He referred her to Norton. Meeting that official, he said to Mrs. Gaines that if she would consent to the proposition made to her the day before by Mr. Stone, the Judge would sit on her case.

WASHINGTON, Feb. 27.—Ben Butler, with Secretary Richardson, Senator Powell, and Representatives Hooper and Buffington, had an interview with the President this morning, relative to the appointment of Summons as Collector of Boston, the result being that the President will not withdraw the nomination, nor in case of its rejection nominate any third person named by the seven Massachusetts Representatives.

House to-day granted a pension of \$50 per month to the widow of General Canby. Conkling made a strong effort to have pension fixed at \$100 per month.

FREDRICKTOWN, Feb. 27.—Several valuable horses were burned, including the well-known Wade Hampton, by a fire in Samuel T. Bungles stables this morning.

CHICAGO, Feb. 27.—Christopher Rafferty, thrice convicted of the murder of policeman Charles O'Meara, in this city two years since, was hanged in jail at Waukegan, Ill., at 1 o'clock this afternoon.

NEW YORK, Feb. 26.—Bondholders of Rockford, Rock Island and St. Louis Railroad met to-day and appointed a Committee to investigate the condition of the road and suggest a plan of reorganization.

NEW YORK, Feb. 25.—This afternoon a policeman named John Doyle shot and instantly killed Miss Lawler, with whom he had been in company for some time. It is said that the officer was jealous of the young lady and shot her after getting drunk.

SAN FRANCISCO, Feb. 26.—Mayor Otis and several witnesses have already been before the Grand Jury on the matter of the charges made against himself and Treasurer Herbert by County Judge Stanley, and an early report is expected in the case.

The Steamship Pioneers have perfected all arrangements and will make an excursion on Saturday next in the old pioneer steamer California.

The managers of the Ninth Mechanical Industrial Exhibition have agreed on a general plan for a pavilion to be erected on Eighth street between Market and Mission, which will cost \$50,000. The sales at the Mining Stock Board for the past week aggregate \$3,754,000.

DIFFERENT WAYS OF TALKING RELIGION.—At the recent wedding of the eldest daughter of the Right Hon. William E. Gladstone, the premier of England, he addressed the assembled guests in the language appended, the substance of which if learned by heart and repeated by those who are charged with performing such ceremonies, would be an excellent thing:

"One might almost suppose it was presumptuous to enter into a vow, which depend upon it, no human power can dissolve or weaken, but it is not presumptuous if it be done in the right spirit. If it be done in humble trust and reliance upon the guidance of Him who alone can direct our steps in the greater transactions of life as in the smaller, it is not presumptuous. Then it is hopeful, it is blessed, it is happy. As far as regards the family from which our daughter is removed, the marriage presents a mixed character. It would be idle to deny that we shall miss her much. It would be idle to deny, however much the good opinion of her is deserved, that we shall long look for her familiar form and her vacant place in our family circle; but it would be selfish to dwell on ideas such as these. The question is whether the union which she has formed is one which we ought to rejoice in as reasonable and as Christian men. I must honestly own that there is not one point I could wish otherwise than I did. My dear friend Lord Lyttleton said you knew little in comparison of the man with whom she has united her lot, and it is true; but once or twice you have seen him and heard him in the church, and have had some opportunity of judging what manner of man he is. To him we can with perfect confidence commit the future fortunes of our beloved child. There is not one cloud upon the sky of their prospects, so far as it is allowed us to forecast them. Well, my dear friends and neighbors, again let me express the deep gratitude we feel for the manifestations of your kindness; they have such as we feel now, and such as I trust we ever shall continue to feel. There is one act of kindness I will request you to perform still on their behalf. You have to-day accompanied us to the temple of the Most High to witness the solemn rite which has been there performed; but let each one of you, in the temple of his own heart and in the silence and secrecy of his own chamber, beseech the Almighty to continue to fulfill His goodness upon the heads of the married pair. Happy as they are, they cannot dispense with His aid; they cannot dispense with the aid and comfort of your prayers—that aid and comfort which under all circumstances and at all times every one of us can freely, and at the same time humbly render to one another."

Coal was discovered in England in 1234, was first used in 1280, and was the common fuel of brewers by 1350, but became so offensive to the nobility in 1398 that Edward I. proclaimed it a nuisance; but the noble noses, had, at last, to tolerate the nuisance, and finally the nobility burnt it just like the common people.

