**MODOC WAR.**—The General Government having ordered a suspension of hostilities against the Modoc Indians, and appointed a Peace Commission to treat with the hostile Indians with the view of complying with their demand for a cession of lands of their own selection in the State of Oregon, as a reservation for their own exclusive use, under Government subsidy and protection, which would necessitate the removal of white settlers, citizens of the State, and secure to the murderers and robbers of many white citizens of the State amnesty for their manifold crimes, Governor Grover has issued a firm and well-considered proclamation against this Federal invasion of State authority and superseding of State laws relating solely to the protection of life and property of citizens of the State against domestic violence. In this position the Governor is not only vindicating the unquestionable rights of the State against Federal usurpation, but is interposing, to the extent of his power, the only protection to the exposed settlers of their homes and repetitions of Indian outrages from which that portion of the State has so often suffered. The heartless folly of conceding belligerent rights to nomadic bands of thieves and murderers of defenceless citizens, is bad enough when exercised upon territory exclusively under Federal jurisdiction; but the attempt to establish a penal colony within the bounds of an independent State, in violation of law and contempt of State authority, is simply outrageous, and if it leads to deadly conflict—as it inevitably will—the blame must rest upon the arbitrary assumptions of Federal authority.

The grand jury of Jackson county has presented true bills of indictment against a number of these Indian outlaws for murder. The whole power of the State is compelled to aid in their arrest; and if lawfully tried and found guilty, what legal authority has the President, or any one holding office under him, to arrest the judgment of the Court? It is time that State laws were vindicated in the case of Indian crimes, and Governor Grover will have the sympathy and support of all law-abiding citizens in the stand he has taken.

**THE BURGARS' CAUGHT.**—Sheriff Atkins, with the assistance of Policeman Robert Turnbull has been for some time working up the case of the late burglars in this city, and finally obtained a clue which fastened suspicion upon three men lately in this city, known respectively as Bozier, Beatty and Charley. Ascertaining that these men had left here under an engagement to work at Gardner's logging-camp, on the Tulalip, Messrs. Atkins and Turnbull, on Tuesday night, went to the camp, bagged the whole three and brought them to this city, where they are now in jail. A small portion of the stolen goods were found upon them, and information is in the possession of the officers which will probably lead to the recovery of the money and papers stolen from Judge Dennison's room. The silver plate taken from the residence of Mr. S. F. Coombs, was found upon the prisoners, cut up into slugs, and was identified by initials upon it which had not been obliterated.

The grand jury was discharged on Saturday last, but another was immediately impanelled by order of the court, and the prisoners will undoubtedly be presented and tried at the present session.

Sheriff Atkins awards to Mr. Turnbull great credit for the sagacity and zeal he has displayed in ferreting out and capturing the criminals.

**NORTHERN INDIANS.**—We were in error in stating that in the case of Keading, indicted for selling liquor to an Indian, the jury acquitted him under the instruction of the Court that a British Columbia Indian did not come under the law. The charge of the Judge, we are now informed, was directly against this point, raised by the prisoner's attorney, and our mistake arose from the fact that we were informed by a lawyer that the acquittal was on the ground stated, and the conclusion naturally followed that such a legal discrimination would not have been made by a petty jury without the authority of the Judge.

We have already given our opinion that the exception was well taken; that a foreign Indian is entitled to the same rights in this country as any other foreigner, and that no discrimination can be made against him on account of color or previous condition. But we hope the Judge is right; for if he is, then we have an easy solution of the question of abating the Indian nuisance in this city, under the Territorial law, which is referred to by our correspondent, "A Pioneer," and if the laws are enforced with reasonable diligence and honesty, the community may be immediately rid of the most pestilential nuisance which now infests it.

We see by a freight list that the new material for the revival of the Port Townsend Argus, has been received by Mr. Pettygrove, the publisher, and we may reasonably expect to soon look upon its face again. We have felt lone ly without it.

