EDITORIAL NOTES.

TOM Merry, of the "Island Em-
pire," Ogn., says the climate of Or-
egon is favorable for growth of the
brain. How fortunate for him!

ONE of our Clallam County friends
says that there are two kinds of peo-
ple in his section—one kind that
pay taxes, and another kind that
gobble up the money paid in.

THE "Experiment" devotes about
half its space to items laudatory of
itself. Such a course will do well
enough for a change; but then you
know, "enough is as good as a feast,"
e.c. Remember the picture recent-
ly drawn by you of the horrible suf-
ferings of the Seattle people from
public talkers. Don't "run things in
the ground."

OUR readers will remember that
a few weeks ago an item appeared
in the Seattle "Intelligencer," rela-
tive to the Dungeness-light house
and its keepers. The item was in-
serted at the instance, and upon the
authority of a sea captain who im-
agined that he had discovered a pal-
pable neglect of duty on the part of
the above-named keepers. Seeing
at once that the publication was cal-
culated to work an injustice to the
keepers in question, and feeling cer-
tain from previous acquaintance with
them that there must have been a
mistake about the matter, we took it
up and suggested the advisability of
ascertaining positively before pas-
sing any comments. In the mean-
time, Capt. Frank Tucker, head
keeper of the light, sent us an ex-
planatory letter which arrived too
late for publication in our succeed-
ing issue, and was overlooked last
week. The Capt., however, sent a
similar letter to another paper, which
evidently came through the mail,
and arrived sooner, as it was pub-
lished that week. Our Seattle con-
temporary then very properly pub-
lished all that could be gleaned in
favor of the light keepers. The sub-
stance of the whole thing seems to
be that in order to economize fuel
and water during the prolonged spell
of foggy weather which prevailed in
the months of August and Sep-
tember, and to keep the fog whistle
in repair, it was necessary to stop
the whistle occasionally, for a few
hours at a time, for repairs. When-
ever the whistle was inactive, how-
ever, the old fog bell, used before
the whistle was erected, would be
set in motion. It was during one of
these intermissions that the Baring
Brothers passed by, and a careful
examination of the facts proves the
light keepers to have been strictly
obeying orders from the Department
at the time. All that particularly
interests Capt. Tucker in connection
with the affair is to know the reason
why the Captain of that vessel, if he
saw the light and heard the bell,
wanted to hear the whistle a so?

Telegraphic Summary.

DENVER, Oct. 4.—Revised returns from
21 counties increase Belford's majority
over Patterson (Dem.) for congress to 2-
745. Pitkin's majority over Loveland for
governor is 2,500. Counties yet to be
reported will probably increase the aver-
age Republican majority in the state to
3,000.

WHEELING, W. Va., Oct. 9.—Returns
so far as received up to this hour indicate
that Hubbard (Rep.) for congress, carries
this county by about 400 majority. This
will leave Wilson's (Dem.) majority very
small in the district. Three out of four of
the legislators are Republicans. This
county has heretofore been solidly Democ-
ratic.

COLUMBUS, Oct. 9.—The Republican
State central committee claim nine con-
gressmen—Townsend, Garfield, Updegraff,
Monroe, Keifer, Neal, McKinley, Young
and Butterworth. But little attention
has been given to the state ticket majority,
but if the aggregate keeps up to the end
as it has begun there will probably be from
7,000 to 10,000 majority. The Democrat-
ic state central committee claim 11 con-
gressmen certain—McMahon, LeFevre,
Hall, Hurd, Finlay, Converse, Ewing,
Dickey, Alberton, Giddes, and Warner.
They give the state to the Republicans.

NEWARK, N. J., Oct. 8.—The Republi-
cans carry the city by 2,700 over the Democ-
rats. The total vote is 8,600 Republi-
can, 5,900 Democratic, and 2,900 Green-
back. The Republicans carry 13 of the
15 wards on the city ticket, and elect 11 of
the alderman.

BURLINGTON, Oct. 9.—Returns are com-
ing in slowly on account of storms, but
almost invariably show Republicans gains
over last year. Iowa elects a solid Re-
publican delegation to Congress.

THE publishers of the daily papers in
Seattle have "pooled their issues," con-
solidating two of them into one, and car-
rying on the other as an evening edition—
at least information on seeming good au-
thority comes to us to this effect. A move
to transfer the Port Townsend "Press"
to Seattle, is also talked about. Still an-
other paper is to be started there. At one
time Olympia had a monopoly of news-
papers, but presently the fool killer will
also have a chance to exercise his calling
in our sister city.—"Courier."

AGENT Wilbur, of Yakima, has fully
settled all his accounts with the govern-
ment, and will immediately resume his
duties at the post he has occupied so long.
The few persons who have been so luge-
nerous as to intimate that he was a defaul-
ter will probably not be gratified to hear
that his papers have all passed and that he
has an unexceptionable standing with the
government. In consideration of his ser-
vices and the satisfactory settlement of his
business, the department allowed his full
expenses to and from Washington.

THE "Experiment" says: It is the in-
tention of the proprietors of the Tacoma
saw mill to shut down in a few days for
extensive repairs to their works and ma-
chinery. There are three vessels there at
present, the cargoes of which are about
finished. The mill stopped running nights
some time ago, and as soon as the lumber
is cut for the vessels there at present, work
will be suspended altogether.

THE wool clip of Oregon this year is
about 6,500,000 pounds, being about 1-
500,000 pounds more than last year. The
prices range from 15 cents a pound for
the poorest alkali wool, east of the Cas-
cades, to 22, 23 and 25 cents for the best
quality in the Willamette and Umpqua
valley.

THE hop crop in the United States is
short, this year, and prices bid fair to be
good, for first and second qualities. This
will be fortunate for growers on the Sound,
as most of their crops will come under
these two classifications.

AN old acquaintance of many of our
readers, Mr. S. W. Hovey, has been nomi-
nated by the Republicans of Kitsap coun-
ty for representative in the legislature.

BORN—In Tumwater, Sept. 28, 1878, to
the wife of J. W. Bomer, a son. In Olym-
pia, October 10, 1878, to the wife of Gus.
Rosenthal, a daughter.

THE Pacific Mail S. S. Co.'s Steamer, A las-
ka, sailed from San Francisco October 10,
1878, having on board 64 passengers, 35
pkgs mail and 5,247 pkgs mdse, 300 tons.
Passengers for Puget Sound: Wm. Beat-
tie and wife, A. D. Miller and wife, Mrs.
O. G. Root and 3 children, J. LeWitt,
Mrs. D. Cooper and 2 children, Richard
Breslich and wife, B. Gatzert, S. Sher-
wood, W. N. Horton, Capt. G. F. Moore-
house, Mrs. A. DeBarra, M. W. Miller,
Henry Muller, John Warden, Chinaman,
Mise, for Port Townsend, 792 pkgs., 40
tons; Seattle, 1778, pkgs., 124 tons; Taco-
ma, 112 pkgs., 13 tons; Olympia, 319
pkgs., 20 tons.

THE King county Democrats have made
the following nominations: Councillman,
Joseph Foster; Representatives, Peter
Padden, W. H. White and Wm. Pickering;
Sheriff, T. D. Hinckley; Treasurer,
R. L. Thorne; County Commissioners,
M. R. Maddocks, James Begley and Ter-
rence O'Brien; Probate Judge, Thomas
Burke; County Auditor, M. S. Booth;
County Surveyor, J. G. Seury; Justices
of the Peace, Albert M. Snyder and Sam-
uel F. Coombs; Constables, Seattle Pre-
sident, Mr. Boardman and Wm. Darling-
ton; Assessor, R. Hopkins; County Su-
perintendent of Public Schools, E. S. In-
graham.

THE BALLOT.—In the Vancouver con-
vention, the first ballot stood: Ferry, 36,
Brentz, 35, and Abernethy, 6. On the
second the vote stood: Ferry, 36, Brentz,
33, and Abernethy, 5. On the third it
stood: Brentz, 35, Ferry, 34, and Aber-
nethy, 4; whereupon Ferry withdrew
from the contest and Brentz was nomi-
nated by acclamation.

