MINES IN SNOHOMISH COUNTY.—Mr. Jay G. Kelley, Assayer in this city, has given us the following result of four specimens of mineral assayed by him for Mr. Masterson, of Snohomish county, at the rate per ton:

No. 1—Gold, \$6 25; silver, \$6 25; total, \$12 50. Lead, 6 per cent.
No. 2—Gold, \$37 51; silver, \$70 68; total, \$108 19. Lead, 72 per cent.
No. 3—Gold, a trace, silver, \$26 70; Lead, 15 per cent; also a trace of copper.
No. 4—Silver, \$47 13.

These specimens came from different ledges, near to each other, situated on a spur of the Cascade mountains, near the Skykomish river, about 65 miles south-east of Snohomish City, and about 80 miles from Seattle. We are informed by one who knows that these mines were discovered over two years ago, by three partners in an exploring expedition, who have expended the greater portion of their labor since in prospecting and developing them, keeping their locality a secret from all others. One of the partners was taken sick last season and returned to his home in the Eastern States. Before leaving, he revealed to his attending physician the fact of the existence of the mines, but could not describe the route so it could be immediately found, and his partners refused to disclose its whereabouts.

This season the Doctor employed expert woodsmen who finally succeeded in finding the mines and opening up the way to other parties, many of whom have since visited the place and taken up claims. The first prospectors had in the course of their two years' labor, opened upon large ledges, manifestly of great extent, severally composed of the various ores samples of which were assayed by Mr. Kelley. The country had been prospected for about six miles, in every part of which similar deposits were found, galena being the predominant mineral, in all of which silver, to a greater or less extent, mingles, as the assay shows. The indications are that this will prove an exceedingly rich mining district. Our informant says there is no natural obstruction to a wagon road of easy grade from Snohomish City to these mines, except a heavy growth of timber, which can be easily cut out.

SNOHOMISH COUNTY REPUBLICAN CONVENTION.—The Republican Convention held at Snohomish City on the 18th inst., made the following nominations:

For Delegates to the Territorial Convention, Gardner Kellogg and Hugh Ross; Representative, E. C. Ferguson; County Commissioners, W. H. Reeves, George Kyle, M. T. Wright; Probate Judge, Royal Haskell; Auditor, M. W. Paekard; Treasurer, John Batt; Sheriff, Benjamin Strésh; School Superintendent, William H. Reeves; Surveyor, L. T. Ireland; Coroner, Hugh Kass.

THURSTON COUNTY.—The Republican Convention of Thurston county, held at Olympia on the 24th inst., made the following nominations:

Delegates to the Territorial Convention, F. E. Perry, E. S. Stomton, F. M. Rhodes, and J. B. Hayden. Representatives, Elwood Evans, Jas. Wood and R. A. Brewer. Sheriff, William Billings; Auditor, A. A. Phillips; Treasurer, J. H. Munson; Coroner, I. V. Mossman; County Commissioners, F. B. Kendall, J. T. Ticknor, Otto Rank; Probate Judge, A. R. Elder; School Superintendent, D. R. Bigelow; Surveyor, L. G. Abbott.

One half of these nominees acted with the Independents at the last election.

NO MAN OF PROSPECT NEED APPLY.—The Democratic County Convention of Walla Walla, which is characterized by Newell as "A Sick Infant," nominated a full county ticket, elected delegates to Murphy's Territorial Convention, and passed a string of resolutions, the most significant of which is as follows:

"That we favor the nomination of a candidate for Delegate to Congress from our own section of country. Failing in that, the selection of a man without local prejudices or interests."

"Without local prejudices or interests! That means, if it means anything, that if they cannot have a man whose interests are identified with their own, they want one who has no interests anywhere else. A Puget Sound carpet-bagger would be preferred. No Grant need apply, for they are supposed to have local interests in houses and farms."

