

LEGAL TENDERS.

Treasury notes obtained a very general currency for the reason that by act of Congress they were made a legal tender in the payment of all debts public or private.

NEUTRAL PAPER.

Our friend Struve, of the Vancouver Register, in retiring from the editorial tripod, very truthfully pronounces a "strictly neutral paper a confounded humbug."

THE MAILS.

Our Washington correspondent writing under date of August 31st, says the attention of the Post Office Department has been called to the manner in which the mails are carried between Walla Walla and Portland.

BOISE CITY ITEMS.

Philip Ritz, Esq., writing us from Boise City, under date of Sept. 15th, furnishes the following: "The Indians have made another raid into the lower part of this Valley."

The National Finances.

WALLA WALLA, September 16, 1867.

EDITOR STATESMAN.

We now come down to the probability as to when we may expect to begin to create a sinking fund, to cancel our "National blessing" (National debt).

NATIONAL BANKS.

Here comes your Treasury Vampire—the poor, simple contractor who swindle Government out of a few thousand—but here comes the monster that will ere long clean us out of millions.

POST-OFFICE DEPARTMENT.

This department is daily in receipt of large numbers of complaints from residents of Idaho, Washington, and other western Territories.

MONEY ORDER SYSTEM.

This system has become so important a branch of the Postoffice Department, that increased facilities have just been added for the transaction of business.

IMPEACHMENT.

The evidence taken by the Judiciary Committee, looking to the impeachment of the President, is in the hands of the Public Printer.

GOV. BALLARD.

Gov. Ballard, of Idaho Territory, has been suspended from office. He is succeeded by a gentleman named Gibbs, whose name was before the Senate at its last session in connection with this office.

CHAMBERLAIN.

WASHINGTON CORRESPONDENCE.

WASHINGTON, August 17, 1867.

EDITOR STATESMAN.

Washington, August 17, 1867. A general thing, is very dull during the recess of Congress. People who have flocked here during this session, some who are after appointments, others who have nice little bills they want passed.

STANTON AND THE PRESIDENT.

It has been known in official circles that the President and Mr. Stanton have not been on good terms for some time past. The President, in October of last year, intimated to Mr. Stanton that his resignation would be accepted.

WOMEN LABORERS.

Col. Forney tells us that one of the worst features of the social condition of Germany is the sight of so many women laboring in the fields.

USELESS LAWS.

It is quite amusing to note the attempts of law makers to try to force things into a given channel, or to compel the natural law that governs everything to give way to their hobbies.

PARSON BROWNLOW.

Here is what a gentle Memphis editor says of the mild-mannered Brownlow: "His lips are redolent with guile, a deadly, putrescent odor exhales from his tongue, which is set on fire of hell."

MONTANA.

Fall returns from Montana show that James M. Cavanaugh, the democratic candidate is elected to Congress by an overwhelming majority.

QUARTZ SALE.

One hundred and seventy-five feet on the Blue Cloud Lode, was sold on Tuesday, by the Messrs. Greer, for the snug little sum of \$12,000.

TRINITY GULCH.

Mr. Wyatt called upon us yesterday and showed us a sack of coarse gold taken from claim No. one above discovery, on Trinity Bar. This claim has regularly yielded from \$25 to \$40 per day to the hand since it was opened.

NEW MINES.

We learn that a new discovery of placer diggings has been made on the headwaters of the Payette River. There is quite a rush to that locality, and we'll soon learn something reliable.

Letter From San Francisco.

SAN FRANCISCO, September 5, 1867.

THE BAY CITY.

San Francisco may be set down as the dullest town on the Pacific Coast, in proportion to its population. Wholesalers as well as retailers are complaining of a scarcity of money, unprecedented in the history of the Bay City.

POLITICS.

This sort of trade has been running high in the City as well as State. It is reported that never in the history of California, has there been waged such a bitter and abusive campaign.

SPIRIT OF THE CALIFORNIA PRESS.

In looking over your California files you will perceive what changes the press of this State have been undergoing. The Alta, formerly a vigorous Johnson organ, has gone over fair and square to the radicals, and so much has it succeeded in gaining the confidence of that party.

THE BRANCH MINT.

Are your Columbia river friends exciting themselves to hear the law of Congress carried out, establishing a Mint at the Dalles? In conversation with leading citizens of San Francisco, I learn that they do not intend to oppose the measure.

Our Election System.

It may not appear like the most profitable and entertaining theme for a newspaper article, says an exchange, to speak of the election system practiced in this country, because almost every voter is as well acquainted with their details as we are; yet reference to the evils and abuses of these systems may have a tendency to do some little good in the way of correcting the difficulties which grow out of them.