THE Republican nominee for delegate,
Mr. Thomas H. Brents, of Walla Walla,
is a lawyer of prominence at the bar in
his district, of pleasing address, a fluent
and agreeable speaker, industrious and
energetic in his profession and will make
a delegate alive to the interests of the
whole Territory.—"Courier."

JESSE PARRISH, one of the oldest pio-
neers of Oregon, died recently at his home
in Marion county, from cancer of the
stomach. He was as well known as any
man in Oregon, and one who was respect-
ed by all who knew him. He was buried
at Albany.

AN Oregon legislative committee has
discovered that the swamp land funds have
been squandered and indirectly stolen by
Gov. Chadwick and his favorites, and now
there is music in the air with a prospect
of heavy thunder coming.

No less than thirty barns, with their
contents have been burned in the Willam-
ette valley this season. Most of this
unusual destruction of valuable property
is known to be the doings of worthless
tramps.

THE Buffalo "Express" can't under-
stand how these can be very hard times;
how a country can be very "hard up,"
which consumes 10,000,000 barrels of beer,
and 2,000,000,000 cigars in a single year.

F. H. COOK, of the Tacoma "Herald,"
has been nominated for joint councillor
on the Republican ticket in the council
district composed of the counties of Pierce,
Mason and Chehalis.

THE October elections, held on Tues-
day, in Ohio and Iowa were sweeping Republi-
can, victories. Ohio the Republicans
carry by 5,000 to 10,000 majority.

THE "Auger" is the title of a new
paper printed in Portland for Morse, of
the Snohomish "Star," and mailed to the
subscribers of the latter paper.

SEVENTEEN hundred and ninety-two
bales of hops were shipped from Tacoma
on the Dakota last trip.

HUME's cannery on Gray's Harbor is
doing a rushing business. They catch all
they can handle.

It is estimated that the Swinomish grain
crop will amount to 300,000 bushels, this
year.

EDITORIAL NOTES.

BRENTZ for Delegate to Congress, and protection of the people against monopoly.

It is said that Senator Mitchell, of Oregon, is pleased over the election of Slater because it is interpreted to mean a defeat of the "Oregonian's" plans. Many Democrats preferred Mitchell next to Slater.

THE almost unparalleled success of the financial policy put forth by Hon. John Sherman, Secretary of the U. S. Treasury, is working up a world wide fame for him. Should it be fully carried out, the result will prove Secretary Sherman to be a statesman and financier of no ordinary mould.

By a change recently effected in the affairs of the "Pacific Christian Advocate," Rev. A. Laubach has become the publisher and business manager of that paper—thus relieving Rev. J. H. Acton of all labor in connection with it except editorial writing. Bro. Laubach has labored many years in editorial as well as ministerial harness, and will acquit himself with credit in his present position. The "Advocate" ought to have an extensive circulation on this coast. Subscription price, \$2.60 per annum, postage paid. Address Rev. A. Laubach, Portland, Or.

MR. Caton has made the startling discovery that the clause in the Vancouver platform, which is regarded by the N. P. R. Co. as their bill of sale of the Democratic party of this Territory, doesn't quite take with the "dear people;" he therefore puts in the perulian plea that this clause "doesn't mean what it says." Of all the weak arguments ever put up, this one takes precedence. Caton affects to stand squarely and unflinchingly on his platform, and then forsooth, because the people won't swallow its provisions, he kindly informs them that they needn't be alarmed—because the obnoxious document "doesn't mean what it says." If we may accept such an argument, why not conclude that the man himself doesn't mean what he says, and set him down as a complete "hilk" who can with propriety be elected to stay at home? He is evidently either too stupid to comprehend the inextricable difficulty into which his policy will lead him, or else he is trying simply to "play the boys for sardines." Don't fool yourself, Mr. Caton, over the supposition that the voters of this Territory are too ignorant to see through your sophistry! It's too transparent.

We publish, in another column, the Republican Territorial platform. Reader, after you have carefully perused its contents, just compare it with the enunciation of principles sent out a short time ago by the Democratic party. You will observe that upon the question of railway communication neither one of the platforms named gives out an uncertain sound. While they are each diametrically opposed to the other on the question of imposing such conditions upon the N. P. R. Co. as will protect the people of our Territory from injustice and imposition, it is your province to decide as to which of them is entitled to support. There are many points upon which a critical comparison of the two documents might be profitably made; we leave the intelligent voting public to calmly perform this duty, resting assured that Mr. Brentz will be chosen to represent the people of W. T., by a sweeping majority.

REPUBLICAN PLATFORM.

RESOLVED 1st, That we maintain an unflinching fidelity to the principles of the Republican party and believe in its capacity to administer the affairs of the Government as faithfully and successfully in the future as it has done in the past.

2d, That an irredeemable currency is a national curse, and that all legislation tending to inflation is suicidal to the financial interest of the country and the prosperity of our people.

3d, That all capital is based upon labor, and from it proceeds all national prosperity, and that all attempts to antagonize labor and capital, we deprecate as hostile to the best interests of all our people.

4th, We are in favor of a reasonable extension of time for the construction of the Northern Pacific Railroad with its Branch line across the Cascade mountains; provided, that the Company build at least twenty-five miles of their branch each year after such extension, until the whole is completed, and provided that the lands within their grant in this Territory shall be open to actual settlers for pre-emption, or entry in limited quantities at a reasonable maximum price to be established by the Government, and provided that the main line of said road shall not be changed from its original location, and provided further that should the company fail to build the road according to the terms of said extension, all their right in the unearned portion of the land grant should immediately thereafter cease, and the lands revert to the Government.

5th, We are in favor of the immediate restoration to the public domain of lands on the branch line of the Northern Pacific Railroad as originally located over the Skagit Pass of the Cascade mountains, and that all settlers within the abandoned lines who have either paid double minimum price or have homesteads of less than 160 acres be compensated by the Government; and that all settlers within the limits of the withdrawal before notice thereof was received at the local land offices be confirmed in their title.

6th, The construction of the Seattle and Walla Walla Railroad is a work of vital importance to the people of the Territory, as also of the whole northwest, and we earnestly recommend Government aid in its construction.

7th, We are unalterably opposed to any dismemberment of this Territory.

8th, That if the people of this Territory shall vote in favor of the Constitution, at the coming election, our Delegate in Congress is hereby instructed to use his best efforts in favor of admission into the Union as a State, and if the Constitution should be rejected he is instructed to procure if possible the passage by Congress of an act enabling this Territory to form a State government.

9th, The opening of the Columbia and Snake Rivers and the removal of the obstructions to navigation therefrom, is of great local as well as national importance, and should be aided and encouraged by liberal congressional appropriations.

10th, Experience having fully demonstrated the bad policy of our Indian system, the same should be at once abolished; all Indian reservations should be opened to settlement, all annuities should cease; the tribal relations of Indians should not be recognized, and they should be made citizens on the same footing as other citizens, secured in the same rights and privileges, subject to the same duties and responsibilities, and liable to the same penalties for violation of law.

11th, The immigration into the United States of the Mongolian race is an evil that the government ought to prohibit, and we favor the speedy modification of all treaties that gives them the right to come hither, and we insist on the passage of such laws as shall protect our people from their encroachments.

It is somewhat amusing to follow our physico-legal neighbor in his erratic and serpentine course. It is vainly trying to shift its course rapidly enough to meet any and all emergencies without batting an eye, and at the same time be recognized as a leader of some faction. After fairly exhausting its life-blood in trying to convince the public that none but old-fashioned, bed-rock Democrats should be elected to office, it now comes out and favors "anybody who opposes the Custom House influence."

WORKINGMEN'S ASSOCIATION.

The citizens of Victoria, B. C., determined to rid their city of Chinese, have organized a workingmen's association and, we should judge from all accounts, are preparing to use their best endeavors to carry out their plans. By the following, which we take from a Victoria paper, it will be noticed that Mr. Noah Shakespear (with whom our Good Templar friends are acquainted) is President of the association:

A meeting of the Workingmen's Protective Association was held last night at Central Hall. In the absence of the President and Vice-President, Mr. J. McNerhanie was called to the chair.

