The report, published in our exchanges, that Capt. Messegue would take charge of the steamer Mastick, is unfounded. The Port Discovery Mill Co. have not as yet contemplated making a change, since Capt. Delanty took charge.

We learn that Mr. Angus McDonald, a hand on the farm of Mr. A. U. Davis, of Dungeness, came near being killed to death a few days ago by an angry bull. He was fortunately saved by being tossed into a stream of water.

The friends of S. W. Hall were frantically enthusiastic when it was ascertained that he could not be identified as Haliday. Since his mysterious disappearance, they are on the "anxious seat" again. In vain the questions are echoed "where is he?" "who is he?"

SEATTLE has had a disgraceful scandal made public through the courts, and the papers are justly deprecating it. What a pity that the Oregon journals didn't have a reporter on hand, so that they could have hawked it about! A late issue of the "Astorian" indicates that the "Oregon style of journalism" still prevails very generally over there.

CONSOLIDATED.—The Seattle daily and weekly "Tribune" have been suspended and their patronage consolidated with that of the "Intelligencer," of that city. Mr. Turner is an enterprising young man, and many will regret to see his publication suspended. However, as it is a generally conceded fact that Seattle has been burdened with too many newspapers, perhaps the change will be a beneficial one. The "Intelligencer" is worthy and should receive extensive patronage.

CHANGE.—Our friend Mr. J. T. A. Bulfinch, 1st. assistant keeper of the Dungeness light-house, resigned his position there on the 31st ult. He it succeeded by Mr. Frank Wellington, a gentleman well known to many of our readers. Mr. Bulfinch was an efficient light keeper, during his term, and would have been sure of a position as head keeper in some light-house had he remained in the service. We wish him success wherever his varying fortunes lead him.

Our local neighbor backs squarely down from his boastful fabrication about Judge Greene and certain gentlemen in Port Townsend, but retorts spitefully about their trying to defeat his appointment as chief justice. Judge Greene knew that there was an effort put forth to have Judge Lewis reappointed, and, so far from deprecating it, he assisted. He understood too that those who "telegraphed to Washington," &c., were not actuated by a spirit of opposition to him, but because they could conceive of no sufficient reason for removing Judge Lewis. Come again, pop gun.

BUSINESS.—On the 27th ult., the sloop Quickstep arrived from San Juan with 15 tons of potatoes for Messrs. Waterman & Katz. On the 28th the schr. Page arrived from Port Discovery with 30,000 feet of lumber for the same firm. The schr. Perkins arrived on the 25th, from San Juan, with 30 tons of produce. The Perkins and Quickstep are both coming over again this week with loads, from the islands—all for Waterman & Katz. All of which means that they are not allowing moss to grow on their backs—that is, the members of the firm don't.

DIED.—In this city, March 30, 1879, Mr. Frank N. Plummer, aged 40 years. Deceased was born in Alfred, Maine; came to Port Townsend in the year 1858, and from here went to Portland, Oreg., in December, 1861. He lived in Portland until about two months ago, at which time he was brought to this place to pass his last hours with the family of his brother, Mr. A. A. Plummer. The friends and relatives of the departed have the sympathies of a public that mourns with them.

DAKOTA PASSENGERS.—For Port Townsend: W. Craswell, H. Trenchholm, N. H. Bain, H. Henriques, Seattle—F. H. Boyd and wife, E. W. Ray, jr., J. Downey, Capt. F. J. Burns, C. G. Steining, R. Hodgson, A. Anderson, S. N. Sadler, P. B. Brown, wife and daughter and dog, N. Soderstrom, C. E. Soderstrom, F. F. Howe, C. A. Howe, C. C. Churchill, E. H. Tattle, J. G. Sahney, M. Kohn, P. Kelly. Tacoma—I. Stevenson, Mrs. Atper.

We confess to being just a little disappointed in regard to Dr. Clark. Last Sunday afternoon we attended his lecture, expecting to hear a truly scientific discourse, but were regaled merely with a recital of extraordinary experiences with spirits and a number of anecdotes, statements &c., which found their way in print long since. It must be a mistake that such "science" is approved by numerous orthodox ministers.

OUR townsman, Mr. J. H. Woodley, swallowed something yesterday, hardly compatible with the even tenor of "internal improvements." Our apothecary gave him something which made him unswallow it on short notice. Our informant does not say what it was, but we hope it will be harmless.

SUBSCRIPTIONS to the WEEKLY ARGUS are still coming in. Our list of papers going singly to different parts of the United States has doubled within the past year.

THE Pacific Mail Co's advertisement, as inserted to-day, shows their summer arrangement. It is reliable, and can be depended upon by the traveling public.

ACCORDING to a notice inserted to-day by Mr. Landes, the wife of that gentleman will transact all business during his absence.

RUMOR says that our young friend, Richard McDonnell will accept a position again at the Cosmopolitan Hotel.

AN up-Sound exchange reports the recent death of two men near Port Blakeley—a supposed case of poisoning.

THE M. E. Ladies' Aid Society will meet next week at the house of Mrs. Allen Weir, on Wednesday.

