

PUGET SOUND WEEKLY ARGUS SUPPLEMENT.

PORT TOWNSEND, WASHINGTON TERRITORY, AUGUST 1, 1878.

Local and News Items

Some little curiosity was aroused among our people this week by the appearance of a Chinese junk in the harbor. The vessel in question was built at Puyallup and belongs to Mr. Landes, of the firm of Rothschild & Co., of this place. She will be used in fishing among the islands. She is 45.7 ft. long, 13.5 ft wide, and measures 17.45 tons. Her papers show that she was built by Fong Chu, who is master, for Messrs. Kong-ti & Co., of Tacoma. Her name, the Tacoma, seems out of place. Mr. Reel, of this place, goes in her as flag captain.

At a regular meeting of Lafayette Lodge of Perfection No. 3, A. & A. S. R. Masons, held at their Hall on the 27th ult., the following persons were elected officers of said Lodge for the ensuing Masonic term of three years: G. O. Haller, T. P. G. Master; Thomas T. Minor, E. S. G. Warden; Robt. C. Hill, E. J. G. Warden; Oliver F. Gerrish, Or.; Chas. C. Bartlett, Almoner; J. A. Kuhn, Sect., and D. C. H. Rothschild, Treasurer. The officers elect will be installed by Ill. James S. Lawson, 33 deg., S. G. I. G., on Saturday evening the 3d inst. All members of the Scottish Rite are fraternally invited.

The ship Ericsson, which arrived at this port, from San Francisco, on Sunday last, was built at New York in 1852 and is named after the famous inventor and experimenter of that name. She is 1,645 tons register and was run for some time, unsuccessfully, on the "not air" system, as a steamer.

We understand the North Pacific is being repaired preparatory to going on the route between Victoria and Olympia in opposition to the steamer Olympia now running. The North Pacific is a staunch boat and will make things fly when she gets in motion.

AND now Judge Walton comes to the front and gives his opinion, strengthened by years of research, that the State of Oregon derived its name from O'Regan, the famous Irish exile who landed at the mouth of the Columbia about a hundred and fifty years ago.

A CALIFORNIA law forbids the purchase of bricks, made by Chinamen, for public buildings, although they are much cheaper than others. This law, however, proves as susceptible of abuse as many others, as the contractors slyly purchase their brick from Chinamen.

LEGAL blanks of nearly every kind, including powers of attorney, mortgages, bills of sale, marine protests, subpoenas, declaratory statements for pre-empting land, etc., constantly on hand at the ARGUS office.

MR. CARLTON, of the North Pacific Cheese Factory employ, informs us that it is the intention of the company hereafter to make their cases down here and haul the cheese here before packing it ready for shipping.

ON Sunday evening next Rev. John Parsons will preach at Port Ludlow. There will be no services in the M. E. church here in the morning; in the evening there will be a praise meeting, to which all are cordially invited.

THE latest sign out is one on the front of Mr. Jas. Salley's hat. Mr. Salley is proprietor of the Port Discovery stage line, and has himself labeled for the convenience of the public.

MR. A. W. DELANY, of the Seattle "Dispatch," has dissolved all connection with the firm of Beriah Brown & Co. The proprietorship of the "Dispatch" reverts to Messrs. Brown & Son.

MESSRS. Tokus & Singerman, of Seattle, think if you will kindly turn the paper upside down this week it will not be necessary to stand on your head to read their advertisement.

WE are indebted to Hon. C. M. Bradshaw, of this place, and Col. C. H. Larrabee, members of the Constitutional Convention, for favors extended.

PROF. Palmer, music teacher and piano tuner, of Victoria, visited our town within the past few days while on a tour among Sound ports.

WE are informed reliably that the army worms are not doing nearly as much damage to crops in Dungeness as was anticipated.

MARRIED.—In this city, on Sunday, July 28th, by Rev. Jas. Agnew, Mr. T. N. Stuart to Miss Annie Frost.

A MISTAKE occurred in our item in reference to Dr. Wejsh. That gentleman is to be here on Monday next.

SHERIFF BILLINGS, of Thurston County, came down to this place on Tuesday and returned yesterday, being after Territorial prisoners, lodged here, among whom were Foller, Delany and Indian Tawes. Sheriff Miller, of this place, refused to deliver up the prisoners without an order to do so from Judge Lewis, consequently they are here still.

