PARTY ORGANS.—The Republican
party of Washington Territory has a
pair of very peculiar party organs: the
Courier, at Olympia, and the *Union*, at
Walla Walla. The first assails Judge
Wingard, lately appointed District
Judge, in the most violent manner, and
the other is equally violent upon Judge
Lewis, lately appointed Chief Justice.
No specifications are ventured upon in
either case; but a stranger to the parties
would conclude from reading those
papers that these Federal Judges were
no better than horse thieves. In the
case of Judge Wingard, we know that
the assails upon his character are ac-
tuated solely by the personal malice
of the editor making them, and are to-
tally without foundation in truth. It
appears to us, from the fact that thus
far no wrong act of Judge Lewis has
been named, that the attacks upon him
are of the same character. If these
gentlemen are the worthless characters
they are represented, it is certainly not
the duty of a party organ to defend
them from the public odium due to
their crimes; but it is just to them and
to the public that they should not be
condemned and disgraced simply because
they have failed to placate their party
editors; and it seems to us that the
editor who uses his position solely for
the purpose of rewarding his personal
friends and punishing his personal en-
emies, can neither be a faithful repre-
sentative of his party nor a trustful
guardian of the public interests.

**STEAM COMMUNICATION WITH SAN
FRANCISCO.**—It will be seen by an ad-
vertisement in this paper that hereafter
we are to have a regular line of steamers
from this port to San Francisco. Capt.
Howell, who is to have command of the
steamship *Los Angeles*, is now in this
city making arrangements for the pro-
posed trips, and meets with very general
encouragement from our business men.
This will meet a want long felt here,
of certain, direct and quick communication
with our great commercial centre, and
will add materially to our business fa-
cilities and population.

THE JURY SYSTEM.—A Wisconsin pa-
per says of the boasted bulwark of lib-
erty—the jury system—"For our part
we would as lief submit the dice-box
judgment being in favor of the highest
throw—as to two-thirds of the juries
empaneled to sit in judgment on af-
fairs of their fellow-men.
Probably nine out of ten of the most
intelligent portion of community would
agree in opinion with the editor above
mentioned. The sanctity of the jury
system is a matter of tradition. It had
its uses as a bulwark against arbitrary
power in defence of personal liberty.
As a tribunal for the determination of
the legal rights and remedies of litigants
in civil cases, it is the most uncertain
and unsatisfactory system that could be
devised. The requisite qualifications
of a judge are legal ability and integrity,
and his character and standing before
the public are pledges of the wisdom
and justice of his decisions, for which
he is personally responsible to the pub-
lic. The qualifications of a jurymen
are ignorance and stupidity. He is re-
quired by law to have no opinions of
his own, and no previous knowledge of
the matter in controversy, though the
main facts of the case may be of such
prominent and illiterate portion of com-
munity could have failed to take cogni-
zance of them. The conclusions to
which an average jury arrives are in
most instances attained by no mode of
reasoning usually adopted by intelligent
men in tracing effects back to their
causes, but are more generally a com-
promise of differences of impressions
by the rule of chances. Setting aside
the forms and technicalities of courts,
who would not rather trust a just cause
to the determination of one intelligent
and honest judge than to twelve igno-
rant and irresponsible jurors? The jury
system under the manipulations of
shrewd and unscrupulous lawyers more
frequently results in the defeat than in
the promotion of the ends of justice.

PRESIDENTIAL CANDIDATES.—The re-
cent Senatorial elections indicate that
no party can safely count in advance
upon a mere party triumph as a conse-
quence of a nominal party victory. A
like uncertainty pertains to the next
Presidential election. That party is
the most likely to succeed which de-
pends least upon party drill and party
strategy as its chief element of success.
The strongest men and the strongest
journals in the United States to-day are
those most independent of party dis-
tinction. Newton Booth, who has no party
standing with either of the old political
parties, would poll a larger popular vote
for President than any old party hack
who could be named on either side.
Gov. Tilden, who was so triumphantly
elected Governor of New York against
the most popular Republican in that
State, both before and after the election,
avowed himself as independent of party
control. At a recent dinner party

WHAT A LIGHTNING STROKE REVEALED.
—An Ohio paper tells a very strange
and startling story of the revelation
made by a stroke of lightning a few
days since. The stroke, it seems, pro-
strated a splendid grove of oaks in the
Miami Valley. Among them was one
which was rent asunder from top to bot-
tom, and according to the narrator, the
fragment, in falling apart, disgorged a
giant skeleton, yellow with age, which
instantly fell to pieces and was scatter-
ed over several feet of the surrounding
pasture. With the remains was also
found a few bottles of ancient pattern,
and a leather pocket-book, in a good
state of preservation. The pocket-book
told the sad and tragic story of the dis-
embodied skeleton. It contained pa-
pers which were brown and discolored,
and covered with rude penciling, scarcely
legible, but enough could be decipher-
ed to show that they had been written
by a soldier in the revolutionary
army—a man in fact who had been an
aid and companion to Gen. Washington.
His name was Roger Vanderburg, and
he held the rank of captain!

OUR NATIONAL RESOURCES.—Mr. Frank
Hereford, of West Virginia, in the
course of the tariff debate in Congress,
made a remarkable statement by way of
enforcing economy. He showed that
the total net revenue of the government
from 1789 to 1874 had been a little over
\$6,000,000,000, and that of this sum
more than half—namely, \$3,400,000,
000, had been raised in eight years, from
1866 to 1874. Further, that the amount
received into the Treasury from 1866 to
1874 was greater by seven hundred mil-
lions than the whole national debt in
1866. He added that though it was the
fashion to talk of our poverty and the
prostration of industry being because
the balance of trade was against us, we,
in fact, exported in the last fiscal year a
value of nearly nineteen million dollars
more than our imports. He argued
that the people had been impoverished
by extravagance and heavy taxation, not
during the war, but since the war.