**EDITOR DISPATCH.**—Noticing in your paper yesterday the allegation, that "every British Indian in the city could be lawfully and rightfully imprisoned," I am led to ask still further: whether every white person who employs, or harbors a Northern Indian for any purpose whatever, is not liable to prosecution under the law?

The writer of this well remembers that shortly after the murder of Col. Ebeby, a law was passed, making it a penal offence for any one in the Territory to employ a Northern Indian, and he has reason to believe that the law has never been repealed. It may have been a dead letter so far, but if still on the Statute book, it can be revived.

We might thus strike in both directions, the Indians who have no right here, and the parties who have no right to employ them. A PROSEER.  
 SEATTLE, Feb. 12, 1873.

**OLD FOLKS' CONCERT.**—No event which has happened in Seattle within our recollection caused such unbounded delight and such superlative terms of praise as the "Old Folks' Concert," by Olympia amateurs, on Wednesday evening, for the benefit of the Episcopal Church, in this city. There were 33 persons from Olympia who took part in the concert, all dressed in ancient costume. We would gladly give a list of the names of the persons who so generously contributed their time and talents to this object, but the copy which was brought to the office was taken away again for some purpose and has not been returned, and we cannot make up the list from memory, and do not desire to make discriminations where all are so well entitled to credit. The entire party was brought from Olympia, by the str. Zephyr, free of charge; and returned to Olympia on the same terms, by the str. Alida. Gross receipts of the concert \$208; net \$150.

Mr. Roosevelt, of New York, has introduced into the House of Representatives a bill to relieve certain books from duties, which provides that the following books, to-wit: "The Life of St. Patrick, Apostle of Ireland," "The Illustrated History of Ireland," "The New School History of Ireland," "Jesus and Jerusalem," "Visits to the Altar of Mary," "The Living Crib," "Student's Manual of Irish History," and "The Catechism of Irish History," all by Sister Mary Francis Clare, of the convent of Poor Clares, Keenmare county, Ireland, and which are published solely for the benefit of the poor, be admitted into the United States free from any duty which is now or may be hereafter laid upon foreign books or publications under any law.

**A CARD.**—At a meeting of the Ladies' Aid Society of Trinity Church, the following resolutions were unanimously adopted:  
 Resolved, That the thanks of this Society are hereby tendered to the "Old Folks" of Olympia, for the admirable entertainment afforded our citizens on Wednesday evening last.

Resolved, That the Society will ever remember the generous favors bestowed upon us by J. R. Robbins, Esq., and Capt. E. A. Starr, for conveying the "Old Folks" from Olympia to Seattle and return, free of charge.

Resolved, That our thanks are due to the citizens for their liberal patronage and generous donations to the New England Supper.

Resolved, That a copy of these resolutions be sent to the "Old Folks" of Olympia; also to the papers of this city and Olympia for publication.

Three young men met by chance at the house of an Albany lady a few evenings since to take her to church. Two of them came away without the girl, and they now think that the lucky third fellow is a "sogless, grasping, grinding monopoly," and they are going to organize for the purpose of crushing him out. But as the girl proposes to patronize the crushing monopoly, the *Demo* crat thinks the opposition will probably be compelled to sell out, or draw off, as usual.

**THEATRE.**—The Waldron Dramatic Troupe, performed to a very fair audience, at the Pavilion, on Thursday evening, and it is only fair to say that all who witnessed the performance were not only pleased, but most agreeably surprised at the high artistic character of the acting. Neither good morals nor refined taste will suffer by attending the exhibitions of this company any more than they would by attending popular lectures or dramatic readings.

**GOT AN OFFICE.**—We have been very dilatory in announcing the fact that our esteemed cotemporary, General John Miller Murphy, has been appointed School Superintendent for Thurston county. This recognition of merit is not only encouraging to editors in general, but is favorable to the school marmas, as the General is an ardent advocate of Women's Rights; and we agree with him to the extent that women, as a class, make better teachers of children than men.

Our young friend George Gaches, for a long time book-keeper for Crawford & Harrington, has joined his brother-in-law in the purchase of the stock and business of J. S. Conner, of La Conner, and will hereafter carry on the business of dealers in general merchandise at that place under the firm name of J. & G. Gaches. We need not wish these young men success; they have the integrity, industry and business capacity to achieve it.

