MAKE HOME BEAUTIFUL.

More than building showy mansions,
More than dress and fine array,
More than domes and lofty steeples,
More than station, power and sway—
Make your home both neat and tasteful,
Bright and pleasant, always fair,
Where each heart shall rest contented,
Grateful for each beauty there.

More than lofty, swelling titles,
More than fashion's luring glare,
More than mansion's gilded honors,
More than thought can well compare—
See that home is made attractive
By surroundings pure and bright—
Trees arranged with taste and order,
Flowers with all their sweet delight.

Seek to make your home most lovely,
Let it be a smiling spot,
Where in sweet contentment resting,
Care and sorrow are forgot.
Where the flowers and trees are waving,
Birds will sing their sweetest song;
Where the purest thoughts will linger,
Confidence and love belong.

Make your home a second Eden,
Imitate her smiling bowers;
Let a neat and simple cottage
Stand among bright trees and flowers.
There what fragrance and what brightness
Will each blooming rose display!
Here a simple vine-clad arbor
Brightens through each summer day.

There each heart will rest contented,
Seldom wishing far to roam;
Or, if roaming, still will cherish
Memories of that pleasant home.
Such a home does make man better,
Pure and lasting its control;
Home, with pure and bright surroundings,
Leaves its impress on the soul.

THE WILLOW.

O Willow, why forever weep,
As one who mourns an endless wrong?
What hidden woe can lie so deep?
What utter grief can last so long?

The Spring makes haste with step elate
Your life and beauty to renew;
She even bids the roses wait,
And gives her first sweet care to you.

The welcome redbreast folds his wing
To pour for you his freshest strain;
To you the earliest bluebirds sing,
Till all your light stems thrill again.

The sparrow thrills his wedding song
And trusts his tender brood to you;
Fair flowing vines, the summer long,
With clasp and kiss your beauty woo.

The sunshine drapes your limbs with light,
The rain braids diamonds in your hair,
The breeze makes love to you at night,
Yet still you droop, and still despair.

Beneath your boughs at fall of dew,
By lovers' lips is softly told
The tale that all the ages through
Has kept the world from growing old.

Not still, though April's buds unfold,
Or summer sets the earth a leaf,
Or Autumn pranks your robe with gold,
You sway and sigh in graceful grief.

Mourn on forever, unconsoled,
And keep your secret, faithful tree!
No heart in all the world can hold
A sweeter grace than constancy.

SENTIMENTAL arithmetic calculates thus:
2 glances—make one look.
2 looks—make one sigh.
4 sighs—make one waltz.
3 waltzes—make one palpitante.
2 palpitantes—make one call.
2 calls—make one attention.
3 attentions—make one fool (often two.)
2 fools—make one flirtation.
1 flirtation, plus 2 bouquets, equal to one engagement, equal to one marriage.

A BULL.—An Irishman got out of the car at a railway station for refreshments, and unfortunately, the bell rang and the train left before he had finished his repast. "Hould on," cried Pat, as he ran like a madman after the car; "hould on, ye murd'ers! could sthame ingin,—ye've got a passenger aboard that's left behind."

SPEED OF RAILWAY TRAINS.

The Great Western Express to Exeter, England, travels at the rate of 43 miles an hour, including stoppages, or 59 miles an hour without including stoppages. To attain this rate, a speed of 60 miles has been reached. A speed of 60 miles an hour is about equivalent to 30 yards a second, or 35 yards between two beats of a common clock. All objects near the eye of a passenger traveling at this rate, will pass by his eye in the 35th part of a second; and if 35 stakes were erected at the side of the road, a yard asunder, they would not be distinguishable one from another. If painted red, they would appear collectively, a continued flash of color. If two trains with this speed passed each other, the relative velocity would be seventy yards per second; and if one of the trains were seventy yards long, it would pass by in a single second.—Suppose the locomotive which draws such a train to have driving wheels seven feet in diameter, these wheels will revolve five times in a second; the valve moves and the steam escapes ten times in a second—but as there are two cylinders which act alternately, there are really twenty puffs, or escapes of steam in a second. The locomotive can be heard to 'cough' when moving slowly, the cough being occasioned by the abrupt emission of waste steam up the chimney; but twenty coughs per second cannot be separated by ear, their individuality becoming lost. Such a locomotive speed is equal to one-fourth of the velocity of a cannon ball; and the momentum of the whole train moving at such a speed, would be nearly equivalent to the aggregate force of a number of cannon balls equal to one-fourth of the weight of the train.

