Boot and Shoe Shop

THE UNDERSIGNED have just received a large assortment of the best French calf and kip leather that was ever exhibited in Seattle, suitable for making from the finest to the heaviest dress boots.

We have also on hand a large supply of Santa Cruz Sole Leather, Philadelphia kip and California kip.

Cash Prices:

Best fine boots, French calf, sewed, with Napoleon top \$13 00
Best ditto without Napoleon top, 12 00
" pegged, with " 12 00
French Kip, " " 11 00
" without " 10 00
Good coarse Kip, with top, 9 00
" without " 8 00
Shoes, or boys boots in proportion.

All our work is warranted to give satisfaction.
Please give us a call and examine our stock.
Shop on Commercial street, opposite Mr. Horton's store.

WOLD BROS.

P. S. All persons wishing to purchase Good Leather are requested to give us a call, as we now have on hand and are constantly receiving from San Francisco, new supplies of French Calf, California Kip, and Santa Cruz Sole Leather. no42-1f
Seattle, Jan. 5th, 1867.

SEALY'S SEED WAREHOUSE,

317 Washington Street,

Between Battery and Front.

Garden Seeds.

Fresh Supplies of the New Crop received by every steamer, from the most reliable sources in the East and Europe, making the largest and most complete stock of seeds on this Coast.
The undersigned offers, at wholesale or retail, the following varieties of:

GRASS AND CLOVER SEEDS:

Ky. Blue Grass; Eng. Rye Grass; Red-Top Grass; Mixed Lawn Grass; White Clover; Red Clover; Alfalfa, best quality; Millet; Timothy or Heardsgrass, etc. etc.

BULBOUS ROOTS:

Hyacinths, assorted; Tulips, assorted; Crocus, assorted; Crown Imperials; Jonquills; Lily of the Valley; Tuberoses; Gladioli; Anemones; Narcissus; Iris, Ixia, etc.

FLOWER SEEDS, OF GREAT VARIETY.

ALSO

PRUNING AND BUDDING KNIVES.

and a general assortment of

Garden and Agricultural Implements.

Our Annual Catalogue will be ready for distribution about the middle of December. Orders by mail or express will receive prompt and faithful attention. Address,

GEO. F. SILVESTER,

Seedsmen,

317 Washington Street, Between Battery and Front

VALENTINES NOW READY.

Appleton's Catalogue and Price List mailed to any address.

D. E. APPLETON & CO.

Booksellers and Importers of Gold Pens and Pocket Cutlery, 508 Montgomery St. San Francisco.

At a recent sale of properties in Surrey, belonging to the estates of Overend, Gurney & Co., bankrupts, the place called Cornmorgers, mansion and park, and about 162 acres, brought £50,500; Homedale, with house and stabling, 50 acres, £19,500; Court Lodge, 9 acres and a house, £5,500; certain farms, 148 acres, £15,000—total 369 acres, £80,500, equal to \$402,500, or nearly \$1,100 per acre. "The model farm fetched upward of twenty thousand pounds"—quantity of land not given. "The Nutfield property brought nearly £150,000." These exorbitant prices of land, with the moderate prices of farm produce, show that the proper wages of labor is merged in the price of land; just as in our Southern States the proper value of land was absorbed in the cost of slaves that had to be purchased to till it.

It shows, further, the complicated process which will be required in the social reconstruction of England, whereby the land monopoly is to be broken up, the landlord system abolished, the farmers to own the land they cultivate, and the laborers become intelligent and independent voters, continually looking forward with the hope of becoming themselves the owners of the land. Universal suffrage, universal education, the abolition of primogeniture and entails, the statute of distribution extended to all property, the elevation of the morals of the masses, will be mightily accelerated in their effects by a large emigration of the working classes, which will raise the labor to some proportion to the price of land.

The act to admit Nebraska into the Union prescribed as a condition of such admission that the Legislature of the State should enact that there should be no abridgment or denial of the elective franchise, or of any other right by reason of race or color. The Legislature passed an act in fulfillment of this condition, and the President thereupon issued his proclamation declaring Nebraska a State in the Union. This action has, of course, been characterized as "unconstitutional" by many persons, but there is, at least, one precedent for it. Reverting to the democratic times of 1820 and '21, when Missouri was admitted into the Union, we find that a condition was imposed by Congress, preparatory to her admission, to the effect that a certain clause in her constitution should not be construed to deprive colored people of any privileges they were entitled to under the Constitution of the United States. The Legislature consented to the restriction, and Missouri was admitted. So this proceeding in the case of Nebraska is not so novel after all.—Oregonian.

The project of an Agricultural Aid Society is broached in California. The idea is to loan men of small means, but who yet have not enough to establish themselves in the business of farming, a sufficient sum to enable them to make a commencement. After the first crop is harvested the borrower would be required to pay the interest on the sum advanced by the Society. At the end of the second year he would be required to begin repaying the principal by small installments. It is argued that such a Society would enable many persons to avail themselves of the benefits of the Homestead Law who are now deterred from doing so lest they might not be able to obtain immediate returns for the support of their families. The land would afford security to the Society for the money advanced to the occupant.—Oregonian.

A Hit.—At Oxford, some twenty years ago, a tutor of one of the colleges limped in his walking. Stopping one day last summer at a railway station, he was accosted by a well known politician who recognized him and asked if he were not chaplain of that college at such a time, naming a year. The Doctor replied that he was. "I was there," said his interrogator, "and I knew you by your limp." "Well, it seems that my limping made a deeper impression on you than my preaching," said the Doctor. "Ah, Doctor," he replied with ready wit, "it is the highest compliment we can pay a minister to say that he is known by his walk rather than by his conversation."

A recent decree of the Brazilian Government opens the great river Amazon to the trade of all nations. It is computed that the valleys of this great stream and its tributaries contain not less than 2,500,000 square miles. Therefore the valley of the Amazon is larger by more than a million square miles than the valley of the Mississippi. At no distant day this great South American valley will be the seat of a populous and powerful empire.

It is stated in the Idaho papers that a prize fight is to come off at Boise City on the 10th inst., between Dwyer and Redman for \$500 a side. Hope both of them will get their full money's worth in pounding and mauling.

The Lewiston Journal estimates that within the boundaries of the proposed new Territory of Columbia, comprising northern Idaho and a portion of Washington, there are above one million acres of arable land.

Illinois has purchased from Mrs. Douglas the lot of ground on which the remains of Stephen A. Douglas were buried, paying therefor the sum of \$25,000.

A RARE INSTANCE OF GENEROSITY.—Henry Ward Beecher related the following incident in one of his late sermons:

Not long ago a gentleman who was engaged in the coal oil business had made some \$12,000 or \$16,000, and he concluded he had made enough—extraordinary as it may seem—and that he would wind up his affairs and come home. I do not believe one of you would have done it. \$15,000! Why, that is just enough to bait the trap of Mammon. Well, he wound up his affairs, and was on the point of leaving when he was met by a young man of his acquaintance (I believe they both live in New York) who had invested \$6,000, all he had, in an experimental well, and had been boring until he had given out in discouragement. Coming to this man, he said: "I shall lose \$6,000 if I am obliged to give up my interest in the well," and begged him to take it off his hands. "I am selling out and not taking on," said the man. But the young man pleaded with him, and out of personal kindness he said, "Very well, I will take it." In two days they struck a vein in this well, and he sold his share for \$200,000. The young man was present when the check was drawn on New York for the amount, and he felt like death, and mourned and said: "It is always my luck; I am always just too late." And the man said, "You may take \$10,000, if you want it." The young man thought he was jesting, but he assured him he was not, and said, "I will make it twenty thousand if it will do you any good. Or," said he, "the whole of it—I do not want it. Give me \$6,000 and you may have the advantage of the good luck." And so he gave the young man the advantages of the \$200,000. All of you who would have done that may rise up.

