BERISH BROWN: EDITOR Seattle, W. T., Dec. 17, 1874

MINING VENTURE.—To those who care to make a small venture in mining operations with no contingent risk, the offer of the "Seattle Gold and Silver Mining Company," presents a very favorable opportunity. If the mines turn out one half as well as they prospect, every unassessable share now taken at ten dollars, will be worth fifty dollars as soon as the mine is developed, and beyond the first investment there is no risk to the holder and no danger of being frozen out by exorbitant assessments. It is objected by some, that the Company, after selling two thousand shares of stock at ten dollars a share, retain eight thousand shares, which would be putting in their mines at an aggregate of one hundred thousand dollars. Well, discoveries of no greater apparent value have frequently sold for much more than that amount, and the probabilities are that by putting the whole of their stock on the San Francisco market, it could be sold to speculators for more than an average of ten dollars a share, and the small stockholders would be speedily frozen out. The plan of selling a portion at low rates for cash to be applied to developing the mines, is to guard against any such contingency, and to secure to every holder of stock the full value of his interest therein. If the mines turn out to be worth ten millions of dollars—which is not impossible—every unassessable share for which ten dollars is now paid, will be worth one thousand dollars, and the Company who own the mines and are responsible for all the expense of developing and improving them, will realize eight millions from their venture. The proposition is plain, open and fair, free from trick or false pretence. All the personal interest we have in this project is in unassessable shares, paid for at the rate of ten dollars a share. If it proves worthless, we shall lose less by it than any one of the original stockholders, without "wear and tare" about it.

MATT. CARPENTER.—Col. Charles D. Robinson, the oldest and ablest Democratic editor in Wisconsin, says it is probably certain that Matt. Carpenter will be returned to the Senate, and takes the following philosophic view of the case:

"As to whether that is a good thing or not, depends mainly on the standpoint from which such things are regarded. From the Republican side of view, there are a thousand contending elements, principal among which are the various personal views of the host of them in that party, each of whom thinks he would make the best kind of a Senator himself. From the Reform side, where, on account of the peculiar political circumstances this year, there are no candidates, we can look over the ground impartially. These considerations suggest themselves: Mr. Carpenter has no superior, on the Radical side, in the Senate, in point of intellectual ability—indeed, it is a question if he has an equal. In that particular, Wisconsin need not be ashamed of him. As to his record on public matters he is no worse off than pretty much the whole Senate. He took the buck pay, but he voted to repeal the law—to be sure, without refunding what "swag" fell to his share; but we reckon he didn't have it to refund. It went "where the woodbine twined." Grant, for instance, pocketed his share, and has got it today, in the shape of bonds and stocks; Matt, beyond a doubt, lent his to his party vagabonds who are forever hanging on his skirts. As to the balance of the peccadilloes, the Credit Mobilier, the press-gag and so on, he is no worse than his Radical associates, who are unrepentant, while he, doubtless, every night, repents him of his sins and his associates. In all these matters we are inclined to the view of the railroad president who was solicited to remove certain conductors on his road, who were charged with stealing. "No," said he, it will be economy to keep them. They have now got their fast horses and gold watches and so on, and will not steal much more. If you put new men into their places, they will all have to be fitted out again."

The Washington Standard and the Insane Asylum.

Under the head of "Territorial Insane," the Standard endeavors to administer a rebuke to the members of the Medical Society of Washington Territory for "demanding," in a resolution passed by them, that the condition of the Insane be examined into; in other words, the Auditor, as editor of the Standard, demands that the medical fraternity, when they are made acquainted with a crying abuse in the Insane Asylum, should get down on their knees and humbly beg that the "Angust" and "Honorable" office-holders would deign to consider the condition of the institution named. But if it in any way interferes with the pleasure or emoluments of any of the political pets; why, then! then! perhaps you can soothe it over. It is, however, the opinion of the profession, that, as a part of the people, they have a right to demand that the servants of the people shall do their whole duty. And as it is a well known

fact that office-holders have a habit of shifting responsibility, the Society felt it their duty to make the resolution strong enough to cover the whole ground, and if there is no law that will enable them to appoint the commission asked for, they can present the facts and affidavits to the Grand Jury of the district in which the Asylum is located.

