HEROISM.—Heroism is of no country; and liberty is the best breeder of it everywhere. When Naples was ruled by the Bourbons the Neapolitan troops fought so badly that King Ferdinand replied to his son, who asked permission to change their uniform from the Russian white to the British red: "As you please, my son; dress them in white, dress them in red—they will always run away!" Now that the Italian soldiers, in the arms of an independent Italy, a Naples letter tells us this story: "One of the flags captured from the Austrians, in the late battle of June 24th, was taken by a young soldier of the Section Pendino at Naples. 'I can be killed now,' writes the young man to his parents, 'because the recompense voted by our municipality for acts of valor of the kind is sufficient to procure a provision for your old age.'

THE GERMAN.—The Baltimore Commercial very truthfully remarks that there is around the earth a girdle of German influence and German culture. Into whatever country or clime the Germans go, they carry with them habits, pastimes and traditions of Fatherland, to which they cling with unyielding tenacity. Everywhere they are welcomed, and everywhere they impress much of their national character upon the people with whom they take up their abode. In this country they largely influence our political as well as our social life. Generally industrious, law-abiding and intelligent, they are valuable accessions to any land.

A discovery of an important character is said to have been made in France, which will enable us to pass over the silkworm and go direct to the mulberry tree for our supply of silk. In the bark of the tree a fine textile substance exists, and Mr. Brunet has succeeded in reducing this to the fineness, durability and general appearance of silk. He is buying up bark for the purpose of producing large quantities of this new kind of silk.

We like a black eye. We like a blue one. We don't like a black and blue one.

The chasm that giddily separates old friendships—sarcasm.

The "Frost Flower" of Russia.

A Boston journal describes an extraordinary "frost flower" of Russia, which has been produced, it is said, in Boston, in a temperature of artificial cold. This wonderful plant, or rather flower, is found only on the northern boundaries of Siberia, where the snow is eternal. It was discovered in 1863 by Count Swinokoff, the eminent Russian botanist, who was ennobled by the Czar for his discovery. Bursting from the frozen snow on the first day of the year, grows to the height of three feet, flowers on the third day, remains in flower for twenty-four hours, and then dissolves itself into its original element—stem, leaves, and flower being of the finest snow. The stalk is about one inch in diameter; the leaves—three in number—in the broadest parts are one inch and a half in width, and are covered with infinitesimal cones of snow; they grow only on one side of the stalk, to the north, curving gracefully in the same direction. The flowers, when fully expanded, is in shape a perfect star; the petals are three inches in length, half an inch wide in the broadest parts, and tapering sharply to a point. These are also interlaced one with the other in a beautiful manner, forming the most delicate basket of frost-work that the eye ever beheld; for truly this is frost work the most wonderful. The anthers are five in number, and on the third day after the birth of the "flower of snow" are to be seen of the extremities thereof, trembling and glittering like diamonds, the seeds of this flower, about as large as a pin's head. The old botanist says, when first he beheld this flower "I was dumb with astonishment; filled with wonderment, which gave way to joy the most extatic on beholding this wonderful work of nature, this remarkable phenomenon of snow—to see this flower spring from the snow desert, horn of its own composit atoms. I touched the stem of one lightly, but it fell at my touch, and a morsel of snow only remained in my hand."—Gathering some of the flowers in snow, in order to preserve the little diamond-like seeds, he hied to St. Petersburg with, to him, the great prize of his lifetime. All through the year they were kept in snow, and on the first day of the year following, the Court of St. Petersburg were delighted with the bursting forth of the wonderful "frost flower." Our friends in Boston succeeded in obtaining several of the seeds, and all through the summer and autumn they have been embedded in in snow, brought at great expense from the White Mountains and the coast of Labrador; and they now have the most unbounded satisfaction and pleasure of announcing that all signs are favorable to the realization of their fondest hopes, the production of the "flower of snow." The snow and ice are in a large glass refrigerator, with the thermometer forty-five degrees below zero, and the solid bed of snow has already begun to show little fissures and a slight bulging in the center, unmistakable evidences of the forthcoming of the phenomenon.

