The High Prices of the War.

In the controversy over the effect upon prices of contracting the currency and of resuming specie payments, it seems to be generally conceded that the high prices which prevailed during the war were exclusively the result of the great volume of paper money then in circulation.

Undoubtedly an increase in the volume of money in circulation in a country tends to raise prices as its diminution tends to depress it. This, however, is a secondary and not a direct result. It is because an increase in the quantity of money, as in that of any other valuable commodity, tends to lower its exchangeable value, and thus to require more of it to purchase other commodities that inflation produces high prices and contraction low prices.

Now, during the war, our circulating medium became depreciated not only by its increased volume, but also by a widely felt distrust of its ultimate value. The final result of our struggle with the Confederacy was in doubt almost to the very last, and there were millions in the North as well as at the South who believed our success to be impossible.

Provisions was annihilated. Not only the disbanded soldiers, but all the other artisans who had been working to keep them equipped and fed, came into the labor market in competition with the other labor of the country.

It is quite evident, therefore, that those who contend for additional issues of paper money as an infallible remedy for the present low prices of land and merchandise are profoundly mistaken. Unless with the greenbacks they so earnestly demand they can bring back the same distrust of their value that prevailed during the war and the same disposition to get rid of them on any terms, the debtor would not be likely to experience much relief.

The Political Outlook.

The San Francisco Chronicle furnishes the following in regard to the present political outlook: The Fall election campaign has been fairly opened in Pennsylvania, Ohio, Michigan, Missouri and other states east, west and south. It is above everything else, a struggle for the next House of Representatives, as the Senate, after the 4th of March next, will surely be Democratic, and as the next House in the event of the failure of the people to elect a President, a majority of states, a majority of votes for any one candidate electing him. When the last Congress met, (October 15th) the Democrats had a majority of thirteen in the House. The decision in two contested seats increased this to seventeen majority. It is argued by Republicans, from existing signs as they appear to the Republican eye, that there will be Democratic losses enough in the Fall elections to give the House to the Republicans by a small majority. They are claiming gains of two in Pennsylvania, one in New Hampshire, one in Massachusetts, one in Connecticut, three in New York, two in Illinois, one in Colorado, and one in South Carolina. Besides these anticipated gains, Republican politicians are counting that the Democrats will lose to the National or Independent party some ten or a dozen members. On the other hand the Democrats are as confident that they will be able to hold their own, and that the new party will do most harm to the Republican candidates. As the prospect now appears to unbiased judges, it is doubtful that either Republicans or Democrats will have a clear majority in the next house, but highly probable that the ten or twelve Nationals or independents, leaning on the Workingmen for support, will hold the balance of power in that body, as to everything but the election of President should that duty fall before the people.

At the adjournment of Congress, in July last, the Democrats in the House had these States: Alabama, Arkansas, California, Colorado, Connecticut, Delaware, Georgia, Kentucky, Louisiana, Maryland, Mississippi, Missouri, New Jer-

sey, North Carolina, Tennessee, Texas, Virginia and West Virginia—total, 18. The Republicans had these: Illinois, Indiana, Iowa, Kansas, Maine, Massachusetts, Michigan, Minnesota, Nebraska, Nevada, New Hampshire, New York, Ohio, Oregon, Pennsylvania, Rhode Island, South Carolina, Vermont and Wisconsin—total, 19. One State, Florida, was equally divided, having one Republican and one Democratic member. As to California, both the old parties are so cut up and demoralized as to make it extremely hazardous to say either of them will have a majority of the State's votes in the next House. The Republicans lose Oregon and will lose South Carolina and Florida. Conceding then, that the Republicans will carry New York and Pennsylvania and Ohio, the strong probabilities are that the next House will be divided as follows:

Democrats—19; Republicans—18; doubtful—California—1, which elects in September, 1879.

Should California then elect three Republicans, then the States would be exactly tied should the election go into the House, as it almost surely will in the event of a third party candidate.

Hoover Exonerated.

