EASTERN NEWS.

New York, Oct. 16.—The Post's money article says gold is lower to day, partly in consequence of a desire to realize, on the part of weak holders, but chiefly because of the report that Government was about to sell, or was actually selling, the price has gone down, but closed with an upward tendency.

Report of the Grand Jury.

To the Hon. District Court for the 2d Judicial Dist. of Washington Territory. We the Grand Jury respectfully submit the following report:

That we have found no indictment for the United States or the Territory of Washington, which is gratifying and shows a good moral condition of society, composed as it is in part of a transient mining population.

We find the County Jail safe and clean and free from prisoners except one Territorial prisoner.

We also find a very large amount of delinquent taxes unpaid from year to year, that are assessed against the largest property holders of this county.

We also examined the papers in the Auditor's Office in regard to the Road Supervisor for Clarke County and we find many receipts marked paid in labor, where the parties have paid in currency.

We also find the books of the Treasurer kept in a neat and business-like manner, for which the Treasurer deserves credit.

We also find the books of the District Clerk kept in good condition, for which the Clerk deserves great credit.

We also find the books of the Auditor kept in a proper manner, and all the deeds recorded. But the building where the records are kept is unsafe from burglars and fire, and this Jury recommend that this County build a suitable place at this Court House and have the Records brought here for safe keeping.

We also find the Assessor to have sold Poll Tax receipts for currency and paid back to the County in County Scrip he making for his private use the difference in price between Legal Tenders and County Orders.

And this Grand Jury further reports that it has no further business and begs to be dismissed.

LADIES FAIR.—The Ladies of the L. I. S. of the M. E. Church in Vancouver, will hold a Fair on Monday evening, Oct. 29th, at the store formerly occupied by Mr. Thos. Bart.

We trust there may be a full attendance, the object of the Society being a praise-worship one. We have no doubt that all who attend, will have a pleasant time.

FATAL ACCIDENT.—We have just learned the particulars of a very sad accident, that occurred on the day before yesterday near the residence of Mr. Wm. Switzer, on the bank of the Columbia, opposite Vancouver and which resulted in the death of a young girl about eleven years old. It seems that two emigrant families, respectively named Brooks and Ricker, and just arrived from Iowa were temporarily camping in a tent under a grove of palm trees near the place aforesaid. Their cooking apparatus consisting of a sheet iron stove and other utensils had been placed against an old log from which projected a large limb about two feet in diameter and some twenty feet long. The fire against the log had nearly burned off the butt end of the limb and one of the women apprehending the breaking and falling of the limb and consequent destruction of the cooking utensils and stove, directed three of her little girls to remove the apparatus. While engaged therein, the large limb suddenly broke and fell upon the children. One of the little girls had received a fatal injury and expired before the medical aid procured from Vancouver reached her. Her spine was broken besides having received other internal injuries. The other two children were only slightly hurt and will recover. The father of the family was absent at the time, having gone on a prospecting tour back of Vancouver. We sincerely sympathize with the grief-stricken family, who have sustained this sudden calamity.

LIVELY.—Our town has been crowded for several weeks past and our business men have been doing a rushing business. A number of new improvements, to which we have not heretofore referred have been commenced within the week. Mr. Morse our Sheriff, has completely renovated and beautified his premises and we see several new buildings commenced in the upper part of town. Every body is expecting a season of prosperity.

Mr. Crawford of Cowlitz county has discovered a species of magnesia or tripoli on the banks of the Cowlitz. It is found there in immense quantities. A specimen quantity was given us by Mr. Steggart and it seems to possess the qualities of magnesia. Whatever it may be it is undoubtedly a profitable discovery.

THE REASON WHY.—A few days since our old friend Mister Shandy O'Shelter, (a brother of a boy is Shandy) was met by another Son of Erin, who cautioned him against the use of Lager Beer, to the exclusion of all other fluids, and warned him of the consequences that would ensue, if he continued to drink more than twenty-seven glasses a day.

"Och!" says Shandy, "away wid ye now, here and 'tis in fluid Ireland they drink every day till they are eighty years old, and they the snakes in their boots do they get at all, at all."

"Troth, an it's true for ye, Shandy," replied a Son of Erin standing by "for the devil a pair of boots, or a snake is in auld Ireland at all this. Go home wid ye now."

We direct attention to the new advertisement of Mr. Reinhardt, which appears in our columns this week. We know the facts stated therein to be true and would cordially recommend him to the consideration of the public.

PROMOTED.—We are pleased to learn, that our friend and fellow townsman W. Kelly, late of the Oga Cavalry, has been promoted to a Captaincy in the 8th Cavalry, Regular Army. It is but a just recognition of his worth and meritorious services. It is supposed that the 8th will remain stationed on this coast.

A Committee consisting of Mr. M. Wintler, C. R. Steggart and R. J. Moore were appointed at the last meeting of the Fire Company and authorized to purchase an Engine with the money raised for that purpose.

TAXPAYERS! ATTENTION!—Only five days more grace allowed, gentlemen. Walk up to the Treasurer's office and settle and you will save 10 per cent. and costs of collection.

