OUR REPORTERS' BUDGET.

LA CONNER, W. T., Oct. 11, 1882.
Reports from here have lately been scarce, not for want of news, but the duties of each day took up all the time, everybody has been very busy here, and yet the busy season lasts.

Farmers have been improving the late long spell of fine weather; the greater number of them have their grain all secured, and a few have even sold their crops already at fair prices.

The overflow of the Skagit in the Spring has left its mark in many places; the grain was light but all in all the farmers have secured good crops. R. E. Whitney and a few others of the larger farmers have yet some grain not harvested, notwithstanding that, for instance, R. E. Whitney has four harvest crews working, but let us have one more week of fine weather and most all will have finished.

Carlson & Morrison have their new building finished far enough to have moved their saloon in last Saturday. They have a very fine room. They expect to have the upper part finished far enough to give a dance there on Friday, October 20th.

Dr. Calhoun will also soon have finished a new wing to his residence.

B. L. Martin is again enlarging his store. You see everybody has faith in the growth of La Conner.

Yours, S. J.

THE PUBLIC SCHOOLS.

At a late meeting held by the directors of the public schools of this district—Doctor Minor, Joseph Kuhn, Esq., and the undersigned being present—the fact of the schools having been uncomfortably crowded during previous terms in consequence of receiving non-resident pupils from other counties, was brought to the notice of the board, and having been unanimously considered a resolution was passed, that such scholars should not be received in future, until proper accommodation could be afforded them without inconveniencing the children of the tax paying inhabitants of the district.

The writer has now been informed that a young woman from Dungeness, related to a prominent merchant here, has been admitted to the privileges of the school, it not having been considered necessary (in her case) to consult the directors as a whole, or to rescind or modify the resolution referred to which debars all others.

If there is a line where political influence, or that of secret societies, should cease, or where, if offensively put forward, should be peremptorily checked, it is in the education of our youth—at the door of the public school. There the child of the influential and rich citizen and of his struggling neighbor should meet on equal terms, nor should favor be granted the one which is denied the other.

Let it be understood that the writer is unacquainted with the young woman here mentioned; that he reflects not upon the natural and praiseworthy desire to obtain an education, but that he is totally opposed to the secret and peculiar policy which, under the circumstances, admits her while excluding all others, and against it enters this protest through the public press.

TELEGRAPHIC.

SAN FRANCISCO, Oct. 9.—The steamship Queen of the Pacific arrived in port yesterday from Portland, having in tow the steamer Empire. The latter, when off Cape Blanco, on her down trip last Tuesday, blew out her cylinder head, and being unable to get under headway, drifted about badly under control until Thursday, when the Queen came along and took her in tow. The weather proved quite rough, and several hawsers parted before the disabled steamer was towed into port.

COLUMBUS, Oct. 11.—Additional returns are coming in slowly. The Republicans are getting no more advices, and are conceding everything but a few Congressmen. The estimates this morning put the Democratic majority in the State at 25,000, and make the Congressional delegation stand fifteen Democrats to six Republicans.

The election of McKinley in the Eighteenth, and Robinson in the Ninth district are in great doubt, and the Republicans must carry both to get six Congressmen.

A peculiarity of the contest is that while the Republicans were championing temperance, the vote has greatly increased, and it is estimated that they have a larger percentage of gain than the Democrats.

CHICAGO, Oct. 11.—The Republicans in this part of the State and the Third Congressional District have experienced an unprecedented Waterloo. The Democrats have elected everything from top to bottom of their ticket. This county (Montgomery), which gave the Democrats a majority in the Foster campaign last Fall, runs up the figures to 19,000, a net gain of 1,700. Miama county shows up with a small Republican gain, not exceeding 150. R. M. Murray's majority as the Democratic candidate for Congress will not be less than 200. It is estimated that Murray's majority in the district will be 50,000. This, of course, is from Democratic sources.

PANAMA, Oct. 11.—An Indian from the San Blas district, on the Atlantic, reports that on Sept. 7, an earthquake occurred there, and four tidal waves overwhelmed six or seven little villages on the island and main land, and drowned about 70 persons.

MASONVILLE, La., Oct. 11.—A fire yesterday destroyed Lattimer Bro's building and stock, and four other places. Total loss, \$145,000; insurance, \$6,500.

NEW YORK, Oct. 4.—Lieutenant Danenhower of the United States Navy and one of the survivors of the Jeanette exploring party, delivered a lecture last evening to a large audience in the Brooklyn Academy of Music upon his recent experience in the Arctic regions. He was introduced in a brief and eulogistic speech by a representative of the Knights of Honor. The lecture was delivered in narrative style and was full of interesting details.

WASHINGTON, Oct. 9.—The Saes and Foxes, Indians of Iowa, accompanied by Agent Dupont, had a conference with Indian Commissioner Price this morning.

Commander Pearson, commanding the U. S. steamer Wachussetts, stationed at Sitka, Alaska, preferred charges against Wm. Gouverneur Morris, U. S. Collector at that port. He is charged with overbearing and insolence and unwarranted exercise of authority. There has been a great deal of fuss between him and the naval officers. He has also quarrelled with missionaries. The charges will be forwarded to the Treasury Department.

Professor Tilden has submitted to District-Attorney Corkhill a report of the chemical examination, just completed, of the poisoned bouquet given to Guiteau by his sister, Mrs. Scoville, the day before the execution. The report says a large bulb contained over five grains of white arsenic, not only sufficient to cause death, had it been swallowed, but so largely in excess of a fatal dose that the intent of those who prepared the flowers would be defeated by emetics. The original amount of arsenic was greater than that found, as the petals failed to retain in their dry state some which adhered to them in their moist. Corkhill said he is trying to discover the person who poisoned the flowers, and if found, the guilty person will be held to answer.

NEW YORK, Oct. 7.—The obsequies of the Land League were quietly celebrated by Patrick Ford of the Irish World yesterday, who sent a draft for \$17,424 for funeral expenses, to Patrick Eagan, the treasurer of the league, at Paris, making a total of \$342,548 remitted. With this issue the Irish World closes the funds of the league. The editor as a reason gives the following statement: That there is no longer a land league in existence. What was the Land League is a thing of the past, and instead appears that beggarly nondescript with its chronic complaint and whine—the Relief Committee.

CHICAGO, Oct. 7.—A forthcoming report of the State Bureau of Labor will show that Illinois is second only to Pennsylvania in the production of coal, and that the output increased from six million tons in 1880 to nine million tons this year. Forty-six out of the one hundred counties produce coal. The aggregate value of the output at these mines has been nearly \$14,000,000.

CAIRO, Oct. 7.—While the annual train which recently departed with imposing ceremonies, was journeying to Suez on the way to Mecca, the canopy over the sacred car was caught and overturned by a telegraph wire and the sacred emblem exposed to the public gaze. The Dervishes in charge were greatly excited by the accident. It is not certain but that the caravan will have to return and the ceremony performed over again in Cairo.

CLIPPINGS.

The biggest farce of the season was the "Bribery Case" at the Oregon Legislature. An old gentleman named Nichols, a member of the house from Wasco, told Holman, of the Oregonian, that Bob Ford had offered him \$8,000 to vote for Mitchell. Holman telegraphed the story to his paper. Mitchell demanded an investigation, and it was shown by the testimony of Nichols that Ford, who did not know Mitchell, had not offered him a cent, but that Nichols had intimated to Ford that for \$10,000 he would vote for Mitchell; and that Mitchell had told Ford that if \$3,000 would buy the Senatorship he did not have the money to pay for it. The Oregonian made a great outcry over Nichols' story and got laughed at for his trouble.—Union.

Some thirty-five iron mine claims have been taken on the Skagit up to the present time. Several tests of the ore have already been made and have been found satisfactory. Claimants are diligently at work securing their rights under the law, and no doubt ere another year rolls around smelting works will be in operation there, which together with the coal veins now being prospected and developed will bring the Skagit country into considerable prominence as the great iron and coal region of Puget Sound.—Mail.

ALASKA.—A recent arrival from Juneau City says a company of six men on Douglas Island are taking out, by sluicing, from \$1800 to \$2500 per week. The weather during the past month of September has been fair and pleasant, with the exception of twenty-four hours of a soft gale. Mr. Goodall and party during their visit to Alaska visited the famous Ikon glaciers and other places of note, and returned highly pleased with their trip. A brighter outlook for Alaskan ports in the future than has prevailed in the past is anticipated.

LIFE-SAVING STATIONS.—Capt. J. W. White, acting superintendent of the Twelfth Life-saving District, has received orders from Sumner I. Kimball, general superintendent of the life-saving service, to place three life-saving crews on this coast. A keeper and a crew of six men have been engaged for station No. 7, situated on the beach near the Golden Gate Park. The keepers receive \$700 a year, and each of the crew receive \$40 a month. Station No. 3, situated on the Columbia river, and station No. 5, on Humboldt Bay, will also soon be provided with crews.