CRUSHED WHEAT.—Some one asks how
to cook crushed wheat. I send direc-
tions for cooking crushed wheat, which
is used more at present; if you use the
crushed wheat it will need to be cooked
longer. Take two cups of crushed
wheat, four cups of water, and one-half
cup of raisins, add a little salt and
cook two hours. If you have not a
double boiler, put your wheat in a tin
pail and set this in a kettle, so that the
water will boil around it, this will an-
swer as a substitute.

THE VERY LAST CURIOSITY spoken of
in the papers is a wheel that came off a
dog's tail when it was a waggin'. The
man who discovered it has retired from
public life.

**A SAN FRANCISCO CHARGER WITH
SMUGGLING.**—The *New York Herald* of
February 16th says: "Colonel George T.
Williams, of the Surveyors staff, on Sat-
urday afternoon seized, on the dock of
the French steamer *Pereire*, a trunk be-
longing to Jules Salomon, of San Fran-
cisco, containing the following articles,
which, considering they were entered
as the private wardrobe in the use of a
private gentleman, were rather remark-
able: Three gold watches, six dozen of
gloves, diamond studs, bracelets and
earrings, innumerable scarfs and scarf
pins, hair fronts, three head-piece jack-
ets, a superb India shawl, thirteen gen-
tlemen's coats, children's cloaks and
dresses, etc. After the seizure Mr. Salo-
mon confessed that the goods were in-
tended for certain wealthy residents of
San Francisco, and the black trunk,
with the initials 'J. S.' now lies in the
seizure-room of the Custom House."

REVACCINATION.—The experiments
made at Ghent by Dr. Denole are cited
as an illustration of the effect of re-
vaccination at various periods of life,
the facts showing that until the age of
25 revaccination is useless; that from
that age to 35 it produces usual effects
upon a very small number of persons,
and consequently needs not be very
strenuously recommended at that pe-
riod of life; that from the age of 35 and
upward it becomes really prophylactic,
and therefore necessary; and that when
vaccination has not taken effect at a
certain period this is no reason for con-
cluding that it will not take effect at
some future period. It was found that
between the ages of 60 and 70 about 54
per cent. of the revaccinations took ef-
fect.

SOMETHING NEW.—The Burnished
Cameo Medallion Photo, is made by
Moore only. Call and see them.

THEATRE.—Mrs. Fanny Morgan
 Phelps, with a large troupe, including
the celebrated young star actor, Mr. J.
Al. Sawtelle, will perform in this city
tomorrow evening at the Pavilion. The
play for the evening will be "Rip Van
Winkle." Admission, \$1 00.

NEW PAPER.—S. L. Maxwell, late
publisher of the *Intelligencer*, has started
a paper in Gilroy, California, called the
Leader. It is modelled upon the *Intelli-
gencer* in size and mechanical make-up,
and exhibits outward evidence of re-
markable thrift in the way of advertising
business.

FOURTH OF MARCH.—On this fourth of
March, one hundred and thirty-six
Republicans and forty-six Democrats
march forth from the halls of Congress,
the greater portion of them probably
never to return. Never before in the
history of our Government, we believe,
were so many members of Congress re-
tired at the same time.

CONVICTED OF MURDER.—At the present
term of the District Court in session
at Port Townsend, Albert Schwabhauser
a young man aged 30 years, was con-
victed of the murder of George Crugher,
a middle aged man, at Port Discovery,
the week before the session of the Court
commenced. The murderer and his
victim were laborers employed at the
Port Discovery mill and occupied a
cabin together, appearing to be on the
most friendly terms. Without any rea-
sonable cause or provocation the young
man shot his companion with a pistol
and made no attempt to conceal or es-
cape the consequences of his crime.
Another instance of the melancholy
consequences of keeping or carrying
deadly weapons.

OFFICIAL PAPER OF THE CITY OF SEATTLE, W. T., MARCH 11, 1874.

The Cameo-Medallion Photo is all the rage. Moore makes them.

Mr. E. S. Kearney, our popular U. S. Marshall, with his estimable bride, is spending a few days in this city.

SOCIABLE.—A sociable will be given by the Congregational Church at the residence of Mrs. A. B. Young, Fourth Street, on Thursday evening next. All are cordially invited to attend.

DEATH.—Henry Newton, a native of New Orleans for a long time a resident of this Territory and engaged in developing the oyster beds of the Samanish, died suddenly at La Conner last night. Deceased was aged about forty years. He will be buried by the settlers tomorrow at Whatcom.

All Ladies interested in the preservation of their families health, and securing the highest degree of comfort in their homes, are earnestly requested to meet at the Brown Church on Thursday next at 2 o'clock sharp, and after listening to a short lecture from Mrs. Dr. Sawtelle, to assist in perfecting a practical, working organization for the purpose of furthering these ends.

GOING EAST.—The six children of the late Mrs. Sloan are to be sent East to their grandfather in Pennsylvania, and will start from here about the 1st of April. Mrs. Dr. Emenway will go in charge of the little ones. They will probably go on the next trip down of the Dashing Wave, and from San Francisco take the Panama route to New York. Mrs. Emenway will not return for several months, renewing, while on East, the pleasant associations of days gone by. Mr. Sloan, is, perhaps insane beyond recall. He is in the Asylum, and will probably require care and watching the rest of his days.—Tacoma Tribune.