A MANIAC FOR OVER HALF A CENTURY.—The Springfield Republican states that there is now living in Buckland Mass., a maniac named Josiah Spaulding, who has been confined in an iron cage for over fifty years, and for thirty years has not stood erect, till he has become so deformed that it is impossible to straighten his limbs by manual force. He refuses to be clothed, and will not suffer anything to remain on him, and is only kept warm in winter by warming the room in which his cage is placed. His human nature seems wholly to have deserted him; he is only a being of senseless existence. His father, Rev. Josiah Spaulding, was the first minister settled at Buckland, and this, his only son, was the only survivor of a premature triplet birth. During his boyhood and youth, he was indulged to the fullest extent, and though a dull and backward scholar, finally applied for admission to Williams' College, after the continued efforts and persuasions of his parents and teachers. He was unsuccessful in his application, and commenced a district school, which the symptoms of insanity soon compelled him to give up. His madness manifested itself in attempts to murder his father and mother, and he was chained for the safety of his family. After months of rubbing the links of his fetters against each other, he succeeded in freeing himself, when his first act was an attempt to murder his sister. Since then he has inhabited the cage in which he was kept, and his insanity has been growing more hopeless, until it is now utterly incurable.

CAUGHT WITH A "LIVING WIDDER."—The elder Mr. Weller was caught in railroad car with a widder. Here is his account of it: "It was on the rail," said Mr. Weller, with strong emphasis; "I was a goin' down to Brigham by the rail, and I was locked up in a close carriage with a living widder. Alone we was; the widder and me was alone; and I believe it was because we was alone and there was no clergyman in the conveyance, that ere widder didn't marry me afore we reached the half-way station. When I think how she began a screaming as we was going under tunnels in the dark—how she kept on fainting, ketching hold of me—and how I tried to burst open the door as was tight locked and prevented all escape. Ah! it was a awful thing—most awful."

ALF AND A.L.F.—The Humboldt Times has the following: Mr. W. T. Olmstead, of Hydleville, has in his orchard several apple trees the fruit of which is half sweet and half sour; that is to say, each apple is one side sweet, and the other side sour, the division line between the two being distinctly marked.

THE LEGISLATURE.—The last of the annual sessions of this body will convene at Olympia on Monday next. Hereafter the sessions will be held biennially, in accordance with the amended Organic Act of last Congress. The members of both Houses will, next year, be elected new throughout—the Representatives for one term or two years, and the Councilmen for two terms or four years. The election of the Legislature and that of the Delegate to Congress under the new arrangement, will henceforth take place together, once in two years, and we suggest, as a measure of economy well worth consideration, that the terms of office, and the time of election for all the county officers, be made to conform to the new order of things. Some of the county offices, we believe, are now held for two and others for three years, which system, if continued, will render annual elections necessary as hitherto, to fill a few county offices. If there is nothing in the Organic Act to prevent, it is surely desirable that all our elections should be held biennially.

STOPPED WORK.—The work on the Snoqualmie road has been postponed until next spring. With a few miles more—some eight or nine—connecting the different sections where the road has been made, we will have it completed well up to the summit of the Cascade mountains, so that a team can draw a wagon with an ordinary load over it with ease. It is certainly encouraging to know that so much has been done toward the completion of this much needed thoroughfare at last, though the interests of this section should have induced the making of it long since. Had it been done, this place would now be reaping the benefits of the trade of the Yakima Valley, as the stock raisers of that section would drive cattle over and ship them here for the Victoria and Lower Sound market, and returning, take their supplies of dry-goods, groceries, etc., with them, instead of getting them via the Columbia river. If we had that trade now, we would be better prepared to endure the present hard times.

The Revenue Cutter Independence, with Custom House officers, arrived at this port Thursday last.

Marine Intelligence.

PORT ANGLETS.—The following vessels have cleared from this Port during the month: Nov. 5, Siamese ship, Silas Greenman, for Hong Kong; 7th, British ship Vortigern, for Adelaide; 10th, Hawaiian bark Hanna Rea, for Honolulu; 12th, British ship Royal Tar, for Callao.