THE facts in regard to the inhuman treatment of sailors on board the ship Challenger we gather from an up Sound source, as follows: The ship Challenger, 150 days from Philadelphia, loaded with railroad iron, arrived at Tacoma Saturday evening. As soon as possible the Captain went up town and made a complaint against the third mate, charging him with insanity. An investigation of the case demonstrated about this state of facts: Shortly after the ship left Philadelphia, the first and second mates commenced their inhuman and brutal treatment of the sailors, and because the third mate refused to assist them in their fiendish work, he was cruelly beaten and sent before the mast. He was here so tortured that he preferred death to such a life, and attempted to kill himself, but the leaden misset failed to do its deadly work, but lodged in his right breast. For this he was heavily chained to the floor of a little dark room too small to lie down comfortably in, and kept there for three months with no care except that bestowed by the sailors, at the risk of a beating if they did anything to make him comfortable. The sailors also say that the Captain proposed to them several times to throw the man overboard, claiming that he was crazy, and that a ship never had any luck with an insane man on board. This poor devil was not the only one who was inhumanly treated on the trip. The entire crew were beaten, bruised and scarred up. On the 20th of June at 10 o'clock, a Norwegian, who had been often beaten in a most inconceivably brutal manner, deliberately leaped overboard and was drowned. The vessel was moving but about two knots an hour, but not the least effort was made to rescue the man from a grave in the ocean. One was knocked down for some trivial offense, and kicked on the lower part of the face, the blow breaking his jaw. So late as Saturday evening, after passing the light near Seattle, the mate, Conway, went foul of one of the

crew with a belaying-pin, his head being cut, his eyes blacked, his arm and back terribly bruised. His head is partially denuded of hair and is raw and bleeding from wounds received. The mate, while on'tside, beat him over the arms until he could do nothing, then ordered him below to bring up a barrel of beef. Being crippled in the arms he could not obey, when the injuries in the head were given him. The Captain has so far failed to prove that the wounded man is insane. He is, of course nearly dead from want of proper care and from inhuman treatment, but he tells his story with remarkable sanity. The case will probably be investigated by the grand jury here this week. Judge Burk, of Seattle, received a telegram last evening, asking him if he would go to Tacoma to defend the crew. His reply was: "I will defend the sailors, but not the officers." The Judge goes to the terminus this morning, and will see that the sailors are accorded the justice due to every citizen of the United States under the law.

SHIPPING NEWS.

PORT TOWNSEND, Oct. 11.—During the voyage of the barkentine Quickstep from Nainaimo to Mexico, on August 31, Oliver Olson, a seaman, and a native of Sweden, was lost overboard and drowned. The Quickstep made the passage from La Paz, Mexico, to this port in 32 days.

The ship Detroit arrived today in ballast from Rio Janeiro via Victoria, and is bound to Seattle for coal. During the voyage a seaman, named John Duffey, was lost overboard and drowned.

The ship Lota, which sailed from here yesterday, returned today for shelter on account of the strong head winds in the Straits.

PORTLAND, Ogn., Oct. 6.—The steamer Emma Hayward, which has just been overhauled, leaves next week for the Sound, and will be put on the route between Seattle and Olympia. She will leave Seattle at 5 in the morning, making close connections at Tacoma with the Northern Pacific Railroad; then go to Olympia, make close connection with the north bound train, reaching Seattle at 6 in the afternoon.

ACCIDENT TO THE EMPIRE.—The steamship Columbia arrived at 4 p.m. yesterday. On the passage she met with a strong westerly gale from Cape Mendocino to Cape Blanco. About fifteen miles north of Cape Blanco the steamer Empire was spoken in a disabled condition. The Columbia steamed alongside and Captain Bolles hailed her to know if she wanted assistance. The Captain thought that he would be able to sail to Astoria for assistance. The Columbia arrived off the bar at 2:30 yesterday morning, crossed at 4 and landed 90 tons of freight at Astoria at 8:30, and arrived here at 4. p. m.—Standard.

How Uncle Sile Ran a Caucus.

When poor old Uncle Sile Patterson went to his grave not a mourner followed, and never will a tear moisten the earth above him.

"Everything will depend on how you run this caucus. Be calm. Be dignified. Don't let any one ride over you.

Uncle Sile was delighted and puffed up, and he could hardly wait for the hour which was to witness his triumph.

"Now, then, what is the pleasure of the meeting?" A citizen rose in reply and began: "I move you, Mr. Chairman, that we now proceed."

"Order! Order!" called Uncle Sile. "I am in order."

"You are not! Take your seat or I'll have you put out."

The astonished elector dropped back to second fiddle, and Uncle Sile continued: "Now, then, what is the pleasure of the meeting?"

"I move that we proceed to ball—" It was another elector, and he had only got thus far when the Chairman cried out:

"I call for order. If we can't have order we might as well adjourn. I now ask you for the third time, What is the pleasure of the meeting?"

The electors were dumbfounded for a time, but one of them recovered a little sooner than the rest and asked:

"Is this a caucus?" "You bet!" answered Uncle Sile.

"Are we here to nominate ward officers?" "We are."

"Then, sir, I move that we proceed—" "Order! order!" yelled the Chairman.

"That's the third or fourth time that trick has been tried here, and the next man who makes a motion before I have found out the pleasure of the meeting will be put out."

Now, then, is there any pleasure in this meeting? If so, where is it and what is it?"

He soon discovered. About twenty men rushed for him at once, and he went out of the window like a bag of sand, and before he had come to the caucus had transacted it: business and adjourned. The incident not only cured Uncle Sile's ambition to be a politician but it is doubtful if he ever cast another vote.—Detroit Free Press.

The World's Travel and Traffic.

Little does the world think that tremendous capital is required to carry on its travel, traffic and commerce. The railroad net, woven all over the globe, consists of 200,000 miles; Asia, Australia and Africa claim only the fourteenth part, the other thirteen-fourteenths being nearly equally divided between Europe and America.

Why They Often Fail.

Young men often fail to get on in the world because they neglect small opportunities. Not being faithful in little things, they are not promoted to the charge of greater things.

Curious Works of Ants.

Ants are constructed with the "back" bone in front, and the heart and other internal organs on the opposite side are put together upside down, as we might think.

As an illustration of their ingenuity and intelligence, it was stated that they sometimes excavate tunnels under rivers of considerable depth and width, and use the tunnels for transporting supplies.

Eight chrysolides (often called the eggs of ants) were placed in a path where ants travel. A single individual found them and undertook to remove them to their home.

They have the power, too, of knowing members of their own communities even after six-months' absence. Strangers are always driven off or killed.

Brother Gardner's Advice.

"When a man axes me who libs nex doah," began the old man as the triangle sounded to order, "I answer him Brown or Jones or White, or whatever de name may be, but when he goes beyand dat an' axes what salary de man aims, how often his wife changes bonnets, an' how dey make seven dollars a week go farder dan I kin to teen, I become a clam. I has no business to know, an' when I do know I won't tell.

TEACHER—"Now, Robby, what is the plural of mouse?" Robby—"Do-no, m'm." Teacher—"Why, Robby, I'm surprised. The plural of mouse is mice. Don't forget that now." Robby—"No'm." Teacher—"Now tell me what is the plural of house." Robby—"Hice."

The Women's Board of Trade at Chicago.

The principal business transacted on the Ladies' Board of Trade at Chicago is bartering for a nickel's worth of peanuts, knitting silk stockings of the old gold and banana patterns, tearing to pieces new dresses, not literally with the fingers, but with the tongue, and telephoning their dear fathers and brothers across the way to learn if they'd better venture a deal this morning or wait till some other morning.

How Women Eat.

I use to know a husband, says Clara Belle, who said that he always fell more or less out of love with his wife on Sunday, but tumbled slap in again when he saw her arrayed for church. She was at such times so neatly dressed, so smiling, so sweetly different from her everyday aspect, that she made a regular weekly conquest of his heart.

Comet Seeking.

The number of comet seekers is so few, compared with the amplitude of the tracts of sky to be explored nightly, that it is probable that many celestial visitors escape detection.

The Rev. Joseph Cook said in a London lecture that alcohol hardened the human brain. The British Medical Record says this betrays his lamentable ignorance, because "it is an elementary fact that, while alcohol hardens dead cerebral substance, in life it induces softening of the brain."

What is the Legal Fence?

The Indianapolis Journal has taken pains to gather information as to the laws regarding the fencing of railroads in sister States. In Massachusetts the legal fence is four feet high.

New York—The town meetings prescribe what shall be deemed a legal fence in each town. Assessors and Commissioners of Highways perform the duties of fence viewers.