The Standard says that the affidavits were from "former employees of the Institution." That is true, but not all of the truth, nor the principal truth, for the affidavits upon which the Medical Society founded their demand, were from former patients who had been discharged as cured, and the relatives of parties who had seen the maltreatment while visiting their friends at the Asylum; and instead of condemning the contractor by ex parte evidence, as the Standard claims, the Society delayed the action of their committee until after election, that the contractor, who was a candidate, need not be affected by statements that might possibly prove to be unjust; and it was for this reason that the Society requested that perfectly reliable men be placed on the commission to examine into the affairs of the Institution; and while the present Board of Inspectors may be men of honor and probity, if the statements made in the affidavits are true, they are either incompetent to fill so important a trust, and have been grossly deceived, or have willfully aided in deceiving the public; and if they are free from taint in this matter, they should be the first to ask a thorough examination; not by themselves, but by others, who have no object or interest in making a false report on either side.

In the hands, the Asylum is entirely in the truth and under the care of those who both by education and habit are totally unprepared for an enlightened and thorough treatment of the Insane, as is evidenced by the low percentage of cures in comparison with other institutions not as favorably situated. Outsiders have said that all the medical profession want is to get the Institution into their hands that they may make money out of it. A moment's thought will show the fallacy of such argument. There is nothing to prevent any one of the profession from taking the keeping of the Insane by contract, and they could do it cheaper than any one else and make money out of it. But the profession object to letting the keeping of the Insane by contract, as it is liable to abuse in any man's hands. And in any circumstances but one member of the profession can be benefited, out of the whole number in the Territory. But the profession claim that they can do better for the Insane, and at less cost to the people, if the Asylum is placed under the entire control of a competent member of their fraternity.

To illustrate: if the contract for the public printing should be given at high rates to a person who knew nothing of the art, who did his work in a shiftless manner, because he knew no better, would not the craft be justified in demanding a change, that those who knew what the work should be, should have charge of it? The medical profession stand in the same relation to the Insane and their treatment.

The quality of mercy of a Pittsburg, Pa., clothing dealer was rather severely strained the other day. He caught a fellow in his store stealing a pair of pantaloons; but the thief declared he did it because he had no money, no home, no friends, no place to lay his head and he wanted to go to the work-house. The clothing man, instead of sending the thief to jail, took pity on him and set him to work in his store; but some bad boys hearing of it, thought it presented a fine opening for them, and went next day and stole eight pair of pantaloons. The clothing man now advertises that he don't want to hire any more help.

A Western paper says of the air, in its relations to man, "It kisses and blesses him, but will not obey him." Blobs says that description answers his wife exactly.

HEALING THE BRACH.—Miss Jackson, a daughter of the Jackson who killed Col. Elsworth, at Alexandria, the first year of the war, holds the appointment of Clerk in the Treasury department at Washington, by order of the President on the recommendation of Col. Mosby.

A clerk who had a mind for logic, applied it to a farmer with advantage thus: Farmer—"Got any cow bells?" Clerk—"Yes; step this way." Farmer—"Those are too small; haven't you any larger?" Clerk—"No sir; the large ones are all sold." Rustic started and got out as far as the door, when the clerk called him back. "Look here, stranger; take one of these small bells for your cow, and you won't have half the trouble in finding her; for when you hear her bell, you'll know that she can't be far off."

The logic was irresistible, and the farmer bought the bell.

The report of several loggers killed and wounded is supposed to be sensational.

PROF. TYNDALL EXPLAINS.—The Belfast address of Prof Tyndall raised such a storm of protest and criticism from the religious world, that he has early come forward with an explanatory statement, to assure the world simply that he is far from sympathizing with atheistic views, and that he would not be understood as saying that the First Cause is to be discovered in any of his material works. He now says with candor: "I have noticed during years of self-observation that it is not in hours of clearness and vigor that this doctrine (referring to atheism) commends itself to my mind; that in the presence of stronger and healthier thoughts it ever dissolves and disappears, as offering no solution of the mystery in which we dwell, and of which we form a part."

cont his own throat. Jones was a married man with grown children. The two families are intimate and respectable. The deed was premeditated and done with a razor. There were no witnesses, the rest of the Barry family being at Church. The bodies were found about 4:30 this afternoon, by a son of the murdered woman, lying on the floor, four feet apart, each with the throat cut from ear to ear.

WASHINGTON, Dec. 13.—King Kalakana is still very much indisposed, in consequence of which no arrangements have been made for his future movements. He is suffering with a severe cold and aggravated sore throat. It is the intention of President and Mrs. Grant to give him a grand reception at the White House one evening this week, for which cards will be issued. The King will stay in Washington about ten days.

