

PUGET SOUND WEEKLY ARGUS SUPPLEMENT.

PORT TOWNSEND, WASHINGTON TERRITORY, JULY 18, 1878.

Local and News Items

FROM THE FRONT.—Each day fresh news arrives of the depredations being committed by the Bunlocks, Governors Ferry, of Washington Territory, and Chadwick, of Oregon, have gone to the front and are exerting themselves in every possible way. Meeting at Pendleton, they proceeded to Howard's headquarters and interviewed him regarding the best course to pursue. The Indians have attempted to cross the Columbia near Umatilla, but at present Gen. Howard's plans are based on the conviction that they have changed their course and will go to Salmon river. If they do the campaign bids fair to be a repetition of last year's work with the Nez Percés. All fighting over the Blue mountains is frequently stopped for more than a week at a time, and even stages have to travel under guard when they do venture out. Large quantities of stock are being killed; houses, towns and stations are being burned, while the poor defenceless settlers flee for their lives only to be overtaken in many instances by the scalping knife or tomahawk in the hands of a ruthless savage. Gen. Howard is doing all that could be expected with his force, and gives ample evidence of being "the right man in the right place."

FINE SINGING.—It is expected that a concert will be given in Port Townsend this evening, in which some of the most distinguished talent of Oregon will figure. The characters are four in number, forming a quartette of voices unsurpassed on the coast. They are as follows: Miss Emma J. Miller, the celebrated soprano singer of Oregon City; Mrs. D. B. Gray, of the same place, and Prof. Robb and Mr. Beck, with, both of Forest Grove. They have a number of engagements on the Sound, among which are included Seattle, Port Townsend, Port Gamble and Tacoma. Prof. Roberts, of this place, left for Seattle on Tuesday, by appointment, to join them.

CAPT. MOSE states that it is a false rumor that the steamer Olympia is chartered to carry the freight of the P. M. S. S. Co., from Victoria to Puget Sound, and that when any alteration in freight or fare takes place in the Pacific Mail Steamship Co., the information will be signed and countersigned by the proper officers of the company in authority.

AT DUNGENESS.—We learn that the celebration at Dungeness, on the 4th inst., was a very pleasant affair. A picnic was held, with a suitable programme of exercises; Mr. W. C. Garfield delivered the oration, and a ball was given in the evening.

JUDGE SWAN has advertised his collection of Indian curiosities for sale. Having seen them, we can recommend the opportunity, as a rare one, to any of our institutions of learning, or to private individuals wishing a collection of the kind.

The Methodists, of the place, have organized a full working committee force to accomplish their desire in getting up a novel public entertainment about the first of next month. It will occupy their earnest attention until then.

That new sidewalk is stretching itself along in front of the "Office" saloon, the People's market and Jas. Jones' stationery and notion stand.

We understand that Mr. Pickett, of Tacoma, will soon issue his new paper promised several months ago.

SEVERAL of our merchants have been receiving large lots of goods within the past week.

Mr. J. O. T. Noyes is still driving wells for the millions.

SPECIAL CORRESPONDENCE.

OUR PAUL PRY LETTER.

VICTORIA, V. I., July 15, 1878.

EDITOR ARGUS:—The city has been quiet the last week or more. Business very dull. But few strangers are noticed on the streets—not half the number there were last summer—the hard times, it is presumed, has kept them away. The few tourists making their appearance, take a trip on the California to Sitka, return and disappear. At this season of the year, and until October, a trip to Sitka is one of the pleasantest on the Pacific Coast. All who have made it confirm this, and dwell with ecstasy over the grand and gorgeous scenery on the route, and speak in high praise of the Steamship California, the good living, the kindness and attention of Capt. Thorne, and his officers, Senator Blaine's son, of Maine, and several other gentlemen from the East, as also a number of ladies, were passengers on her last trip.

STOCKS.

One hears but little about stocks, particularly about Cariboo stocks, and you can hardly get any one to admit having had anything to do with them. The two Stock Boards we hear, have been dissolved, their halls to rent, and the Secretary of one of them gone into the real estate business. Recently some of the quartz stock of Cariboo which had been purchased all the way long from \$1 to \$8 premium, and on which two assessments had been paid, sold at auction at 10 and 12 cents a share.

The latest from Cariboo, however, which came by telegraph, intimates that they are getting over their freight—that one or two quartz ledges have actually been discovered which yield from sixty to a hundred dollars per ton. This news has raised the depressed feelings of some, and is a very reliable morsel with those adhering to the belief that Cariboo will eventually turn out rich.