MAN SHOT.—On Monday afternoon a difficulty occurred between Thomas Anderson, a watchman at the Port Blakely Mill, and James Coburn, an employee, which resulted in blows. The parties were separated and the difficulties apparently settled. Shortly afterwards, Coburn was drinking at a bar, when Anderson came up behind him, placed a pistol at his head and fired, the ball entering his head just back of the ear. Coburn was brought over here and placed in Dr. Weed's hospital, and it has not yet been ascertained if the wound is fatal. Anderson has been committed to jail at Port Madison.

THE FANNY MORAN PHELPS DRAMATIC COMPANY has thus far had the most successful season of any theatrical company which has ever visited this city.

To-night, will be presented the "Ticket of Leave Man," in which J. Al. Sawtelle will appear in his famous character of Bob Brierly; Mrs. F. M. Phelps as May Edwards.

Wednesday night, Mark Twain's "Gilded Age."

Thursday night, "Rosedale."

On Friday the company will go to Olympia, and appear on Saturday evening at Columbia Hall, in that city, in the "Ticket of Leave Man."

Mrs. Phelps Dramatic Company, with J. Al. Sawtelle as the star actor, played an unusually large house on Saturday evening and gave unbounded satisfaction.

This, Monday evening, Mr. Sawtelle will appear as Petruchio, in Shakespeare's beautiful comedy, "Taming the Shrew." Katharine, by Mrs. F. M. Phelps.

Tuesday evening—Tom Taylor's great sensational drama, "Ticket of Leave Man;" Mr. Sawtelle as Robert Brierly; Mrs. F. M. Phelps as May Edwards. To conclude with singing by Mr. J. O. Barrows.

Admission.—Front seats one dollar; body of the Hall fifty cents. Reserved seats may be obtained at the Occidental Hotel, without extra charge.

DRIED APPLES.—Bishop Bagley has presented us with a box of Baldwin Apples, dried by the Alden process, by the Fruit Preserving Company of Salem, Oregon. The natural fresh color, texture and flavor of the fruit remains in it, and reappears by proper treatment in water, after the lapse of years in any climate. The entire process being covered, and requiring but about five hours time. The accompanying circular says: "The Alden fruit is equal in all respects to fresh fruit for pies, puddings and other confections for the table, and is superior to fresh fruit in refinement, ripeness, richness, digestibility and economy." From the appearance of the fruit before us we are prepared to endorse this statement, and commend this process as of estimable value to fruit growers. If it is generally adopted, the dried apple pies of the cheap boarding houses and country taverns will no longer be the terror of boarders and travellers, which caused the poet to exclaim: "I hate, I loathe, detest, despise, Abominable, dried apple pies."

EXCLUSIVELY TO THE DAILY DISPATCH.

NEW YORK, March 4.—The Pacific R. R. and Pacific Mail combination agreed yesterday upon an increased freight tariff between the Atlantic and Pacific Coasts, as follows: Railroads, first class, from \$3 25 to 5; second class, from 2 to 4; third class, from 1 90 to 3; fourth class, from 1 80 to 2 50; class A, from 1 70 to 2 25; class C, from 1 50 to 1 75; class D, from 1 40 to 1 50.

Pacific Mail, first, to \$4 50; second, to 3 50; third, to 2 50; fourth, to 2 25; class A, to 2; class B, to 1 75; class C, to 1 50; class D, 1 20.

Rufus Hatch, who continues as managing director of the Pacific Mail, was interviewed yesterday and is made to say: "We shall reduce our fleet now; there are 27 vessels in active use. Of these we shall take one from the New York and Aspinwall line; two from those steamers plying between San Francisco and Panama, and four from the China lines. Some of these will be taken off permanently and are ready for sale as soon as we can find purchasers. Others will be docked and brought into use when times are busy, say along in July, when the tea trade is brisk; at other times the men will be paid off and the ships laid up."

No person has yet spoken for Colton, as to whether he will accept the directorship of the Steamship Company. Huntington, who was also interviewed, is reported as saying that nothing had been done that at all interfered with the fixed purpose of the Occidental & Oriental Steamship Company to run their steamers. One of them was loading now for Hong Kong.

Congressman Wm. S. King of Minnesota arrived at this city last evening and is at the Windsor House.

The Evening Post says: "The recent upward turn in stocks caught two or three large speculators heavily short, and they threaten to unsettle the gold foreign exchange and money markets, for the purpose of driving stocks down to prices where they can recover without loss. To do this both gold and currency have been taken out of the banks to influence to-morrow's bank statements."

The Express says: "Many towns have been called in front by the brokers in order to get up a scare. Some banks are mixed up with this business."

NEW YORK, March 5.—It is said a clique has been organized for the purpose of attempting a corner in gold.—The object of the clique, while ostensibly making gold scarce, is said to be to bear stocks, nearly all the parties interested in the movement being largely short of stocks. Rumor has it that the bank examiner will be appealed to to interfere in the matter.

Gold closed at \$1 15.

CHICAGO, March 5.—One of the results of the unprecedented severity of the past winter has been to freeze the water in Lake Michigan in this vicinity to an extent never before known. As nearly as can be ascertained the Lake is frozen as much as twenty miles from the western shore, and a party walked out to the crib of the water works, two miles and a half distant, over the ice. The harbor is piled full of ice and the river is frozen to an unusual depth. Great apprehensions are felt as to the effect of sudden thaw, which is liable to occur at any time, and the City Engineer is trying to devise means to clear the river of ice by cutting it before the weather becomes warmer. Merchants in the vicinity of the river are clearing the basements and preparing for a flood, which seems inevitable whenever the break up comes. At present, however, the weather, although more moderate, is still cold.

BOSTON, March 5.—The Italian bark Giovanni was wrecked off Cape Cod with all on board except the steward. Fifteen persons perished. Although bark Giovanni was but 400 yards from shore, the live saving men were unable to get a line to her, the bombs with which the steamer is supplied proving worthless.