**MISSING.**—The 1st volume of "Allison's Europe," belonging to the old library, is missing. Whoever will return the same to Mr. Mackintosh, the Librarian of the Seattle Library Association, will be liberally rewarded.

**WANTED.**—A woman or girl to do house-work in a small family. Liberal wages and a long engagement is offered to a competent person. Inquire at this office, or at the residence of the editor.

**DENTISTRY.**—Dr. B. B. Freeland will be at Steilacoom until the first of February; he will then return to Seattle to remain two weeks, after which he will again be absent for a short time.

The grand jury summoned to inquire into the case of the men arrested for burglary, this morning presented three bills of indictment against them. Their trial is set for Monday.

S. F. Coombs has just received his first shipment of Cigars, which he proposes to sell wholesale and by the box.

The series of Union prayer meetings for next week will commence at the Brown Church, on Monday evening.

BERNARD TRONBY, EDITOR

An Important Question.

A case is now pending before the District Court, in session in this city, involving one of the most important principles of government within the scope of judicial power to determine the right of the people to the control of their own municipal affairs, upon which depends the right of self-government; for it is a political axiom, that without municipal independence there can be no self-government or guarantee for personal liberty. The case under consideration is an appeal from a verdict of City Recorder's Court, under a City Ordinance prohibiting the opening of places where intoxicating drinks are sold, on Sunday. As to the legal merits of this case we have nothing to say. If the exception taken had been upon the ground that the municipal act conflicted with the personal guarantees of the Constitution of the United States, that would have been a matter exclusively for the Courts to decide. But the Attorney for the appellants bases his case upon the denial of the right of the Territorial Legislature to exercise or confer any municipal powers without the express consent of Congress. This is a political question, affecting the future of the personal rights and liberties of every citizen of the United States residing within any of the Territories thereof, and affirms a political doctrine which we are bound to traverse whenever or wherever asserted.

The right of self-government is an inherent and inalienable right, attaching to every citizen of the United States, and limited only by the express grants of power embodied in the Constitution. Now we defy any jurist to indicate a single expression in the Constitution, which confers upon Congress either express or implied powers to make laws for, or to revise the laws of, the people of a Territory, which does not apply with equal force to the people of the several States. All the delegated or reserved powers of Congress over the territories belonging to the United States outside of organized State governments, is simply the right of eminent domain, referring exclusively to the property in the soil, under the general phrase, "territory and other property," which refers to Government lands in the States as much as to the Territories. Neither the Constitution nor the Ordinance of 1787, under which the Northwest Territory was divided into five new States, with the terms of their admission into the Union expressly stated, contain any such anomalous expression as "Territorial Government," or anything to indicate the right of Congress to interfere with the municipal regulations of the people of the Territories; and no written authority to the President to appoint civil officers to govern the Territories. All the Federal powers exercised over the local governments of the Territories, not specifically authorized by the Constitution, are assumed, and like all usurped powers, not limited or defined, are constantly aggregating, until now citizens of the United States residing in the Territories, are denied any voice in their municipal government, as well as any vote in the General Government, and have less rights than are conceded to Chinamen or plantation negroes in the States. We protest against any further concessions to arbitrary power.

The Philadelphia Press thinks it is one of the blindest facts in American public life that there are States in which a man's riches are the only thing necessary to give him an influence which will elevate him to a seat in the Senate of the United States. In this opinion the Press is right. Some years ago was one such result in Oregon, but it has not been repeated. —Portland Bulletin.

The two papers above quoted from express very just sentiments; but it is a remarkable fact that neither of them should ever have mentioned the subject before, though within their cognizance years ago. The circumstance alluded to by the Bulletin, was the purchase by the "lamented Colonel Baker," of California, of a seat in the United States Senate of an Oregon Legislature, paying the subsidized members in drafts on a San Francisco banking house. Among the members whose votes were thus purchased, was one, then a Democrat, who was subsequently the editorial associate of the present editor of the Bulletin for many years, and is now his political yoke-fellow—both being under subsidy to Ben Holliday, who has notoriously expended more money in Oregon politics than all the other corruptionists of the State combined.