A traveler gives the following account of the "Zamang," a tree belonging to the sub order Casapiace, which he saw in Venezuela, South America:

Its head is somewhat the shape of an open umbrella, and covers very nearly an acre of ground. In 1857 I measured its head in its greatest diameter from east-southeast to west-northwest, most carefully, and found it to be 206 feet and 11 inches. Fifty years previous it was found by Humboldt to measure in its greatest diameter 192 feet, French measure, which is equal to about 204 feet 6 inches, English. Hence we see that this extraordinary tree has, within fifty-seven years, increased the horizontal diameter of its head only by two feet six inches, by which we may infer that it is of a good old age. The natives assert, moreover, that as far back as the discovery of the country by the Spaniards, three and a half centuries ago, the Zamang was even at that early day reputed for its enormous size. At the time I saw it it was but thinly covered with leaves, and seemed to lack vigor of growth. The natives hold it in high veneration, and it was against the law to break the smallest twig from it.

An important decision has just been rendered by the Court of Appeals of the State of New York, in which the long mooted and much vexed question as to the assignability of the right of action to set aside fraudulent conveyances is determined. The suit has been pending for over thirteen years, mainly on the question as to whether the right of action to set aside a fraudulent conveyance was or was not assignable. The Referee, the late Judge Kent, decided in the affirmative, and gave judgment for the plaintiff, who brought the suit as assignee. Appeal was taken to the General Term of the Supreme Court, where a full Bench decided that the right of action was not assignable, and reversed the Referee's decision on that ground alone. The plaintiff then took it to the Court of last resort, and that tribunal has now determined that such a cause of action is assignable, thus reversing the decision of the Supreme Court at General Term, and affirming that of the Referee.

Brigham Young is urging the Saints to set up manufactories. He presses the matter in this novel way: "Why should not silk be produced and manufactured here. If a man was worth a million dollars in the kingdom of God, and had the spirit of the Lord, and was told to get worms and make silk, he would not say a word or ask a question, but would do as he was desired. So he would do if told to go and buy machinery. The earth is the Lord's, and He is going to give it to His Saints; and if we are faithful we shall inherit all things." It must be owned that this is combining religion with business in an eminent degree.

The cost of publishing the New York Tribune during the year 1866 was \$855,158 39. The receipts for the same period amounted to \$909,417 89, showing a profit of only \$24,259 50. The profits of the year 1865 amounted to \$170,429 86. The difference is caused by the increased cost of printing paper, telegraphing, &c.

The freight on flour from San Francisco to New York, via Panama, is about \$3 per barrel. Wheat, in sacks, about 1 1/2 cents per pound.

George Peoples, the celebrated bareback rider, died of cholera in Texas.

A CHILD MARRIED.—We learn from a correspondent at Belmont, says the Reese River Reveille of the 4th ult., that a marriage took place there on the 31st of January which produced considerable excitement. A man named Frank M. Main was married to a little girl of thirteen without the consent and contrary to the wishes of her parents. The parties were married by S. J. Davis, Justice of the Peace. On the morning of the day following the marriage the father of the child missed her, and suspecting the cause of her absence, he went to Main's cabin with another man, where an altercation took place between him and his son-in-law, and shots were exchanged without damage to either party. While this was going on the man who accompanied the father seized the child-wife and carried her home to her mother. Main, the husband of the child, entered a complaint against Ellis, and Justice Davis caused him to be arrested. But it appears the residents of Belmont—among whom are full grown men, husbands, fathers and brothers—rose en masse, and going to the house of the parents, rescued the child wife and restored her to her husband, when a procession was formed, and the parties paraded through the town amid repeated cheers and the approving notes of the team whistle of the quartz mill. Subsequently the man Main withdrew his complaint—we presume an assault with a deadly weapon—and the Justice of the Peace discharged the father.

SUFFERING IN NEW YORK.—The New York correspondent of the Sacramento Union states that there is a vast amount of suffering in the metropolis at the present time. We give an extract from the letter:

Here we have no wheat or flour to spare, and we expect to hear as the result of the recent intelligence from London of one of those operations among moneyed men and speculators for which New York is famous, and by which prices will be advanced to the verge of starvation. And this is the view in which the subject becomes serious to us. Our city is already moved as it never was before, by the daily increasing distress and destitution among the poor, all accounts agree that there never was so much want, and unusual efforts are being made and extraordinary plans projected for the relief of the needy, especially among the women. A rise in breadstuffs would seriously augment our troubles, and such a rise is predicted.

From the state of affairs in the East it is to be feared that worse than this is still to come. Factories are rapidly closing, employes are losing their places, and necessities of life are enormously high. "Hard times" is the general rule in all the Eastern and Mississippi Valley States.

A STRANGE STYLE OF DOING BUSINESS.—We learn from the Saturday Review that there has sprung up in Paris a company whose object is rather novel. It is called the *Mogasin Reunis*, and is erecting enormous edifices for the sale of goods on a new principle. This principle is simple enough. "Buy, and your money will be returned." Your expenses of to-day will become your fortune in the future. But how, in the name of wonder? Well, you purchase something for five pounds, paying cash for it, and you receive an "obligation warrant" from the company promising to repay you five pounds at some future date—possibly to-morrow, but certainly within fifty-nine years. The theory of course is that an article sold for five pounds will cost the company about three, and that the two pounds gained will fructify so as to meet the obligation warrant some time or other.

THE CONFIDENCE GAME.—The traditional "confidence man" is about. Look out for him. He went on board one of the steamers plying from this city the day before yesterday, and struck the steward for a watch trade, representing that he was hard up and wanted to raise a little money. He finally offered to trade a fine looking gold watch for a silver one of the steward's and \$15 to boot. The steward bit; handed over his genuine silver watch and \$15 coin, and took the gold watch, thinking he had made a stunning trade—and so he had; but 'twas the steward who was stunned, when he found next day that his "\$15 gold watch" was simply the basest sort of brass, with works worth about six bits.—Oregonian.

MUST TAKE CARE OF THEM.—Jones was traveling with his wife, and (for a freak) was so gallant in his behavior to his *craie* *posse*, that Madam became uneasy and remonstrated against his attentions as too marked for public observation. "The d—l," said Jones, "we are married, I suppose!" "Yes," said the lady, "but judging by your deportment, folks will think we ain't!" "Well, what of it," said Jones. "Why, not much, certainly, for you," said the careful dame—"you are a man; but we women have our characters to take care of." Jones was shocked into propriety for the rest of the journey.