GLORY OF THE PINES.—Magnificent! nay sometimes almost terrible! Other trees, tufting crag and hill, yield to the form and sway of the ground, clothe it with self-compliance, are partly its flatterers, partly its comforters. But the pine is serene resistance, self-contained; nor can I ever, without awe, stay long under a great Alpine cliff, far from all house or work of men, looking up to its companies of pine, as they stand on the inaccessible juts and perilous ledges of the enormous walls, in quiet multitudes, each like the shadow of the one beside it.—upright, fixed, spectral, as troops not knowing each other,—lumb forever.—You cannot reach them, cannot cry to them—those trees never heard human voice; they are above all sound but of winds. No foot ever stirred fallen leaf of theirs. All comfortless they stand, between the two eternities of the vacancy and the rock, yet with such iron will, that the rock itself looks bent and shattered beside them—fragile, weak, inconsistent, compared to their dark energy of delicate life and monotony of enchanted pride; numbered unconquerable.—*Ruskin.*

THE PACIFIC COD-FISHERIES.—The fisheries of the Ochotsk Sea, says the *S. F. Call*, become more and more promising, as an element contributing to our prosperity, as the capital and enterprise invested swells in volume. Two years ago, a single vessel wandered off to the then unknown banks, on an uncertain adventure, and in a round voyage of three months brought in a cargo of codfish which opened the eyes of some of our incredulous merchants. Encouraged by the result of the first experiment, the same parties fitted out a second expedition, consisting of two small vessels, and the enterprise was again crowned with most gratifying success. This was the small beginning of what is rapidly growing into an important trade. Recently eight hundred quintals of codfish, direct from the Ochotsk sea, were landed from one vessel at Clay street wharf, for J. G. Marks & Co. Thus, we see new resources constantly developing, as a result of the spirit of enterprise and adventure that pervades our people.

REMARKABLE PHENOMENON.—A terrific hurricane has visited the Society, Harny and Palmerston Islands; the Rear, on the north-east, has been entirely washed away, rendering navigation extremely dangerous. Nothing but the coral breakers remain, which, in case of a heavy sea, are entirely invisible to the eye, but in perfectly calm weather they are observable. All these Islands are well known to whalers in the South Sea. Owing to the damage by the hurricane, several vessels have been wrecked, but, so far as known, none were American. Tahiti also suffered considerably from the same cause.

ENGLAND AND MEXICO.—A London paper states that M. Eloin, the confidential agent of the Emperor Maximilian, had a conference with Lord Palmerston during his recent visit to London, but failed entirely in his efforts to induce the latter gentleman to alter the Mexican policy of the English government. Lord Palmerston is represented as telling Eloin that England would continue to stand aloof from Mexican entanglements, and that she could do nothing which might be regarded as unfriendly to the government of the United States.

LATEST NEWS.

Dates to Sept. 30.

Eastern News.

New York, Sept. 25.—A private letter from Mississippi says most of the militia now being organized in that State, express the determination not to be mustered in under any other than the State flag; now the Stars and Stripes. The same letter also says a regularly organized gang, composed of ex-rebel soldiers, has recently been formed in Vicksburg for the purpose of embarrassing, in every way possible, the action of the Government officers in the State.

New York, Sept. 26.—Intelligence received from Porto Rico via Savannah, of August 24th, states that the people of Porto Rico were startled from their sleep by an earthquake more violent than ever experienced by any living person of that place. It occurred at half-past two o'clock A. M., and consisted of terrible oscillations from east to west, preceded by fearful subterranean rumbling. Houses were violently shaken, though none fell. The people in terror rushed into the street in their night-clothes.—The shock, which lasted only forty-five seconds, was not repeated. It was felt all over the Island, but most forcibly at the capital city.

We have Havana dates to the 18th. A loyal decree says: The army in Cuba is to be reduced to the same footing as before the campaign in San Domingo.

