## STABAT MATER.

By the Cross, in grief and weeping,  
The sad mother watch was keeping,  
While the Son was hanging there,  
Through whose spirit, deeply crying,  
Plunged in sorrow, faint with sighing,  
Pierced the cruel soldier's spear.

O! the mourning, sorrow-riven  
Mother of the King of Heaven—  
God's Alone Begotten One,  
Who stood grieving, sighs upheaving,  
Spirit-reaving, bosom-cleaving,  
For her ever-glorious Son.

Who could stand, his tears withholding,  
In such agony beholding,  
Jesus's Mother travelling?  
Who, O who his tears could smother  
At that sight—the loving mother  
With her first-born sorrowing?

For her people's exiation  
She beholds His death-oblation;  
See the wounds the scourge has wrought,  
Yet by man, by God forsaken,  
While His brother, His spirit out.

Mother, well-spring of compassion,  
Make me feel of you the passion,  
That I share thy sorrow's load,  
Make my heart to glow within me,  
That I thus His grace may win me,  
With the love of Christ my God.

Holy Mother, stamp in vivid  
Lines upon my heart the vivid  
Stripes of Him who died for me,  
That in wondering admiration  
Of that strange humiliation,  
I may bear His pang with thee.

Let me ever share the pang which  
Felt the bosom—share the anguish  
Of the Saviour crucified!  
Near the Cross let me in thorough  
Fellowship of kindred sorrow  
Mourn him who for me bath died.

Maid, all earthly maids transcending,  
To my prayer in meekly bending,  
Let me share the death of Jesus,  
All the stripes he bore to ease us,  
And his agony divine.

With His scourging torn and bleeding,  
And in heavenly transport feeding,  
On the love His blood display;  
With a holy fire inflamed,  
Virgin let me not be shamed  
In the dreadful judgment day.

By the grace His Cross has yielded,  
Let my death let me be shielded,  
By His perfect sacrifice.  
When this fleshly frame shall perish,  
Grant that He my soul may cherish  
In the bliss of Paradise.

**School District Boundaries.**  
EDITOR STATESMAN:—There having been several informal applications made for the formation of new school districts, and for changes of district lines, I hereby appoint the first week of October next to hear all such applications, and such hearing will be had at my office in Walla Walla City, W. T. The applications should be made on Monday, the first day of the week, so that ample time may be given for investigation.

It is desired that the applications be made by petition, and that the petition contain a description of the boundaries of the new district, and of the alterations desired in the old, and that said petition be signed by as many as possible of the residents of the district in which the changes are desired; and in case there is any opposition to the proposed change, it would be well for the opponents to sign and send in a remonstrance.

Section 32, page 19, of the school law provides that, "Any person or persons asking any action of the Superintendent which shall affect the boundaries of any district, shall notify the clerk of said district in writing of his intention to ask for the same, stating the day on which he will be asked, and the time not less than two days—when the same will be heard, and shall file a certified copy of said writing with the superintendent."

Without this notice, the superintendent cannot alter the boundaries of a district, therefore particular attention to the provisions of this section is required.

The notice should contain a description of the alteration as set forth in the petition, so that all parties may know exactly what is desired.

The certificate of the service of the notice may be as follows:

I hereby certify that at the county of Walla Walla, W. T., on the day of A. D. 1866, I left with the clerk of school district No. —, personally, (or in case he cannot be found, then at his residence) the original notice of which the within is a true copy.

Dated this day of A. D. 1866.

This certificate as to service of notice should be sworn to by the person serving the same.

W. G. LAUFORD,  
School Superintendent.

**A Dog-Story.**—A lady residing in Campton recently owned a dog, which because of age and infirmity had ceased to be of use. One day she remarked to a laboring man connected with the family that she would give half a dollar if he would take the old fellow off out of the way and kill him. The servant promised to do so if he might have the dog's skin to make therefrom, for his own use and comfort, a pair of gloves. At this stage of the conversation, the old dog, who had been lying quietly on the earth, arose, and giving the conspirators a look, more in sorrow than in anger, left the house. On a rise of ground, not far away, he stopped and gave a lingering gaze at the house and vicinity, then plunged into the woods, never to return. He never was seen or heard of afterwards. It is supposed that he committed suicide.