TELEGRAMS from headquarters in New York inform Capt. Ausworth that the directors of the Northern Pacific Railroad Company have ordered twenty-five hundred tons of rails to be purchased and shipped at once to Eastern Washington, to commence building their road from the head of navigation on the Columbia river. This is certainly good news for Washington Territory. Whenever work is begun on this coast, again we shall have faith in the early completion of the road across the continent. The rails spoken of will only be enough for twenty-five miles of road, but when that is finished there will be just that much more reason for another 25 miles, and so on.

PARTIES in Portland have purchased gold-bearing land in Clarke county, and will "work" the mines.

THE family of Mr. O. H. Holcomb will move "down town" in a few days.

THEASURER'S sale of lands for delinquent taxes, next Monday.

TALES ON TEMPERANCE.

"How much better that growth has been than that of the drunk."

OUR ORDER.

Wonderful is the rapidity of its growth, in the extent of territory it covers, and in the magnitude of its membership, our Order is yet more wonderful in its inherent vitality. Organized in 1832, from a small beginning in Syracuse, N. Y., it has overlapped all boundaries, both natural and political, and to-day has more than seventy Grand Lodges at working under one common head, thoroughly and perfectly organized, numbering its membership by the hundreds of thousands, and leading all other organizations in the number which yearly it pledges to total abstinence and entire prohibition. This of itself challenges admiration. But, when we reflect that had not been time and again attempted to use it for personal ends; when we remember though slackness of the good and the persistence of the wicked, lodge after lodge has gone down in shame and disgrace; and, then, recognize the fact, that from the ashes of the dead, Phoenix-like, the Order has again and again sprung up into renewed life and activity, our admiration is not so much for what has been done, as for those principles and that organization which makes the doing possible.

The principles of abstinence and prohibition, have been wrested from the experience of humanity, and each year is establishing the fact that all reformatory principles which would inwoven themselves into humanity's life, can do so successfully only by spirit and through the method of humanity's author.

When, then, for Temperance principles our Order went to the very roots, and for the method in Temperance work, founded itself on FAITH and HOPE and CHARITY, it gained a vitality which made almost any result in Temperance action possible. A verdict from the inner conscious soul of the people, like a decision from our higher courts of law, comes only by the test of years; but when once rendered, we have something on which we can depend. To-day principle and people alike bid our Order to go forward, and grand as has been the work of the past, the possibilities of the future no human ken can follow.

The work goes bravely on. From almost every direction there comes the same cheering words. Lodges are adding to their membership, and doing effective Temperance work. Many new lodges are being instituted. Never before in ten years has the same glorious prospect loomed up before us. There is a demand for organizers such as we have never before witnessed. It is just what we want.

WORK IN EARNEST.—Bro. J. V. Crowl, of Watsburg, W. T., sends still another application for a Good Templar Lodge charter. It is to be located at Dayton, W. T., and the petition has THIRTY-SIX names to it! Bro. C. leads the Temperance workers this year, to our jurisdiction. We wish him success.

Our newly instituted lodge on San Juan takes its name from its location, "San Juan," No. 5. ELEVEN members were proposed for membership, at its first regular meeting after institution. It is flourishing.

JOSH BILLINGS ON LAGER-BEER.

I have finally come to the conclusion that lager-beer as a beverage is not intoxicating. I have bin told so by a German who has said he had drunk it all nite long, just tew try the experiment, and was obliged to go home entirely sober in the morning. I have seen this same man drink sixteen glasses, and if he was drunk he was drunk in German and nobody could understand it. It is proper enough to state that this man kept a lager beer saloon, and could have no objection in stating what was not strictly thus.

I believed him to the full extent of my ability. I never drunk but three glasses of lager in mi life, and that made mi hed outwist as tho it was hung on the end of a string, but I wuz told that it wuz owin to mi bile bein out of place; and I guess it was so, for I never biled over wuss than I did when I got hum that nite. Mi wife tho I wuz going to die, and I wuz afraid that I shouldn't, for it did seem as tho ev'rything I had ever eaten in mi life wuz comin tew the surface; and I tu really believe that it mi wife hadn't pulled off mi bites jest as she did, they wud hav cum taundering up tu.

O! how sick i wuz! It wuz 14 years ago, and i can taste it now. I never had so much experience in so short a time. If enny man shud tell me that lager beer wuz not intoxicating i shud believe him; but if he shud tell me that i wuzn't drunk hat nite, but that mi stummick wuz out of order, i shud ask him tu state over in a few words jest how a man felt and acted when he wuz well set up. If i wuzn't drunk that nite, i had sum ov the most nateral simp tums that a man ever had and kep a ber.

In the first place it wuz about 80 rods from where i drunk the lager-beer to mi house, and i wuz then 2 hours on the road, and had a hole busted thru each one ov mi pantulun neez, and didn't hav enny hat, and tried to open the door bi the bell pull, and hickupped awfully, and saw ev'rything in the room trying to get round on the back side ov me; and in sitting down on a chair, i didn't wait long enuff for it to get exactly under me, when it wuz goin round, and i set down a little tu soon and missed the chair about 12 inches, and cudn't get up soon enuff to take the next wun that cum along; and that aint awl, mi wife sed i wuz az drunk az a beest, and az i sed before, i began tu spin up things lively.

