Political.

Lyman Trumbull. Senator Trumbull has not announced himself as a candidate for the Presidency at the next election so far as we are aware, has he authorized any person to do so in his behalf.

How the Democracy Can Win. The Republican party was originally a coalition, made up of Whigs, Democrats, Know-Nothings and Abolitionists. The Whigs contributed the greatest numbers of the rank and file to the new organization, but the Democrats furnished to it most important elements.

Instructive Incidents. There has lately been issued from the press of the Harpers The Domestic Life of Thomas Jefferson, by his granddaughter, Sarah N. Randolph, which is spoken of as 'one of the most instructive and interesting volumes of the season.'

A Pitiful Letter. A few evenings ago a citizen of Oswego, N. Y., found a babe on his doorstep. The child was taken in and tenderly cared for. A few days afterwards the captain of the night watch traced out the mother and took her into custody.

To be an Editor. Carlton, in his editorial poem, tells of an old farmer who made his way into the sanctum with a runt of a boy, who being good for nothing else, the farmer thought would do for an editor.

A Thief Served Right. Yesterday two well dressed young men entered the store of Burke, the latter, Fulton street and Broadway. One of them asked to look at a felt hat. A number of hats were produced and laid along the counter.

The Indians and the Fourteenth Amendment. A New York journal says that it is still an open question in the Indian Territory whether the Fourteenth Amendment applies as well to the red men as to the white, and adds:

The Power of the Press. I believe that all-powerful journalism has its own elevation and dignity in its own hands. I believe that its lead has now their 'time and tide,' and that they can work a reform in popular opinion in this respect, which will be felt by everybody connected in a way with the press.

How the Democracy Can Win. Born in Connecticut in 1813 of a famous old revolutionary stock, Mr. Trumbull emigrated to Illinois while yet a young man, and soon to a prominent position at the bar. A member of the Legislature of 1840, and for two years thereafter Secretary of State, the Democrats of Illinois elevated him to the bench of the Supreme Court in 1848.

How the Democracy Can Win. As it was with the Democratic party then, so it is with the Republican now. There are many distinguished leaders among the Republicans who are utterly opposed to Grant's Administration, and especially to his renomination, and who under no conceivable circumstances, will vote for his re-election.

Humiliating Comparison.

A short article on the outside of this paper, copied from the Oakland News, a leading Republican paper in California, comparing the successful candidate for United States Senator, A. A. Sargent, with Mr. Felton, the defeated candidate for that office, is full of food for reflection to all thoughtful well-wishers to their country and its Republican form of government.

The Washington Chronicle says: "It is reported that efforts are now being made to secure the Vice Presidency for Hon. George S. Boutwell. It is stated that such a step meets with the approbation of the President, and the names of Grant and Boutwell at the head of the Republican ticket will, it is thought, secure favorable opinions in the Eastern and Western States. This is the programme it is believed which is now being perfected in Philadelphia, preparatory to the assembling of the National Nominating Convention."

Duluth, East--Seattle, West.

The future destiny of Duluth points inevitably to a contest with Chicago for the commerce of the lakes. Chicago, thirty-seven years ago, was organized in a wilderness, with twenty-eight voting inhabitants. To-day it boasts a population of 300,000. Like Duluth, it has its origin in the projection of an important line of internal improvements, the Illinois and Michigan Canal.

The fixing upon Duluth as the lake terminus of the Northern Pacific R. R. brings the Pacific Ocean practically nearer by 769 miles, and the Asiatic trade nearer here by 1,500 than to Chicago. Hence the trade of the Pacific coast and Asia will flow through Duluth, its nearest outlet. Montana, Dakota, Idaho, Wyoming, Washington, and Oregon will also pour their vast mineral and agricultural wealth into the lap of Duluth, receiving in exchange her lumber, fish, flour and manufactured articles of all kinds, and her importations in the dry goods, grocery and other lines.

The lumber trade of this region, of immense value, will also be a source of prosperity for years to come; and with the water power at the Dalles of the St. Louis near Duluth, equal to 200,000 horse, it must grow up second to none in the United States, and add materially to her growth.

tures of his which Bierstadt took to New York were conceded to be the best still-life pictures ever seen in New York, of course I don't mean to include Rosa Bonheur's Horse Fair--for that, you know, can not be said to be a still life painting--for the horses are trooping along the road, and one, the central figure, is rearing up frightfully.