PASSENGERS BY THE JOSIE McNEAR.—The following passengers arrived by the steamer Josie McNear, at Seattle:

C. E. Hawley, J. Bigley, L. B. Chase, C. J. Nichols, J. Laugston, W. Ashbury, W. Berry, and two Kanakas.

BATHING IN SWITZERLAND.—At five o'clock each morning a bell is rung, for the bathers to repair to the baths, and then come one of the most whimsical scenes that can be imagined. The baths are great covered reservoirs, capable of holding from twenty to fifty persons, and into these the patients plunge, up to their necks in scalding water, where they remain no less than four hours at a time; and many of them twice a day. Men women and children enter the same tanks, swimming about at will or fixing themselves behind little floating tables, on which they take breakfast, or read books, or play games of dominoes and chess. It is necessary to relieve the tedium of so long an attention, to do something for amusement's sake, and the songs, the speeches, the raptures, the choruses, the roars of laughter, the shouts of applause that follow each other are endless. All the resources of French vivacity are brought into play to pass the time; and the effect of a half hundred heads, which is all you can see of the persons, thus variously engaged, is to the last degree droll. Why they are required to be kept so long in the water, the doctors must tell you; but you can easily conceive that four hours' immersion for twenty-five days together must be completely efficacious to either kill or cure the sufferer. But as no one is known to have been killed, and many are reported having been cured, the logical supposition is, that the bathing does good.

PROGRESS OF COLORADO.—Eight years ago, to-morrow, the first handful of white settlers sank their picks in the sands of Cherry Creek, in Colorado; and to-day that great and growing Territory commands a civilization second to no State in old New England. Its mines and mining enterprises have attracted millions and millions of American and English capital. Its late agricultural and mechanical fair was worthy of the Empire State. Its public free schools are respectable among the average in the Republic, and its scores of handsome churches are a glory to the great Far West. In either, or in all these features of true progress how meagre is this enslaved Mormonism of near three its age!—Salt Lake Vedette.

The officers of the army at Washington have formed an association to meet once a week at Willard's Hotel, to "smoke the peace and quaff the social glass. No politics allowed.

REDINGTON & CO'S

Essence of Jamaica Ginger.

This valuable preparation contain-

ing in a highly concentrated form

all the properties of the Jamaica Gin-

ger, has become one of the most

popular domestic remedies for all

diseases of the stomach and diges-

tive organs.

As a tonic it will be found invaluable

to all persons recovering from debili-

ty, whether produced by fever or

otherwise, for whilst it imparts to

the system all the glow and vigor

that can be produced by wine or

brandy, it is entirely free from the

reactionary effects that follow the

use of spirits of any kind.

It is also an excellent remedy for

females who suffer from difficult

menstruation, giving almost imme-

diately relief to the spasms that so

frequently accompany that period.

It gives immediate relief to nau-

sea, caused by riding in a railroad-

car, or by sea-sickness, or other

causes.

It is also valuable as an external

application for Gout, Rheumatism,

Neuralgia, etc.

PUGET SOUND WEEKLY.

MONDAY, November 26, 1866.

REMOVAL OF A CANCEROUS TUMOR.—A most critical operation was performed a few days since in our town, on an infant only six months old, in the removal from the upper eye-lid of a cancerous tumor by Dr. Robinson assisted by Dr. Canavan, after the repeated failures by other medical gentlemen—the operation being deemed most hazardous by them. The child is now doing well, which, considering the severity of the operation, is wonderful; and every confidence is expressed by the attending surgeon of its ultimate recovery.

The proprietors of the Occidental Hotel, in consideration of the hard times, have reduced their rates of board. It will be seen by reference to their advertisement that board and lodging can be had for six dollars per week, and board without lodging for five dollars per week. This Hotel is one of the best on the Sound, and the proprietors spare no pains to render it a popular resort for the traveling public. Give them a call.

The Custom House has at been moved back to Port Townsend. The citizens of that place can now rejoice over the consummation of an object they have for some time been laboring. It is now at the proper port for the convenience of all who are engaged in shipping to and from the Sound. We hope our neighbors of Port Townsend may realize all the advantages from its return they have anticipated.

DECLINED.—We have received a communication from Port Discovery complaining bitterly of the rather harsh conduct of the Revenue officers towards the writer. The complaint may or may not be well founded; but as there are always two sides to a story, and as we have as yet heard but one, we must decline complying with the request to publish the communication.

We call attention to the advertisement of the St. George Hotel, Victoria, in another column. Persons visiting Victoria can have entertainment unsurpassed by any hotel on the coast at the St. George. Mr. Holden leaves nothing undone for the comfort of his guests.

MURDERED.—An Indian was killed on Tuesday night last in this place by other Indians. The deed was done back of the harness shop, where the corpse was found Wednesday morning, with the roat cut and the body otherwise badly mangled.

The schooner Crosby arrived at this port on Thursday night last, from Portland, Oregon, with cargo of wheat for Mr. Charles Terry.

