ALEXANDRIA, July 28.—The following
is the brief verdict of Admiral Nichol-
son on the bombardment: "We
don't mind admitting, sir, that we
could not duplicate that lot."

The pilot engine preceding the one
sent with officers to meet Raouf Pa-
sha came to grief near Mahalla, Arabi
Pasha having cut the lines during
the night.

Admiral Seymour having written
the Khedive asking what measures he
would suggest with regard to Abu-
kir forts, which the admiral said were
a standing danger to the British po-
sition at Ramleh, the Khedive replied
that he had sent Vice Admiral Keam
to summon the garrison to return to
loyalty.

LONDON, July 28.—Reports are cir-
culated on the stock exchange that
Arabi has declared that he will not
resist Turkish troops if they operate
without European auxiliaries, and
that Austria and Germany have also
revoted to the plan of exclusive
Turkish intervention.

SAN FRANCISCO, July 28.—The cool-
ies landed by the Triumph yesterday
make a total of 25,673 Mongolians
that have arrived in this city since
January 1, according to the records.
The Arabic brought 1274, the greatest
number of any steamer. Of all the
tramps the Canopus brought the
most, 1035; the Anerly brought the
fewest, 109. The Belgic and Gaelic
have each made three trips this year,
and the Oceanic and City of Tokio
two apiece thus far. The average
monthly arrivals have been about
4,500. There is a chance that more
vessels may arrive before August 4th.

INDIANAPOLIS, July 28.—The Indian-
apolis and St. Louis Railroad was
sold today to the Cleveland, Colum-
bus, Cincinnati and Indianapolis com-
pany for \$1,395,000. Second mort-
gage bondholders will contest the
sale.

PHILADELPHIA, July 29.—F. D. McKee,
chairman of the Independent Repub-
lican State Central Committee, in
reply to Thomas V. Cooper, chairman
of the Republican State Central
Committee, regarding the four sug-
gestions for a party compromise made
by the latter to the former committee
on the 12th inst. says: "I am direct-
ed to say this committee find none of
the four suggestions are methods by
which harmonious and honorable
unity of the Republican voters of
Pennsylvania could be obtained. All
of them are inadequate to that end.
The third suggestion, which alone
may demand attention, has a fatal
defect in not including withdrawal of
the state ticket which was made up
many months ago, and long in ad-
vance of the Harrisburg convention.
This proposition, supposing it to be
sincerely put forward, clearly shows
you misconceive the causes of the
independent republican movement, as
well as its aims and purposes. Our
object is to overthrow the boss sys-
tem and the spoils system, and we
cannot agree to make an alliance or
agree to a compromise that on its
face threatens the very object of this
movement in which we are engaged.
The committee regrets that having
considered it desirable to make over-
tures to the independent republicans,
you should have so far misappre-
hended the facts of the situation."

WASHINGTON, July 31.—The President
has approved the order permitting
the shipment of a supply of liquors to Alas-
ka for medicinal purposes during the
prevalence of measles and scarlet fever.

NEW YORK, July 31.—Hecker & Co's
great flour mills were burned today. Five
hundred men were employed. All es-
caped. It is believed there may, however,
be some lives lost.

NEW YORK, July 31.—An Evening Es-
press correspondent says: The river and
harbor bill has been signed by the Pres-
ident.

ADEN, July 31.—It is now learned that
the Russian steamer Moskava, reported
sunk, and two hundred lives lost by a
boiler explosion, was wrecked off Rasio-
fume. One hundred and twenty persons
on board were saved.

The steamer Fleuri Castle, running be-
tween Antwerp, London and Chinese
ports, was wrecked near Rasasir.

LONDON, July 31.—The Times says:
We have ample reason for believing the
expedition the Porte has now determined
to send to Egypt has no other object than
to thwart and oppose the efforts of Eng-
land to restore order there. Co-opera-
tion might be accepted if the Turkish
government should send a moderate con-
tingent to act under orders of the British
commander. The obvious design of Tur-
key is to exclude England altogether, and
maintain we have no right in Egypt; it is
therefore mere trifling to continue nego-
tiations for the purpose of getting such
worthless pledges of good faith as the
proclamation against Arabi Pasha. As
for the British cabinet it is for them to
appreciate the granting of the situation,
and to devise means for guarding the
national interests, and for the vindica-
tion of national honor, both of which
are in serious jeopardy.

ALEXANDRIA, July 31.—Andre, a Ger-
man, says the gunboat Moeive at Port
Said has been instructed on no account
to land troops, but if necessary to take
German subjects aboard his vessel.
The detachments landed in Ismailia
are from English and French men-of-war.
The German consul general will depart
on leave of absence tomorrow. There
only remain French, Italian and English
diplomatic agents at Alexandria.

A traveler just arrived from Sionle
reports that Arabi Pasha has issued a
manifesto declaring that Khedive Tewfik
has sold Egypt to the British, and retired
to England. Arabi therefore ordered the
people to only obey him until the prophet-
enlightened him to find a worthier and
more loyal Khedive.

Six Madras of upper Egypt have been
ordered to supply five hundred horses
and six hundred and fifty camels to rein-
force Arabi Pasha.

Murders are constantly occurring in
railway trains. The mob search every
train for Christians.

Arabi Pasha is still parleying with the
Khedive. The latter has intimated that
no terms be accepted except uncondi-
tional surrender.

It seems that midshipman DeClair
slipped beyond the lines and was taken
prisoner.

CONSTANTINOPLE, July 31.—Lord Duf-
ferin states that the Porte by its inacti-
vity compelled England to assume the
responsibility of restoring order in Egypt.
England accepted Turkish co-operation,
provided the Porte makes an unambig-
uous intention.

WASHINGTON, Aug. 2.—Assistant At-
torney General McCommon, of the
Interior Department, has left Wash-
ington for the Pacific Coast, where he
will inspect the Indian supplies now
being prepared for distribution among
the Indians of that section. On com-
pletion of this work McCommon will
proceed to the Flathead agency.

BERLIN, Aug. 1.—The refusal of It-
aly to co-operate with England in
putting down Arabi Pasha may be
taken as representing the attitude of
Germany and Austria. High authori-
ties at Berlin assert that Germany is
about to quit her passive attitude in
favor of Gladstone's reported decla-
ration that England, under certain
circumstances, would undertake the
task of restoring order in Egypt.

AKRON (O.), Aug. 2.—Great damage
was done to the crops of Summit
county by the flood yesterday.

BERLIN, Aug. 2.—The Czar and Sul-
tan have exchange autograph letters
dealing with the Egyptian question.
It is stated that England has proposed
that the Turks should take the offen-
sive against Arabi Pasha, while the
British forces remain in reserve, thus
affording England a guarantee of the
Porte's good faith.

ALEXANDRIA, Aug. 2.—Arabi Pasha
has ordered a troop of cavalry to es-
cort Stone Pasha's family to Ismailia.
Stone Pasha was greatly relieved
thereby. The rebel camp has moved
five miles toward us, with outposts
two miles in advance of the main
body.

LONDON, Aug. 2.—The Daily News
is informed that the government pos-
sesses evidence implicating the Porte
with Arabi Pasha both before and af-
ter the assumption of active hostility
toward England and the Khedive,
and documents on the subject may
eventually be submitted to Parlia-
ment. The same paper believes the
Porte will accept as conditions of
Turkish intervention the assurance of
a proclamation by the Porte declaring
Arabi Pasha a rebel, and placing Ot-
toman troops under command of Gen-
eral Sir Garnet Wolseley.

Republican Conventions.

For the information of the public, we publish below the action of the Republican Territorial Central Committee at its meeting in Vancouver, June 21st:

On motion the committee fixed the time and place for holding the Republican Territorial Convention as follows: At Vancouver, Wednesday, September 20, 1882, at 10 o'clock A. M.

The committee recommends that the several county conventions for choosing delegates to the territorial convention be held at the usual places of voting in the several precincts, on Saturday, the 2d day of September, 1882.

The committee fixed the apportionment of delegates to the Territorial Convention as follows: One delegate at large for each county in the territory, and one additional delegate for every one hundred votes, and one additional delegate for every fraction of forty or more votes east in each county at the general election of 1880 for the Republican candidate for delegate to Congress.

Upon this basis the various counties of the territory will be entitled to representation in said convention as follows:

Table with 2 columns: COUNTIES, Delegates. Lists counties like Chelan, Okanogan, etc., and their respective delegate counts.

The committee recommend that the nominations of joint councilmen, joint representatives and all district officers be made by the delegates of the respective districts at the Territorial Convention.

S. BAXTER, Chairman. R. D. ATTRIDGE, Secretary.

The Chattanooga Times comes to the defence of ex President Hayes. It says: "The cry or whine of 'fraud' is both contemptible and defamatory. It is fully as slanderous of the democrats as of the republicans. They were chief parties to the framing of the bill under which the commission acted. They bound themselves to carry out its findings. Now they are guilty of moral perjury and scandalous cowardice when they denounce the judgment of a court of their own choosing as a result of fraud. It is especially contemptible in southern journals and politicians to attack Mr. Hayes and make mouths at him. It gives one a low opinion of human nature, while it don't hurt Hayes at all. He did that for the south which Tilden would not dare to have done. Seeing that the governments in several southern states were based on ignorant, irresponsible, wasteful majorities, and sustained by brute force, he took the muskets away that propped them up and they fell."

WHY WE LAUGH.—We have assurance from the best possible source that actual work of construction on the railroad to connect Seattle with the Northern Pacific road will commence within the next two weeks, and the whole line be completed, so that trains can run through to this city by January 1st. For the present a portion of the Puyallup road will be used and also a portion of the Columbia and Puget Sound road (from Black river to Seattle), but next year the line will be built direct from Lakeview to Seattle, as an independent road. When this is done Seattle will virtually be the terminus of the railroad on Puget Sound. These facts are not generally known, but we are assured on good authority, as above stated, that they are facts, nevertheless, and that is why we laugh.—Post-Intelligencer.

FROM ALASKA.—T. J. Burns, of Victoria, received the letter following from a miner at Juneau, dated July 9th: I have been here forty days and it has rained twenty-two of them. The hydraulic claims are at work, but what they are doing I can't learn. The five-stamp mill is still running on Douglas and, but results are not known. The new five-stamp is about completed, and men are getting out rock. The gravel claims will not sustain a large population. Two new discoveries are reported, but their value is unknown, although it was said of one that the blacksmith or Juneau City washed \$1.50 out of a pan of decomposed rock, and a miner had brought in a piece of rock that is very rich. This is no place for a man with less than \$500 or \$600.

THE TERRITORIAL FAIR.—Preparations are now being made for the next fair of the Washington Industrial Association, to be held on the fair grounds near this place, beginning on Monday, August 28th and holding till Friday evening, September 1st. A special feature of the exhibit will be a trial of speed, or, in other words, horse-racing.—Olympic Standard.

