

THE PUGET SOUND HERALD

Published every Friday Morning, at \$1 per annum, in advance...

The Herald can be found in San Francisco at the office of J. W. Sullivan...

We shall be pleased to furnish notices of events and others...

L. P. FISHER, 171 1/2 Washington St., San Francisco.

Is authorized to act as the Agent of this paper in receiving all...

The columns of the PUGET SOUND HERALD are open to communications...

PUGET SOUND HERALD

STELLACOOM, W. T., FRIDAY, NOV. 9, 1860.

FORGERY.—On the 24th ult., a man named Henry Wilson was arrested in San Francisco...

STELLACOOM CEMETERY.—A meeting of the citizens of Stellacoom was held on last Tuesday evening...

IN BLOSSOM.—Two apple trees in the rear of our office, too young to bear fruit the past season...

MARCHED, IF NOT BEATEN.—Among our miscellaneous items, last week, was one stating that a lot of chickens which were hatched on the 17th of March last...

APPEARS IN LOWER CALIFORNIA.—The Los Angeles Star of the 20th inst. says: "Advises received from Lower California give the most gloomy accounts of the condition of the people."

SWAMPER HANGER.—Within a year, this little steamer has changed her master no less than three times.

CAPT. PARKING.—Since this gentleman has been in command of the Eliza Anderson, he has been exceeding in his attentions to this office...

THE NEGRO REBELLION AT PANAMA.—In the intelligence from Central America it is stated that a negro insurrection had occurred at Panama...

THE MINES.

For the past two weeks, the all-absorbing topic of conversation in our town and county, even to the exclusion of politics...

We have always earnestly insisted that the whole region of country from the Cascade to the Rocky Mountains abounded in gold...

All we have needed to fully develop our vast mineral resources has been protection from the hostility of the savages.

These mines present many advantages over those of California. Capital is not required to work them, and the laborer here is not brought into competition with the capitalist.

FATAL DISEASE AMONG CATTLE.—A new and singular disease has made its appearance among the cattle of California...

A TRIPLE MURDER.—A horrible murder was lately perpetrated near San Francisco, the author of which is still at large...

FREEDOM IN DELAWARE.—We see it stated that the census returns from Delaware, covering about half the State, give a population of 72,950...

ETHNOLOGICAL MUSEUM.—An enterprising New Yorker, it is said, is getting up a "Congress of all nations," as he calls it...

CONING OF CRIMES.—Daniel Lubic, says the San Francisco Mirror, is delivering lectures in Oakland, relating to a new era which he claims is about to dawn upon the earth...

WALKING ON THE WATER.—An individual named Henry R. Rowland is astonishing the people of San Francisco by walking on the water...

THE NEGRO REBELLION AT PANAMA.—In the intelligence from Central America it is stated that a negro insurrection had occurred at Panama...

PROPAGATION OF OYSTERS.

For the last two years, the Emperor Napoleon has been causing artificial oyster beds to be planted in the Bay of Saint Pierre, and already the results have surpassed the dreams of the most ambitious Lope.

THE BEE ANNOYANCE.—Since the extensive importation and production of bees in California, they have become, in many respects, a source of great annoyance.

THE END OF DONNYBROOK FAIR.—The famous Donnybrook Fair, which for a long time was held at Donnybrook, near Dublin, where the Irishman dragged his coat tail on the ground...

CHEAP FARE TO NEW YORK.—An opposition line of steamers has been laid on between San Francisco and New York, at rates of fare that will enable all to visit the homes of their childhood...

PAY UP.—Non-paying subscribers are thus talked to by a Southern editor: "Wagons cannot run without wheels, boats without steam, bull-frogs jump without legs, or newspapers be carried on everlastingly without money."

ARMY NOTICE.—A. O. HOWLAND, BEGS LEAVE TO INFORM the citizens of Pierce County that he has opened an office at FITZGERALD'S DRUG STORE, Stellacoom...

ARMY NOTICE.—A. O. HOWLAND, BEGS LEAVE TO INFORM the citizens of Pierce County that he has opened an office at FITZGERALD'S DRUG STORE, Stellacoom...