If lager beer iz not intoxicating, it uzed the mitey mean, that i know. Still i hardly think lager beer is intoxicating, for i have bin told so; and i am probably the only man living who ever drunk enny when his liver wuz not plumb. I don't want tew say ennything agin a harmless temperance beverage, but if ever i drink enny more, it will be with mi hands tied behind me and mi mouth grind open. I dont think lager-beer iz intoxicating, but if i remember rite, i think it tastes like a glass of soapuds that a pickle has been put to soak in.

H. BALDWIN of Monroe City, Ind., writes under date of Dec. 31, 1877, that his wife used Dr. Pierce's Favorite Prescription with wonderful results. It effected her entire cure. After several physicians had failed. The many similar letters positively affirming that the Favorite Prescription had cured the diseases and weaknesses peculiar to women, induced Dr. Pierce to sell it under a guarantee. Ladies need no longer submit to useless and painful local treatment, as the Favorite Prescription is a safe, sure, and speedy cure. Hundreds who had been bed-ridden for years have been restored to perfect health by its use.

A COLLEGE professor once said that "he who expects to 'rate' high in his class, not expectorate on the floor." Much of was, no doubt, the professor's view of the matter.

THE U. S. SIGNAL SERVICE.

Gradually, the wild and ungovernable forces of nature are, through science, made of use to man. Following in the wake of the ingenious inventions for the use of steam and electricity, comes the organization of the U. S. Signal Service. Is it not wonderful that a system could be originated and perfected whereby an operator can accurately predict the winds of a different locality? And yet experience proves our "storm signals" to be reliable. Equally great are the advances made in the science of medicine. Step by step, uncertainties and doubts have yielded to "certainly certain." The discoveries of Harvey and Jenner have been succeeded by the Golden Medical Discovery of Dr. R. V. Pierce. No longer need despair because some physician has pronounced the lungs unsound. Hundreds of testimonials are on file in the office of Dr. Pierce from those who had abandoned all hope, and had been given up to die by physicians and friends. Incipient consumption, bronchitis, serous tumors, speedily, surely, and permanently, yield to the healing influence of the Discovery. If the bowels be constipated, use Dr. Pierce's Pleasant Purgative Pellets. For full particulars see Pierce's Memorandum Book, given away by all druggists.

Remember, I have no agent, but sell direct, hence this remarkably low price. You can order direct from this Advertisement, which will not appear again. Nothing can be saved on this instrument by ordering it through any other medium. If you do not want one yourself, order one and make your friend a handsome present. Every Beatty Organ when introduced into a new locality, sells others, as it is a standing advertisement. Please remember, the above unparalleled offer is good for a limited period only, and is made solely with a view of introducing this superb instrument. Trust in a demand that will eventually repay me for this sacrifice. New Beatty and Piano, \$125, \$150, \$175, and up. Address, DANIEL F. BEATTY, Washington, New Jersey, U. S. A. THE CHINESE.

The speech made by Hon. J. H. Mitchell, of Oregon, in the U. S. Senate, on the 14th of February, on the restriction of Chinese immigration, is able and far reaching. I comprise a few of the strongest reasons why Congress should arrogate the right to set aside treaty stipulation with foreign nations when they are found to be injurious to the country. After arguing that we have a right to exclude Chinese under the restrictions placed upon applicants for citizenship, alone, he spoke as follows:

While, therefore, we recognize the common brotherhood of man, while we to the fullest extent accord to all men, whether born in America, in Africa, or on the distant shores of Asia Minor, the rights of life, liberty, and the pursuit of happiness, still, to maintain our autonomy among nations, to protect our people and our civilization from contact that will degrade and paralyze and finally overthrow it, we insist on the right to interpose with conditions upon the same principle upon which we impose conditions in reference to naturalization. In other words, we say to the nations of the world, for the same reason that we would inhibit any foreign prince or potentate, or the adherent of any foreign prince or potentate, from becoming a citizen of our country, we would inhibit a race whose customs, practices, as pirations, are in direct conflict with our own from obtaining by numerical force a controlling influence in our Government and among its people.

No, they do not, as the European emigrant, come to our shores to seek an asylum from either political or religious persecution, nor do they come with any intention of making this their permanent abiding place, or of identifying themselves in any manner with our institutions or Government. On the contrary, they come with unflinching devotion to the imperialism, the heathenism, the idolatry, and the customs of the heathen land from which they come, without the slightest intention of becoming any part of our people or participating in the slightest degree in the maintenance of our Government or the perpetuity of our institutions, expecting to obtain from us all of our substance, that they can without giving us in return a recompense even so much as the dust of their dead bones to enrich our soil, for them at least must, as a sacred rite, be conveyed to the land of their fathers and offered as a sacrifice upon the altar of a superstitious deity.