We were not surprised, but nevertheless greatly gratified at the result of the investigation by the grand inquest of Pierce county of the charges against Jacob Hoover, in view of the powerful influences, personal, political and local, which were brought to bear against him. It will be remembered that on investigation of the affairs of the Treasurer's office in Pierce county, by the jury, at the last term of district court for that county, the books and accounts of that office were found to be in such inextricable confusion that they were turned over to the bondsmen of the Treasurer for settlement with the county; immediately after which it was discovered that a large defalcation had occurred in redeeming forged county script; the originals being altered to represent sums far in excess of the amounts for which they were issued; which could not have occurred in innumerable cases but through gross neglect on the part of the officer in charge, as the fraud could have been instantly discovered by comparing the order with the stub from which it was cut; or a reasonable knowledge of public liabilities would have made manifest some one of the many forgeries in turning single numbers into hundreds, which were never exposed until the officer was impeached and turned out. Then it became an imminent necessity to him to find a scapegoat to bear a portion at least of his delinquencies. Mr. Hoover was the principal dealer in county script and pecuniarily responsible for all his liabilities; his conviction would relieve the Treasurer from criminality and his bondsmen from liabilities to the extent of the forgeries; he had excited the enmity of rivals by his success and incurred the hostility of Tacoma by defeating the project for the removal of the county seat to that place.—All of these interests and influences combined against Hoover. Without taking any legal proceedings, they sought to create a public sentiment against him which would largely influence if it did not anticipate the verdict of a jury. With the particularity belonging to fact, the testimony against Mr. Hoover was given through the public prints and industriously circulated through

private mediums, that the forged script was all received through him, and that all the forgeries were unmistakably in his hand writing. Under these influences and representations public sentiment, concurred in by the Prosecuting Attorney, greatly preponderated against Mr. Hoover, and the opinion was largely entertained that he would flee the country to avoid a trial. The report was industriously circulated before the convening of the Court that he was disposing of his property and closing his business with the view of escaping from justice. We were one of the few who never believed Jacob Hoover capable of an infamous crime and to ask for a suspension of popular opinion until the matter could be judicially investigated. Our faith was based upon personal intimacy and the previous character of the man who surrounded by his kinsmen and neighbors from early childhood to ripe manhood had maintained a character free from reproach or suspicion. It seemed to us incredible that a man of more than ordinary intelligence, would hazard the most priceless jewel of manhood together with his liberty in so reckless a venture to add to accumulations already sufficient for his wants, the eventual failure of which was almost inevitable. The action of the grand jury has justified our faith. Upon a full investigation of the matter the conclusion was that the testimony against Mr. Hoover was not sufficient to justify his being put upon trial for the crime and the report was: "Not a true bill." Thus ends one of the representative cases growing out of a depraved popular sentiment which puts the slanderer and the slandered upon an equal footing.

FINE MONUMENTS.—Mr. J. Keenan has at his shop in the rear of Crawford & Harrington's store, two fine monuments nearly completed. One of these is to be erected in a conspicuous situation in the Masonic Cemetery, in memory of Captain Jeff Howell, lost on the Pacific. The monument is made of the coarse grit Bellingham Bay stone and its dimensions are as follows: base, 3ft, 9in. square by 1ft, 6in high; plint, 2ft square by 12in high; die, 2ft 3in by 1ft 6in, by 1ft 6in; shaft, 5ft, 10in high, and 11 inches square at its base. It is being erected by St. John's Lodge of this city, of which he was a member at the time of his death. A portion of the expense of building the monument was born by Goodall, Perkins & Co., the owners of the Pacific. Mr. Keenan informs us that one beauty of the Bellingham Bay stone is that it hardens if exposed to the atmosphere. The other monument which Mr. Keenan is building is a family monument for Mr. A. A. Denny, of about the same dimensions as the Howell monument. It has in raised letters the word "Denny" on the plint and is to be placed in the Denny lot at the Masonic cemetery.

INFORMATION WANTED.—Postmaster Carr received last night, inquiring the name of the inventor of a method of falling trees by electricity. The facts are simply these: A few years since, an inventive genius in the east secured a patent for falling trees by means of a platinum wire kept at a white heat by means of a strong current of electricity. An item in regard to some experiments with the apparatus, going the rounds of the press some months since, was seized on by our morning contemporary and the whole published as the invention of a Puget Sound logger.

TIMES IMPROVING.—We hear it mentioned on every hand that times are improving fast. Money is very much easier, numbers of buildings are going up on every hand, the railroad is bringing in 650 tons of coal a day, on an average, and hardly an idle man can be seen in town. The harvesting has drawn off nearly all our surplus population, so the labor market is not glutted. As soon as the survey of the first ten miles is completed, the work of grading will commence on the Yakima extension of the Seattle & Walla Railroad, which will furnish employment to a large number of men, directly and indirectly, and still further increase the liveliness of business.