The Secretary read the minutes of the previous meeting, which were confirmed, after which the President Mr. Korter, entered and took the chair.

The meeting was called for the election of officers for the ensuing three months. The attendance was small (only about 50 members being present,) in consequence of no notice having been given of the meeting.

The following officers were duly elected:

President—Mr. N. Shakespear.
Vice President—J. McNerhanie.
Treasurer—Mr. Owens.
Secretary—Mr. Williams.
Assistant Secretary—Mr. Macdonald.

General Committee—Hon. T. B. Humphreys, N. Shakespear, and Messrs. Seelye and Smithers.
Door-keepers—Messrs. Ross and Texall.

The retiring President returned thanks.

Mr. Shakespear then returned thanks for the honor conferred on him, and promised to use his best endeavors to forward the interests of the Association. He was satisfied if they went properly to work they would soon accomplish the chief object of the Association—the driving away of that very undesirable class of our population, the Chinese. The Association would have to go to work in a practical way and carry out the policy of non-intercourse with the Chinese, and refuse to patronize any person who employed a Chinaman. He was satisfied, if this principle was carried out, it would materially assist in carrying out the objects of the Association. The members of the Association should also pledge themselves not to patronize any newspaper that encouraged the Chinese. We wanted to have the press with us, but if there was no paper in the city that would support us, we could raise the money and start a paper of our own. The Association should not be turned into a political Association, but that party which would best assist in carrying out the views of the Association should receive its support. [Applause.] It depended on those present to-night to make the Association a success or failure. Properly conducted, the Association would be productive of great good, and their ranks would soon be augmented by the addition of all the workingmen in the city.

The meeting adjourned after the transaction of some unimportant business.

TREASURER'S

TAX NOTICE!

NOTICE IS HEREBY GIVEN that the Tax list of Jefferson County, for the year 1878, is now due and in my hands for collection. To all taxes remaining unpaid on

December 1st, 1878,

TEN PER CENT. penalty will be added.

Tax payers will please hand in their supervisors, road poll and road property tax receipts.

The attention of Tax Payers is called to the following extracts from the General Laws of 1877:

Page 162, Section 35—"On the first day of December of every year all unpaid taxes in the second district shall become delinquent."

Page 163, Sec. 38—"To all delinquent taxes ten per cent. of the amount thereof shall be added as a penalty."

Page 172, Sec. 60 [76]—"If any county treasurer shall refuse or by negligence fail to collect any tax which he is required by law to collect he and his sureties shall be liable therefor and the same may be recovered by a civil action in the name of the county."

N.B.—Page 166, Sec. 42 [55]—"Interest at the rate of twenty-five per cent. per annum shall be charged on all delinquent taxes."

Farm and Household.

KEEP chickens in the orchard. They will clean up the rotten fruit, hunt the curculio and destroy the larvae of the codling moth.

YOUNG ducks should not be permitted to go into cold water as soon as they are hatched, as such a course is liable to produce cramps. A small pan of water with the chill taken off can be set near the coop.

GREEN corn on the ear is not only a very palatable food for growing chickens but it is highly nutritious and valuable for a change in their fare. If it needs to be purchased, it is not an economical provision.

FRIED FRENCH BREAD.—Dissolve a tablespoonful of light dough in a cupful of sweet milk; add three eggs beaten light, a teaspoonful of salt and a cup and a half of flour; let it rise for three hours. Cut some slices of stale bread; cut them in halves and remove the crust. Dip each piece into the batter, then take it out with a table spoon and fry in boiling hot lard. Sprinkle with powdered sugar, put a spoonful of jelly in the center of each piece and serve hot for breakfast.

PUFF PUDDING.—To a pint of light bread sponge (mixed quite thick) add half a teacup of sugar, two eggs beaten light, and a tablespoonful of melted butter. Fill buttered muffin tins half full with this batter; let rise until light then bake in a quick oven. When done turn them out upside down on the dish in which they are to be served, and pour over them a liquid sauce made by boiling a teacup of sugar with half a cup of water, and adding a little butter and flavoring.

APPLE BREAD.—Into a pound of light bread dough, work a tablespoonful of butter, then divide it into two pieces and roll each one into a thin, round cake—about one-fourth of an inch thick; lay these on a couple of jelly cake tins or flat pie pans, and spread the surface lightly with butter. Peel half a dozen nice apples; cut them into quarters, and divide these once or twice more according to the size; arrange them closely over the cakes and sprinkle the surface with some ground cinnamon and plenty of sugar. Set aside until the dough puffs up between the apples then bake until the latter are done. To be served warm with coffee.

HERE is a warning for young men who are in the habit of lighting matches on their thumb nails. A young man of Paris, on entering the carriage for a railway ride to Lyons, lit a match by scratching it with his thumb nail. A piece of the incandescent phosphorus penetrated under the nail and made a slight burn. In an hour the hand and arm were so much inflamed, and the man was in such pain that the physician advised immediate amputation. The patient wished to postpone the operation, grew rapidly worse, and twenty-seven hours after the burn, died in horrible suffering. The above is vouched for by the Northern Whig, of Belfast, England.

NEATNESS IN FARMING.—Nothing gives evidence of thrift and enterprise in farming better than keeping everything in order. There are times when even the most painstaking men are compelled to let things go somewhat at loose ends, but upon the first occasion of spare time and due diligence thereafter, the wonted appearance of things about the premises returns. At the cost of a little time and labor when required, the appearance of an untidy farm may be so improved as to add considerably to its value, and the price obtained in the event of a sale. The contrast between neat and slovenly kept farms represents more in a pecuniary point of view, very often, than is generally supposed. Take a farm which by its appearance shows clean culture, from which stumps and bushes have been removed, the buildings kept in repair, the fences and gates in order, the rubbish kept from the roadside and fence corners, the tools housed when not in use, and the stock exhibiting evidence of good care and attention, and in the event of its purchase it will bring relatively a much more than one equally fertile, but kept in a slovenly way. Weedy fields, tumble down fences, gates with broken hinges, buildings out of repair, implements scattered about the farm where they were used last, rubbish everywhere, and inferior looking stock, take from a farm, naturally fertile, a good round sum in the event of a sale.

MISCELLANEOUS.

If a man "doesn't care" for the respect of his fellow creatures he will very soon lose respect for himself, and when self-respect is once gone Satan has a good lien on everything else.

I'd stay an old maid till I got black in the face before I'd marry a man who chews tobacco. And she took a wad of gum out of her mouth and stuck it on the under side of the seat of her chair for safe keeping while she was eating her dinner.

A Christian mother, when praying beside her little boy, had mentioned his name in her prayer. Upon rising from her knees, he said, "I am glad you told Jesus my name, for when He sees me coming He will say, 'Here comes little Johnson.'"

Gravel, sand of some other similar substance is almost as essential to the fowls' well being as is food, and if fowls are kept in confinement, and not supplied with this, no matter how much grain you may supply, they will not thrive, or even keep healthy, for any length of time.

A full font of Japanese type comprises 60,000 characters, and when a compositor gets 25 or 30 wrong letters in a word, and the proof-reader overlooks them, they are scarcely ever noticed by the reader. The printer's case is distributed all around a big room, and when he is at work, running from one box to another, he looks like an American baseball player making a home run.

The Potter committee having refused to allow any investigation of Democratic frauds, is now wanderers about the country from place to place, shorn of popular respect, and so far has accomplished nothing more than opportunities for Ben Butler to make a bigger fool of himself than he ever had credit for, and, as is further stated, to prove that all "men are liars, and women too" down in Louisiana, as far as heard from."

It has been discovered in a district in India, on the coast, that there is a tribe of people suspected of being descendants of Jews sent into India by king Solomon to capture elephants for his use, and to work in the gold mines. The Hebrew language has almost died out among them, but they possess a written Bible. Of the holidays they keep only the Sabbath; the Passover and the Day of Atonement being unknown to them. They call themselves "Sons of Israel" and not "Jews," and maintain that they possess autograph prayer books written by the Patriarchs. They boast of letters of freedom given them by king Tschandrakupta, who was contemporary with Alexander the Great.