We can agree with Senator Mitchell in most of his arguments, although taking issue with him as to the plan for correcting the evil with which the country has to deal. For instance, if the Chinese are to be excluded under our requirements in naturalizing foreigners why not begin at the foundation of the matter and suspend our immigration so as to compel foreign subjects to become naturalized or else leave the country? Then the heathens could be reached; but as it is, they have a right, in common with other foreigners, to remain with us as long as they please without becoming naturalized.

Mr. Mitchell also presents that commonly used argument, viz: that we have the right to abrogate the Burlingame treaty because China has not allowed Americans the privileges which it guarantees them. We have only to say that if China has not kept her faith, then the whole treaty may be declared null and void, and the proper course to take would be to nullify it at once and begin anew. But to abrogate a treaty without any relations toward China and violate the treaty thereby by legislation which ignores its provisions would certainly be impolitic and unjust.

MALICIOUS FALSEHOODS.

It appears that Dr. Minor has been trying to make a sale of the ARGUS property, and that Mr. Tallentire and another are spoken of as the probable purchasers. We would regret very much to see the ARGUS go under, and are of the opinion that Mr. Tallentire, with either Mr. Kuhn or Mr. Haller, would work quite a change for the better in that paper.

Ex. from the "Democratic Press," of March 27th.

"The bad effects of evil associations may be seen in the case of Rev. Allen Weir, of the ARGUS who is said to have become bankrupt by associating with the Custom House Ring."—Olympia Transcript, of March 29th.

Blanchard KNOWS, or can ascertain in five minutes' time, that Dr. Minor does not own a dollar in the ARGUS property—and that no one else does, save himself. Because the "Press" has failed to compete with the ARGUS, even although it employed the basest undermining business dodges, it now descends to the more despicable means of downright malicious falsehoods (we know of no other appropriate term) in order to injure our business by weakening public confidence in it. The gentlemen spoken of as probable buyers or interested parties, are none of them connected in any way whatever with our paper; nor are they likely to be. We do not wish to sell or dispose of the ARGUS, and no one else CAN do so, unless misfortune overtakes us in a way hitherto unsuspected. The ARGUS has, by legitimate business, paid off \$300 of its indebtedness within the four months last past—besides promptly meeting current expenses of all kinds. We do not allude to this in a boasting spirit (although we are by no means ashamed of it) but to show how reasonable (?) is the assertion that we are about to be sold out, &c.

The facts are that we came to Port Townsend with but little ready money, having just spent several hundred dollars of hard-earned cash at school; that we have been suspected of being a mere figure-head for some one else, and that Blanchard, Willison & Co., after finding out that we really meant business, have availed themselves of this last resort to weaken and injure us financially. Whether or not they were at first serious in believing that we represented some other person, they have long since known differently; but they evidently believe a lie truthfully "struck to" is as effective as the truth. As to Blanchard, we have so frequently proven him a falsifier that repetition is unnecessary.

The Olympia "Transcript," twin brother of the Port Townsend deformity, thinks it legitimate and proper to use every idle rumor to our detriment, whether borne on the wings of a disreputable bird like the "Press," or coming from a reliable source—and why? simply because we do not join in its cowardly and malicious attacks upon good men. In the present instance, Gunn knows the character and standing of the "Press" well enough to justify us in branding his silly paragraph as much a wilful lie as though it were not rebashed from the quotation just above it.

To publish falsehoods in order to injure one's business is more despicable and cowardly mean than to burglarize his house, and we have quite enough to contend with in the way of legitimate and unavoidable obstacles without being subjected to such ungentlemanly attacks. We regret the necessity of making a defensive showing, and hope our readers will pardon the undue trespass upon space ordinarily devoted to news. We have not resorted to braggadocio, but FACTS. The ARGUS never was on as prosperous a basis as at present, and needs no superfluous "puffing" to demonstrate the fact.

J. N. GALE, of Olympia, has received his commission as postmaster of that place, and entered upon official duties.

SENATOR MITCHELL.

North East (M.L.) Record. Among the senators who retire from that body on the 4th of March, there is no one whose absence will be felt more sensibly than that of Hon. J. H. Mitchell, of Oregon. In Pennsylvania, his native State, in Oregon, whose growing interests he has so ably and faithfully represented, as well as in all portions of the country, his course has been marked with peculiar interest. Just in the prime of life, with all the vigor, and compass of rare natural endowments, trained by culture and experience, he has devoted himself, to his high position with the energy fidelity and power that marked the statesmen of the olden time. He has made for himself a record in the senate alike honorable to himself and to the nation. It cannot be that a discriminating people will permit one so useful to retire permanently. The nation cannot afford to dispense with the services of a representative like him. His ability, his eloquence, his industry, his fidelity and his patriotism belong not only to Oregon, but to the people of the whole country, and these qualities in these later days are much needed in the councils of the nation. Whatever his individual preference may be, we hope ere long to see him return to public life.

Normal School, Port Townsend, W. T.

Special Announcement. A PRIVATE SCHOOL and TRAINING CLASS

Will be opened in two departments on Monday, April 14th, 1879.