GATH says that General Hancock's father was a sailor who disappeared from the ocean, and left two children to be provided for by charity. His father was a bound boy brought up by an old Quaker, to whom he had been taken by some charitable woman of the Quaker sect in Philadelphia. The general was sent to West Point out of kind consideration for the stunted circumstances of his parents. His mother, who was a milliner, made bonnets down to the brink of the rebellion.

The Statesman very aptly remarks that while the white men, women and children of Arizona are being murdered by the Indians, the nights in Walla Walla are made hideous by the howls of drunken soldiers who spend their time with the demi-monde class.

By Telegraph.

BLOOMINGTON, July 27.—Many hogs in the eastern part of McLean county have been attacked by cholera, and a large number are dying, causing a good deal of alarm among the resident farmers.

TUCSON, July 25.—The Star's Clifton advices of the 25th instant say the Indians attacked some teamsters 10 miles out of this place to-day, and killed one and wounded two others. One Indian was killed by Mexicans. They brought in his scalp. The coach that left this morning had to return for an escort. Twenty citizens volunteered. The Indians numbered about forty. After the fight they left in the direction of the Gila valley, where so many settlers were killed during the last rutbreak. Great fears are entertained for the safety of the exposed settlements.

The following dispatch just received is confirmatory:

LORDSBURG, (N. M.) July 26.—A courier just arrived from Clifton reports that a large number of Indians attacked a wagon train three miles this side of Clifton yesterday morning, killing two men. The teamsters seven in number, stood the Indians off for two hours, and mortally wounded one. A teamster in the face of a heavy fire, rushed out and dragged the wounded Indian into camp and after the fight was over scalped him and roasted him alive. The party who saw him says he was well done, nice and brown. The citizens are preparing to take the settlement of the Indian question into their own hands. A secret organization with New Mexico and Arizona is being formed to wipe out the Apaches. New Mexico has already over 600, and Arizona will furnish more than that number. Globe City and the Gila Valley already have over 300. Other sections are organizing rapidly. The citizens throughout Arizona are praying for the arrival of General Crook.

TAWAS, Mich., July 27.—The forest fires are raging fiercely, extending from Glendon to within a mile of Tawas City. At Miner's farm, a mile east of Tawas City, the products are burning and C. W. Carrier's place is on fire. Farmer's are driving cattle to the lake shore, and sending children to town. On the East Tawas road many farms and fences and much hay and grass are adams, and three dwellings burned. Loss very great. Travel is cut off in many directions. Strenuous efforts are making to save Glendon.

FORT TOTTEN, Dakota, July 27.—Turtle Mountain Indians from Canada have crossed the line and ordered off white settlers, and refused to pay customs assessed against them by the Pembina agency. They claim the right to the lands and deny the legality of laws levying taxes on them. Their chief, Little Shell, says: "We recognize no boundary line, and shall pass as we please." At least seventy-five half-breeds have moved over, and all are physicians. Military interference seems necessary.

COLONA, Iowa, July 27.—The Republicans yesterday renominated Thos. Updegraff for Congress.

ALEXANDRIA, July 27.—Ismael Pasha has just returned from Ababi's camp. The latter proposes to have offenses condoned, and on this condition he consents to disarm a portion of the forces under his command. Gen. Allison will not listen to the demand, and is drawing closer to Arabi's camp.

ALEXANDRIA, July 28.—The inflexible has gone to summon the Aboukir forts to surrender, and to bombard them if they do not.

LONDON, July 28.—In the Commons this afternoon the under foreign secretary stated that a telegram had been received from Cartwright, consul general at Alexandria, which led to an indirect communication by Arabi Pasha, with a view to surrendering the military party, but there has been no direct communication from Arabi so far.

ALEXANDRIA, July 28.—Arabi offers to retire to a Mussulman monastery in Syria. Among his colleagues, for whom he asks the same terms, are Toufiah and Mohamed Pasha. An armed ensign dispatched by the British, was sent to meet Bedouin Pasha and two elements, to discuss this proposal. It is stated the Government has received no confirmation of this news.

ALEXANDRIA, July 28.—Persons competent to judge believe half the cotton crop of Egypt will be lost; also the greater part of the wheat crop of lower Egypt in consequence of neglected irrigation.

ALEXANDRIA, July 27.—An official telegram from the rebel government, dated Cairo, July 26th, says armaments continue on an extensive scale. Volunteers are arriving, the bulletin adds, from upper and lower Egypt. Some chiefs of Bedouins, who prior to the bombardment were known as partisans of the Khedive, have promised fidelity, and all the best class of Mussulmans, including Princes and Princesses of the Khedive's family, now in Cairo, are aiding the government. The ladies have formed a committee for preparing lint. The British have been defeated in two engagements, leaving forty killed. The Official Gazette publishes a letter from Arabi Pasha which declares that any person found in possession of a proclamation dismissing Arabi Pasha as minister, circulated by the Khedive's emissaries, will be court-martialed. The army will do its duty and defend the country to the last extremity. If commercial and political interests do not induce them to stop the British invasion a terrible struggle must ensue. Some Italians and Swiss, French and Germans remain in public administration and continue to receive marks of confidence, notwithstanding British intrigues to depopulate Egypt.

WASHINGTON, July 26.—The bill creating the Oregon Short Line Railway Company as an incorporated company in the Territories of Idaho and Wyoming was reported from the Pacific Railroad Committee today, and passed under a new rule. Page's bill for relief for pre-emption and homestead settlers upon lands lying within the limits of the late Mosqueras ranch, was reported favorably from the committee on public lands.

WASHINGTON, July 28.—It is expected that a veto of the River and Harbor bill will be sent to the House of Representatives tomorrow, unless it should be decided at the last moment in the cabinet to allow the same to become a law. It was reported at the capitol today that a veto message had been prepared, and the assertion was also made that the bill had been vetoed. The gentleman who made this declaration did not know that the executive bill was not taken to the executive mansion until this evening. Senator Vest declared that he had seen a copy of the veto message, and Senator Kellogg avows that the bill would not be approved.

SAN FRANCISCO, July 28.—The Great Council of the Improved Order of Red Men have elected the following officers: J. A. Filcher, Great Prophet; Charles Spencer, Great Sachem; Mr. Betts, Great Senior Sagamore; A. A. Andrews, Great Junior Sagamore; H. S. Win, Great Chief of Words; Adam Smith, Great Keeper of the Wempu Grove; L. Johnson, Representative to the Great Council of the United States; Benjamin Josselyn, Davis Landerback, John P. H. Wentworth, Great Trustees.

WASHINGTON, July 28.—The President has approved an act appropriating \$50,000 for Mrs. Lucretia Garfield, less the amount paid Garfield on account of his salary.

NEW YORK, July 28.—Failures of the week reported at New York are 111, a slight reduction on last week. Of these the eastern states furnished eighteen, the western states thirty-nine, southern states nineteen, middle states twenty-two, Pacific states and territories, eight, and New York city five. The only failure in New York city worthy of note is that of W. J. Wilcox & Colard, with liabilities unsecured, about \$110,000. The probability is that they will pay in full, half cash and the balance on time.

EAST TAWAS (Mich.) July 28.—The forest fires to the north and south are burning fiercely. Fields of grain, farm houses, fences and orchards, together with immense tracts of cedar and pine, are burning. The hemlock roads east of here are impassable, and no correct list of losses can be given, as accounts conflict.

NEW YORK, July 28.—The Tribune says: "A returned Mormon bishop with nine female converts was seen on a street car yesterday forenoon, making for the west bound trains. The bishop created a sensation by stating that he converted the women to his faith and ideas of matrimony, and he would marry all of them as soon as they got to Salt Lake, where the people were more civilized."

BERLIN, July 28.—Immigration from Germany to America thus far this season, has decreased by 10,000 as compared with the same period of 1881.

ALEXANDRIA, July 27.—Last evening an attempt was made to surprise the British outposts. The 38th Regiment opened fire, when the enemy retreated precipitately.

PARIS, July 27.—A Committee of the Chamber has rejected the proposal for a second credit of 95,000,000 francs for protective measures in Egypt. Six members voted against the proposed grant, and the other five abstained from voting.

READY FOR DUTY.—Capt. J. M. Selden, now in this city on a leave of absence, has been in the revenue marine service for the past twenty-five years, a good portion of this time having been spent on Puget Sound. For the past three years, however, he has been in command of the U. S. steamer Crawford, with headquarters at Pensacola, Florida, but his term at that point having expired, it is a matter of uncertainty where he will next be stationed. The captain has notified the department that he is ready for duty whenever his services are needed, and has received a reply that he can suit his convenience in regard to the matter. The captain has fully recovered his health and will probably go into the service again about the first of September.—Post-Intelligencer.

LONDON, July 28.—A proclamation has been issued summoning the reserves to assemble August 25th. The proclamation further directs that all soldiers who on and after this date would otherwise be entitled to be transferred to the reserves to continue to serve until discharged.

MARSEILLES, July 26.—Marines start

for Port Said on the 27th inst. A transport will follow with 600,000 litres of water. Algeria will furnish a battalion of Zouaves.

Eight hundred soldiers are now being landed from the troop ship Orontes. The Orontes, after their disembarkment, will proceed to Port Said and land marines. There is great activity in the enemy's lines. Egyptian soldiers disguised as Bedouins carried off ten cases of gunpowder from Port Mukbebe, near Akks. Emissaries from Arabi Pasha have been marching in masses at Mukbebe almost daily. It has been, therefore, decided to occupy the fort and also the shore of Lake Marcotto, near which patrols of the enemy are frequently seen. The fire here is in the native quarters, and is believed to be started by incendiaries.

CONSTANTINOPLE, July 27.—The Sultan has decided to denounce Arabi Pasha as a traitor. The Sultan received Dervish Pasha on his return from Egypt very coldly, and complained that he did not persuade Admiral Seymour to delay the bombardment.

It is stated that the first detachment of Turkish troops sent to Egypt will number sixteen battalions, and arrangements are made to send sixty-four battalions, if necessary. Gov. Damascus has been ordered, as a precaution, to arrest several sheiks just arrived from Egypt. The Porte denies that there has been rioting at Smyrna.

WASHINGTON, July 26.—The confirmations are reported of Merritt L. Josselyn, of Illinois, as Assistant Secretary of the Interior; John R. Briery, of California, as Collector of Customs at Wilmington, California; Lewis Richmond, of Rhode Island, as Consul General of the United States at Rome; George M. Sabn, United States District Judge of Nevada; Harrison Allen, of Pennsylvania, as United States Marshal for the Territory of Dakota.

It has been decided not to relieve Lieut. Colonel Lasell as commandant at West Point.

PORTLAND, July 27.—Articles were filed today incorporating the White Salmon Lumbering Company. Object, a saw-mill and lumbering business. Capital stock, \$30,000. Incorporators, Charles Sweeney, W. L. Childers and D. P. Thompson.

