

SATURDAY, JULY 10, 1875.

KANSAS, which has hitherto been supposed to be suffering devastation by grasshoppers, is now in the midst of one of the heaviest wheat harvests ever known in the State.

A REVOLUTION of considerable magnitude is not improbable in Mexico. Several States are in practical rebellion and the Government is taking steps to put an army in the field sufficient to repress it.

NORTHERN PACIFIC RAILROAD.—A New York telegram of the 30th ult., states that at an adjourned meeting held on that day, about \$20,000,000 of bonds were represented, from all parts of the U. S.

CRUELTY TO SEAMEN.—The ship McCallum recently made a voyage from Maine to Callao, thence to Guano, Maryland, and thence to Baltimore, Maryland, where the captain, Moody, was arrested for cruel treatment of his seamen, tried, found guilty and sentenced to three months' imprisonment and a fine of five hundred dollars.

THEY have started on their annual hydrophobia scare in New York. A man named Jackson has died in terrible convulsions, exhibiting all the customary symptoms. He was bitten in the lip some weeks ago by a Newfoundland dog while playing with him.

THE departure of the steamer Pandora from London for the Polar sea, illustrates the zeal of our English brethren in this department of discovery. Another expedition under Government auspices is in contemplation.

A MEDICAL STRIKE.—A strike among physicians is a novelty; and it has been reserved for Switzerland to produce the same for the astonishment of mankind. In the canton of Glarus, out of 23 licensed physicians, 21 declare that they will perform no more official duties until an efficient sanitary police is established and medical examinations are conducted by a committee of competent men.

a sanitary police, in favor of which they make their bread and butter, certainly is a novelty.

A QUESTION OF NATIONALITY DECIDED.—According to a recent telegram from Washington, the Attorney General has decided a question of nationality and naturalization submitted by the Department of State. The facts are: A. Stinekoaler a Prussian subject by birth, emigrated to the United States in 1848, and was naturalized in St. Louis in 1854.

AN EARTHQUAKE AT SEA.—The ship Hamilton, of Boston, arrived in that port on June 27th, with a cargo of sugar. Her commander, Captain Moss, states that at 3 A. M. on June 14th, when in latitude 19 deg. and longitude 57 deg., all on board felt the shock of an earthquake, which lasted fully ten minutes.

From a gentleman who arrived yesterday from Buena Vista, Polk County, we learned that a horrible tragedy had just occurred at that place. Some years ago a man was convicted for some crime and sentenced to the penitentiary under the name of Byers.

A couple of children, a nephew and niece of James Gleason, of Chehalis County, arrived at Olympia a few days ago, direct from Ireland. The former is 14 and the latter 10 years of age. They left Queenstown on the 17th of May, crossed an ocean and a continent without company, arriving safely without delay or accident.

The advance of civilization has worked that destiny to the natives which the Indians of North America have so fatally realized. Slowly, yet surely, they fall back from the approach of industry with thinned and demoralized ranks.

WASHINGTON TERRITORY.

Work on the Walla Walla and Columbia river railroad is about at a stand-still for the present.

The spring clip of wool of the Walla Walla valley, including Umatilla county, is equal to 600,000 pounds. Up to date the Dayton woolen mill had bought 100,000 pounds, paying from 19 to 20 cents.

The surveying brig, Fauntleroy is to be transferred to the Columbia river.

The amount paid by this Territory for keeping the insane for the last quarter was over \$4,000, besides medicines and salary of the physician.

A quarter interest in the Talbot coal mine, King county, has been sold to Messrs. Pope, Talbot and Walker, of the Puget Mill Co., for \$25,000.

Port Gamble celebrated the Fourth in the use of \$200 worth of fireworks. The Company gave the operatives and their families the use of the steamer Yakima, which took them to Saabeck, where a grand celebration was held.

The Fourth at Olympia passed off very pleasantly. Nearly one thousand people went to help the residents celebrate. The ball was a perfect jam, and the horse race was won by Henry Chapman's mare, known as the "Methodist horse."

The lands of the Northern Pacific Railroad Company, situated in this Territory, are to be sold at Tacoma on September 15th.

Only 271 names are registered for the coming election in Seattle.

A considerable number of Victorians went over to help our American cousins celebrate the 4th.

The gun and locksmith shop of Mr. Vipond was entered by burglars last week and 16 locks and 4 pistols were carried away.

Mr. C. W. Allen, formerly connected with the press in Victoria, has sued the London Herald for libel.