To continue twelve weeks. Pupils of all grades will be admitted and classes will be formed in whatever branches desired.

THE TEACHERS' Training Class

Will be a special feature of this school and will be conducted by Mr. A. R. Huffman, a graduate and formerly a teacher of the North-Western Normal School. Those who expect to teach, and who have never had the advantages of a Normal Training will find this an excellent opportunity of becoming familiar with the intricate work of teaching. Students will have ample opportunity for doing the actual work of the school room under the eye of a competent critic. Attention will be given to the

- Organization of Schools, Programmes, Assignment of Lessons, Principles of School Government, etc.

SUPERIOR ADVANTAGES:

- 1. Our teachers are NORMALLY TRAINED
2. Students will have the advantage of seeing and doing the actual work of the school room in all grades and kinds of schools—an advantage offered by no other institution in the Territory.
3. The work of STUDENTS IN TRAINING will be overseen and kindly criticised by competent teachers.
4. Object Teaching, the basis of all instruction in common schools will receive special attention.
5. PRACTICAL TALKS ON PRACTICAL SUBJECTS will be given daily.
6. While pursuing the various studies the students will be led to determine the natural and logical methods of teaching them.
7. Students will do the reciting instead of looking indifferently on while the teacher does it.
8. Our books are the uniform series of the Territory.
9. Students will be supplied with the latest standard Educational Literature, free of charge.
10. Social and moral virtues will be inculcated daily, but no form of religious sectarianism.
11. Our climate is the most beautiful to be found.
12. Our scenery is unsurpassed in beauty.
13. By our telegraph and daily mail we are in constant communication with the world.
14. We have the best and largest cabinet of natural specimens in the Territory.
15. This will be the only truly NORMAL School, worth of California.

MUSIC.

Arrangements have been made with PROFESSOR W. H. ROBERTS, a thorough and an entirely successful teacher, for instruction upon the Piano or Organ, at reduced rates.

TUITION:

- Primary School per term \$6.00
Grammar School per term \$7.50
Normal Class or Higher branches \$9.00
Music, Instrumental, 24 lessons, at \$1.50

ON Sunday next Rev. S. A. Starr, of the M. E. Church, here, will preach in Dungeness. Rev. Jas. Agnew will be away attending Presbytery meetings...

IN the matter of making arrests, Marshal Finn has been fairly distanced by Mr. Fitzpatrick's stonishing establishment. It has arrested the attention of every passer-by...

IF our young friend, Mr. Frank Hastings, has plenty more vegetables as nice as those with which he made us happy, a few days ago, his farm must be a desirable one...

SOME of the lands seized by Sheriff Miller, and which he advertises to sell, on the 5th of May, are said to be quite valuable...

THE wants of the people of Clallam must be increasing rapidly. Mr. C. F. Clapp, the spruce young proprietor of the Farmer's store at Dungeness, came up again a few days ago...

WE would call attention to the change in Prof. Robert's advertisement. That gentleman is not only enlarging his sphere of usefulness but is increasing the legitimate business growing out of his profession...

BARON Von Rothschild will soon go to San Francisco to select a large and assorted stock of goods. Read his advertisement. The dissolution of partnership has been effected, and matters are being 'squared up' generally...

IT is said there are several kinds of calf-skin; French calves' skin, American calves' skin, and cows with calves' skin. Be this as it may, the kind that Mr. Fitzpatrick uses in making those A. 1 boots and shoes is of the best...

AN itinerant skinkler after a few dimes, named 'Jimmy Jones,' visited Port Townsend this week and tried to get a 'house' for a comic lecture, but the people didn't 'enthrase worth a cent'...

HEREAFTER the ARGUS will be kept on sale at Mr. Holcomb's news depot. Also, for the convenience of the public, a fine assortment of legal blanks of all kinds, will be kept there in stock...

Miss Julia Weir, who has been attending school at Union Academy, Olympia, during the past winter months, will soon open a school in one of the districts at Dungeness, for a summer term...

Ms. Dodd has fitted up elegant and commodious sample rooms where traveling agents may display their goods during their sojourn at the Central Enterprise...

YESTERDAY was the last day of the term of public schools at this place. Prof. Huffman's normal school will open on the 14th inst., should nothing prevent...

THE Dispatch brought up a number of passengers on her Tuesday's trip, from Dungeness, Port Angeles and Neah Bay...

Mr. Rothschild will start for San Francisco on the 10th. Any orders entrusted to him will be carefully attended to...

OUR WASHINGTON LETTER.

WASHINGTON D. C., Feb. 28, 1879.