NEW STEAMER.—The little new steamer of Smith & Moss, now building at Bell Town, will be ready to launch in a few days. The caulkers are at work on the hull and the carpenters on the house. She will be, we think, the finest model for a stern-wheeler ever built here, and Mr. Lake is putting her together to stay. Captain Smith, one of her owners, has been running the Comet very successfully and as Captain of the new boat will be popular. Mr. Moss, who will act as engineer, is an engineer of great experience. He was one of the first that ever ran on the upper Mississippi, and after coming to the Sound, was chief engineer of the Port Orchard saw-mill, and more recently of the Seattle mill. They have purchased the old steamer Wenat, the machinery of which will be overhauled and put in the new steamer, while her hull will be used as a lighter.

ARRIVED.—The celebrated glass blower, Prof. Greiner, who carried away the laurels at Vienna in '73, and at the Centennial in 1878, has arrived here and will give exhibitions of glass blowing in his spacious tent on Occidental Square, commencing to-morrow at 10 o'clock, a. m. For particulars see his advertisement and posters. Don't fail to attend this ingenious performance. Admission price, 25 cents.

THERE will be a special session of the Presbytery of Puget Sound held in the Presbyterian Church of this city, which will be opened with a sermon by Rev. T. W. McCay, of Snohomish City, this evening at 7 1/2 o'clock. All are invited.

SUIT FOR DAMAGES.—Miss Mollie Lahey, a lady recently from Washington City, has instituted suit in the Oregon State Circuit Court against Mr. Joseph Knott for the recovery of \$50,000 damages. The plaintiff alleges that the defendant met her in Washington City and promised to marry her, that he furnished her with means to enable her to come to Portland; that when she arrived there she found him married. By reason of his failure to make good his promise, the plaintiff avers that she has been greatly the sufferer, and asks judgment in the sum above named. The case will come up for trial at the next term of court.—Oregonian.

"Mosby deserves great credit for his sacrifices in the cause of the Union," says Grant. "Grant can carry all the states Hayes did, and several more," says Mosby.

Slorah & Co. are doing a rushing business this hot weather. Their lager beer and bottled ale is all the go and the cry goes up for more.

In the Indian murder case on trial in Steilacoom, the jury yesterday brought in a verdict of manslaughter.

NEW BOATS.—Messrs. Tierney & Co. commenced work to-day on the three new boats for the Oliver Wolcott. The models from which they are to be built are beauties.

DISTRICT COURT.—The District Court for the Counties of King and Kitsap convenes here next Monday, Chief Justice Lewis presiding.

From the daily of Thursday.

PUBLIC LANDS.—The statistics of the General Land Office show that during the 11 months previous to the 30th of June last nearly 4,000,000 acres more land were sold in Minnesota, Nebraska, Kansas and Dakota alone than in the previous year. A large portion of this was taken up by colonies. It is believed that the returns from the remaining Western States and Territories, while from Texas it is stated that the increase of population is altogether unprecedented. In Dakota Territory the increase of actual settlers is over 600 per cent. from last year. In all the above mentioned States and Territories the increase of homestead entries are more than double, and many three to five times more than the previous year. No doubt Washington Territory will make an equally good showing as the previous year.

PLENTY OF BUSINESS.—Mr. W. E. Williams, the boiler maker on the McNaught & Leary wharf, has his hands full of business now. In addition to the job on the Wolcott's boiler, he has taken the boiler out of the old Wenat, and is re-fitting it for Smith & Moss's new steamer, now building at Bell Town. Mr. Williams has bought a piece of land out on the cemetery road, and improving it by a neat little dwelling, with a fine garden in the rear, where his family lives.

LARGE VESSELS.—There is an unusual number of large vessels in the Sound at present loading foreign, viz: ship Annabel Pinto of 1,300 tons, now loading at Seabeck for Valparaiso; takes about one million feet of lumber. Ship Belle Morse, 1,370 tons, is loading at Milton for Callao. She will carry about one million feet. Bark L. P. Litchfield is loading at Tacoma for Sidney. She will take 700 or 800M. feet. In addition to these a number of others to load foreign are due at various ports. The Chilean ship Alvarez, to load for Valparaiso, is due at Tacoma, and the American ship Dauntless is expected at Seabeck daily to load for Calao. Messrs. DeLyon & Case have the loading of the above named ships. They employ quite a large force of men, sometimes as high as 16 men to one ship.