PUGET SOUND HERALD.

STELLACOOM, W. T., FRIDAY, NOV. 9, 1860.

LATEST FOREIGN AND DOMESTIC NEWS.

The Pony Express has just arrived, with dates from St. Louis to the 13th of Oct. Marshal Vaillant, with three divisions of French troops, proceeds to Italy, it is intimated, for the purpose of arresting the progress of Garibaldi.

The vanguard of the Sardinian army is only six kilometers distant from Rome. The Prince's Ball in New York was a brilliant affair. He danced with Mrs. Governor Morgan, and Mrs. Hoyt, daughter of General Scott.

The regular Pennsylvania Democratic Committee have recommended the support of the original electoral ticket nominated before the party split. The election of Lehmann (Dem.) in Pennsylvania, for Congress, is contested.

It was announced some weeks ago that the Pony Express would probably be discontinued, on account of the change in the mail route between St. Joseph and Salt Lake. This was not true. It is now announced on authority that the Pony Express will be continued through the winter.

Col. Doryen, Commander of the Seventh Regiment, was presented recently with a service of silver valued at \$3000. The Prince of Wales arrived in New York on the 10th, and was received by General Scott. The ovation was the most splendid ever witnessed in that city.

The immense hoisting factory on Ada Hill, Troy, N. Y., was destroyed by fire on the 11th. Loss over \$88,000. Capt. Lathrop, of the ship South Star, with a cargo of Africans from Key West, arrived at Monrovia, Aug. 6th. The passage lasted forty-six days. One hundred and eight negroes died on the passage from disease contracted before and during their stay at Key West.

By the arrival of the De Sota, from Havana, we learn that the slave steamer City of Norfolk had landed eight hundred Africans. Soon thereafter she was headed seaward with full band of steam on, with the expectation that she would founder. The current set her ashore near Sierra Marina, where she was discovered by a Spanish vessel; also, five hundred negroes and crew. The remainder of the negroes had been sold. The crew were sent to Key West.

Henry Lowe, who committed forgery to the amount of \$100,000 on the Colonial Bank of Baltimore, a few years since, was arrested in New York on the 12th. The Court of Appeals, at Albany, New York, has decided the case of Van Rensselaer and Church against the anti-slavery, and in favor of the landholders.

Capt. Callender, of the Ordnance Department, has been ordered to Washington. A dispatch from Augusta, Georgia, says the receipt of the election news from Pennsylvania and Indiana has created a profound sensation among the partisans. The Carolinians are mounting their hats with cockades.

A dispatch from Philadelphia to the Tribune intimates that Morton McMichael, editor of the United States Gazette, will probably be United States Senator in place of Bigler. A. Farwell, said to be the greatest marine painter living, died at St. Luke's Hospital on the 9th.

F. P. Tracy, one of the California delegates from that State to the Chicago Convention, died at Lowville, New York, October 1st, after a sickness of about a week. He was a native of Newfoundland. Mr. Yancey spoke at the Cooper Institute, New York, on the 10th, on an immense gathering of people. While speaking, the question was put to him whether Lincoln's election would be a cause for the secession of the Southern States, to which he answered that he believed in the right of secession, and if Lincoln should bring in Federal bayonets to force his irrepresible conflict, he would join his State to resist. Mr. Yancey spoke in Boston on the 11th.

Erastus Corning was nominated for Congress on the 10th, by a Convention at Albany, New York. The Democratic Congressional Convention which met at Little Valley, New York, nominated S. M. Burnell, of Chautauque county, for Congress. R. E. Fenton was Republican nominee.

Returns from over sixty counties in Indiana indicate that the Republican majority on the State ticket will reach 15,000. The Legislature will stand nearly as follows: Senators holding over, 14 Democrats and 11 Republicans. New members, 7 Democrats and 18 Republicans, giving a Republican majority of 8. In the House of Representatives, 58 Republicans to 42 Democrats, giving the Republicans a majority of over twenty on joint ballot, which secures the election of a Republican United States Senator. The Congress remains the same as the present Congress, viz: Republicans, 7; Democrats, 4.