At Pernambuco, recently, a terrible riot occurred between the Brazilians and the Portuguese. Eighty Portuguese were killed, when the Portuguese, combining with the English, killed one hundred of the Brazilians.

Capt. E. D. Pierce, we are credibly informed, has induced a company of about twenty-five men to go prospecting with him into the old hackneyed Red Mountain country, or west slope of the Goose Creek Range. The Captain is at Boise City from which rendezvous he expects to start about the first of March. He is reported more than usually sanguine, and that the late Indian defeats will give him a clear field. We think that section is comparatively unprospected, and possesses mineral merit equal to anything yet unearthed in Idaho, but whether Captain Pierce is the coming man to bring the matter to satisfactory light is another thing. It would give Idaho south of Snake River quite a boost, should he be successful, and Northern Nevada would not be far from being included in the bounds of the new discoveries.—[Owyhee Avalanche.]

A VOICE FROM SALT LAKE.—A late dispatch from Salt Lake City contains the following paragraph: "The whole community is looking anxiously to Congress for relief, and complain, justly, too, because it is not more promptly afforded. In fact Congress has only thought of this people once, and then appears to have forgotten all about them. Attention was directed to them when Dr. Robinson was assassinated, but now they seem to overlook us. The Territory is sadly in need of 'reconstruction'—needs it fully as much as the South. The cause of complaint is that justice is not done in the courts, they being controlled by the Saints."

INFORMATION WANTED.—Mr. John T. Hamilton, of Salem, has a letter from Augusta, Georgia, asking information of John R. Ellyson, said to be somewhere in Oregon. The information is asked by the wife of the missing man, who is in sore bereavement and distress. Information is also wanted of Mr. Artemus J. Dickerson, by his sister, now living in Bates county, Missouri. A letter to the postmaster at Umatilla City contains much valuable information, much to the advantage of said Dickerson to know.—Oregonian.

A SMART IMMIGRANT.—With the last steamer there arrived a well-to-do farmer from Bavaria, with the intention of settling. Thinking, no doubt, California an uncivilized country and iron stores not to be had, he brought a big one with him from the old country. The over freight which he had to pay for the same was sixty dollars. The stove is worth about one dollar and seventy-five cents.

TILTING HOOPS.—This article of feminine apparel comes in for a vast amount of ridicule just now. All sorts of things are said about them. A man in an Indiana town killed his dog recently. When asked the reason, he said that the canine intently eyed two females in tilting hoops as they passed along, and had seen too much to live.

THE GOVERNMENT ENGINE.—The engine for Fort Vancouver, which arrived by the late steamer, cost in New York, \$2,400 in coin. It will be under the charge of Col. Hodges, who contemplates the organization of a fire company, to consist of civilians in his employ at that post, of which there are about forty.—[Oregonian.]

HE HAD A CHOICE.—Five years ago a man in the Ohio State Prison succeeded in making his escape. A short time since he returned and expressed a desire to serve out his term. The only explanation given, that while out of prison he got married—it would be ungentlemanly to say anything more.

A theatrical agent at Portland having very politely sent a package of tickets to the office of the Zion Advocate, the editor reciprocated the attention by sending the whole troupe a standing invitation to the Baptist prayer meeting.

The Denver News says that an enterprising man or company who will set to work and build a tiptop first-class hotel in Denver, has a golden harvest in store. The present unrightly barns which constitute our first-class hotels, are almost nuisances.

It is often the case that a beautiful woman is by her beauty alone made the ugliest of her species—because the charms which should woo the angels Modesty and Good Humor, sometimes become the boon of coquetry, affectation, and folly.

A man named Hartman accidentally hung himself near Bellevue, Iowa, a few weeks since, by being caught in his comforter while descending from a tree. When taken down life was extinct.

A preacher out West has such strong lungs and hoarse voice that he can mimic a thunder storm so perfectly that all the milk will sour for miles around.

The foreign lumber trade of Portland, Me., for 1866, amounted to about 14,000,000 feet. The amount sent to domestic ports was enormously great.

A cotemporary mentions the marriage of Mr. John Sweet to Miss Ann Sour. It is probable they mean to set up the lemonade business.

The value of the barrels, cans, and other vessels containing petroleum sent to Europe last year, is estimated at \$10,000,000.

Seven extensive petroleum springs have been discovered in the southern provinces of Naples.

The wife of Gen. Dan. Sickles is dead.

OUR PAPER. In this fast age, changes are not astonishing. Let no one, therefore, marvel at the changes that appear in to-day's paper.

First, a change has taken place in the proprietorship of the paper. Mr. Reynolds having sold out and the present proprietor having assumed control. Secondly, the name of the paper has been changed to that which to-day's issue bears, which, it will be seen, is a combination of its former two names.

Thirdly, the paper has been reduced in size. The size to which the Weekly was increased was larger than the present amount of patronage can support, and we are decidedly of the opinion that a small paper with a healthy appearance is much better than a sickly-looking large one.

In undertaking the publication of a newspaper in so thinly an inhabited section as this, we do so with a full knowledge of all the impediments and difficulties attending such an undertaking. We know that it is hard work and poor pay. We have also, from sad experience, a full knowledge of the hardness of the times and the general depression in business.

Nevertheless we have undertaken it, believing we can "live through" the "hard times" with the rest of our fellow citizens, and knowing that if times ever do look up, the printing business will be among the first to feel the invigorating influence of the change.

We have faith in this country. We believe that Puget Sound is destined "to come out strong" at some time or another, and in this fast age such a jewel cannot long remain hidden by the dark forests that loom up all around on its shores.

The following definition of one-horse power, which we clip from an exchange, will be interesting to some of our readers.

The use of the term "horse-power" is very common, yet few, except good mechanics and engineers, attach a definite meaning to it, but regard it as indicating loosely about the power which one horse could exert. It is, however, when used in the sense under consideration, as definite as possible, and means the power required to lift 33,000 pounds avoirdupois one foot high in one minute.

The following items are from the Colonist: PRIZE FIGHT.—George Baker has accepted the challenge of C. G. Davis, to fight him within three months for date for a sum not less than \$500 or more than \$3000.

The following are from the Morning News: CONOX COAL COMPANY.—We are informed by the representative of the American Company that the promoters have no intention of abandoning the enterprise; on the contrary, they intend to proceed with the work energetically, so soon as the necessary arrangements are completed, and that the men were removed temporarily in consequence of the severity of the weather.

SCHOOL MEETING.

PURSUANT to notice duly given, a meeting of the legal voters of School District No. 1 was held at Yesler's Hall for the purpose of electing a Board of Trustees, Clerk, etc.

THE NEXT STEAMER.—The California is expected to leave San Francisco for this place immediately on the arrival of the Active at that place.

THE UTAH.—This is the name of a new steamship just launched at Saco, Maine, and intended for the North Pacific coast trade. She is a sister ship to the Montana and Idaho, and is owned by the same firm, who have successfully "bucked" against the regular line to Portland, Oregon. The Utah will run to Victoria.

THE REVOLUTION IN TRADE ANTICIPATED THROUGH the working of the Atlantic telegraph begins already to be realized. English orders on California markets for wheat pass under ocean and over land, and advices of the purchase return by the same path, within the business hours of a single day.