There is no news of importance from the gold regions on the island. Parties continue working on the banks of the Albern and San Juan rivers. All the prospecting parties have returned but one—researches amount to nothing—and the people are getting tired fitting out expeditions with the hopes of discovering bonanzas on the island.

SALMON.

Are running plentifully in the Fraser river, and the canning establishments are using up from 25,000 to 30,000 every 24 hours. The opinion is the present will be a profitable season on the Fraser, and that hardly enough will be caught next season to supply the natives on its banks.

COAL.

The amount of coal shipped during the last three months from this island to San Francisco was 42,438 tons—an increase over the preceding three months of some 4,000 tons. Freight on coal is now low—\$2.75 to \$3 per ton.

FURS.

And skins show some improvement as to the amount coming forward, but prices are ruling very low. Over \$54,000 worth were shipped from this port during the last three months.

THE OLYMPIA'S.

Arrival here was hailed by a host of friends. It is conceded she is one of the best-built steamers on the coast—able to stand any kind of weather—comfortable and more comfortable than any steamer that ever ran on the route—and everybody here are as much pleased as the Puget Sound people can be that she is to run regular twice a week between this port and Olympia.

ARRIVALS.

H. M. ship-of-war Opal arrived in Esquimalt harbor on the 10th inst. This is the third within a few weeks. Another, the Triumph, is expected shortly. The little Russian cruiser lying at San Francisco, has been the cause of much commotion and fear—but these arrivals, the completion of our fortifications, and the talk of concentrating the Indians of the Province at this point and arming them, dispels, in a measure, all fears and anxieties.

The American ships Fred. P. Litchfield, Capt. Spaulding, from China, and the Belle Morse, Capt. Hutchings, from Japan, arrived in Royal Roads on the 13th inst.—both in ballast, and seeking charter.

PAUL PRY.

"**CHEAP JOHN**" GOVERNMENT.—We are sorry to see a disposition toward demagoguism manifested by the members of the Constitutional Convention in fixing beggarly salaries to the State offices. The salary of Governor is fixed at \$1,500 a year; the medium salary of a commercial clerk, upon whom devolves no public responsibilities. A Governor who neglects the social obligations pertaining to the position would be regarded as a disgrace to the State; yet \$1,500 would not pay rent and support an ordinary family in decent style without indulging in any of the hospitable duties expected of the chief executive of the State. All experience has proved that the poorest and most expensive economy ever practiced by a State is in allowing only paltry pay for public services. Successful corporations and good business men never adopt that policy towards their business managers. The tendency is to encourage and connive at official peculation. As the Scotch clerk said: "It is nae the muckle wage, but the wee things to be picked up," which is the inducement to take such positions.—Seattle "Dispatch."

The sky, unlike man, is most cheerful when the bluest.

MISCELLANEOUS.

Pulverized borax in water will relieve the pain of a burn.

Vibulent cholera has broken out at Moma, Haiti. The mortality among the Europeans is very great.

A great drought prevails in Jamaica, cattle are suffering from scarcity of grass, and in some places all the ponds are dry.

Education has no creative power; it can merely unfold and direct the powers nature confers. It cannot make a poet of a horse, nor a writer of an ape.

If you are a wise man you will treat the world as the moon treats it. Show it only one side of yourself, seldom show yourself too much at a time, and let what you do show be calm, cool, and polished. But look at every side of the world.

At a festival of lawyers and editors, a lawyer gave a toast: "The Editor—he always obeys the calls of the devil." An editor responded: "The Editor and the Lawyer—the devil is satisfied with the copy of the former, but requires the original of the latter."

DEATH OF DR. AYER.—Dr. James C. Ayer, the celebrated patent-medicine proprietor, died at a private asylum in Massachusetts on the 4th of July, of softening of the brain, aged about 60 years. His estate is probably worth from fifteen to twenty millions.

The Nevada and Northern telegraph line, built a few years ago from Winnemucca to Walla Walla, connecting with the Portland lines, will probably be purchased by the government for the use of the war department. It runs by camp McDermitt, Silver City and Boise, thence through the principal towns of eastern Oregon, to the Columbia river.

TEMPORARY AGENT.—Fred. Cole, of Portland, has been given a temporary appointment as mail agent on the Puget Sound route and entered upon his official duties on Thursday, the Fourth of July. He will be employed on the Annie Stewart, and Mr. Moore on the North Pacific. His appointment is intended to continue only until an agent is regularly appointed, or probably until about the 1st of August.