For Congress, in Ohio, there are elected thirteen Republicans and eight Democrats. The Republicans carry the State by about 75,000 majority. Brinkerhoff's majority will be 18,000. The Philadelphia Bulletin claims a majority for Curtin, in Pennsylvania, of 22,000, and that the Legislature will stand as follows:—Senate, twenty-five Republicans to eight Democrats; and the House, sixty-seven Republicans to thirty-three Democrats.

FOUR CHURCHES, Oct. 28th. The Pony Express has just arrived with dates from St. Louis to the 16th inclusive. The following is the general dispatch: The Pony Express was delayed twenty-four hours, the Bear River Indians having run off all the ponies at the station. There is but little more from the elections. The majorities are very much as before reported. Fusion in Pennsylvania, New Jersey and Indiana is, in a measure, abandoned. No further movements in New York. The New York Herald admits that further struggle is useless. All the attention of parties is now directed to the election of Congressmen.

The Democrats in Pennsylvania, Ohio and Indiana have gained six Congressmen. In Nebraska, Daily (Rep.) is elected to Congress. Garibaldi is victorious along the whole line of his operations. The Garibaldians have taken 20,000 prisoners. This is doubted. It is rumored that Garibaldi has invited Victor Emmanuel to go to Naples and assume authority, and he would retire home. The Royal troops at Naples have been repulsed and dispersed. The Papal Government is making fresh engagements, and promising large rewards to the troops remaining at Tivoli. The Spanish Government has demanded a congress of the Catholic powers, with a view of guaranteeing the integrity of the States to its Holiness. France admits the propriety of such a congress.

MISCELLANEOUS ITEMS.

The "Miss B. of Natchez," whom the Prince of Wales danced with at Montreal, and whom he afterwards inquired for and expressed a desire to meet again, is said to be Miss Shelby Blackburn of that place. Her sister is the wife of Governor Morehead's son of Kentucky. She is represented as being very beautiful, and probably created a slight sensation underneath the Prince's ribs.

The creditors of "Honest Harry Meigs" are requested to present their claims to G. W. Rykeman, who is authorized to settle the same. Meigs, it is said, has made a large fortune in Chile, and intends to wipe out old scores.

The census taker has found a colored man in Washington county, Ohio, one hundred and fifteen years old. He was purchased at Richmond, Va., in 1776, by Blannerhasset's agent, by whom he was conveyed to Blannerhasset's Island. The old fellow says he recollects the "war" and has been grinning to see the long time "fore de revolution war broke out."

There has lately been a gathering of Swedish troops at Ljungbyhed, in Sweden. The grandson of Bernadotte, who rules over Sweden, has made the King of Denmark a colonel of one of his regiments, and the King of Denmark has returned the compliment. The presence of the King of Denmark as colonel of a Swedish regiment was more than an act of courtesy. As he declined before the King and Queen of Sweden, he is a model of the future union of Denmark with Sweden. The Scandinavian Unity, like the German Unity and the Italian Unity, has become a great reality. The Scandinavians are naturally the noblest people in Europe, and let us hope in their noblest progress.

The Prussian papers narrate a pleasing incident which recently occurred at an exhibition of necromancy in Koenigsberg. During an interval, a gentleman rose in the body of the hall, and pointing to a lady who sat on another bench, he crossed the conjuror as follows: "Herr B. is, your next trick, as I see from the show-bill, is to make any person disappear that is pointed out to you. There sits my runaway spouse, with her paramour. Pray make them disappear." The lady turned pale and red, and the couple left amid the roaring laughter of the public.

It came out during the hearing of a case in the Lord Mayor's Court, the other day, that thirty-three months ago, on a rainy day, a gentleman having a tussle with a rat, the glass over the box was accidentally broken, and the pair set at liberty. About twenty-five men got out of the shop as quickly as the light could be done by a concerted movement of all present—some of them were lathered for tonsorial operations.

A grumpy old Scotch merchant had made a fortune, and was living on his means in Sicily, but the fever of fighting is catching, and he could not resist its influence. At Melazzo, to use his own words, he "was old fool enough to take his double-barrel and fight with the rest." Old as he was, and unused to fighting, he was among the foremost, and got two wounds for his pains. Garibaldi saw his daring; and after the fight, he warmly thanked him.