CLEVELAND, March 5.—Rev. James Conlon, twenty-five years pastor of St. Patrick's Catholic Church, died to-day, aged 74.

NEW ORLEANS, March 5.—A fire last

night at Marshall, Texas, burned four stores and at midnight was still burning. A Brownville special says a dispatch from Sheriff Lee, of Hidalgo County, to Judge Dougherty, states that 40 armed men crossed the river from Mexico, near Rhodes's ranch, 20 miles below Edinburg, and 11 armed men crossed at Initalas, about 18 miles above Edinburg, and are reported going to the prairies. There is great excitement all along the lower part of the river, and reports come from all parts of armed Mexicans gathering on their side of the river. Gen. Potter says he has not troops enough to patrol all of the river. Many believe Brownville is menaced.

NEW YORK, March 5.—Private dispatch from Washington says that a person having papers to serve on Hon. N. G. Shumaker in connection with the Pacific Mail subsidy, arriving here from Washington yesterday for that purpose, found that Schumaker had just sailed for Europe by the steamship Suvros. Schumaker's family is in Europe.

ALBANY, N. Y., March 5.—To-night a fire was discovered in the first floor of the building on the corner of State and Broadway streets, occupied by the Western Union Telegraph Company. At midnight the entire building was destroyed. Loss not known.

CALCUTTA, March 5.—The Englishman says it is rumored that orders have been received by the Indian Government from England to hold the regiments in immediate readiness for active service. The Englishman supposes such orders point to the possibility of a war on a large scale, not in India but in Europe.

MARLBOROUGH, March 5.—The embankment at Pump mill gave way early this morning and flooded the village, and indications of giving way of the canal and embankments are apparent in various directions.

LONDON, March 5.—John Timbs, an English writer, is dead.

Several cases of insanity have occurred from revival meetings of Moody and Sankey American Pilgrims.

A dispatch from Berlin says it is reported that the German Government has demanded the dismissal of the Papal Nuncio at Munich and the cessation of the relations between the Vatican and Bavaria.

The Oxford and Cambridge crews, who are to contest the approaching boat race, take up their quarters on the Thames next Monday. Betting on the race is even.

BERLIN, March 5.—A decree has been issued prohibiting the importation of American potatoes.

PARIS, March 5.—Negotiations for the organization of a new cabinet were broken off last night in consequence of differences between Buffet and Dufaure but they were resumed to-day. No result is yet announced.

LONDON, March 6.—The Post Berlin correspondent telegraphs that the adoption by the Prussian Parliament of the new ecclesiastical bill, withdrawing the state endowments from Catholic clergy, is considered secured. All parties except the ultramontanes and extreme conservatives have agreed to support it. There is reason to believe that the Government is preparing another measure requiring a test oath from Catholics in the civil service who number several thousands, and dismissing from employment of the Government those who fail to give satisfactory assurances of loyalty.

CHICAGO, March 6.—The breach of promise and seduction case, which has been the local sensation for the past ten days at Danville, Ill., because of the high standing of the parties involved, closed yesterday, the jury finding a verdict of \$15,000 for plaintiff, a Miss Mann.

ST. LOUIS, March 6.—The body Philip W. Hermann, a commission merchant, was found in a terribly mangled condition on the North Mission Railroad track, two blocks above North Market street depot, this morning. His death is involved in mystery and nothing is definitely known at this writing, but it is supposed he wandered on the track while insane and was killed by the train.

COLUMBUS, Ohio, March 6.—William McDonald, a well-known and formerly wealthy citizen, was found dead in the canal this morning. His habits have been dissipated of late years and it is not known whether his death was accidental or designed.

FONDA, N. Y., March 7.—Early to day the bank of Hayes & Wells at Johnson was found to be in flames and on entrance being forced the charred remains of Edward Yost, who slept in the bank, were found. The money, watch and diamond pin of Yost's are missing. No attempt was made to enter the bank.

NEW YORK, March 6.—An advance of 95 on steamer passage rates will be made by the English steamship lines, as the result of a conference between their representatives. The advance will affect those taking steamer passage from either side. Fare lines will charge \$95 and slow \$25.

CHICAGO, March 6.—A special correspondent, writing from Sioux City, gives a long report of an interview with Ephraim Wheeler, an old citizen of that place and one of the party who went out to the Black Hills last Fall and has recently returned. He reiterates the previous accounts of the richness of the mines, and asserts that they found no unfriendly Indians. Game was plenty, and though the weather was cold the party did not suffer. One of the original party that left Sioux City died on the way to the mines.

WASHINGTON, March 6.—The speech of Minister Cushing to King Alfonso will contain only the customary of formal expressions of friendship of the United States for Spain. He, however, has special instruction to govern him in the negotiation which were initiated under the late Republican government, are now to be consummated. These negotiations contemplate full settlement of all questions pending between the two governments, while Minister Cushing, like his predecessor, will also exert himself to negotiate the new treaty of commerce and navigation, none having been made with Spain since 1795.

NEW YORK, March 6.—There is a rumor that Plymouth Church has subscribed \$115,000 to defray expenses of the Beecher-Tilton trial. The rumor goes so far into details as to relate the action of Bowen, who entered hearty protest against the appropriation and utterly refused to be a party to it.

A letter from London states that Dr. Keenly has given notice that on the 16th of March, he will call attention to Titchborne.

LONDON, March 8.—The Archbishop of Canterbury and York, and all Bishops except two, have issued a pastoral, congratulating clergy and laity on prosperity and progress of the Church, and strongly admonishing the former against alleged ritualistic practices, causing isolation of clergy from the people.

Arthur Help, English author, died yesterday, aged 57.

The main obstacle is, Justice, who will be Minister of Interior, is not yet removed. The left proposes to submit an interpellation in the Assembly, so as to cause delay in formation of the ministry.