Sandwich Islands.

We have dates twenty-two days from Honolulu to Oct. 18th. On the 17th His Majesty left on the schooner Nettie Morrell, for Hilo via Labani. His suite consisted of fifty persons. A salute was fired from the Prussian frigate Veneta, and also from the Punch Bowl. The Captain of the Veneta had an audience with the King on the 15th. An ovation was to be given on the 22nd by the garrison residents of Honolulu to the officers of the Veneta. Her Majesty, Queen Emma, had not arrived, but was expected hourly. The Vanderbilt however was not due, having been out but sixteen days.

Great complaint is made of the scarcity of money in Honolulu. Many of the merchants have fore-layed for exchange for the whaling fleet.

Parties in the harbor have been trying the needle gun. The experiments were satisfactory.

CHARACTERISTIC.—The following is the conclusion of Mark Twain's advertisement for his lecture delivered in Grass Valley:

"SLEIGHT OF HAND, if desired to do so:

"At a given signal he will go out with any gentleman and take a drink. If desired, he will repeat this unique and interesting feat—repeat it until the audience are satisfied that there is no deception about it.

"At a moment's warning he will depart out of town and leave his hotel bill unsettled. He has performed this ludicrous feat many hundred times in San Francisco and elsewhere, and it has always elicited the most enthusiastic comments.

"At any hour of the night, after ten, the lecturer will go through any house in the city, no matter how dark it may be, and take an inventory of its contents, and not miss as many of the articles as the owner will in the morning.

"The lecturer declines to specify any more of the miraculous feats at present, for fear of getting the police too much interested in his circus."

The custom of calling a man's wife his lady has been commented upon to render it familiar. One day at the Navy Yard, when something special was going forward, the sentinel had positive orders to admit no one. During the day the wife of one of the officers came to the gate, intending to enter the yard, but the sentinel obeying the orders, cried out—

"Karn't pass, Marm."

"But, sir," replied she, "I must pass. I'm Captain W—'s lady."

"Karn't help it Marm—could not let you in if you were his wife, Marm."

One of the sons of General Sutter, who was appointed United States Consul at Acapulco, having been suspected by the French forces of intriguing with the Republican party, was on the point of being arrested, when he escaped from the city and skedaddled to the enemy; since which time nothing has been heard of him.

The difference of time between the extreme east and west points of the United States (say between Cape Cod and Cape Mendocino) is three hours and fifty minutes. In the China Sea, between Singapore and China, it is midnight when it is high noon at New York city.

A HAUNTED HOUSE.—The San Francisco Golden Era says:

There is said to be a haunted house on Telegraph Hill. We have the number, but do not mention it, presuming that the proprietors would not regard us with a mild and Christian spirit for advertising their property in this manner. Two families have moved in and moved out again, disturbed by strange and unaccountable sounds and appearances. Steps have often been heard ascending and descending the stairs with no visible boots, feet or shoes. Noises in the closets and among the crockery, and apparitions are among the other manifestations. A lady, while standing before the glass, saw behind her the figure of a man, coming in a manner that no earthly man had any business to come. The ghost hunting and ghost loving members of the community are advised to apply and rent the premises. Ghosts are not much feared now-a-days. They are quite useful members of the community at times. A few years more and they will become prominent and respectable members of society. They will leave off the cavorting and cutting up in old houses to the terror of tenants and ruination of landlords. For you cannot get a cent of rent out of a ghost. They pay no water nor gas bills or poll taxes. Their earthly or unearthly expenditures are smaller than those of the Emperor Norton. It must be a great relief to be a ghost in these hard times when living and dying are attended with so much expense.

VIGILANCE COMMITTEE MAN IN TROUBLE.—In New York City, Oct. 1st, a sheriff's officer arrested George H. Goddard, an alleged secessionist vigilance committee man of Arkansas, on a warrant issued by Justice Clarke, of the Supreme Court, on the complaint of William M. Newman, of the firm of Friedberger & Newman, New York. From the testimony in the case, it appears that in 1861 the complainant was doing business at Camden, Arkansas. When the rebellion was inaugurated a vigilance committee was formed at Camden, of which the prisoner was a member. In May, 1861, 100,000 stand of arms on the way to Arkansas, were seized in Cincinnati, which fact, when it became known to the prisoner, he, with others, sought to retaliate on the storekeepers in Camden and vicinity who were thought to have Union sentiments. Among the victims to their proceedings of confiscation was Mr. Newman, whose entire stock of goods, worth \$20,000 was seized and the property turned over to the Confederate government. The prisoner was ordered to find bail in the sum of \$50,000, or stand committed to await the process of a civil action.