In the case of Colonel Forney of the Press, he knew the facts which he now so piously deprecates as well ten years ago as he knows them now, and what has been done in the mean time to arrest or erase this black spot upon American public life? He knew then that Simon Cameron had been twice elected to the Senate from his own State by the corrupt use of money—the second time against himself as the caucus candidate of the dominant party. On that occasion the Democrats had three majority on joint ballot, and Forney was the Democratic caucus nominee. Cameron was elected by receiving the entire vote of the Republicans and two votes of Democratic members of the Legislature. A short time after this we were with Forney and Cameron at a social gathering and heard them discuss the incidents of the contest with no more affectation of secrecy or pretence to any moral

principle than if it had been a jockey horse race or a cock fight in which the result had been achieved by sharp practice or superior finesse. In speaking of one of the Democrats who voted for Cameron, Forney said: "That rascal demanded a thousand dollars of me for his vote, and I paid it; now tell me, Sime, how much did you pay him?" "Well," coolly replied Cameron, "I don't remember the sum now, but I know the bargain was that I was to double the amount you paid him." The difference between Forney and Cameron was, that Cameron won and Forney lost at that game. They have acted together ever since, and both have been remarkably successful. And from the public identity of position of the two, we are led to believe that there is no greater moral difference between the editor of Mr. Holliday's personal and political organ and his confederate who sold his legislative vote. It is a noteworthy sign for the better, however, when such men feel constrained by public sentiment to publicly denounce political corruption.

FAREWELL PARTY.—An impromptu farewell party to Mr. and Mrs. Bailey Gatzert, who are about to depart for Europe to be absent for a year or more, was held at the Pavilion on Tuesday evening; on a few hours notice, and was attended by a very large number of our citizens, among whom no persons in this community possess so large a share of esteem and friendship as the recipients of this flattering manifestation of their social appreciation. After Mr. and Mrs. Gatzert had retired from the hall, they were serenaded at their home, and in these public demonstrations nothing was lacking to assure our departing friends of the warm place they hold in the hearts of their neighbors and to send them with them upon their journey pleasant recollections of the home in Seattle.

Bailey Gatzert is one of the most enterprising and valuable citizens Seattle has ever had, and has added more to the commercial prosperity of the town than any other. A little over three years ago he established in this city the mercantile house of Schwabacher Brothers & Co., as managing partner, and by superior business sagacity and honorable and liberal dealing, he attracted to this point a large jobbing as well as retail trade which has made this town the commercial metropolis of the country bordering upon Puget Sound, and has not only increased the trade of his own firm to a remarkable degree, but in a like proportion has enhanced the trade of all others in the same line and infused vital activity into every department of commerce and industry, and used his money and his credit liberally in assisting others in carrying on established enterprises and developing new sources of commercial prosperity. His firm has also done more than any other in town improvements. During the past year they expended \$26,000 in buildings for their business, which are the most substantial and attractive ornament to the business portion of the town. Before this, Mr. Gatzert had erected an elegant private residence, which under the management of his estimable wife, was the home of bounteous hospitality to all who chose to partake, stinted by no consideration for wealth or worldly estate. Nothing of the mere merchant or money-gatherer was visible in the social habits of Mr. Gatzert or his wife; they entered with a keen zest into all innocent social amusements, and extended a liberal hand to all projects for social improvement, regardless of party, religious or national differences. Society will miss them much during their sojourn abroad, but we are authorized to promise our readers occasional reports of the results of their observation, particularly of the Vienna Exhibition, which they propose to attend.

Mr. Louis Schwabacher, a member of the firm, assumes the management of the house here, and from our limited acquaintance with him, we feel warranted in saying that he is a worthy successor to Mr. Gatzert.