The resolution in regard to public improvements, is based upon a kindred idea: "While recognizing the necessity of some improved line of transportation with the sea coast, it opposes any municipal aid to such object. The Democracy of Walla Walla county has evidently got down to the 'bed rock,'" and it is fortunate for the intelligence and enterprise of the Territory, that there is every prospect of its staying there.

MENING.—A strong party is being organized in this city to prospect the new mines on the Skykomish, which we mentioned more in detail yesterday.

The following officers of the Oregon State Grange were elected at Salem on the 17th inst.: Master, Dan. Clark of Marion; Overseer, William Cyrus of Linn; Lecturer, E. L. Smith of Walla Walla; Chaplain, W. M. Shelton of Walla Walla; Treasurer, B. A. Witzel of Marion; Secretary, John H. Smith of Linn; Gatekeeper, A. A. Matthews of Douglas; Ceres, Mrs. Jane Cyrus of Linn; Pomona, Mrs. M. A. Powers of Linn; Flora, Mrs. L. C. Reid of Yamhill; Lady Assistant Stewart, L. S. Folsom of Lane.

NEW WHEAT.—Dr. Davenport has commenced the erection of a new wharf on Front street, between Yamhill and Taylor streets. It will be two stories in height and have a frontage upon the river of 130 feet by 30 feet in depth. It has already been leased by Messrs. Cresswell & Co., but for what purpose we could not positively learn. It is rumored, however, that it will be used in connection with the Seattle Coal Company.—Portland News.

An English captain, whose ship was lying in the stream at Portland, became so disgusted with the way that the Grangers are holding back the wheat crop that he went and married a Portland girl and then bought a farm in Washington county. He calculates to have wheat and babies enough to fill the ship by the time the Grangers raise the blockade.—Casc Bay News.

The new locomotive of the Seattle Coal Company was landed upon the track on Thursday afternoon. Under the superintendence of Capt. Bullen, it was removed from Yessler's wharf to the track, a distance of three-quarters of a mile, on a portable road bed, in three sections, and the distance was accomplished in a little over one day.

Telegraphic

EXCLUSIVELY TO THE DAILY DISPATCH.

NEW YORK, Sept. 21.—The Times says President Dillon and Jay Gould started for a tour of inspection over the Union Pacific and connecting roads on Saturday evening. They will probably go as far as San Francisco. One of the objects of the journey will be to facilitate passenger traffic over the Union Pacific by increasing the speed of trains, which now only make 15 miles an hour. Instead of making a connection with Union Pacific transfer through car, it is proposed to run through cars from Chicago, abolishing the transfer, as at the present conducted speed will be increased so a day will be saved between Chicago and Ogden.

NEW YORK, Sept. 21.—Pastor Halliday of Plymouth Church announced yesterday that a letter had been received from Mr. Beecher, saying he should be in Brooklyn to attend prayer meeting one week from next Friday, and would preach on the following Sunday.

Frederick Dockery has arrived at Sander, where it is said he is imprisoned and cruelly treated.

NEW YORK, Sept. 22.—A riot occurred among the laborers on the Delaware, Lackawanna and Western railroad tunnel at Jersey City this afternoon. It commenced by a fight between Corkonians and Far Downers, which was taken up by the friends of the two factions till more than fifty men were engaged in it. Stones and clubs were freely used and a number of men injured, but none seriously. The riot was quelled by the police. Many arrested.

TRENTON, N. J., Sept. 22.—A collision on the Belvidere & Delaware railroad near Phillipsburg this afternoon, between a passenger and freight train, killed a man named Meyer and wounded 6 or 8 others.

MILWAUKEE, Sept. 22.—The Supreme Court to-day reserved its decision until the 29th on the motion argued before it for an injunction to compel the Prairie du Chien branch of the Milwaukee & St. Paul R. R. which was exempted in a previous decision from obeying the Potter law, to obey that statute like the other roads.

UTICA, N. Y., Sept. 22.—The Delegates to the Republican Convention have nearly all arrived. Everything indicates the renomination of Dix, but the contest for the second place is between Lieut. Governor Robinson and General Bachelor of Saratoga.