SAN FRANCISCO, March 7.—U. S. S. Sarano was to start on a cruise to-day. Rumor prevails that she will visit Aca-pulco and inquire into outrages lately perpetrated on American citizens.

A number of leading firms of the city have telegraphed to A. A. Sargent and Newton Booth, requesting them to support in the Senate the Hawaiian reciprocity treaty, claiming that all classes favor the treaty, except the sugar refiners, who are endeavoring to make contracts with Hawaiian planters with the view of defeating the treaty and establishing monopoly here to crush the Eastern competition and advance prices.

NEW YORK, March 8.—Becher received 14 new members into Plymouth Church yesterday. He closed the benediction with the words, "Grace, Mercy and Peace be with you all."

Proceedings in the Beecher trial were resumed this morning, with the usual crowd seeking admittance. No one was allowed to enter, however, after the seats were filled. Among those present this morning was Beattie Turner. Mrs. Tilton was not in court.

LONDON, March 8.—Berlin dispatches say that the Pope has permitted the Austrian bishops to comply with the law which requires that the authorities be notified by the bishops of the names of the priests appointed to livings. This is considered as evidence that the Pope is actuated by politic motives, as the resistance by Prussian bishops, which he encouraged in a similar case, was the principal cause of the recent trouble with the Catholic Church. The convention between Spain and the United States for the settlement of the Frontier affair, has been signed.

LONDON, March 8.—Many women and children were drowned by the wreck of the steamship Gottenberg in Bass Strait between Australia and Van Diemensland.

HALIFAX, March 8.—A St. Johns, N. F., dispatch says the bodies of over 40 persons who died there this winter, have been temporarily interred in the snow, which lies in such quantities as to prevent the opening of graves.

CHICAGO, March 8.—A special to the Tribune reports that the freshest rumor is that Attorney General Williams is to be nominated Minister to Russia and Ex-Senator Carpenter Attorney General.

A special from Omaha says that Gen. Ord, Commanding District of Nebraska, has received information from Colonel Bradley, Commanding at Fort Laramie, that two men who arrived there from Black Hills, report two men and one woman and child in Black Hills in a terribly destitute and almost starving condition, their only resources being game which is difficult to obtain on account of severe weather. Gen. Ord telegraphed to Col. Bradley to send troops with supplies for their relief as soon as the weather will permit and bring them back. Gen. Ord also orders an expedition, reported to be preparing to leave Sioux City for Black Hills, to be stopped,

and, if necessary, destroy their outfit. Gen. Sheridan has telegraphed to Gen. Ord to clear Black Hills of all miners and allow no more to enter.

NEW YORK, March 8.—It is stated that the quarrel between the Baltimore and Ohio and the Pennsylvania Railroad Companies is in fair way of settlement, and that a compromise will be probably agreed upon within a day or two.

WASHINGTON, March 8.—The President has nominated Godlove S. Orth Minister to Austria and Horace Maynard Minister to Turkey. Ex-member of Congress, O. C. Sheets, of Alabama, has been appointed Ninth Auditor of Treasury, vice J. J. Martin appointed Postmaster at Montgomery.

NEW YORK, March 8.—On Friday night as Deacon Orvington was getting ready for Europe, a clerk from Morris & Peasall's office, served him with a subpoena, to produce two letters that were written Friday night, July 18th, one was sent to Monroe Place, where the Plymouth Church Investigating Committee were in session, and the other to Mrs. Tilton at her house on Livingston street early next day. Orvington assured Ex-Judge Fullerton that if any letters had been written, his wife wrote them and she would respond to the subpoena, and he was allowed to go to Europe and his wife is to be subpoenaed. The fact that the letters were sent was discovered through the search of the books of American District Telegraph Company. Tilton told his counsel it was his greatest puzzle to know why Elizabeth was transformed in six hours, because he had left her at home happy when he went to the committee's meeting and had found her sleeping when he returned and was awakened next morning by her farewell words. He also told his counsel of his dilemma and after every sort of reasoning they concluded to search the books of American District Telegraph Company, they found that on Friday night, a note had been sent to Dr. Storrs at 34 Monroe Place, and an answer obtained, and one sent to Mrs. Tilton.

PARIS, March 7.—The Observer to-day says the war rumors published in the Calcutta Englishman on Saturday are unfounded.

ELABORATE TO THE DAILY DISPATCH.

CINCINNATI, March 2.—The west bound passenger train on the Indianapolis, Cincinnati & Lafayette railway last night was thrown from the track near Lawrenceburg by a broken axle and a tramp who was stealing a ride on the forward end of the postal car was instantly killed. No others were injured. Nearly all the roads are running passenger trains on time to-day. The passage of freight trains is generally suspended, but probably everything will be running as usual by to-night.

CHICAGO, March 2.—Special dispatches from Sioux City says there is great excitement in that vicinity and Dakota over the reports brought by two returned Black Hills Miners, both of whom are well known and reliable men. They represent gold as plentiful and that the miners now in these hills have had no trouble with the Indians and have wintered comfortably. An immense immigration to the Hills is expected this Spring.

HARRISBURG, March 2.—A bill to repeal the local option law finally passed this morning by a vote of 124 to 54.

NEW ORLEANS, March 2.—The eight Conservative Senators took their seats this morning in the Kellogg Legislature.

NEW YORK, March 2.—General Fitz-John Porter has been appointed by Mayor Wickham Commissioner of Public Works, vice John M. Yancourt, resigned.

ALEXANDRIA, March 2.—In consequence of the passage of the Civil Rights Bill and fearing trouble both of the principal hotels cancelled their licenses and closed.

WASHINGTON, March 2.—The President has approved the pension bill and the bill for fixing the number of paymasters for the army.