ON the 30th ult., the ship Annibal Pinto, from Caldera, Chili, and the bktn. Quickstep, from San Francisco, arrived. They are both consigned to Messrs. Rothschild & Co.

SINCE inserting an item stating that Mr. C. J. Huntington had gone to Port Gamble, we have been informed that he has put off going until Saturday.

MARRIED.—In this city, July 13th, by Rev. Jas. Agnew, Mr. J. J. Hunt to Mrs. Louisa Weston, all of Jefferson County.

The steamer California left Portland for Alaska, via Port Townsend, on the 30th ult., at 4 A. M.

BORN.—In Seattle, July 21st, to the wife of Thos. Prosch, publisher of the "Tribune," a daughter.

WE learn that a wedding is on the tapis at Port Angeles and also one at Dungeness.

CAPT. STARR has the contract to carry the mail between Victoria and Port Townsend.

OLYMPIA has her railroad, and is happy.

FROM PORT DISCOVERY.

EDITOR ARGUS:—The joyful sound has again sent forth its welcome notes to gladden the hearts of the hardy sons of toil who have for months past been anxious to hear the shrill whistle of the Port Discovery mill.

Everything is being put in order by the efficient and skillful hand of the "Boss," Mr. A. I. Smith, whose name alone is sufficient to guarantee success to the mill company.

Many a one, especially on the lower Sound, will be pleased to know that the Port Discovery mill has steamed up. Long may it run with profit to its owners and benefit to the country will be the good wishes of all.

The "Sun" says: It is whispered that Mrs. Tilton will lecture and will receive a large amount per night. The subject is said to be, "Woman's Fall."

There is a greater rush than usual this summer to Yaquina bay, by people seeking summer recreation.

EX-Governor George L. Curry, of Oregon, aged 58 years and 25 days, died at Portland July 28th.

The republican territorial convention will consist of 75 delegates.

EDITORIAL NOTES.

Pork is lower in Iowa than it has been for eighteen years.

Mr O. A. Carr, recently from California, says that the wheat crop down there will be good this year.

A project is on foot for the construction of a narrow-gauge railroad from Sumas, B. C., to Bellingham Bay, W. T.

The Democratic leaders in this Territory are completely out of sorts this year because the Republicans will not make the initial move.

Lord Dufferin has made numerous notes in the course of his travels in the Dominion and States, and a work based on these will soon appear.

Gen. Sherman's oldest son, a youth of 22, has just sailed for England with the intention of entering there the novitiate of the Society of Jesus.

The Olympia and Tenio R. R. Co. and the N. P. R. R. Agent at Tacoma are already reciprocating favors in a way indicative of harmonious working.

Judge Jacobs states that the charges preferred against Gov. Ferry will have to be substantiated by much better proof than had been furnished before he left to have the effect to an investigation.

The Victoria and Vancouver Island people generally are getting very much exercised over the subject of a transcontinental railway, and the apparent neglect on the part of the Ottawa Government of their necessities and claims.

The latest howl has been raised over the "crookedness" of an Indian Agent named Livingstone, located in Dakota Territory. The S. F. "Chronicle," with its usual ultra ideas, think it is now warranted in calling Indian agents generally a pack of thieves.

After the 1st day of September next the present bankrupt law will cease to exist, except for the purpose of completing proceedings already commenced. Up to that period, however, petitions may be filed and proceedings conducted to a conclusion under the present act.

The problem of aerial navigation has at last been solved. Prof. Rich- tets, of Hartford Conn., has constructed an air ship with which he successfully experimented before a large number of spectators, on the 12th of last month. Just what practical advantage the new triumph will be turned to remains to be seen.

A writer in the Victoria "Standard" suggests that the \$54,000 expended in compensation for the Pacific Mail Co's tri monthly mail from San Francisco to Victoria be expended in procuring daily mail service between the latter place and Port Townsend. We question the advisability of the move no matter how much greater the accommodation to both Victoria and Puget Sound people.

The Pacific Mail Steamship Com- pany has brought suit, in the United States Circuit Court at San Francisco, against Pierre B. Cornwall to recover \$25,000 damages for alleged breach of contract. In May last the company sold to the defendant the steamer Great Republic, with the understanding that a forfeit should be paid of \$25,000 if it was run to any of the ports which the plaintiff's steamers called at. This agreement is said to have been violated, and the forfeit is claimed.