TELEGRAPHIC.

(SPECIAL DISPATCHES TO THIS GAZETTE.)

NEW YORK, March 22.—The Evening Post says it is understood that if impeachment takes place, Snythe will, in justification of himself, produce a mass of evidence to show that he only followed in the footsteps of his predecessors for a number of years. The President will not remove Snythe.

THE NEW HAVEN papers say that the project of an international boat race at the Paris Exposition between picked crews of the English and American Universities has been favorably received at Harvard and Yale and the rowers chosen.

THE EVENING Commercial says the Canadian politicians assume the consolidation of the Provinces as a fixed fact, and are busy canvassing. The British North American Provinces will join the Confederation.

THE MONTREAL Herald says that while it is gratifying to see British Columbia disposed to join the Union, obstacles are in the way of its being accomplished while the central regions remain a wilderness.

THE MONTREAL Gazette says that Prince Rupert's Land has already taken preliminary steps to join the confederation to extend in a direct line the Atlantic & Pacific Railroad.

BOSTON, March 20.—The Massachusetts Legislature has ratified the Constitutional amendment.

NEW YORK, March 21. A Knoxville special to the Times says that the damage in East Tennessee by the flood is over two millions of dollars. The loss of all kinds of stock is unprecendently heavy. All the farmers along the river will be very late with their crops. Many lives were lost and in lower Tennessee many families were left homeless. The rivers are rising; still more rain is falling, and great destitution prevails.

MEXICAN NEWS.

GALVESTON, March 21.—Rio Grande dates to the 16th say that a battle took place at Calayupala between a small part of the forces; not over 2,500 on either side. Maximilian took part in person. There are different accounts as to the result. Dias was about to besiege the capital.

NEW ORLEANS, March 21.—The U. S. Consul at Vera Cruz reports that all the French troops were embarked on the 12th of March.

CALIFORNIA.

SAN FRANCISCO, March 20.—Arrived, March 20.—Bark Milan, 9 days from Teaklet; bark Oak Hill, 8 days from Port Blakely. Sailed, March 19.—Brig Deacon, for Puget Sound.

SAN FRANCISCO, March 21.—Private telegrams quote gold at New York at 134 1/2, yesterday. Legal tenders are in moderate demand at 74 1/2 buying, and 74 3/4 selling.

ATLANTIC STATES.

CINCINNATI, March 13.—A Knoxville, Tenn., despatch says it is estimated that the late flood damaged property to the value of two million dollars. Over two hundred persons were washed out of their houses in Knoxville. The damage to farms is very heavy, many persons losing houses, grain and stock. Reports from below represent that there has been great destruction of property by the flood in Ohio. In many places between New Albany, Ind., and Evansville, Ind., the river is 80 miles wide. Hundreds of thousands of bushels of grain have been lost. The country is covered with floating stacks of hay, wheat and oats. Nearly all the steamboat landings are under water and boats cannot make a landing. Shawneetown is completely inundated. In the lower parts of Cincinnati and Covington hundreds of houses are under water.

CINCINNATI, March 14.—The floods in Tennessee and Georgia are increasing, and miles of country are under water. The water is much higher than has ever been known before. Houses are being swept away in every direction. There is great suffering among the people, and the damage is immense.

LOUISVILLE, March 16.—Railroad communication with Memphis is suspended. The road along the Cumberland river is several feet under water.

NEW YORK, March 15.—A despatch announces the burning of half the business part of Albany, Georgia.

THE excitement at the headquarters of the Fenians is unabated.

OGDENSBURG, March 15.—The Fenian excitement is renewing. Fort Wellington is at present being put in a defensive condition, and garrisoned. The Provincial authorities are pushing troops forward. There is an unusual number of strangers traveling this way, and rumor connects them with a Fenian movement. The river is frozen over, and the ice would afford an easy crossing for an army. The Fenians hold nightly meetings, but maintained the utmost secrecy in regard to their future designs.

CHICAGO, March 16.—An immense Fenian meeting was held last night. It was addressed by President Roberts and others. The revolt in Ireland was disapproved of, and Canada announced to be the objective point of many volunteers.

NEW YORK, March 18.—The Herald's correspondent in London, on the 6th inst., writes that the British Government was taken by the Fenian uprising. The Fenian plan embraced simultaneous outbreaks in London and Liverpool, with configurations by means of nitro glycerine. There is no question it was led by men ashamed of previous failures. The Fenians are very defi-

cient of arms and munitions of war, and were easily dispersed each time. The uprising was evidently more serious than the telegraph represented. It would seem, however, that the movement was premature.

WASHINGTON, March 18.—Two representatives of the Irish Republic had an interview with the President yesterday, soliciting the recognition of behgeter rights by the Government.

WASHINGTON, March 17.—At midnight last night the Senate passed the Supplemental Reconstruction Bill by a vote of 28 to 2.

NEW YORK, March 20.—Nine car-loads of Fenian troops, fully equipped, left for Oswego to-day. It is doubtless intended that they shall operate in the threatened movement of the Fenians against Canada.

LONDON, March 16.—Large bodies of troops have been sent to Liverpool to preserve the peace. An Irish uprising is expected in that city. A large number of Fenians have been captured in various parts of Ireland and have been committed for high treason.

A general rising of Fenians is expected to take place throughout Ireland to-morrow, St. Patrick's Day. The police, who are fully informed of the movement, it is believed, will be able to suppress the movement before it assumes very formidable proportions. The immigration to America from Cork, for the past few days has been extremely large. Many immigrants are being arraigned as being connected with a recent uprising near Killarney.

MEXICO.

SAN FRANCISCO, March 17.—Advices from Acapulco state that the town is still in the hands of the Liberals and that trade had again opened. The usual supplies for both ships and passengers were to be had. The last of the French men-of-war was still in port, and was understood to be waiting for the mails which were brought by the Golden Age.

CHICAGO, March 15.—News from the interior of Mexico has been received to the 28th ult. Maximilian marched on the 20th to give Escobedo battle. Maximilian's forces number 15,000; Liberals, 32,000. A decisive battle is expected on the 29th.

SUNDAY'S DESPATCH.

PARIS, March 22.—It is announced that the Emperor Napoleon favors a confederation of the Governments of France, Holland, Belgium and Switzerland against Prussia.

FLORENCE, March 22.—The National Parliament was inaugurated to-day. Victor Emmanuel delivered the usual speech from the Throne.

NEW YORK, March 23.—The Winter Garden Theatre was entirely destroyed by fire this morning. All the property, including the magnificent wardrobe of Edwin Booth, was consumed. The Southern Hotel, adjoining, was badly damaged. Loss about \$300,000.

SAN FRANCISCO, March 23.—The steamer Idaho left for Portland this morning. Sailed—bark Rival, Puget Sound.

PORTLAND, March 21.—The steamer Fideliter sailed for Victoria at 6 o'clock last evening. News from Canyon City says that the Indians are again on the war-path.