CHICAGO, July 28.—A train of twenty cars of tea and silk left San Francisco July 12th, left Deming at 8 A. M. July 16th, and arriving at Kansas City at 2 A. M. 19th, making the run from San Francisco to Kansas City in six days, six hours, and from Deming to Kansas City over the Atchison, Topeka and Santa Fe road, 1,150 miles, in sixty-six hours. This freight was destined, in part, for Chicago, New York, Detroit and other cities. A second train of twenty-nine cars left San Francisco twenty-four hours later, and made the same time to Kansas City. This time is believed to be unprecedented.

LINCOLN, Neb., July 28.—The State Temperance Convention completed its labors today and adjourned. An executive committee was appointed to superintend campaign work throughout the State and five delegates elected to attend the National Temperance Convention in Chicago in August, 1882. The question of submitting a constitutional amendment to the people will be laid before the State Convention, so each party may take some decisive action. A thorough canvass of the State in the interest of the amendment was decided on.

LONDON, July 28.—The Times, commenting on the address of the Canadian Parliament to the Queen in favor of home rule for Ireland, says: "The respectful phrases in which the address is couched cannot blind anyone to the fact that it amounts to a vote of censure of the government and encouragement of its avowed enemies. We are at a loss to determine whether under the circumstances the address is simply a dodge to catch the Irish vote, which ought to be regarded as an aggravation, or excuse the offense. If a more charitable view be taken, it condemns the Canadian Parliament as guilty of levity, a thought which must seriously detract from the value of any opinion it may form."

VIENNA, July 28.—A telegram from Bucharest reports that a son of one of the Russian Consuls in Roumania has been arrested at Odessa on a charge of supplying dynamite to nihilists.

LONDON, July 19.—The Times has the following dispatch from Alexandria: "Arabi Pasha's force is said to be increasing, and not a taking him at once is regarded as a fatal mistake by authorities both English and foreign. It is stated wounded natives have been paraded in Cairo for the purpose of exciting animosity. At request of several residents of the American Consulate, authorities ordered a French shop in the same building with the Consulate opened and respectable residents allowed to help themselves to such articles as they require, on signing declarations showing what they have been taking."

A correspondent says: "I drove yesterday nine miles along the line of Arabi Pasha's retreat, and passed several villages, the people in which are starving. Soldiers had robbed them of everything. The entire route is lined with carriages and dead horses. It is reported that Bedouins harassed the soldiers during their retreat, killing 20."

CONSTANTINOPLE, July 26.—The conditions for the dispatch of Turkish troops to Egypt were discussed by the conference on Wednesday. The Porte replied in favorable terms, which may lead to a prompt and peaceable solution of the Egyptian question.

Dervish Pasha has been entrusted with the organization of an expedition to Egypt.

Trustworthy accounts state that Arabi Pasha's cavalry are well armed. Military workshops are fully employed. Arabi has ordered shot several sheiks and Bedouins for refusing to obey him. Eight Bedouins were killed at the skirmish at Kafred-el-war. Two Arabs were shot by a native soldier by order of a native tribunal, one for shooting an English marine and the other for arson.

ALEXANDRIA, July 25.—The inspector of Casdastre, speaking of the massacre says: "I saw women carrying, tied to bluecoats, the dismembered arms and legs of massacred Europeans. The soldiers and ruffians fought for loot. A Bedouin sheik, with twenty Bedouins, saved inhabitants of the Jewish quarter and took them to his village. Another sheik saved myself and party. A mob from Alexandria murdered three employees of Casdastre and their families, and burned their bodies with petroleum. The mob killed twelve Greeks. They tied the viscera of one of the victims to the tail of a dog and covered him with petroleum, which was set on fire amidst cries of woe from women and children. The mob was repulsed eight times, and finally two sheiks arrived and dispersed it."

6 P. M.—The British troop-ship Malabar and the ships-of-war Orion and Cygnets have left here for Port Said. Advices from that place report Governor Ismail fled.

The British in front of Ramleh are being reinforced with nine-pound guns and two gating guns.

Arabi Pasha has gone to Cairo.

OGDEN, July 26.—A wholesale persecution of gentiles has been inaugurated, and arrangements are made for testing the constitutionality of the Edmunds' bill in the Supreme Court of the United States. If adverse, the Mormons have nevertheless determined not to submit at any cost. Polygamists, from President John Taylor down to the distant apostles, bishops and elders in the most extreme part of their domain, have separated from their wives and are living openly with one only. All polygamists under orders have resigned from all official offices. Monogamists have been selected and commissioned in their places. Every effort is to be made to beat the government in all sections of the Edmunds' bill.

MILWAUKEE, July 26.—The fact is developed that the Prohibitionists are arranging to nominate congressmen in all the districts, which will considerably complicate matters. The hostile acts of brewers have aroused them thoroughly.

PORTLAND, July 26.—A correct list of the losses by this morning's fire is D. J. Malarkey & Co., \$10,000, insured, \$3,000 in the North British and Mercantile, \$1,600 in the Fire Association, \$1,000 in the Hamburg and Madburg, \$2,000 in the Commercial Union. Mrs. E. Malarkey, building \$4,000; insured \$1,000 in the Fire Association, \$200 in the Hamburg and Madburg, Kelly, Dunne & Co., oils, \$3,000; insured \$1,000 in the Home and Phoenix, \$1,000 in the South British and Mercantile. M. Sells & Co., oils, \$3,000; insured \$3,000 in the North British and Mercantile. W. C. Noon, bag factory, \$1,600 on machinery; insured fully in the New Zealand. Most of stock was saved. J. W. Cook, building \$1,000; not insured. Northwest Trading Company, oils, \$600; not insured. Total loss, \$24,700; insurance, \$15,400. The origin of the fire is unknown. It must have been spontaneous combustion, or incendiary. Henry Obener, assistant foreman of the hook and ladder company, was caught under a falling wall and had his right leg crushed so severely that it may probably be amputated.

Pacific Coast Appropriations. WASHINGTON, July 26.—The River and Harbor bill as finally passed, appropriate the following: Humboldt harbor and bay, California, \$40,000; harbor at Oakland, \$200,000; improving the harbor at Wilmington, \$100,000; improving the entrance to Yaquina Bay, Oregon, \$90,000; survey of the Missouri river from its mouth to Fort Benton, \$40,000; Yellowstone river, Montana and Dakota, \$20,000; Petaluma Creek, California, completing improvements, \$14,000; San Joaquin river and Mormon slough, \$40,000; constructing a canal around the Cascades of the Columbia, Oregon, \$265,000; Columbia river, from Portland to the sea, including the bar at the mouth of the river, \$100,000; Upper Willamette, \$50,000; Lower Clearwater river, Idaho, \$50,000; Cowlitz river, W. T., \$10,000; Chehalis river, \$3,000; improving Stillaguamish, Snohomish and Skagit rivers, by building, equipping and operating a snag boat for the year, \$20,000; improving the mouth of Coquille river, Oregon, \$10,000 for expenses of the board of engineers; examine in detail the mouth of the Columbia river, \$7,500.

VERNAL FAITH.

When heaven was stormy, earth was cold,
And sunlight shunned the world and wove
Thought burrowed in the churchyard mold
And fed on dreams that haunt the grove.
But now that heaven is freed from strife
And earth's full heart with rapture swells,
Thought soars through fields of endless life
Above the shining asphodels.
What flower that drinks the south wind's breath,
What sparkling leaf, what Hebe morn,
But thinks the silent gray beard, death,
And laughs our Arctic doubts to scorn?

Pale scientist, scent of healthful blood,
Your ghostly tones one moment cease;
Pick freshness from a spring-time bud,
Find wisdom in the opening rose.
Mark the white lily, whose sweet core
Hath many a wild-rose swain enticed,
And drew the raptur'd honeyed bee
Pure as the tender creed of Christ!

Yes, even the weed, which upward holds
Its tiny ear past lower and lawn,
A slender faith in your asphodels
Caught from the far-faint winds of dawn.
—Paul H. Hayes, in Harper's Magazine.

Chinese Table Etiquette.

Ting Lung Ho, an educated Chinese man, writes as follows: "According to the teaching of Confucius, no conversation must be carried on at table. This precept of Confucius, disagreeable though it must seem to many, prevents many embarrassments at table, namely, one's being interrupted when he tries to speak at table, and the boisterousness with which some carry on conversation at table. Chinese etiquette requires all to begin to eat at the same time, but each one before he begins to eat generally says, 'Let us begin,' which is accompanied by a gesture with the chopsticks. In finishing one's meal, the same gesture is used, but not the same words. He says then to those who are still eating, 'Do not be in haste.' It is customary for the elder to help the younger to those dishes which he cannot reach, but in receiving etiquette requires him or her to rise. In sitting at a Chinese table neither one's body nor dress must touch the table, and great strictness in regard to one's position is enforced. It is not according to Chinese etiquette to look around when one is eating, nor to stare at one another. Remarks made on the food and the smacking of one's lips are (I'm sorry to say) allowable in Chinese etiquette. The chopsticks, when one is not using them, must be placed on the table close together, perpendicular to the spoon. According to Chinese etiquette, it is rude for one to finish too soon; one must try to keep together with the rest, though it is becoming for inferiors to finish a little before their superiors, but not a little too late. Reading of periodicals is strictly forbidden, but letters are allowed if they are very important. One very seldom asks for an excuse from table in China, but every one goes at the same time."—*Amherst Gazette.*

Supposed Wit.

The Editor of the Walla Walla *Watchman* is in trouble. Just as he was mourning heartily over the hereafter, superinduced by the terribly hot weather, the bottom dropped out of the Northwestern Marriage Insurance Company, and now Bessier refuses to be comforted.

Prof. Huxley calls a primrose "a corolliferous dictyledonous exogen. As usual there were no police around to interfere.

About two and a half miles of "the identical rope that Gull-tuan was hung with" are already in circulation among the credulous relic-hunter, and the trade still thrives.

The Editor of the Walla Walla *Union* killed a blonde-haired youth last week for perpetrating the following conundrum: "Why do ladies raise their parasols?" "Why, to keep the sun off," we answered. "That's it," said the young man, but you don't quite catch on. Why do ladies raise their parasols? To parry Sol's rays see?" Inquest to-morrow at 10 o'clock.

A burglar got into an Eastern Oregon editor's house one night lately, and after a bloody encounter, the editor succeeded in robbing him.

"Bless my stars!" said Mrs. Penny-racker. "Didn't you know what the Vacuum is? The Vacuum is where the Pope keeps his bulls."

Nothing but pure politeness makes a bald-headed man lift his hat on meeting with a young lady.

A young man in the train was making fun of a lady's hat to an elder gentleman in the seat with him. "Yes," said his seat mate, "that's my wife, and I told her if she wore that bonnet some fool would make fun of it." The young man slid out.

An Austin man started in the livery stable business last week, and the first thing he did was to have a big sign painted representing himself holding a male by the bridle. "Is that a good likeness of me?" he asked of an admiring friend. "Yes, it is a perfect picture of you, but who is the fellow holding you by the bridle?"

