ESTHER VALE.

BY J. WILLIAMS, GRAHAM.

From the Portland Telegram.

Esther Vale was but a little more than a child in years, but a woman's soul looked out from her clear gray eyes, and every line of her proud, sweet face expressed character and refinement; her forehead was broad and low, and was shaded by a mass of golden hair; her complexion was "delicately fair"; her form was lithe and slender; her step was like that of a young queen, and the proud lift of her head and her graceful movements greatly enhanced her beauty.

Her home was in the little village of Princeton, on the banks of the Sacramento river; but beautiful as was the little white stone house, the place had grown distasteful to her. Her father had died in her infancy, and her mother had soon after married again—this time making an unfortunate connection. Mr. Winters being a selfish and obstinate man, Mr. Vale had been generous and affectionate; two children had resulted from this marriage, and left Esther but small room in her mother's heart. The girl had been carefully educated, however, from the money left by her father, her mother deciding that Esther must go for herself at an early age as possible, and that teaching would be a very "genteel" occupation.

And so, when Esther Vale was seventeen, the time in which our story opens, she had finished her education—had surpassed in knowledge the teachers of the seminary in the neighboring town, and was ready to enter upon the task of supporting herself. The village of Princeton boasted of but one school, and that was taught by an old pedagogue who had imported to the school an awkward country boy who has been full of sports to improve his opportunities of learning. It is not too late yet, I am only twenty now, and if you are not married to some one else before I can claim you, you shall yet be my wife. Remember, Esther, I shall claim you yet!

He pressed her to his heart, kissed her passionately, and then with a choking sob he turned and walked away through the gloom of twilight.

Esther returned to her home and went about her usual duties. The next day she heard that Richard Verney had gone to college.

The summer months wore away and passed by with Esther in anxious attempts to procure a situation as teacher, and in studying. Every day her step-father made her feel more and more that she was a burden to them, and her weak, inefficient mother often anxiously inquired if she had yet had no situation yet that would do.

Early in September, however, one of the teachers of the seminary, where Esther had been educated, obtained a situation in a "private" school for herself, and a position as a teacher for Esther.

The young girl immediately entered upon her duties, and in the active life of which she now accustomed herself, she strove to forget the past.

But in the evening hours, when she was alone in her own room, she would remember with a keen pang the frank, boyish face of Richard Verney and the strong enduring love he bore her, and she wondered how he succeeded in his college life. She had not seen him in the summer, as he professed to spend his vacation in the vicinity of the college and devote his time to study, for which he had suddenly shown great taste.

The years went on and Esther Vale had matured into a glorious woman. Time had smoothed her hair, and her complexion increased her bright beauty and given her additional graces. She had risen from the position of junior teacher to that of principal, and had no lack of suitors. But not one among them all came up to her ideal. And so she gradually relinquished all idea of ever marrying. She had heard of Richard Verney, that he had graduated with the highest honors from Yale College, and had thereafter watched his onward and upward course with a proud feeling of satisfaction in the girlish days of long ago, she had never dreamed that her erstwhile country lover possessed genius and the gift of eloquence; but her rejection of him had roused those dormant qualities and made a man worthy of the admiration dealt out to him on every hand.

It was ten years from the evening of their parting on the banks of the Sacramento, and Esther Vale, attired as became her queenly beauty, was seated in the well lighted parlor of her residence. Her under-teachers and pupils were in their own part of the house, and the mistress was alone. She had just been reading in one of the daily papers a speech recently delivered by the Hon. Richard Verney, and now she was looking into the grate with a thoughtful face. The door had suddenly opened, and a moment after a servant brought to Miss Vale a card bearing the name of Richard Verney.

Esther's cheek flushed and paled as she read the name, and her voice faltered as she commanded the servant to admit the gentleman. To conceal her agitation she turned down the gas at twilight, and awaited his entrance. The servant speedily ushered the visitor into the room, but, to Esther's surprise, a fairly-like being hung to her arm.

Esther never contemplated the possibility of her old lover's marrying, but now a keen pang shot through her heart as she thought he had come to introduce his wife to her—his first love.

As soon as the mist had cleared away from her vision, she saw a tall and handsome man regarding her with a puzzled expression. His face was bronzed and bearded, a graceful mustache and imperial lent dignity in his massive chin.

PUGET SOUND MAIL.

SATURDAY, NOVEMBER 13, 1880.

DELEGATE BRENTS has left for the National Capital.

OREGON gives a Republican majority of 582.

THE California Assembly is supposed to stand 42 Republican to 38 Democratic. The Republicans have from 16 to 18 on joint ballot, and will elect a Republican to succeed Senator Booth.

THE Republicans secured one of the six presidential electors in California. This changes the general result, giving Garfield 214 and Hancock 153, Garfield's majority in the Electoral College being 59.