Then there was also a sprinkling of poets, among them Joaquin Miller, and he did look the very fright. One lady said he reminded her of his poetry, "slip shod," but that is a little hard I think, because having just read his book of poems, I do believe there is something a trifle bright about him, though he does not show to advantage.

About the pictures, I meant to have said before, that there were a few only, which could be called good, and a great many quite the reverse. The party was a success however, and there is a growing interest in the public mind in Art matters.

Up-Sound Items.

APPOINTMENTS.—Dispatches of the past week announce the appointment of Jos. F. Legget, of Kansas, as Governor, and of J. M. Carey Associate Judge, in this Territory, the latter probably superseding Judge Kennedy, of the first Judicial District. Gov. Salomon, we are now convinced, did tender the resignation of his office several months ago, but the President did not just at that time find any of his relatives out of office, and hence held the request in abeyance.

TRANSPORTING THE MAILS.—On Wednesday last, about noon, Hon. J. W. Brazee left Portland by a steamer that had been especially prepared for cutting her way through the ice, with a large amount of mail matter, nearly a ton, for this place. After some difficulties the boat reached Kalama, and there Mr. Brazee procured a hand-car on which he loaded the mail and started again for Monticello, which place he reached, ferrying the river, and delivered the mail in 6 1/2 hours from Portland, about average steamboat time.

LIVELY TIMES.—It does one good to notice the stir in our streets during the past week. What with the arrivals of steamers loaded with freight, and the consequent quick movements of innumerable drays and wood wagons, lumber for new buildings, side walks and plank roads being carted in every direction, and the farmers, who have been taking advantage of the fine weather and improved condition of the roads, to come to town with their produce, and return laden with dry goods, groceries, implements, &c., our business streets present a lively appearance, and make the hearts of our merchants happy in the anticipation of a large increase in their business from this time forth. They will not be disappointed.

A HEAVY WINDFALL.—By a private letter, received in Olympia a day or two ago, we learn that Capt. Roeder, of Bellingham Bay, has fallen heir to a handsome fortune in the East, by the death of a near relative. The legal executor of the estate has notified the Captain of his good luck, and the latter will proceed at once to take possession. He will probably come up on the steamer to-morrow, and take the stage for Portland and the Eastern States.

From the Kalama Beacon: The Northern Pacific Railroad Company has just closed a contract with the Locomotive establishment of Baird & Co., of Philadelphia, for fifty first-class engines for that road. The Philadelphia Post congratulated its readers on the fact that in addition to these and some forty other engines, the Northern Pacific Railroad Company have already purchased railroad material in Philadelphia to the amount of \$5,000,000.

ARRIVED.—On Wednesday night the Ajax from San Francisco, reached Portland, with 150 sacks of mail, which had been detained by the snow in crossing the continent, and yesterday we received a welcome installment, and are looking for the balance due this evening.

N. P. R. R.—PACIFIC DIVISION.—Information has been received at Headquarters of the following vessels having cleared for Kalama, viz: bark Corea left New York on Dec. 18, 1871, with 772 tons R. R. iron; ship Annie M. Small sailed from New York for Kalama Jan. 6th, 1872, with 1349 tons R. R. iron and other track material.

Two Baldwin passenger locomotives arrived in San Francisco on Jan. 19th, and will be shipped to Kalama by the first vessel that has space.

On the 25th of finished road, Mr. T. D. Shannon has a construction locomotive and train engaged in ballasting the road.

On the 10 mile Montgomery extension at Pumphrey's, about 300 Chinamen are engaged on the grade, with about thirty white employees. It is intended to push

work on this section as soon as spring opens.

Mr. Montgomery has let the Cowlitz river bridge to be built by Mr. L. F. Compton, on contract.

Mr. A. Hastings has the contract for piling the ten mile extension; there are 1200 piles to be driven on the first part adjoining the twenty-five miles, besides other parts of the line.

So far as we hear, the surveys of Budd's Inlet, as to the R. R. terminus on the east or west side, will not be reported upon for some weeks yet.