SEND HIM AFTER THE BANNAKS.—Dr. Curver gave a shooting exhibition July 4th, at Deepfoot Park, Brooklyn, Col. Fletcher and Texas Jack, assisted him in loading. He broke 91 grass balls out of a hundred in seven minutes. He next shot several balls with one hand, breaking three out of five. He then fired 108 shots in three minutes and fifty-three seconds and broke 99 balls. He next shot at coins, lead-pencils and pieces of wool which were thrown up in the air and broke most of them.

TRUE, EVERY WORD OF IT.—The S. F. "Bulletin" says: "The Territory already far outstrips Nevada in population, and two or three years at the most will find it with a population considerably more than 100,000. It possesses all the elements for a great commonwealth, and in the course of a few years it will become one of the most prosperous divisions of the Pacific Coast. It abounds in timber, coal, iron, and other like sources of wealth. It has a large area of fertile land. Its rolling prairies at present afford pasturage for large herds of stock. There is more government land open to pre-emption in Washington Territory than elsewhere on the Pacific coast. It is therefore one of the most inviting fields for immigration in the Union."

THE FOURTH ON WHIDBY ISLAND.—The above day was celebrated in a very pleasant manner on the island. There was a general gathering of the people in a beautiful grove on Smith's Prairie, where the exercises of the day were held, consisting of the reading of the Declaration of Independence, by Major G. O. Haller, and an oration, delivered by Thomas Burke, Esq., of Seattle, which was not only highly entertaining but full of instruction and profit to all who heard it. These exercises were followed by a sumptuous repast and social enjoyment; the whole affair terminating with a trial of speed of a number of horses owned by the boys here. In the evening the usual ball was held at Coupville, which was largely attended. M.

MARRIED.—At the residence of the bride's parents, at Olympia, July 10th, by the Rev. D. Thomas, Mr. Herbert McMicken, son of Gen. Wm. McMicken and Miss Helen F. Parker, daughter of Capt. J. G. Parker of the steamer Messenger. The wedding was a very quiet one, and shortly after the ceremony the newly married couple started for Portland by way of Tacoma. The best wishes of a host of friends went with them.—"Courier."

Governor Ferry is at the front endeavoring to do all he can to protect our people from Indians attacks. His enemies are, in the meanwhile, losing no chance to injure him.—"Courier."

EDITORIAL NOTES.

Seattle has determined upon a steam fire engine.

The sale of the Fowler property will take place on the 6th of next month.

TOM MERRY has started a new paper at the Dalles, called the "Inland Empire."

There are 11,000 women employed as telegraph operators in Great Britain.

REV. D. W. MACFIE, of Seattle, will occupy the Presbyterian pulpit on Sunday next, morning and evening.

MR. WM. DAVIES has opened a tailor shop next door to the post-office, where he will execute work in his line to the satisfaction of all.

THE telegraph office has been removed to a room in Messrs. Rothschild and Co's store building, and is in charge of Mr. Llewellyn, of Seattle.

MARRIED.—In Duwamish Valley, June 7th, Stephen Collins and Mrs. Ann Gruver. On Whidby Island, July 5th, B. S. Baily, and Charlotte La Du.

LAST week the bark Martha Ride out came near going ashore on Tatoosh Rock, but a tug came in time to tow her out of danger, for which service she charged one thousand dollars.

The Portland people are much exercised over the order of the War Department removing military headquarters to Vancouver. The board of trade has forwarded a vigorous protest against the measure.

We have just received a comprehensive circular in pamphlet form, containing a complete price list of the wares of Messrs. Snider & Holmes, manufacturers and wholesale dealers in paper, St. Louis, Mo.

PROSPERITY.—A gentleman remarked a few days ago: "Port Townsend looks more like it was going ahead now than it has for years. That's just what's the matter, and it don't belie its looks by any means."

MR. Albert I. Smith, familiarly known as "boss" Smith, left San Francisco on the 14th inst. to take charge of the Port Discovery saw mill. It is expected that the mill will be in operation soon. The news will doubtless be welcome to many laborers.

It is easy to see why England and certain other European powers have taken so decided a stand in the settlement of the Eastern question. It is estimated that \$1,300,000,000 are due by Turkey, to the several Powers. England the most, but Russia nothing.

The canneries on the Columbia river are making but half time now. They run half a day after the morning catch is reported, if early enough, but if not then they run the following day. Such thing as was never before known in the history of the fisheries on the Columbia river.