Secretary Robeson declared that the report that there had been trouble between him and Sec'y Bristow, relative to the appointment of ex-Senator Cattell as financial agent in Europe, is entirely without foundation.

NEW YORK, Dec. 14.—Vicksburg dispatches say: "Business resumed. The people are organized and watchful of the negroes. Trouble is apprehended when the Legislature meets in the extra session on Thursday because of the contemplated attempt to alter the State laws, to vest the appointing power to fill the vacancies of city and county offices in the Governor."

A dispatch from Vicksburg to the Times says: "Late this evening a number of gentlemen living in the neighborhood rode into Vicksburg, informed the Mayor the negroes in the country were under arms, in squads of twenty and thirty marching toward the City. Mayor Irving called out two companies of special police. They are now assembled at the Court house. The citizens are alarmed. Some fear the town will be attacked to-night. The majority of the people, however, have no fear for the town, but think it probable the negroes will commit depredations upon unprotected families in the country districts. Two companies of well armed whites have gone to the outskirts of the City will guard the two principal approaches during the night."

NEW ORLEANS, Dec. 14, Noon.—Members of the returning board are in session at the State House making the final compilation. On the Street there is much subdued excitement. The Bulletin and Picayune, organs of the white league, vie in making statements to keep up the increased excitement. The Picayune of this morning says: "Governor Kellogg has informed Lawlor, the officer in charge of the defense of the State House, if he can hold out against the attack three minutes, the streets will run with blood."

Governor Kellogg authorized the statement that he has never made such assertions to Capt. Lawlor or any one else. Grand convulsions of white leaguers will be conveyed to-morrow night. It is not probable any movement will be made until that meeting.

PHILADELPHIA, Dec. 14.—Detectives say: "Moshier, the burglar shot near Brooklyn last night, and who was accused by his pal with being the abductor of Charles Ross, resided before the abduction, on Monroe Street near Second, in this city, and owned a horse and carriage."

BERLIN, Dec. 13.—In the Reichstag yesterday Herr Lasker called attention to the arrest of Herr Majunke, a member of the body, and moved that the committee on standing order a report as soon as possible, whether the arrest of deputies during the session is admissible, and, if so, how they can be eventually avoided. The motion was unanimously adopted. The committee subsequently declared that the arrest of Herr Majunke was inadmissible, and recommended that the Reichstag order his immediate liberation.

BERLIN, Dec. 13.—The Court trying Von Arnim was in secret session two hours yesterday, when the most important which have been withheld from publication, were received. The prosecution gave warning that any person who published the documents or caused them to be published, would be considered guilty of high treason.

EXCLUSIVELY TO THE DAILY DISPATCH.

New York, Dec. 8.—Contrary to expectation the jury readily obtained the trial of Coroner Crocker for the murder of James McKenna on election day. There are prospects of a prompt trial.

One branch of the City Council has requested Mayor Vance to tender the hospitalities of the City to King Kalakua.

CHICAGO, Dec. 8.—A Tribune New Orleans special gives the following statement: The trouble causing the Vicksburg riot grew out of an attempt on the part of the Democratic party to get rid of the Republican county officers, elected by a public meeting and sending a demand for their resignation with threats of violence.

Such meeting was held in Vicksburg several days since, and such county officials as could be found tendered their resignations, among them was Sheriff Crosby, colored. The County officers have since remained vacant.—Court cannot be held for want of a sheriff.

On Dec. 4th Governor Ames issued a proclamation, saying that information had been received by him that certain riotous and disorderly persons combined together in force and arms by threats and intimidation had expelled from office said sheriff of Warren Co., and threatened to expel several officers, who have been compelled to flee for their lives—this because of their color. Such conduct in conflict with the laws of the State, which he has sworn to enforce, he commands all said rioters and disorderly persons to disperse and retire peaceably to their homes and remain there to submit to legally constituted authorities of the State, invoking aid and co-operation of good citizens in upholding the laws and preserving peace.

It is probable that the movement at Vicksburg is in conformity with the orders from Governor Ames to Sheriff Crosby to reinstate himself and other county officials. It is understood that Governor Ames is opposed to public officers in Mississippi resigning at the dictation of mass meetings and that he is pledged to use all the force he can command to uphold officers legally in authority.