A barber in Hartford keeps a rattlesnake and a red adder in his shop for the amusement of his customers. The other day, while the reptiles were having a tussle with a rat, the glass over the box was accidentally broken, and the pair set at liberty. About twenty-five men got out of the shop as quickly as the light could be done by a concerted movement of all present—some of them were lathered for tonsorial operations.

NUMBER OF ISRAEL'S CHILDREN.—A writer, who has dipped deep into the calculation, asserts that there are two hundred thousand Israelites in the United States, while in England there are only thirty-five thousand. To any one familiar with the history of these people, no stronger argument could be adduced to show that the tide of commerce has set towards America in a manner that will in a short time outstrip all the world. The Hebrews have invariably been the precursors of commercial greatness. With the coming to any land, but in as prosperity has grown up. We do not say that they have created it, but their instinct for gain has caused them to settle before it would be apparent to other eyes. They follow in the track of uprisings, communities, constitute themselves the dealers in precious commodities, and are the brokers of the world.

PUNY TRANSLATION.—Some idea of the difficulties which attend the perfect acquirement of the English language by foreigners may be gathered from the following translation. The Calaveras Chronicle, referring to an accident which happened to a portion of the room in which Senator Gwin was lately speaking, says: "A city paper states that when Senator Gwin was speaking in a public hall in Pomona county, one of the sleepers gave way and fell."

The Echo del Pacifico very naturally translates the word "sleeper" so as to render the above incident as follows, in the Spanish language: "While Senator Gwin was pronouncing a discourse, in a public room, one of his sleeping hearers fell from his seat and made an infernal noise."

IMPORTANT POST OFFICE DECISION.—Attorney General Black has decided that the post office department has the power to withhold letters addressed to fictitious persons or firms, when such names have been assumed as a part of a system to cheat and defraud the public. The fraudulent intent, however, must be very clear. It is a common practice for sharpers to use the postal service to carry on their operations more widely, and to operate altogether under fictitious names; and a case of this kind at Baltimore, in regard to which the department desired legal advice, was the occasion of the Attorney General's decision.

LOSS OF LIFE ON MOUNT BLANC.—Three English travelers who persisted in ascending Mount Blanc on the 15th of August, during a snow storm, in spite of the remonstrances of their guides, slid from a precipice while descending the mountain, and were killed. They had tied themselves together with a rope for safety, at the instance of their guides, three in number, each of whom had hold of it to assist them on their way. One of the guides fell over the precipice with them and was also killed. The party was excessively fatigued and the path deeply covered with snow.

MUSTER OF THE K. G. C.'s.—The Memphis Avalanche states that about two thousand members of the order of K. G. C.'s are at present quartered on the Rio Grande, prepared at any moment to pour into Mexico, where they will join the Liberal forces and proceed to the capital. The body is under the command of Gen. Brickley and Grier. Several hundred others at Memphis, which is to be the great center of observation, are also preparing to go forward. It is to be hoped that the fate of Walker may cause some to reflect upon the dangers arising from such illegal expeditions.

FROM COSTA RICA.—Letters from Punta Arenas state that Generals Mora and Canas, the leaders of the revolutionary party in Costa Rica, were defeated by the government troops about the 25th of September. The Generals delivered themselves up, after the battle, and were immediately sentenced to be shot.

Agriculture.

The Poultry Yard.

ON RABBIT DECKS.—Ducks, as a general thing, are considered the most difficult to rear of any of our feathered domestic birds, and in the ordinary "take care of yourself" way, scarce one in fifty arrives at maturity. Yet, it is the easiest thing possible to bring up an entire brood; and when they can be made to weigh from five to seven pounds each, they will well repay the care and trouble required. It is better to start with the largest and finest breeds, such as will give sizeable progeny, either of the following named varieties will answer, viz.—Aylesbury, Cayuga Black and Roman. I would prefer them in the order in which they are named, though either variety will be good enough.

SETTING.—Invariably make use of a hen to bring out the young, and if the weather is very hot, once in two or three days dip the hen's breast in water.