Pennsylvania—Towns and counties secure special legislation for fencing railway lines, and to prevent running of the stock at large.

New Jersey—Fences are to be four feet, two inches high, of wood, brick or stone, and four and a half feet if of other materials.

Delaware—Four feet, with a ditch within two feet, is a lawful fence. Wood or stone fence, or hedge, four and a half feet high.

Maryland, Virginia, North Carolina, Georgia, Florida, Alabama, Arkansas, Tennessee—Legal fences five feet high.

West Virginia—Legal fences four and a half feet high.

South Carolina—Fences must be six feet high, of wood or hedge, or ditches equivalent as barriers.

Missouri—Hedge five feet, fence four and one-half feet.

Kentucky—"All sound or strong fences five feet high, so close that stock cannot creep through," is the definition of the legal fence.

Ohio—"A fence, of whatever material, constructed in all respects such as good husbandmen ought to keep." Statute of 1865.

Illinois—"Fences four and one-half feet high, of whatever material the fence viewers shall deem sufficient."

Michigan—"Fences four and one-half feet high of rails, timber, boards, stone, or other things deemed equivalent thereto in the judgment of fence viewers."

Wisconsin—"Fences four and one-half feet high," etc. By act of April, 1878, barbed-wire fence is defined as a legal fence.

Minnesota—"Fences four and one-half feet high," etc. Barbed fence defined by the act of 1877.

Iowa—"Four and one-half feet high, or fifty-four inches." Barbed-wire fence described as legal fence, 1876.

Texas—"Five feet high." Barbed wire defined as legal fence.

Kansas—"Worm fences four and one-half feet; turf four feet with ditches; wire fence, posts twelve feet apart."

Nebraska—"The legal fence is described as 'such a fence as good husbandmen generally keep.'"

California—"The legal fence is described with great particularity. Wire, post and rail, brush, picket; ditch and pole and hedge wire fences, not less than three separate strands, the first eighteen inches from the ground, the others two and one foot apart.

Colorado, Arizona, Montana and Utah—Four and one-half feet high.

New Mexico, Idaho and Washington—Four feet high.

In Washington Territory barbed-wire fence must carry a top rail of wood.

Indiana—Any structure in the nature of a fence, such as good husbandmen generally keep.

Couldn't Think of Such a Thing." A newspaper man in Nevada was writing a story which had for its heroine one of his old flames, who had the good luck to escape marrying him.

"Couldn't think of such a thing, my dear," responded the heartless man, buttoning his coat and striding away.

"Matter?" whimpered dovey; "matter enough, plague take it. When you went away this morning, and I called after you that you must marry me—meaning in that wretched story—I didn't see until you had gone that Mrs. Jones and her head out of the window and Mrs. Brown on the other side was sweeping off her porch.

During July, August and September only one and 57-100 inch of rain fell, and as a consequence the cisterns are dry and the ground is parched. The weather has been unusually fine and the farmers have harvested their crops in excellent condition. The usual equinoctial storm with the traditional September gales have not visited us and we seem to be gliding into the Indian Summer in a delightful manner. COUNTY CONVENTIONS.

Did you hear the new candidate warble?

Mr. Henry L. Pitcock, manager of the Oregonian, accompanied by his wife, has gone East to revisit his old home in Pittsburgh, which he left in 1853.

NEW WHARF.—Messrs. Welch, Rithet & Co., of Victoria, have purchased a site at the mouth of Victoria harbor and will erect a wharf upon it for use of ocean steamers.

MR. W. P. BELL, who has been tallying wheat at New Tacoma for some time past, came down this morning in place of postal agent Spence. He will remain in town till Monday. Mr. Bell still has a law office here.

The democrats of Clalam county endorsed the republican nominations of Capt. John Morris, for probate judge; and Geo. Cooper, for sheriff, of that county.

At the democratic county convention held in this place today J. A. Kuhn and Robt. C. Hill were elected to attend the territorial convention and cast the vote of Jefferson county therein, on the 11th inst.

A NOTE from Quileute says a party of Indians recently came down that river, having killed seven elk; also, another party killed several elk; and that M. Whittier killed three elk Sept. 26th. Elk must be plentiful there.

The bark Camden, Capt. Gatter, arrived in this port yesterday from Mahukano, H. I., and proceeded in tow of the tug Goliath to Port Gamble. The Camden, though an old vessel, had made the round trip in 2 months and 2 days. Ship Challenger, Capt. Montford, arrived last night from the Atlantic coast, laden with railroad iron, bound for New Tacoma.

THERE is no excuse for republicans to join any independent movement, or refuse to support their ticket this year. It is unobjectionable.

The republican county convention met in this place today and nominated the ticket found elsewhere. As will be seen, some changes were made in favor of young men. On the whole, we believe the ticket to be a good one, and shall support it heartily.

The branch line of the N. P. R. R. from New Tacoma to Seattle is approaching a certainty, the order having already been given for material necessary in its construction. It is announced as the intention of the company to have cars running between the two points named before Spring.

An exchange prints what it calls a description of the "villainous" manner of eating by Americans as compared with the decorous style of Englishmen. Well, Americans do mix their food and eat rapidly; but then it is the way they do everything—with a push and vim entirely foreign to their British cousins. A late writer said if Adam and Eve had been English immigrants Satan would have had a nice time infusing enough energy into them to get a trespass committed on the Lord's apple tree.

WOMAN SUFFRAGE.—The Oregon Legislature now in session has ratified the woman suffrage amendment of 1880, by a vote of 21 to 7 in the Senate, and 47 to 9 in the House. It will now be submitted to a direct vote of the people of that state and, if adopted, will become a part of her Constitution. Oregon has been under the special management of the New Northwest for some years past, and this result is not really surprising; besides it marks a long stride in the march of our sister state toward a higher civilization.

REPUBLICAN COUNTY CONVENTION.—The republicans of Jefferson county met in convention at Port Townsend today. A full representation was present, C. M. Bradshaw, Chairman of convention; A. Weymouth D. M. Littlefield, F. Albert Bartlett, T. T. Minor (by A. Weir, proxy); Port Discovery, E. B. Mastic, (by J. A. Smith, proxy); Chimacum, N. J. Fortman, Wm. Montgomery; Port Ludlow, R. D. Attridge, John J. Calhoun, secretary of the convention; Ducaboos, R. Burnham (by D. W. Smith, proxy). A county central committee was elected, as follows: C. M. Bradshaw, R. D. Attridge, Jas. Smith, N. J. H. Fortman and H. C. Cottle. A resolution was adopted, as follows: "Resolved that this convention endorse the nominees of the republican territorial convention held at Vancouver, for Delegate to Congress and district officers, and will vote and labor for the success of every candidate presented by said convention." Nominations being in order, probate judge was taken up and the following names presented: D. W. Smith, J. J. H. Van Bokkelen, J. G. Swan and Allen Weir. After several ballots, J. J. H. Van Bokkelen was nominated. For county commissioners, the names of R. D. Attridge, H. L. Tibbals, F. W. Pettygrove, James Smith, Chas. E. Anderson, H. C. Cottle and A. A. Plummer, jr., were presented. After several ballots, Smith, for Discovery, Attridge for Ludlow, and Plummer for Dungeness, were nominated. For sheriff, D. M. Littlefield and Capt. Rufus Calhoun were presented; the latter's name was withdrawn and Littlefield was nominated by acclamation. For treasurer, A. Weymouth, H. Landes and Frank A. Bartlett were brought forward. F. A. Bartlett was nominated. For auditor, James Seavey was nominated by acclamation. For surveyor, N. J. H. Fortman and F. W. James were placed in nomination. Mr. Fortman was chosen. For superintendent of schools, the name of Allen Weir, J. J. Calhoun and Mrs. A. M. Hinds were brought forward. Calhoun declined and Weir was nominated. For coroner a lot of names were mentioned, resulting in the choice of B. S. Hoxsie. For wreckmaster, also, the names were numerous, Capt. L. B. Hastings being finally chosen. No precinct nominations were made.

DEMOCRATIC COUNTY CONVENTION.—The Jefferson county convention met in this place today. Present, a full delegation except for Coleced and Duckabush. E. Taylor elected chairman, and R. C. Hill, secretary. Chas. Eisenbeis, R. C. Hill and J. A. Kuhn were elected to attend the territorial convention. County central committee elected, as follows: F. W. Pettygrove, C. Eisenbeis, Wm. Paine, Michael Bark, Edward Strand, H. L. Blanchard, James Donovan and E. P. Bremon. It was decided to hold a convention for the purpose of nominating a county ticket October 24th. Resolutions were adopted, endorsing the actions of Hon. J. A. Kuhn in the late session of the Legislature on the Pilot Bill and the Sunday Law, and recommending him as

the choice of Jefferson county for renomination for legislative honors; also a resolution not to support anyone for the Legislature who is not pledged to use his influence to repeal the Sunday law.