DEPLORABLE ACCIDENT.—On Thursday of last week, Sister Celestine, of the Catholic Convent, who was under medical treatment, took by mistake a dose of corrosive sublimate. All that medical science could do for her relief was brought into requisition, but after lingering in great agony down to Wednesday night, death put a period to her suffering. At the request of Lady Superior of the Convent, Coroner Thibodo held an inquest on the remains. After hearing all the facts in the case, the jury returned a verdict of "death from accidental poisoning." Deceased was aged about 24 years, and was one of the noble band of "Sisters of Charity," who consecrate their lives to nursing the sick and burying the dead. —Walla Walla Statesman.

UNITED STATES PRISONERS.—Attorney General Williams has ordered that all criminals convicted in this Territory under Federal laws and sentenced to imprisonment, must be sent to the California penitentiary to serve out their term. This is probably a judicious arrangement in regard to persons sentenced for high crimes and long terms, but it involves an unnecessary expense in cases of ninety days' imprisonment, and should be left to the discretion of the Courts. The ends of justice are sometimes defeated by the excess of penalty prescribed by law.

MITT SOCIETY.—The Mite Society of the Congregational Church, will be held at the residence of David Kellogg, on Thursday evening next. All are invited.

NORTH PACIFIC RAILROAD.—The New Northwest, published at Deer Lodge, Montana, in its issue of January 11th says:

The N. P. R. Co. has let the contract for building the three hundred miles of their road from Wallula to Pen d'Oreille Lake this year, as mentioned in the letter of Mr. Clagett three weeks ago. The circular from Jay Cooke & Co., published in this issue, states the fact of the contract having been made. Private advices inform us that it is a special contract in which the company gives a mortgage on certain lands owned by it, and the contractors furnish their own means to build the road, while the Company, we are informed, will not use the money derived from the sale of bonds to push their road with redoubled energy westward from the crossing of the Missouri.

It will be noticed, too, that the bonds are quoted by the Wall Street Journal as the best selling railroad securities on the market. It will be seen that President George W. Cass, in accepting the position after a thorough investigation of the road and the affairs of the company, does it in the strongest terms of confidence, and Mr. Cass is in the front rank of the legitimate railroads kings of America, with a reputation for keen sagacity and thorough integrity that commands millions of money to an enterprise he manages. It is to be observed that a reduction of the rate of interest on the N. P. R., bonds is contemplated, the Directors deeming it practical to sell sufficient bonds at 6 per cent. interest instead of 7 3/10 per cent., to furnish the money required for construction.

Now all these things go to convince us 1st.—That 300 miles of the Pacific division of the road from Wallula on the Columbia to Pen d'Oreille Lake is already under contract to be built this year, and that it will be built to Missoula and Deer Lodge counties next year, if not this.

2.—That the bonds are selling better than any other railroad securities on the market; and that with the money so procured, the Eastern division will be pushed with all possible speed next year and completed as soon as possible.

We have a letter from President Cass in which he says that, under certain circumstances, "we will undertake to carry our road to Helena or its longitude in much less time than any other road can be built there."

The company, then, not only design pushing their road vigorously to a junction from the East and West, but Mr. Cass evidently sees it within the possibilities to complete the continuous line of the rail from Lake Superior to the Columbia river in 1874.

RAILROADS IN TERRITORIES.—The House of Representatives has passed a bill in relation to the construction of railroads in the Territories. The bill provides that in several Territories the right of way across public lands, not exceeding two hundred feet in width, and not exceeding twenty acres of land for each ten miles of road, for the erection of suitable station buildings, turnouts, reservoirs, switches and machine-shops, be granted to any railroad company that is incorporated under the general incorporation law of the proper Territory. This act is not to apply within the limits of any Indian or military reservation without a special act of Congress. When such railroad shall pass through a mountain canyon, defile or pass, the right of way through the same is not to be exclusive, but any other road shall have the right to pass through the same, but not in such a manner as to impair the track or operation of the road first constructed. In case such railroad shall not be completed within five years after the formation of the corporation, the rights herein granted are to be forfeited as to the uncompleted portion of its line. No Territory shall in any manner give or loan its credit to any railroad company; nor shall any county or municipality therein do so unless duly authorized thereto by an act of the Territorial Legislature, nor unless the act shall be ratified by a two-third vote of those voting upon the question; and no person except a qualified elector, resident in the county or municipality affected thereby, and who has paid taxes on real and personal property to such county or municipality on the last property assessment preceding the election, shall be authorized to vote on the question. The Legislature of the proper Territory is authorized to provide in its general railroad incorporation law for the manner in which private lands and possessory claims on the public lands of the United States may be condemned to the extent and for the purpose hereinbefore mentioned; but no condemnation shall be had without first making, or securing to be made, a fair compensation therefor. All proceedings for such condemnation shall be had in the District Court of the district embracing the land.