Mr. Hayes has probably been under no such pressure during the almost two years in the Presidential chair as since the passage of the anti-Chinese emigration bill. Excluding the Chinese, the Pacific coast is a unit in its favor. On this side an insignificant number of Republicans a certain element of the Democratic party and a large majority of the Greenback party give it their support. Pulling in the opposite direction are a majority of Republicans—rank and file—a minority (probably) of Democracy this side of the Rocky Mountains and a not inconsiderable element among the population of our larger towns—merchants, literary and other professional men, who though not very closely identified with party or faction, have much to do with shaping public sentiments from their culture, exceptional intelligence and practical knowledge of men and things. It is a notorious fact that to illum sentiment east as well as west is almost or quite as unanimous in the determination that the "China-must go." Here in Washington that portion of our residents who have received their education and ideas of what our foreign and domestic public policy should be from the saloons, gin mills, keno dens, policy shops, bagnios, "fences" etc., favor not only absolute prohibition against the Chinese who contemplate coming but the summary ejection of those already here. All this of course, comes from the solicitude felt for the interests of our own workmen. Bill Nye's views and the spirit prompting them admirably epitomizes those of this class, and what is true of them here in this respect seems true of them everywhere, whether in New York or San Francisco. I believe, however, from all the indications furnished by the Washington barometer, that there is a very general feeling that the influx of Chinese into this country should be restricted; that there is ample cause for the feeling of apprehension so general on the Pacific coast. But the opposition is to the means taken to accomplish the desired end. In the first place it is held to be cowardly inasmuch as we never would have ventured on such a remedy as is proposed by the bill with any power that could or would have effectually resented the insult; then the bill practically ignores and repudiates a treaty to whose observance we are bound by every consideration of honor and international comity till it shall have been abrogated in the usual way. Lastly it is felt that Congress has usurped functions in the passage of the bill that can be properly exercised only by the treaty making power as defined by the organic law. Deputations that have visited the White House to urge the President's signature, have left with the impression that the bill will receive a pocket veto.

A little Custom House unpleasantness—insignificant as compared with that in which Mr. Conkling recently got a black eye and which in the crowd of business now in hand, had attracted little attention—was yesterday decided in favor of the stalwart who dared the administration to combat while yet flushed with the victory won over the New York gladiator. The victor was none other than the veteran Senator Hamlin, who amid all the treachery, infidelity, and recreancy of parties and individuals, has never shown the slightest variability or shadow of turning. At the time he voted with Conkling, and against the administration, the nomination of his friend, one Mr. Fox, was before the Senate as Custom officer at Bangor, Me. It was almost immediately withdrawn and a man very obnoxious to Mr.

Hamlin personally it is said—certainly not a favorite with the Republicans of the district—was substituted yesterday, his name was unanimously rejected. I take occasion to say here that when Mr. Hamlin leaves the Senate, real Republicanism and the cause of the laboring man lose one of their most sincere, earnest and whole-hearted advocates.

It has long been a prevalent opinion that Donu Platt habitually takes a mean advantage of his newspaper facilities to wage a personal warfare against any and everyone who happened to incur his displeasure, knowing their inability or lack of experience in that kind of warfare; hence he receives only a limited amount of sympathy in his disastrous encounter with "Billy" McGarrahan, the plucky opponent of the New India Mining Co.

It would be idle to speculate about an extra session. Almost before this reaches you the conference committees upon whose dictum the question ultimately depends, will have decided for or against.

DE WITT.

TRUE GENTLEMEN.

"I beg your pardon," and with a mile and a touch of his hat Harry Edmond handed to an old man, against whom he accidentally stumbled, the cane which he had knocked from his hand. "I hope I did not hurt you. We were playing too roughly."

"Not a bit! not a bit!" said the old man cheerily. "Boys will be boys, and its best they should be. You didn't harm me."

"I'm glad to hear it," and lifting his hat again, Harry turned to join the playmate with whom he had been frolicking at the time of the accident.

"What do you raise your hat to that old fellow for?" asked his companion, Charley Gray. "He's only Giles, the huckster."

"That makes no difference," said Harry. "The question is not whether he is a gentleman, but whether I am one; and no true gentleman will be less polite to a man because he wears a shabby coat, or hawks vegetables through the streets, instead of sitting in a counting-house." Which was right?—Ex.

A NEW METHOD OF PLANTING TELEGRAPH POLES.—A new method of planting telegraph poles had been introduced in Pennsylvania. The ground is staked off at distances of 200 feet apart; a man starts off with cartridges of "electric powder," and with a crowbar in his hand. The bar is driven four or five feet into the ground. A cartridge with a lighted fuse is dropped into the hole and the man proceeds to the next stake, but before he reaches it the cartridge has exploded, making a cavity as large as a flour barrel in the ground, and a gang of men who follow plant a telegraph pole in the spot. In this way four men will set up 100 to 150 poles per day, and at a cost two-thirds less than by the old way.

The war department has ordered the eighteenth infantry from Atlanta to Bismark to protect the border threatened by Sitting Bull. Colonel Walsh, commanding the Canadian mounted police, writes that Sitting Bull and his two thousand warriors, well armed and equipped, are showing a very ugly and insubordinate disposition.

Dispatches announce that twenty five hundred tons of rail have been purchased and ordered shipped at once to Eastern Washington Territory, to commence building eastward from the head of navigation on the Columbia. It is expected that the work begun at both ends of the route will not stop until the entire North Pacific road is completed.