The old saw of "each man for himself and the devil for the hindmost," is neither eloquent or elegant, but it is expressive when applied to the election system practiced in this country. It will probably apply to those practiced in all other countries, just as well, but our purpose is to show to those who yearly participate in elections, how easily they can be duped, and how easy they can dupe others.

REMARKABLE LETTER FROM GENERAL GRANT.

The following is the text of the letter addressed by General Grant to the President on the occasion of the latter ordering the removal of General Sheridan:

HEADQUARTERS ARMY OF THE UNITED STATES, WASHINGTON, D. C., August 17, 1867. To his Excellency, Andrew Johnson, President of the United States: Sir—I am in receipt of your order of the date directing the appointment of General H. Thomas to the command of the Fifth Military District, and Gen. Sheridan to the Department of the Missouri, and Gen. Hancock to the Department of the Cumberland; also your note of this date, enclosing these instructions: "To carry into effect the enclosed order I would be pleased to hear any suggestions you may deem necessary respecting the assignment to which the order refers."

TERRIBLE SHOOTING AFFRAY.

A shooting affray took place at Cave Gulch, a few days since, between J. M. Sigler and Wm. N. Duffee, an Irishman, formerly resident of Helena, in which both parties received mortal wounds. The cause of this bloody altercation, as reported to us by a citizen of Cave, was a quarrel between Duffee and Sigler in reference to a sum of money (\$10) which the Irishman claimed Sigler owed him.

FROM FLINT CREEK.

Mr. Howard, just in from the Flint Creek silver mines, called on us to-day, and gives a very flattering report of the progress of that section. Mr. H. has been for the past five weeks engaged in working his claim on the Poor Man's Joy Lode, which he has opened to the depth of 27 feet, and developed it to a 6 foot crevice of rich silver quartz.

LARGE SALE OF QUARTZ PROPERTY.

We are informed by Mr. Sparks, of the firm of Sparks & McPherson, that the silver quartz property known as the Green Campbell lode, Silver Star District, Jefferson county, has recently been sold to an Ohio company for the sum of \$80,000 in currency.

TRINITY GULCH.

NOTICE.

ALL PERSONS INDEBTED TO ME, are requested to make immediate payment to H. M. CHASE, who is my authorized agent. GEORGE BAGGS, Walla Walla, W. T., September 15, 1867. 404W

DR. E. SHELL.

HAS RESUMED THE PRACTICE of his Profession, and may be found at his Office, on Main Street, Walla Walla.

Walla Walla Statesman.

FRIDAY EVENING, September 20, 1867.

Eight millions of dollars is the sum that the Government has been defrauded out of by distillers in New York and Brooklyn, aided by United States revenue officers, within the six months last past.

THEVES have fertile brains. The latest manoeuvre is to rush into a saloon, and in form the bar-tender, that the house is on fire in the top story. The bar-tender, customers, and all, rush out, and are followed soon after, by the thief, carrying the contents of the money drawer.

A GENTLEMAN recently attempted to remove a large bug from the bonnet of a lady who sat in front of him at the theater. The result was, he unrooted all her back hair. Deeply chagrined, he hastily apologized, but soon learned that the bug was artificial and was used to hold the head and hair together. A scene was the consequence.

One of our Methodist brethren was lately giving in a religious meeting the experience of himself and family, saying, among other things, that his first wife was a very good woman, but she sickened and died in a very happy frame of mind, and he should be rejoiced if his present partner would go just the same way.

At a social party in Cincinnati, a young lawyer observed a lady approaching whom he had the misfortune to offend. He extended his hand and exclaimed, "Good evening, Mary." "Miss Mary, if you please," said the young lady, bridling up in his familiarity. "We can miss you, Mary, only when you are absent," he replied, and they were soon reconciled. The young lady's hope is that she will soon be "miss"-ed no more.

SWEET SOUNDS—God has made the whole earth vocal with sweet sounds. The untraveled forest echoes the notes of the wild bird, and the habitations of men are made glad by the song of the feathered minstrel; but above all, the human voice, that combines the highest charm of sweet sounds with the inspiration of thought, is given for no ordinary purpose of earthly pleasure. In its whisper of affection, how grateful! In its whisper of religious devotion, how exalted! For its participation in joy, how unspeakable!

THAD. STEVENS, during his late sickness, was greatly bored by callers, and a correspondent tells this story: Among his late visitors was the distinguished Robert Dale Owen, who read a lengthy communication from the spirits of Clay, Webster, and Stephen A. Douglass, on the subject of reconstruction. After the reading, Stevens was asked what he thought of their views. "Well," said he, "present my compliments to those great defects, and tell them for me that if they have nothing better to offer on that important subject I think that since they have died they have not been in a progressive state. Especially present my compliments to Douglass, and tell him I think he is the d— political humbug that was ever on the face of the earth."