THE ARKANSAS NEW SENATOR.—S. W. Dorsey, the new Senator from Arkansas, is a native of Vermont, where he was born in 1840. He graduated at Oberlin, was captain of Ohio artillery in Virginia, then became an iron-monger at Sandusky, Ohio, and is now settled at Helena, Arkansas, as President of the Arkansas Central Railroad.

REMEDY FOR COUGH.—An exchange says: Take a knife or grater, and grate or shave off in small particles about a teaspoonful of alum; mix it with about twice its quantity of sugar to make it palatable, and administer as quickly as possible. Its effects will be truly magical, as almost instantaneous relief will be afforded.

Seattle, Dec. 9, 1872.

WHY ALEXIS WANDERS.—The Washington Capital is authority for this story: It seems that Fred. Grant brought something back from Europe more valuable than himself, and that is a bit of Imperial gossip. We were flattering ourselves that the Grand Duke was sent to the United States for the purpose of studying our institutions and the character, manners, etc., of our people. It was the first time we were assured that the son of a Czar had been sent to a Republic. It turns out, however, according to Fred., that this is all a delusion. The Prince Imperial had become enamored of a lady, not of the blood royal by any manner of means, and wished to marry her. This did not meet with the approval of the Imperial family, and so, to get clear of the messianic, the young man was sent abroad. But love laughs at locksmiths (when he has a latchkey,) and the young girl, followed her Imperial lover as far as London, the two were united, on the sly, in the holy bonds. This coming to the ears of the Imperial father, resulted in a banishment that will probably last his life, and so the young gentleman will be traveling up and down the earth like the Wandering Jew for a long time, to-wit, forever.

Attorney-General Williams has directed the United States District Attorney at Mobile, to discontinue the suits brought against the importers of foreign goods who during the war paid customs duties to Confederate officials, such suits have been instituted to recover to the United States the amounts thus paid, as import taxes. The Attorney-General takes the ground that as the Confederate Government was a de facto Government at that time, and that as people who said taxes were paid were not able to resist it, and the United States officers not being there to receive the duties, the suits which have been entered, ought not to be prosecuted.

The London Saturday Review offers these suggestions: It is said that there may very possibly be something in Spiritualism. Some mediums are eminently respectable people, and at any rate the matter demands scientific investigation. Very well; let it be scientifically investigated. Medical men have to investigate madness and all varieties of loathsome diseases; but it does not follow that crowds of ignorant people should take up a pursuit for which they are totally unqualified, and which leads them into very serious danger of infection.

DIED.—In this city, Wednesday morning, February 19, of general debility, John T. Hayt, formerly of Eaton county, Michigan, aged about 70 years. The funeral ceremonies will take place at his late residence in Belltown, Thursday at 2 o'clock, p. m., conducted by Mrs. Wiggins. The deceased was one of the pioneer settlers of Michigan, and has resided here for about two years. Those who have known him long, bear testimony to his blameless character.

WILL FLY MANY CONGREGATIONS.—A Boston minister says he once preached on "The Recognition of Friends in the Future," and was told after service by a hearer that it would be more to the point to preach about the recognition of friends here, as he had been in the church for twenty years, and didn't know any of its members.