MANAGEMENT OF THE YOUNG.—Don't allow them a wide range—have the water ready and dry. In fact, they must not be allowed any water to dabble in; merely sufficient to drink, and that placed in a shallow vessel. The sun's rays must not be allowed to injure them. I do not mean by this that they should not have the sun during some portions of the day. They must be kept in these quarters till well feathered, after which they may be turned at large.

FEEDING.—Procure liver or some offal at the butcher's, which cook with meal and potatoes, chopping the whole fine—never give them, while young, any food that has not been cooked.

THE GUINEA FOWL.—The Guinea Hen, or Pentado, is nearly an everlasting layer. They are said to unite the properties of the turkey and pheasant. They are a native of Africa, though said by some to belong equally to this country, and are easily domesticated. Its flesh is more like that of the pheasant than the common fowl, both in color and taste, and is reckoned a very good substitute for that bird. It assimilates perfectly with the common fowl in its artificial habits and kinds of food. Its gait is as peculiar as are its cries. They are fond of marshy places—always perch during the night in high situations or on trees. It is a little singular that American farmers do not turn their attention to these fowls. A knowing Jerseyman, named David Bonner, from England, hired a patch of five acres, four years ago, and commenced raising eggs for the New York market. Bonner has never hired any help, and at this moment owns a farm for which he paid \$4,700, and of which the buildings cost over \$5,000. His farm is all paid for; he owes not a cent in the world, and he owns a flock which varies from 800 to 1,300 Guinea Hens.

FEEDING POULTRY.—An idea prevails with many that any sort of grain, even if a little damaged, will do for poultry; but this is a great mistake. A friend of the writer once came very near losing his whole flock of valuable fowls from feeding them with damaged corn, which had been heated. Those who feed largely know better, and invariably make it a rule to feed none but the best, and if of corn, it is all the better for being broken.

ON BARRING.—There is just as much necessity of barring birds that are good layers, as in selecting milk cows whose animals which are bred from good milkers, though as in fowls it does not necessarily follow that their progeny are equally profitable.

NEST EGGS.—To those who keep fowls in winter, and desire eggs, a good nest is important. The qualities of a good nest egg is a tolerable resemblance to a rooster egg. A hen will not lay to an egg-shell, however perfect it may be—so she knows by its want of weight that it is a counterfeit. The best artificial egg is that made of glass, which is so exact an imitation of real eggs, in form and color, that Mistress Biddy would find it difficult to detect it. These eggs may be had at most of the agricultural warehouses, seed stores, and of crockery dealers.

FOWLS EATING THEIR EGGS.—It is well known that hens when shut up are very apt to eat their eggs. The best preventive is to keep them well supplied with lime and gravel, and with fresh meat in some form. The nest should be so deep in the boxes that they cannot reach them without standing on the edge.

FLOORS FOR POULTRY-HOUSES.—The floor of the house should be of any material easily scraped clean; quick lime and coal ashes mixed and put on hot bird well, and if coated with boiled tar when dry, will be found to stand well. Bricks have been recommended by some, but they are objectionable on account of their absorbing moisture.

FOWL MANURE.—A barrel of fowl manure mixed with muck, or leaf mold, will measure half an acre of corn, and is as valuable as guano. The dung of poultry contains silica and phosphate and carbonate of lime; and along with pigeon dung has been dried and broken down and pounded, and mixed with earthy substances, and applied in moist weather, and covered by harrowing of the seed, at the rate of forty or fifty bushels of the mixture to the acre. If used fresh, the quantity must be small; but as a very small quantity of such excrement will come into the possession of the farmer, the readiest and probably the most economical application will be to spread it evenly on the top of a dung-heap, just before its being turned over, which will mix the substance, and extend the benefits equally.

The Country Gentleman reminds farmers of the great mortality of sheep in Spring, and recommends this rule: Never let sheep get poor at any time of the year. Sheep with lamb should have a separate, quiet place, and be well fed, but not to fattening. Oats and wheat bran, with good hay or corn fodder, secure a plentiful supply of milk.

Health of Cows.