BEECHER COMING.—Mr. Pratt, the advance agent for Henry Ward Beecher, has been making arrange- ments in San Francisco for a course of lectures to be delivered in that city by the eminent and notorious divine. The Portland "Bee" says Mr. Beecher has, in response to inquiries by a prominent individual in that city, announced his intention to visit Oregon before returning East. Wonder if he could not be induced to come over to the Sound too? It is by no means impracticable.

We acknowledge a call this week from Judge S. C. Wingard, of Walla Walla. The Judge looks hale and hearty, and says he has greatly enjoyed a trip to this place, reviving old acquaintances and appreciating our bracing mountain air, scenery, &c. He says the great need of the people living east of the mountains is railroad communication with the Sound, it being their natural outlet; and that when the people of the two sections unite upon this important issue the ability to interchange commodities will unite them in a closer bond of fellowship and greatly en- hance the prosperity of all.

CONDENSED ITEMS.

The Alaska, one of the largest seal ves- sels ever in the Sound, has gone into the coal trade and now lies in Seattle taking in cargo.

Austin A. Bell, formerly of the "Dis- patch," has just returned to Seattle from the Sandwich Islands, where he has been spending several months.

On and after August 1st, regular trains will run twice a day from Olympia to Tenino, making close connections with the trains of the N. P. R. R., both morning and evening.

There is music in the air for another political campaign is upon us, and what few newspapers that are not already set down as organs will be denounced as lyres. —"Dispatch."

John Ostrander, of Olympia, and Ed- ward Whitson, of Yakima, were admitted to practice at the bar in Washington Terri- tory during the recent session of the Su- preme Court.

Dr. Rufus Willard returned from Cali- fornia, on the Dakota, last trip. He had been spending a month in examining the asylums for the insane in Oregon and California and in a tour of general obser- vation.

The Seattle Coal and Transportation Company have purchased the ship Great Western, now loading at New York for San Francisco. The ship Templar, also loading at New York for San Francisco, has been sold to the same parties.

A large number of leading citizens of Portland responded liberally to the sub- scription for equipping and otherwise de- veloping the expenses of volunteers to de- fend the citizens of Eastern Oregon against the hostile Indians.

R. G. Dunn & Co's Mercantile Agency, of San Francisco, in its recently published semi-annual circular shows that the num- ber of failures in the United States for the first six months of 1878 are greatly in ex- cess of those for a corresponding period in 1877, and of the two preceding years.

Secretary McCreary has issued an im- portant order to his department which will save the Government a good deal of expense. He directed that the per diem allowance to traveling agents be reduced to \$2.50 a day and the payment of parlor car fares be prohibited.

The famine in China is reported by the missionaries to be now at its worst. In the province of Shensi it has carried off about 150,000, and it is estimated that in all 5,000,000 have perished. In the struggle for life the stronger attack and devour the weaker. The government and the missionaries are doing all possible with the means at their command to relieve the sufferers.

The movement against the agricultural machinery is reaching such proportions in Ohio and Indiana as to seriously alarm the farmers. Scores of reaping machines have already been destroyed, and every day brings reports of fresh depredations. On other machines notices have been posted threatening their destruction if the owners do not pay them as and employ men to cut their grain. Many are yield- ing and discarding their machines. Those who have traveled in the rural districts of Indiana during the past week say that a very large proportion of the fields of wheat in the State are being cut by hand. Farmers have posted notices of warning on their lands, and are taking means for protection of their property at night. If the destruction of machines goes on, heroic measures will be adopted soon in many localities. The supply of labor is not equal to the demand.

NOTINGS.—Decrease of imports this year, \$40,500,000. Illinois has 41,000 square miles of coal beds. Gold fields have been discovered in South India. Rich lead mines struck near Little Rock, Arkansas. There are over 30,000 post-offices in the United States. Very few imported carpets are now sold in this country. America spends annually for strong drinks \$700,000,000. China is now one of the first coal countries in the world. Japan cultivates 9,000,000 acres, one fourth of her fertile area. Colorado up to January 1st, 1878, has produced \$72,000,000 in gold and silver. The Pacific Coast mineral exhibit at Paris is said to embrace fourteen thousand specimens.

The inspector and the engineer of this lighthouse district visited Point Wilson, Puget Sound and Tillamook Head, coast of Oregon, during last week, and jointly selected sites for a light and fog signal at the former place and a lighthouse at the latter. Their report will be at once forward- ed to Washington.—"Bee."