**GRUMBING.**—Some people are ever grumbling. If they have not great troubles, they have little ones to keep them fretting, and many would say of them that they grumble merely for pastime. A fruitful disposition is of no advantage—it only makes the possessor and those connected with him miserable. The better way is always to look on the bright side of things, for we shall meet with trouble enough in the world, without turning out of our way to seek it. Grumbling makes a hard job harder, sours the temper, and never facilitates business.

The Indians are making trouble to the South Pass route. Sunday the telegraph operator at La Bonta, 65 miles west of Fort Laramie, was given a lively chase between La Bonta and Deer Creek.—Salt Lake Vi. dette.

## The Philadelphia Convention.

The following is the call for the Philadelphia National Convention, about which we have heard so much of late:

A National Union Convention of at least two delegates from each Congressional District of all the States, two from each Territory, two from the District of Columbia, and four delegates at large from each, will be held at the city of Philadelphia on the 14th of August next. Such delegates will be chosen by the election of the several States who sustain the administration in maintaining unbroken the union of the States under the Constitution which our fathers established, and who agree in the following propositions, viz:

The Union of the States is in every case indissoluble and perpetual, and the Constitution of the United States and the laws passed by Congress in pursuance thereof are supreme, constant and universal in their obligation. The rights, the dignity and the equality of the States in the Union, including the right of representation in Congress, are solemnly guaranteed by that Constitution.

No external power, and no internal force, by blood and treasure has been expended in the civil war. There is no right anywhere to dissolve the Union or to separate States from the Union either by voluntary withdrawal, by force of arms or by Congressional action, neither by secession of States nor by the exclusion of their loyal representatives, nor by the National Government in any other form. Slavery is abolished and neither can nor ought to be re-established by any State or Territory within our jurisdiction.

Each State has the undoubted right to prescribe the qualifications of its own electors; and no external power, rightfully can or ought to dictate, control or influence the free and voluntary action of the States in the exercise of that right.

The maintenance inviolate of the rights of the States, and especially the right of each State to order and control its own domestic concerns according to its own judgment, exclusively, subject to the limitations of the United States, is essential to that balance of power on which the perfection and endurance of our political fabric depends, and the overthrow of that system, by usurpation in centralization of power in Congress, would be a revolution dangerous to a Republican Government and destructive of liberty.

As such electors in the 36 States and 9 Territories of the United States, and in the District of Columbia, who in a spirit of patriotism and love for the Union, can rise above personal and sectional considerations, and who desire to see a truly national Union Convention, which shall represent all the States and Territories of the Union, assembled in Philadelphia, and who desire to see the national flag to hold counsel together upon the state of the Union and to take measures to avert the possible dangers from the same, are especially requested to take part in the choice of such delegates. But no delegate will take a seat in such convention who does not loyally accept the principles of the Constitution, and who is attached in true allegiance to the Constitution, the Union and the Government of the United States.

**THE EFFECT OF IRON ON FRUIT TREES.**  
A writer in the California Farmer states that he has known non-productive fruit trees restored to a prolific state by driving nails and spikes into the tree near its roots. The editor adds the following: "The fact of nails and spikes driven into trees is not new to us for we have given several instances of trees restored to a healthy bearing condition by this measure, and will republish some facts soon. Old iron of any kind not only benefits the soil by imparting a desired material, but the sap of the trees when nails are driven into it, soon imparts to the foliage new color and life. Any one can see this by trial. Besides, iron scraps, old horse shoes, hoops, etc., will attract electricity to the plants and trees, and this is what is much needed."

A CORRESPONDENT informs the London Times that in Switzerland the telegraph is the property of the state. An office is established in almost every village, and the charge is uniform, one franc for twenty five words, irrespective of distance. The dispatches are printed, and the establishment yields a large revenue to the government. The writer advocates a similar system in England, where the need for it is much greater than in Switzerland, and where the profit would be enormous. At present messages are indy sent at dear rates, whole districts are without telegraphs, and the States gain nothing.