SENATOR Slater of Oregon says he does not think the recent republican victory there was brought about by republican votes. Oh, no, to be certainly not. A republican victory, you know, never is brought about by republican votes. It is always caused by democratic votes. By vote not being enough of them.—*Burlington Hawkeye.*

A BELIEVER in the Simian origin of man was listening to the remarks of a Western lady who had recently returned from Europe. She related with great

vivacity the different objects of interest she had seen, and during one of her pauses to take breath he ventured to say, "May I ask what impressed you most during your stay in London?" "Certainly," she answered, without changing her expression, "the solemnity of the monkeys at the Zoological Gardens on the day of Darwin's funeral."

It has often agitated our curiosity to find out why a woman will spend six weeks working a lot of scallops on the bottom of a garment that nobody in the world but herself will ever get a glimpse of, and then run about the neighborhood in an old dirty wrapper without any belt, and every other button burst off.

A Baptist clergyman complains that the boys are drifting away from the church, and greatly fears that the boys of the future will be non-church goers. Other denominations are inclined to think that if there was not so much water used the boys would not drift so much. They might be anchored more easily.

The late John B. Eldridge bequeathed \$10,000 each to the American Board for Foreign Missions, Missionary Society of Connecticut, and Women's Christian Association of Hartford; \$20,000 to Mount Holyoke Female Seminary; \$15,000 to Carleton College, Northfield, Minn.; \$10,000 to the American Missionary Association.

COMMEMORATIVE.—The first anniversary of the assassination of President Garfield was observed at Washington in a most appropriate manner by the laying of the corner stone of the Garfield Memorial church, which will occupy the site of the little frame Christian church in which General Garfield was for so many years a worshipper and a communicant, and of which he was a trustee at the time of his death. A fund of \$20,000 has already been raised to erect a substantial and enduring place of worship.

PUGET SOUND ARGUS.

OFFICIAL PAPER OF JEFFERSON CO

FRIDAY, AUGUST 4, 1882.

CONGRESS is holding a session longer, with one exception, than any since the war. Certainly there must be a great deal of important business to transact.

Our dispatches indicate a strong likelihood of another yellow fever scourge in the South. It is to be hoped the afflicted residents of New Orleans may be spared such experiences as they have had in the past.

Crop reports from the various states and territories are of a very encouraging character notwithstanding cyclones, floods, etc. The grasshoppers are giving Kansas a rest, and crops there are reported to be enormous. All over the Pacific slope grain crops will be above the average.

PERHAPS at no period in her history has our fair territory been as prosperous as she is today. Wages of all kinds have been steadily on the increase for over a year past. Indeed prices of everything are flush, and improvements, building, commercial advancement and private enterprise are everywhere noticeable.

The Walla Walla Union wants a fruit cannery started east of the mountains to prevent the loss of so much valuable fruit in that section every year by decay. Such movements will do much toward developing this territory and encouraging the growing of fruit for our own use instead of sending to the Atlantic states for it.

The Tacoma Ledger, of the 28th, contains a two-column attack on Dr. Minor, on the subject of plagiarism. It is to be hoped that Gen. Sprague has compensated his organ liberally, to make up for the enemies it has made among the Doctor's friends. The animus of the article referred to was illy concealed.

A very persistent attempt has been made in Congress this session to take away a part of the N. P. & R. land grant—but its force is about spent, and very properly, too. The Northern Pacific company undertook a work of national importance, based upon its franchise and the grant of land it obtained. Its stock was floated upon that land grant, and but for the grant the road could not have been built. The gift was a munificent one, 'tis true but to take part of it away now just because the road is sure of completion would be rank injustice.

ALASKA MAIL.—The steamer Evangel has been lying at Union wharf all day waiting for the Alaska mail. Postmaster Learned has been telegraphing to Washington for instructions, and thus far the matter remains in statu quo. It seems that the Evangel has a freight license, but that the local inspector has reported adversely to allowing her to carry the mail to Alaska, consequently the P. M. has refused to allow her to take Uncle Sam's letters north. Up to our time of going to press, the delay is caused by waiting to see if the contractor can secure the services of a suitable vessel. It is to be hoped that the mail contract will not be lost to Puget Sound. It does not require much discernment to see that this is but the beginning of the commercial war between Portland and the Sound.

By Telegraph.

LONDON, Aug. 2.—The Times in a forecast of the English harvest, says wheat will not nearly amount to an average crop, but that it will be better than for five years past. Yield of oats is good.

FALMOUTH (Ky.), Aug. 2.—The two branches of the Licking river rose 40 feet last night. The storm was unparalleled. The damage to the crops cannot be estimated.

TOPEKA, Aug. 1.—Governor St. John's nomination and consequent election for the third term is now assured. He has already 196 of 370 delegates, and his vote is likely to exceed 220.

BOSTON, Aug. 2.—The Herald's cable Paris special says Michael Davitt has just been closeted with Patrick Egan. Davitt is determined to maintain the rough unity in the Irish party, and

will leave to-night for Ireland, to cooperate with Parnell, Dillon and others, in forming the anti-eviction organization that he will also take steps toward the promotion of a home manufacturing and labor movement.

LEXINGTON, Aug. 3.—Yesterday's storm has caused great damage to the tobacco and corn crops in all the surrounding country. A Millersburg special says the damage by the water spout yesterday is greater than at first supposed. The storm was confined to an area of about six miles east and west and four miles north and south. The town of Millersburg was about in the center of it. It was the most devastating rain ever known. Although it lasted but three hours, a hundred acres of corn were covered with mud. Many acres of potatoes were washed out. Haystacks were swept away and other crops ruined. The Bowen coal mine filled up with water so rapidly that the miners had barely time to escape. One old man, named George Hooper, saved himself by jumping on the back of a mule which swam with him. Eye-witnesses were astonished to see great waves several feet high roll over the land which a few minutes before was parched from drought. No loss of life is reported.

LONDON, July 31.—The Mark Lane Express review on the English trade the past week, says the weather was unfavorable until the close of last week. Hardly any home grown wheat was offered. What remains is two shillings per quarter higher than formerly. Trade in foreign is checked by finer weather, large supplies and reports of declining prices in America. Some occasional concessions to buyers. Flour was dull for July, but comparatively steady. Oats declined, because of large arrivals off the coast. Four fresh arrivals and five sales, four cargoes withdrawn. Wheat on passage closed with a tendency downward. Sales of English wheat during the week were 10,232 quarters at 50 shillings per quarter, against 13,260 at 47 shillings 10 pence per quarter the corresponding week of last year.

PORT SAID, Aug. 1.—Arabi Pasha is working incessantly on the fortifications along the coast, and especially at Daniretta and Rosetta.

PARIS, Aug. 1.—French residents of Port Said protest against the withdrawal of the French squadron, and announce their intention of placing themselves under the protection of other powers.

ALEXANDRIA, Aug. 1.—The Italian government has refused to surrender to the British court-martial station, men employed in the Egyptian police and charged with leading a band of Greeks and natives engaged in sacking the town.

CONSTANTINOPLE, Aug. 1.—The Admiralty are preparing nine transports and four ironclads, which will leave for Egypt today. Turkish troops will act jointly with the English.

ALEXANDRIA, Aug. 1.—The Khedive has authorized the English to occupy as much of the Suez canal as they think necessary for the expulsion of rebels. He also telegraphed for two hundred Italians and forty Swiss policemen to protect the city. The Spanish ironclad Sargossa proceeded to Ismalia.

Onon, the Russian representative, informed the conference that Russia considered the Egyptian question divided into two distinct parts, and that he was instructed to participate in the deliberations only when the question of the Suez canal was under discussion. In consequence of this declaration the conference concluded to terminate.

The Porte received a petition signed by 2,000 Egyptian natives, requesting the Sultan not to ratify the dismissal of Arabi Pasha by the Khedive.

MARSEILLES, Aug. 1.—The government has ordered the infantry marine brigade, preparing to start for Egypt, to be disarmed and transports withdrawn.

CHICAGO, Aug. 2.—Lieut.-Gen. Sheridan, Col. Fred. Grant, Gen. Anson Stager, John McCullough and other prominent parties went west at noon yesterday over the Chicago, Rock Island and Pacific railroad. It is understood their trip embraces a journey to the heart of the continent and the Yellowstone valley.

MILLERSBURG (O.), Aug. 1.—A water spout and sudden flood today swept away a great many bridges, some buildings and drowned numbers of live stock on the bottom lands. A small stream called Snapps run rapidly, overflowed hundreds of acres, carrying off and destroying hay and other harvested crops. Houses in the various places are wholly or partly submerged. Families narrowly escaped by hurrying to high land. It is feared some people have been lost. Rain is still falling. The greatest excitement prevails. The loss to property, etc., is great.

NORTHERN PACIFIC COMPANY has 300 miles of road ready for inspection by the United States Commissioners. Fifty miles more will be completed within forty days. It is believed that government inspection will not be made until the road under construction is finished.

SHIPPING NEWS.

STR. Idaho arrived this morning and remained all day discharging freight, of which she had a large quantity. She will make the regular down trip to Frisco, Capt. Carroll taking the Dakota to Alaska. PORT DISCOVERY, Aug. 1.—Arrived British bark Marp I. Baker, Capt. Sutton, from Melbourne, Australia. She will load with lumber for Melbourne. R. W. de Lion & Co., agents.

Capt. Frank Smith is now in command of the tug Polittkofsky, towing for the Blakely mill company, and Capt. J. B. Libby is superintending repairs to the tug Blakely.

A fine three-masted schooner named the Mabel Gray was launched by Bendixen at Eureka on Saturday last. She is owned by Dolberer & Carson and others, and will be employed in the coasting trade.

OFFICIAL PAPER OF PORT TOWNSEND.

BRIEF LOCAL ITEMS.

From Tuesday's Daily.

Circus next Monday.

LOOK out for the circus advertisement in to-morrow's Daily.

COLMAN is being rebuilt with the accustomed enterprise of Pacific coast business men.

MR. WINGARD, of Philadelphia, brother of Judge Wingard, has been spending a few weeks in this territory.

ONE of our Walla Walla exchanges publishes a sensational report to the effect that another outbreak of the Nez Perce Indians is feared.

THE Board of Home Missions of the Presbyterian church have extended the commission of the Rev. J. Reid, as per request.

MR. J. L. DAVIS, of Lopez Island, went up the Sound this week, and returned to-day with a new Studebaker wagon for his farm.

PROF. T. M. Gatch, formerly president of the Oregon State University, and an eminent educator, is visiting the Sound. He will go to Victoria to-morrow.

THE sale of business in town, referred to by us recently was the purchase by Messrs. A. A. Plummer, Jr., and Chester Terry of the fruit, variety and stationary store of Mr. O. H. Holcombe. The new proprietors are about taking charge.