Agents Wanted FOR— HEADLEY'S HISTORY OF THE— Great Rebellion.

The Civil War in the United States. BY HON. J. T. HEADLEY.

THIS new and attractive work will embrace a comprehensive account of the whole contest, neatly printed from beautiful clear type, on good paper, elegantly illustrated with numerous fine steel engravings and bound complete in ONE SUPERB VOLUME of over 1200 pages. It will be furnished to subscribers during the coming autumn.

Mr. Headley has given an impartial and truthful and reliable History of the War. The work is an elegant one, and fully meets our expectations in every respect.—Rockford (N. Y.) Advertiser.

It is written in Headley's best style, and is without the best delineator of battle scenes that there is among our American authors. Persons purchasing this work will get a valuable and entertaining History of the War.—Oregon (Salem) Statesman, July 2.

Of the many Histories of the War, "The Great Rebellion, or a History of the Civil War in the United States," by J. T. Headley, author of "Napoleon and His Marshals," etc., is undoubtedly the most candid and impartial, as well as the most interesting which has been issued from the American press. As descriptive writer Mr. Headley has no superior in America.—Daily Herald, (Portland, Oregon) July 17.

It is the best History yet offered. We recommend it to all who desire a fair and impartial history.—Dunsmuir (Salem, Oregon) Review, June 25.

Be not deceived into subscribing for any other "Impartial History" (anonymous now-a-days,) believing it to be Headley's.

N. B.—No other History of the War contains the important Official Report of General's Grant and Sheridan.

FLORENCE
SEWING MACHINE
COMPANY,

Florence, - Massachusetts,

MANUFACTURERS OF THE

CELEBRATED,

REVERSIBLE FEED

SEWING MACHINES!

Making Four Distinct Stitches.

While a large number of Machines have been of-
fered to the Public, some of which possess points of

excellence and acknowledged merit, we have long felt what
others have experienced, the necessity of a Machine more
perfect in its mechanical structure, combining in the high-
est degree simplicity with durability, and while capable of
doing a greater range of work, one that could be easily
understood and comprehended by all.

To supply a Sewing Machine free from the objections at-
taching to others, has been no easy task. For we had not
only to surpass others as they appeared years ago, but also
as improved from time to time, by more recent experience.

We claim for the FLORENCE the following advantages
over any and all Sewing Machines:
1. It makes four distinct stitches, Lock, Knot, Double
Lock, and Double Knot, none of which is stronger and more
durable than the Lock, thus enabling the operator to select
a stitch perfectly suited to every grade of fabric, and where
necessary new seams much stronger than it is possible to
make by hand.

The FLORENCE makes four distinct stitches with as
much ease as ordinary Machines make one, and with as
little machinery.

The result of repeated tests has been all we could desire,
and from its first introduction, the FLORENCE has gained the
praise of friends, and been regarded a household necessity;
proving that the public fully appreciate the utility, beauty,
and durability combined in the FLORENCE Machine.

2. We claim for the FLORENCE the following advantages
over any and all Sewing Machines:
1. It makes four distinct stitches, Lock, Knot, Double
Lock, and Double Knot, none of which is stronger and more
durable than the Lock, thus enabling the operator to select
a stitch perfectly suited to every grade of fabric, and where
necessary new seams much stronger than it is possible to
make by hand.

3. Every Machine has the reversible feed motion, which
enables the operator, by simply turning a thumb screw,
to have the work fed in either direction, and to stay any
part of the seam, or fasten the ends of seams, without turning
the fabric.

4. Changing the length of stitch, and from one kind of
stitch to another, can readily be done while the Machine is
in motion.

5. The needle is easily adjusted,
6. It is almost noiseless, and can be used where quiet is
necessary.

7. Its motions are all positive; there are no springs to
get out of order, and its simplicity enables the most inex-
perienced to operate it.

8. It does not require finer thread on the under than
on the upper side, and will sew across the heaviest seams,
or from one to more thicknesses of cloth, without change
of needle, tension, or turning the ends of fabric, and where
necessary new seams much stronger than it is possible to
make by hand.

9. No other Machine will do so great a range of work
as the FLORENCE.

10. It will hem, gather, fell, blind, braid, quilt, and
gather and sew on a ruffle at the same time.

11. The taking up of the slack thread is not performed by
the irregular contraction of a wire coil or uncertain opera-
tion of wire levers. The precision and accuracy with
which the FLORENCE draws the thread into the
fabric, is unequalled in any Sewing Machine hitherto
offered in the market.

12. We furnish each Machine with "Barrett's Self Sewer,"
which guides the work itself, and is of incalculable value,
especially to inexperienced operators.

13. It is fully protected and ironed by Elias Howe, Jr.,
and his associates, and our own Letters Patent.

14. While possessing the above and many other advantages,
the FLORENCE is sold at corresponding prices with other first
class Machines, and a careful examination will fully sub-
stantiate all that we have claimed for it, and justify the
assertion we now make, that it is the best Sewing Machine
in the world.

We warrant every Machine to be all that we claim for it
and will give a written warranty.