Mr. Ross says it has cost him eighty thousand dollars to find his lost Charlie. A good many men would gladly sell all their boys for half the money.

The Dayton (W. T.) woolen mills are turning out blankets by the hun- dreds, all of a superior quality and at prices defying competition suc- cessfully.

IF ANY DEALER INFORMS You that he has a dentifrice identical with or containing ingredients equally or super- ior in efficacy to those of SOZODONT, discredit the statement and insist upon having that alone. By doing so you will secure a dentifrice par excellence the best in the market, containing botanic ele- ments of rare preservative influence upon the teeth, and one which will endow them with most becoming whiteness. Another desirable feature of this stable toilet article is that it imparts fragrance to the breath. Sold by the druggists.

The Greenbackers.

Signs are not wanting to show that the labor and greenback party will ere long begin to exercise an important influence in national politics. The coalition recently formed between the extreme advocates of paper money and those who champion the cause of manual labor against all other forms of human industry is as remarkable as it is original. In the writings of almost every political econo- mist a paper currency has been denounced as the most powerful engine in the hands of a rich governing class for the oppres- sion and still further impoverishment of their poorer neighbors, and this view was until lately adopted and enlarged upon in every popular exposition of the wrongs of the workingman. Now all is changed. Men like General Butler, who aspire to the leadership of the Workingmen's movement for political control, throw to the winds all the principles which have hitherto been admitted and advocate im- mense issues of paper money as a means of bettering the condition of the toilers for daily wages. Wendell Phillips, who is nothing if not a champion of free labor, lends all his eloquence to the same cause, and with a vigor which recalls his early efforts in the anti-slavery crusade, cries out for more greenbacks as the only salu- tion of the country in general and the Re- publican party in particular. More greenbacks is evidently to be the rallying cry of the new party, and it is held out as a specious bait to a class of voters who cannot be expected to understand the sub- tle processes by which a depreciated cur- rency always acts as a robbery of the poor, and they are simply led to hope, contrary to all experience, that in a multiplication of paper issues their own small means will be increased. It is unfortunate that just when the national finances are approach- ing a satisfactory basis, when a paper dol- lar is within a fraction of being worth a gold dollar, an element of disturbance should be introduced to the detriment of every interest and particularly to that of the workingmen themselves.

Daniel Sturgeon, who died at Union- town, Pa., Wednesday week, served in the United States Senate with Clay, Web- ster, Calhoun, Benton and Wright during the Administration of Presidents Harrison, Tyler and Polk. He held several State offices in Pennsylvania, and was Treasurer of the United States mint at Philadelphia, in 1853.

For a man to say that he can never change his opinion, is either to imply that he is too obstinate to be taught by expe- rience, or that he claims infallibility.

LOCAL NOTICES.

Stereoscopic views of all important points of Puget Sound and California, for sale at Jas. Jones'.

Go to Waterman & Katz for the best carpets, at reasonable prices.

Go to Jas. Jones for all kinds of mill; Corner Custom House.

Blank deeds, mortgages, bills of sale, etc. for sale at Jas. Jones' corner custom house building.

Two first-class sewing machines, a Wilson and a Singer, NEW, for sale. Apply at the ABBUS office.

CONSUMPTION CURED.

An old physician retired from active practice, having had placed in his hands by an East Indian missionary the formula of a sim- ple vegetable remedy for the speedy and per- manent cure of Consumption, Bronchitis, Catarrh, Asthma, and all Throat and Lung affections, also a positive and radical cure for General Debility and all nervous complaints, after having thoroughly tested his wonderful curative powers in thousands of cases, feels it his duty to make it known to his suffering fellow-men. The recipe will be sent free of charge to all who desire it, with full directions for procuring and successfully using. Address with stamp naming this paper.

Dr. M. E. Bell, No. 68 Courtland St., BALTIMORE, MD.

HOW'S YOUR LIVER?

If the skin be yellow and muddy, the bowels constipated; if you have ringing in your ears, dull pains in the side, sick headache, sour stomach, hot or dry skin, spots before the eyes, bad taste in the mouth, cold feet and hands, sleepiness, giddiness, loss of appetite, bad circulation of the blood, swollen limbs, &c., you may safely conclude your liver is out of order. The liver is more apt to become disordered than any other organ of the body, as its duty is to filter the poisons from the blood when it becomes weak, obstructed and diseased it must fail to do its duty, and the whole body suffers. Try White's Prairie Flower, the greatest known liver purifier in the world. Sample bottle 25 cents, large size 75 cents. For sale every- where.