WE are indebted to Hon. T. H. Brents for a copy of the very valuable report of Hon. Wm. Windom, Secretary of the U. S. Treasury for the year 1881. It is one of the most nearly complete and comprehensive documents of the kind we have ever seen.

WE received a pleasant call to-day from Mr. Lee, of the Eurake Lime Kiln, San Juan Island. Mr. L. has been in business in partnership with the McLaughlin Bros. He has purchased the interest of his partners and will conduct the business hereafter.

THE Olympia Standard, of last week, in a fit of good humor, thus compliments our worthy ex-Delegate: "In our article on the coming man for the Republican nomination for Delegate, we inadvertently omitted the name of Judge Jacobs, the noblest Roman of them all, who ranks at the top of the heap in ability."

A REAL, old fashioned thunder shower visited this section to-day. By the way, it is remarked that thunder showers are going out of fashion in the East. A healthy cloud when it is feeling well will waltz up to an ordinary sized town, and after "sizing" it will collapse over it. Newspaper men and book agents are about the only ones that escape usually.

TAKE a look at the changed and enlarged advertisement inserted in our columns to-day by Mr. H. Landes. This gentleman finds business increasing on his hands on all sides, and his straightforward, business-like manner of treating all who have dealings with him induces them to "come again." We can safely recommend him to the kind consideration of everybody.

WE noticed the following Portlanders on board the North Pacific this morning on their way to Victoria en route for Alaska: Mr. Wm. Wadhams and his sister-in-law, Miss Skinner; Mr. Hall and his lady; also Chaplain Stubbs, wife and little daughter, bound for Victoria. Under the adroit management and never flagging zeal and enthusiasm of Mr. Stubbs the "Sailor's Home and Seamen's Bethel" has become one of the most important public institutions of that fair city, and we understand that he is now on a visit along the Sound ports to see what can be done on behalf of "our seamen."

IT is reported that Mr. D. M. Littlefield will perhaps be an available candidate for sheriff in this county at the coming election. Mr. Littlefield has been head keeper of the Point Wilson light house since it was built, but finds the remuneration totally inadequate for the labor of that position. It is to be regretted that government is so niggardly in the matter of salaries for its light keepers as to cause such valuable men as Mr. Littlefield to voluntarily leave the service. Jefferson county will be a gainer in the matter, however, if fortunate enough to secure his services again as sheriff. He filled the position a few years ago to the entire satisfaction of the people, and will doubtless prove an acceptable officer again.

WHEN your wife gets out of humor just go and buy her some of those nice, cheap goods at Clinger's and ill-temper will vanish at once.

THE Presbyterians have just had their organ renewed and tuned by Mr. Langston, of S. Clemente. It is now as good as new. No thorough understands his business. Everyone in town speaks highly of it.

From Wednesday's Daily.

ARE you going to Alaska?

MR. F. W. James went up the Sound to-day.

HAVE you seen that easy chair in the Post Office? It's a stunner.

SOME hay crops were caught out in the rain last week, and damage will result.

THE Starr came down early this morning and went to San Juan for a load of lime.

MR. KORTER advertises to-day for a woman to do general housework. Read his notice.

BISHOP Younger is expected here on Friday, and the new Catholic church will be dedicated on Sunday.

POSTAL Agent Tuttle, of Portland, arrived here to-day, on business connected with the Sitka mail contract.

THE Dakota arrived late this afternoon from San Francisco, with a large crowd of Alaska excursionists on board.

THE Dispatch arrived this afternoon from Neah Bay and way ports, with a large lot of passengers and freight.

A FRIEND writes from Port Angeles that the new telegraph wire has reached a point opposite the lighthouse there, and will soon be in the bay.

MR. G. W. O'BRIEN, who went from Port Discovery to Port Blakely to work a few months ago, passed through here to-day on his return to the former place.

SHERIFF's sale of valuable property in Island county, in front of the courthouse door at Coupeville, next Monday. If you are interested in that kind of business see that you remember it some.

W. H. WHITE, of Seattle, and a man named Kiel, had a row yesterday in which a pistol was used by the latter. Fortunately no damage resulted. The offender was arrested.

MR. JOS. A. MERRILL, of Lopez Island, arrived in town this morning with some 30 sheep for our local market, in C. Anderson's sloop. Mr. Merrill is in the sheep business, and wants to buy some improved stock for breeders.

OUR readers are invited to peruse the announcement made to-day in behalf of the Sherman circus, by Mr. Blum, general agent for the company. It is claimed that this company is eminently deserving of public patronage. Mr. Blum is a genial gentleman, and promises the small boys lots of fun.

In today's Argus will be found the advertisement of Westman's Great Eastern circus, which will appear in Port Townsend next Monday evening. Nice little Sunday School children are expected to forget their lessons for a while. In fact denizens and teachers may be pardoned for missing a prayer meeting or two.

WE learn that an item recently appearing in the Daily Argus in reference to the Eliza Anderson was objected to by her owner. The squib was written with an eye to the commercial and shipping interests of Puget Sound. We did not suppose the intention was to spend much money in refitting and repairing the Anderson, and if so, of course she would hardly be better, than when she was running last, if as good. We learn, however, that new machinery will be put in and substantial repairs will be put on her. As her hull is reputed to be perfectly sound, this will doubtless make her a good boat, in which event we will rejoice as much as any at the further use of a craft that has made many a dollar in these waters.

From yesterday's Daily.]

PAR's version of the European war: "Arrah, be Pashy, they're havin' murtherin' toimes in Aygypt."

ON the Dakota this week Messrs. E. E. Hickman and Jas. Dalgarno, jr., were passengers for this place from San Francisco, they having made the trip to the bay city with Capt. Tom Butler, as mate and seaman respectively, in the schooner Emily Stevens.

SEVERAL of our townspeople went to the head of the bay yesterday, with a party from the revenue cutter Wolcott and a few from the surveying schooner Ernest, and had a big clambake. A pleasant time is reported. The party was conveyed up and back by the steam launch belong to the Ernest.

THE Walla Walla Statesman has gone out of its way to print a most uncalled for slur on Governor Newell. Matters have come to a pretty pass in the country when a public man cannot receive a substantial mark of esteem from his friends without newspaper parasites trying to magnify themselves by insinuating that it was done with a view of manufacturing political capital.

ENTERPRISE.—The Seattle Post-Intelligencer has perfected arrangements by which it will hereafter take and publish nearly a thousand dollars' worth of telegraphic dispatches every month—about twice as much as it has been taking heretofore. Such enterprise on the part of a Washington Territory paper is simply

suspicious, and the only wonder is where the support is to come from that will warrant such an outlay. We are proud of the rapid strides made by our contemporary in its competition with the Oregonian as a news paper, and wish it unbounded success.

ALMOST AN ACCIDENT.—On Sunday last as the Elder was coming into the wharf and the Goliath was steaming out, a boat was coming ashore from the U. S. surveying schooner Ernest, containing Mr. McHenry, draftsman on board the Ernest and a seaman. Unfortunately the boat got in front of the Goliath, and Captain Libby had to alter his course, thereby colliding lightly with the Elder. As it was, the small boat barely missed swamping Mr. McHenry with difficulty climbing over the guards of the Goliath, and the seaman being thrown overboard where he was afterwards picked up by the Goliath's men. It was a narrow escape of a serious accident.

WE present to-day the advertisement of Messrs. Plummer & Terry, the new proprietors of the fruit and variety store on the corner of Water and Adams streets. Mr. Holcombe, the retired dealer, also greets the public with a notice setting forth the business change and asking a continuance of his liberal patronage for the new firm, and a card of thanks to the public for generous favors in the past. Mr. Holcombe commenced here three years ago with a small beginning, and gradually built up a handsome trade, transferring at the sale a stock worth upwards of three thousand dollars. He very much regrets leaving such profitable and pleasant business, but finds that his health is so much better when engaged in outdoor work that he is compelled to change his occupation. He has a couple of heavy two-horse teams and will devote his time at once to the completion of contracts on hand. For the new proprietors we need say but little. They are young men well and favorably known in the community. Their business qualifications and general standing insure continued growth and prosperity in the trade to which they have succeeded. Read their advertisement, and call on them for any thing you want in their line.

MARRIED.

Near Union City, Mason County, W. T., by Rev. M. Eells, on the 26th of July, Mr. William J. Ross and Mrs. M. S. Googins.

A CARD.

I desire to express my earnest thanks to the public of Port Townsend and vicinity for the liberal patronage extended to me while doing business among them. O. H. HOLCOMBE.

NOTICE.

PORT TOWNSEND, August 2, 1882.

I have this day sold my fruit and variety store to Messrs. Plummer & Terry who will conduct the business hereafter, and for whom I request a continuance of my patronage. All persons having bills against me will please present them for payment; and all persons indebted to me are requested to call and settle. O. H. HOLCOMBE.

Just received at Jas. Jones', a large lot of Sensides, double, elephant drawing paper, Drawing pencils, tracing cloth, etc.

WHY should you cough while you can get a preventative by going to LATIMER & Co's? *

The Peruvian Syrup has cured thousands who were suffering from Dyspepsia, Debility, Liver Complaint, Bouts, Humors, Female Complaints, etc. Pamphlets free to any address, Seth W. Fowler & Sons, Boston.

CONVINCING.

In offering to everyone throughout the land a trial bottle of Syrup of Figs free of charge the California Fig Syrup Company is fully aware that it were folly to do so if the new remedy did not possess greater merit than any other article ever offered as a cure for biliousness and constipation. But knowing that every dose will convince the one who takes it of its efficacy, and make another friend for the remedy which is destined to become universal, they wish everyone to try it. N. D. PUGET SOUND ARGUS.

ALLEN WEIR, Editor and Proprietor.

LOCAL ITEMS.

From Thursday's Daily.

THE ARGUS received in a new type by the last steamer.

Mrs. HAYDEN passed through here today, leaving on the up Sound boat this morning.

MR. JAS. REID, brother of Rev. John Reid, of this place, is in town from Victoria, visiting relatives.

THE roof is being put on Mr. Winslow's new building next door to the post office. It has been built quite rapidly.

QUITE a number of young folks attended the dance last night, and the boys are agreed that it was a pleasant affair.

PROF. KERR arrived home today from Sequim, Miss Kate Morgan having taken charge of the school he has been teaching there.

COL. HUDSON, a carpenter, of Walla Walla, a first cousin of Gen. Grant, is coming to Puget Sound with the intention of locating.

OF the hundred or more persons dying in Pennsylvania last month over 90 years of age, nearly three-fourths were women. It has been remarked that women frequently remain to have the last word.

THE Callender Minstrels passed through here to-day, on their way to Victoria. Perhaps they may be induced to take in Port Townsend on their return. They had a very successful season at Seattle and Portland.

Oh, say! Did you see that nice saddle made by Mr. Blake for Rev. J. Reid? It is a beauty, easy riding, simple outfit, durable—and very CHEAP! Call on him if you want anything in that line. He'll suit you both as to quality of goods and price.