This must imply a denial of the statements that Spain was still determined to conquer Dominica.

The Dairis Del Mariana declares, though without giving official authority, that the Island now owes Spain 78,000,000. In 1827 the debt amounted to \$127,000,000.

Montgomery, Ala., Sept. 26.—The Alabama State Convention to-day debated the election ordinance, and finally agreed that all State elections should be left to the people, and that the first election should take place on the first Monday in November.

New York, Sept. 26.—An overland camel company has been formed in this city with the object of importing to this country, and using upon the western plains next summer, a large number of camels.

By the arrival of a vessel at New London from the Arctic Ocean advices have been received from Capt. C. H. Hall the Explorer. He left the United States in 1864 under patronage of Henry Grinnell. Hall's letters traveled 150 miles over ice on dog sleds till they reached the open sea. He obtained much valuable information regarding the Franklin Expedition. He expects to spend most of his time in Prince William's Land. He wishes a vessel sent in the spring of 1867 to bring him home.

St. Louis, Sept. 27.—Incomplete returns from Colorado Territory indicate the adoption of the State Constitution by a very large majority. The clause authorizing negro suffrage is defeated.

Buffalo, Sept. 28.—A boiler exploded at Pratt & Co.'s rolling mill this morning, killing two men and wounding about twelve others. A section of boiler weighing half a ton was carried through the building about three hundred feet.

A special dispatch to the *Tribune* says that combinations for the Speakership are already forming. Colfax leads, while Ash-ley of Ohio, has many friends. Green Clay Smith of Kentucky, is urged with influential pertinacity, while the advocates of Henry J. Raymond are the most zealous, as they boast of their ability to swallow all their lesser candidates.

Cincinnati, Sept. 28.—While Gen. Grant was returning from Indianapolis at an early hour yesterday morning, a switch at the end of a curve at Guilford having been turned intentionally, the car which the General was in was thrown from the track and dragged for some distance. No one was injured. About the same time, a train on the Ohio and Mississippi railroad, carrying General Sherman, was thrown from the track east of Lawrenceburg. No one was injured.

Washington, Sept. 29.—The President has been informed by telegraph that the Alabama Convention, by a vote of 60 to 19 passed an ordinance providing that all debts created by the State of Alabama in the late war, directly or indirectly, are void, and that the General Assembly of that State shall have no authority, and are forbidden to ratify the same, or any part thereof; and the Assembly of the State shall have no authority, and are forbidden to assume or make any provision for the payment of the debts contracted, directly or indirectly, or any portion thereof, by the Confederate States or any agent or agents of the same. The Convention also decided, by a vote of 61 to 25, to submit the Amendment to the Constitution to the popular vote. A dispatch has also been received by the President announcing the foregoing action by the South Carolina Convention.

New York, Sept. 29.—Admiral Goldsborough's fleet is still at Cherbourg and will not proceed to the Mediterranean until the cholera on the coast has somewhat abated. The French and American ships and officials have exchanged many courtesies; feelings are exchanged, and a friendly attitude maintained between them.

The Herald's special says the 4th New York Heavy Artillery, Brevet Maj. Gen.

Tidball commanding, has been mustered out. The 2d Heavy Artillery will follow in a few days, leaving only a few heavy batteries in the defenses south of the Potomac. The President is said to have promised Governor Bramlette that Kentucky should at once be relieved from martial law. The removal of Gen. Palmer from command is also said to have been determined upon. His successor is not named.

The Times' special says the State Department has given notice that citizens of the United States having claims against foreign governments, not founded on contracts that may have originated since the 8th day of February 1853, will without unnecessary delay, forward to the Department statements of the same under oath, accompanied by proper proof. Under this notice, parties who have suffered from deprivations of the rebel vessels Alabama, Shenandoah, etc., fitted out in English ports, can file claims in the State Department for this demand; and it is believed, receive damages from the English Government. The notice is intended also to include those who have suffered from rebel raids upon the frontier of Canada. The Secretary of State has taken the matter in hand, and intends to prosecute it vigorously to a successful issue.