The Senate Committee on Commerce this morning decided to report the river and harbor appropriation bill without amendment, owing to the shortness of the time and the danger of failure of the bill.

The fact that the deficiency appropriation bill as reported from the House Committee contains no provision for liabilities, amounting to some \$200,000, for the Sioux and about an equal amount for the Apaches of Arizona and New Mexico, occasions much uneasiness at the Interior Department. The Peace Commissioners have been telegraphed to come on from Washington and cooperate with the department in efforts to have these amounts inserted by the House, if possible, and otherwise in the Senate.

The reading of yesterday's Journal was dispensed with. A number of bills from the committee on pensions were passed. The credentials of L. B. Morrey, Senator elected from Texas, were presented and placed on file.

On motion of Morton the House force bill was read a second time by Little Bayard objected to a third reading and it was laid over.

Stewart from the conference committee on a bill to provide for the incorporation and regulation of railroads in the Territories, made a report, which was agreed to.

SALEM, ORE., March 2.—R. C. Kinney, President of the Salem flouring mills, a man universally esteemed and respected, died at his home at 2:30.

LONDON, March 3.—The Croydon March steeple-chase began to-day. The Grand International hurdle race was won by Indurians; Barton, second; Heppin, third. Houghton started the favorite, at 4 to 1, but failed to get a place. Nineteen started.

LONDON, March 3.—The bullion withdrawn from the Bank of England to-day was £148,000.

BERLIN, March 3.—Bismarck gave a dinner yesterday to the officers and members of the House of Lords and the Chamber of Deputies.

MADRID, March 3.—The Carlist leader Miret have been defeated by Alfonso troops.

NEW YORK, March 3.—The Tribune says: "A Pacific railway party with Jay Gould at its head, have acquired a controlling interest in the Pacific Mail stock, and the directory of the company will be changed so as to give them a proportional representation. Huntington, Dillon, Ames and Colton are mentioned as likely to be the representatives aforesaid. The new programme is circumstantially set forth and involves an immediate increase of freight and passage rates by both lines. The Occidental and Oriental Steamship lines are left out in the cold apparently. It is said that the Pacific Mail, as a consequence of the withdrawal of the subsidy of 1872, has notified the Post Office Department at Washington that hereafter, beginning with April first, the mail service with Yokohama will be monthly instead of semi-monthly as under the old arrangement.

NEW YORK, March 3.—At a meeting of directors of the Pacific Mail Co. to-day the resignation of Russell Sage, tendered some time ago, was accepted and Sidney Dillon, President of the Union Pacific Railroad Co., was elected in his place. The resignations of F. L. Talcott, I. A. Hatch and Wm. Gunter were received and accepted, and Jay Gould, Oliver Ames and D. D. Colton were elected in their stead.

CHICAGO, March 3.—In the Wisconsin Senate yesterday the special committee on railroad bills reported amendments to the Quimby bill, advancing freight on certain classes but making no change in passenger rates. After a sharp debate the amendments were agreed to and the bill passed by 17 to 11. It will come up in the House to-day. The amendments are favorable to the railroad and the entire bill is less rigorous than the so-called Potter law.

NASHVILLE, March 3.—A bill was introduced in the Tennessee Legislature to-day, repealing the law licensing hotels. This is to avoid the civil rights bill by allowing hotels to run under the name of private boarding houses.

WASHINGTON, March 3.—The Senate last night agreed to withdraw several amendments made for the sun dry civil appropriation bill for the fiscal year ending January 30th, 1874. Among the amendments agreed to was the striking out of the item of \$5,275 for furniture and work on the Capitol building at Olympia, W. T.

The President to-day signed the act to provide for the sale of desert lands in Lassen Co., Cal.

ST. PAUL, Minn., March 4.—The Senate last night passed the Morse railroad bill, already passed by the House, by a vote of 28 to 13. The bill repeals the onerous railroad legislation of last year.

LITTLE ROCK, March 4.—There is general rejoicing here and elsewhere throughout the State over the action of Congress in adopting Poland's resolution. A joint resolution passed both houses of the legislature yesterday, thanking the Members of Congress who voted for the resolution, and pledging the State Government to see that equal and exact justice should be done all men. Senator Hancock, Republican, introduced a resolution requesting the Governor to disband the militia, and declaring that the Republican's accept the situation as it is.

LOUISVILLE, Ky., March 4.—Fifty-seven firms, representing all classes of wholesale business and who have close business relations with the people of Arkansas, telegraphed Judge Poland to-day, thanking him for his noble speech and successful efforts in behalf of quiet and good order in that State.

NEW YORK, March 4.—There is great excitement on the Stock Exchange and heavy trading in Pacific Mail and Union Pacific stocks, which was the feature from the beginning of the session.

WASHINGTON, March 4.—The Capitol is crowded this morning with people witnessing the closing scenes of Congress. The House side in particular, is thronged, and it is almost impossible to go through the lobby and corridors.—Inside the chamber every available inch of room is occupied and hundreds are unable to obtain admission. The floor is also crowded with strangers, composed of the most part of ex-members, members elect, and distinguished strangers from every section of the country. At twenty minutes past twelve, on motion of Packard, permission was given to admit strangers on floor. Immediately after this a large number entered, crowding the members from their seats and adding to the general confusion.

WASHINGTON, March 4.—The President and Cabinet and private secretary were in the president's room at the Capitol until the adjournment of Congress. The President signed the general appropriation bills, none of which failed.

WASHINGTON, March 4.—The final report of the House Committee on expenditures in the Department of Justice recommends the discontinuance of many Assistant District Attorneys and the consolidation of Districts in North Carolina, Virginia, Michigan and Wisconsin.