A member of a leading Chinese mercantile firm in San Francisco furnishes the following figures, showing the actual number of Chinese in California, as appears from the books of the six companies into which all the Chinese of the State are divided: Ning Yeong company, 15,000; See Yip company, 9,000; Hop Wo company, 8,600; Yan Wo company, 3,800—total, 58,200. More than one-fourth of the entire number in the State are employed at this time on the Pacific Railroad, and other public improvements. Half as many more are engaged in manufacturing woolen goods, cigars, etc.; at least ten thousand in washing, and a considerable number in agricultural pursuits.

ADVANTAGE OF PUNCTUATION.—Punctuation cannot be too sedulously studied. We lately read, in a country paper, the following startling account of Lord Palmerston's appearance in the House of Commons: "Lord Palmerston entered on feet, large but well polished boots upon his brow, a dark cloud in his hand, his faithful walking stick in his eye, a menacing glare saying nothing. He sat down."

A GREAT ARMY IN RUSSIA.—The recruiting, which is to take place in Russia from the 27th of January to the 27th of February, at the rate of four conscripts per 1000 inhabitants, and five per 1000 in certain districts, which will produce 850,000 men. The Russian army at present numbers 800,000 men under arms; add to which the 850,000 produced by the new levy, and the round number is 1,650,000.

DR. LIVINGSTON, the African explorer, at last accounts was moving up the river Ravenna, on the east coast of Africa, intending to visit the unknown northern extremity of lake Nyansa. The latest advices received from him are to May 18th. His progress was slow as the Ravenna is flanked on both sides by hills from four hundred to six hundred feet high, covered with dense entangled jungle.

ST. LOUIS VS. PITTSBURG.—In a recent lecture at Pittsburg, Horace Greely told his auditors, who were in great part iron manufacturers, that their fine city had but a few more years in which to thrive and grow, "for," said he, "when St. Louis begins to manufacture iron, Pittsburg will lose all its most important business."

A shipwreck of a cargo of wine on the English coast in the last century caused the whole district of wreckers to get drunk, and had the same effect on two bodies of troops sent to restore order and protect the property.

An editor thus logically nudges his delinquent subscribers: "We don't want money desperately bad, but our creditors do, and no doubt they owe you. If you pay us, we'll pay them, and they'll pay you."

The great suspension bridge over the Ohio river, from Cincinnati to Covington Kentucky, was opened for foot passengers on the 1st instant. It will be fully completed for vehicles the 1st of January.

The railroads of this country employ two hundred thousand men, and at least a million men, women and children depend for support upon railroad interest.

THE YANKEE COLONY IN PALESTINE.—A Constantinople correspondent writes: I wrote last week of the pitiable condition of the colony at Jaffa. Later news confirms their suffering, and the fact that some twenty deaths had occurred among them, but it also brings out another side to the question of who is the real author of these calamities. The leader of the enterprise claims that the colonists have been plundered by the American Consul at Jaffa, and not by him. He has appealed to Constantinople to have the Consul impeached. It is true that several thousand pounds have passed through the Consul's hands. He has purchased lands and other things for them. As he is a German Jew, not an American at all, it is possible some of the money may have stuck to his fingers, and anyway it is a shame for our Government to appoint such a Consul there. But at the same time, if I am correctly informed, the colonists feel that they have been deceived, if not swindled, by the man who brought them out. I am sorry for them, and they must be helped in some way, but the whole idea of this expedition was an absurd one, and ultimate failure was the only result possible.

GOOD FOR ANNA.—When Governor Andrew sent the Massachusetts girls to the Pacific coast to supply the want of femininity in that region, he said that they need not marry immediately, but that they could find plenty to do in teaching the little children. Anna Dickinson "can't see it." She says: "Where the little children were to come from out of a population of ten thousand men, was more than she could imagine; but she thought that probably Governor Andrew, being a man, might be able to do so."

We are told that the ladies of Brazil on being introduced to a stranger, insist on being embraced. This is strange, but the result is oftentimes a little stranger.

MARRIED.

At the M. P. Church in this city, on the 18th inst., by Rev. Daniel Bagley, Mr Chen Cheong to Miss Gin Cane.

MARRIAGE AND CELIBACY, an Essay of Warning and Instruction for Young Men. Also, Diseases and Abuses which prostrate the vital powers, with new means of relief. Sent free of charge in sealed letter envelopes. Address

DR. J. SKILLIN HOUTON, 330-ly. Howard Association, Philadelphia, Pa.

STOP THAT COUGHING.

Some of you can't, and we pity you. You have tried every remedy but the ONE destined by its intrinsic merit to supersede all similar preparations. It is not surprising you should be reluctant to try something else, after the many experiments you have made of trashy compounds foisted on the public as a certain cure; but

NEWELL'S PULMONARY SYRUP is really the VERY BEST remedy ever compounded for the cure of Coughs, Colds, Sore Throat, Asthma, Whooping Cough, Bronchitis, and Consumption. Thousands of people in California and Oregon have been already benefited by the surprising curative powers of NEWELL'S PULMONARY SYRUP, and with one accord give their unqualified approbation. We now address ourselves to all those who are unacquainted with the great Panacea of the age, for the healing of all diseases of the throat and lungs, assuring you that NEWELL'S PULMONARY SYRUP has cured thousands, and will cure YOU if you will try it.

This valuable medicine is pleasant to the taste; soothing, healing, and strengthening in its effects; entirely free from all poisonous or deleterious drugs, and perfectly harmless under all circumstances.

Certificates from many prominent citizens of San Francisco accompany every bottle of NEWELL'S PULMONARY SYRUP. Redington & Co. Agents, San Francisco, Cal.

GRAFENBERG'S

UTERINE CATHOLICON.

if faithfully used according to directions will cure every case of Diabetes, and greatly mitigate the troublesome effects caused by a relaxation of the outlet of the bladder. It is a most successful remedy for gravel and other diseases of the Kidneys and bladder, and for Female Diseases is unequalled. The CATHOLICON uniformly cures Protrusion Uteri, Whites, all irregularities of the Monthly Turns, Suppression, Incontinence of the Urine, Bloating and Dropsical Swellings, and all Diseases of Pregnancy. The specific action of this medicine is immediate and certain upon the Uterine and Abdominal Muscles and Ligaments; restoring them to so healthy a state as those of childhood and youth, so that patients who have used the GRAFENBERG COMPANY'S UTERINE CATHOLICON cannot sufficiently express their gratitude for the relief afforded. Redington and Co., Agents, 416 and 418, Front St., San Francisco. March 18, 1867. no32-1yr

REDINGTON & CO'S

ESSENCE OF JAMAICA GINGER.

—o—

This valuable preparation containing in a highly concentrated form all the properties of the Jamaica Ginger, has become one of the most popular domestic remedies for all diseases of the stomach and digestive organs.

As a tonic it will be found invaluable to all persons recovering from debility, whether produced by fever or otherwise, for whilst it imparts to the system all the glow and vigor that can be produced by wine or brandy, it is entirely free from the reactionary effects that follow the use of spirits of any kind.

It is also an excellent remedy for females who suffer from difficult menstruation, giving almost immediate relief to the spasms that so frequently accompany that period.

It gives immediate relief to nausea, caused by riding in a railroad-car, or by sea-sickness, or other causes.