Gen. Terry, Commander of the Department of Virginia, has just given the people of that State a formidable example that martial law still prevails there, by the issuance of two orders making provision for loyal men to recover the property confiscated by the rebel Government, and by putting a stop to all legal proceedings instituted against National officers for acts done in the performance of their official duties. Hereafter, while martial law continues to prevail the General announces that any person connected with the institution of suits of this character, will be arrested. A meeting of the Board of Regents of the Virginia Military Institute at Lexington was held on Thursday last. Gen. Custis Lee son of R. E. Lee, formerly a member of Jeff. Davis' staff, was elected to the Professorship of mechanics and civil engineering. Major Blue, another rebel was chosen Professor of Natural Philosophy.

New York, Sept. 30.—A correspondent of a Philadelphia paper gives the following in regard to the Fenian movements:

Negotiations are pending for the purchase of eight ocean steamers, intended to carry one thousand men. The purchase will be made before the first of October. There has been an immense purchase of arms from the Government by parties supposed to be identified with the Fenians. Preparations for further purchases are now under consideration.

Foreign News.

The Paris Monitor says the Great Powers have removed all difficulties relating to the treaty for the re-organization of the Danubian Principalities.

The London Times denounces the continued deprivations of the Shenandoah, and says Waddell has no claim to mercy, unless he can clearly show he had no knowledge of what was known to everybody else in the civilized world.

The London Times publishes a letter from ex-rebel Benjamin, denying that the rebel Government treated Federal prisoners with cruelty, and vindicating Jeff. Davis from the charges of inhumanity. Benjamin says the chief cause of suffering was the action of the Federal Government in relation to exchange of prisoners. The Times of the following day had a letter from several naval officers denying Benjamin's statement.

The channel fleet has left Portsmouth for the Irish coast, but Fenianism has nothing to do with this movement.

The Cork Reporter announces that the Government has ordered a number of gunboats and two men-of-war to be stationed off Bantry Bay and other stations on the west coast of Ireland.

Cyrus W. Field, is a passenger by the Australasian. He was present at one of the meetings of the British Association, and made a brief speech expressive of increased faith in the accomplishment of the Atlantic Cable enterprise next year.

"DECK SCRAPERS."—An article upon the iron-clad Dictator, in the Army and Navy Journal, says that the English congratulate themselves that the Dictator can be taken by boarders. A trifling experience with her three 'deck scrapers,' as they are called, would speedily dispel this delusion. These deck-scrappers are machines for passing up through the deck from below, nine-inch percussion shells, which are exploded by a simple contrivance, sweeping off everything within their reach. They have been tested aboard the Dictator, by covering the deck with wooden men and exploding a shell with one of the deck-scrappers. Such was the force of the explosion that everything was swept from the deck into the sea, and a chain cable cut in two by a fragment of the shell. It is no secret now, that our Monitors in southern waters were provided with these deck-scrappers, to defend them against night attacks from boarders.

The consumption of beer is rapidly increasing in the United States. In 1860 the amount sold was eight millions of barrels. In 1864 the quantity used was increased to twenty-four millions of barrels, or almost a barrel apiece for everybody.

JUSTICE COMING HOME.

Students at the United States Naval Academies are not permitted to marry, but some time since, before the Naval School was removed from Annapolis, an amorous cadet, unwilling to defer his happiness until the receipt of his commission, ventured upon a private marriage with a young beauty of the place. Nothing remained but to keep the secret. The preacher knew nothing of this however, and cursorily let the mosses out of the trap, so that an old professor, who disliked cadets because they besieged in squads a certain pretty daughter he had, ascertained the fact without learning the young lady's name, and he court-martialed the cadet immediately. Despite the personal entreaties of the youth, the case was brought up. He acknowledged his crime, plead guilty and fell back upon the mercy of the court. The old professor aforesaid, objected; he stood upon law and good policy, and demanded the dismissal of the cadet.

'You will take the bread out of my wife's mouth,' said the cadet.

'I don't care,' said the professor; 'Let justice be done, if the larder be empty.'

'Do you know the lady's name?' urged the cadet.

'I don't want to know it; she is not the criminal; it is you.'

'My wife is your daughter.'