SHIP BARRING BROTHERS.—From late San Francisco papers, under the head of "Marine Report" it would seem that two vessels sailed from Liverpool for San Francisco within a few days of each other, each named the Barring Bros. and each commanded by Thorndike, but it is a mistake. This ship, the Barring Bros., was built in Thomaston, Me., a little over a year ago for Capt. Eben Thorndike. She is 2210 tons, new measurement and was the ship that took the largest freight ever floated out of Mobile bay, and much favorable comment was made on her build and carrying capacity at the time. She is now due in San Francisco, where she will either load grain or come to Puget Sound for lumber.

Lots of buzzing on the street corners. It must be that the primaries are soon to be held.

University opens the first Monday in September.

INDIAN NEWS.—Mr. Tom McAuliffe, son of Mayor McAuliffe of Walla Walla, accompanied the expedition against the Indians. Writing from the Malheur agency, under date Aug. 3d, he furnished the following, which may be regarded as the latest really authentic news: MALHEUR AGENCY, Aug. 3.

Dear Father:—We arrived here safe and sound. Saw no Indians on our trip. Howard has gone to Fort Lyons, and Bernard and Stein's mountain. Bonus and Capt. Miller, of the 4th artillery, are here. Two Indians have just come in with a white flag, and say the main band of 500 are camped 3 miles from here and want to surrender. They say that nearly every place they go they find soldiers. There is four men going out to the camp to bring them in. If they come in I expect we will be home before long.

That silver-plated air gun at the Centennial shoots so straight and it makes no report.

GLASS BLOWING.—Professor Theo. Greiner, the celebrated Bohemian Glass Blower, at Occidental Square, near Mr. Yester's residence, attracts much attention and is worthy a visit from everyone. It is more than passing strange to see with what precision and ingenuity the performer shapes every conceivable article out of flimsy glass. To see the two glass steam engines in operation is alone well worth the price of admission.

OFFICIAL REPORTS show that our domestic exports for the 11 months ending with May last, amounted to \$674,202,335, as against \$626,398,121 for the corresponding period during the previous year. Our imports for the same time, (eleven months), amounted to \$429,722,058 against \$442,925,430 last year. It would seem that our exports last year amount to about \$50,000,000, more than the previous one while the imports are \$14,000,000 less.

Brief Notes.

Republican primaries to-night. The Bohemian glass blower had a crowd in his tent last evening.

H. Downs, at Newcastle, has made a great medical discovery; a tonic prepared from the bark of a tree. It takes.

FINE woods for manufacturing lumber may be seen at Gloré & Wunder's sales-rooms. Here also may be found chamber-sets, desks, tables, etc., made of ash, polished and varnished so as to show the wood to a fine advantage. They have also some fine sets made of California and Mexican woods, that cost double as much and yet are no more durable and handsome than those made from our native ash. We also noticed a book case at Ole Schillestad's, made from curly maple, much resembling the Eastern birds-eye maple. The gnarl of the maple is now used in the finishing and trimming of fine furniture, and by a chemical process the color has been changed so when polished it resembles dark marble.

ENCOURAGING.—From Mr. G. Smith and Fay, who came from Yakima a few days ago, we learn that the people of that section are all of one sentiment in regard to raising the \$50,000—their quota for grading the railroad across the mountains. As they hear that the people of this side are in earnest in their endeavors to push the Yakima extension of the road through, it gives them new energies, and with the recent rich discoveries in the Swak mines and the subsiding of the Indian troubles, the outlook is indeed encouraging. Mr. Smith returns to-day, with a number of men seeking new homes.

IMPORTANT LETTER

From a Distinguished Physician.

No single disease has entailed more suffering or hastened the breaking up of the constitution than Catarrh. The source of this, of taste, of sight, of hearing, the human voice, the mind, one or more and sometimes all yield to its destructive influence. The poison it distributes through the system attacks every vital force, and breaks up the most robust of constitutions. Ignored because but little understood by most physicians, impotently assailed by quacks and charlatans, those suffering from it have little hope to be relieved of it this side of the grave. It is time, then, that the popular treatment of this terrible disease by remedies within the reach of all patients be abandoned as once competent and trustworthy. The new and hitherto untried method adopted by Dr. Sanford in the preparation of the Radical Cure has won my hearty approval. I believe it likely to succeed when all the usual remedies fail, because it strikes at the root of the disease, viz., the oxidized blood, while it heals the ulcerated membrane by direct application to the nasal passages. Its action is based on certain fixed rules, and unless the vital forces are too far exhausted, must, in the great majority of cases, effect a cure.