Good health in domestic animals is always a matter of primary importance. As bad health in parents transmits a tendency to disease in the offspring, it is important that every kind of animal we keep to continue on our farms should be kept vigorous and healthy.

As domestic animals are a source of human food, it is a matter of great importance to preserve them in a healthy condition. Diseased meat carries its qualities into the stomachs of its consumers. It is a serious object on which vegetarians urge against the use of animal food, that the artificial circumstances in which animals live, and the bad treatment they receive, renders them unhealthy.

As an unhealthy animal cannot consume food to as good advantage as a well one, it is again economical to avoid disease. As comparative misery and discomfort accompany disease, it is humane as well as economical to see to it that the animals under our care enjoy as far as possible their creature comforts.

Each of these circumstances is a sufficient reason for guarding with scrupulous care the health of the animals we feed; but when we derive milk from animals, it is doubly important that they are kept free from every objectionable taint. A sickly cow not only yields a diminished profit, but she yields sickly milk, and sickly in a higher degree than her flesh.

If a cow eats anything that has a strong or disagreeable odor, it appears in her milk.

If she eats anything medicinal, it comes out in her milk.

If she is feverish, her milk sours it.

If she has sores about her, pus may be found in her milk.

If she is fed on decayed or diseased food, her milk, since it is derived from her food, will be impure. It is impossible to make good milk from bad food, as to make a good building from rotten timber.

If there is anything wrong about her, it will appear in the milk, as that is an effective source of casting fith from her organism.

FARM.—This is the season for the thought crop. The seed may be obtained from the past year's experience of yourself and others, and books and papers will furnish a still wider choice. New thoughts are both capital and tools. Thinking men command success. Let the whole department receive due attention. Settle outstanding accounts, and, as far as practicable, start square with the year. Improve the farm on paper. Lay drains and build walls with pen and ink, plant fields with pencil and ruler. Get the whole farm and its future operations by heart, and thus be ready for the coming campaign. Then enlarge good farming into good "neigh" ring." Start the farmer's club, urge forward neighborhood improvements, better roads, superior school-houses, and whatever the public need. These labors will fill the leisure of Winter pleasantly and with profit.

NOTICE

TO LAND CLAIMANTS AND OTHERS.

THE UNDERSIGNED HAS MADE ARRANGEMENTS with experienced and reliable Attorneys at Washington, D. C., in connection with whom he will attend to the Procuring of Patents.

Between adverse claimants in the local Land Office, and on appeal to the General Land Office.

Cases of Conflict of Boundaries, and all other relating to the Public Lands generally, either in the local or General Land Office.

Claims of all kinds against the United States, to be presented before Congress, to the Court of Claims, or in any of the Executive departments of the Government.

Land claimants should be aware that appeals are in all cases admissible from the local office to the General Land Office, and thence to the Secretary of the Interior. Also, that they have no part to file the patent issues.

In securing the right to a patent, three things are requisite on the part of a claimant:

1st—A strict compliance with the provisions of the Act on which the claim is based.

2d—Proof of such compliance, at the time and in the mode prescribed by law.

3d—A careful examination, throughout, of prescribed forms. An omission or defect in any of these particulars renders the claim liable to be suspended or rejected at any time before patent issues.

The importance to claimants, in securing title, of having the advice and assistance of persons familiar with the Land Laws, the forms, rules and regulations of the Department, as well as the decisions rendered in analogous cases, must be apparent to all.

B. P. DENISON, Attorney at Law, Portland, Me., and Portland, Me., and Portland, Me.

WELLS, FARGO & CO., NEW YORK, CALIFORNIA, OREGON AND WASHINGTON EXPRESS AND EXCHANGE COMPANY.

CAPITAL : : : : \$600,000 D. N. BARNBY, President, T. M. JAMES, Treasurer.

Such appointments they are requested to keep exposed to the public view in their places of business. Office in Steilacoom—Commercial st., corner of Balch.

RAICH & WHEELER, Agents.

Miscellaneous.

PUGET SOUND HERALD

BOOK AND JOB PRINTING

STEILACOOM, W. T., CHAS. PROSCH, Proprietor.