A MORT, attributed to a well-know capitalist on the Paris Bourse, in reference to the Emperor's speech at Auxerre, is now circulating in Paris among the classes opposed to war. It is said that the Emperor has carried deceit to such a point of refinement, that one cannot even believe the contrary of what he says.

## WALLULA CORRESPONDENCE.

WALLULA, July 24, 1866.  
ED. STATESMAN:—We have actually been notified and notified too, by a newspaper correspondent. Only think of it, sir; you can't imagine how proud we felt on reading your issue of the 20th inst. The O. S. N. Co. must have had some intimation of this intended notice by your Dallas correspondent "Traveler," for the steamer Yakama actually reached this city at 10 o'clock, P. M., Saturday—nearly ten hours ahead of her usual time; and the next morning early, she actually hoisted all her colors—four in number—and kept them fluttering in the breeze all day; a thing she was never known to do before. We would step to the door—breast swelling with pride—gaze for awhile on the "embramatic field" and then drop back, and read "Traveler."

We are certainly under obligations to "Traveler" for his kind notice of our "position," and the "quiet habits" of our citizens, and the gentlemanly deportment of our "packers and teamsters." This is all true enough, as the Justice of the Peace of this precinct can testify to. Their "quiet habits" have nearly stayed said official to death, for out of four years services as Justice, he has had only one case of assault and battery before him; and for this case he made no charge!

The "black spot" your correspondent alluded to did exist, in about the locality he placed it, but for what reason, or by whose instrumentality it was placed there, I cannot say. It certainly would have a peculiar significance to a stranger, but to all outside appearances it was a quiet place, and was kept for gambling purposes by one of our "Civil Rights Brother" and African despot. That it was unnecessary and uncalled for, none in this community will deny. I agree with your correspondent, that "if it is necessary to have such an institution in a small community like this, let it be located somewhere outside, and not directly under the eye of every one passing to and from the city. Strangers will form opinions of our morality by our surroundings; and this putting our 'worst foot foremost' would not be likely to leave a good impression.

Nor is it a notice that I have used the words "did" and "was kept," &c. For it exists no longer; it went out last Sunday like the last flickering rays of a tallow candle; the proprietor went out with "flying colors." That is the colors of the "Yakama" were flying, but whether it was the unprecedented early arrival of the steamer, or the display of so many flags, or the remarks of your correspondent "Traveler" that caused this moving panorama of chaos and lamps, I am unable to say. That the "Chabang" is closed and its precincts deserted, is true. "Not all is quiet on the Columbia."

"Not a drum was heard,  
Not a funeral note,  
As his way to his rest he hurried."

You can now assure your correspondent "Traveler," that on his return, he will find everything lovely, and morality high at Wallula.

**DIVORCES IN OHIO.**—The Cincinnati Gazette has an interesting condensation of that portion of the report of the Ohio Commissioner of Statistics for 1865 which relates to the number and character of divorces. It says:

The whole number of divorces in this State reach the number of 837 in one year. This, at the present population of the State, is one to three thousand persons, and one divorce to 26 of the annual number of marriages. It is not a very pleasant thought that when we look upon the twenty-six couples of young married people, we know that one of those couples must be divorced. Yet such is the state of facts.

The causes of divorce are described in the revised statutes of the State to be: 1. Another wife or husband living; 2. Willful absence for three years; 3. Adultery; 4. Impotence; 5. Extreme cruelty, which includes gross neglect of duty and habitual drunkenness. The divorces of other States are likewise recognized, which oftentimes gives rise to frauds.

To divorce parties for three years' wilful absence is in many cases to legalize fraud. It may be said that neither the wife nor society are benefited by keeping a vicious or vagabond husband. But if a husband or wife, especially the former, chooses to take that mode of divorce in this immense extent of country and various States, he can do it at any time. By residing in any of four-fifths of the American States for two or three years, a divorce can be obtained on the part of the husband, at the request of the husband or wife, while the other party is perhaps lamenting his absence, and utterly innocent of any offence.