WATCHING ONE'S SELF.—"When I was a boy," said an old man, "we had a schoolmaster who had an odd way of catching idle boys. One day he called out to us:

"Boys, I must have closer attention to your books. The first one that sees another idle, I want him to inform me, and I will attend to the case."

"Ah?" thought I to myself "there is Joe Simmons that I don't like. I'll watch him, and if I see him look off his book, I'll tell." It was not long before I saw Joe look off his book, and immediately I informed the master.

"Indeed!" said he; "how do you know he was idle?"

"I saw him!" said I.

"You did? and were your eyes on your book when you saw him?"

"I was caught, and never watched for idle boys again."

"If we are sufficiently watchful over our own conduct, we shall have no time to find fault with the conduct of others."

OUR WASHINGTON LETTER.

WASHINGTON, D. C., Sept. 28, 1878.

The speech made by Senator Conkling at the New York Republican State Convention was remarkable for what was in it and for what is not in it. It was remarkable in that he gives high prominence to the Southern outrage delusion. I call this a delusion, for, as the subject is understood by the average Northern man, it is a delusion. The whole world knows that in the South there has always existed, and probably always exists, a more summary way of settling personal difficulties than in the North. When this is considered, with the turning loose upon established society of four millions of uneducated beings who, with hardly an exception, have only the slightest ideas of right and wrong, and the going South of thousands of adventurers, we may readily account for all the "outrages" that have actually been committed, and we may do this without accusing the people of the South of continued disloyalty to the Government. But Senator Conkling not only sees nothing but the "outrages," sees only one portion of the people responsible for them, and sees no relief possible but in unreasoning interference by the Federal Government.

The people of the North, beginning of late to understand that there are two sides to this outrage business, have decided that something else shall have consideration. In Maine, in Oregon, even in Vermont, the popular desire is to drop the subject. Blaine and others are quick to see it. But Conkling, whatever else he may have, has no more sympathy with the people, or an understanding of them, than the fraudulent Cardiff Giant had. He will go on until November, perhaps, and then find out, in looking from the windows of prospective retirement that the people of New York are busy about affairs of their own.

Tomorrow has been set for the formal presentation of the Chinese Embassy to the President and Cabinet. Diplomatic presentation at the White House are usually conducted simply and unostentatiously, and this one will doubtless be so, though there is so much curiosity prevailing in regard to the quaint costumes worn by the Orientals that a large crowd will be attracted to the Executive Mansion. A limited number only will be admitted to the East Room, where the Embassy will be received, and those by card; but the corridors, steps, and grounds will be thronged by persons trying to get a sight of the Mongolians as they pass from their carriages through the vestibule and into the Mansion. Yung Wung, or Wing, the second in power—Vice Minister or Minister in his superior's absence from Washington—is a celestial well known in this country, having come here when quite a boy and received a fine education, graduating with honors at Yale. Our administration anticipates no difficulty in agreeing, through this Embassy, with the Chinese Government for a modification of the Burlingame treaty, thereby limiting the number of Mongolian immigrants to this country.

President Hayes and family have only this week returned to Washington. The Cabinet members have also returned and Secretary Schurz no longer commands the fort alone. They have been making campaign speeches throughout the country, excepting Judge Key, P. M. General, and Secretary Evarts. The Government clerks are straggling back from their summer vacations, and the city is taking on a more lively appearance than she has worn for the last dozen weeks. KNOX.

A Living Witness.

Do not despair of ever finding relief from that dreadful disease dyspepsia, or its mate liver complaint. A single trial of White's Prairie Flower will make you a witness to its infallibility. Druggists say they never sold a medicine they can more heartily recommend. It cures chronic rheumatism, cutaneous and nervous scrofula, organic debility, nervousness, etc. etc. For female complaint it has no equal. Prairie Flower is gathered from the prairie of the far west, and then carefully prepared in the form of a liquid medicine by an experienced physician. Is positively purely vegetable and harmless in any reasonable amount, yet a powerful purgative if taken in over doses. Directions in full are with each bottle. For sale by all druggists. Trial size, 25 cts. Large size, 75 cts.

THURSDAY, OCTOBER 17, 1878.

THE REPUBLICAN TICKET.

We publish, this week, the Republican Territorial and County nominations of candidates to be presented to the voters of Jefferson County for their support in the coming election. We fully believe that the ticket, throughout, is worthy of the support of all, the names presented being those of men who are in every respect qualified for the respective positions for which they are named. We will perhaps have more to say hereafter concerning the Territorial nominees, and will merely state here that we endorse them, individually and collectively.

In assuming control of the ARGUS, we promised to always act entirely free from partizan feelings, where local politics were concerned. We are pleased to state that the Republican county convention which met in this city yesterday, recognizing the fact that worthy men are to be found in both parties, selected such candidates as they deemed most suitable—irrespective of party. We feel assured that the county ticket is as desirable as any that could possibly be made up, as there can be no objection urged against a single candidate that it puts forward. Mr. Hastings, of this place, was unanimously fixed upon as the choice of the convention for Joint Councilman from the council district composed of Jefferson, Island, Clalam and San Juan counties, and we are quite certain the choice was wisely made, as the result will prove. The other counties interested will certainly act for the best, and confirm this nomination. Mr. Ryan is entirely above reproach either personally or politically, and, in the capacity of a legislator, will do himself honor and reflect credit on his constituents. Having shown himself to be efficient and desirable as County Superintendent of Schools, Mr. Ryan was also chosen as a candidate for this important position. Mr. Drummond, the choice for Sheriff, is a young man of sterling abilities, and possesses all the qualifications necessary to enable him to satisfactorily discharge

the duties of the position. He will be elected by a rousing majority. We haven't space, this week, to dwell at length upon the claims of each individual candidate, but will mention a few more. Messrs. N. D. Hill, A. J. Smith and Wm. Bishop stand high in the esteem and confidence of their fellows, and will form an unexcelled board of commissioners. Mr. Kuhn's qualifications for Probate Judge need no comment. His election is already a certainty.

We understand that the Clalam County Republicans propose getting up an Independent county ticket for the coming election, they not feeling satisfied with the way that matters are being manipulated in their section. The principal contest will be over the office of Joint Representative from Clalam and San Juan. The candidates already in the field, for that position, are: W. C. Garfielde [Republican] and S. Troy [Democrat]. Although a Republican in sentiment, and having a decided preference for candidates on that side when their qualifications are equal or superior to their opponents, we unhesitatingly favor, in this instance, the Democratic nominee. Mr. Troy is a farmer, a man of honor and ability, and one whom the people of San Juan and Clalam Counties can safely trust to represent their interests in the Territorial Legislature. This is much more than can be said of Mr. Garfielde, as all know who are well acquainted with him.

INDEPENDENT.—The recent contest for Republican nomination for Prosecuting Attorney in the Second District, resulted in the selection of Mr. N. H. Bloomfield; not, however until after there was some dissatisfaction, and until some of Mr. Struve's supporters had withdrawn from the convention. We hear that Mr. Struve now proposes to run as an Independent candidate for the position, and that he is assured of an extensive and hearty support. He feels no delicacy in so doing, on account of the fact that it was Mr. Bloomfield's intention to take the field independently if he had failed to secure the nomination. Regarding qualifications, we doubt not that Mr. Struve is by far the superior one of the two. His experience is extensive, and his standing in the legal profession is second to none in the Territory. His support will come from all classes of men, irrespective of party.

ENDORSED.—At the Republican county convention, held in this city yesterday, Mr. Robt. D. Attridge offered the following resolution which, on motion of James A. Smith, was unanimously carried: "Resolved that the Republicans of Jefferson County, by their delegates in convention assembled, endorse, approve and ratify the platform promulgated by the Territorial Republican Convention, at Vancouver, on the 9th day of October, 1878. Also recommend that all good Republicans give a hearty support to the nominees of said Convention."

THE reason why Blanchard's paper so viciously attacked Mr. Kuhn, the present worthy incumbent of the office of Probate Judge, is now so distressingly apparent that it fairly "sticks out on all sides." Somebody, who hasn't had a "case" or patronage of any kind in his profession for a long time, wants to be elected Probate Judge. With what a noble spirit of self-sacrifice does he come to the front and offer to take the responsibilities (and pocket the emoluments) of the office of Probate Judge.