THE Dispatch arrived this afternoon (27th) from Neah Bay and way ports. Among her passengers were Capt. Hinds and Oliver, Mrs. Barnum, Mrs. L. H. Cays and Mrs. R. McDonnell, of Dungeness, and Mrs. A. Weir and children, Mrs. Capt. McAlmond and Mrs. C.F. King, of this place. A lot of freight was also discharged here. The steamer proceeded to San Juan where she will take on a load of lime for New Westminster.

From Friday's Daily.

CAPT. TUCKER, of the Dungeness light-house, is in town.

SENATOR Ben Hill, of Georgia, is lying at the point of death.

THE Good Templars of Wellington, B. C., are about erecting a large hall.

IT is thought that the Alaska excursion will be the event of the season.

WE learn that Capt. Willoughby will return with his family to live in Port Townsend.

M. C. ROBERTSON has taken a sub-contract to carry the U. S. mails from Neah Bay to Quileute.

W. BURRITT, of Seattle, has contracted to move the old buildings at the insane asylum near Steilacoom, so as to get them together and make a new ward of them.

WE are indebted to gardener Smith for a sample lot of small fruits—currants, cherries, &c. Mr. Smith keeps in advance of all competitors in this business. He gives the best of satisfaction as to quality of produce.

THE recent election in British Columbia for members of the local parliament, resulted in a sweeping victory for the opposition. This turns the present government out and puts the Colonist "on deck" again for government printing.

IT is said that the N. P. R. R. Co. will have 250,000 copies of Brents' speech on the Admission Bill printed, and circulate them for immigration purposes. This is certainly very creditable to Mr. Brents, and cannot but prove beneficial to our fair young territory. The speech is certainly one of the finest documents ever emanating from any one regarding our position, resources, claims, &c.

CAPT. HENRY McALMOND, who has had charge of the pilot schooner Champion most of the time for the past year, shipped at this place on the bark W.H. Besse, bound for Australia. He intends to return by way of China, and will be absent perhaps a year. Henry arrived at his majority a few months ago, and having some of the indomitable energy of his father, is resolved to make a strike in the world for himself. We wish him a safe voyage, and doubt not he will return with his nautical experience materially enlarged.

GOV. THAYER of Oregon, has commuted the sentence of J. C. Powers from hanging to imprisonment for life. Powers' crime was the killing of Benj. Cornelius, his father-in-law. The petition for executive clemency was signed by 11,000 people.

From Saturday's Daily.

CAPT. L. M. STARR passed through here yesterday.

CONGRESS is expected to adjourn some time in August.

REV. A. LAUBACH arrived from Port Discovery today.

FOREST fires east of the mountains have been terrific.

THE post office at Hoko in Clallam county has been discontinued.

ALL who have empty cisterns wear a benign smile this showery weather.

DR. CHILDS and wife, of Portland, will visit Alaska on the excursion next month.

THE M. E. Annual Conference for Oregon and Washington will meet at Albany, Oregon, August 23d.

CAPT. C. A. ENELL has associated himself with John M. Cushing for the purpose of carrying on the stevedore business on the Sound.

J. BYRNES, agent of Nicol The Tailor, of San Francisco, is stopping at the Central Hotel. Mr. Byrnes is a practical and experienced cutter.

IT is said there will be a game of base ball near Port Townsend tomorrow. Some of the Chimacum boys are coming down in search of laurels.

ARRESTED.—Marshal Finn today arrested one John Graul, a deserter from the 1st cavalry company, Ft. Vancouver. He arrived on the North Pacific.

IT is said that John Collins, of the Occidental Hotel, Seattle, is erecting a new building for his business there that will eclipse anything north of San Francisco.

THE presentation of a gold watch and chain to Governor Newell recently in Washington, by his New Jersey friends, must have been a source of profound gratification to him.

NOTICE of the dissolution of the partnership of Messrs. deLion & Enell appears elsewhere. The firm of R. deLion & Co. is continued with Capt. E. A. Nickels in place of Capt. Chas. A. Enell.

THE Marietta Hotel at La Conner, conducted for a long time by Milton B. Cook, has been closed for a month or more. It has been leased by Mr. John A. Biebel, recently of Mount Vernon, and will be reopened August 1st. Cook has settled in the northern part of Whatcom county.

WE are indebted to C. B. Bagley, public printer, for a pamphlet copy of the laws left out of the new code by the last Legislature. These laws were compiled by Messrs. John P. Judson and Elwood Evans, gentlemen of eminent locality, and we doubt not the job was thoroughly done.

MR. TIBBETS and wife, of East Portland, arrived here on the up Sound steamer yesterday, on a tour of pleasure and observation. Mr. Tibbets crossed the plains in early days with the late Hon. L. B. Hastings, of this place, and other pioneers. He is well known by many of the early settlers on this coast.

From Monday's Daily.

DID you see the book agent?

HAZEL KIRKE is all the rage on the Sound now.

TOMORROW will be collection day again. Get ready to pay your bills.

HEAVY rains the past few days will interfere somewhat with late hay crops.

IT is said that the Seattle Chronicle will soon be changed to a morning paper.

MR. JAS. McCURDY, the successful lime kiln man of San Juan Co., was in town yesterday.

THE basement of Mr. Eisenbes' new stone building is about completed, and the wall are growing rapidly.

A NEW street lamp has been hoisted into position in front of Latimer & Co's drug store and Sterning's saloon.

By the recent cyclones and tornadoes in the West 130 persons were killed, and \$3,500,000 worth of property destroyed.

DEED:—In this city, on the 27th inst., Sarah, wife of Mr. Ashur Freeman, lately of Port Townsend.—Olympia Courier.

POLICE chief Woolery, of Seattle, arrived today and proceeded to Fort Townsend with two deserters from Fort Vancouver.

OUR readers are to-day informed that Messrs. Chas. McDermott & Co. have opened a collection agency in Seattle. Read their notice.

CAPT. MORRIS returned to Dungeness to-day. Mrs. Capt. McAlmond and Mrs. C. F. King were also passengers on the outgoing Dispatch.

WE are told that Capt. Brittain, of Seattle, has sold his Seattle and Sehome mail contract to the Port Gamble steamboat company, and that the City of Quincy will commence duty on the route soon.

A BRESEN order from the treasury department allows the citizens of Alaska to carry arms for the protection of their life and the killing of game. The sale of arms and ammunition however is pro-

hibited unless by persons about to leave the territory.

MASONIC.—On the 27th inst. Grand Master J. A. Kuhn, accompanied by G. O. Haller, P. G. Master, and about 15 other brethren, left Utsalady on the steamer City of Quincy for Skagit City, where the G. M. constituted Mount Baker Lodge No. 36, F. & A. M., and installed its officers. The new lodge starts off with 11 charter members, and has a large jurisdiction.

MR. Landes has been appointed ticket agent for the Red Star and American lines of ocean steamers. He is prepared to sell tickets to Europe from New York or Philadelphia, prepaid, at lowest rates. This will prove a great convenience to many of the public, who desire to send tickets to their friends instead of the money. If you will call on Mr. Landes he will give you all the information desired.

RESIGNED.—We understand that Mr. Chas. McDermott has tendered his resignation to the director of the Port Madison School district. Mr. McDermott has held the position of teacher at Port Madison for a number of years and he now leaves to become a resident of Seattle. Who his successor is we are not informed, but we understand that the directors have their eye on a capable teacher, to whom the school will be offered.—Post-Intelligencer.

ON the returning trip of the mail steamer Hope from San Juan Island to Port Townsend on Sunday morning last Miss Lima Penfield was a passenger on her return home to Seattle. Miss Penfield has just completed a term of school in No 1 district on San Juan Island. It was her third term there, and the people did not seem averse to a third term in this case. The lady gave splendid satisfaction as a teacher and left with many hearty wishes for her welfare by her numerous friends.

THE Ledger, of New Albany, Indiana, publishes the following pleasant paragraph: "Hon. Thos. H. Brents, delegate from Washington Territory, recently made a strong speech in Congress in favor of the admission of that territory as a state. There is much fact and philosophy in his argument. There is much more reason for the admission of one of the coming great states of the Union than there was for taking in Colorado, Nevada and several others, and a thousandfold more reason for it than there would be for Dakota.

MR. R. A. HORN has just been nominated to represent the fourteenth Ohio district in Congress, and as the district is largely republican and he is popular, there is no doubt of his election. His twin brother is now in Congress from Michigan, and will, in all probability be re-elected this fall, so that the two brothers will meet on the floors of congress as fellow representatives, on the 4th of next March. They are brothers of our fellow-townsmen, J. C. Horr, special treasury agent.—Olympia Courier.

DEED.—Charles Edwin Jones died at home in this city at 7 o'clock last evening, after a five weeks' illness with dropsy of the heart. Mr. Jones was born in Clarksville, Missouri, July 3, 1855, and has lived in this territory nine years. He was a good citizen and a worthy man, and his loss is much to be regretted. He leaves a wife and infant child. Mr. Jones was a member of Seattle Lodge of United Workmen and of Seattle Lodge of Good Templars, under whose auspices he will be buried today. Funeral at the residence, on Fourth street, between Pike and Union, at half-past 11, and a c. M. E. church at 2.—Post-Intelligencer, 27th.

[Mr. Jones was a brother of Mrs. Capt. Clark, formerly of this place, who died recently at Goldendale. He was much respected by those who knew him in this place, and he also had many warm friends in Whatcom county. A friend writes us of his death: "He died easy. His face lit up with a smile and he said, 'O happy children, come.'"—Ed.

Shipping Items.

PORT GAMBLE, July 28.—Arrived, bark Fresno, from San Francisco.

Arrived, schooner Excelsior, from Fiji Islands.

THE Occidental and Oriental Steamship Company's steamer Oceanic, is now on the way from Hongkong. Her orders are that if she cannot make San Francisco before the date on which the Chinese bill goes into effect, she is to proceed to Victoria and land her Chinese there.

PORT TOWNSEND, July 27.—The steamer Favorite arrived this morning with bark Buena Vista in tow, lumber laden from Utsalady. The Goliath also arrived with British bark Osseo, lumber laden from Port Gamble bound for Antofagasta. The Goliath left again with the Buena Vista, outward bound. Yesterday the Norwegian bark August Smith arrived from Royal Roads, in tow of the Canadian steamer Pilot. She today in tow of steam-tug Blakely, bound for Port Blakely. A vessel is off Point Wilson, supposed to be the bark Osceola.

PASSENGERS COMING.—The steamship Dakota sailing from San Francisco Saturday afternoon, brings to the Sound the following Alaska excursionists: Captain Phillips and wife, U. S. N., Jas. Marshall and wife, H. A. Heywood, J. Martinstein, S. Parson, O. F. Bufford, S. A. Alexander, Miss A. Don and friend, A. B. Clark, J. F. Stover, Jacob Sneider, D. W. Labeck, R. E. Woodforth, Jas. Bachelder.