SAVING LIFE AT FIRES.—The New York Times relates the following expedient which was resorted to, to rescue a family from a burning building. The terrible calamity which occurred in Avenue A on Sunday morning has afforded a valuable suggestion as to the best and most practical means of saving life in case of fire. The Hariz family, who occupied the fourth floor of the burning building, were all saved by means of a couple of beds and some bed clothing which were placed on the sidewalk, on which Hariz and his family jumped from a fourth story window. Had this simple expedient not been resorted to, there is very little doubt that the whole family would have perished in the flames.

A great many side hits are being made at the Plantation Bitters, by a score or two of disinterested friends who have endeavored to imitate or counterfeit them. It's all of no use. The people won't be long imposed upon. The Plantation Bitters are increasing in use and popularity every day, and "that's what's the matter." They are in the same sized bottle, and made just as they were at first, and will continue to be, or we shall stop making them.

The Plantation Bitters purify, strengthen and invigorate.

They create a healthy appetite.

They are an antidote to change of water and diet.

They overcome effects of dissipation and late hours.

They strengthen the system and enliven the mind.

They prevent malarial and intermittent fevers.

They purify the breath and acidity of the stomach.

They cure Dyspepsia and Constipation.

They cure Diarrhea, Cholera and Cholera Morbus.

They cure Liver Complaint and Nervous Headache.

They make the weak strong, the languid brilliant, and are exhausted nature's great restorer. The Bitters and full Circle are around each bottle. Clergymen, Merchants, and persons whose sedentary habits induce weakness, lassitude, palpitation of the heart, lack of appetite, distension after eating, liver complaint, constipation, &c., will find them a safe and permanent relief in these cases. But above all, they are recommended to weak and delicate females and mothers.

They are sold by all respectable merchants. See that each bottle has our private United States Stamp over the cork and seal-plate side label.

Beware of cheap bottles. See that the stamp has not been tampered with. Any person pretending to sell Plantation Bitters by the gallon is a swindler and impostor, and should be immediately reported to us.

J. L. DOWNING.

Montgomery, Ala. June 17, 1859.

I like pleasure in recommending the Mexican Mustang Liniment as a valuable and indispensable article for Sprains, Sores, Swellings of Calfs on Horses. Our men have used it for Burns, Bruises, Sores, Rheumatism, &c., and all say it acts like magic.

J. W. HEWITT.

For sale at American, Wells, Fargo's and Harding's Express.

"The sprain of my daughter's ankle, occasioned while skating last winter, was entirely cured in one week, after she commenced using your celebrated Mustang Liniment."

ED. SEELY.

Gloucester, Mass., Aug. 1, 1865.

It is an admitted fact that the Mexican Mustang Liniment possesses more cures in shorter time, on men and beasts, than any article ever discovered. Families, every man and planter should always have it on hand. Quick and sure it certainly is. All genuine is wrapped in steel-plate envelopes, bearing U. S. Stamp of DEMAS BARNES & Co. over the top.

An effort has been made to counterfeit it with a cheap stone-plate label. LOOK CLOSELY.

Lyon's Katharion.

It is a most delightful Hair Dressing. It eradicates dandruff. It keeps the hair cool and clean. It makes the hair rich, soft and glossy. It prevents hair turning gray and falling out. It restores hair upon prematurely bald heads.

This is what Lyon's Katharion will do. It is perfectly safe, cheap, and durable. It is literally sold by the candle, and yet its incredible demand is almost daily increasing, until there is hardly a country store that does not keep it, or a family that does not use it.

CAUTION—See that the private U. S. Stamp of Demas, Barnes & Co. is over the cork of each bottle. None other is genuine.

Lyon's Flea Powder.

DEATH TO FLEAS!—It is well known that Lyon's genuine Flea Powder will perfectly destroy every kind in the shape of Fleas, ticks, bed-bugs, roaches, &c.; that it is perfectly poison to the insect life, but entirely harmless to the human species, and domestic animals. The genuine has the signature of E. LYON, and the private stamp of DEMAS BARNES & Co. Anything else of this kind is an imitation or counterfeit. Any druggist will procure the genuine if you insist you will have no other.