We have received No. 12 of the "Musical Advocate," published at Altoona, Pa., by Messrs. Leslie & Mahafferty. Besides being a novel production, it has the merit of being immensely useful. It is to be published monthly, and is devoted exclusively to the interests of music. Price, 50 cents per year, in advance.

PUGET SOUND BUSINESS COLLEGE.—The "Intelligencer" says the new business, which was started at Seattle a few months ago, is prospering in a quiet way, having removed to Reing's Hall, which the proprietors have leased for a year, and added Prof. Gushee, teacher of book-keeping and penmanship, and Miss Lima Penfield, teacher of mathematics and preparatory studies, to their force of instructors. The school now numbers twenty-four pupils, and is steadily increasing.

TO THE CAPE.—The schooner Letitia, Capt. M. B. Clark, will start for Cape Flattery in a few days fully equipped for a three weeks' fishing voyage. Mr. C. E. Dodge, proprietor of the San Juan Packing Co., is sending her. His object is to take halibut from the banks in the vicinity of the Cape where they are reported so plentiful. Mr. Dodge was in town early this week, and says he is going on the schooner himself, and that he expects to get a cargo of these fish for his packing establishment, at a reduced cost compared with buying them from fishermen among the islands. He exhibits enterprise in making the experiment at least.

CONSTITUTIONAL CONVENTION.

EIGHTEENTH DAY.

On motion of Mr. Andrews the Convention went into committee of the whole on the article entitled "Legislative," with Mr. Stewart in the Chair.

NINETEENTH DAY.

Accepting the amendment fixing the pay of the members of the legislature, striking out "\$1 per day and inserting \$3 per day," the vote stood: Ayes—Andrews, Bradshaw, Dennison, Emery, Henry, Hanna, Larrabee, Lacy and Wait. Noes—Eldridge, Gilmore, George, O'Dell, Stewart and Mr. President.

After further amending the article it was adopted and ordered engrossed for its third reading.

Before engrossing for third reading Mr. Emery moved to strike out the following from section 8, which provoked considerable argument.

"In all elections of representatives, after such division, each qualified elector may cast as many votes for one candidate as there are representatives to be elected in the district, or he may distribute the same or equal parts thereof among the candidates as he shall see fit; and the candidates highest in votes shall be elected."

The vote to strike out stood as follows: Ayes—Bradshaw, Emery, George and Lacy. Noes—Andrews, Dennison, Eldridge, Gilmore, Henry, Hanna, Larrabee, O'Dell, Stewart, Wait and Mr. President.

The vote upon Mr. Eldridge's amendment inserting the following in section 8: "But the legislature may at any time after the year 1890, adopt the preferential system in the election of representatives, and enact such laws as may be necessary to carry it into effect." The vote resulted as follows:

Ayes—Andrews, Dennison, Eldridge, Gilmore, Henry, Hanna, Larrabee, Lacy, O'Dell, Wait and Mr. President. Noes—Bradshaw, Emery, George and Stewart.

After adopting the amendments as made, the convention took a recess until half-past one P. M.

AFTERNOON SESSION.

On motion of Mr. Hanna the convention resolved itself in a committee of the whole, on the article entitled "Administrative," with Mr. Henry in the Chair.

At half-past three, on motion of Larrabee, the committee of the whole rose and reported back to the convention its report.

On motion the article as amended, was adopted, and ordered engrossed for its third reading.

On motion of Mr. Larrabee the convention went into a committee of the whole on the article entitled "Officers," with Mr. Eldridge in the Chair.

TWENTIETH DAY.

On motion of Mr. O'Dell the convention resolved itself into a committee of the whole, and resumed consideration of the article entitled "Officers."

TWENTY-FIRST DAY.

On motion the convention resolved itself into a committee of the whole on the article entitled "Judiciary." The first section of the article was amended so as to read as follows: "The court for trial of impeachment shall be composed of the senate. The house of representatives shall have the power of impeaching all civil officers of the state for corrupt conduct in office, or for crimes and misdemeanors; but a majority of all the members elected shall concur in an impeachment. On trial of an impeachment against the governor, the chief justice of the supreme court shall preside. No judicial officer shall exercise his office after he shall be impeached until his acquittal. Before the trial of an impeachment, the members of the court shall take an oath or affirmation, truly and impartially to try the impeachment according to evidence; and no person shall be convicted without the concurrence of two-thirds of the members elected. Judgment in cases of impeachment, shall not extend further than removal from office, or removal from office and disqualification to hold any office of honor, profit or trust under the state; but this shall not prevent the officer from being prosecuted, tried and punished in the courts according to law."