The old gentleman was overwhelmed with rage and shame. The court, acting upon his suggestion, and partly with a sly malice, struck the cadet's name from the rolls. So the old gentleman had to pay, for a time, the expenses of both daughter and son-in-law. The lad got back into the Navy during the rebellion, and rendered a good account of himself.

MATRIMONIAL.—"See, my love, here is the first garment made for you by your wife's fairy fingers. It ought to seem different to you from all other shirts in the world."

"So it does, indeed!" Aside—"the bottom buttons are sewed on at irregular distances, and it buttons over the wrong way; the collar and wristbands are just of a size, and the tail wouldn't cover the extremity of a shanghai rooster."

SEED CORN.—It is now satisfactorily ascertained that seed from the butt end of an ear of corn will ripen and produce all at the same time, and at least three weeks earlier than seed from the little end of the same ear. Farmers are always recommended to break their seed corn in the middle, and use the butt end only.

A LAWYER, in cross-examining a witness, asked him, among other things, where he was on a particular day; to which he replied, "In company with two friends."—"Friends!" echoed the lawyer—"two thieves, I suppose you mean?"—"They may be so," replied the witness; "for they were both lawyers."

The bark of the willow tree, burned to ashes and mixed with strong vinegar, applied to the parts affected, will remove all warts, corns, or excrescences in any part of the body.

A flourishing and estimable charitable society in a neighboring city, is called the "Widows' Wood Society." But is it possible that there are any widows in that city who wouldn't.

CEMENT FOR SEALING FRUIT CANS.—One pound of rosin, two ounces of beeswax, two ounces of tallow, melted together. That which you buy already prepared is generally too hard.

The States which elect Governors this fall are Iowa, Maine, Massachusetts, Vermont, Minnesota, New Jersey, Ohio, Wisconsin and Virginia.

A Yankee doctor has contrived to extract from sausages a powerful tonic, which, he says, contains the whole strength of the 'bark.' He calls it 'Sulphate of Canine.'

Artemus Ward says that when he hears the song "Come where my Love lies Dreaming," he don't go. He don't think it would be right.

An Irishman complained to his physician that he was stuffed him so much with drugs, he was always sick a long time after he got well.

The returned Iowa soldiers have issued a call for a State Convention to nominate a ticket to be co-posed of candidates opposed to the policy of allowing negroes to vote.

Why should a man always wear a watch when traveling in a desert? Because every watch has a spring in it.

WOMEN are said to be mere delusions; but it is sometimes pleasant to hug delusions.

"Parents," said a solemn lecturer, "you may have children, or, if not, your daughters may have."

We all suffer more from our own tongues than from those of others.

INTERNAL IMPROVEMENTS.

Father Denny and Hon. S. Garfield addressed the citizens of Seattle, on the subject of internal improvements, at Yester's Hall, on Tuesday evening last.

Mr. Garfield made a few remarks, in his usually eloquent and happy manner, taking the same view of the subject as Mr. Denny, and showed in a clear and conclusive manner the necessity of opening highways, if we would ever have our Territory thickly populated.

There are now twenty-five miles of the road made, the cost of which amounts to about the sum that has been subscribed, leaving a sum of eight or nine hundred dollars yet to be raised to complete the work.

The Kentucky Election.—The recent Congressional election in Kentucky resulted in the election of five members in favor of the Constitutional Amendment and four against it.

AGRICULTURAL ADDRESS.—The Annual Address before the King County Agricultural Society was delivered on Wednesday evening last, by Hon. O. B. McFadden.

THE FAIR.—The King County Fair was held on Thursday last, and, considering all things, was very creditable to the County.

ARRIVAL.—Messrs. Plummer & Harris have just received a large assortment of clothing and Ladies' Fancy Goods; also a fine stock of Furniture. Give them a call.

THE MERCER PARTY.

Through the politeness of Rev. D. Bagley, we have been handed the following telegram for publication:

A New York telegram announces that Mr. Mercer sailed from that city on the 22d ult., with his precious cargo of seven hundred ladies, "all young and handsome," by the steam transport Continental, bound to this coast via Cape Horn.

Let the patriotism and enthusiasm that have marked the various Committees in providing homes for the war-orphaned of our fallen heroes be continued and increased, for in the course of human events of some three months, more or less, they will, in whole or part, be here.