MEDICAL INSTITUTE

ESTABLISHED BY DR. J. C. YOUNG IN 1850. 636 Washington Street, Below Montgomery, San Francisco, California.

Consultation by Letter, or otherwise, Free.

It would be equally useless and unnecessary to enumerate here the diseases cured at the Institute. All classes of complaints are treated; but I consider it my duty to mention those of a special nature, as upon such the unfeeling and irresponsible quack dwells, with phrases well calculated to deceive those ignorant of the emptiness of his profession.

Seminal Weakness.

I am aware that by dwelling upon an unwholesome subject as the decay of manly vigor through the loss of the vital principle of life, the ignorant man asperses my motive; but the desire to point out to those who suffer, languish in a "leaky" state, the true cause of their affliction, is too great an incentive to be forced into abeyance. How extended the terrible disease of Seminal Weakness is, no one but the practical specialist who devotes his time to its treatment can tell; but its presence can be detected by the most inexperienced by noting the following symptoms: Weakness of the back and limbs; languishing feelings; loss of muscular power; nervousness; irritability; cold feet and hands, accompanied by hot head; symptoms of consumption, short breath; flushings of the face; aversion to society; confusion of the mind; loss of memory; nightly emissions; colorless, slight discharges upon the least excitement; trembling; palpitation of the heart; irregular appetite; variable temper, etc.

Young men, if you experience any of the various symptoms enumerated above, pause to consider. The present is the golden moment in which you may secure health and happiness. You may feel strong now, but if you have ever practiced the vice of self-abuse even in the slightest degree, you have the seeds of the weakness in your system, and their undermining influence will, sooner or later, dash the fair edifice of your strength to the ground, leaving you a helpless, abject being. It is not a disease that declares itself at once. Therein lies its great danger; for while the patient is being treated for some supposed affection of the heart, lungs, brain or digestive functions, he sinks into a general debility that soon adds him to the list of the victims of the terrible disorder, Seminal weakness. See in the best form and languishing steps, the poor victim of that fascinating vice. Mark the course of the destructive complaint in the hollow cheek and dull eye. Drowsiness is one of the premonitory symptoms. At first it is easily shaken off, but it grows eventually into a great disinclination to pursue his regular business. The mind becomes apprehensive, and restless nights succeed days of depression. It is the nature of the complaint to assume sudden changes that leave the poor victim but little hope of recovery. In a single instant it may withdraw your fond hopes and blast your honest aspirations. Marriage is sought by a natural impulse as a hope of relief. This is an error of the first magnitude, for the system, unprepared for the exigencies of the occasion, suddenly fails, and he finds himself in a deplorable condition, from which there is but the slightest hope of recovery. Or if the marriage should result in offspring, they are peevish, distorted, decrepit and degenerate.

The Records

of our Institutions for the safety of those who are afflicted with mental troubles, bear fearful testimony of the wide spread and disastrous influences of this dreadful complaint—but such notices as the following, that hardly at the time arrest the eye, give to the world the only intelligence it has:

Insanity.

Sent to the Insane Asylum.—The following insane persons were examined yesterday by Judge Blake, of the probate court, and sent to the Insane Asylum at Stockton: T. W. Plummer, native of Maine, aged 21 years, single, and by occupation a farmer. His malady appeared about five months ago, and is the result of secret vice. John Wall is another victim of solitary habits.—San Francisco Call, Oct. 12, 1866.

Yet the quotation speaks for itself in unmistakable language. It points out with unerring facility to every person afflicted with seminal weakness, one of the ultimate ends of that degrading complaint. At any time before reason became unseated, these poor victims had they read the warning and followed its advice, might have been saved. Let others, similarly afflicted, who have not yet passed the barrier where all hope is left behind, take warning by their untimely fate, and seek that relief which alone can secure them life and happiness. Consult then, at once, a physician whom long practice and research has made thoroughly conversant with every disease; one who will sympathize with your sufferings, giving to each and all assurance of a perfect and permanent cure, without hindrance from business, change of diet, or fear of exposure, or ask compensation for their trouble, and in whose secrecy the utmost confidence can be reposed.

An unsolicited Testimonial of Cure.