The statistics show that divorces were granted for the following causes:

Adultery	278
Absence	278
Cruelty and neglect	230
Drunkenness	53
Impotence	20
Total	857

It is a little curious that while the crime of adultery is very difficult to prove, there should be no less than 278 cases of open adultery proved in court. It shows great abandonment of character on the part of a portion of the community. It is not less curious that the majority of these are in counties where there are no large towns.

A ONE ARMED PRINTER.—The Huntsville (Mo.) Citizen says: "We had working in our office last week a printer with only one arm. He sets, justifies and empties his sticks, and sets the most correct 'proof' of any printer we have ever seen. As he can do nothing but set type he manages by constant 'pegging away' to get up about five thousand ems a day. His name is Theodore Savage, and he is a native of New York, where he lost his arm some twelve years ago, in jumping from a railroad train while it was in motion. He worked for us about two weeks, but on Friday morning last he came up with a 'brick in his hat' and on that evening he left and has not been heard from since."

A STOUT but distinguished lady went to a fancy ball dressed as a shepherdess. Her mild husband, on seeing her thus attired, said: "Sarah, dear, you look like a shepherdess who has just dined on her flock."

A YOUNG lady says the reason she carries a parool is that the sun is of the masculine gender and she cannot withstand his ardent glance.

**IS RACE AN ACCIDENT.**  
We hear a great deal said by radicals about the injustice of making "the accidental hue of a man's complexion his qualification for the exercise of political power"—and some who chatter on this subject pronounce it absurd to do so—that, in plain English, to refuse suffrage to the negro because of the complexion of his skin. This looseness of language is indicative of the looseness of thought and of ideas of the people who use it in connection with giving to the ignorant, brain-dwarfed negro, equal privileges with those which are the legitimate property of the Caucasian white man. We say looseness of language, because mere complexion has not excluded men, in the Southern States, from the suffrage of privilege at all. Moreover, the hue of a negro's skin is in no way an accident, but of the immutable, determinate operations of Nature, by so means the most marked of the radical differences that have set him apart, from the outset of human history, as of entirely a different and inferior order of the human genus to that of the Indo-European, and his offspring. Those who talk thus of the disfranchising effects of color, forget that it is blood, not color, that has settled this question, in the Southern States; that the white man, as Senator Sumner and persons of the same complexion, has not excluded men, in the Southern States, from the suffrage of privilege at all. THE COMING SLAUGHTER.—Private advices from Washington state that with the adjournment of Congress the work of decapitation will commence. Not a man is to be left in office who refuses to support the Government, or in any manner opposes the restoration of the Union.

BLACKFOOT.—Mr. E. B. Whitman gives us some interesting items from that quarter. He reports that just at the present time the country is in every respect greatly overdone.

THE FORT WAS ABANDONED BY THE HUDSON BAY COMPANY IN 1856. During the Yakima war the Indians entered it, destroyed a large amount of property belonging to the Hudson Bay Company.

AFTER THE WAR WAS OVER IT WAS THOUGHT ADVISABLE TO RE-ERECT A FORT SOMEWHERE IN OR NEAR THE WALLA WALLA VALLEY, THE INDIAN NAME OF WHICH IS "PASKA PAM."

THE IMPROVEMENTS WHICH THE HUDSON BAY COMPANY DEMAND PAY FOR, (ONLY \$150,000) STANDING ON THE COLUMBIA, NEAR THE MOUTH OF THE WALLA WALLA RIVER, WERE FOUR ADOBE BUILDINGS, FORMING A SQUARE ENCLOSURE ONE HUNDRED AND TWENTY FEET SQUARE, TEN FEET HIGH AND TWO FEET THICK.

THESE ADOBE WERE MADE BY INDIANS AND WERE POORLY MANUFACTURED; STILL THEY HAVE STOOD THE TEST OF WEATHER AND FIRE FOR ABOUT TWENTY-FIVE YEARS, AND DID FAIR TO STAND A GOOD MANY MORE YEARS.

MR. J. ROSSER, A FORMER RESIDENT OF WALLA WALLA, IS KEEPING AN ASSAY OFFICE AT HELENA CITY.

WALLULA CORRESPONDENCE.