THE sloop Frances has been lanchered from Tobey's ways after a thorough overhauling and complete repairs. The schooner Perry was hauled up to-day and will be attended to.

THE fine new barkentine John Smith, just finished at Port Blakely by the H. I. Bros., arrived last evening. She is a splendid looking craft and compares favorably with their best work.—Alta, July 26th.

WHEN the British bark Lammerlaw was stranded at the entrance to Shalwater bay, last winter, the officers of the life-saving station did good service in rescuing the officers and crew, for which the British government has awarded to Capt. A. L. Stream, the keeper of the station, a fine silver medal, and a present of £2 each to the six men composing the life-saving crew.

COSSIP FOR THE LADIES.

Wants Him Back.

It was a proud young lumberman Who said my heart and hand— "If you love me as I love you, Our marriage shall be planned."

I doted on his stalwart form, And, like a silly goose, Thought never of his absent lad, Nor one who looked so prone.

His eyes were hazel in their hue, His hair was chestnut tint— His mouth was uttered words of gold, His breath was sweet of mint.

He had a grasp for every pair, A leader grip for mine; He was so popular with the girls, They all for him did pine.

He said: "Ook careful be, my dear, Beech cha to and always good— 'Tis little I know of the world, I'm looked up, button-hood."

He left me for the leafy glades, And went by Maine trunk line To Androsogog's logging camp, On chops to daily dine.

I willow any one a debt Of great love if they bring tidings of my absent "mash," Now three long years away.

How Beds Are Made Beautiful.

A great deal of decorative color is now fashionable for bed-coverings. Silk coverings of embroidery or of rich damasks are used over the entire bed. If a white spread is preferred, it is brightened by a scarf drapery of rich dark brocade, that is thrown carelessly across the foot of the bed. The Japanese embroidered quilts, and those done with gilt threads in tapestry designs, are especially handsome. Antique laces combined with white muslin are used over colored silk linings for bed-spreads, with pillow-spreads to match. A border of red plush, upon which the lace edge falls, is a pretty finish; when not lined, these lace spreads are used over down comfortables that are covered with rose, blue or red silk.—Boston Advertiser.

Parisian Ball Costumes.

A wonderful amount of invention is expended in devising original costumes for Parisian fancy balls. A lovely Countess, who is noted equally in Paris for wit and beauty, gave one recently in which her guests represented a fruit garden. The ladies appeared as vines, cherry trees, currant bushes, strawberry plants, etc., and the gentlemen as apple and pear trees. One lovely young lady, it is said, won murmurs of admiration as a strawberry. At another ball a kitchen garden was represented. The ladies wore white and red turnips, cauliflowers and radishes (the sweet-smelling onion and the suggestive carrot were neglected), and the gentlemen appeared as cabbages, beet root and celery. Some amusement was created at another fancy ball given by Mme. Guichard by the appearance of a newly-married couple as cock and hen, the cock being arrayed in golden brown feathers, with comb and spurs complete, and the hen in white satin and swansdown, with a little white-feather tail and a small basket of golden eggs.

Humorous Writing.

Almost every one privately indulges in the idea that he could become a celebrated humorist writer if he were only to try.

He takes up a magazine or newspaper and reads a humorous article, and says to himself: "If I only had time, I could do vastly better than that."

Now, friend, suppose you take the time and try!

If you can produce a first-class humorous sketch, your fortune is made. You need not plod on in counting-houses or vegetable behind the counters of dry-goods stores selling calico at a profit of 2 cents on a yard. You can just go on with your first-class humor, and fix your own valuation upon it, never fearing but it will be paid.

But the fact of it is, you are a little mistaken. This humorist business is much easier in theory than in practice. Anybody can criticize and find fault with our funny writers, but the question is can that same "anybody" do any better? If so, let him do it.

You think it a very easy and simple thing to sit down with a pen in your fingers and a sheet of paper before you and indite thoughts which shall convulse the world with laughter, and sayings which shall be repeated for scores of years to come?

Well, we are all willing you should try, and when you achieve success we will laugh at your witty things, and sun ourselves in the flash of your diamonds, and not feel any envy. * * * We are apt to look upon humorous writing as a pastime, as requiring less thought and intellectual power than the heavier essays which crowd our reviews; but in this we are mistaken. Your true humorist must have wonderful imagination, observation, a keen sense of the ridiculous, a thorough understanding of men, a generous power of language, delicacy, sensibility, tenderness and a strong love of humankind.—The Thorn Papers.

"EGGRIA, EGGRIA, will you still insist on wearing the hair of another woman upon your head?" "Alphonso, Alphonso, do you still insist upon wearing the skin of another calf upon your feet?"

The Catalpa Tree.

It is believed that the railroad tie of the future will be cut from the beautiful catalpa tree. The Fort Scott, Texas and Gulf railroad have planted 800 acres of young trees, and the Iron M. near Charleston, Mo. on the track-bed of the latter company ties of this wood have laid in the muddy silt of the Mississippi for twelve years, and are still in a good state of preservation. They have outlasted two sets of white oak ties, and bid fair to survive the third.

EDUCATION.

Comparative Statistics as to Elementary Education Through the World.

In a paper prepared by the States Bureau of Education is included some interesting and valuable statistics, compiled from the latest official reports, showing certain facts relating to the condition of elementary education throughout the civilized world. Among the facts exhibited regarding each country are the total population, the school age as established by law, the total school population, the number of schools, the number of pupils enrolled, and the most interesting facts thus to be presented are given in the table printed herewith.

It will be observed, upon reference to the following table, that in some of the countries the number of pupils enrolled in schools exceeds the entire school population. For example, the school population of England and Wales was reported at 2,500,000 in 1879, while the number of pupils enrolled in schools in the same year was 3,710,883. This apparent discrepancy is explained by the fact that the official school age in those countries comprises only children from 3 to 15 years old, including those in infant schools. The 2,500,000 school population is an estimate, and included only those children who were between the ages of 7 and 13 years. Of the 3,710,883 pupils enrolled, 1,208,016 were between the ages of 3 and 7 years, 2,333,973 were between the ages of 7 and 13 years, and 168,894 were over 13 years old. In nearly all the Continental countries of Europe the school age covers a period of only seven or eight years, usually from 6 to 13 or 14; and consequently many children younger than 6 years or older than 14 years are enrolled as pupils in the schools, although they do not form a part of the school population.

In the United States the school age varies greatly in the different States. The longest period is a seventeen years, from 4 to 21 (in Florida, Maine and New Hampshire), and the lowest six years, from 8 to 14 (in Texas). School age in the United States covers an average period exceeding four years, while in European countries the average period is a little more than one-half as long. It would not be fair to conclude that, because Saxony reported more than 100 per cent. of her school population enrolled in public schools in 1878, she was therefore, in an educational sense, ahead of the United States, which reported only 64 per cent. of the school population enrolled in the public schools in the same year. In Saxony the school age covers a period of only eight years, while, as has been shown, in the United States the period exceeds fourteen years. In this table the school population of Russia is estimated at 15,000,000 in round numbers. This, and the reported school population of England and Wales already mentioned, are the only estimates in the table. Of the 69,527 teachers reported in England and Wales, 29,716 are certified teachers, 6,610 are assistant teachers, and 33,199 are pupil teachers. Following is the table above mentioned:

Table with 4 columns: COUNTRY, School Population, Number of Pupils Enrolled, Number of Teachers. Rows include United States, Algeria, Alsace-Lorraine, Argentine Republic, Austria, Baden, Belgium, Brazil, Bremen (free city), British Burma, British Columbia, British India, Ceylon, Denmark, Egypt, England and Wales, Finland, France, Greece, Hamburg (city), Hawaiian Islands, Hungary, Ireland, Italy, Jamaica, Japan, Luxemburg, Malta, Mexico, Netherlands, New Brunswick, New South Wales, Norway, Nova Scotia, Ontario, Portugal, Prussia, Quebec, Roumania, Russia, Saxony, Scotland, Serbia, South Australia, Spain, Sweden, Switzerland, Tasmania, Victoria, Wurttemberg.

"WELL, you'll own she's got a pretty foot, won't you?" "Yes, I'll grant you that, but then it never made half as much of an impression on me as the old man's."

Gough.

After all his life-long work upon the platform, and with the high fees his fame and abilities justly command, John B. Gough is not a rich man. His private charities are as large and numerous as they are unostentatious, for this great-hearted man does not let his left hand know what his right hand does. He has met with frequent and heavy losses on account of the tender-hearted willingness with which he puts his valuable autograph on the back of a friend's album for ninety days, and the almost infallible certainty with which he is compelled to get it back again for himself when the three short months have flown. Mr. Gough ought to be worth \$500,000, but like most men whose hearts are wrapped up in, and whose lives are consecrated to, some great work of reform, he is not a good business man, and unpeccantious friends and suffering humanity have got most of the money the great apostle of temperance has earned by hard platform work.

Substitutes for Wood.

Year by year other materials are being substituted for wood in the erection of dwellings and buildings of all kinds, in the construction of bridges, fences and sidewalks, in the manufacture of carriages, agricultural implements and furniture, for producing heat for cooking and warming dwellings, and for generating steam. In many parts of the country it is quite as cheap to erect buildings of brick or stone as of wood, though the time required is somewhat longer. Within the past five years boards have given place to wire in building farm fences, and in ten years more wooden fence posts will give place to those of stone, cement or iron. Wood is rapidly going out of use as a material for hoops for barrels and other forms of cooper's ware, and, indeed, barrels and casks of any kind are giving way to other kinds of packages for holding other substances than liquids. Wooden pavements are now generally condemned in all large cities, and wooden sidewalks will soon share their fate. Recently baskets made of strip-iron for picking cotton, gathering potatoes and harvesting fruit have been introduced. They are light, clean, very serviceable and comparatively cheap. Furniture made of metal or stone is fast displacing that manufactured from wood. Wood supports are still used for railway tracks, but it is likely that a substitute for them in some form of metal or stone will be found before trees can be grown of sufficient size to convert into ties. Not only sea-going steamers and vessels are made of iron, but many smaller boats are constructed of the same material. With the exception of steamboats navigating rivers and lakes whose banks and shores are lined with forests, or locomotives running through sections of the country that are heavily wooded, there is no longer a demand for wood for generating steam. No one will question the excellence of a wood fire, whether it burns in a stove or open grate, but it is no longer economical in most places, even if the material to support it can be obtained at a comparatively low price. Wood is bulky, while coal is compact. The former requires considerable preparation before it can be used, while the latter needs none. Much more labor is required to keep up a fire of wood than one of any kind of coal. Wood needs better protection than coal, and depreciates in value much faster when kept in any situation.—Chicago Times.

Ears.