Three of the members of the Kanaka cabinet are Americans, and one is a Scotchman. The new King, Prince Bill, has been accustomed to associate with a lot of shrewd Yankees, and it is undoubtedly due to them that he was enabled to manage the natives so as to become their ruler.

SEATTLE, THURSDAY, FEB. 20, 1873.

**Financial and Commercial.**

SEATTLE, Feb. 20, 1873.  
The Puget Sound Banking Company report gold in New York 115, currency buying, 86%; Sight Exchange on Portland and San Francisco, 1/2 per cent. premium, on New York 1 per cent. premium for Currency, 1 1/2 per cent. premium for Gold. Sterling Sight Drafts on Jay Cooke, McCullough & Co., London, England, \$5 10 per £. These drafts are cashed by special agreement all over Ireland, Scotland and the Continent free of charge.

Money is in fair supply at 2 per cent. per month. From our exchanges we learn there is a general easing up of the money markets and a better feeling in the financial circles. The rate in San Francisco is 1 to 1 1/2 per cent. per month; in New York 7 per cent. per annum. The rate of discount at the bank of England has been further reduced to 3 1/2 per cent. per annum. Although a long distance from the financial centers of the world, we soon feel the effect of good times and cheap money. A tight money market in San Francisco is felt here as soon as there, as shown in January. Money was very tight in San Francisco, our Mills stopped drawing drafts or buying logs, trade was almost suspended, our merchants had long faces and went around prumpling. Now money is easier in San Francisco, drafts are freely offered at the banks, times are better and we are all more cheerful.

We clip from the San Francisco Bulletin a short article on saving banks, which shows the rapid growth in California, the help to trade and improvements and the helping of the working classes to save their money:

"It appears from the reports of the ten interior Savings Banks, for the last six months, that these useful institutions are in a flourishing condition, and doing much good by utilizing local capital for the assistance of local enterprise, and the building up of local credit. Their line of deposits exceeds eight millions of dollars in gold, and have been able to declare dividends ranging from 9 to 12 per cent. per annum. Remembering that the Savings Banks of San Francisco show a line of deposits reaching forty millions, it will be seen that these institutions, which have grown up in a few years from very small beginnings, form a very important part of our financial system, and have a good influence on our industrial economy."

The New York Shipping List of a late date says: "There is no special activity in the general merchandise markets, yet we are enabled to note a gradual improvement in some of the leading departments, consequent upon the amelioration in the condition of monetary affairs on both sides of the Atlantic, the recurrence of a more moderate temperature and the removal of some of the impediments to inland transportation. As a general remark, are well reported, particularly leading agricultural products, the principle articles of groceries, most kinds of manufactures and the raw materials thereof. Light stocks here and in many of the subordinate markets, the good trade prospects and gradual return to the normal condition of the money market, are at the bottom of this firmness in prices. If no untoward event should occur to interrupt the natural course of business, there is reason to believe that the year just entered upon will be one of more than average commercial prosperity.

The San Francisco freight market is unusually firm. The Commercial Reporter of the 7th inst., says: "There is very little disengaged tonnage in port, and some of the ship owners are demanding extreme rates. Seattle coal has declined in the San Francisco market to \$12 per ton. Owing to heavy shipments from Coos Bay and Bellingham Bay companies. Even at these rates there is a very handsome margin for the company.

We are informed that two new coal companies will be in full operation, before the next year. The good effects of this one on our trade, since it started, will guarantee to these new enterprises all the assistance our citizens can offer. There is more profit in the management of these companies, than any other enterprise on the Sound.

**Resolutions, adopted by the Students of the University, on the occasion of the death of their school-mate, JAMES B. SCOTT:**

Whereas, It has pleased our Heavenly Father to remove from our midst, by death, our school-mate, James B. Scott, who before his death bore an exemplary character and was a friend to all; we miss him as an associate and friend; be it therefore

DEATH AT THE UNIVERSITY.—On Sunday morning, a young student named Scott, not appearing at his breakfast at the University boarding-house, he was sent for and no answer being returned to the summons at his door, a forced entrance was made, when he was found dead in his bed. An examination of the body led to the conclusion that he died in a fit. The lad was about 15 years of age, a step-son of Mr. Hasty, of Whidby Island.