VICTORIA, B. C., Dec. 8.—The British Colonist, of to-day, has the following special: "OTTAWA, Dec. 5.—It has transpired here that the Colonial office has arranged to relax the terms of union with British Columbia upon the basis laid down by Mr. MacKenzie. The whole matter having been left unconditionally in the hands of Lord Cameron by the British Columbia Delegate, the local government will be compelled either to accept the new terms or resign."

The dispatch does not seem to have caused much uneasiness in political circles, although the Colonist is the organ of the Mackenzie government.

VICTORIA, B. C., Dec. 9.—Attorney General Walker is on his way home from London, and has telegraphed here that his mission has proved successful. Work on the Canadian Pacific R. R. will be commenced early in the spring, all the surveys being now nearly completed.

One white killed and two wounded. Crosby is still under guard. The whites hold the entire city.

CORINTH, Miss., Dec. 8.—Yesterday afternoon four armed men rode up to the Tehonigah Savings Bank in this city. Two stood guard outside and the other two entered, locked the door, forced the President, the only officer in the bank, to give up the keys, robbed the safe of \$5,000 in currency and as much more in jewelry, and rode off, firing several pistol shots as they went. Sheriff with a large posse is in pursuit.

VICTORVILLE, Dec. 8.—The excitement here is intense. Quiet was restored and the safety of the prisoners assured. A Committee of citizens and officers met to determine what course to pursue. In a private interview Crosby expressed a desire to resign. Gen. Packer prepared his resignation, to take effect at once, which Crosby signed. There are about 50 prisoners in the jail. The country for miles round is reported quiet, and business generally is resumed. Colonel Beard of the first cavalry has issued an order that all commanders of organized

companies in Warren Co. report for duty to Col. Wm. French, who is placed in command.

KANSAS CITY, Dec. 8.—Five mounted, armed and masked men stopped and entered the Kansas Pacific express train near Muncie this afternoon, and robbed Wells, Fargo & Co.'s safe of about \$27,000, one case of gold dust for Koenitz Bros. of New York, worth \$5,000, constituting a portion of the plunder. The passengers were unharmed. The Governor offers \$20,000, the R. R. Co., \$5,000, and the Express Co., \$10,000 for the apprehension of the robbers.

PARIS, Dec. 8.—It is reported here that Don Carlos is negotiating with ex-Queen Isabella.

CORINTH, Dec. 9.—The Times Vicksburg dispatches say: "The fight was renewed at Snyder's Bluff, 10 miles from the city, last evening, between 700 negroes and 400 whites. A courier was sent to Vicksburg for reinforcements, which were sent out on the double-quick. After a short skirmish in which four negroes were killed and three wounded the blacks retreated. Last night the negroes drove the white pickets from the fort, and it is said have entered there. They are receiving large reinforcements from other counties, and at last accounts were marching on the city, driving the whites before them. They fired into a funeral procession and wounded one man. The fire was returned and three negroes killed.

CHICAGO, Dec. 7.—A Washington special says: The Republican Senatorial caucus yesterday considered the question as to whether the act of Vice President Wilson in resuming the chair would make it necessary to elect another President of the Senate pro tem, in case of the future absence of the Vice President. It was finally decided that no other elections would be necessary.

The question of removing Sergeant-at-Arms French was also discussed and decided negatively.

BOSTON, Dec. 9.—A portion of the American print works at Fall River burned last night. Loss, \$30,000.

WASHINGTON, Dec. 9.—A bill to provide for the extinguishment of the Indian title to the Black Hills reservation was introduced by McCrary and referred to the Committee on Indian Affairs. VICTORVILLE, Dec. 9.—Excitement is subsiding and business generally resumed. Armed bodies of Negroes are reported in various places out of town and the whites still guard their approach to the city. Gov. Ames issued a proclamation calling an extra session of the Legislature Thursday, Dec. 17th, to take action on the situation here.—Board of Supervisors to-day, accepted the resignation of Crosby. An election will be ordered soon. The recently stolen records furnished evidence of forgery and embezzlement by Sheriff Peter Crosby. The chancery clerk was H. Davenport, who all other Negro officials except Crosby, are under indictment.—The stolen records were found this evening in or under Davenport's house. Davenport is a fugitive.

New York, Dec. 9.—To-day's Tribune says the contract is to be signed to-day between the Union Pacific and Central Pacific Railroads and Occidental and Oriental Co., relative to the establishment of a new China line. Huntington will telegraph Bradbury to secure the necessary steamers abroad, one of which will ply between San Francisco and San Diego. They don't say how they expect to over-ride the existing laws and enable foreign bottoms to participate in our country trade, which slight omission causes the knowing ones to scoff at the whole programme.