From Monday's Daily.

MR. JAS. JONES is in receipt of a choice lot of plums.

MAJOR JAS. P. CANEY, Paymaster U. S. A., has been ordered to the Columbia again for duty.

MR. HARKER, brought up a large addition to his stock of goods, on the last ocean steamer.

ANY one finding the breastpin advertised elsewhere will please deliver it without delay, as the owner is anxious.

NEW sidewalks has been laid along a portion of the west side of Adams street—where it was much needed.

THE Hope arrived late last evening from Semiahmoo and way ports, having on board several passengers and a large amount of freight.

LOST!

A ladies' breast pin, black, about two inches long, with gold setting and three small pearls on a little padlock. The finder will please return the same to this office and be rewarded for trouble.

IN our published proceedings of the republican county convention Saturday, we unintentionally omitted the names of W. H. Price, of Port Discovery, and Mr. Van Trojen, of Chimacum, who were delegates from their respective precincts. It will be corrected before insertion in the weekly issue.

A RUNAWAY.—Between 3 and 4 o'clock this afternoon Judge Briggs' team broke from a hitching post at the Central and started on a run for home, but when opposite Taylor street the wagon ran off the bluff taking the horses with it. The carriage was badly damaged but the horses escaped uninjured.

If anything is needed to remind our eastern friends of the magnificence of Puget Sound timber, this item ought to do it. In the hold of the bark Sierra Nevada, now completing her cargo at Port Gamble under the supervision of Chas. F. King, are timbers 30x30 inches square and 120 feet long. The vessel is bound for Shanghai, China.

It is indeed gratifying to note such evidences of our growing commerce as the establishing of new steamboat lines through to New Westminster and Victoria. The Hope is already running regularly on the former, and the Evangel on the latter, with splendid prospects of building up a lucrative trade. Traveling and transportation facilities are what people most want in this new country.

Sunday Reading.

The millennium is not impossible, and not so very difficult. If every man from this time forth gave his whole attention to his sins and vices, and ceased to make war on other people's sins and vices, we should have it with the new moon.

The San Francisco Post in replying to the Examiner's desire to know what the Republicans intend to do with Sunday, says: "They intend to make it a day on which an employer shall not compel his employee to work, unless in cases where it is necessary for public convenience, and to make it as nearly as possible, a day on which decency and good behavior shall prevail over drunkenness and riot."

"I understand, Uncle Amos, that you have quit preaching said the secretary of state to an old colored man, who for years had had charge of a church in Little Rock. "Yes, boss I've stepped aside." "Why did you quit?" "Well, dar was numerous pressures brought ter bar agin the old man. Da charged me wid stealin' a ham, for one ting, and 'vised me ter quit." "Why, they couldn't prove that you stole the ham, could they?" "Nor, sah, da couldn't, an' ef I hadn't 'knowledged it da neber would hab prubed it." "Why did you acknowledge it?" "Case da found de ham under my bed sah."

People of elevated thought and the highest aspirations never come up to their ideal standard. It is in the nature of an immortal spirit that fully realizes its low starting point and its endless growthfulness to raise the standard of its acquisitions higher and higher as it goes from strength to strength, upward and onward into the eternal. So the wisest and greatest are ever the most modest in present claim. The yet unattained appears so much greater than the attained that they speak only carefully of the present. "Forgetting the things that are behind, I reach forward" is their motto and their spirit.—P. C. Advocate.

ALMOST lavish as were the purchases this year of rolling stock for the Northern Pacific, fears are expressed that there will not be cars enough on the road to promptly handle the immense crops of grain just harvested on the line.

BIG DINNERS.

Over indulgence in eating and drinking is generally followed by head aches, dullness, languor and other disagreeable sensations. Anyone finding himself in that unfortunate state will obtain relief most readily by taking Syrup of Figs. For sale by N. D. HILL & SON.

QUILEUTE, W. T., Sept. 30, 1882.

A remarkable man, J. O. Loomiller, has settled on the Shuwah prairie in the Quileute valley, 15 miles from the ocean. He is blind in both eyes; lost his sight when 14 while fooling with a pistol; is now 25; is late from Putnam, Barton Co., Kansas. He learned the broom maker's trade in Jacksonville, Ill., in a school for the blind. Came from Frisco to Port Townsend, Sept. 4th; by Dispatch to Neah Bay, and walked down the beach to Quileute in two days, over a rough trail 40 miles. He purchased a hundred dollars' worth of provisions and proceeded to his claim to build a house. Mr. Maxfield went with him to assist about locating a building. Says he is expecting a brother here in about six weeks to live with him. Elk are plentiful; bears are numerous and troublesome visitors; they have destroyed a great many late oats; they come in the fields near the houses in the night and wallow the oats down, destroying more than they eat. I think a good dog and an experienced hunter could take several nice black pelts in a few days. One bear was very fond of mutton and came to Mr. Pullen's sheep-fold occasionally to pay it his respects. M. Pullen set a gun in his trail and watched in the sheep-fold. Bruin evaded the trap, came in a new place and "went for" the sheep. Mr. Pullen interfered with his arrangements and bruin mounted the fence to escape, but received three buckshot in the rear, which made him take the trail in haste, when the trap proved a success. My boys have killed four bears. Some of the boys have killed several. We would be glad to have some nimrod come and kill or capture a large herd of bears, as they are a nuisance in our settlement. The Indians had a grand "potlatch" at Lapush (the mouth of Quileute river). The Neah Bay Indians and Ozett Indians were present to get a share and have a good time. Pilot Capt. Stevens called here September 22d. Mr. S. C. Davis' father is sojourning here at present.

Yours, etc.,
A. J. SMITH.

The Cutavaco Cures

PITYRIASIS, or Dandruff, with which many are afflicted. ALOPECIA, or Baldness, also depends upon a fungus destroying the roots of the hair. A spot may first arise where first inoculated, spreading in a circular form, and so enlarging by degrees that the whole hair is swept away, leaving a glistening scalp; or, the disease may first appear in various places. The hair is dull and lustreless and easily extracted, or it begins to fall, and progressing by degrees is soon lost unless remedied. The Cutavaco will cause the hair to grow, because it at once destroys the offending cause which prevents; the hair is at once preserved, and the scalp and bulbs made healthy and vigorous. Parties from a distance must send the price of bottle with the order. Price 75 cents. Prepared and sold by

The democratic Territorial Convention, it seems, nominated Hon. Thomas Burke again for Delegate. It is stated that he persistently declined and refuses to make any effort whatever for election. Presumably the object is to maintain a party organization and go through the form of a contest. Mr. Burke made a gentlemanly canvass two years ago, and was courteously treated in return, though he carried but two counties.

Omo has gone democratic by a most unprecedented majority, judging from today's dispatches. It seems to be the regular off year, though several agencies have conspired to produce the result. Governor Foster is "snowed in" so deep that it is doubtful if he can be dug out before his political life is extinct. What will be the result? is a question naturally pertinent. Well, it will be this: both parties will now wake up and proceed to business in lively style in the contest for control of the next Congress.

Today we enter upon a new venture in the publication of a daily newspaper in Port Townsend. It gives our readers nearly twice as much reading matter every day as heretofore, and necessitates a heavier outlay on our part. But we are pursuing the course promised in the start, viz: to publish as expensive and desirable a paper as the support would warrant. We need a number more subscribers for the Daily at the new rate of expenses, to "make both ends meet" financially. An effort will be made to secure the number necessary, and if it fails we will then fall back to the smaller form, because, as said heretofore, we have no money to spend for empty glory. But Port Townsend is growing. There are now impulses behind every avenue of business, and her local paper must grow with the town and assist it to grow. The editor is performing a large amount of unrequited labor, and undertaking a heavy expense, to accommodate the public with the news every day and add one more to the many agencies at work this year in hastening our material prosperity. Believing the new venture will be appreciated and supported, as was the first, the careful consideration of the public is invoked.

We are now receiving by every steamer from San Francisco and New York, our Fall and Winter goods, consisting of Dry Goods, Fancy Goods, Trimmings, Suitings, Cloaks, Cloakings, &c. Men's and Boys' Clothing and Furnishing Goods, and a large stock of all kinds of merchandise. Will be pleased to have everybody call and examine our stock before purchasing elsewhere.

32:1m C. C. BARTLETT & CO.

Let Workmen Have One Day's Rest in the Week.