It is also valuable as an external application for Gout, Rheumatism, Neuralgia, etc. REDINGTON & CO, SOLE AGENTS FOR THE PACIFIC COAST. no 52-1yr

Notice is hereby given that no person, except myself, is in any manner whatever connected with the control and management of this paper, nor has any other person any interest in the proceeds of the publication thereof.

THE RECEPTION AT THE UNIVERSITY.—The Reception on Friday evening last, in the University Hall, given by Rev. G. F. Whitworth, A. M., was well attended and gave satisfaction to all. The music, led by Mrs. Russell, was truly enjoyable, and was enjoyed; and the declamations, dialogues, and compositions were highly interesting. The system of merits as adopted by the President, deserves praise, as calculated to stimulate to action both pupils and their parents. The latter should take great care that their children do not suffer demerit for which they are to blame. As the spring opens and some of the large scholars have to go home, the School Trustees should feel called upon to make vigorous efforts at once to encourage and enlarge the school, and retain the present efficient teachers. They should at once levy a tax sufficient to run the school with vigor, without much cost to patrons, or to the University Fund. Any town ought to be proud of such facilities for education as are here enjoyed, and govern itself accordingly.

Mr. John Denny, who was appointed one of a committee for the purpose of soliciting subscriptions to aid in building the Snoqualmie road, is by no means idle. He visited Port Townsend last week, and \$175 was subscribed by the citizens of that place. The Custom House employees alone subscribed \$75. If Mr. Denny is as successful hereafter as he has heretofore been the whole \$2,000 required to be raised by subscription to enable the County Commissioners to draw the same amount from the Territorial Treasury, will soon be subscribed. There is scarcely an enterprise that is of more importance to the State than this, and we hope our fellow citizens will continue to subscribe liberally.

Tax Wedding.—The marriage of Mr. Chen Cheong to Miss Gin Came, a notice of which will be seen in another column, was rather a novel affair. A general invitation was extended to the public, and many spectators assembled to witness the ceremony. The bride and groom were arrayed in full Chinese costume, which was of costly material; and, in that of the bride, there was displayed much feminine taste and skill in needle-work. The ceremony was performed according to the usual form of the M. P. Church. None of the countrymen of the couple were in attendance.

The Mountaineer says there are already in the Dalles a number of men who are preparing for a prospecting tour through the Crooked river country. With the coming season there will be a large number of men prospecting that section, and it is the prevailing opinion that rich mines will be struck.

Pursuant to the call of the County Central Committee, a meeting of the Union voters of Seattle precinct was held in Yesler's Hall, on the 23d inst., for the purpose of electing delegates to the Union County Convention to be held at Seattle on the 30th instant, when the following gentlemen were elected such delegates: G. F. Whitworth, John Hornbeck, E. Steelman, J. D. Peasley, J. Shoudy, L. V. Wykoff, J. H. Nagle, J. R. Watson, J. Settle, I. M. Hall, S. Wetmore, L. B. Andrews, J. Ross, D. Bagley and — Lewis.

Mr. T. F. McElroy, Territorial Printer, will please accept thanks for a copy of the public acts of the Territorial Legislature, passed at the last session of that body. It is in the usual form, and is neatly printed.

Hon. A. A. Denny will please accept our thanks for a copy of the Acts and Resolutions passed at the first session of the Thirty-ninth Congress.

GOOD TIME.—The New World on Thursday last left Victoria at ten minutes past 6, a. m., and reached this place at about 4 o'clock p. m. That will do very well.

We are under renewed obligations to the obliging purser of the New World, Mr. Crosby, for files of Victoria dailies and for California and other papers.

Mr. Gleason, of the New World, will please accept our thanks for Victoria and New Westminster papers.

The Legislature of British Columbia have passed an act removing the Custom House from New Westminster to Victoria.

The steamer Active left Victoria for San Francisco on the 20 inst.

The Victoria Colonist says: There have been two arrivals from the wreck of the bark Geo. Washington since Sunday last. The hull and standing rigging have been sold for \$900 to the firm of Spaulding & Harris. The vessel having been lately coppered at San Francisco, will prove a valuable prize to the purchasers. A quantity of the stores, rigging, &c., from the wreck, was brought over by Capt. Whitford, in the schooner Wester, on Sunday.

The Standard says the citizens of Clark county have taken measures which, it is hoped, will tend to the speedy erection of a woolen factory about five miles north of Vancouver.

The mouth of the Amazon is large enough to take in the States of Massachusetts and Rhode Island.

Union County Convention.

THE UNION MEN of King County are hereby requested to meet at the usual place of voting in each Election Precinct, on Saturday, the 23d day of March, 1867, to elect Delegates to attend a County Convention to be held at Seattle on Saturday, the 30th day of March, 1867, to elect Delegates to the Territorial Union Convention to be held at Vancouver on the 16th day of April, 1867, and also to nominate Candidates for the Territorial Legislature and the various County Offices. Each precinct is entitled to one Delegate for every ten (10) votes and fractional part thereof.

By Order of the County Committee. JOHN J. MCGILVERA, Chairman.

W. H. ROBERTSON, M. D. PHYSICIAN AND SURGEON, SEATTLE, W. T.

Offers his professional services to the inhabitants of Seattle and vicinity in the various branches of Medicine and Surgery. Thankful for past patronage he hopes to merit a continuance of the same. April 5th, 1866. nol-1f

FRENCH MEDICAL OFFICE.

DR. JULIEN PERREAU, Doctor of Medicine of the Faculty of Paris, Graduate of the University Queen's College, and Physician of the St. John Baptist Society of San Francisco.

Dr. PERREAU has pleasure to inform patients, and others seeking confidential medical advice, that he can be consulted daily at his office, Army Hall Building, North-East corner Montgomery and Sacramento streets, San Francisco. Rooms No. 9, 10, 11, first floor, up stairs, entrance on either Montgomery or Sacramento streets. Dr. PERREAU'S studies have been almost exclusively devoted to the cure of the various forms of Nervous and Physical Debility, the results of injurious habits acquired in youth, which usually terminate in impotence and sterility, and permanently induce all the concomitants of old age. Where a secret indolently exists, inveterate and deep of a life and that of others, reason and morality dictate the necessity of its removal, for it is a fact that premature decline of the vigor of manhood, matrimonial unhappiness, compulsory single life, etc., have their sources in causes, the germ of which is planted in early life, and the bitter fruit tasted long afterward: patients, laboring under this complaint, will complain of one or more of the following symptoms: Nocturnal Emissions, Pains in the Back and Head, Weakness of Memory and Sight, Discharge from the Urethra on going to stool or making water, the Intellectual Faculties are weakened, Loss of Memory ensues, Ideas are clouded, and there is a disinclination to attend to business, or even to reading writing or the society of friends, etc. The patient will probably complain of Dizziness, Vertigo, and that Sight and Hearing are weakened and eyes dimmed by dreams, melancholy, itching, palpitations, faintings, coughs and slow fever; while some have external rheumatic pain, and numbness of the body. Some of the most common symptoms are pimples in the face, and itching in different parts of the body. Patients suffering from this disease, should apply immediately to Dr. PERREAU, either in person or by letter, as he will guarantee a cure of Seminal Emissions and Impotence in six to eight weeks. Patients suffering from venereal diseases in any stage, Gonorrhoea, Gleet, Strictures, Bubo Ulcers, Cutaneous Eruptions, etc., will be treated successfully. All Syphilitic and Mercurial Taints entirely removed from the system. Dr. PERREAU'S diplomas are in his office, where patients can see for themselves that they are under the care of a regularly educated practitioner. The best references given if required. Patients suffering under chronic diseases, can call and examine for themselves. We invite investigation; claim not to know everything, nor to cure everybody, but we do claim that in all cases taken under treatment we fulfill our promises. We particularly request those who have tried this boasted doctor, and that advertised physician, till worn out and discouraged, to call upon us. Low charges and quick cures. Ladies suffering from any complaint incidental to their sex, can consult the doctor with the assurance of relief. FEMALE MONTHLY PILLS.