WALLULA, July 24, 1866.

ED. STATESMAN:—Since my last, I have had a call from some of H. B. Magrath's "byas lyes." It seems a certain corporation known as the "Hudson Bay Company" claim a large interest in this town site (Wallula) and every now and then they deem it advisable to keep the claim alive against the United States.

IN 1860 WE HAD A VISIT FROM GOVERNOR DALLAS, OF THE HUDSON BAY CO., AND HIS STAFF. HE TOOK THE usual measurements and inventory, and a short time afterwards presented to Congress, among other items: "Wallula, \$83,687 48."

THE PARTY OF ENGLISHMEN WHO ARRIVED LAST WEEK, AGAIN TOOK MEASUREMENTS, AND I UNDERSTAND THEY NOW PUT THEIR CLAIM FOR WALLULA AT \$150,000; BUT WHETHER THEY CONSIDER THE PROPERTY HAS INCREASED SINCE 1860 TO THE TUNE OF \$66,312 52, OR WHETHER THEY MAKE THE ADDITION TO COVER GREENBACKS, IS QUESTIONABLE.

THE IMPROVEMENTS ERECTED BY ROSS WERE OF WOOD—WHAT WAS CALLED A "PICKET POST." THE LOCATION WAS CENTRAL FOR A LARGE SCOPE OF COUNTRY AND CONSEQUENTLY COMMANDED A LARGE PORTION OF THE INDIAN TRADE THAT HAD HERETOFORE GONE TO DALLES AND VANCOUVER.

THE BUILDINGS ERECTED BY ROSS AND TRANSFERRED TO THE HUDSON BAY COMPANY WERE BURNED IN 1850, AND THE OLD ADOBE BUILDINGS, WALLS AND BASTIONS WERE COMMENCED IN 1849 AND FINISHED IN 1845, UNDER THE SUPERVISION OF ARCHIBALD MCKINLAY, FORMERLY OF OREGON CITY AND CHAMPOEG, OREGON, AND NOW RESIDING IN BRITISH COLUMBIA.

AFTER THE WAR WAS OVER IT WAS THOUGHT ADVISABLE TO RE-ERECT A FORT SOMEWHERE IN OR NEAR THE WALLA WALLA VALLEY, THE INDIAN NAME OF WHICH IS "PASKA PAM."

A Trip to Warm Springs.

ED. STATESMAN:—Starting at half-past 5 o'clock A. M., about a week ago, from Walla Walla, I found myself comfortably settled at the Warm Springs House the same evening.

BREAKFAST OVER AND DIGESTED BY A COOL WALK, THE warm bath was the next luxury, and, Mr. Editor, I am unable to describe the sensation which a bath in this water produces.

THE NATURAL TEMPERATURE OF THE WATER IS NEARER WHAT YOU WOULD HAVE IT THAN COULD BE PRODUCED BY ANY ARTIFICIAL PROCESS. MEBINKS ONE COULD SLEEP IN HIS LIMPID BED AND DREAM OF FLOATING TOWARDS PARADISE.

THERE ARE TWO SPRINGS NEAR TOGETHER, EACH GUSHING FROM A SEAM IN THE ROCKS WHICH FORM THE RIGHT BANK OF THE UMATILLA RIVER.

AN EMINENT GERMAN CHEMIST HAS ANALYZED THE WATER AND PUBLISHED IT EQUAL TO THE CELEBRATED SPRINGS AT BADEN BADEN, GERMANY, AND IT IS THEREFORE OF GREAT VALUE TO INVALIDS WHO ARE IN A WEAK DELICATE STATE OF HEALTH.

THE WARM SPRINGS HOUSE IS KEPT BY MR. CLUTE, WITH THE ASSISTANCE OF MR. KELLY, AND WITH THE pleasant and accommodating treatment of these gentlemen and their estimable ladies no one can fail to enjoy the time spent at this place.

ANOTHER ENJOYMENT AT THIS DELICIOUS RETREAT IS TROUT-FISHING. TAKE A STROLL ANY MORNING OR EVENING ALONG THE RIVER BANK WITH BOOK AND LINE AND YOU MAY RETURN IN AN HOUR OR SO WITH A STRING OF FISH WEIGHING FROM TWO TO TEN POUNDS EACH.