TRouble in Oregon.—Pending the Senatorial election in Oregon, which is reduced to the condition of a "truck and dicker" arrangement, quite a stir is being made in the removal and appointment of federal officers. A. B. Meachem, Superintendent of Indian Affairs has been succeeded by T. B. Odenseal; Exc. Gov. Gibbs has been appointed U. S. District Attorney and several changes have been made in Indian Agencies; which has created much excitement and considerable ill-feeling. The Democracy do not seem to be in a much more hopeful condition. The element which controlled in the last State Convention, and hence the present party organization, is literally described by Nasby as "Confederate X Roads" politicians. The State Central Committee, at its recent meeting, unanimously resolved against any concessions or compromises to secure the success of principles by the weakening of party obligations. They go for "a square victory or a square defeat," and the result is not doubtful.

S. C. Wingard, Esq., has been appointed U. S. Attorney for this Territory. Mr. W. is an industrious and energetic man, and will no doubt fill the office creditably to himself and the Government. He is a citizen of the Territory, and his appointment is a graceful response on the part of the President to the urgent demand that no more Carpet Baggers be sent here.

We shall publish next week the opinion of Chief Justice Jacobs in the case of Salter v. Boatman et al., tried at the Steilacoom Circuit, in which the Code Amendments are held to go into effect sixty days after the adjournment of the Legislature. This is contrary to the view held by ourself heretofore.

WOMAN SUFFRAGE.—In the U. S. Senate, Jan. 25th, the Judiciary Committee made a report on the memorials claiming the right of women to vote under the Fourteenth and Fifteenth amendments, and they say that the Committee are unanimously of opinion that said amendments do not confer the right of female suffrage. So the logic of Miss Anthony and the blandishments of Mrs. Woodhull were of no avail. This quiets the question in the present Congress.

RAILROAD AND DOCK MATTERS.—In our advertising columns our readers will see a call for a meeting of our Western Land Association, to adjust property matters on the Inner Harbor or Bay so as to accommodate the Northern Pacific plans for Docks.

There is no truth whatever in rumors that the L. S. & M. R. R. has been purchased and merged in the N. P. If any change in present arrangements is made, the probabilities favor an indefinite lease to the Pennsylvania Central, in connection with their iron steamer line between Duluth and Erie.

We suppose the rumor arose from the unquestionable fact, that the old contract between the N. P. and the L. S. & M. Railroads for a common proprietary interest in the Road of the latter between Duluth and the Junction was consummated on the first instant; and that hereafter this 25 miles of Railroad will be run as a common Trunk Line, and that a distinct Superintendent, paid by both roads, will take charge of it, and regulate the running of trains of each Company upon it. We are authorized to say this much.

It is not true, as rumored and stated that W. W. Hungerford has been designated Superintendent of the Minnesota Division of the Northern Pacific R. R.—the more's the pity!

The Northern Pacific track reached the Red River of the North at Moorhead on New Year's Day; and congratulations were exchanged by telegraph between Mayor Markell for Duluth and Gen. Ira Spalding, Assistant Chief Engineer of Minnesota Division of the N. P. R. R. Things is workin'!

The work of Engineer preparation for the putting in of the Northern Pacific Docks in the Inner or Bay Harbor of Duluth proceeds actively.—Duluth Minnesotian.

San Francisco Correspondence. SAN FRANCISCO, Jan. 17, 1872. I don't know whether you can decipher my writing this morning, for my eyes are blinded from viewing all last evening the pictures at the Artist's Reception. I wish you had been there, 'twas ever so nice. Artists were very numerous. Bierstadt, who is here for the winter with his lovely wife, and Toby Rosenthal, the new German light, the greater celebrities. Your friend Brooks had on exhibition the picture he was at work on when you took us to his studio. I really took an interest in the fish inasmuch as I had seen them in the flesh. By-the-way Brooks is at last attracting the attention he deserves, as the pic-

tures of his which Bierstadt took to New York were conceded to be the best still-life pictures ever seen in New York, of course I don't mean to include Rosa Bonheur's Horse Fair--for that, you know, can not be said to be a still life painting--for the horses are trooping along the road, and one, the central figure, is rearing up frightfully.

Then there was also a sprinkling of poets, among them Joaquin Miller, and he did look the very fright. One lady said he reminded her of his poetry, "slip shod," but that is a little hard I think, because having just read his book of poems, I do believe there is something a trifle bright about him, though he does not show to advantage.