Last night, at 1:30 the doors were reopened, and the consideration of the river and harbor appropriation bill was resumed. The question being on concurring in the amendments made in the Committee of the Whole, other than those disposed of by separate vote, they were all concurred in, with the exception of a few appropriations for Atlantic Coast Harbors mainly. The bill was then read and at 3:40 passed.

SINGULAR SCALDING CASE.—As a Council Bluffs woman was doing her washing, one of her children fell into a kettle of water. The mother seized the infant whose heart-rending cries indicated the terrible nature of its injuries, and deposited it upon a bed, while she ran to a neighbor's to get "him" to run for a doctor. Before the doctor arrived all the neighbors had gathered, and among them had undressed the screaming infant—very carefully, so that the scalded skin should not peel off—and sprinkled it with flour. At length the doctor arrived, alacut at the same moment with the terror-stricken husband, whom also the messenger had found and bidden to "go home and prepare for the saddest news." The doctor made a careful examination of the infant, and promptly advised the mother to put a shirt or something on the child, so it might not freeze to death. The assembled neighbors one after another felt the water in the "kettle, found it icy cold, and quietly separated.

Harold Vasagar, a gigantic Norwegian lumberman, living in Wisconsin, is reported to have been attacked by wolves recently, while felling trees in the forest; and it is said that he killed thirteen of them with his axe, and the rest of the pack, eighteen in number, fled and left him master of the situation, and without serious injury.

Millionaires are called "rich men" in New York, and none others may expect this felicitous title. A half-millionaire is said to be "well off and independent." A \$50,000 man is "very comfortable." Place the figures at \$100,000 and the owner is a "small man;" under \$50,000 he is "poor," while a \$25,000 man is such a poor devil as to be unworthy of mention.

CURING THE HICCUP.—The Rees River (Nevada) Reveille tells the following: A young gentleman who attends the Austin public school had been told that a sudden shock or fright would cure the hiccup, and the other evening, while he was studying his lesson for the morrow by drawing a picture of the school-marm on his slate, his respected progenitor was seized with a fit of hiccups. The old gentleman was tilted back in his chair, with his feet rested on the stove, and the young hopeful concluded to try the cure on him. Just as the old man was "rattling" with a heart-breaking hiccup the boy jumped up and yelled "Fire!" The old man was just getting out en—ah, but he never got it out. He gave a jump which tilted over his chair, and in endeavoring to regain his lost equilibrium, his feet flew up against the table, upsetting it, and a student's lamp which stood upon it, and his head landed in the ashes on the stove-hearth. The old lady, hearing the racket, came running in from the kitchen and tripped over the old man's prostrate form, knocking down a what-not with a lot of glass and china ornaments. When that boy's father arose from the wreck and shook the ashes and splinters of glass out of his hair and clothes he was cured with the hiccups, but there was a look of sternness in his eye; the boy says he knows it was a "stern" look—feeling "stern" as he can testify. He says fright is a splendid cure for the "hiccups," but that the "stern" look it occasions is three hundred thousand times worse than the "hiccups." He can't play tag now, as he says his mother has forbidden him, and he sits on the edge of the seat at school and lies on his front in bed, and silently murmurs that the "old man can hiccup his consarned old head off before he will ever again try to cure him."

BOOM-CORN.—Dr. Franklin introduced broom-corn into our country. While examining a corn whisk (imported) he accidentally discovered a single seed, which he planted in his garden, and from which the corn was propagated in Massachusetts was formerly the only State where the raising of this corn and the manufacture of brooms was carried on to any great extent, and Boston was the great distributing point for the manufactured goods. Now there is scarcely an acre devoted to broom-corn culture in New England, as since the war farmers have raised tobacco in its place. Illinois is the largest grower of broom-corn at present, Ohio and New York coming next, and Chicago and Cincinnati are the centres of business, while New York is the great depot of manufactured goods.

The invention for making paper barrels was patented about six months ago, and two factories are working, one at Winona, Wisconsin, and one at Decatur, Iowa, the latter turning out 1,500 barrels daily. Their strength is said to be greater by four times than wooden barrels, only half the weight and costing 20 per cent less.

A jolly doctor called on a lady on his way home from a dinner party, so full that he could not count her pulse beats. Conscious of the cause of his difficulty, he, in a moment of irritation, blurted out "Drunk, by Jove!" and rushed out of the house. The next day the lady sent for him and said she lamented that he had discovered her condition, and begged that he would keep it a secret.

Old men seem to be such popular candidates in Ohio that it is suggested that the Republicans run the Hon. B. F. Wade for Governor against Gov. Allen. If the advice should be followed, the contest would certainly not lack vivacity.

In Franco's man, awakened in the night by thieves in his house, called for assistance so lustily that his neighbors came from every side. Those from one side in the obscurity opened fire on those from the other side, and the complacent were reciprocated so effectively that four persons were so wounded as to endanger their lives. Naturally the thieves escaped.

Submitting on Potatoes, Salt and Tea.—A correspondent of the Utica, N. Y., Observer writes from Rensselaer, Oneida county, to the following effect concerning the habits of life persisted in by a citizen of that place without a day's deviation, for a period of about 60 years: "The individual referred to is a maiden lady, between 78 and 80 years old, and a resident adjacent to this village from her early childhood. There are different theories, and probably for the reason that but few, if any, survive who knew her as a child, accounting for her remarkable abstemiousness. Be that as it may, she has, during the whole time indicated, partaken of no food or nourishment save roasted potatoes, salt and tea, while all the time in the enjoyment of sound health. Her long life has been one of activity, industry and usefulness. She is a lady of culture and refinement and possessing abundant means, and is benevolent, discreet and liberal in her charities, and though, owing to the weight of years, she is not erect in form she is now with the exception of a recent injury, resulting from a fall, as hale and hearty as is usual to one of her years."