Large ears can hear things in general, and denote broad, comprehensive views and modes of thought, while small ears hear things in particular, showing a disposition to individualize, often accompanied by love of the minute. Large ears are usually satisfied with learning the facts of a case, with the general principles involved—too strict an attention to the enumeration of details, especially all repetition of the more unimportant, is wearisome to them. People with such ears like generally, and are usually well fitted, to conduct large enterprises, to receive and pay out large sums; in buying or selling would prefer to leave a margin rather than reduce the quantity of any sort to the exact dimensions of the measure specified, and in giving would prefer to give with a free hand and without too strict a calculation as to the exact amount. Small ears, on the contrary, it were to know the particulars of a story as well as the main facts; are diligent often in examining, handling or constructing tiny specimens of workmanship; are disposed to be exact with respect to inches and ounces in buying or selling—to the extent, at least, of knowing the exact number over or under the stated measure given or received. People with such ears would, in most cases, prefer to retail to a wholesale business.—Phrenological Journal.

How Raisins Are Made in California.

The grapes are allowed to remain on the vine until of a golden color and translucent. Then they are picked and put on wooden trays two by three feet in size, placed between the rows, sloping to the sun. When half dried, they are turned by putting a tray on top, and, by inverting them both, are transferred to the new tray. When the grapes lose their shiny appearance, and after removing the green ones, the rest are put into large sweat-boxes, placing sheets of paper between every twenty-five pounds of raisins. They are left there for two weeks, when the stems are tough and the raisins soft. The packing follows, in which iron or steel packing frames are used, the raisins being assorted, weighed, inspected and means presented.

THE evaporating process so extensively employed in the drying of apples and peaches has been applied also to codfish, which can be reduced to a fine dry meal, one pound of which is equal to ten pounds of fresh cod in nutritive properties.

Sinecures at Washington.

Before this house (the one occupied by Mr. Seward when he was attacked by Payne), for several years afterward, a sentry paced night and day, even when Mr. Seward had moved away and gone out of office. The same building was once used as a club-house, and from it Key had just issued when he was shot by Sickles. This lonely sentry, still at his post long after he had been forgotten at the War Department, and allowed to remain, I suppose, because no one thought it was his duty to relieve him, reminds me of several similar incidents that are related in Washington. The great falls of the Potomac are about sixteen miles above Washington, and during the war there was a station for the collection of provisions for the army on the bank of the canal near these grand cataracts. The road between Washington and Great Falls was several times raided by the Confederates, and a block-house was erected by the Federals at a point three or four miles above Georgetown to prevent parties of rebels from passing up and down the road. At the close of the war the defenses about the capital were one after another deserted, but nobody seems to have remembered the corporal's guard stationed out there on the Aqueduct road, and they remained on duty for a year or two. After they were relieved the block-house was set on fire by tramps or boys, and only a few blackened posts now mark its site. A still more remarkable case was that discovered by Gen. B. F. Butler about ten years ago. He was nosing around among the appropriations one day, when he discovered an officer in the Capitol whose duty he did not understand. He was 'watching crypt.' An investigation showed that many years ago it was proposed to deposit the bones of G. W. George Washington beneath the Capitol, and a crypt was prepared for that purpose. When it was completed, a public officer was appointed whose duty it was to watch this crypt and prevent its desecration, and there he had been ever since, growing gray in the service, and while Congress had appropriated money to pay his salary year after year, nobody had thought it worth while to inquire how he earned it.—Washington Correspondence Press.

Agricultural Methods in New Mexico.

The Mexican and Indian methods of harvesting their grain are very primitive, similar, indeed, to those of Eastern countries in Bible times. Wheat is cut by hand with a sickle, and taken, unbound, in carts to the threshing floor. This consists of a round plat of level ground, in an elevated place, fifty, 100 or 200 feet in diameter, as the farm is a large or small one, the surface of which is pounded or trodden as hard as a cement floor. Around the edges of this, tall poles are set in the ground five or six feet apart, forming a circle. The unthreshed grain is piled up loosely in the center, and, when everything is ready, a thin layer is raked down between the central pile of grain and the circle of poles, and then a flock of goats or sheep, or sometimes of burros or ponies, is driven around over the grain until it has all been beaten out of the heads by their feet. The straw is then thrown outside of the circle of poles, and the wheat pushed up toward the center. Another lot of the unthreshed grain is then raked down, and the operation repeated until the wheat is threshed. I was forcibly reminded of the scriptural injunction which forbade the Hebrews to muzzle the ox that trod out the grain. The winnowing is also done in the Biblical way. After the wheat has been separated from the straw, it is gathered up into a heap, and when a brisk breeze arises it is thrown into the air in the teeth of the wind, which blows away the chaff while the wheat falls by itself on the clean floor. At a distance the flying chaff looks like steam escaping by successive puffs from the exhaust-pipe of an engine.

Celebrated Poisoners.

At one time, poisoning was largely practiced in Italy. The most celebrated of the Italian poisoners were two women named La Spiza and Toppania, who were both executed. The latter confessed that she had been instrumental in poisoning 600 people, during a life of 70 years. Her poison was colorless and tasteless, and could not be detected. It was put up in vials and labeled by her "Manna of St. Nicholas," though it was usually known by her own name as Agna Toppania. So common a thing did poisoning become, that fashionable ladies kept bottles of this fatal water upon their dressing tables, as they would lavender water. By regulating the dose victims could be dispatched in a week, a fortnight, a month, or a longer period, as suited the plans of the poisoner. In England seventeen persons were poisoned by Home, the Bishop of Rochester's cook. Madame de Brinvilliers, a young Frenchwoman of most engaging manners, ran a most distinguished career as a slow poisoner. By the advice of her husband, she leagued with a poisoner by the name of Saint Croix, to dispatch her father and brothers, that she might inherit their property. The slowness of crime inspired her with a guilty passion for her accomplice, and she afterward sought to poison her husband that she might marry Saint Croix. But he latter had no fancy to form a closer connection with this wicked woman, and, by the secret administration of antidotes, prevented the husband's death. She was at length detected in her practices, and perished on the scaffold.

A professor, who got very angry at the interruption of a workman while he was explaining the operations of a machine in a factory, strolled away in a huff and asked another workman: "Who is that fellow who pretends to know more than I do about that instrument than I

do." "Oh, he is the man that invented it," was the answer.

Crape on the Door.

Some one has gone from this strange world of ours, No more to gather its thorns with its flowers, No more to linger where sunbeams must fade, Where on all beauty death's fingers are laid.

"There's crape on the door!"

A mother going by with her darling involuntarily tightens her grasp of the little hand, as she sees the banner of death furled so near, and the boy feels the pressure and says:

"What is it, mamma?"

"Some one is dead, Willie!"

"What does 'dead' mean?"

The mother looks about her for an answer to the child's question.

"It means—it means—why, Willie, you remember when your little sister died and was cold, and we buried her under the grass—"

"And then?" queried the child.

"Then she went to heaven."

"Where is heaven?"

"It is where God is, my dear."

"Mamma, who made God?"

Poor child! his thoughtless questions get no more satisfactory answers than our researches into an older theology over which we so vainly agonize, and he must remain contented with his limited knowledge that some one is dead and it is the custom to put crape on the door—a custom beautiful in itself, infinitely beautiful if we look upon the insignia as one of hope and glad acquiescence in a summons to rest.

Some one is resting from sin and sin, His life which earth's conflicts enter not in; One who departed to his own bright shore; King the blessing, there's a crape on the door.

We do not cup our hands and cry joyously, "It is the banner of immortality." No! We start and walk with slow step and bated breath, as the heavy wave of crape meets our eyes, and we shudder instinctively in the bright sunshine. The green leaves are coming, the flowers will bloom, the birds will sing, and the heart throo with the fullness of life.

Leaves have their time to fall, A flower to wither at the north wind's breath, And stars to set, but all that is not death; O Death! for thine own, O Death!

Custom has decreed that that death is present, and the solemn badge of the stately ambassador guards the portal from all idle intrusion. No social visits are paid to the house that shows that sign; no call of ceremony is made while that guest is present; nor do people linger idly in the vicinity of the house that is thus set apart from its neighbors.

The somber fall of black crape on the door assures us that one of nature's years has "passed over," but for a young parson or a little child, white—the emblem of purity—is used, but it tells the same sad story:

Wary with musing, let's bitter and sweet, (Tary with passion and love) to meet, So one has gone to the bright golden shore, King the bell softly, there's a crape on the door.

—M. Quail.

Metals in the Body.

The human body, which seems made up of flesh and blood, really contains several metals and gases, and other substances, which perform important offices in the world of science. Nitrogen and carbon and hydrogen are its chief constituents, but it holds, beside, about two pounds of phosphorus, which is essential to the health of the bones and vigor of the brain. This phosphorus, if extracted and put to use, would make up about 4,000 packages of friction matches. Beside phosphorus it contains a few ounces of sodium and a half an ounce of potassium, which school boys know as a curious metal that burns brilliantly on the surface of the water or when touched by a match. The quantity of such in the body would be sufficient for many experiments in a large school. In addition to sodium and potassium there are a few grains of magnesium, enough to make the "silver rain" for a family's stock of rockets on a Fourth of July evening or to create a brilliant light twenty miles away. Who knows but some reckless chemist may undertake to drive a profitable business by extracting these materials from dead bodies?—Scientific Press.

THE only way to enjoy even a semblance of happiness in this world seems to be to do as near to God as possible and leave the rest to God.

ANOMALIES IN SPELLING.

One word in the English language can be spelled phonetically without using a single letter belonging to it, viz.: "Coffee—kaughphy." The monosyllabic pronouns I and you have also their symphonic words—"Ay," "aye," "eye" and "ewe." Are there any other words embraced in the same category?

The terminal "gh" has peculiar properties. It is silent as in "plough," or pronounced like "f" as in "tough." It also seems to have the power of giving an arbitrary pronunciation to the compound "on" preceding it, which is pronounced differently in the several words "plough," "tough," "cough" and "alough."

There are a number of words—seven, I think—in which all the vowels follow each other in their regular order. I can recall but one—"abstemiously." Can any of your readers give the others?

It seemed strange to me in looking up the new word "enflage," not yet in the dictionaries, to find that previous to its invention there was no word in the English or French language beginning with what appeared to be so natural a combination of letters as "enst." In Latin there is only Ensis (a sword) and its derivations.—Boston Transcript.

The Cutavaco Cures

PITYRIASIS, or Dandruff, with which many are afflicted.

ALOPECIA, or Baldness, also depends upon a fungus destroying the roots of the hair. A spot may first arise where first inoculated, spreading in a circular form, and so enlarging by degrees that the whole hair is swept away, leaving a glistering scalp; or, the disease may first appear in various places. The hair is dull and lustreless and easily extracted, or it begins to fall, and progressing by degrees is soon lost unless remedied.

The Cutavaco will cause the hair to grow, because it at once destroys the offending cause which prevents; the hair is at once preserved, and the scalp and bulbs made healthy and vigorous.