About the pictures, I meant to have said before, that there were a few only, which could be called good, and a great many quite the reverse. The party was a success however, and there is a growing interest in the public mind in Art matters.

APPOINTMENTS.—Dispatches of the past week announce the appointment of Jos. F. Legget, of Kansas, as Governor, and of J. M. Carey Associate Judge, in this Territory, the latter probably superseding Judge Kennedy, of the first Judicial District. Gov. Salomon, we are now convinced, did tender the resignation of his office several months ago, but the President did not just at that time find any of his relatives out of office, and hence held the request in abeyance.

TRANSPORTING THE MAILS.—On Wednesday last, about noon, Hon. J. W. Brazee left Portland by a steamer that had been especially prepared for cutting her way through the ice, with a large amount of mail matter, nearly a ton, for this place. After some difficulties the boat reached Kalama, and there Mr. Brazee procured a hand-car on which he loaded the mail and started again for Monticello, which place he reached, ferrying the river, and delivered the mail in 6 1/2 hours from Portland, about average steamboat time.

LIVELY TIMES.—It does one good to notice the stir in our streets during the past week. What with the arrivals of steamers loaded with freight, and the consequent quick movements of innumerable drays and wood wagons, lumber for new buildings, side walks and plank roads being carted in every direction, and the farmers, who have been taking advantage of the fine weather and improved condition of the roads, to come to town with their produce, and return laden with dry goods, groceries, implements, &c., our business streets present a lively appearance, and make the hearts of our merchants happy in the anticipation of a large increase in their business from this time forth. They will not be disappointed.

Frances A. Ferguson vs. Jas. F. Ferguson. E. B. Pond et al. vs. William Meylenbauer et al.

KINDLY SAID.—The new Olympia paper, the Courier, has a kindly appreciative notice of Seattle, and butechoes the sentiment of our people when it says that we are not Terminus hunters, and mean to build up a city that will demand railroad connection with the Northern Pacific. It is noteworthy too, this notice, as a healthy change in abandoning that provincial jealousy, which has characterized the several localities on the Sound. We hereby tender the new Editor the freedom of the City without money and without price. Victorious shall not outdo us.

SUPPOSED WRECK.—It is reported that the steamer Mary Woodruff has gone down the Sound on a wrecking expedition. Some vessel is rumored in distress. We have not learned her name.

Mr. Gradgrind, speaking of facts remarked, that the most striking fact in all his large experience was, that although he had known hundreds of persons try Dr. WALKER'S CALIFORNIA VINEGAR BITTERS for liver and kidney complaints, scrofula, rheumatism, worms, fever, skin eruptions, headaches and all disorders arising from bad blood, that remarkable vegetable preparation had never failed to affect a speedy cure in any instance. Many thousands of persons also testify that the excellent Mr. Gradgrind was right as usual.

SNOW AT DALLES.—Fourteen inches is said to be the depth of the snow in the vicinity of the Dalles.

STILL ONWARD.—Among the numerous improvements in Seattle will be the fire-proof brick store of SCHWABACHER, Bros. & Co., soon to be erected on Commercial street, adjoining Yesler's corner. The building will be a handsome structure, three stories high, with iron front, and constructed with all the artistic taste of a first-class city structure.

Another lot of fine Merino sheep, from the Patterson ranch, Alameda, will be shipped to Japan by the America. The City Hall investigation, to-day took a more definite shape. W. Mills swore that he had the contract for furnishing the stone from Telegraph Hill for the concrete, and sold it out to Jourdan for \$7,000. The latter then delivered any kind of rubbish, just as it came from the quarry, and it was all used without being screened. Had he known that the material as furnished by Jourdan would have been accepted, he would not have taken \$20,000 for the contract, but he supposed that the specifications were to be complied with. The architect told him if he was Jourdan's partner he would be his friend, he then told Jourdan that, seeing he was in with the architect, the contract on which he expected to make \$5,000, was worth \$10,000 to Jourdan and so the sale was made. The general impression outside is, that if there has been stealing going on, it was not done by the Commissioners or with their knowledge.