ALCATRAZ—Confronting the very entrance to the Bay of San Francisco, the solitary isle of Alcatraz stands covered by its numerous fortifications. Its batteries guard the embrasure of the Pacific, through which speed and come the ships of all nations, freighted with their rich cargoes. From its lofty parapets the sentry descends on every side the rugged shores of the golden land studded with many a cozy farm house, many a rising hamlet, and the great city of the Occident. His eye looks out upon the waste of waters, and he sees as the day wanes the lonely Pharos on the Farrallones begin its nocturnal revolutions, a confirming guide for the mariner as he approaches the goal of his adventurous pilgrimage. From the sky piercing flagstaff streams out the onsets of the Republic, a mighty eagle beneath whose sheltering shield the freemen of a mighty commonwealth find refuge and security. The guns, save on the occasion of joy, sleep peacefully on their casemates, for peace is on the land, and the gods, Mars and Bellona—hell-born deities—scourge other and less favored climes. Long may the dogs of carnage rest thus muzzled. Long may the starry banner wave an emblem of peace combined with power above the turrets of the commonwealth, and the stalwart sons of liberty never fire a gun from Alcatraz, in anger.—Sunday Mercury.

HEALTH OF COWS—Good health in domestic animals is always a matter of primary importance. As bad health in parents transmits a tendency to disease in the offspring, it is important that every kind of animal we desire to continue on our farms should be kept vigorous and healthy. As domestic animals are a source of human food, it is of great importance to preserve them in a healthy condition. Diseased meat carries its qualities into the stomach of its consumers. It is a serious objection which vegetarians urge against the use of animal food, that the artificial circumstances in which animals live, and the bad treatment they receive, render them unhealthy. As an unhealthy animal does not consume food to as good advantage as a well one, it is economical to avoid disease. As comparative misery and discomfort accompany disease, it is humane as well as economical to see that the animals under our care enjoy as far as possible their creature comforts. Each of these circumstances is a sufficient reason for guarding with scrupulous care the health of the animals we feed; but when we derive milk from animals, it is doubly important that they are kept free from every objectionable taint. A sickly cow not only yields a diminished profit, but she yields a sickly milk, and sickly in a higher degree than her flesh. If a cow eats anything that has a strong or disagreeable odor it appears in her milk. If a cow eats anything medicinal it comes out in her milk. If she is feverish her milk shows it. If she has sores about her, pus may be found in her milk. If she is fed upon decayed or diseased food, her milk, since it is derived from her food, will be imperfect. It is as impossible to make good milk from bad food, as to make a good building from rotten timber.—Little Falls Farmer.

The trials of speed will take place on Saturday, the last day of the fair. Any person may present any animal or article for exhibition and compete for premiums, if he or she live within the boundaries of the Society, and the animal is owned by the exhibitor, or articles have been manufactured and owned by the exhibitor living within said boundary.

No animal or article entered for a premium can be removed unless by the consent of the committee of arrangements, before the evening of the third day, under penalty of forfeiture of the premium. Animals and articles entered for premiums must have cards attached, with class and number, which will be furnished by the Secretary. Animals to which premiums have been awarded, will be paraded, under the direction of the Marshal, so that the visitors and competitors may see the prize animals.

No person will be permitted to interfere with the judges, verbally or otherwise, during their examination of articles or animals, for the award of premiums. The Executive Committee will use every precaution in their power for the safe preservation of all articles and stock on exhibition, but will not be accountable for any damage or loss.

T. G. LEF, D. M. JESSE, Managers. The earnings of the Union Pacific Railroad for the quarter ending August 1st, were seven hundred thousand dollars. This will be increased in the next quarter, as the road is put through to 425 miles in working order. It should be remembered that this result is from a very business alone, through a new country, and is not to be compared with the vast through business that must follow the opening of the whole line to the Pacific. The success of the enterprise seems to be thoroughly assured.

TO THE UNFORTUNATE. NEW REMEDIES! NEW REMEDIES! Dr. Gibbon's Dispensary, 616 KEARNY STREET, San Francisco, established in 1854, for the treatment of all the principal diseases, such as Gonorrhoea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin diseases of (years standing) and Ulcerated Legs, successfully treated.

FRED W. COLMAN,

Caution to the Unfortunate. Beware of the San Francisco quacks and pretenders who, with bogus sworn certificates, dispense their wares. Some of the self-styled Doctors, whose names are to be found in the daily and weekly newspapers of San Francisco and other places, are traitors and become too lazy to work at their trades. Not a few of these impostors, newspaper cutters, and intelligence office keepers, have taken advantage of the San Francisco Directory, and you will find their names and addresses in it, but you will find their names and addresses in it. Look at the Directory for 1867, and you will find the names of these impostors, and you will find their names and addresses in it. Look at the Directory for 1867, and you will find the names of these impostors, and you will find their names and addresses in it.