HAVING ON HAND, AND BEING CONSTANTLY IN THE RECEIPT OF LARGE ASSORTMENTS OF BOOK, CARD, AND OTHER JOB PRINTING MATERIAL, WE ARE NOW PREPARED TO EXECUTE ALL KINDS OF JOB WORK WITH neatness and dispatch.

BOOKS, PAMPHLETS, CIRCULARS, BILL-HEADS, CARDS, HAND-BILLS, CATALOGUES, PROGRAMMES, ELECTION TICKETS, &c., &c.

Will be executed promptly and at reasonable prices. Terms—Cash must accompany the order in every case.

By late arrivals we have received a large assortment of printing cards of all colors and sizes, which enables us to fill any orders in that line, however extensive, at much less than former charges.

Orders solicited from all parts of the Territory, which will be filled to the satisfaction of our patrons.

WHEELER & WILSON'S

FIRST PREMIUM FAMILY SEWING MACHINES

AT REDUCED PRICES!

THE HIGHEST PREMIUMS WERE AWARDED these machines in 1858, at the following Fairs and Institutes:—

Missouri, Wisconsin, Illinois, Michigan, Indiana, New York, Chicago, New Jersey, St. Louis, Maryland, Baltimore, Virginia, Richmond, Pennsylvania, California, Mechanics' Institute, San Francisco.

These machines have taken the first premiums at all the State Fairs held last Fall throughout the Union, in every instance where they have contended, over all other Sewing Machines, and are the best.

Conclusive Evidence of their Unqualified Superiority.

Among the undoubted advantages of these machines are:—1st. Elegance and simplicity of construction, and consequent freedom from derangement and need of repairs. 2d. Durability. 3d. Unexcelled ease and rapidity of operation. 4th. Comparatively noiseless movement. 5th. Beauty of finish, and neatness of work. 6th. Heavy and strong cast-iron frame, and cast-iron table. 7th. Adaptability to a variety of purposes and materials.

They are applicable to every variety of Sewing for Family use, from the lightest needle to the heaviest cloth. It works equally well on silk, linen, woolen and cotton goods; so-sewing, quilting, hemming, gathering and filling, performing every species of sewing which the domestic fabric, as it passes through, is turned down and handsomely stitched. Thousands of these machines are used by families, seamstresses, dress-makers, tailors, cap-makers, ladies' gowns, umbrella-makers, parasols, silk and linen goods, with complete success; sometimes from one to two hundred are used in a single manufactory.

Read what the Scientific American says:—"We are having a great many inquiries for Sewing Machines from various parts of the country, and we cannot convey to you a single opinion in regard to them in this public manner. We have used Wheeler & Wilson's Sewing Machine for several years, and we can say, in regard to it, that it is without a rival. It is simple, not easily put out of order, and it performs its work as well as any other machine stands ahead of it. We state this much in regard to the excellent machine upon our own responsibility."

An ample supply of these first premium machines will be received by every steamer from New York, by H. C. Hayden, Agent in San Francisco.

Dr. B. P. DENISON, Agent in Steilacoom, Puget Sound Herald Office.

MEDICAL NOTICE.

MATTHEW P. BURNS, PHYSICIAN, SURGEON AND Oculist, Office next door to Pacific House, Main street, Olympia.

DR. M. P. BURNS RETURNS THANKS TO the friends of the Washington Territory who have received during the past few years. Dr. Burns offers his services to all who are afflicted with chronic diseases of the eye, and who are desirous of permanent relief. He is now in charge of the Marine Hospital at Port Townsend. Dr. O'BRIEN is also prepared to receive private patients. He attends himself, too, with the hope that an experience of sixteen years in the practice of his profession, both private and hospital, together with a thorough medico-chirurgical education, as evidenced by the proper granting of a diploma in that effect, will obtain for him the confidence of the citizens on Puget Sound.

Letters addressed P. M. O'BRIEN, M.D., Port Townsend, 17 1/2 will be duly acknowledged.

TOWN LOTS!

BILLIS'S ADDITION TO STEILACOOM.

GOOD CHANCE FOR INVESTMENT!