Postal Agent Barstow telegraphs from Ogden that the Western bound trains are blocked at Miser station on the Union Pacific and that he does not think he can get the mail through before Thursday next. Christian Leave shot himself, to-day, by the grave of his wife in Lone Mountain. His wife had been dead some time but her loss seems to have permanently affected his brain. He was about 52 years of age and leaves a grown-up son and daughter. He left no letters or anything to show any premeditation of the act. This is the third suicide within a week in San Francisco.

SACRAMENTO, Feb. 1.—The Japanese Embassy visited the Legislature to-day and will dine at the Orleans House this evening with members of the Legislature and other invited guests. ELKO, Feb. 1.—Word has been brought from Humboldt of an attempted murder by a young man named Charles Billings. Having asked Miss Sheldon to marry him she refused. He then drew a pistol and shot at her twice, but failing to hit her he blew out his own brains. The affair has created great excitement as the parties are well known.

SALT LAKE, Feb. 1.—Notwithstanding the postponement of the bill, the Mormon leaders still profess strong hopes of Utah being admitted into the Union at this session of Congress. Nearly 3,000 tons of ore and bullion is waiting transportation. Of the above amount 1,500 tons is from the Emma mine. There is great stagnation of business owing to the snow blockade on the Union Pacific Railroad.

CORINNE, Feb. 1.—Snow is drifting badly all along the roads and getting hard. EGONNE CITY, (Oregon) Feb. 1.—Chas. A. Montgomery, a brakeman on the Construction train was killed to-day a few miles south of Eugene. In passing from one car to another he fell between the cars passing over him, killing him almost instantly.

SAN FRANCISCO, Feb. 1.—Wheat—choice, \$2 15. Barley—\$1 40 @ \$1 60. Oats—choice, \$.80 @ \$1 85. Hay—good wheat and wild oats \$21-50 per ton. SALT LAKE, Jan. 31.—In the House this evening the committee on the veto message and admission act reported a resolution that the statements in the message were injurious, false and a direct insult to the people of the territory, which was unanimously adopted.

In the U. S. Court this morning the District Attorney, pursuant to instruction from Attorney General Williams, moved that all prisoners in the custody of the U. S. in Utah be admitted to bail. LONDON, Jan. 31.—Thanksgiving ceremonies in St. Paul's Cathedral for the recovery of the Prince of Wales are announced to take place on 17th February. PARIS, Jan. 31.—The directors of the Official Journal published under the control of the Commune have been sentenced to transportation. MADRID, Feb. 1.—No immediate change will be made in the Ministry. LONDON, Feb. 1.—Catacazy arrived at Liverpool yesterday. A dispatch from Constantinople reports the arrival of a squadron sent out with General Sherman. Preparations are being made for his reception.

PARIS, Feb. 1.—The German authorities prohibit the sale of French journals in Strasbourg. WASHINGTON, Jan. 30.—The President sent the following nomination to the Senate to-day: Samuel C. Wingard, to be United States Attorney for Washington Territory. SALT LAKE, Jan. 30.—Brigham Young advises this evening in the church organ that in 1866 he offered \$500 reward for the arrest of the murderers of Dr. Robinson, but now, in consequence of endangering the lives of innocent men he withdraws that offer.

WASHINGTON, Jan. 29.—The apportionment bill, as it passed the Senate, fixes the number of members of the House of Representatives at 243. PORTLAND, Jan. 30.—The Oriflamme arrived this evening from San Francisco. Articles of incorporation of the Portland and Washington County Plank Road Company were filed to-day. The capital stock has been fixed at \$60,000. The new military company is a success.

The real estate market is becoming brisk again. The sales are more frequent and good prices are realized. Grading on the Oregon and California Railroad has been completed to Oakland. Track laying commenced to-day, and will be continued until the road is in running order to that point, one hundred and eighty miles from this city. Enough iron has been received, or is now on the road, to complete the road to Roseburg. ALBANY, Jan. 31.—The trial of Tweed will not take place till March. This is actually postponing it till the close of the Legislature. It is probable that Tweed will now take his seat.

NEW YORK, Jan. 31.—The will of Jas. Fisk was admitted to probate to-day, and is sworn to be a million dollars. His widow is sole executor. At a meeting of Oyer and Terminer Court this morning, Judge Graham announced that he had denied the motion of the counsel of Stokes to quash the indictment against him. His trial will accordingly take place under the present indictment. Ex-comptroller Connelly's bondsman, qualified with sums which they offered themselves and were fully accepted.