GEO. BEARD, M. D.
Nobscott Block, So. FRAMINGHAM, Oct. 1, 1874.

SANFORD'S RADICAL CURE

MAY safely claim to be one of the few popular remedies receiving the approval of medical gentlemen, who, in private, not only freely recommend it but use it in their families in preference to any of the preparations usually prescribed by physicians.

"You are aware," said a distinguished city physician, "that my obligations to the Mass. Medical Society are such that I cannot publicly recommend or prescribe the Radical Cure; but since I received so much relief from the use of it myself, after a thorough trial of the usual remedies, I have privately advised its use, and presume I have sent you more than one hundred of my patients for it."

UNIVERSAL SATISFACTION.

GENTLEMEN.—We have sold SANFORD'S RADICAL CURE for nearly one year, and can say candidly that we never sold a similar preparation that gave such universal satisfaction. We have to leave the first complaint yet.

We are not in the habit of recommending patent medicines, but your preparation meets the wants of thousands, and we think those afflicted should be convinced of its great merits so that their suffering will be relieved. We have been in the drug business for the past twelve years constantly, and sold everything for Catarrh, but you leads all the rest. If you see any of our bottles, please send us any part of it that you wish.

Very truly yours, S. D. BALDWIN & CO.

COLLINS' VOLTAGE PLASTER

An Electro-Galvanic Battery combined with a highly medicated Strengthening Plaster, forming the best Plaster for Pains and Aches in the World of Medicine.

As a grand curative and restorative agent is not equalled by any element or medicine in the history of the healing art. Unless the vital spark has fled the body, restorative medicine is possible. It is the last resort of all physicians and surgeons, and has rescued thousands, apparently dead, from an untimely grave, when no other human agency could have succeeded. This is the leading curative element in this Plaster.

BALSAM AND PINE.

The healing properties of our own fragrant balsam and pine and the gums of the East are too well known to require description. Their grateful, healing, soothing and strengthening properties are known to thousands. When combined in accordance with late and important discoveries in pharmacy, their healing and strengthening properties are increased tenfold. In this respect our Plaster is the best in use without the aid of electricity.

TWO IN ONE.

Thus combined we have two grand medical agents in one, each of which performs its function and unitedly produce more cures than any liniment, lotion, wash, or plaster ever compounded in the history of medicine. Try one. Price, 25 CENTS.

Sold by all Wholesale and Retail Druggists throughout the United States and Canada, and by WEEKS & POTTER, Proprietors, Boston, Mass.

Carefully prepared papers will keep the reader well informed on Art topics of the most important Art centres of this country and Europe. The important exhibitions will receive full and timely notice, and artists whose achievements have won for them the right shall be introduced and given a proper personal or by sketches biographical and critical. It will be the purpose of the editor to earn for the Art Journal and Literary Department of THE ALDINE a recognition in every way worthy of its establishment and admitted pre-eminence in Art literature.

THE ART DEPARTMENT of this volume will be richer in representations of American natural scenery than any of its predecessors. To aid a popular decision on the claims of rival localities, the title, "The Art Journal of America," our artists are exploring the wonders of those regions of our country which have more recently been brought into notice.

The publishers have entire confidence that the public will continue the evidence of their appreciation of these efforts to maintain an Art publication that shall be characteristic and worthy of the progress and liberal taste of Americans, and to anticipate with pleasure the opportunity for a practical verdict on their past achievements which the commencement of a new volume affords.

PLAN OF PUBLICATION.
THE ALDINE volumes will in future be completed in 24 parts, at 50 cents each, published monthly, and sold only to subscribers for the complete volume. Subscribers will pay on delivery for the parts actually received, and no canvasses or deliveries will be made to vary these terms in any way or to make any representation on the part of the publishers outside of the regular prospectus.

THE ALDINE will not be sold by book or news dealers generally, but will be obtained in the hands of one dealer in each town; and in all places where no agent is appointed, persons desiring to subscribe may do so by direct application to the publishers.