The editor of the Ashland Press is growing gray in trying to solve this problem: "Why is it that a certain young fellow and girl can sit in the parlor till after midnight, without making noise enough for the old people to hear them through the partitions, and can't sit in the Lyceum meeting five minutes without annoying the whole house with their giggling and talk."

BE PUNCTUAL.—The Worcester Press gives the following good advice: Little boys, be punctual. There was once a President who was once a little boy, too. He learned many things when he was in school, but he did not learn to be punctual. After he had grown to be a man and had been elected President of this great and glorious country, one day he had a duty to perform; but his habit clung to him, and he kept putting off that duty for eight days. And during the time he was delaying to sign the salary repeal act the Congressmen were drawing an extra \$750 per day, which, in the aggregate, amounted to \$21,000—the price of eight days' delay. Always be punctual.

KISSING IN CHURCH.—A Columbus clergyman, who, while preaching his sermon Sunday evening perceived a man and woman under the gallery in the act of kissing behind a hymn book, he did not lose his temper. He did not fly into unseemly rage, and call upon the sexton to rush up the aisle and disband the rioters. No, he remained calm. He beamed mildly upon the offenders over his spectacles, and when the young man kissed her the fifteenth time he merely broke his sermon short off in the middle of "thirdly," and offered a fervent prayer in behalf of the "young man in the pink neck-tie, and the maiden in the blue bonnet and gray shawl, who are profaning the sanctuary by kissing one another in pew 77." Then the congregation said "Amen." Then the young woman pulled her veil down, and the young man sat there and swore softly to himself. He didn't appreciate the clergyman's solicitude. He didn't feel as if he wanted to be prayed for, as he was quite happy at the time and his condition heavenly.

A "REVIVAL" STORY AND ITS RESULTS.—It will be remembered by our readers, says the North East (Pa.) Sun, that early last Fall a protracted meeting was held at Northville by Revs. Mr. Chapin, of Ripley, and Mrs. Dawson, of the former place. During this meeting Mrs. D. related a story of a certain family composed of father, mother, and only child. She stated that they attended a protracted meeting and resisted all appeals to reverse their conduct in life and become followers of the precepts of Holy Writ. The mother soon after became a raving maniac and died in that condition. Mrs. D. said that there might and probably would be a similar case at that place, but mentioned no names. A Mrs. George Taylor, of Northville, being present, took these words as a direct application to herself and family, there being only three in the family.—The result was that she became insane, was sent to an asylum in Utica, and there died. Her remains were brought home and deposited in the burying ground at Northville. She was an unusually robust young woman, sound of mind and in the best of health until after hearing that story. As to the cause of her death we leave our readers to decide.

COFFEE AS A DISINFECTANT.—The Homoeopathic World says that coffee, when roasted, is one of the most powerful means, not only of rendering animal and vegetable effluvia innocuous, but of actually destroying them. A room in which meat in an advanced state of decomposition had been kept for some time was instantly deprived of all smell on an open coffee roaster being carried through it, containing one pound of newly roasted coffee. In another room the effluvia occasioned by the clearing out of a cesspool, so that sulphuretted hydrogen and ammonia could be clearly detected, was entirely removed within half a minute on the employment of three ounces of fresh coffee. The best mode of using it as a disinfectant is to dry the raw bean, pound it in a mortar, and then roast it on a moderately heated iron plate, until it assumes a dark brown hue, when it is ready for use. It must, however, be remembered that the coffee, to be effectual, should be perfectly pure. Adulterated rubbish will only make matters worse.

THE REASON WHY.—A Washington dispatch of February 8th says: The charges against General Milroy, Indian Superintendent for Washington Territory, preferred by E. C. Kemble, Indian Inspector, will be investigated by the Commissioner of Indian Affairs. It seems that General Milroy has been pursuing practices common in some other departments, such as charging for service of servants allowed by law when such servants have not been employed, and also appropriating Government horses for his private use. The Department will act, and reprimand the General, and restore him to his position with instructions to go and sin no more. The Department will sustain Kemble, however, for the discharge of his duty.

Lamarine was asked by a friend if he did not spend too much in advertising. "No," was the reply, "advertisements are absolutely necessary.—Even divine worship needs to be advertised. Else what is the meaning of church bells?"

SNUG SALOON JUST OPENED BY SAM. RAYMOND Commercial Street, South of Washington, Seattle, W. T.