The second section was amended so as to give to the supreme court "a general superintending control over all the inferior courts, under such regulations and limitations as may be prescribed by law."

The first part of section four reads: "For the term of four years, and thereafter, until the legislature shall otherwise provide, the judges of the several circuit courts shall be ex-officio judges of the supreme court."

This leaves the supreme court in the same condition as it was before.

All the members of the committee who reported this article, stated that they were unanimously in favor of a separate supreme court, but thought they would not be warranted at the present time in embodying it in the constitution.

This stand-point was taken on an economical basis, and after argument the committee refused to amend so as to make a separate supreme court.

Section eight reads: "In all cases submitted in the supreme court, and in all cases tried by the circuit courts without a jury, the judgment or decree shall be entered at the same term at which the causes are submitted."

DANGEROUS ROCK.—A few days ago a submerged rock was discovered by the surveying party of Capt. Cutts, near Evan Point, just above the narrows, which has probably been passed over by every steamer that runs on the upper Sound. The rock is in sixteen feet of water, within about 100 feet of the shore line (low water) and at extreme low tide is covered with only about three feet of water. It is not known to any captain on the Sound, we believe, and it is a marvel that no boat has been wrecked upon it. The report of its discovery almost cost the breath of some of the steamboat captains, as they thought how serenely they had been skimming over it.—Tacoma Herald.

THE QUILLYHUTE COUNTRY.

Mrs. Stuart, Chairman of the Board of Immigration, has received a letter from a settler, containing the following truthful description of the Quillyhute valley: QUILLYHUTE, CLALLAM CO., W. T., June 15, 1878.

MADAME:—We have a population of 25 in this valley. We are not known to the outside world and I want to let it be known that we have a beautiful country, splendid timber, a few prairies, and deep, rich soil. The prairies are like a flower garden. Grain, hay, vegetables and fruit do well here. Native grasses and ferns grow 6 to 8 feet high. There is some bottom land, covered with vine maple and alder; also, heavy timber land untouched; plenty of good water power. This is called a wet country but it has rained but little since May 1st, and yet crops are not suffering. No snow the past two winters, except at Mount Olympic—at a safe distance. I came to Washington territory in 1876, and liked it so well, I sent for my wife and eight children, and three men with their families have followed me. There is a good chance for a large steam saw mill at the mouth of the river and abundance of fir timber up the stream—enough to wear out two of the largest mills on the Sound. Also a salmon cannery could do a good business here, as the streams abound with fish. Game is abundant. Two kinds of bear, wildcats, deer and elk. Settlers get all the wild meat they want. Beaver and otter fishing and on the coast sea otter and seal. Gold has been taken out in several places. Scientific men would do well to explore this wilderness, 40 by 60 miles. It abounds with materials of wealth. I cannot tell it all; it must be seen to be appreciated.

Yours, respectfully, A. J. SMITH.

The most monstrous grasshopper we have ever seen is on exhibition at the office of F. M. West, County Treasurer. It is preserved in alcohol, and was captured some time since near Copperopolis. It is nearly six inches long and its body is an inch and a quarter in depth, while its head is as big as a man's thumb. The wings when spread must have measured ten inches from tip to tip. The legs are as large as a lead pencil at the body, and about four or five inches long. The enormous body is quite translucent and its ribs can be distinctly seen. An army of that species would eat up a quarter section of wheat as slick as a whistle in five minutes.—Stockton "Independent."

Whole fields of corn are being destroyed in Los Angeles county, Cal., by caterpillars, cut and wire worms.

LOCAL NOTICES.

Stereoscopic views of all important points of Puget Sound and California, for sale at Jas. Jones'.

Go to Waterman & Katz for the best carpets, at reasonable prices.

Go to Jas. Jones for all kinds of suit; Corner Custom House.

Blank deeds, mortgages, bills of sale, etc. for sale at Jas. Jones' corner custom house building.

Two first-class sewing machines, a Wilson and a Singer. N.W. for sale. Apply at the ABBE'S office.

RELIGIOUS NOTICES.

Services will be held in St. Paul's church on Sunday next at 11 A. M. and 7 P. M. Sunday school at 2 P. M. Evening prayer on Wednesday, at 7 o'clock. Litany on Friday morning, at 10. The ladies will meet as usual on Thursday evening at 7 o'clock, at the residence of the Rectory. There will be preaching in the M. E. church on Sunday next, morning and evening, by Rev. John Parsons, the pastor. Sunday school at 2 1/2 P. M. Prayer meeting on Tuesday evenings.