I ADVISE THE CARE-WORN BUSINESS MAN, WHO DELVES IN THE DUST FROM EARLY DAWN TO THE LATE shadows of evening, to take his family, weary with domestic drudgery, and leave their cares behind them and seek this calm and healthful retreat and become wiser and better in due time.

THE POWER BEHIND THE THRONE.—It is reported of Secretary Seward that at a late diplomatic dinner he remarked, that although Abraham Lincoln was nominated for President over his head, yet he never allowed any mortal being to go between Lincoln and himself; and although Andrew Johnson had been selected without his cooperation, yet no living man would ever be successful in standing between him and the present Executive.

COZ. JENNINGS ARRIVED FROM THE INDIAN COUNTRY YESTERDAY, HAVING BEEN ON THE WAR-PATH SINCE JUNE 23d. HE HAS HAD FROM THIRTY TO TWO HUNDRED MEN WITH HIM, AND NO DOUBT HAS ACCOMPLISHED ALL THAT SO MANY MIGHT BE EXPECTED FROM SUCH A COUNTRY WITH SUCH A FORCE.

FLINT.—THE SAW-MILL OF MR. EVES IN FLINT DISTRICT, IS TURNING OUT LUMBER NOW-DAYS. COL. FOGUS EXPECTS TO ERECT A QUARTZ MILL THERE THIS FALL.

THE LIVERPOOL TIMES IN REFERRING TO THE ARRIVAL OF GOLD FROM THIS COUNTRY REMARKS: "IT IS A remarkable fact that almost all the dismal prognostications which were indulged in here, both during the war and since it ended, have been signally falsified by actual events."

PUBLIC DEBT.—THE JUNE STATEMENT OF THE PUBLIC DEBT WILL NOT BE PUBLISHED UNTIL THE STATEMENT SHOWING THE OPERATION OF THE TREASURY FOR THE FISCAL YEAR ENDING ON THE 30th ult., IS COMPLETED.

MR. COOK.—IN REGARD TO THE CASE OF ALLEGED INCEST UPON THE POLICE COURT THE EVIDENCE DEVELOPED THE FACT THAT THE YOUNG GIRL, MISS —, ABOUT 15 YEARS OF AGE WAS ENJOINED BY HER OWN uncle on her mother's side.

Letter from Farmer.

WALLA WALLA, Aug. 2, 1866.

ED. STATESMAN:—IN YOUR LAST ISSUE I NOTICE A "Query." I AM SURPRISED THAT YOU SHOULD INQUIRE AFTER ME, AND AS AN EXCUSE FOR MY ABSENCE I WILL SAY THAT AS WE HAVE AN AGRICULTURAL SOCIETY, MANY OF THE MEMBERS OF WHICH ARE OF THE "Literary Kind" and capable writers, I thought surely you would not lack for agricultural correspondents; for certainly those men who came forward so nobly in organizing that Society are not going to be drones and go plodding along on their farms and not even give us an occasional item in your paper, to let us all see how they do their farming, and what they have learned by the summer's experience.

THESE INTELLIGENT FARMERS I SAW AT THE SUBJECT OF OUR MEETING AND NOW I WILL SAY TO MY BROTHER FARMERS, THAT, IN MY OPINION, THEY CAN ALL DO THEMSELVES MORE GOOD BY DEVOTING AN EVENING ONCE OR TWICE A MONTH TO WRITING A SHORT ITEM FOR THE PAPER THAN IN ANY OTHER WAY THEY CAN EMPLOY THE TIME.

LETTER FROM THE EAST.

COMPILED FROM THE DAILY OREGONIAN.

Dates to July 28.

WASHINGTON, July 23.—The Senate concurred in the House amendments to the bill defining the number and regulating the bill of the officers of the navy. It also amended the civil appropriation bill with amendments. Mr. Pollard, as a test question, moved to take up the Bankrupt bill. The motion was laid on the table, 7 to 14.