The democrats of this territory are fast falling into line in opposition to Sunday laws—those of Jefferson county having followed in the wake of Whatcom democrats in resolving to support no legislative candidates who are not pledged to the repeal of our present Sunday statute. Other counties will doubtless fall into line until the question will become a territorial issue. As yet the republicans have not taken any decided step one way or the other, that we have heard of; and very little has been said by the Republican papers of the territory on the subject, beyond the expression by a few of them of sentiments in favor of wholesome laws regulating the observance of Sunday. The Argus occupies a position enunciated heretofore. It would have our present Sunday law repealed rather than allowed to exist as it now stands. If, on the other hand, the law can be modified so as to make its operations uniform and therefore just to all, we will heartily commend it. But whatever is done ought to be done with the cordial and known consent of the people; they are the true source of authority. At present it looks very much as though the democrats were trying to catch at a straw for the purpose of gaining strength among voters who oppose a legal relation on the subject. The question is one that will sooner or later be made an issue squarely, and when that time comes we know that the republican party will espouse the right side and win—as it has done heretofore on other questions.

The ultimate issue will not be church or anti-church, as many erroneously suppose. It will be a point to decide between capital and labor. In this land of ours, with wealth rapidly amassing among powerful individuals and corporations, every advantage over poor laborers will be followed up to the utmost, and the individual who sells his labor for a price will be forced to give as much for the money as can be wrung from him. All this is foreshadowed in the tendency already in the East, where oppression in the matter of the number of hours' labor per day to be performed has led to disastrous strikes. The true friend of the laboring man helps him to look ahead and take precaution in time. Enforcing the observance of Sunday as a day of rest means protection to the laboring man against the encroachments and demands of capital upon him. It means the setting apart of one day each week wherein tired bodies may seek repose without fear of the driver's lash. We of Washington Territory know but little of the hardships imposed upon labor as yet, but those of us who look out and see the condition of capital and labor in countries where the Sabbath has been ignored can easily see the tendency in our own land unless proper safeguards are thrown around the working classes while they are able to demand their rights. In portions of France, laborers in large factories are compelled to work seven days every week or give up their employment. Rest for body and mind one day in seven is a physical necessity, saying nothing about the cultivation of our moral natures. As to the religious phase of the question, we may say that it is a mere matter of sentiment or belief—something that ought never to be mixed with politics or legislation. We believe in the theory of entire separation of church and state, and expect to labor toward that end; but a wholesome Sunday law involves something very different.

Weekly Argus.

OFFICIAL PAPER OF PORT TOWNSEND.

BRIEF LOCAL ITEMS.

From Thursday's Daily.

DAILY ARGUS!
How do you like it?
Mr and Mrs. C. F. King returned home today from Port Grumble.
The upper part of the Montana Salmon building is being finished.
Sloop for sale cheap, by a Chinaman. See notice elsewhere.
The steamer Phantom, owned by D. K. Howard, of Seabeck, is being repaired at Seattle.

See notice elsewhere of the tenth annual meeting of the Washington Territorial Medical Society, at New Tacoma on the 18th inst.

We noticed Mr. Hoffman, of Dungeness, in town this week, buzzing around the legal fraternity as though there was a law suit ahead.

It is announced that the ship Detroit will load with coal; first, 1300 tons at Seattle, from Renton; then with 1,000 tons at Tacoma, from the South Prairie mines.

A New bark, to be called the Hesper, was to be launched today by the Hall Brothers at Port Blakely. They have two large schooners also in course of construction.

By a misunderstanding on the part of an employee of this office no package of papers was sent to Dungeness last Monday. The mistake has since been rectified as far as possible.

Put your name down for the Daily if you haven't already done so, and tell your neighbor to do the same, for the support of a growing enterprise for the benefit of Port Townsend.

The old CINCINNATI Weekly Times, a staunch enterprise that has stemmed the tide of journalistic difficulties and always come out victorious in the past, is the subject of a handsome advertisement in our columns today. We commend it to our readers.

While in Tacoma the other day we met Hon. Edwin Eells, who was on his usual relieving agents Milroy and O'Kane of their Indian reservations at Puyallup and Tulalip, respectively. He says he will have more than he can properly attend to.

Bonds for the officers of the Challenger have been fixed as follows: for Capt. Mountfort, \$6,000; for the first mate, \$10,000. The third mate's hearing is still in progress. Gen. Sprague and Capt. Casan, became bondsmen for the captain. The cases will be tried at Seattle this week.

Our attention has been called to the fact that one John Roach, who fitted up the sloop Francis here some time ago, has been up before police court in Victoria, being mixed up in a case of selling whiskey to the Indians. Roach, it seems, hauls from Neah Bay, and represents himself as a pilot. In justice to Puget Sound pilots, it should be said that he is in no way connected with them, and is not known as one of their number.

We have received information that the Synod of the Columbia (including the Presbyteries of Puget Sound, Oregon and Idaho), and of which our absent friends, Rev. Jno. Reid, of Port Townsend and Rev. T. J. Weeks, of San Juan, are members, is still in session at Portland, Oregon, having before it a press of important judicial business, the members being kept in close session from early morn till late at night. Rev. T. J. Weeks will doubtless arrive here too late to be able to return to his field of labor this week, will probably be detained here over Sabbath, taking part with Rev. J. Reid in the services of his church, going over to resume the work of his own charge, the ensuing week.

The Ohio election is the general topic of conversation today among men politically inclined. It is also remarked that Clinger sells mighty cheap for flush times. Go to his auction store and see for yourself.

From Wednesday's Daily.

Hox. O. Jacobs, of Seattle, is in town.
Our south-easter season has returned.
The ship Topgallant, from San Francisco, arrived yesterday.
The steamer Emma Hayward sailed at 3 o'clock p. m., on Sunday for the Sound.
The ship Theobald, of 881 tons, will take as her next cargo lumber from Puget Sound to Shanghai.
Capt. ENELL, recently of the stevedore business, is interested in real estate transactions in New Tacoma.

The Dispatch arrived this afternoon from Neah Bay and way ports, with a number of passengers, U. S. Mails and freight.

Among the passeers on the Starr today were: Rev. J. M. Spangler (returning from the Presbyterian Syno) a d Mr. H. Landes, who had been to Seattle.

The firm of Long & Birmingham, of King county, have been awarded a silver medal for a ton of cheese, by the Portland Mechanic's Fair.

By the kindness of Mr. N. C. Hawks, dealer in type and printing materials, S. F., we have received a handsome specimen book from Bruce & Co.'s type foundry, New York.

The ship Detroit, Capt. Mann, arrived this morning from Rio de Janeiro. She is bound for New Tacoma. Capt. Dalgarno, who piloted her, says there is an abundance of whale food about 50 miles off the cape, and that many dead salmon are floating about on the ocean.

ONE of the crew of the bark Martha Rideout got entangled in the fly wheel of the pumps on board that vessel this morning, and before he could be stopped the bone of his arm was broken, and the flesh badlyacerated. He was taken to the Marine Hospital for treatment.

At the hearing of the officers of the ship Challenger at New Tacoma, before Committing Magistrate Young, the third mate was acquitted on the charge of insanity, and the Captain and first and second mates were held to await the action of the grand jury. The amount of bonds had not been fixed last evening when the edict left Tacoma, but the cases will probably be tried at Seattle.

From Tuesday's Daily.

The Dako sailed for Sa Francisco last night.

Gov. NEWELL is on a visit to his daughter, Mrs. Jordan, of this city.

REPRESENTATIVES for several eastern papers are now en route or the Sound.

MR. LATIMER has been making some permanent improvements in his drug store.

DR. STOLL, dentist, will be here about the 20th inst. See advertisement elsewhere.

THE Dakota took about 600 cases of salmon—the most of which was shipped at Seattle from Mukilteo.

The following ships arrived in port on the 8th inst.: German bark Don Enrique, of San Francisco; German bark Stella and barks Samoset, Lizzie Marshall from S. F.; schooner Courser from San Pedro; ship Shirley, from Guaymas. On Oct. 9; bark Marth Rideout and ship Shirley, from San Francisco.

Our Ticket.

With the first issue of our Daily in its enlarged form, a few words in reference to the republican county ticket will not be amiss. It seems that the democrats in territorial convention made no nomination for Prosecuting Attorney in this district. Rumor has it that W. H. White, of King county, may run independent. It does not matter much, however, as Mr. Bradshaw will be elected by a handsome majority in any event. For Joint Councilman, Prof. R. C. Kerr, of Port Townsend, has been nominated several weeks. Speaking from personal acquaintance with Mr. Kerr extending over his entire residence in this district, we can cheerfully affirm his peculiar fitness for a legislative position. He is not a politician in any sense of the word, and therein is one of the strongest reasons why the people want him to represent them at Olympia. The nomination came to him entirely unsought and unexpected, so that no one can gainsay the fact of its being a case of the office seeking the man. Mr. Kerr is a man of good habits, good education, good judgment, prepossessing appearance and sound morals. He will be elected or the district will most likely fare worse.