BATTISTE'S HAIR INVIGORATOR.

M. Battiste Delaifang, Tonsorial artist of Port Townsend, Washington Territory, begs to inform his numerous patrons and the public generally, that he has prepared from the original receipt of Professor Montalembert, the celebrated chemist of Paris, and from chemical extracts of rare medicinal plants found only on the North-west coast of America, a most elegant addition to the usual toilette articles in the shape of an invigo luto and revivator of the hair. This delightful preparation cleanses the hair from all impurities; prevents dandruff, heals all skin disease of the head, imparts a gloss and softness and beautiful color to the hair; restores its growth by its healthy and tonic action, and prevents its falling off. In short

Battiste's Hair Invigorator is the "sine qua non" of all the inventions for the improvement, beautifying and growth of the hair. The material of which it is composed is harmless and can be used freely according to directions accompanying each bottle. Every lady desirous of having beautiful hair should consider her toilette table incomplete without a bottle of this delicate and elegant cosmetic. Prepared and for sale by

THEOLOGICAL students reason that if there be counterfeit money, there must be genuine; so, if there be infidels, there must also be Christians. If this be true of money and religion, will not the same rule apply to "put up" medicines? Do not the cheap and worthless nostrums prove that there are genuine and meritorious "put up" medicines? The great popularity of Dr. Pierce's Golden Medical Discovery has resulted in the manufacture of many "shoddy" alterative and tonic remedies, but one after another, these have disappeared, the proprietors having found that, no matter how "loud" they advertise, success depends upon merit. In South America, as well as in this country, the Discovery is the standard remedy for all scrofulous and eruptive diseases. It acts promptly on the stomach, liver, and blood, toning up, regulating, and purifying the system. It speedily allays all bronchial irritation, and cures the most stubborn cough or cold in half the time required by any other remedy.

The scarcity of Diamonds, Gold and Silver, and the uncertainty met with in securing them, is a sure indication of their value.

Thus it is with a valuable medicine: Dr. Aug. Kaiser's celebrated German Pulmonic Elixir, through the jealousy of rivals, has met with the most bitter opposition, and apparently almost insurmountable obstacles have been thrown in its way; but its opponents might as well try to change the course of the Sun, sweep back the Ocean with a broom or put out a prairie fire with a tear.

For the cure of Throat and Lung diseases, such as Coughs, Colds, Consumption and Bronchial Affections, it is unequalled. Its cures are truly magical. Ask your Druggist for it. The genuine bears the Prussian Coat of Arms, the fac simile signature of Dr. Aug. Kaiser, and has his name blown in every 75 cent bottle. Trial bottle, 25 cents.

OLD, TRIED, AND TRUE.

People are getting acquainted—and those who are not ought to be—with the wonderful merits of that great American Remedy, the

MEXICAN Mustang Liniment,
FOR MAN AND BEAST.

This Liniment very naturally originated in America, where Nature provides in her laboratory such surprising antidotes for the maladies of her children. Its fame has been spreading for 25 years, until now it encircles the habitable globe.

The Mexican Mustang Liniment is a matchless remedy for all external ailments of man and beast. To stock owners and farmers it is invaluable. A single bottle often saves a human life or restores the usefulness of an excellent horse, cow, or sheep.

It cures foot-rot, hoof-ail, hollow horn, grub, screw-worm, shoulder-rot, mange, the bites and stings of poisonous reptiles and insects, and every such drawback to stock breeding and lush life.

It cures every external trouble of horses, such as lameness, hives, swelling, sprains, founder, wind gall, ring-bone, etc., etc.

The Mexican Mustang Liniment is the quickest cure in the world for accidents occurring in the family, in the absence of a physician, such as burns, scalds, sprains, cuts, etc., and for rheumatism, and stiffness engendered by exposure. Particularly valuable to

It is the cheapest remedy in the world, for it penetrates the muscle to the bone, and a single application is generally sufficient to cure.

Mexican Mustang Liniment is put up in three sizes of bottles, the larger ones being proportionately much the cheapest. Sold everywhere.

HOWS YOUR LIVER?

If the skin be yellow and muddy, the bowels constipated; if you have ringing in your ears, dull pains in the side, sick headache, sour stomach, hot or dry skin, spots before the eyes, bad taste in the mouth, cold feet and hands, depression, giddiness, loss of appetite, bad circulation of the blood, swollen limbs, &c., you may safely conclude your liver is out of order. The liver is more apt to become diseased than any other organ of the body, as its duty is to filter the poisons from the blood. When it becomes weak, obstructed and diseased it must fail to do its duty, and the whole body suffers. Try a bottle of Prairie Flower, the greatest known liver purifier in the world. Sample bottle 25 cents, large size 75 cents. For sale everywhere.

Messrs. Spurr & Keller have established the business of stereotyping at Portland, Oregon.

Prof. Davidson, chief of the Pacific division of the United States coast survey, ridicules the perihelion pestilence theory.

It is reported that Col. Samuel A. Black will resign his position as Superintendent of the N. P. R. Co. on or about May 20th.