THE LOOKOUT LOST.—The S. F. "Chronicle" has the following: P. B. Cornwall, of this city, agent for the Bellingham Bay Coal Company, received a dispatch yesterday informing him of the wreck of the ship Lookout at Kagoshima, Japan, on the 12th ultimo. Three of the crew were lost. The vessel belonged to the Company, was 1068 tons register, valued at \$15,000, and insured. She was home bound from Shanghai, under command of Capt. John Wiggins.

It may or may not be in order, but we desire to ask by what authority did the Republican Territorial Convention nominate a candidate for joint Councilman for the counties of Jefferson, Island, Clalam and San Juan? We have never heard of such a thing before, and would like to know about it. The Republican County Convention at this place completely ignored the action of the Territorial Convention in this matter.

MRS. SIDONS AT PORT TOWNSEND.—No more difficult task was ever attempted than fell to the lot of Mrs. Siddons in Port Townsend, on Saturday evening last. Uncertainty of her coming, it being undecided whether she would be here till a few hours before the entertainment, was the reason for the small number present. A few people in a large room never get very companionable, and there were no stage effects to aid the artist. Most people would have shirked the task before them. Nearly all would have cut the programme short and coldly given those present, cold lunch instead of a hot dinner. Mrs. Siddons, however, is a more conscientious artist, as she is incomparably the greatest genius that ever visited Port Townsend, the few listeners, the shoddy surroundings, seemed but to rouse her to greater power; to more wonderful renderings than she would ordinarily have exercised. It is needless to say that no one present ever enjoyed such a treat and probably never will again. We have no space to speak here of particular parts particularly well rendered. But we shall often think of the new life we lived in her inspiring presence, and have no hesitation in pronouncing her the truest artist and most wonderful genius that has ever visited the Sound.

THE recent contest for the nomination of a candidate for the office of Prosecuting Attorney, for the 3d Judicial district, on the Democratic ticket, resulted in the choice of Mr. G. M. Haller, of this city. It seems that Col. Nash, of Seattle, and Mr. Haller were about the only competing candidates before the nominating convention. The nominees for the position now stand: Irving Ballard, Esq., of Seattle, (Republican,) and G. M. Haller, Esq., of this place, (Democratic.) Their relative qualifications for the position seem to be pretty evenly balanced, both of them being considered young professionals of good standing. We will hereafter refer to them more fully.

By posters it will be seen that Hon. N. T. Caton and Hon. Thos. Brents, Democratic and Republican nominees respectively for Delegate to Congress, will engage in a joint political discussion this evening at Fowler's Hall at 7 o'clock.

COMMUNICATED.

LOCAL NEWS.

THE (to be) left wing of the Democratic party of this county, having been organized and managed by Messrs. Blanchard and Willson, met on the 10th inst. and nominated the following ticket: Representative, C. W. Philbrick; Probate Judge, H. L. Blanchard; County Superintendent of Schools, H. C. Willson; Treasurer, L. B. Hastings; Sheriff, J. C. Clinger; Auditor, Jas. Seavey; County Commissioners, Messrs. Wm. Bishop, Henry Webber and F. W. James; Justices of the Peace, C. W. Philbrick and Jack Slater. We understand that a few blanks will have to be filled out in this ticket, as Messrs. Seavey, Hastings and Bishop, decline to run on it.

THE first quarterly meeting on Port Townsend charge for this conference year, will be held in the M. E. Church the 23rd and 27th of this month. Preaching on Sunday, morning and evening, by Rev. A. C. Fairchild, Presiding Elder. Love feast at 10 o'clock A. M. After the morning service, the Sacrament of the Lord's Supper will be administered. Members of all denominations are invited to commune with us.

OUR postmaster, Mr. Learned, says to give his compliments to the fellow that tore down, from the front of his office, the notice of Brents' speaking, and broke a window pane in so doing. If some one gets caught at acts of this kind, our worthy J. P. will take judicial notice of the matter.

PROF. Roberts who recently returned from Olympia, says that the fair at that place would have been a grand success this year but for the rain. Everyone who attended was disappointed, and many returned to their homes in disgust.

SEVERAL passengers came up on the Dispatch, from Dungeness early this week. Among them were Miss C. Downie, T. Downie, of Dungeness, and Mrs. R. McDonnell and Rev. S. A. Starr, of this place.

M. E. CHURCH.—Preaching next Sabbath morning at 11 o'clock, and in the evening at 7 1/2 P. M., Rev. S. A. Starr, pastor. Sabbath School every Sabbath at 2 15 P. M., N. D. Hill Superintendent. The public are cordially invited to attend.

IT will be observed that Messrs. Cline and Gerrish, of Dungeness, are advertising their appointment as executors of the estate, and administrators of the property of the late Chas. N. Leavitt, of Clalam.

THE law office of Messrs. D. W. Smith and Thos. Phillips, has been removed to the stone building. Their change of quarters, we doubt not, is an advantageous one.

THROUGH the kindness of Prof. Roberts, we have in our possession a sample of writing executed by the famous electric pen, at the recent Territorial fair in Olympia.

THE lecture delivered by Capt. Mounts on Thursday last, was quite entertaining. Although a small number were out to hear it, satisfaction was generally felt.

MR. Wm. H. H. Learned is preparing to engage in farming, dairying, or something of the kind. At least he has been building a barn within the past week.

THE U. S. R. M. Cutter, Oliver Wolcott, having completed her repairs at Seattle, has returned and graces our harbor once more.

THIS office is indebted to Mr. Water, Purser of the steamer Alaska, and to Mr. H. L. Tibbals, Jr., for files of late San Francisco papers and other favors.

THE new spire on the M. E. Church building is assuming comely proportions and will soon be completed.

MR. Jas. L. Davis, Mrs. Weeks, and others, of Lopez Island, were in town during the past week.

THE family of Mr. Jno. Powers, of Protection Island, were in town on Sunday morning last.

COL. Enoch May, of East Sound, Orcas Island, visited Port Townsend during the past week.

REV. S. A. Starr, of the M. E. Church, preached in Dungeness on Sunday last.

ANOTHER section of new sidewalk has been laid beyond the Central Hotel.

WE understand the steamer Dispatch is soon to be laid up for repairs.

DON'T forget to attend the Cleaves' entertainment to-morrow evening.

OUR foreman paid Olympia a visit during the past week.

GO and hear something about politics this evening.

THE meanest man in the North-west has been heard from. He was at Port Discovery a short time ago, and took a pair of blankets away from an unfortunate fellow who had just lost one of his hands—all because he had previously sold the blankets to the fellow, and they had not, up to the time of the accident, been paid for. It may be well enough to say that when the blankets were taken away, the unfortunate man was left without back-covering. But then the mean one was a Poor man.

THE attention of our readers is respectfully called to the advertisement of an entertainment to be given on Friday and Saturday evenings, by the Cleaves Dramatic Company. Their first play will be "The Honey-moon," followed by a farce entitled "Peter Spike." The second evening will be devoted to "The Poacher's Doom," and will also conclude with a farce. Tickets for sale at Miller's.

FROM Mr. Keene, U. S. Pilot, we learn that the steamer Olympia arrived in Victoria on Sunday night last, from Sitka and Wrangell. She had on board a large number of passengers from the mines.

SOCIAL DANCE.—By particular request, Prof. W. H. Roberts will give a series of dances, commencing on Wednesday evening the 23rd inst., at Fowler's Hall. Dancing will commence at 8 P. M.

MARRIED.—In Dungeness, on Thursday, Oct. 10th, by Mr. Wm. L. Rogers, Probate Judge, Mr. B. C. Pilcher to Miss Hettie Cays, all of Clalam Co.

PORT TOWNSEND people will receive a surprise ere long, unless a chain breaks.

THE "Sunday Welcome," of Portland, is now an illustrated paper.

Mrs. Siddons was quite successful at this point.

MR. Bartlett is still advertising about "those taxes."