As to Mr. Callow, the candidate for the House, we know but little. He was nominated at the instance of the Mason county delegation, and the voucher is considered sufficient. He will get his party vote in Jefferson county, no doubt.

For county officers, a ticket is in the field that is believed to be unexceptionally strong. Mr. Seavey's nomination for another term as Auditor is understood everywhere to be equivalent to an election. He has served so faithfully and well that the people consider his services indispensable. Mr. Littlefield's election is already considered a foregone conclusion by republicans and democrats alike. He has held the office satisfactorily before and the public is taking no chances in electing him again. For Treasurer, Mr. Frank A. Bartlett is well known to be amply qualified. Having become familiar with the duties of the position during his father's successful incumbency, he will be enabled to continue the business in the same satisfactory manner. As to School Superintendent, we will simply say that the nomination was a surprise; it was made, however, on the first ballot, by a vote of twelve out of a possible fifteen, and was accepted as the clearly ex-

pressed wish of the people through their representatives. It was unsought, but is not unappreciated, and, if elected, we will endeavor to discharge the duties of the office promptly and properly, to the satisfaction of the public.

As to County Commissioners, we believe an acceptable board will be elected if the choice falls upon those put forth. Mr. Attridge has served nearly two years in that capacity, and in a manner that entitles him to re-election. He understands the needs of the county, is of a progressive spirit, and is not afraid to do his duty. Mr. Smith, of Port Discovery, has long resided in the county and understands its needs as well, perhaps, as any man in it. He is a man of reliability, mature judgment and all the qualifications necessary in a good commissioner. Mr. Plummer, of this place, is one of the young men put forward, as was E. B. Mastic two years ago. Mr. Plummer was raised in the county, is a thorough and accomplished business man, and if he succeeds with county business as with his own no fault will be found.

Major Van Bokkelen has a long record as a republican and an office holder in the territory. He was a official of Jefferson county when the writer hereof was just big enough to drive the cows home, hence comments by us are unnecessary. The Major ought to prove an efficient Probate Judge. He certainly knows how. We will not say more, except that Messrs. Fortson and Hoxie have each served heretofore as Surveyor and Coroner respectively, and can do so again to the satisfaction of their constituents; and Capt. L. B. Hastings is certainly a very proper person to make Wreckmaster.

OFFICIAL PAPER OF JEFFERSON CO

ALLEN WEIR, Editor and Proprietor.

FRIDAY, OCTOBER 13, 1882.

TELEGRAPHIC.

PORTSMOUTH, N. H., Oct. 4.—Ex-Secretary Blaine was taken down with fever, which he ascribes to malaria, upon his return to this city on Friday last. On Saturday his physician was summoned, and on Sunday another was called in. Sunday night the crisis passed, and he has been steadily improving since. Tonight he telegraphed Mrs. Blaine that he expects to reach home this week.

RACINE, Wis., Oct. 5.—Mon. R. H. Baker, a prominent politician and business man, also a Director of the Union Pacific Railroad, died this morning.

WASHINGTON, Oct. 5.—The National Board of Health reports fifty-six new cases of fever and three deaths at Pensacola yesterday.

RACINE, Wis., Oct. 5.—Hon. R. H. Baker, a prominent politician and business man, also a Director of the Union Pacific Railroad, died this morning.

SAN FRANCISCO, Oct. 1.—Yesterday morning Geo. A. Wheeler, the strangler of the girl Adele J. Tilton, was sentenced to be hanged. Judge Ferral denied him a motion for a new trial, but did not fix the time and place for the execution in passing sentence. The prisoner showed no signs of emotion when the death penalty was imposed. To the question, "Have you anything to say why sentence of death should not be pronounced against you?" he answered in his usual tone, "No."

PORTLAND, Or., Oct. 5.—The Northern Pacific Railroad Company will advertise tomorrow for proposals to build the road connecting Tacoma with Seattle. Supervising Engineer Thielson said tonight to a reporter that it is the intention of the company to finish the road before the Spring freshets.

TUNIS, Oct. 5.—Insurgent Arabs attacked the French authorities in Algeria.

CONSTANTINOPLE, Oct. 5.—The sultan is extremely vexed at the departure of Baker Pasha. It is stated that the garrisons of Smyrna and Rhodes were ordered to arrest him, and the khedive has been commanded to call him back.

CAIRO, Oct. 5.—The usual yearly caravan, with the sacred carpet for Mecca, started today. The British guard of honor is present.

Arabi Pasha demands trial by the English, saying he surrendered to them and he would have escaped if he had known that he was to be tried by Egyptians, from whom he expects no mercy.

SAN FRANCISCO, Oct. 5.—The American ship Hagerstown, which arrived here tonight, being out 141 days from New York, reports having encountered a cyclone on the 12th of September. The gale lasted three and a half hours. Portions of her rigging were carried away, and seven feet of water was swept into her hold at one time. The vessel narrowly escaped foundering. Capt. Pierce was washed overboard but rescued, and a number of the crew were injured by falling spars.

NASHVILLE, Tenn., Oct. 5.—This morning at 4:30 o'clock Mr. E. E. Barnard of this city discovered that the nucleus in Ornes' comet had operated into three unequal fragments. At the largest estimate it is fifteen thousand miles in length, and the space between the fragments of the nucleus is estimated to be not less than two thousand miles. Yesterday morning Mr. Barnard observed that the nucleus had assumed the form of a long string of not less than 24,000 miles and 3,000 in breadth.

NEW YORK, Oct. 6.—George William Curtis, in a letter to the Secretary of the New York Civil Service Reform Association, says that Judge Folger's ability and character are not in the question, but his nomination is. That nomination was procured by the combined power of fraud and patronage, and to support it at the polls will be to acquiesce in fraud and patronage as legitimate forces in a nominating convention. Every good citizen is bound to resist to the utmost such a wrong to free institutions, and the only effectual way in which the voters can be emancipated from the corrupt and debasing rule of the machine is to defeat its candidates of this class. I believe that this will be done decisively by the Republican voters of New York and Pennsylvania at the election this autumn. They will see their party defeated rather than fraud and the corruption of patronage rule. This is an evil which must and in violence unless conclusively eradicated by the people at the polls.

NEWPORT, R. I., Oct. 7.—Baneroff, the historian, celebrated his 83d birthday.

SPRINGFIELD, Ill., Oct. 7.—Vice-President David Davis was married early in the month, to Miss Addie Barr, of Warren, N. C., formerly of Cairo, Ill.

CHICAGO, Oct. 7.—Gen. Scoville filed a petition in the County Court today, asking that Mrs. Scoville be adjudged insane and confined in the asylum for lunatics.

ST. LOUIS, Oct. 7.—A special from Jefferson City says: When Frank James surrendered to Gov. Crittenden he handed him his pistols, and stated that the Governor was the only man except himself who had touched them for twenty years. Frank is at the McCarty House this evening, and many prominent citizens are there seeking the honor of shaking hands with him.

WASHINGTON, Oct. 7.—The post office at Elk Horn, Polk county, Oregon, has been discontinued. The mail hereafter will go to Sheridan, in Yamhill county.

The name of the postoffice called Uncle Sam, in Lake county, California, has been changed to Kelseyville. The following changes in the Star Route service has been ordered: Route No. 46, 158, from Reno to Susanville, California, from Oct. 6, 1882, will supply Summit between Junction and Lane Valley; route No. 46, 163, from Quincy to Junction, California, for Oct. 16, 1882, omitting Junction and end at Summit, thereby decreasing the distance four miles.

PHILADELPHIA, Oct. 7.—The Presbytery of the Philadelphia Presbyterian church voted 11 to 6 for enjoining the use of instrumental music in any service of the church as destructive to the harmony of worship among the churches.

CINCINNATI, Oct. 7.—Eleven firms of starch manufacturers in the West met in conference here with a view of consolidating the business.

CAIRO, Oct. 7.—The Khedive has conferred the Grand Cordon of Honor of Medjidiah on General Adye, who took two batteries of artillery from the Egyptians.

Five thousand refugees, mostly Greeks, have returned to Alexandria.

Rome, Oct. 7.—The report that the Pope has been shot is wholly without foundation.

BUENOS AYRES, Oct. 4.—Peace negotiations between Chili and Peru are broken off because of the refusal of Chili to yield to any of her demands.

OTTAWA, Oct. 7.—It is said that the Canadian Government has been informed of the intended visit of the Prince and Princess of Wales to this country on the occasion of the annual meeting of the British Scientific Association in Montreal. In that event an extended American tour will probably be arranged.

ALEXANDRIA, Oct. 7.—Arabi Pasha has telegraphed here for counsel. The persons applied to have declined to defend him, it is said, because they are afraid of losing clients. Arabi will, therefore, be convicted with ease.