COLUMBUS, Ohio, Sept. 22.—The suspension of C. Ludwell & Co., extensively engaged in the importation of sugar, was announced to-day.

ST. PAUL, Minn., Sept. 22.—Headquarters Hotel at Fargo, belonging to the Northern Pacific Railroad Co., burned this morning, together with the railroad and express offices. Loss, \$45,000 insured.

NEW YORK, Sept. 22.—In the practice shooting at Creedmore between British and American teams to-day no score was kept but the Americans showed the foreigners in almost every instance.

PARIS, Sept. 22.—French newspapers publish St. Petersburg advices concerning the report of Bismarck's overtures to King Christian of Denmark, looking to the incorporation of that country in the German Confederacy. They say that Russia is greatly irritated and will never permit Germany to hold the key to the Baltic Sea. The same papers say the opposition of Russia to the German policy in Spain is due to this cause.

BREMEN, Sept. 22.—The National Gazette says: "While the expulsion of Dantes from Schleswig was legal we are assured it was only adopted in a few isolated cases. The relations between Germany and Denmark are friendly."

CHICAGO, Sept. 22.—The statement that Spain contemplates cession of Territory in the West Indies to Germany has been recently semi-officially denied. The Washington Chronicle has the following in reference to what looks now as the probable event: "Spain may cede some of her possessions to Germany which by right should come into the hands of the United States. Our Government is not insensible to the question, but is keeping watch on Germany's diplomacy in that direction. Members of the Cabinet assert with one accord, that in the event this cession is granted by Spain the Monroe doctrine will certainly be enforced."

SAN FRANCISCO, Sept. 22.—A New York special says of the reported new steamship line to be started in opposition to the Pacific Mail Company: "Last Saturday Captain George H. Brandburg, who was President of the Pacific mail Co., sailed for Europe. He sailed under an assumed name. Those understood to be posted of the rival enterprises, say Captain Brandburg is to be President of the new Co., and that he has gone to England for the purpose of leasing or purchasing six or seven steamers. After completing his negotiations, the vessels selected will sail almost immediately from England, some going to China and Japan for cargoes and others coming here, from whence they will go to the Pacific Coast. It is said contracts have been signed and vessels will be running within 30 days. One of the objects of Jay Gould's trip to San Francisco is to obtain wharf property for the new Co. Russell Sage, President of the Pacific Mail Co., declares that the question of starting a rival line on the Pacific is ridiculous, for it could not compete with the regular line with its million dollar subsidy and its great facilities for business. He thinks the whole thing is attributable to U. S. greed."

CHICAGO, Sept. 22.—A Times New Orleans special says: "The White Leaguers have received notice to be ready to spring to arms at a hour's notice, and an attack on the Kellogg government is expected to-day. This is to be done with the purpose of compelling the Federal Government to declare martial law and establish a military government, and not with the design of obtaining control of the State offices. The failure of McEnery as a compromise with the Kellogg Government in regard to the management of the election in November is said to be the reason for this new outbreak. White Leaguers do not expect success, except so far as the complete establishment of a military government. If this shall be effected the purpose of the rebellion will be successful. White Leaguers at St. Louis."

McEnery and Penn will to-morrow issue circular requiring the inspection of all the State troops and the return of State arms in their hands, and earnestly urging all citizens to carry out the terms of the surrender in the same spirit.

Should the State officers make a search of the arms and bloodshed would certainly occur, but if U. S. officers are assigned to the duty there will probably be no resistance.

UTICA, N. Y., Sept. 22.—The Republican State Convention met and elected a temporary organization by the election of Hon. T. M. Rosebery chairman. On reassembling, Edwin D. Morgan was chosen President, with the usual number of Vice. Gen. Sharp moved to proceed to the nomination of a candidate for Governor, and proposed the renomination of Gen. John A. Dix by acclamation. The proposition was greeted with applause, and the Convention, by a rising vote, ratified the nomination. Gen. John Robinson was nominated by acclamation for Lieutenant Governor.