Let all who are afflicted with Seminal Weakness read the sworn to certificate first published without the Doctor's knowledge. A remarkable case. [Revenue stamp] This is to certify that I was afflicted with Seminal weakness to a degree that brought on severe fits. The trouble commenced about three years ago, when I first learned that the practice of self-abuse was ruining me. I was all nervous tremor of the limbs; pain in my back, and trouble

my mind, a confusion and loss of memory, and other debilitating symptoms of seminal weakness. I gradually grew worse and worse until finally the fits came on. At first I only had a momentary loss of mind, a dizziness. This grew worse, until in a short time, I would remain in a confused state—for some time after I had them in my sleep. I was satisfied that I must be cured, or I would perish miserably in one of the attacks that now became as frequent as twice or three times a day, seizing me without warning and prostrating me to the earth, where I would remain for an hour insensible. I lost all recollection of persons and things. I could remember nothing for two minutes, but my great suffering, I swallowed bottle after bottle, and box after box of patent medicines. Nothing did me good. In despair of ever being well, I prayed for help, but I was not to die for help was at hand. My friends visited the Dr. J. C. Young Institute, and I was placed under the care of Dr. Benj. F. Josselyn. I very soon experienced a change; I grew better and better, and I could go to work. My mind became clear; the fits grew lighter; I was soon perfectly free from them, and now, for over two months I have not experienced them at all. All the symptoms of seminal weakness are gone, and I feel as well as I ever did. It is to DR. BENJ. F. JOSSELYN that, under God, I owe my life; and from the gratitude I owe him, I give this, my testimony of his skill and success. If this should induce any one unfortunately afflicted with seminal weakness to submit their case to him, I shall feel that I have, in part at least, paid the great debt I owe.

BENJ. BROWN. [Seal] [Revenue stamp] Subscribed and sworn to before me this 1st day of December 1864. [Notarial seal] W. O. ANDREWS, Notary Public.

Important to Persons

afflicted with Venereal: There are no maladies worse than those arising from the contamination of venereal poison. None are more terrible in their effects, or more disastrous in their results. After upwards of twenty years' practice in diseases of a private nature—afflictions which have been in this city—I unhesitatingly declare that Mercury will not cure Venereal, but drives it on the surface, to allow it to poison the blood, to reappear in skin eruptions upon the body, and in the throat, mouth and nose. Those who have had any form of Venereal, and were treated with mercury were not cured, but they still have the festering virus lingering in the system and feeding upon the delicate tissues, to be communicated to the wife or transmitted to the children. As terrible as it is in the person who contracts it, it becomes of still greater importance when transmitted to innocent offspring; whose sore heads, cankered mouths, diseased limbs, running eyes and blotched skin are the constant reproaches to the sins of the parent. Be warned in time and secure health by applying at the Dr. J. C. Young Institute. The Doctor effects a cure in recent cases in a few days, and finds no difficulty in curing those of long duration, without submitting the patient to such treatment as will draw upon him the slightest suspicion, or oblige him to neglect his business, whether in doors or without. The diet need not be changed. Care always guaranteed or no pay required. Only purely vegetable remedies used.

Important to Females.

When a female is in trouble or afflicted with disease, and requires medical or surgical assistance, the inquiry should be, "where is there a physician who is fully competent to administer relief, and whose respectable standing in society recommends him to the confidence of the community?" The Doctor, understanding how imperatively necessary these requirements are, feels called upon to interpose, and by calling the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Female Diseases for 20 years, and is fully qualified to administer in all cases, both medically and surgically, not in a superficial manner, but in a thorough manner as years of study and practice—both in hospitals and private families—can make, to save them from the hands of the unqualified, unscrupulous and designing. Therefore, families can rely upon him as upon a father. All in affliction can find in him one who can feel and sympathize with and befriend them in trouble—one in whose secrecy the utmost confidence can be placed. Consultation, by letter or otherwise, free. See address below. The celebrated female remedies compounded from the private prescriptions of Dr. YOUNG, have now obtained a most extensive popularity, and are correctly viewed to be the safest and surest remedies for the complaints for which they are applied. The constantly accruing testimony of efficacy declare them to be pre-eminently superior in their action. No lady should be without these renovating agents. None genuine unless prepared at this office. Sent by mail or express to any part of the State. The Great Female Medicine—Preventive Pills for married ladies. New, safe and infallible, lasting from four to six months. Price 50c. French Laxative, or Female Monthly Pills, for suppressions. After fifty years of use these pills stand unrivalled in efficacy. Price 50c per box.