PORTLAND, Oct. 9th.—A proposition was received by the Board of Trade tonight from Henry Knapp, a civil engineer of New York, to improve the Columbia river bar and to secure six feet of additional depth of water; the work not to be paid for until the improvement is an accomplished fact. He invites correspondence.

NEW YORK, Oct. 29.—The amount of gold certificates sent to New York yesterday for the signature of the Assistant Treasurer was \$40,680,000, making the total sent to date \$125,700,000. The Treasury Department is in receipt of applications for these certificates from all sections of the country, and the demand can't be supplied fast enough by present system. In order to facilitate matters it is proposed to issue at Washington certificates which would not have to be countersigned, and that question is now under consideration.

RALEIGH, N. C., Oct. 9.—The feeling against the mormon preachers now working in different parts of this State and South Carolina is daily increasing on account of their stubbornness on this question. A protest is now being freely circulated among the people of York and Cleveland counties in this State, denouncing the missionaries from Utah for making disturbances among them, and expressing a determination to protect society and morals at all hazards. The history of mormonism is briefly told in the protest. The people who have been influenced by Mormon missionaries are called upon to turn back before removing themselves and their families. The protest ends as follows: "We the people of York and Cleveland counties, North Carolina, call upon these emissaries, styling themselves leaders in the church of Latter Day Saints, to depart in peace before the indignation of our people becomes uncontrollable."

CONSTANTINOPLE, Oct. 9.—All the powers excepting Russia and France agreed upon the principle of a license tax for wheat. The Porte proposes to levy upon foreigners doing business in Turkey.

LONDON, Oct. 9.—Thirty persons were poisoned here from eating head-cheese manufactured by local butchers. Physicians attribute the trouble to bristles chopped up with the skin of the pork.

Telegraph Market Report.

PORTLAND, Oct. 9.—Wheat—outside prices range from \$1.50 to \$1.52 1/2, the latter price the outside figure, but little doing. Dealers are obtaining all they wish at these figures, and are apparently indifferent whether they operate at all at these figures. Charities for wooden ships, 52s 6d; 55s asked for iron ships.

Oats—Coming freely; there is very little change in rates; dealers well supplied, and not disposed to buy at over 40 cents per bushel.

Butter—Fresh dairy in full supply, and prices not quite so stiff as during the past two weeks. Sales range mostly at 37 1/2 to 40 cents. Brine butter coming in quite freely, and selling mostly at 30 cents.

Eggs—In full supply and weak at 30 cents.

Poultry—Market for past two weeks fully supplied at very moderate prices, \$2.50 to \$4 the rates.

Potatoes—Coming freely; selling in wagons at 40 to 45 cents, the top of the market.

In addition to our own supplies, potatoes are coming from California and selling at current rates. Fruits in full supply and cheap.

Hay—Good timothy, baled, quick at \$20 per ton.

Wool—Market for the fine grade wools has improved in that there is more inquiry and a better feeling, but no change in prices. Common valley wools, no inquiry.

Boston, Oct. 6.—The demand for wool is good, and prices are firm and well sustained. Sales of eastern wool has brought good figures. California wool is in moderate demand at 25 to 33 cents. There is no demand for foreign clips, as yet.

Pacific Coast Timber.

WASHINGTON, Oct. 6.—Bulletins have been issued from the Census Bureau giving statistics of the forestry of the states of California, Oregon and Washington Territory. With regard to California the bulletin says the principal trees are redwood, red fir, tide-water spruce, chestnut, oak on the coast range, and sugar pine, yellow pine and red fir on the Sierra Nevada. Any estimate of the aggregate amount of timber standing in the state, except redwood, is impossible without a knowledge of the country. The total product of the state for the census year was 304,709,000 feet of lumber, 242,400,000 laths, 138,718,000 shingles, 1,063,000 staves and 1,282,000 sets of headings.

In Oregon the most valuable trees are set down as red fir, tide-water spruce, red cedar, hemlock, Port Orford cedar, white oak, sugar pine, chestnut oak, larch and scrub pine. The principal lumber industry centers near Portland and Empire City. The product of the coast region for the census year was 151,433,000 feet of lumber, 17,750,000 laths and 2,745,000 shingles, and of the state east of the Cascade range, 25,798,000 feet of lumber, 295,000 laths and 2,295,000 shingles.

Washington Territory, according to the bulletin, is covered, west of the Cascade mountains, by the heaviest belt of forest growth in the United States. The most valuable trees in this region are red and yellow fir, including about seven-tenths of the forest, red cedar, hemlock and tide-water spruce. East of the Cascades the most valuable trees are red fir, yellow and white pine, larch, red cedar and hemlock. The principal lumber industry is confined to the shore of Puget Sound. The products of this region for the census year were 144,387,000 feet of lumber, 6,550,000 laths, 7,100,000 shingles and 2,366,000 staves. The product of the coast outside of Puget Sound was 9,530,000 feet of lumber and 200,000 shingles, and of the territory east of the Cascade range, 6,190,000 feet of lumber and 2,900,000 shingles.

CLIPPINGS.

Secretary Teller and Inspector Hayworth have made the following distribution of Indian school funds for the present fiscal year: For the support of non-treaty schools already established and to be established, \$317,000; to provide for increased attendance of the schools now established, \$500,000; for establishing industrial schools, \$150,000; for contingent expenses of agency schools, \$74,000; for the purchase of stock for industrial schools, \$80,000; for the completion of school buildings, outhouses, etc., for the industrial school near Arkansas City, \$15,000; for the support of the above school, \$31,500; for the support of the industrial school at Omaha, Neb., \$31,500; for the support of the Indians in schools in the States, \$17,000.

On board of the *Corea*, which arrived at San Francisco from Cook's inlet, Alaska were sixty Chinese as passengers who, during the voyage, became mutinous on account of one of their number being struck by a sailor. The Morgals attacked the Captain and the crew, but were soon driven below and confined there. On their arrival here the Chinese were allowed to land without any further trouble occurring.

Articles of incorporation were filed on 28th ult. in San Francisco, by the Publishing Company of the Pacific. The company proposes to publish a newspaper in this city known as the *Pacific*, which will be devoted to the interests of the Congregational churches of the coast. It is also proposed to conduct a general printing and publishing business. The capital stock is \$10,000, divided into 1000 shares of \$10 each. Stephen S. Smith, Ira P. Rankin, John Kimball, H. M. Searby, S. A. Chapin, S. F. Buford, and A. F. Hint are the Directors.

INDIAN FARMERS.—The Indians on the Simeco reservation are, many of them, for Simeco, large farmers. Some of them raise as much as seven hundred bushels of wheat, besides corn and potatoes. There are vast tracts of land fenced on the reservation, with several thousand acres in a single field. Portions of these fields are covered with heavy growths of grass, which the Indians cut for hay. The hay is mostly cut for sale and sold to the whites, who have large bands of stock. Some of the Indians live in weather-board houses, nicely painted, have hogs and domestic fowls. They ride around in fine wagons; have sewing machines for their wives, and, unlike most of the Indians live in their houses instead of living in wickiups.—*Union*.

At Ogden, in Utah the manufacture of pig-iron has been successfully established. It is a great event and will have a great sequence. An enormous fortune awaits the enterprise of somebody who shall establish a furnace and a rolling mill in the Cascade Mountains, on the line of the Northern Pacific Branch. Coal and ores of the best quality abound there.—*Philadelphia New Northwest*.

The business of the Canadian Post Office Savings Bank for the past year was larger than that of the previous year by 25,933 deposits and the aggregate sum of \$2,260,947. The Bank was established in 1868, with 81 branch offices. There are now 308. The rate of interest is four per cent. The losses in the business have been only \$6017 in fourteen years. In 1881 the cost of maintaining the business, including interest allowed depositors and expenses of management, was but four and one-third per cent. of the balance in the hands of the Government.

Retrospective.

Judge Deady, at the driving of the last spike near Portland, the other day, made the following very pretty speech:

Friends, fellow citizens and officers of the Oregon Railway and Navigation Company: We are met here to witness the completion of this great Oregon enterprise, which is to put us in railway communication with the east and the north and the south— which is to lift us out of our long continued isolation and place us in the front rank of the people of the world.

It is difficult for me to convey to you the impression which this scene makes on me, or to reflect the memories or emotions which now cluster around my heart.

Thirty-three years ago I floated down this lonely but lordly river in an Indian canoe on my way to Oregon. I was then a youth, to fortune and to fame unknown, but not without hope and courage for the future. At that time the iron horse had not climbed the Alleghenies on his westward way, and you may imagine how little I thought or dreamed of helping to drive the last spike in its track on the far-off Columbia.