THE SENATE VOTED TO HOLD EVENING SESSIONS, AND THE HOUSE VOTED TO BEGIN ITS SESSIONS AT 11 O'CLOCK, AND TO HOLD EVENING SESSIONS TO CONSIDER THE BILLS ON THE SPEAKER'S TABLE.

MR. BINGHAM, IN THE HOUSE, INTRODUCED A BILL INCREASING THE DUTIES ON IMPORTED WOOL. THE ADVALOREM DUTY IS INCREASED 10 TO 11 PER CENT. ON RAW WOOL, AND THE DUTY ON WOOLEN GOODS IS REDUCED FROM 40 TO 50 CENTS PER POUND.

MR. CLARK, OF OHIO, OFFERED A RESOLUTION REQUESTING THE PRESIDENT TO URGE THE CANADIAN AND BRITISH AUTHORITIES TO RELEASE THE FENIAN PRISONERS, AND THAT THE PRESIDENT CAUSE THE DISCHARGE OF ALL FENIANS UNDER THE PROSECUTION OF THE UNITED STATES COURTS—YEARS 102, 103 & 2.

THESE GREAT CURIOSITY FELT AS TO WHAT POSITION THE PRESIDENT WILL TAKE ON THE TENNESSEE RESOLUTION, AND BELIEF IS EXPRESSED THAT HE WILL VETO IT ON THE GROUND THAT TENNESSEE HAS NEVER BEEN OUT OF THE UNION, AND THAT ADMISSION IN CONGRESS IS SOMETHING TO CONGRESS TO SETTLE ITSELF.

NEW YORK, July 23.—The Great Eastern may arrive at Heart's content on Friday when the associated press will receive by telegraph early and full details of the laying of the cable.

CHICAGO, July 23.—The latest phase of the European situation is thus described by the English and German press: "The London Times remarks that there is too much reason to fear hostilities will be resumed on both theaters of the war, and says that, if so, Austria, unless sheltered by France, may soon be compelled to hear terms of peace—proclaim by Prussia in her own camp."

THE LONDON TIMES FURTHER SAYS IT IS DIFFICULT TO BELIEVE THAT EITHER ITALY OR PRUSSIA WILL ULTIMATELY REJECT THE SPECIFIC OVERTURES OF NAPOLEON, ESPECIALLY IF THEY SHOULD BE SUPPORTED BY ENGLAND. THE LONDON NEWS COMPARES THE CESSION OF VENETIA TO FRANCE AS AN ACT OF A DEBTOR WHO MAKES AWAY WITH HIS PROPERTY WHEN ON THE EVE OF BANKRUPTCY.

THE NEW YORK ALBANY ZEPHYRUS SAYS THE REJECTION OF NAPOLEON'S TERMS IS NOT LESS IMPORTANT THAN THE BATTLE OF SUDERA. EVEN BAVARIA, SWABIA, AND BADEN WOULD PREFER UNITED AND POWERFUL UNITY UNDER PRUSSIA TO A GERMANY DISUNITED AND TORN, OFFERING A FIELD FOR NEIGHBORING NATIONS AS NAPOLEON WISHES IT TO BE.

IT IS STATED THAT MR. DANA WITHDREW FROM THE CHICAGO TIMES BECAUSE HIS OPINIONS TOUCHING THE COURSE OF THE PRESIDENT WERE NOT ENTERTAINED BY A MAJORITY OF THE STOCKHOLDERS. THE TIMES IS EXPECTED TO BE A JOHNSONIAN PAPER HEREAFTER.

IN ABSENCE. Watch her kindly start- From the sweet protecting skies Follow her with tender eyes; Look so lovingly that she Cannot choose but think of me; Watch her kindly, stars!

Soothe her sweetly, night- On her eyes, if wearied, press The tired lids with light caress; Let that shadowy head of thine Ever in her dreams seem mine; Soothe her sweetly, night!

Wake her gently, morn- Let the notes of early birds Seem like love's melodious words; Every pleasant sound, my dear, When she stirs from sleep, should hear; Wake her gently, morn.