UTICA, N. Y., Sept. 23.—The following nominations on the State Ticket for Canal Commissioner, R. M. Strand; for Associate Justice of Courts of Appeals, A. Johnson. All present and all nominated by acclamation. First, the Platform affirms the principles of the Republican party and lauds its acts. Second, demands obedience to laws and full protection of every citizen, and if the State fail to protect the Federal Government is to protect. Third, declares that revolution in States must be suppressed. Fourth, that public faith requires the payment of the public debt in coin. Fifth, opposes any further inflation of paper currency, endorses the President's veto of Inflation Act and favors a speedy return to specie payments. Sixth, favors as a necessity taxation direct or indirect to keep pace with requirements of public credit. Seventh, endorses the Administration of Grant as true to its pledge and distinguished by achievements in domestic and foreign policy, unsurpassed in the history of the country. Eighth, endorses the Administration of Governor Dix and enumerates the benefits it has conferred on the State.

ST. PAUL, Minn., Sept. 23.—Democratic Liberal State Convention met to-day nominated Westcott Wilkins, for Chief Justice of the Supreme Court; William Lochner, of Minneapolis, for Associate Justice. Judge Wilkins is at present Judge of the Second District Court. The Platform adopted is preceded by a preamble declaring that the Republican party is leagued with monopolies to crush the rights of the people and that the Convention is composed of people without distinction of party.

LONDON, Sept. 23.—A Carlist dispatch from Tolosa reports that General Peura has carried the village of Biscassin, totally defeating the ten battalions under General Morozon.

LONDON, Sept. 23.—Holland, Conservative, is returned to Parliament from Midhurst. Arnold, proprietor of the London Echo, will contest Northampton in the Liberal interest.

PARIS, Sept. 22.—Elections to fill vacancies in the National Assembly have been ordered for October 19th.

Much excitement over the approaching elections for Council General in Corsica, which causes much disorder. The authorities have been obliged to intervene to prevent collisions between the supporters of Prince Napoleon and M. Pietri, the opposition Bonapartist candidates.

NEW ORLEANS, Sept. 22.—The political conference will be resumed at noon to-morrow at the Custom House. The indications now are that the Republicans will concede a point and allow the McEnerys an equal representation on the returning board.

In Terrebonne Parish the people's party and the Republicans have made a compromise and agreed upon a joint Parish ticket, in which both parties are equally represented, both in candidates for the Legislature and Parish officers. The best men are nominated on both sides. The Terrebonne Banner, the official organ, cordially endorses this action and the Picayune of this city says editorially of the move: "The people of that parish have agreed upon what promises to be productive of the happiest results. Is it not probable that Terrebonne has struck the course which shall lead us from the wilderness?"

WASHINGTON, Sept. 23.—A corrected statement from the Pacific Mail Steamship Co. has been received at the Post Office Department.

BOSTON, Sept. 23.—The market for wool is quiet but prices are well sustained. Combing and delain selections continue to be taken as fast as offered and as fast as sales are made. Lambs wool is coming forward more freely. Prices range from 47@50 for good, super and extra 50@55, and with very choice lots of super at an advance on the latter rate.

MEXICO, Sept. 25.—Minister of War Mejia has received a telegram from the Lieutenant in command of the Federal troops at Dos Arroyos, in the State of Guerrero, saying that 20 soldiers had revolted and, with the civil judge at their head, had attacked him, but had been repulsed and dispersed with a loss of six killed, two wounded and one prisoner. The Lieutenant lost two killed and six wounded.

Mejia has received a telegram from

the Governor of Guerrero that the Federal forces had committed several assassinations at Dos Arroyos, two commissioners being among their victims. Mejia ordered the Commander at Chilpancingo to proceed with all his disposable forces to Dos Arroyos.