In the coat pocket of the man found dead in Victoria last week, was a Dominion Government Saving Bank pass-book, and on the 1st page, "Edward Butler, laborer, Puget Sound," and an entry of a deposit of \$300. The jury returned a verdict of "died from natural causes."

The thermometer showed 78 degrees of heat on Tuesday.

Several flags were hoisted in this city in honor of the Fourth.

The U. S. S. Benecia arrived in Esquimalt harbor on the 4th inst.

The Sandwich Islands.

Business in Honolulu, and on the various Islands is very dull at present. The land owners of the country, do much to retard the advancement of agricultural pursuits, in that they flatly refuse to sell any lands, save at the most exorbitant prices.

The advance of civilization has worked that destiny to the natives which the Indians of North America have so fatally realized. Slowly, yet surely, they fall back from the approach of industry with thinned and demoralized ranks.

King Kalakua is thought much of by his subjects, he is just as sociable as before he wore the gilded crown. His greatest fault is his fondness for liquor which it is said often drowns his better senses.

The markets at Honolulu are in a very poor condition, that is speaking of their own products. One gentleman drained the Kona coffee market entirely, by the purchase of only a ton and a half.

At that hour Judge Neilson took his seat and was followed by the lawyers. The jury filed into court, and in reply to the question, Gentlemen of the jury have you agreed upon a verdict? Foreman Carpenter replied: We have not; we regret very much we have found it impossible to agree, and in our opinion we ought to be discharged as some of us are suffering in health. The fact is we would be no nearer to an agreement after eight week's confinement than we are now after eight days.

Ye Immigrant Startleth.—It's ho for the land of the orange and vine, That groweth with milk and honey; Where you've only to turn up the soil for a mine, Where it's eat, drink, sleep and make money. The Fourth and Attending Festivities

The celebration of the Fourth, in this city, occupied—more or less—Saturday Sunday and Monday. The first day was made the occasion for a large display of bunting amid the din and smoke of fire-works; the second—Fourth proper—a national salute from the guns at the Fort, attendance upon church, and a moderate use of explosive material; the last resumption of fire-works in the fore part of the day, a boat race in the afternoon, and a grand ball at night. Taken altogether, we believe, the demonstrations were eminently satisfactory.

BOAT SAILING.

Conspicuous among the events connected with the exercises attending the celebration of the Fourth in this city, was that of boat-racing. During the week preceding a wager of \$40 a side had been gotten up between Messrs. Waterman and Benson relative to the sailing capacities of their respective boats, and Monday, the 6th, was the day designated for the trial. Accordingly at the hour set the boats made their appearance at Union Wharf fully caparisoned for the race, Waterman's under the management of Mr. Charles King, and Benson's under the surveillance of himself. Curiosity was on top respecting the result, a large number of people had congregated, and various were the sums put up by the excited spectators. Every thing being in readiness the signal was given and the boats, trimmed to the breeze, started for the stake-boat distant about three miles. Benson appeared to have the advantage for he was evidently considerably in advance, and it was generally conceded that he would win; but by the time he had reached the stake it was evident the other boat was rapidly gaining upon him, and but a few minutes sufficed to show that it was abreast of and, in fact, passing him. Now commenced the home stretch, which maintained its ascendency inasmuch that Benson was left far behind and did not reach the goal from whence they had started for some minutes after the successful one.

BOAT ROWING.

The day following the sailing match Mr. Hickman entered his boat against Mr. Waterman's, this time with oars instead of sails. The stakes—\$80 a side—were put up and excitement ran high. Bets ranging all the way from ten to sixty dollars were offered and taken by outside parties. At 2 o'clock P. M. the contestants appeared at the starting place, Waterman's manned by Mr. King and Hickman's by himself. They were placed abreast each other, and upon word given by the umpire the oarsmen struck out. For some minutes they seemed about even, and the spectators on the wharf were greatly divided in opinion respecting the result. Some contended that the short and quick stroke of Hickman was sure to win, while others were equally sanguine with reference to the long, measured stroke of King. The suspense, however, was not prolonged, for long ere the stake-boat was reached, Waterman's boat had distanced its competitor, and the race which, up to this time, had been witnessed with intense excitement, was decided to be in King's favor. The stake-boat reached, the home stretch commenced, and while as yet Hickman was over a mile distant King came in amid the applause of the assembled multitude, and thus ended the boat-racing scene.