The New York Tribune says: "Of Legal Tenders afloat, there is not quite \$700,000,000; but \$250,000,000 of this consists of notes of interest, which have heretofore been hoarded mainly for presentation when due."

MOVEMENT OF TROOPS.—The Oregonian says the troops brought to Fort Vancouver, numbering four hundred men, are for service east of the mountains.

The amount of freight transported from Leavenworth over the Plains this season, says the Leavenworth Bulletin, would astonish our more eastern neighbors who have never visited our locality, and become acquainted with the immense overland business transacted from the starting points on the Missouri river.

GENERAL SCHURZ.—General Carl Schurz, having resigned his commission, has been sent by the President to travel through the South on a tour of observation as to the working of emancipation, the loyalty of the whites, the condition of the blacks, and the fitness of the several States for immediate restoration to their status prior to secession.

THE BLACKFOOT MINE.

We take the following letter from the Walla Walla Statesman, written by Mr. R. S. Jones at McClellan's Gulch, Montana Territory, Sept. 2, 1865:

"We arrived at Hellgate on the 4th of July, and after a day's rest, started on a 'prospect' up the Big Blackfoot. We failed there to find anything worth staying by, and at length made our way to Ophir Gulch, a tributary of Little Blackfoot. Here is quite an extensive and rich mining region. Virginia city is 150 miles east and south of this; Helena, or Last Chance, is 80 miles east, just over the main chain of the Rocky mountains. Prickly Pear lies over in the same region. On this side is Ophir, Washington, Jefferson, Madison and McClellan Gulches, all accounted rich, and plenty of good unprospected country. I am at present on McClellan, working for seven dollars per day, and shall remain as long as the season will permit, which will be about two months. This is the most pleasant mountain country I ever was in; plenty of chance to keep horses, and entirely free from flies, which are such a pest in British Columbia. I think that another season this region will make a big noise. You people of Walla Walla are very blind to your own interests that you do not open the Mullen road, as your produce would find a ready market here. Your flour sells here to the 'Pilgrims' as prime Oregon, and it is really very creditable to your people. It brings \$28 and \$30 per hundred here, while the Salt Lake brands sell at \$22 and \$23. There is very little in market, and I guess it will be a dollar a pound before spring. Beans sell at 65c per pound. As to other 'truck,' the distance is too great, and Salt Lake and Bitter Root can supply us cheaper. As to opposition from the States by the way of the Missouri river, you need not fear that, as green groceries brought up on pack animals from the Columbia river are sold at less prices than those shipped up from the States. Bacon is an exception, it is selling at 60 cents. I trust the crops in Walla Walla valley are good. We will look to you next year for supplies, and if you will consult your own interests you will cut out the Mullen road and secure the trade of this region, which promises to become a second California. Most all the Kootenai men are coming in now; also, numbers from Boise."

NEW ADVERTISEMENTS.—We would invite the attention of the public to the advertisements, in another column, of the following Victoria establishments:

The "Victoria House," corner of Fort and Douglas streets, a Wholesale and Retail Drapery Store, offers for sale a superior stock of FALL GOODS, direct from London by express.

At Jungerman's, the people of the Sound, who visit Victoria, will find an extensive assortment of clocks, watches, jewelry, etc.

Wilson & Murray offer to the public a large stock of groceries, provisions, and spirits. Give them a call, on Fort street.

E. B. Marvin Wharf street, Importer and Dealer in cordage, sails, anchors, chains, etc., is ready to supply with everything in his line, all who may favor him with their patronage.

DISTRICT COURT.—The District Court has been in session in this place during the past week. But few cases were heard. We will publish in our next issue a full report of the proceedings of the Court.

MARRIED.

Sheriff's Sale.