MUNCHAUK, Feb. 1.—An accident occurred to a Lehigh Valley train this morning resulting in throwing three cars from the track at Rocky Point, above the town; five persons were killed and seven wounded. PORTLAND, Jan. 28.—A heavy column of smoke was seen arising from the summit of Mount Hood yesterday from daylight till late in the day. The steamer Ajax sailed yesterday, taking on board troops at Vancouver. She passed Kalama at 5 o'clock this morning.

There has been considerable ice in the river, but the steamer will probably be able to break through. Vessels intending to sail yesterday are still here, owing to the uncertain condition of the river. Weather mild, with indications of rain. NEW YORK, Jan. 28.—It is very probable that Tweed will go to Albany to-day or to-morrow. He is now said to have secured a sufficient number of Senators to enable him to take and keep his seat. A London letter to the Tribune says that the appointment by the British Government of Frank Seidmore, formerly Second Secretary of the Post-office, as Director General of the Telegraph, means a return to the Government censorship of private correspondence.

Stokes was arraigned and pleaded in the court this morning. His lawyer, John Graham, said he intended to move to quash the indictment, as the Grand Jury had been given the case before the Coroner's Jury had given their verdict, the Coroner kept back the fact as to whether the deceased was armed, and otherwise exceeded his authority in his anxiety to obtain a murderous verdict. The court has adjourned till Thursday. WASHINGTON, Jan. 29.—The bill for the recognition of a state of war between Spain and the Republic of Cuba, declaring both parties entitled to belligerent rights including the right of each to carry their respective flags on water of the United States, was introduced by Voorhees who moved a suspension of the rules and passage of the bill. After debate the bill was referred to the Committee on Foreign Relations.

It is said among Republican members of the House that the House will pass the Senate resolution for the adjournment of Congress on the 29th of May. The Committee of Appropriation are making more haste than heretofore with this view. SAN FRANCISCO, Jan. 30.—Postal Agent Barstow telegraphs from Ogden that the blockade on the Union Pacific Railroad is worse than ever. The passenger train which left Omaha twelve days since is still 480 miles from Ogden, and there is no prospect of a change for the better. CINCINNATI, Jan. 30.—As the passenger train on the Louisville Railroad was passing Ogle station, fifty miles from this city, a most terrible accident occurred. The depot platform contained a number of passengers waiting for the train, when the cars swept across the platform, mowing down a number of persons who were upon it. The express car was totally wrecked and caught fire, but was speedily extinguished. Quite a number were wounded, two of whom are not likely to recover.

LOUISVILLE, Jan. 30.—The Grand Duke Alexis arrived this afternoon, and was received at the depot by a committee of citizens and escorted to the Galt House. The streets were lined with spectators, and the windows were crowded with ladies. To-night the Galt House is ablaze with lights and crowded with guests. The doors were thrown open at 9:30. Alexis and suite appeared in the presence of the committee of citizens and Legislature, and was formally welcomed by Gen. Preston on behalf of the city, and by Speaker McGreery on the part of the State. The Duke danced with Mrs. Gen. Preston. The band, composed of forty pieces, was superbly arranged. SALT LAKE, Jan. 27.—Gov. Woods to-day returned to the Legislature the act for holding a Convention to prepare a Constitution for the admission of Utah, without his approval. The message created much excitement and the members expressed themselves with bitterness. Taylor, of the Apostles, exclaimed, "Are we nonentities? Are we serfs? Have we rendered ourselves criminal by putting power into the hands of the people to ask for admission into the Union? The polygamy clause of this message he said he considered an open insult to us. It is worn threadbare and has become a stink in the nostrils of all respectable people. What laws have we violated, and if we have violated any why are we not punished for them? Even murderers have been brought out to testify against us. If polygamy is contrary to the laws of the United States why don't the Federal Judge prosecute us under the laws of the United States? Is this House to be insulted by such charges as are contained in this document from the Governor? I say no! I throw it back into his face. Tell him it is a falsehood!" [Voices—hear, hear.] Jos. W. Young did not care a snap for the Governor or his veto.