C. Bradiagh publishes a letter saying that Wm. Ponn's heirs have for 70 years, and are still receiving \$20,000 an-

ual pension from the British Government as a reward for the unsuccessful endeavors of the Penn family to prevent the Americans from achieving independence.

OMAHA, Dec. 9.—King Kalakua and party were met by General Ord, Mayor and City Council a few miles out of city this afternoon, and were driven through town. At 4 o'clock the party started East. A salute of 20 guns was fired from the battery.

As the result of his first attempt, he was driven from Weinetta to Bernal, where, after three hours fighting with his troops in a disorganized state, he renewed the attack on Thursday with the whole force of 8,000 men and 4 guns. The Carlists had been reinforced and after an engagement lasting all day, Lomas was compelled to retreat. The Carlists admit their loss to be 300. It is believed the Republicans loss is much greater."

SAN FRANCISCO, Dec. 10.—Frank Curley, the young man who was stabbed last Monday night by Frank McAvoy corner of Harrison and 7th Streets, died last night at 8 o'clock in St. Mary's hospital of wounds inflicted on him. BERLIN, Dec. 9.—The Court before which Von Arnim will be tried will consist of Judges Reich, Giersch, and Orsounki.

New York, Dec. 9.—The efforts of Beecher's counsel to postpone Tilton's case against him, not only for the purpose of compelling a bill of particulars that will help the defense, but to prove the negative, which is necessary to his absolute triumph, by also compelling them to try the first suit of Monton on Miss Proctor's suit for libel, in which case both Beecher and Mrs. Tilton can testify, while she cannot in the suit against Beecher. Nobody doubts that Monton will be badly beaten on the libel suit, which would discredit him as a witness against Beecher, hence the Tilton parties are energetic in their efforts to postpone the case. The dignity and strength of Beecher's counsel in yesterday's discussion go far to antidote Tilton's charge of a desire to evade the trial and are satisfying the public that as prudent advisors his counsel have not the right to omit any safeguards in dealing with the unscrupulous.

New York, Dec. 9.—The argument on the motion by the judgment creditors for the appointment of a receiver of Mariposa Company is set for to-morrow. Mayor Vance has reappointed as Commissioners of Accounts, Home and Bond, summarily removed by Mayor Haverney before his death.

PROCE, Dec. 9.—Yesterday evening W. H. Henderson, County Recorder, who has returned from a trip to Panama, brings news of a horrible butchery of two white men, late citizens of Piche, and severe injuries to a third. It appears that a week ago three young men, Wm. Homan, Peter Danson and Chas. Olsen left here for Panamint on foot and reached Crescent Mills, about 15 miles beyond Hiko. They had become footsore and somewhat less hopeful of making the trip, so they determined to return to Hiko Valley and work among the ranchers to earn the means to prosecute the contemplated journey. They started to return to Hiko, and Homan, the

only survivor, says that they had reached a point seven miles from Hiko, when they met 9 Indians, members, it is supposed, of Pinte Bill's band. The Indians had a good many questions to ask, and their style and acting caused Homan to suspect something wrong. The Indians apparently wanted to lure them off the trail, Homan started on at a rapid pace, urging his companions to come with him. They did not appear to share his alarm and fell slightly behind. The Indians succeeded in separating the two hindmost men, and then made an attack, shooting them with arrows. Homan being the furthest away they used a rifle, wounding him in the shoulder. Luckily the bird did not disable him, and he continued his flight with all his remaining energy. He had a little start and kept it, though the Indians followed him five miles. He was successful in getting close to the settlements of Hiko Valley, when his pursuers left him. He made his way to the village, where he told the story. The whole settlement at once rose in arms. Parties were organized under Chas. G. Heath and Judge Wilson to go and search for the companions of Homan.—Homan described the place where the attack was made, and there the body of Peter Danson was found. It was only to be recognized by some of his clothes. The face was washed by rocks beyond all recognition with other frightful mutilations. The body of Charles Olsen was not found until next day. The Indians had taken it down the wash some distance and buried it. The same frightful mutilations were seen on this corpse as had been inflicted on the remains of Danson. The bodies were taken to Hiko and decently buried.