FROM PORT DISCOVERY.

October 15th, 1878.
EDITOR ARGUS: The ship War Hawk arrived on the 11th, having made the round trip in 33 days. She brought up quite a large amount of mdse. for the company's store.

The Deacon, Capt. Connor, having completed her cargo, sailed on the 13th, during a stormy south-easter. Early in the morning the Deacon dragged her anchor some distance, having gone to anchor the night before with just cable enough to hold. Everything being ready, her sails were unfurled and she was put before the wind, when she glided noiselessly out of the bay.

There is to be one of those pleasant and social times for which Port Discovery is famous. Preparations are being made for "tripping the light fantastic toe," next Saturday night. A good time may be expected.

HORRORS OF SIBERIA.

A Russian convict never knows until he reaches Siberia what sort of life is in store for him, for in pronouncing sentence of hard labor the judge makes no mention of mines. If the convict has money or influential friends, he had better use the time between his sentence and transportation in buying a warrant which consigns him to the lighter kinds of labor above ground, otherwise he will inevitably be sent under earth, and never again see the sky until he is hauled up to die in an infirmary. The convicts are forwarded to Siberia in convoys, which start at commencement of spring, just after the snows have melted and left the ground dry. They perform the whole journey on foot, escorted by mounted Cossacks, who are armed with pistols, lances and long whips; and behind them stroll a long string of springless tumbrils, to carry those who fall ill or lame on the way. The start is always made in the night, and care is taken that the convoys shall pass through the towns on their road only after dark. Each man is dressed in a grey kalatan, having a brass number-plate fastened to the breech, knee boot, and a sheep-skin bonnet. He carries a rug strapped to his back, a mess tin and a wooden spoon at his girdle. The women have black cloaks, with hoods, and march in gangs by themselves, with an escort of soldiers like the men, and two or three female warders in carts. In leaving large cities like St. Petersburg, all the prisoners are chained with their hands to their backs, but their fetters are removed outside the city, except in the cases of men who are marked dangerous. These have to wear leg-chains of four pounds weight all the way, and some of the most desperate ones are yoked three to a beam of wood, which rests on their shoulders, and is fastened to their necks by iron collars. Nobody may approach the men to inspect them. The Cossacks crack their whips loudly to warn people off, and scamper up and down the line, with lanterns tied to their lance points, which they lower to the ground at every moment to see if letters have been dropped. Murderers, thieves, Nihilist conspirator, felon conspirator, felon clergymen, mutinous soldiers, and patriotic Poles, all tramp together as fast as they can go and perfectly silent. Then come the women, shivering, sobbing, but not daring to cry out, because of those awful whips.

ROYAL ANNUITIES.

The British parliament has just voted Prince Arthur, the third son of Queen Victoria, who is now known as the Duke of Connaught, an annuity of \$50,000 a year for life, on the occasion of his marriage with a German princess. The vote was opposed by a small group of members, on the ground that the revenues of England are already heavily charged with annuities for the royal family.

Some idea of the cost of royalty may be got from the sums thus yearly paid to Queen Victoria and her children and relatives out of the treasury. The Queen herself gets about \$200,000 besides the revenue of the Duchesse of Lancaster, which yields her about \$200,000 more. The Prince of Wales has, including his revenue from Cornwall, (of which he is Duke,) \$550,000 a year, and the Princess of Wales, \$50,000.

The Duke of Edinburgh receives \$125,000; the Duke of Connaught already has \$75,000 and will have, by the parliamentary vote, \$50,000 more on his marriage. Prince Leopold and the Princess of Prussia (the queen's oldest daughter) have \$40,000 each; and the other daughters—the Princesses Alice, Helena and Louise—have \$30,000 a year each.

Thus Great Britain pays the queen's family no less than \$3,320,000 with which to keep up their state and splendor. Besides this sum, the queen's half-sister, her aunt, the Duchess of Cambridge, her cousins, Princess York and the Duke of Cambridge, get \$100,000 more between them.

A little four-year-old, a native and resident of New Jersey, while watching the lightning flashes from his nursery-window a few evenings ago, during a storm, turned to his nurse and remarked that "God was scratching matches against the sky."

A little boy having broken his rocking-horse the day it was bought, his mother rebuked him. He silenced her by inquiring, "What's the good of a horse till it's broke?"

LABORING AND CULTIVATED CLASSES.

The work people—the people who need assistance—need to be taught many things; especially do they need to be taught better and more rational feelings toward society, or the rich. They are too much inclined to think that everybody not in their own class or condition is rich, and that society could easily provide for them if it chose to do so. Most of the class called workingmen, and all of those who are out of employment, are adopting false and mischievous opinions and sentiments in regard to government, the organization of society, and indeed of nearly all the relations and duties of human life; and they are going farther astray with every year—I might almost say with every month—that passes. They are as sheep that have no shepherd. Nobody cares to teach or guide them except those who are laboring for a complete reorganization of society on a plan which rejects the results of the world's experience, culture and civilization; and which seeks the abolition of nationality, art, religion, science and individual property. The apathy of the cultivated classes is a delusion quite as dangerous as any of those that have recently spread among the people who will retain the methods of thought of uncivilized man. One thing only, so far as I can learn, the cultivated classes, the people of property and of knowledge, agree uniformly in teaching the unemployed; and that is, that they should be silent; that it is not dignified or manly to complain. They wish the unemployed to keep out of their sight, nor to disturb or interrupt them. They wish to hear, as a business man remarked a few weeks ago, no horrible stories of starvation. That is what our teachers have to tell us to-day—the philosophy of human life and duty which the cultivated classes are now presenting to the working people and the unemployed of this country. "Nothing can be done for you. Do have decency and self-respect enough to die quietly and decorously. What is the good of creating a disturbance with your processions, your excited harangues and resolutions? They only make things worse." A man in tatters, famishing desperate with the thought of his starving wife and children, is a repulsive sight, and one that should not be permitted in the streets of a civilized land.

SOME INTERESTING DATES.

Dates are generally dry reading; but there is sometimes a significance in the grouping of dates; and the reader will find such significance in an attentive consideration of the following events, all occurring, he will observe, within the limits of a little over a century: Postoffices were first established in 1464; printed musical notes were first used in 1473; watches were first constructed in 1476; America was discovered in 1492; the first printing press was set up at Copenhagen in 1493; Copernicus announced his discovery of the true system of the universe in 1517; Luther was summoned before the diet of Worms in 1521; Xavier, the first great missionary of modern Christianity, planted the cross in India in 1526; Albert Durer gave the world a prophecy of future wood engraving in 1527; Jergens used the spinning-wheel in motion in 1530, the germ of all the busy wheels and looms of 10,000 future factories; Henry VIII., of England, finally and forever broke with the Pope in 1532; Ignatius Loyola founded the order of the Jesuits in 1535; Calvin founded the university of Geneva in 1537; modern needles first came into use in 1545; the first knives were used in England, and the first wheel carriages in France in 1559; Torquato Tasso wrote in 1560; religious liberty was granted to the Huguenots in France in 1662 and was followed by the massacre of St. Bartholomew in 1572; Cervantes wrote Don Quixote in 1573; the first newspaper was published in England in 1588; telescopes were invented in 1590; Shakespeare, Bacon, Kepler, Tycho, Brake were contemporaries in 1580—there are some of the more important headlands of European history with a single century.—REV. LYMAN ABBOTT.

A five-year-old youngster, seeing a drunken fellow, said, "Mother, did God make that man?" "Yes," she replied. "I wouldn't have done it," was the young innocent's answer.

"I don't like that cat, it's got splinters in its feet," was the excuse of a four-year-old for throwing the kitten away.

EFFICACY OF PRAYER.

UPPER ASTORIA, Sept. 19.—I see from the papers that Gov. Bishop, of Ohio, as well as Gov. Stone, of Mississippi, believes there is a God, who hears the cries of the distressed and the needy, when they call upon him in their distress, and appointed a day of prayer in their States, for the ravages of the destroyer to be stayed. Won't the man of the "Oregonian" write another column of sarcasm and ridicule upon the subject of prayer? It may gratify a numerous class of his readers, especially the tramp and highwayman, and all those who believe there is no God, who governs the world, and who holds man responsible for his acts.