C. C. PHILLIPS, vs. DAVID LIVINGSTON and C. E. RICHARDS. By virtue of a decree and order of sale to me issued out of the District Court of the United States, for the Third Judicial District, holding terms at Seattle, at the October term, A. D. 1865, upon a judgment rendered at said term, in the above entitled action, I will proceed to sell to the highest and best bidder, at the premises, on the 31st day of October, A. D. 1865, at 12 o'clock, noon, all the right, title and interest of the defendant, David Livingston, of, in and to all that certain property, situated in Snohomish county, W. T., known as the "Snohomish mill," consisting of buildings, machinery, fixtures and appurtenances, to satisfy the judgment rendered in said case, upon a certain note and mortgage executed by said Livingston to Charles E. Richards, and by him assigned to C. C. Phillips; said judgment being for the sum of one thousand seven hundred and ninety-four dollars and thirty-one cents and increased costs.

THE GREAT REMEDY OF THE AGE.

HOLLOWAY'S OINTMENT

THE EFFECT OF THE OINTMENT ON THE SYSTEM.

To the very core and centre of all diseases which affect the human body, this remarkable preparation penetrates. It disappears under the friction of the hand as salt disappears when rubbed upon meat. The ointment performs its healing errand rapidly, safely, and without pain. Simple eruptions, open sores, hard tumours, scrofulous developments of all kinds, abscesses, cancers, old wounds, and in fact, every species of inflammation or suppuration, whether in the skin, the flesh, the glands, or among the muscles, can be arrested in its destructive course and permanently cured without danger, by rubbing in this inestimable Ointment.

BAD LEGS, BAD BREASTS, SORES AND ULCERS. In many Hospitals in Europe this celebrated remedy is now used for the cure of old wounds, sores and ulcers; in Spain and Portugal, and in many parts of Italy, the first Physicians regularly prescribe its use. It is a sovereign remedy for bad breasts and bad legs; and likewise for all skin diseases. It is to be found in the chest of nearly every sailor, soldier and emigrant.

PILES, FISTULAS, STRUCTURES.

The above class of complaints is surely removed by nightly fomenting the parts with warm water, and then by most effectually rubbing in this Ointment. Persons suffering from these direful complaints should lose not a moment in arresting their progress. It should be understood that it is not sufficient to merely smear the Ointment on the affected parts, but it must be rubbed in for some considerable time, two or three times a day, that it may be taken into the system, whence it will remove any hidden sore or wound as effectually as though it were palpable to the eye. Bread and water poultices, after the rubbing in of the Ointment, will do great service. This is the only proper treatment for females in cases of cancer in the stomach, or for those who suffer from a general bearing down.

IMPRUDENCIES OF YOUTH;—SORES AND ULCERS.

Bleaches, as also swellings, can with certainty be radically cured if the Ointment be used freely, and the Pills be taken night and morning as recommended in the printed instructions. When treated in any other way these complaints only dry up in one place to break out in another; whereas this Ointment will remove the humour from the system, and leave the patient a vigorous and healthy being. It will require time, aided by the use of the Pills, to insure a lasting cure.

DIPHTHERIA, BRONCHITIS, SORE THROATS, COUGHS AND COLDS.

Any of the above class of diseases may be cured by well rubbing the Ointment three times a day upon the skin covering the throat, chest and neck of the patient. The ointment will soon penetrate the pores and give immediate relief. To allay the fever and prevent inflammation, eight or ten Pills should be taken night and morning. The Ointment will produce perspiration, which is so essential for removing fevers, sore throats, and those oppressions of the chest which arise from Asthma, Bronchitis, and other causes.

BOTH THE OINTMENT AND PILLS SHOULD BE USED IN THE FOLLOWING CASES:—

- Bad Legs, Corns, (Soft), Rheumatism, Scalds, Cancers, Contracted and Sore Throats, Burns, Stiff Joints, Sore Nipples, Bite of Mosquit, Elephantiasis, Skin Diseases, Toes and Sand Fistulas, Skin Diseases, Files, Gout, Sore Heads, Cocoa-bay, Glandular Swel, Tumours, Chiezo-foot, lings, Ulcers, Chilblains, Lumbago, Wounds, Chapped Hands, Piles, Yaws.

Sold at the establishment of PROFESSOR HOLLOWAY, 224 Strand, (near Temple bar,) London; also by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices:—1s, 1jd., 2s, 9d., 4s, 6d., 11s., 22s., and 33s., each Pot.

* * * There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of Patients in every disorder are affixed to each Pot. [no4:6m