The watch was stolen from Lafayette while he was travelling in the United States, in 1825, but was recovered in later years. Presentation ceremonies took place at the Hotel of the American Embassy, in the presence of the entire Lafayette family and other attaches of the United States legation and many distinguished Americans.

WASHINGTON, D. C., Dec. 11.—Between 11 and 12 to-day, a large number of persons witnessed the reinterment in Grace Church yard near Silver Springs, the remains of 17 Confederate soldiers, killed in the attack on Washington near Banker Hill in July, 1864. Bishop Pinckney read a poem and Philip Cooke, who commanded in that engagement, delivered an address. In response to urgent requests from New Orleans that the President place troops in the State House, he is represented as saying that he would not act from apprehension of danger, but if violence occurred, he would take measures to suppress it.

CINCINNATI, Dec. 11.—A fire at Charleston, West Virginia, last night, destroyed all the buildings on both sides of Kanawha street from Fort to Anderson streets, including some 25 buildings and business places. Loss estimated at \$200,000; mostly insured.

New York, Dec. 11.—The Evening Post publishes the details of a distinct shock of earthquake half past 10 o'clock last night in the upper part of the city, along the Hudson up the harbor and at Stamford, Connecticut. Families were roused from their beds, crockery shaken lamps and globes broken, etc.

The suit of Tilton vs. Beecher, set for Monday next, has been postponed till the first Monday in the January term, it appearing satisfactory to the Judge that if it should have begun on Monday next, the trial would not close during the present term.

House Ways and Means Committee, Russell Sage, this morning, in regard to the alleged improper use of money by the Pacific Mail Co. to obtain the subsidy two years ago, stated that the books of company showed that checks were drawn in favor of Richard B. Arrangements are completed for the

reception of King Kalakua. A State dinner will be given next week.

CHICAGO, Dec. 11.—A Washington special says the main points of difference between the House and Senate Committee on the Liffie tariff bill are three: First, Senate will not agree to stand Weather's proposition, to tax stock dealers and brokers upon their sales. It is held that this tax could not be collected. Second, Senate opposes the proposition to permit producers of tobacco to retail to the value of \$100 per annum without special license.—This proposition comes from Daves. Third, Senate is opposed to 100 per cent. duty on hops, demanded by Wisconsin hop growers. These three propositions, incorporated in the bill by Daves when he saw without them it would fail, he did not favor them and would not have consented to them if he had not believed the Senate would strike them out.

Dr. J. Walker's California Vinegar Bitters are a purely vegetable preparation, made chiefly from the native herbs found in the mountains of the Sierra Nevada mountains of California, the medicinal properties of which are expressed therefrom without the use of Alcohol. "What is the cause of the suppurated masses of Vinegar Bitters?" "The cause is that they remove the cause of the disease and the patient recovers." "They are the great blood-purifier and a Hivesing principle, a perfect Bile-viator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of Vinegar Bitters in healing the effects of every disease." "They are a grand Purgative as well as being a powerful Cough-sifter or Inflammatum of the Liver and Visceral Organ, in Bilious Diseases.

The properties of Dr. Walker's Vinegar Bitters are Asthenia, Dyspepsia, Nausea, Laxative, Diuretic, Sedative, Counter-irritant, Stimulant, Alterative, and Astringent.

Gravel, Rheumatism, Gout, Biliousness, Dropsy, and all the most wonderful symptoms that ever sustained the sinking system.

No person can take these Bitters according to directions, and remain long unwell, provided their bowels are not deranged by an habitual poison or other means, and vital organs wasted beyond repair.

Biliousness, Rheumatism, and Intermittent Fever, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their tributaries, throughout our entire country, during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essential. There is no cathartic for the purpose equal to Dr. J. Walker's Vinegar Bitters, as they will expel all viscous and bilious matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying the blood with the Bitters. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Pain in the Head, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offspring of Biliousness. Dr. Walker's Bitters will prove a better guarantee of their merits than a lengthy advertisement.

Serofia, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Gout, Scrofulous Inflammations, Mercurial Affections, Old Sores, Eruptions of the Face, Corns, Etc., in these, as in all other constitutional diseases, Dr. Walker's Vinegar Bitters have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory or Chronic Rheumatism, Gout, Biliousness, Rheumatism, Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Pipe-fitters, Coal-batters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take Dr. Walker's Vinegar Bitters.

For Skin Diseases, Eruptions, Tetter, Salt Rheum, Itch, Scalds, Spots, Pimples, Pustules, Boils, Carbuncles, Ringworms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.