Indeed, it is not one hundred years since the grand river on whose shores we now stand was discovered—since Captain Gray stumbled in over the bar and thereby fastened upon it for ever the name of his lucky bark—the Columbia.

Only three quarters of a century ago the government of the United States first put forth its comparatively feeble hand to claim this unknown shore. The spike which eventually fastened it to the Union, and which will never be withdrawn, was the expedition of Lewis and Clarke, which seventy-seven years ago floated down the river in sight of this spot where we now stand, and bore the stars and stripes from the Missouri to the Pacific. Then those rock-piled hills first echoed the welcome sounds of the new universal English tongue.

A quarter of a century later that gallant American soldier of French birth, Col. Benjamin Bonneville, explored the country, and soon after Washington Irving caught the ear of the public with the charming narrative of his romantic adventure. With a poetic justice the manager of this enterprise have perpetuated his memory by naming the principal place on the road in this vicinity Bonneville. Following him forty years ago, came the American trapper and pioneer.

Twenty years ago the Oregon Steam Navigation Company sprang into existence and the tide of traffic and travel turned up the stream. From Astoria to Lewiston the river was plowed with the strong stern wheels under the enterprising direction of Ainsworth, Thompson and Ladd.

But all this has passed away and the river gives place to the rail, and the stern wheel to the locomotive.

Finally, we congratulate the managers of this new enterprise. Their names—Villard, Dolph, Proscott, Thielsen and Mirr—will not only be remembered in our cups but emblazoned on our towns, boats, palace cars and other monuments of art and utility. And we trust that they will be wise and moderate in the management of the great power and responsibility and aim to make the public good and their own identical. Let them foster the country which fosters them, and putting aside all other purposes, be content to not only as the beneficent agents between the producer and consumer, and no one will ever have occasion to regret this day.

Adulteration in Vienna.

They have in Vienna an organization for the preservation of the public health, which watches closely the articles sold for food, and from time to time has samples chemically analyzed. Investigations of this character were conducted on an extensive scale during the past year. Of milk 950 specimens were analyzed. Most of it had been skimmed and diluted with water. Some had come from diseased cows, and some was thickened with borax, soda and soap. Butter was analyzed to the extent of 210 samples. All of it contained an excessive proportion of water, and many of it was adulterated with beef fat, lard or tallow. Lard, coming from America and Hungary, had borax and lime. Of 1,100 specimens examined of Hungarian and Austrian wine, fifty-two were of artificial concoction. Artificial coloring matter and excessive proportions of water were found in many. Pilsener beer contained soda and Vienna beer glycerine. Of liquors, seventy-three had traces of arsenic or copper, beside injurious flavoring and perfuming ingredients. Ground coffee was mainly roasted grain, acorns and chicory. Even bread was badly adulterated.

PROBATE NOTICE.

IN THE PROBATE COURT OF CLALLAM COUNTY, Washington Territory.

In the matter of the estate of George Selbert deceased.

Order to show cause why decree of distribution should not be made.

On reading and filing the petition of Elliot Cline, executor of the estate of George Selbert deceased, setting forth that he has filed his final account of his administration of the estate of the said deceased in this Court, and that the same has been duly settled and allowed, that all the debts and expenses of administration have been duly paid, and that a portion of said estate remains to be divided among the heirs of said deceased, and praying among other things for an order of distribution of said estate among the persons entitled.

It is ordered that all persons interested in the estate of the said George Selbert deceased, be and appear before the Probate Court of the County of Clallam, Washington Territory, at the office of the Clerk of said Court, in said county on the 27th day of November, 1882, at 11 o'clock A. M., then and there to show cause why an order of distribution should not be made of the residue of said estate among the heirs of the said deceased according to law.

It is further ordered that a copy of this order be published for four successive weeks before the said 27th day of November, 1882, in the PUGET SOUND WEEKLY ADVERTISER, a newspaper printed and published in the City of Port Townsend, Jefferson County, Washington Territory.

Dated September 25, 1882. WILLIAM WARD, Probate Judge. Attest, JOHN MORRIS, Clerk. 33-4w

A Comet's Eccentricities.

S. F. Chronicle. It would be a very notable thing if within the next two years we should witness the fall of a comet into the sun. It would be an experience unprecedented in history. Yet that is what some of the Eastern astronomers promise us. The comet visible in the eastern skies shortly before sunrise is declared by Professor Lewis Boss of the Dudley Observatory at Albany, and by several other astronomers of equal eminence, to be the brilliant celestial visitor of 1843, which is supposed to be identical with that of 1880. Its first recorded visit was just at the height of the Millerite excitement, when thousands of people were in immediate expectation of the end of the world. Its appearance was such as to alarm even those who cared little about Scripture prophecies. After it had passed its perihelion it was conspicuous in the western heavens after sunset. Its nucleus was below the horizon, but its fiery tail shot up a great white bar of light to the zenith. It gradually faded, and in a few weeks had disappeared, not to be seen again until 1880. The identity of the present comet with that of 1843 is proved by the fact that it came from the same quarter of the heavens and is receding in the same direction. After its appearance in 1843 it was absent thirty-seven years. Its reappearance now after being absent only two years is attributed to its having passed low down through the atmosphere of the sun, and been so retarded by the resistance that its orbit was greatly diminished. We are told that within two years it may be again expected, when it will pass a little closer to the sun, and possibly plunge into it. Says Professor Boss: "At each fresh plunge into the solar atmosphere the comet, which at the time is moving with the enormous velocity of 370 miles per second, will be impeded in its flight. The intervals between successive returns will constantly diminish. Hotter and hotter will become the mad flight of the splendid comet under the all-powerful and increasing attraction of the sun. At last it will meet an obstruction too great to be resisted, and will then fall headlong into the sun and vanish from the catalogue of comets. This catastrophe may occur next year, or some years later."

No serious change in the earth's conditions is expected to result from this catastrophe. The date of the comet's fall may be marked by a few more cyclones, some heavy freshets, and an earthquake or two. That will probably include all the noticeable phenomena. Astronomers believe that without a frequent fall upon its surface of comets, meteors, asteroids, and the odds and ends of creation's eccentric matter, the sun would gradually fall of combustible material, and at last be extinguished in space as described in Byron's "Dream of Darkness." There is no great alarm felt over the nearness of the comet to the earth's orbit. The spectrum has detected in its head and tail and unknown amount of sodium, probably enough, should it strike the earth, and the manufacturers not be annihilated, to supply all the rival baking-powder companies with a chief ingredient till the close of the century.

THE LEADING SCIENTISTS OF TODAY agree that most diseases are caused by disordered kidneys or liver. If, therefore, the kidneys and liver are kept in perfect order, perfect health will be the result. This truth has only been known a short time, and for years people suffered great agony without being able to find relief. The discovery of Warner's Safe Kidney and Liver Cure marks a new era in the treatment of these troubles. Made from a simple tropical leaf of rare value, it contains just the elements necessary to nourish and invigorate both of these great organs, and safely restores and keeps them in order. It is a POSITIVE REMEDY for all diseases that cause pain in the lower part of the body—for Torpid Liver—Headache—Jaundice—Dizziness—Gravel—Fever, Ague—Malarial Fever and all difficulties of the Kidneys, Liver and Urinary Organs. It is an excellent and safe remedy for females during Pregnancy. It will control Menstruation, and is invaluable for Leucorrhoea or Falling of the Womb. As a Blood Purifier it is unequalled, for it cures the organs that make the blood. READ THE RECORD. "It saved my life."—E. B. Lakely, Selma, Ala. "It is the remedy that will cure the many diseases peculiar to women."—Mother's Magazine. "It has passed severe tests and won endorsements from some of the highest medical talent in the country."—New York World. "No remedy heretofore discovered can be held for one moment in comparison with it."—Rev. C. A. Harvey, D. D., Washington, D. C. This remedy which has done such wonders is put up in the largest sized bottle of any medicine upon the market, and is sold by druggists and all dealers at \$1.25 per bottle. For Diabetes, inquires for WARNER'S SAFE DIABETES CURE. It is a positive remedy. H. H. WARNER & CO., Rochester, N. Y. PORT TOWNSEND HOSPITAL,

Port Townsend, W. T.

The above institution having been placed on a permanent footing, as the United States Hospital for marine patients on Puget Sound, the proprietor takes pleasure in announcing that no pains or expense will be spared in ministering to the comfort and convenience of private patients. This is the largest and best hospital north of San Francisco, and by far the most complete in equipment. It has been thoroughly refitted and furnished. Its general wants have accommodations for about one hundred patients, and are particularly adapted for cases requiring the best medical treatment and constant supervision at limited expense. Those who desire them will be furnished with private rooms entirely separate and distinct at a such additional cost. The attention of all-owners, and those interested in shipping, is called to the fact that steam sailing from this hospital without expense to the vessel.