Dr. PERREAU is the only agent in California for Dr. Boer's Female Monthly Pills. Their immense sale has established their reputation as a female remedy, unapproached, and far in advance of every other remedy for suppressions and irregularities, and other obstructions in females. On the receipt of five dollars, these Pills will be sent by mail or express to any part of the world, secure from curioity or damage. Persons at a distance can be cured at home, by addressing a letter to Dr. PERREAU, corner of Sacramento and Montgomery streets, Rooms 10 and 11, or Box 973, P. O. San Francisco, stating the case as minutely as possible, general habits of living, occupation, etc., etc. All communications confidential. nol-1f

WE THINK THERE IS no Medicine so efficacious in removing humors from the blood as SCOVILL'S BLOOD & LIVER SYRUP. It is recommended by Physicians in all parts of the country, for the cure of Scrofula, and other diseases of the Cuticle. Pimples or Sores indicate that the system is out of order. Unless something is done to cleanse the blood of these impurities, the result may be a more serious disease, such as Scrofula, Syphilis, etc. Those who wish to find a most efficacious remedy, and yet have no confidence in Patent Medicines generally, will never regret a trial of Scovill's Blood and Liver Syrup. REDINGTON & Co., Agents, 416 and 418 Front St. San Francisco. March 13, 1867-n52ly

FLORENCE SEWING MACHINES.

Copy of the Report of the Committee of Awards at the Fair of the AMERICAN EXHIBITION, NEW YORK, 1865. To the FLORENCE SEWING MACHINE CO., for the Best Family Sewing Machine.

Highest Premium! Gold Medal REASONS:

- 1st. Its simplicity and great range of work. 2d. The recoverable feed motion. 3d. The perfect finish and substantial manner in which the machine is made. 4th. The rapidity of its working, and the quality of work done. 5th. The self-adjusting tension.

The "Florence" was awarded the First and Highest Premium at the State Fair of California, the only Fair on the Pacific Coast at which any two double thread Sewing Machines were exhibited in competition in 1865.

The FLORENCE received the only premium awarded by the Mechanics' Institute, of San Francisco, in 1864 and 1865, to any Sewing Machine, Sewing Machine Co., or Agent. The claim of a competitor to a medal is without any foundation whatever. Wherever the FLORENCE has been brought in competition with other Sewing Machines, it has always been declared the best. It is the most simple, the most substantial, the most efficient, and its use is easily learned. Every machine sold is guaranteed in the full sense of the word. Send for Circulars and Samples of Work.

ATEKINS & SHOUPE,
Seattle, Jan. 1st, 1867. no42

Notice.

JAMES M. COLEMAN, of the firm of Coleman & Falk, at Port Orchard, in the county of Kitsap, W. T., having made a pretended sale, on or about the 9th of February, 1867, of all the personal property and effects belonging to said firm, to William Renton and J. N. Draper, without the consent of the undersigned, and in direct violation to the articles of co-partnership existing between him and said Coleman and having, also, by the use of force and fraud, put the said Renton and Draper into the pretended possession of said property and effects.

Notice is hereby given that said pretended sale is illegal, fraudulent and void, and that the title of said Renton and Draper, as well as of all persons purchasing from them, or taking away any of said property by their orders or permission, will be contested.

The property thus sold by said Coleman consists of a large stock of Goods, Saw-logs, Lumber and other personal property at and about the Port Orchard Mills in Kitsap county, W. T.

All persons are further notified that the said Renton and Draper well know that their possession of said property was acquired by force and fraud.

Dated Feb. 13, 1867. N. H. FALK.

Notice.

THE PUBLIC, AND ESPECIALLY ALL persons who have heretofore transacted business with WELLS, FARGO & CO., are notified that a consolidation of interests and business between WELLS, FARGO & CO., the PIONEER STAGE CO., THE OVERLAND MAIL AND EXPRESS CO., THE OYERLAND MAIL CO., THE UNITED STATES EXPRESS CO., AND THE AMERICAN EXPRESS CO., has taken place, and been effected under a Charter granted by the Territorial Legislature of Colorado, and that all the business heretofore done by either of these Companies west of the Missouri river, or between New York, San Francisco and the China Seas, will hereafter be carried on by WELLS, FARGO & CO., under the Act of Incorporation referred to.

LOUIS McLANE,
President of Wells, Fargo & Co.,
New York, December 10, 1866 no44-1m

M. and sunset, on Saturday the 23d day of March, 1867, all the right and title (Patent not yet received) of James Tucker, deceased, to that valuable Donation Land Claim situated at the head of Port Discovery Bay, in Jefferson county, known as TUCKER'S DONATION CLAIM.

F. W. JAMES,
Port Townsend, Feb. 14, 1867-n59-3w

S.T-1860-X.

As many side bits are being made at the Plantation Bitters, by a score of disinterested friends who have endeavored to imitate or counterfeit them, it is all of no use. The people who are long and honest upon, the Plantation Bitters are increasing in use and popularity every day, and that's what's the matter. They are in the same sized bottle, and made just as they were at first, and will continue to be, or we shall stop making them.

The Plantation Bitters purify, strengthen and invigorate.
They cure a healthy appetite.
They are an antidote to change of water and diet.
They overcome effects of dissipation and late hours.

They strengthen the system and enliven the mind upon.
They prevent malarial and intermittent fevers.
They purify the breath and acidity of the stomach.

They cure Dyspepsia and Constipation.
They cure Diarrhea, Cholera and Cholera Morbus.
They cure Liver Complaint and Nervous Headache.

They make the weak strong, the languid brilliant, and are exhausted nature's great restorer. The Recipe and full Circular are around each bottle. Clergymen, Merchants, and persons who are sedentary habits (those who are in the city, palpitation of the heart, lack of appetite, distress after eating, liver complaint, constipation, &c.) will find IMMEDIATE and permanent relief in these Bitters. But above all, they are recommended to weak and delicate females and mothers.

They are sold by all respectable merchants. See that each bottle has our private United States Stamp over the cork and steel-plate side label.
Beware of refilled bottles. See that the stamp has not been tampered with. Any person pretending to sell Plantation Bitters by the gallon is a swindler and impostor, and should be immediately reported to us.

P. H. DRAKE & CO.
31 Parks Row, N. Y.

Barnes' Magnolia Water.