So seldom do we look at the editorial columns of the "Oregonian" that we did not notice the article above referred to. Bro. Noltner did, however, and comments upon it as follows:

Theology is somewhat beyond our depth, but we consider that the rank infidelity of the article in the "Oregonian" deserves severe condemnation from the people. That paper burlesques the governor of Mississippi issuing a proclamation calling up on the people to appeal to God for the eradication of the yellow fever plague, which was a direct insult to the members of the Episcopal church, whose books have regular prayers to be said in time of floods, fire and disease, and a wanton piece of disrespect to the Catholic church, which teaches that from God Almighty all blessings flow, which we should receive by knocking. We consider the editorial ill-timed, in bad taste, and in open defiance to God and all believes in Him. Infidelity is the parent of communism, and it comes with very bad grace from a paper which charges the Democracy with such incendiary tendencies to so palpably commit itself to the worst feature of that lawless order.

We are very glad indeed, to know that there are readers and writers of the secular press in Oregon who will raise pen and voice in censure of those (even Mr. Harvey W. Scott), who would make christianity and its principal doctrines a trifling subject, fit only for exaggerated perversion.

A Proclamation.

BY THE GOVERNOR.

ELISHA P. FERRY, GOVERNOR of the Territory of Washington, do hereby declare that a General Election will be held in said Territory on Tuesday, the fifth day of November, A. D. one thousand eight hundred and seventy-eight, at which the following named officers will be elected, viz:

A Delegate to represent said Territory in the Forty-sixth Congress of the United States.

An Adjutant-General.
A Brigadier General.
A Commissary General.
A Quartermaster General.

A Prosecuting Attorney for the First Judicial District.
A Prosecuting Attorney for the Second Judicial District.
A Prosecuting Attorney for the Third Judicial District.

Members of both branches of the Legislative Assembly.

And all county and precinct officers provided for by the laws of said Territory.

The electors will also at said election vote "For" or "Against" the Constitution of the State of Washington.

"For" or "Against" Separate Article No. one of said Constitution.

"For" or "Against" Separate Article No. two of said Constitution.

"For" or "Against" Separate Article No. three of said Constitution.

IN TESTIMONY WHEREOF.

I have hereunto set my hand and caused the Great Seal of the Territory to be affixed.

Done at Olympia, this twenty-eighth day of August, A. D. one thousand eight hundred and seventy-eight, and of the Independence of the United States the one hundred and third.

ELISHA P. FERRY,
By the Governor:
N. H. OWINGS,
Secretary of the Territory.

HOW'S YOUR LIVER?

If the skin be yellow and muddy, the bowels constipated; if you have ringing in your ears, dull pains in the side, sick headache, sour stomach, hot or dry skin, spots before the eyes, bad taste in the mouth, cold feet and hands, sleepiness, giddiness, loss of appetite, bad circulation of the blood, swelled limbs, &c., you may safely conclude your liver is out of order. The liver is more apt to become disordered than any other organ of the body, as its duty is to filter the purities from the blood. When it becomes weak, obstructed and diseased it must fail to do its duty, and the whole body suffers. Try White's Prairie Flower, the greatest known liver panacea in the world. Sample bottle 25 cents, large size 75 cents. For sale everywhere.

A Living Witness.

Do not despair of ever finding relief from that dreadful disease dyspepsia, or its mate liver complaint. A single trial of White's Prairie Flower will make you a witness to its infallibility. Druggists say they never sold a medicine they can more heartily recommend. It cures chronic rheumatism, cutaneous and ulcers, scrofula, organic debility, nervousness, etc. etc. For female complaint it has no equal. Prairie Flower is gathered from the prairie of the far west, and then carefully prepared in the form of a liquid medicine by an experienced physician. Is positively purely vegetable and harmless in any reasonable amount, yet a powerful purgative if taken in over doses. Directions in full are with each bottle. For sale by all druggists. Trial size, 25 cts. Large size, 75 cts.

BEST business you can engage in. \$5 to \$20 per day made by any worker of either sex, right in their own localities. Particulars and samples worth \$5 free. Improve your spare time at this business. Address Stinson & Co., Portland, Maine.

BATTISTE'S HAIR INVIGORATOR.

M. Battiste Delaitang, Tonsorial artiste of Port Townsend, Washington Territory, begs to inform his numerous patrons and the public generally, that he has prepared from the original receipt of Professor Montalembert, the celebrated chemist of Paris, and from chemical extracts of rare medicinal plants found only on the North-west coast of America, a most elegant addition to the usual toilette articles in the shape of an invigorator and rejuvenator of the hair. This delightful preparation cleanses the hair from all impurities; prevents dandruff, heals all skin disease of the head, imparts a gloss and softness and beautiful color to the hair; restores its growth by its healthy and tonic action, and prevents its falling off. In short

Battiste's Hair Invigorator is the "sine qua non" of all the inventions for the improvement, beautifying and growth of the hair. The material of which it is composed are harmless and can be used freely according to directions accompanying each bottle. Every lady desirous of having beautiful hair should consider her toilette table incomplete without a bottle of this delicate and elegant cosmetic. Prepared and for sale by
BATTISTE DELAITANG,

John Vidler, dec.

F. A. BARTLETT, the administrator of said estate, having filed his petition herein, duly verified, praying for an order of sale of the real estate belonging to said estate, for the purposes therein set forth. It is therefore ordered by the said court that all persons interested, be and appear before the said court on the

24th Day of October, 1878, at 10 A. M.

Of said day at the court room of said court in New Dungeness, Clallam county, W. T., to show cause why an order should not be granted to said administrator to sell the real estate of said deceased, or so much thereof as shall be necessary to pay the debts of deceased and expenses of administration.

W. L. ROGERS,
Probate Judge.
Attest: W. C. GARFIELDE, Clerk. 304w

OLD, TRIED, AND TRUE.

People are getting acquainted—and those who are not ought to be—with the wonderful merits of that great American Remedy, the

MEXICAN

Mustang Liniment,

FOR MAN AND BEAST.

This liniment very naturally originated in America, where Nature provides in her laboratory such surprising antidotes for the maladies of her children. Its fame has been spreading for 25 years, until now it encircles the habitable globe.

The Mexican Mustang Liniment is a matchless remedy for all external ailments of man and beast. To stock owners and farmers it is invaluable.

A single bottle often saves a human life or restores the usefulness of an excellent horse, ox, cow, or sheep.

It cures foot-rot, hoof-ail, hollow horn, grub, scow-worm, shoulder-rot, mange, the bites and stings of poisonous reptiles and insects, and every such drawback to stock breeding and bush life.

It cures every external trouble of horses, such as lameness, scratches, swinny, sprains, founder, wind-gall, ring-bone, etc., etc.

The Mexican Mustang Liniment is the quickest cure in the world for accidents occurring in the family, in the absence of a physician, such as burns, scalds, sprains, cuts, etc., and for rheumatism, and stiffness engendered by exposure. Particularly valuable to miners.

It is the cheapest remedy in the world, for it penetrates the muscle to the bone, and a single application is generally sufficient to cure.

Mexican Mustang Liniment is put up in three sizes of bottles, the larger ones being proportionately much the cheapest. Sold everywhere.

EXHIBITION.—Tomorrow there will be, as announced by poster, a school exhibition at Oak Harbor, Whidby Island. It will doubtless be a very creditable affair, judging from the character of those most interested and the probable care taken by them to make it a success.

CAPT. Starr is making arrangements in San Francisco to secure another steamer for the mail services on the Sound. He intends to bring up a thorough sea-going steamer to take the place of the Annie Stewart which will be kept in reserve for service during the months of Summer.

NEW HAMPSHIRE has a curiosity that should be exhibited at Paris. It is in the shape of a man named Jacob Adams. He was a member of the legislature but was only present seven days, and only drew twenty-one dollars for his services. He was entitled to \$3 per day for the session, but would take no more than he actually earned.