THANKSGIVING.—Gov. Newell has issued the following thanksgiving proclamation:

In the merciful Providence of an Infinite Father, the seasons of seed time and harvest have passed, and the abundant fruits of the year, with its hopes and its memories, have been gathered up.

Mindful of the dependence of all people upon Almighty God for the blessings of life, health and food and raiment, for Christian civilization and Christian liberty, the President of the United States has set apart Thursday, the 25th day of November, as a day for thanksgiving and praise.

Like-wise impressed, I, Wm. A. Newell, Governor of Washington Territory, do recommend to the inhabitants thereof, that, abstaining from secular pursuits, they assemble on that day in their places of worship and each one, after the manner of his own religious faith, do render homage and thanks to the Giver of all Good, and do supplicate a continuance of His tender mercies. "Blessed is he that considereth the poor."

CHEERS for the elected and defeated candidates for the Presidency were given at a banquet of the Loyal Legion of New York on the evening of the 4th inst. Grant made a short speech, and cheers were given for Garfield, President-elect. When the cheers had subsided, General Morris stepped forward and said, "As a Democrat, and one who bows to the will of the majority, I again call upon this gathering to give three cheers for the President-elect of the United States." They were given with a will. Then another said, "As a Republican, I ask for three cheers for General Hancock as a soldier." General Aspinwall added, "And as a gentleman." Dr. Watts added, "As an acting Grand Commander of the Order"—to which the entire assembly responded heartily.

THE Northern Pacific has virtually stopped working on the Pen d'Oreille division of their road, says the W. W. Statesman. It is reported that over a hundred and forty employes of this company voted at the recent election. The immense vote cast in comparison to our census returns would naturally give a coloring to this idea. Over 600 Chinese have been engaged by the O. R. & N. Co.; they are ex-employees of the Northern Pacific. Work will be kept up all winter on the Snake river road if the weather is not too severe. A large force from the Cello line will be up there before long and commence laying the track between Walla Walla and Dayton.

OPERATIONS at the Port Townsend Iron Mine are assuming shape and proportions. Of this important enterprise the Argus remarks: "The blast furnace is nearing completion, and smelting ore will doubtless commence next month. The immense shed full of charcoal, the spacious buildings, substantial wharf, and general appearance betoken a flourishing business on a scale large enough to materially benefit not only Jefferson county but the whole of Puget Sound. Those in charge evidently know what they are about, and, as there is ore enough in the valley to keep them going for years and years, the prospect is certainly fair for a lasting industry."

THE Idaho Democrat says that 180,000 head of cattle, 50,200 head of sheep, and about 2,000 head of horses passed through there during the past season for the Eastern markets.

THREE hundred Mormons are now on their way from Salt Lake City to Southern Colorado and New Mexico. They are rapidly increasing in numbers in Idaho.

CHAS. BIRD, station agent at Tenino, has a railroad velocipede, and recently fixed it with a short arm so it would run on the narrow-gauge, it having been built for the wide track. He can run into Olympia in an hour, a distance of 15 miles.

SHELLFISH continues to spread in San Francisco.

OREGONIANS are expecting an eruption of Mount Hood, the indications pointing that way.

It is accordance with the new Socialist law, 80 citizens of Hamburg have been ejected from that city.

THE Governor of Australia receives a salary equal to that of the President of the United States.

A PROSPEROUS YEAR.—The year 1880 is going into history as one of the most prosperous the business men of this country have known. The record of failures kept by the mercantile agencies shows that the bankruptcies for this year are so far the smallest for any year since 1873.

For the quarter ending with Sept. 30th the number of failures is 379, against 1272 in the corresponding quarter of 1879, and the liabilities were \$12,121,422, against \$15,275,550. For the nine months ending the same time there were but 3476 failures in 1880, against 5320 in 1879 and the liabilities were only \$45,010,185, against \$81,054,940 in the nine months of 1879. The aggregate of the liabilities of the corresponding period of 1878 was \$197,000,000. Everything points to the probability that the failures of this year will be the smallest since the quarterly records have been kept. The last quarter of this year is likely to be better than the last quarter of 1879, and in that case the liabilities of bankrupts for this year will be reduced to the astonishingly low level of \$62,000,000, or less than half the losses of last year.