Steamers running between Olympia and Seattle are said to be doing a lively business, most of which is due to the logging interest.

Judge Greene has called a special term of Court for Snohomish County, to convene at the county seat of said county, on the 22d day of April, 1879.

The chief of the Signal Service at Washington gives late encouraging indications that a signal office will soon be established at Seattle or Port Townsend.

A project is on foot to arrange a passenger extension from Washington to San Francisco, about the first of August next, to meet General Grant on his return from the Orient.

A herd of two thousand five hundred buffalo, having been driven away from their grazing fields by the Indians, attempted to cross the Missouri river on the ice, a few days ago, and were all drowned.

Independence, a little town in Polk County, Oregon, about twelve miles above Salem on the Willamette river, was nearly consumed by fire a few days ago. The fire was accidental and originated in a school.

Justice at Last.—Major Haller, we are informed, has received a telegram from Washington stating that the President has appointed a day for his trial. The Major will accordingly be on hand, and to this end will leave in a few days for the Capital.

One ranchman on Fidalgo Island has a thousand chickens on his place. This does not go very far towards verifying the sage prediction, made a few years ago, that the chicken crop in Washington Territory was a failure and would soon run itself out.

An item comes from Walla Walla which is doubting Thomases of the East should read. A farm of two hundred and forty acres, six miles from the city limits, was sold last week, for \$12,000, the whole tract, good, bad and indifferent, going at fifty dollars an acre.

If the "S. F. Cal" may be believed, Snohomish county is to have a large increase of its population by the advent of a colony from Kentucky numbering some 700 or 800 persons. Some of the colonists have already come and the main body are expected to follow in July.

The 26th inst. will be the sixtieth anniversary of the introduction of Old Fidelity in America. Grand Master Swan has authorized the several lodges to wear their regalia in public in the celebration of the day, and they are allowed to have their celebration on the 25th, 26th or 27th.

The Tugs Tacoma, and Galah, have engaged in a spirited opposition in the towing business. The latest report is that the captain of the Tacoma recently towed a vessel out to sea and not only did not charge anything for the service, but gave the towed ship a hat for the privilege of doing the work.

The fishermen of the Columbia river have organized and raised a fund to resist the late laws passed by this Territory and Oregon. The laws will result in good for the fishermen, cannerymen and every interest connected with the business, and only those who desire to imitate the example of the one who killed the goose that laid the golden egg will attempt to violate their provisions.—Courier.

GRAIN RAINING.—A citizen of Snohomish informs us that the farmers of Snohomish and Whatcom are turning their attention more to the raising of grain each year. Where two years ago only a few hundred bushels of wheat were raised, several thousand bushels were raised last year, and this year the amount will be increased to forty or fifty thousand bushels. The yield on the dyked lands is said to range from 50 to 60 bush. per acre, on the uplands from 25 to 40, and on the bottom from 35 to 50 bushels. The practice of fall sowing wheat is growing in favor, being found to result better, both in regard to yield and quality, than the Spring sowing, besides the economy of time.

Telegraphic Summary.

PARIS, March 11.—President Grévy, in receiving agricultural delegates, assured them that no treaty of commerce would be concluded until the chambers had come to a decision on the subject of commercial policy.

LAHORE, March 30.—Captain Landenan telegraphs that he was attacked at Bagham on the 24th by 2,000 Maltika. He routed them, killing 145. The British lost two killed and six wounded.

NASHVILLE, March 29.—Ex-Congressman H. Y. Riddle, suicided today by shooting himself through the head. Cause, insanity.

SAN FRANCISCO, March 29.—A. Roman & Co., publishers and book-sellers, have made an assignment to their creditors. A statement of affairs is not yet made public.

NEW YORK, March 31.—Jeff. Davis, in the interview formerly mentioned, said that he was very hopeful of the future of the country. He did not believe that there was any existing cause for sectional estrangement, or that there could be any hereafter. One of the results of the war, already apparent, is that the south is less dependent upon the north than heretofore. For while she will supply great staples as before, her people have begun to produce a greater variety of crops for their own use, and will eventually compete with other sections in manufactures and mechanical arts. He thought the condition of the black race all the worse by the abolition of slavery. He doubts very much the wisdom of an attempt to educate the negro, and utterly disbelieves in giving him the ballot. He said that he had changed his mind entirely upon one question, and now believed that the great staples of the South—cotton and sugar—could be produced with greater economy, and greater abundance, by paid labor than by the labor of slaves.

YELLOW FEVER IN WINTER.—In spite of midwinter cold cases of yellow fever are reported at New Orleans and Vicksburg. In some cases returned refugees entering houses that have been closed since summer are said to have taken the disease; in other instances the disease is attributed to the active disinterment of victims buried when the plague was at its height. In Mississippi and Tennessee physicians insist that if this dangerous work is not stopped a return of the epidemic may be expected in the spring; and in some cases the health commissioners have been compelled to forbid the removal of last summer's victims. Wealthy families, no doubt, find it painful to leave their dead in potter's fields, but personal feeling should not be suffered to endanger the entire community.