Mt. Sandwith, one of San Juan's most prosperous and enterprising farmers passed through this place on Thursday last on his way home from the Chetahs valley, where he had purchased a span of fine young American mares. IT is not generally known that Mr. Goss, of the firm of Goss and Sawyer, ship-builders of Bath, Maine, made a second visit to this coast a few weeks ago. He came no farther than Portland, however, and it is thought that he would return, and besides building a dry-dock near Portland, select an eligible site for a shipyard somewhere on the Columbia or on Puget Sound.

THE NEVADA DEMOCRATS.—The Democrats of Nevada have nominated Bradley for Governor and W. E. F. Deal for Congress. Bradley's re-election is regarded as pretty certain, but as the present congressman is a Republican, Deal's chance is not considered so good. The platform calls for gold and silver as the only legal tenders, and greenbacks in the place of national bank notes.

ON Friday last the schooner Mist, Capt. Abernethy, arrived from Dungeness with a load of wheat and potatoes, principally for the firm of Waterman & Katz, of this place. On returning, she took down a lot of furniture for Mr. Benedict C. Plicher, the recently confirmed Benedict, of Dungeness. Messrs. W. & K. intend to encourage matrimony among the young folks.

CATON'S SPEECH.

W. W. "Union," of the 5th. Last Saturday afternoon, Hon. N. T. Caton, Democratic nominee for Delegate to Congress, made a three-quarters-of-an-hour speech to less than three-quarters-of-hundred voters assembled at the court room to hear him. During his speech he referred to his conversion from an earnest advocate of annexing Walla Walla county to Oregon to that of an opponent of dismemberment. He claimed that a Democrat could vote for or against the constitution without hurting his record, pointed out many glaring defects in the constitution and a very few good things, the best being, it was an "easy constitution to amend." Upon the railroad question Mr. Caton expressed himself as in favor of compelling the Company to commence to build their road "sometime and somewhere," and claimed that the plank in the platform on the railroad question did not mean what it said. He advocated the opening of the Columbia river to competition, but neglected to state how it could be best accomplished.

Upon the Indian question he argued in favor of abolishing the reservation system or putting the siwashes in charge of the army. He advocated making the Indians take up lands like the whites or putting all of them on one or two reservations in charge of the army. He told what he had done in the way of writing petitions for mail routes and postoffices, and what he was going to do when he met Beriah Brown. The enthusiasm of his audience remained at the freezing point all through the speech, never but once rising to temperate applause, and that was when he referred to his capacity to measure words with Beriah Brown. Neither the relations of capital to labor, the finances nor bayonet rule, were referred to. Take it all in all the speech was not a success. We wish it had been better.

SECRETARY Sherman's great speech on the currency question at Toledo, Ohio, has a national repute, and will go far toward waking up all wild dreamers who are not sleeping the sleep of death on this question. On the silver and gold standard he is in favor of both metals circulating at par, either by limiting the amount of silver to be issued, or re-adjusting the relative weight of the two coins by increasing the weight of the silver coin or lowering the weight of the gold coin; and declares in some such way this question must be solved or we will have to adopt a single standard of silver, like the Chinese and other Asiatic nations have done. On the paper currency he says:

"Our paper currency is now happily brought to a very near par with coin. Will you insist on keeping it at par, or will you, by repealing the resumption act, retrace the steps already taken and embark again upon the sea of irredeemable paper currency? Shall our paper money hereafter be redeemable in coin upon the demand of the holder and be maintained at par with coin, or shall it be what its friends call a "fat" money, irredeemable in coin, depending upon the trademarks of bankers and brokers for its value, and upon the changing majorities in Congress for its amount and quality? I can imagine how a man deeply involved in debt and hoping to escape bankruptcy may desire to cheapen the money in which his debt is to be paid, but why should a man, whose daily toil is measured by the money he receives, desire to cheapen that money? Why should a farmer who sells his productions for money desire to lessen its purchasing power?"

THAT WONDERFUL STOVE.—A fat citizen having in view the purchase of a coal stove, was recently in front of a hardware store, when a newsboy halted and respectfully said: "I s'pose you've seen the new stove—the one that beats 'em all?" "I don't know that I have," was the calm reply. "You order see it, sir. They're allus talkin' about these coal stoves which save ten per cent. fuel and now they've got one." "Have, eh?" "Yes'r. I saw this one goin' the other day, hot 'nuff to bake an ox; and it didn't burn any coal at all—not even a pound." "Is that possible? Why, I never heard of any such a thing! Didn't burn any coal at all—not even a pound. Is that possible? Why, I never heard of any such a thing! Didn't burn any coal at all?" "Not an ounce, and it was throwin' out an awful heat." "Well, that beats me! I don't see how they got the heat." "They burned wood, sir," was the humble reply. The man tried to coax the boy within reach, but the lad had to go to the post office.

NORTHERN PACIFIC DIRECTORS AND OFFICERS.—At the recent meeting of the stockholders of the Northern Pacific Railroad Company, the following gentlemen were elected Directors for the ensuing year: Charles B. Wright, of Pennsylvania; Frederick Billings, of Vermont; Geo. W. Cass, of New York; J. C. Almsworth, of Oregon; Geo. Stark, of New Hampshire; Alexander Mitchell, of Wisconsin; John M. Denuison, of Maryland; B. P. Cheney, of Massachusetts; Johnston, Livingston, of New York; and Charlamagne Tower, Joseph Dilworth, J. Trailey Smith, and Richard Lashurst all of Pennsylvania. At a subsequent meeting of the Directors, Charles B. Wright was elected President of the company; Samuel Wilkeson, Secretary, and Geo. E. Bebee, Treasurer.

THE CABINET ON THE CHINESE TREATY.—In the course of his remarks at the state capital, recently, on the occasion of his reception there by Governor Irwin, postmaster general Key stated that Mr. Hay and the majority of his cabinet are in favor of a modification of the Burlingame Treaty in the interest of our own people, and that steps to that end will be soon taken. The arrival of the Chinese Embassy at Washington had been awaited, for this purpose, and now that Chan Lan Pin had reached the Federal Capital, the subject will be taken in hand, so far as the administration is concerned.

THE Fat Men's Convention. We can see some pleasure, if no reason, in the convening of a baby show, but we confess we could never see the slightest cause, reasonable or otherwise, for a fat men's convention, unless it be the fact that misery loves company. For fifty or a hundred men, whose several weights range from two hundred pounds, to hold a convention simply because of so much surplus adiposus, is absurd to say the least. It becomes doubly so when we reflect that obesity is a disease. What would we think of as many persons emaciated by consumption holding a convention to compare weights? There is but one ground upon which we could advocate another fat men's convention, and that is that they will meet to discuss the merits of Allan's Anti-Fat, the only known remedy for obesity. It is safe and reliable. Sold by druggists.

Claims of all kinds arising under laws governing the disposal of public land, or the adjustment of French, Spanish, and Mexican grants, or other private land claims. Special attention given to cases involving titles to grant lands and mining claims. Land warrants and land scrip bought. Cash paid for soldiers' addition homestead rights. Send stamp for circular of instructions. Three stamps to pay postage if you want blanks and instructions.

APPROVED SOLDIER'S ADDITIONAL HOMESTEADS can be located upon any lands, either single or double minimum lands, subject to homestead whether timbered or not, and having the only first class paper in the country, have made arrangements with the following gentlemen in Western Washington: A. Mackintosh, Seattle, John R. Wheat, Olympia, G. Morris Haller, Port Townsend, Henry Jackson, Snohomish City. Who will have on hand, at all times, my scrip for the accommodation of those desiring to purchase, at the rate of \$3.25 per acre for 80s and 120s, and \$3.75 per acre for 40s; fractions special. Another fraudulent class of scrip known as "floats" can be gotten at much less rates; but no title can be given, and is, of course, not so valuable. A deed can be gotten from the original applicant of any land located by scrip purchased of me, as I in no case buy from other than the original homesteader, and know where to address him for a deed if one be required. Full investigation is made that the worth of my paper may be known. Call upon or write any of the gentlemen named above, who will sell you the Talbot additional homestead scrip which will ensure you a patent to your land as well as a perfect title, and also as cheap as you can buy it of me.