U. S. Marine Hospital. PORT TOWNSEND, W. T.

ANY SICK SAILOR WHO HAS PAID Hospital dues for two months pre- viously, and has application for admission, is entitled to Hospital relief.

Port Townsend Hospital. The above institution having been placed upon a permanent footing, as the United States Hospital for Marine Patients, on Puget Sound, the proprietor takes pleasure in announcing that no pains or expense will be spared in administering to the comfort and convenience of patients.

This is the largest general Hospital north of San Francisco, and by far the most complete in equipment. It has been thoroughly re-fitted and re-furnished. Its general wards have accommodations for about one hundred patients and are particularly adapted for cases requiring the most careful treatment and constant supervision at limited expense. Those who desire them will be furnished with private rooms, entirely separate and distinct, at a slight additional cost.

The attention of Mill owners, and those interested in shipping, is called to the fact that semen suffering from conta- gious diseases will be treated outside the Hospital without expense to the vessel.

THOMAS T. MINOR, M. D., Managing Surgeon.

JOHN P. PETERSON Merchant Tailor, Gents' and Boys' Fashionable Suits.

IS PREPARED TO MAKE UP GENTS' Clothing according to the latest fashions. Special attention paid to re- pairing and cleaning. Terms moderate. Has constantly on hand a lot of fine French Cloths and Cassimeres, Oregon and Mission Cassimeres, from which parties can select for themselves.

Parties wishing to buy the best Sewing Machine should call on John P. Peterson, Port Townsend, and examine the New White. Mr. Peterson will be pleased to show all about the machine and give full instructions free. Every machine war- ranted to please.

JOHN P. PETERSON, Agent, Port Townsend. SAM'L HILL, 19 Montgomery st., San Francisco, Gen Ag't Pacific coast

OLD, TRIED, AND TRUE.

People are getting acquainted—and those who are not ought to be—with the wonderful merits of that great American Remedy, the

MEXICAN Mustang Liniment,

FOR MAN AND BEAST.

This liniment very naturally originated in America, where Nature provides in her laboratory such surprising antidotes for the maladies of her children. Its fame has been spreading for 35 years, until now it encircles the habitable globe.

The Mexican Mustang Liniment is a matchless remedy for all external ailments of man and beast. To stock owners and farmers it is invaluable. A single bottle often saves a human life or restores the usefulness of an excellent horse, ox, cow, or sheep.

It cures foot-rot, hoof-ail, hollow horn, grub, scraw-worm, shoulder rot, mange, the bites and stings of poisonous reptiles and insects, and every such drawback to stock breeding and bush life.

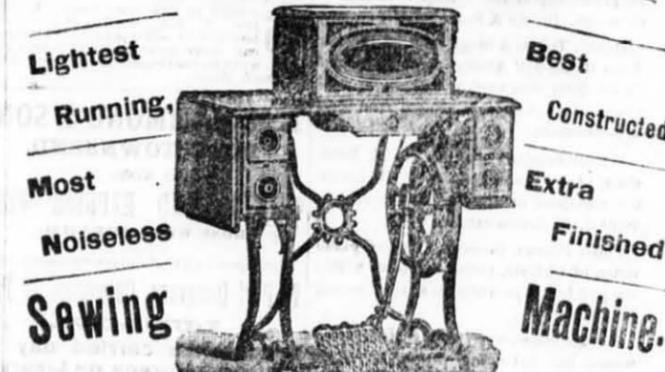

It cures every external trouble of horses, such as lameness, scratches, swelling, sprains, founder, wind mill, ring bone, etc., etc.

The Mexican Mustang Liniment is the quickest cure in the world for accidents occurring in the family, in the absence of a physician, such as burns, scalds, sprains, cuts, etc., and for rheumatism, and all stiffness engendered by exposure. Par- ticularly valuable to miners.

It is the cheapest remedy in the world, for it penetrates the muscles to the bone, and a single application is generally sufficient to cure.

Mexican Mustang Liniment is put up in three sizes of bottles, the larger ones being proportion- ately much the cheapest. Sold everywhere.

THE VICTOR NEW