A doctor and preacher met on the street the other day and commenced bandying words about physical prowess. The preacher said one blow from his fist would show the doctor what "blue mass" was. The doctor replied that if the preacher wanted to learn a cheap method of "spreading the gospel," he would advise him to run against his fist.

Who has not noted the grains, and sometimes even lumps of salt in butter, often giving it a disagreeable taste and appearance? This is due to the practice of salting butter before it is churned, the salt not getting thoroughly dissolved. The way to remedy this, which we have practiced for some time, is to salt the cream. When the cream is put into the churn, a sufficient quantity of salt is put into it to render it quite salty. When the butter is churned and worked, it will be found to be evenly salted, not a lump or grain of salt undissolved. Of course much of the salt put in the cream will not remain in the butter, but will be contained in the butter milk. And here let me say, is one of its greatest benefits. The butter milk should be fed to the pigs. The salt in it is highly beneficial to them. The pigs will be healthier, will grow faster, and fatten easier, for the salt they will get in their drink. It has been my experience, also, that the meat of pigs thus given a quantity of salt, is perceptibly better flavored. It is often very difficult to keep pork from hurting, but feed your pigs plenty of salt, and when killed, the meat will require less salt, and will never hurt. I would say in conclusion, that if you wish nicely flavored butter, salt it before your churn it. We use about a pint of salt to four gallons of cream. Common salt that is pure, will do.—S. W., Prairie Farmer.

A PET BEAR.—The young she bear kept on board the steamer Josephine, is a curiosity worth seeing. She goes by the name of Kate, and is said to be a genuine Cinnamon bear, though some think she may belong to the grizzly species. Her history is brief. Some Indians caught her last spring in the Black Hills and presented her to Maj. W. H. Bingham, but being deemed an unsafe playmate for the children, she was taken in charge by Capt. Marsh, of the steamer Josephine. She is now very fat, large and playful, and appears completely tamed, so that it is very interesting to frolic with her and study her native traits as improved by civilization. There is a remarkable fondness between a large black dog and this bear, and they will scuffle and growl, pull hair and tumble each other around by the hour, all in perfect good humor. Kate delights to make a liege that she is biting her keeper, but is very gentle about it, never tearing his clothes or using the strength of her savage jaws. She runs at liberty on the deck, and is about as fat and shaggy and saucy as one will find, weighing probably about 175 pounds. Great intelligence is displayed by this creature. Wishing to learn the secret of the gold mines in her native habitat, we asked confidentially: "Are the wonderful narratives of auriferous deposits in the soil of those flowery vales really well authenticated?" The knowing animal replied in the affirmative by gently clawing the deck, as if to say, "you can just rake the nuggets out like that."—Press and Democrat.

What man in Barnum's employ is like the Lord Chancellor of England? Give it up? The keeper of the seals.

Political independence must be an unpleasantly rare virtue in Eastern Tennessee. Senator Brownlow at a recent election in Knoxville was assailed bitterly for casting his vote for a Democrat, and has been at last forced to the explanation that, "as there were only two candidates in the field, and both were Democrats, he considered it in the line of public duty to choose the better one of the two."

The recent arrest of a man with a human head in his possession has led to the discovery of a society of cannibals in the interior of Hayti. Their chief, Tombe, and 80 of his accomplices were captured. It has been proved that they were addicted to eating human flesh, and all will be executed.

DINING AND WINING IN WASHINGTON.—And now gentlemen can enjoy good dinners without having to hurry down the last courses to get away in time to escort their wives or daughters, or some one else's wife or daughter, to a reception. Virginia diamond back tarra-pin, Florida shad, Maine salmon, New Jersey oysters, Illinois prairie chickens, South Carolina rice birds, Maryland canvas-backs and teal, Kentucky beef, West Virginia mutton—in short, the delicacies peculiar to every State are brought here by rail to grace the tables of hospitable hosts. As for the fluids, do not the diplomats import the choicest vintages free from duty? Nowhere are good wines more abundant.

It is at the dinner tables of Washington that such important business is framed and that diplomatic negotiations are arranged. This is so well-known in the foreign offices abroad that ministers plenipotentiary sent here are advised to exercise due care in the selection of their cooks. Yet Lord Ashburton had to admit that his chief was eclipsed by Monica, the colored cook of Mr. Webster, and the artist brought over by Lord Ripon when he came to negotiate the Alabama Treaty, was obliged to confess that he could not successfully treat terrapin or canvas-backs.

But it is at the dinner tables of Wormley and Walker, the native and imported restaurateurs, that schemes are advanced for plundering the public Treasury. A Representative niggardly allows five minutes to a well-known merchant, or banker, or manufacturer, for a practical explanation concerning some important bill under consideration; but the same Solon will pass hours at the dinner table of a restaurant enjoying the hospitality of a "Railroad King," the "King of the Lobby," "Bill King," or some other sovereign manager of legislation. Indeed, the repasts which these gentlemen provide for Congressional appetites are decidedly superior to any others at the metropolis, and can but awaken sentiments of gratitude, which might—I use the word might, remember—influence votes.—Wash. Corr. N. Y. Times.

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower slopes of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of Dr. J. Walker's California Vinegar Bitters?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Vigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Diseases.

The properties of Dr. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious. (Genuine) They also produce VIGOR and BRILLIANCE to the system. VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

No person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent, and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment a purgative, exerting a powerful influence upon these various organs, is essential. There is no cathartic for the purpose equal to Dr. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter which accumulates in the bowels, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purging all its fluids with the Bitters. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, Dr. WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory or Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vicious Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take Dr. WALKER'S VINEGAR BITTERS.

For Skin Diseases, Eruptions, Tetter, Scald-head, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ringworms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the term of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.