NEW YORK, Sept. 25.—Thomas H. Montgomery, General Agent of the National Board of Underwriters, says the recent action of the Board in recommending the withdrawal of the insurance business from Chicago is absolutely necessary as a protective measure. The authorities of Chicago had in some instances utterly ignored the requirements of the board, and in others had made some spasmodic efforts to reform the fire department, which was sadly lacking in discipline and was controlled by politicians. It was true that the city had appropriated \$200,000 for the construction and placing of water mains and fire hydrants, but the water engineer of the city, Cheesbrough, asserts that \$200,000 can be expended on that work alone.

ST. JOHN, N. B., Sept. 25.—Owing to the thick fog, the boat race between Brown and Morris has been postponed until clear weather.

NEW YORK, Sept. 25.—The North German consul in the District of Porto Rico says of the report about the cessation of the island to Germany that it must have originated among the enemies of Bismarck and of Porto Rico. Some excitement was caused on reading the North American papers, but very few attached any credit to it, and the Governor General publicly denied having received any instructions from Spain in regard to the matter. The local papers also denied any truth in it. There was considerable dissatisfaction on the island, however, owing to the troubled state of affairs in Spain and the fact that all the important offices are filled by Spaniards.

NEW YORK, Sept. 24.—The special correspondents of some Northern papers having charged that the telegraph offices in New Orleans and throughout the South were in the hands of the White Leaguers, and that messages were delayed, etc.; that there was censorship exercised over all the messages or press dispatches filed for transmission; President Orton, of the W. U. publishes a letter denying the truth of the statement and saying: "During the evening of the day of troubles in New Orleans, a guard was stationed at our office there, but our Superintendent made a prompt and vigorous protest against this act and the guard was immediately removed. In two instances our messengers were arrested by the Penn militia, but on being taken to headquarters they were discharged and the parties making the arrest were reprimanded, and no other attempt was made to tamper with messages. No committee of citizens or any person whatever exercised any censorship over the dispatches or obtained access to them or were furnished with their contents. The only persons to whom any special favors were shown were officers of the U. S. Army, who were permitted to occupy the private apartments of our Superintendent for greater convenience in communicating with officials at Washington. Their communications were given as they are by law entitled to the preference over all other business."

NEW YORK, Sept. 25.—Catharine Beecher publishes a scathing letter to-day reviewing the Tilton scandal, says: "Its real originator is the proprietor of the Independent, described by those who know him as a man of iron will, indomitable perseverance, adroit maneuvering, and devoted to money-making. Many gentlemen and ladies have information of mean and dishonorable practices by this man. The withdrawal of my brother and Mrs. Stowe as contributors to the Independent increased his exasperation, and finally his affair with a lady authoress residing in his family, and the supposed intervention of my brother in causing her to decline his offer of marriage, added fresh excitement to his malignity. Of this fact it was probably prompted by Bowen's letter to Tilton, accusing my brother of adultery and rape, which he afterwards said had no foundation, and by his acknowledgment and regret for the wrong he had done, by expressions of perfect confidence in his pastor's integrity and by a promise to avoid any further sins of the sort. He adroitly contrived to maintain his membership in the Church and obtain the forgiveness of his pastor."

HENDAY, Sept. 25.—Gen. Martinez has begun a series of operations against Pamphelona and fighting has been going on for three days. The engagement the first day was indecisive, the 2d day the Republicans inflicted heavy losses on the Carlists, and yesterday Martinez gained an advantage.

WASHINGTON, Sept. 25.—Naval orders: Midshipman John C. Colwell to Asiatic Station per steamer of Oct. 17 from San Francisco; Commander Henry Erben, jr., detached from the Naval rendezvous at New York and ordered to command the Tuscarora at Mare Island.

Navy Yard on Oct. 5 next; Commander Geo. E. Bolkins is detached from the command of the Tuscarora and ordered home to await orders.

PARIS, Sept. 25.—Gambetta is announced to deliver political speeches in various places.