A toilet delight! The ladies' treasure and gentleman's boon! The "sweets thing" and largest quantity. Manufactured from the rich sweet Magnolia. Used for bathing the face and person, to render the skin soft and fresh, to prevent eruptions, to perfume clothing, &c.

It overcomes the unpleasant odor of perspiration.

It removes redness, tan, blotches, &c.

It cures nervous headache and allays inflammation.

It cools, softens and adds delicacy to the skin.

It yields a subdued and lasting perfume.

It cures mosquito bites and stings of insects.

It contains no material injurious to the skin.

It is what every lady should have. Sold everywhere. Try the Magnolia Water once and you will use no other Cologne, Perfumery, or Toilet Water afterwards.

DEMAS BARNES & Co.,
Propa. Exclusive Agents, N. Y.
Sold by all Druggists and dealers everywhere.

MUSTANG LINIMENT.

OVER A MILLION DOLLARS SAVED.
Gentlemen:—I had a negro man worth \$1,200 who took cold from a bad hurt in the leg, and was useless for over a year. I had used everything I could hear of without benefit, until I tried the Mexican Mustang Liniment. It soon effected a permanent cure."
J. J. DOWNING,
Montgomery, Ala., June 17, 1859.

I take pleasure in recommending the Mexican Mustang Liniment as a valuable and indispensable article for Sprains, Sores, Scratches or Galls on Horses. Our men have used it for Burns, Bruises, Sores, Rheumatism, &c., and all say it acts like magic.

J. W. HEWITT,
Foreman American, Wells, Fargo's and Harding's Express.

"The sprain of my daughter's ankle, occasioned while skating last winter, was entirely cured in one week, after she commenced using your celebrated Mustang Liniment."
ED. SEELY,
Gloucester, Mass., Aug. 1, 1865.

It is an admitted fact that the Mexican Mustang Liniment performs more cures in shorter time, on man and beast, than any article ever discovered. Families, live-ry men and planters should always have it on hand. Quick and sure it certainly is. All genuine is wrapped in steel-plate engravings, bearing U. S. Stamp of DEMAS BARNES & Co. over the top.

An effort has been made to counterfeit it with a cheap stone-plate label. Look closely.

Lyon's Katharine.

It is a most delightful Hair Dressing. It eradicates scurf and dandruff. It keeps the head cool and clear. It makes the hair rich, soft and glossy. It prevents hair turning gray and falling out.

It restores hair upon prematurely bald heads.
This is what Lyon's Katharine will do. It is pretty—it is cheap—durable. It is literally sold by the car-load, and yet its incredible demand is almost daily increasing, until there is hardly a country store that does not keep it, or a family that does not use it.
E. THOMAS LYON, Chemist, N. N.

Lyon's Extract of Purg.

LYON'S EXTRACT OF PURE JAMAICA GINGER—for indigestion, Nausea, Heartburn, Sick Headache, Cholera Morbus, Flatulency, &c., where a warming stimulant is required. Its aromatic preparation and entire purity make a cheap and reliable article for culinary purposes. Sold every where at 50 cents per bottle. Ask for "Lyon's" PURE EXTRACT. Take no other.

CAUTION—See that the Private U. S. Stamp of Demas Barnes & Co. is over the cork of each bottle. None other is genuine.

Lyon's Flea Powder.

DEATH TO FLEAS. It is well known that Lyon's genuine Magnolia Powder will perfectly destroy everything in the shape of fleas, ticks, bed-bugs, roaches, &c.; that it is perfectly harmless to the insect tribe, but entirely harmless to the human species and domestic animals. The genuine has the signature of E. THOMAS LYON, and the private stamp of DEMAS BARNES & Co. Anything else of this kind is an imitation or counterfeit. Any druggist will procure the genuine if you insist you will have no other.
Oct. 8, 1866-n29-1y.

MEDICAL INSTITUTE

ESTABLISHED BY
DR. J. C. YOUNG IN 1850.

530 Washington Street,
Below Montgomery,
San Francisco, California:

Consultation by Letter, or otherwise, Free.

It would be equally useless and unnecessary to enumerate here the diseases cured at this Institute. All classes of complaints are treated; but I consider it my duty to mention those of a social nature, as upon such the unfeeling and irresponsible, quick dwell, with phrasal well calculated to deceive those ignorant of the emptiness of his profession. First among the special complaints is

Seminal Weakness.
I am aware that by dwelling upon so uninviting a subject as the decay of many vigor through the loss of vital principle, and the desire to point out to those who suffer, languish and decay, the true cause of their affliction, is too great an incentive to be foreed into abeyance. How extended the terrible disease of Seminal Weakness is, no one but the practical specialist who devotes his time to its treatment can tell; but its presence can be detected by the following symptoms: Weakness of the back and limbs; languid feelings; loss of muscular power; nervousness; irritability; cold feet and hands, accompanied by hot head; symptoms of consumption; short breath; fishings of the face; aversion to society; confusion of the mind; loss of memory; nightly emissions; erections, slight discharges, suppressed the first excitement; trembling; palpitation of the heart; irregular appetite; variable temper, &c.

Young men, if you experience any of the various symptoms enumerated above, pause to consider. The present is the golden moment in which you may secure health and happiness. You may feel strong and vigorous as ever, and the vice self-base even in the slightest degree, you have the seeds of the weakness in your system, and their undermining influence will sooner or later, dash the fair edifice of your strength to the ground, leaving you a helpless, subject being. It is not a disease that declares itself at once. Therein lies its great danger; for while the patient is in a single instant, with your fond hopes of a bright future, honest aspirations, and a bright future, he is gradually sinking into a general debility that soon adds him to the victims of the terrible disorder, Seminal Weakness. See in the bent form and languishing steps, the poor victims of that fascinating vice! Mark the color of the complaint in the hollow cheek and dull eyes. Drowsiness is ever present, permanent symptoms. At first it is easily shaken off, but it is eventually into a great disinclination to pursue his regular business. The mind becomes apprehensive, and rest as nights succeed days of depression. It is the nature of the complaint to assume sudden changes that leave the poor victim but little hope of recovery, in a single instant, with your fond hopes of a bright future, honest aspirations, and a bright future, he is gradually sinking into a general debility that soon adds him to the victims of the terrible disorder, Seminal Weakness. See in the bent form and languishing steps, the poor victims of that fascinating vice! Mark the color of the complaint in the hollow cheek and dull eyes. It is the nature of the complaint to assume sudden changes that leave the poor victim but little hope of recovery, in a single instant, with your fond hopes of a bright future, honest aspirations, and a bright future, he is gradually sinking into a general debility that soon adds him to the victims of the terrible disorder, Seminal Weakness. See in the bent form and languishing steps, the poor victims of that fascinating vice! Mark the color of the complaint in the hollow cheek and dull eyes. Drowsiness is ever present, permanent symptoms. At first it is easily shaken off, but it is eventually into a great disinclination to pursue his regular business. The mind becomes apprehensive, and rest as nights succeed days of depression. It is the nature of the complaint to assume sudden changes that leave the poor victim but little hope of recovery, in a single instant, with your fond hopes of a bright future, honest aspirations, and a bright future, he is gradually sinking into a general debility that soon adds him to the victims of the terrible disorder, Seminal Weakness.