Any person desiring to act as the agent for any particular locality should apply promptly, giving full particulars as to business, references, and territory desired. Liberal arrangements will be made with agents.

A GREAT OFFER!

WATCHES RETAILED AT WHOLESALE PRICES!

Facts for Watch Buyers.

In order to introduce our New American Watch, we have determined to depart the usual practice of selling the United States by a system of Directly With the Retail Purchaser, allowing him the several heavy profits he would be obliged to pay if he patronized the retail dealer.

We have just commenced the manufacture of the Best Low Priced Watch ever offered in this or any other country, and in order to introduce it thoroughly, we will sell at Retail for the very Lowest Wholesale Jobbing Price! This is in accordance with the general depression of business and a loud pressing demand for doing away with two or three middlemen before reaching the retail purchaser.

The movements of this Watch is the well-known "American" style, and for Reliability and Durability cannot be excelled by any watch—whatever the price or wherever made—now offered the American people. It is put up in a neatly designed COIN SILVER HUNTING CASE!

Warranted in every particular—guaranteed to be a watch which readily retails at from \$25 to \$38 and is well worth the money.

READ THIS OFFER!

Believing that we can secure an extensive trade throughout the United States by a system of direct, fair and honorable dealing with retail purchasers of watches; we make the following unprecedented offer to any one wanting our Watch FOR THIRTEEN DOLLARS!

We will send one of the above watches to any address, by Express, C. O. D., and give you the privilege of examining the Watch thoroughly before paying for it. We send strict instructions to Express Agents to allow every purchaser to open the package and examine the Watch before he pays the money. If the Watch does not suit you, return it to us at our expense—you will be under no obligation to take it from the Express office. We give you every chance. If you are not a judge of watches, get someone who is to examine the Watch for you. We are aware that dealers have offered watches in this way before, but no Coin Silver American Watch was ever offered by reliable manufacturers in this manner. They have always sent out some initial on Watch, which would require the purchaser from three to six months to find out what it was, when it would prove to be brass, or some equally worthless metal, with a slight gilding of gold, and not worth one-fourth the money it cost you. There is no hawking about our offer. Give us a trial.

FOR FIFTEEN DOLLARS

We will send with the Watch one of our new and elegant pattern VEST CHAINS AND SEALS!

Warranted to retain its color—18 karat gold—for five years and cannot be told from the genuine article. This great offer to watch buyers is a saving of at least

THIRTEEN DOLLARS!!

On any reliable watch you can buy. Recollect, watches will only be sent singly to one address, as our object is to introduce this Watch. We do not sell to jobbers. Express charges on this Watch and chain do not exceed 25 cents to any part of the States, as we have a special arrangement with the companies.

STEELE'S PAIN ERADICATOR.

The Most Wonderful Discovery of the Age.

The World moves, and unless we Progress we must go Backward. Nothing remains Stationary

In offering this medicine it is not intended to deceive the people as a cure for every complaint on earth; but a really scientific article of the greatest merit, which will prove a boon to suffering humanity—both on account of its adaptability to both man and beast, its readiness of application, and the price being within the reach of all. It will actually cure

Rheumatism, Lameness, Neuralgia, Swellings, Contracted Cords, Gout, Contracted Muscles, Cuts, Stiff Joints, Sores, Sore Throat, Sprains, Lamé Back, Bruises, Diarrhea, Cramps, Headache, Colic, Faceache, Burn and Scalds, Earache, Inflammation of the Kidneys,

And all Nervous and Inflammatory Aches and Pains.

Dr. Steele, who has for years been in the Proprietary Medicine business, and who has visited in various parts of the world in search of information, has great confidence in the ERADICATOR as the "Ne Plus Ultra" of safe, sure and reliable remedies for general use as a Family Doctor.

Provide yourself with a bottle without delay, as you will always keep it in the family and save money. Don't be put off with some other preparation. Take only STEELE'S PAIN ERADICATOR. We can produce thousands of testimonials as to the cures made; but a trial will prove to the most skeptical that it is truly an Eradicator of Pains, Aches and Inflammations. It has been, and is now, constantly used by horsemen as a Liniment, and has saved more valuable property of that kind than any other preparation. Take pains to see that you get the genuine. Put up in large bottles, and for sale by druggists and dealers. If you happen to be in a locality where STEELE'S PAIN ERADICATOR cannot be obtained, send to the nearest wholesale druggist, or to the Agents,