A NOVEL STEAMSHIP.—A very remarkable screw steamer is about to be built on the Clyde for the Compagnie de Navigation Economique (limited) of Glasgow and Paris. This vessel will have no funnel of any kind, burning her own smoke, and her four masts will be placed in pairs on the gunwale or projecting brackets to keep them clear of the rails, boats, davits, etc., when folded down, this being done when the vessel is going head to wind, so as to lessen the resistance offered by the masts, etc. On each mast will be placed a large boom and gaff, and between the masts a large square sail and topmast running on jacks-stays. The total spread of sail set on each pair of masts when running before the wind will be 147 feet in width and 127 feet in height. The effective horse-power will be 1500, so as to give the vessel a high rate of speed, and the fuel required will be only one-half that of an ordinary compound marine engine, a result which is obtained by superheating water in the boiler by the introduction of a substance which need not be named, and which substance is variable according to circumstances. The space occupied by the boilers, engines, and coal bunkers will only be one-half that of an ordinary steamer of the same power.

It seems that in spite of all opposition the Mormon church is growing in strength. Not long since G. Q. Cannon in a speech said: "We defy hell and the Government to abolish Mormonism." And now we find the following late dispatch from St. Louis: "Seventeen Mormon Elders arrived here from Utah, and left this morning for Tennessee, Georgia, Alabama, Mississippi, North Carolina and Virginia, whither they go to make converts to the Mormon faith."

BRIHAM YOUNG, a grand son of the elder, ended his life, after a protracted spree, by an overdose of morphine on the night of the 27th ult. He leaves one wife and two children. From the Colonist we learn that burglars are doing a rushing business in and about Victoria, four burglaries having been committed in one week recently.

THE EDISON ELECTRIC LIGHT has thus far proved a failure as a practical light for family use, and the owners of gas stocks breathe more freely and see new dividends near at hand, but the Oregon Kidney Tea has been a success from the first, paying large dividends of restored health to all those afflicted with back ache or any disease of the kidneys or urinary organs, and carrying constipation to the pockets of rival concerners with worthless nostrums to sell. Ask for the Oregon Kidney Tea and take no other.

NEWS AND COMMENTS.

EDITOR M. D. SMITH we are glad to see the tabular statement of the vote of the MAJ., showing the official vote of Whatcom County. We advise all interested in preserving the statement to carefully file it away for future reference.

Mr. J. H. McElroy passed up the Sound last Saturday with a boom of five or six hundred thousand. Next week he will take another boom to the mill, containing some four hundred thousand. Mr. McElroy is one of the most successful loggers on the Sound, and carries on business on the Samish.

Messrs. J. & G. GACHES, our leading merchants, are out in a new ad. under the head, "Cash is King," believing as they do that buying and selling for cash is the winning card for themselves and patrons alike. Please read their card, and then call and see their large and well-assorted stock of general merchandise.

The steamer Nellie has changed her schedule time. She now leaves Seattle on Tuesdays for LaConner and way ports, via Stanwood; and on Fridays for LaConner and the Nooksack river. This arrangement is an accommodation to the people north of LaConner, virtually giving them two steamers a week from Seattle.

PHOTOGRAPHER.—Look out for Judkins' floating gallery about the 1st of December. He is a good artist in the photograph line. All those who cannot conveniently go to the city to have their pictures taken can be accommodated when Mr. Judkins arrives.

PROF. TIERNAN, accompanied by Messrs. Wingate and Pierce, of Seattle, have been on a pleasure and prospecting tour in this section of country during the past week. Prof. Tiernan has spent a great deal of time, since his arrival among us a year or two ago, investigating the mineral resources of our Territory, and we have reasons to believe he is acquiring information that will ultimately result in much profit to himself and wealth and revenue to the Territory in the introduction and employment of capital in our midst.

What a Taxpayer Thinks of Paying for carrying election Returns.

FIDALGO, Nov. 15.
 Mr. Editor:—In looking over the proceedings of the County Commissioners in last week's MAJ., I find quite a large item for bringing election returns to the county seat, amounting to the sum of \$73.40, which the tax-payers of this county will have to pay. Now, as one of the said tax-payers, I think that our Representative to the Legislature should be instructed to introduce a bill in the next Legislature to have all the returns of elections sent to the county seat by mail, except in cases where there are no mail routes from the places where the elections are held, and in such cases the returns to be mailed at the nearest post office, as the returns would be much safer in the U. S. mails than in private hands, as a majority of the returns in this county, when carried by private hands, go in small boats, and at this season of the year it is not very safe; and by sending them in the mails quite an item could be saved the tax-payers. There is one item that looks a little like a "salary grab." I refer to the Whatcom returns, as I suppose the election was held in the court house at Whatcom, and if I am not mistaken the Auditor's office is in the same building. Now I think the County Commissioners were just a little too liberal with the county funds in allowing \$4.00 to the inspector for just handing the returns to the Auditor in the same building. Four out of the twelve precincts sent their returns by mail and thereby saved some \$50 to the tax-payers, at a cost of about fifty cents for postage, and it would have looked much better if the rest had done the same. Hoping that those interested in reducing the expenses of the county will take the matter in hand, I am, etc.,
 TAX-PAYER.