Capital Punishment in England. The British Parliament is debating, and will probably pass, a bill for the regulation of capital punishment. The bill extends to England and Ireland, but not to Scotland. It is to be murder in the first degree, where a person murders another with express malice aforethought against the person murdered, or any other person, such malice being found by the jury as a matter of fact; where a person murders another with a view to and in or immediately before or after the commission by such person of any of the following felonies, or for the purpose of thereby enabling himself or any other person to commit any of the following felonies, namely, rape, burglary, robbery, piracy, or unlawfully setting fire to any dwelling-house, a person being therein; where a person murders another in the act of escape, or for the purpose of enabling himself or any other person to escape from or avoid lawful arrest, or detention, immediately after committing or attempting to commit a murder or any of these felonies; and where a person murders a constable, or any other police officer in the discharge of his duty. On conviction of murder in the first degree, judgment of death to be entered of record. All murders not to be entered of record. All murders not to be entered of record. All murders not to be entered of record.

THE SUFFRAGE QUESTION.—The New York Tribune says that the negroes of New Jersey are moving to contest legally their right to the ballot. Claiming that, as taxpayers, representation is due to them in the enactment and administration of the laws, they will offer their votes on the next election, and, if refused, they will bring the matter to the courts, and there lay open the whole question of suffrage. The most influential and wealthy colored men of the State had the enterprise, which retains for its chief lawyer, General B. F. Butler.

A BOSTON paper has a report that a clerk in one of the wholesale stores of that city has lately been afflicted with a painful breaking out on the neck, which he first attributed to boils; but the matter getting serious, he applied to a physician, who informed him that he was suffering from the poisonous properties of articles used in the preparation of his enamel-paper collars, which he had been also used in his system; and upon inquiry it was found that some half dozen other clerks, all of whom wore those collars, were affected in a similar manner.

TO THE YOUNG MEN.—One of the meanest things a man can do, and it is not an uncommon occurrence, is to monopolize the time and attention of a young lady for a year or more, without any definite object, and to the exclusion of any other gentleman, who, supposing him to have matrimonial intentions, absent themselves from her society. It prevents the reception of eligible offers of marriage, and fastens upon the young lady, when the acquaintance is finally dissolved, the unenviable and unmerited appellation of a "Bird." Let all your dealings with women, young men, be frank, honest and noble.

A VERY SAD CASE.—One of our prominent lawyers, in conversation with a friend remarked that there was actually danger of his starving to death. "Why," is not your credit good at the butcher's?" asked your friend. "It is not that," was the reply, "the fact is, I have no appetite for breakfast, I never have time to go home to dinner, and when I go home to supper I am generally too drunk to eat."

THE EYE.—A beautiful eye makes silence eloquent; a kind eye makes contradiction an assent; an enraged eye makes beauty dead; the eye speaks a language in which there can be no deceit; nor can a skillful observer be imposed upon by looks, even among courtiers of women.

The family newspaper in Rhode Island is classed among the articles of prime necessity, along with the pig and potato, and it is safe from the food-tide of commercial disasters. Creditors cannot touch it, the sheriff must respect it. Happy people! Happy publishers.

A MAN who had lived much in society said that his acquaintances would fill a cathedral, but the pulpit would contain all his friends.

CARPETS.—The foreign grass called scotch carpet has been found an excellent preservative for carpets. If that is not procurable, lead tobacco strown thickly over the carpets is the best thing to banish moths. The carpets should be sewed up in coarse linen before they are laid by.

NICE WAY TO COOK EGGS.—Place a shallow dish upon the stove, and fill with milk to the depth of an inch or more; add salt. When nearly boiling, drop in careful, by as many eggs as will set without crowding; cook gradually till the whites are set; add butter and serve.

ST. PETERSBURG journals say that the investigation into the attempt on the Czar's life, has shown that it was not an act of a wild and single enthusiast, but the result of a conspiracy, which includes numerous accomplices.

DIDO fell in love with Aeneas, but he gave her the cut directly. And he has his imitators. Men have been cutting didoes every since.

AN unwashed newsboy, being asked what made him so dirty, replied: "I was made, as they tell me, of the dust of the ground, and I reckon it is just working out."