NEW YORK, Sept. 25.—A dispatch to the Times says Kellogg and Federal officers anticipate further disturbances. Beyond doubt, another fight will result from any attempt on the part of the Kellogg police to search private houses for arms or to arrest the leaders in the recent revolution. Kellogg yesterday, telegraphed to Washington. He thinks the city is in a very insecure condition and rioting may be apprehended any moment and that the State will not remain at peace if the United States Troops are withdrawn. He had reason to know that the League movement was spreading into adjoining States and that the order was rapidly increasing in numbers.

Three war vessels arrived on the Mississippi below New Orleans last evening. The health officers ordered them to pass up to the city for a quarantine inspection.

CINCINNATI, Sept. 25.—A terrible accident occurred last night on the Baltimore and Ohio Railroad between Smithton and West Union, West Virginia. Two passenger trains collided and the wreck afterwards took fire and burned. Postal Agent killed. How many others not known.

SEMA, Ga., Sept. 25.—This morning the southern bound train of Selma on the Rome and Dayton Railroad went through the bridge over the Wachuga, falling 60 feet. The train is a total wreck. The engineer, fireman and several passengers were killed. All the remaining passengers were wounded and many dangerously wounded. Among the killed was William Boyd, ex-Judge of Supreme Court at Alabama.

At a recent Good Templars meeting in Polk county a vote was taken on the Beecher question. Beecher, not guilty, received nineteen votes; guilty, seventeen—two majority for Beecher. The ballot being a secret one, it is not known how the majority of the lady members voted; but one of the tellers remarked that nearly all of the "not guilty" votes were written in a coarse, large hand.

PARIS THAT IS PAST. Dissolve an ounce of alum in a quart of warm water; when cold, add as much flour as will make it the consistency of cream; then stew into it as much powdered rosin as will stand on a two cent piece; add a few drops of oil of cloves; boil it to a consistency, stir all the time. It will keep for twelve months, and when dry, may be softened with water.

The Lafayette Courier tells of two gentlemen who, some years since, came from the East, and, during the past year or so were both married, and that their former wives have arrived.

OREGON CENTRAL PACIFIC RAILWAY COMPANY.—On the 17th the articles of incorporation of the above entitled company were filed in the Clerk's office of Multnomah county, by B. J. Pengra, B. Goldsmith, W. H. Watkins and E. Quackenbush. The business and occupation in which said company is to engage is the construction, equipment, running and management of a railroad and telegraph line from a point at or near Winnemucca, on the Central Pacific Railroad, in the State of Nevada (but not east of said place); thence, northwesterly, to and across Goose Lake Valley and Sprague River Valley to the waters of the middle fork of the Willamette river in the Cascade mountains; thence, down to Springfield, in Lane county, Oregon; thence crossing over to and continuing upon the west side of said river into Portland, in Multnomah county, Oregon, to the waters of the Columbia river; with full power to receive and hold, by donation or otherwise, real and personal property, and the same to dispose of at will for the benefit of the company.

A red-headed dry-goods clerk in Boston has caught a pickeral weighing two pounds, and is now looking up authorities to ask if Isak Walton's hair was of an auburn hue.

In an Illinois village, during service on a sultry Sabbath morning, the pastor's little girl of nearly three summers became somewhat wearied at the length of the sermon, and in rather a low tone of voice, but earnestly, said to the amusement of those who sat near, "Come, papa, that's enough; let's go home."

Can a man ride at the same time two horses, each going in an opposite direction? If he can be ought to be qualified for the position of a "Mutual Friend" of two parties who are in deadly antagonism.

A Kentucky church has sent two lady missionaries to the Feejee Islands. No doubt the cannibals will prefer this sort to the tough old gentlemen who are usually thrust upon that market.

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol.

The properties of Dr. Walker's Vinegar Bitters are Aperient, Diaphoretic, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.

No person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs unimpaired.

Bilious, Remittent, and Intermittent Fevers, which are so prevalent in the valley of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera.

For Inflammatory or Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the bowels. To guard against this, take Dr. J. Walker's Vinegar Bitters.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blisters, Spots, Pimples, Pustules, Boils, Carbuncles, Ringworms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no purgatives, no anthelmintics will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it sours; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.