To Correspondents:

Persons in the interior are often deterred from consulting the Doctor because they cannot spare the time or incur the expense of a visit to the city. To such he would say that a plain statement of the symptoms and information bearing upon the complaint will enable him to prescribe for them so that they can be cured at home. None need have any false delicacy about writing, no matter what the nature of their complaint, as the communication will be seen only by the Doctor, and will be treated with the utmost confidence, and either returned or destroyed. WE THINK THERE IS

no Medicine so efficacious in removing humors from the blood as SCOVILL'S BLOOD & LIVER SYRUP. It is recommended by Physicians in all parts of the country, for the cure of Scrofula, and other diseases of the Cuticle. Pimples or Sores indicate that the system is out of order. Unless something is done to cleanse the blood of these impurities, the result may be a more serious disease, such as Scrofula, Syphilis, etc. Those who wish to find a most efficacious remedy, and yet have no confidence in Patent Medicines generally, will never regret a trial of Scovill's Blood and Liver Syrup. FRENCH MEDICAL OFFICE.

DR. JULIEN PERRAULT, Doctor of Medicine of the Faculty of Paris, Graduate of the University, Queen's College, and Physician of the St. John Baptist Society of San Francisco.

DR. PERRAULT has pleasure to inform patients, and others seeking confidential medical advice, that he can be consulted daily at his office, Armory Hall Building, North-East corner Montgomery and Sacramento streets, San Francisco. Rooms No. 9, 10, 11, first floor, up stairs, entrance on either Montgomery or Sacramento streets.

DR. PERRAULT'S studies have been almost exclusively devoted to the cure of the various forms of Nervous and Physical Debility, the results of injurious habits acquired in youth, which usually terminate in impotence and sterility, and permanently induce all the concomitants of old age. Where a secret infirmity exists involving the happiness of a life and that of others, reason and morality dictate the necessity of its removal, for it is a fact that premature decline of the vigor of manhood, matrimonial unhappiness, compulsory single life, etc., have their sources in causes, the germ of which is planted in early life, and the bitter fruit tasted long afterward: patients, laboring under this complaint, will complain of one or more of the following symptoms: Nocturnal Emissions, Pains in the Back and Head, Weakness of Memory and Sight, Discharge from the Urethra on going to stool or making water, the Intellectual Faculties are weakened, Loss of Memory ensues, Ideas are clouded, and there is a disinclination to attend to business, or even to reading, writing or the society of friends, etc. The patient will probably complain of Dizziness, Vertigo, and that Sight and Hearing are weakened and sleep disturbed by dreams, melancholy, sighing, palpitations, faintings, coughs and slow fever; while some have external rheumatic pain, and numbness of the body. Some of the most common symptoms are pimples in the face, and itching in different parts of the body. Patients suffering from this disease, should apply immediately to DR. PERRAULT, either in person or by letter, as he will guarantee a cure of Seminal Emissions and Impotence in six to eight weeks.

Patients suffering from venereal diseases in any stage, (Gonorrhoea, Gleet, Strictures, Bubo Ulcers, Cutaneous Eruptions, etc.), will be treated successfully. All Syphilitic and Mercurial Taints entirely removed from the system.

DR. PERRAULT'S diplomas are in his office, where patients can see for themselves that they are under the care of a regularly educated practitioner. The best references given if required.

Patients suffering under chronic diseases, can call and examine for themselves. We invite investigation; claim not to know everything, nor to cure everybody, but we do claim that in all cases taken under treatment we fulfill our promises. We particularly request those who have tried this boasted doctor, and that advertised physician, still worn out and discouraged, to call upon us. Low charges and quick cures. Ladies suffering from any complaint incidental to their sex, can consult the doctor with the assurance of relief.

FEMALE MONTHLY PILLS.

DR. PERRAULT is the only agent in California for DR. BIOT'S Female Monthly Pills. Their immense sale has established their reputation as a female remedy, unapproached, and far in advance of every other remedy for suppressions and irregularities, and other obstructions in females. On the receipt of five dollars, these Pills will be sent by mail or express to any part of the world, secure from curiosity or damage.

Persons at a distance can be cured at home, by addressing a letter to DR. PERRAULT, corner of Sacramento and Montgomery streets, Rooms 10 and 11, or Box 973, P. O. San Francisco, stating the case as minutely as possible, general habits of living, occupation, etc., etc. All communications confidential. no 17-ly