HOW'S YOUR LIVER?

If the skin be yellow and muddy, the bowels constipated; if you have ringing in your ears, dull pains in the side, sick headache, sour stomach, hot or dry skin, spots before the eyes, bad taste in the mouth, cold feet and hands, sleepiness, giddiness, loss of appetite, bad circulation of the blood, swelled limbs, &c., you may safely conclude your liver is out of order. The liver is more apt to become disordered than any other organ of the body, as its duty is to filter the purities from the blood. When it becomes weak, obstructed and diseased it must fail to do its duty, and the whole body suffers. Try White's Prairie Flower, the greatest known liver purifier in the world. Sample bottle 25 cents, large size 75 cents. For sale everywhere.

U. S. Marine Hospital.

PORT TOWNSEND, W. T.

ANY SICK SAILOR WHO HAS PAID Hospital dues for two months preceding his application for admission, is entitled to Hospital relief.

Port Townsend Hospital.

The above institution having been placed on a permanent footing, as the United States Hospital for Marine Patients on Puget Sound, the proprietor takes pleasure in announcing that no pains or expense will be spared in ministering to the comfort and convenience of private patients.

This is the largest General Hospital north of San Francisco, and by far the most complete in equipment. It has been thoroughly refitted and refurnished. Its general wards have accommodations for about one hundred patients and are peculiarly adapted for cases requiring the most careful treatment and constant supervision at limited expense. Those who desire them will be furnished with private rooms, entirely separate and distinct, at a slight additional cost.

The attention of Mill owners, and those interested in shipping, is called to the fact that seamen suffering from contagious diseases will be treated outside the Hospital without expense to the vessel.

THOMAS T. MIXOR, M. D., Managing Surgeon.

26-1/2

CONSUMPTION CURED.

An old physician retired from active practice, having had placed in his hands by an East Indian missionary the formula of a simple vegetable remedy for the speedy and permanent cure of Consumption, Bronchitis, Catarrh, Asthma, and all Throat and Lung affections, also a positive and radical cure for General Debility and all nervous complaints, after having thoroughly tested its wonderful curative powers in thousands of cases, feels it his duty to make it known to his suffering fellows. The recipe will be sent free of charge to all who desire it, with full directions for procuring and successfully using. Address with stamp naming this paper.

Dr. M. E. Bell, No. 68 Courtland St., BALTIMORE, MD.

\$60 a week in your own town. \$5 outfit free. No risk. Reader, if you want a business at which persons of either sex can make great pay all the time they work, write for particulars to H. Hallett & Co., Portland, Maine.

C. D. GILMORE, A. A. THOMAS, Late Register at Kirwin, Kansas.

Gilmore & Co.,

629 F st, WASHINGTON, D. C.

WILL PRACTICE BEFORE THE General Land Office, office of Indian Affairs, Department of the Interior, the Court of Claims, and United States Supreme Court. Claims of all kinds arising under laws governing the disposal of public land, or the adjustment of French, Spanish, and Mexican grants, or other private land claims. Special attention given to cases involving titles to grant lands and mining claims. Land warrants and land scrip bought. Cash paid for soldiers' addition homestead rights. Send stamp for circular of instructions. Three stamps to pay postage if you want full set of blanks and instructions.

This liniment very naturally originated in America, where Nature provides in her laboratory such surprising antidotes for the maladies of her children. Its fame has been spreading for 25 years, until now it encircles the habitable globe.

The Mexican Mustang Liniment is a matchless remedy for all external ailments of man and beast. To stock owners and farmers it is invaluable. A single bottle often saves a human life or restores the usefulness of an excellent horse, cow, or sheep.

It cures foot-rot, hoof-ail, hollow horn, grub, scree-worm, shoulder-rot, mange, the bites and stings of venomous reptiles and insects, and every such drawback to stock breeding and husbandry. It cures every external trouble of horses, such as lameness, scratches, swinny, sprains, founder, wind-gall, ring-bone, etc., etc.

The Mexican Mustang Liniment is the quickest cure in the world for accidents occurring in the family, in the absence of a physician, such as burns, scalds, sprains, cuts, etc., and for rheumatism, and stiffness engendered by exposure. Particularly valuable to miners.

It is the cheapest remedy in the world, for it penetrates the muscle to the bone, and a single application is generally sufficient to cure.

Mexican Mustang Liniment is put up in three sizes of bottles, the larger ones being proportionately much the cheapest. Sold every where.