THE SUBSCRIBER, HAVING LAID OUT the lots in the Billis's Addition to Steilacoom, has the honor to announce that he is now prepared to sell Lots to suit parties desiring either to locate and improve or working investment. This claim, for advantageous location, is not exceeded by any on Puget Sound. The site has been laid out with a view to beauty and convenience; the streets being four rods wide, and the whole plot well watered by springs. Sites for three churches have already been donated and set apart. The prices of Lots range from \$50 to \$150 each, according to locality. The proprietor contemplates building a wharf from the claim during the coming summer, which cannot fail to greatly enhance the value of the entire property. A power of attorney having been given to Frank Clark, Esq., during his absence in Oregon, notice is hereby given that the same is now withdrawn.

50 1/2 LEMUEL BILLIS.

Useful Publications.

Leacock Scott & Co.'s

BRITISH REVIEWS

AND BLACKWOOD'S MAGAZINE.

JONARD SCOTT & CO., New York, continue to re-publish the following BRITISH PERIODICALS, viz: 1. The London Quarterly, (Conservative.) 2. The Edinburgh Review, (Whig.) 3. The North British Review, (Free Church.) 4. The Westminster Review, (Liberal.) 5. Blackwood's Edinburgh Magazine, (Tory.)

These Periodicals ably represent the great political parties of Great Britain—Whig, Tory, and Radical; but politics form only a feature of their character. As organs of the most profound writers on Science, Literature, Morality, and Religion, they stand as they have ever stood, unrivalled in the world of letters, being considered indispensable to the scholar and the professional man, while to the intelligent reader of every class, they furnish a more correct and satisfactory record of the current literature of the day, throughout the world than can possibly be obtained from any other source.

The receipt of these SHEETS from the British publishers gives additional value to these reprints, inasmuch as they can now be placed in the hands of subscribers about as soon as the original editions.

Terms:—For any one of the four Reviews, per annum, \$1 00 For any two of the four Reviews, " " 2 00 For any three of the four Reviews, " " 3 00 For all four of the Reviews, " " 4 00 For Blackwood's Magazine, " " 5 00 For Blackwood and one Review, " " 6 00 For Blackwood and two Reviews, " " 7 00 For Blackwood and three Reviews, " " 8 00 For Blackwood and the four Reviews, " " 10 00

Money current in the State where issued will be received at par.

Clubbing.—A discount of twenty-five per cent from the above price will be allowed to clubs ordering four or more copies of any one or more of the above works. Three copies of Blackwood, or eleven of the four Reviews and Blackwood for \$30; and so on.

Postage.—In all the principal cities and towns, these works will be delivered FREE OF CHARGE. Remittances should always be addressed, post paid, to the Publishers, LEONARD SCOTT & CO., No. 54 Gold Street, New York.

POPULAR FAMILY JOURNALS.

HOWLER AND WELLS, NEW YORK, PUBLISHERS, have the following Popular and Scientific Serials, which afford an excellent opportunity for bringing before the public all subjects of general interest.

"Life Illustrated."—A first class Weekly Pictorial newspaper, devoted to News, Literature, Science and the Arts; to Entertainment, Improvement and Progress. Its columns contain original Essays, historical, biographical and descriptive Sketches, travel and adventure, poetry, painting, music, sculpture, etc.; articles on science, agriculture, horticulture, physiology, education and every topic which is of interest to the general reader. Published weekly, at two dollars a year, in advance.

"The Water-Cure Journal and Herald of Reform."—Devoted to hydropathy, its philosophy and practice; to physiology and anatomy, with illustrative engravings; to dietetics, exercise, clothing, occupations, amusements, and all that appertain to the health and happiness of the human race. Published monthly, in convenient form for binding, at one dollar a year, in advance.

"The American Pharmaceutical Journal."—A Repository of science, literature, and general intelligence, devoted to pharmacy, education, magnetism, psychology, mechanism, architecture, and to all (some progressive) measures which are calculated to reform, elevate and improve mankind. Illustrated with numerous portraits and other engravings. A beautiful quarto, suitable for binding. Published monthly, at one dollar a year, in advance. FOWLER & WELLS, No. 101 Broadway, New York.

For Three Dollars, a copy of each of the above-named Journals will be sent one year.