QUICK WORK.—Charles Broshier, John Beatty and Charles Beatty, arrested last week for numerous burglaries committed in this city, were arraigned for trial this morning. They were prosecuted by G. N. McConaha, and defended by McNaught and Leary. The trial was completed and the jury returned a verdict of Guilty at 3 o'clock, P. M., just before we go to press.

DEATH OF MONS. DRIARD.—Sosthenes M. Driard, the notable landlord of Victoria, proprietor of the Colonial Hotel and Driard House, died on Saturday last, of apoplexy, at the age of 54 years. All who ever partook of his fare will join in the tribute to his memory: "He knew how to keep a hotel."

The steamer North Pacific will leave for Port Townsend on Friday at 7 o'clock A. M. Returning, will leave Port Townsend at 3 o'clock on Saturday morning, giving all desirous of attending the Masquerade Ball at that place on Friday evening, a chance to do so.

EXCLUSIVELY FOR THE DAILY DISPATCH

NEW YORK, Feb. 16.—The roof of the Presbyterian Church, at the corner of Houston and Thompson streets, was today crushed beneath the weight of snow. The walls were forced outward and demolished. With all the furniture and organ the loss is estimated at \$300,000.

CINCINNATI, Feb. 16.—Heavy frands by the contractors on the Panhandle railroad has been discovered, and one is arrested.

ARCHBISHOP, Feb. 16.—Two men, of a party of roughs, who were disturbing the peace at Sargent, were shot and killed by a saloon-keeper. The party then went to Dodge city, where the vigilants killed two more.

NEW YORK, Feb. 16.—The reported new steamship line is forming to take the place of the Atlantic Mail Co., and application will be made to the court to-morrow, to sell the company's vessels, and pay off its debts.

The loss by the burning of the Erie at sea, is \$350,000 on the vessel, and \$500,000 on the cargo. Both only being partially insured.

WASHINGTON, Feb. 12.—The President has signed the pension and Indian appropriation bills. There are on the Speaker's table 75 Senate and House bills with amendments, awaiting action. The House bill for the distribution of the Geneva Award, although only two weeks remain of the present Congress, time is considered sufficient for the transaction of all requisite public business.

The special committee of the House has reported, exonerating assistant Hillhouse of New York, from any responsibility in the defalcation of Johnson, late in charge of the stamp department, and recommending the passage of a law relieving Hillhouse from any pecuniary loss.

YREKA, Feb. 16.—Hon. A. B. Meacham, one of the Modoc peace commissioners, arrived here this evening from Washington, and will proceed to-morrow to Van Breme's, where he will meet the other commissioners.

The Jacksonville Sentinel of yesterday contains a protest from Governor Grover, of Oregon, to the commissioners, against any peace or treaty with the Modocs, except that the murderers of the helpless settlers be given up to the proper civil authorities for punishment, and the remainder of the Indians placed either on their reservation or beyond the bounds of the Lost River settlements. The Governor's private Secretary accompanied the command to the front. Parties who arrived from the front this evening, report that on Friday, a scouting party of the Modocs burned the house of Dennis Grawley, Gen. Gillem seeing a smoke sent a detachment of cavalry to ascertain the cause. They found Indian tracks, but the Indians had gone. It being nearly night they could not follow them.

It has snowed at intervals all day today and last night. There was four inches of snow this morning, and still snowing.

LONDON, Feb. 16.—The ex-Queen of Spain is worse, and confined to her bed. The Italian fleet is hourly expected in the Tagus. The British squadron in the Tagus has been placed at the disposal of the ex-king.

PARIS, Feb. 16.—Trial at Douay of the men accused of rape and murder, terminated with verdict of guilty, and prisoners sentenced to various terms at hard labor; longest being twenty years.

WASHINGTON, Feb. 17.—House committee on appropriations to-day heard Secretary Fish on the subject of running the northern boundary between the United States and the British possessions, and afterwards agreed to appropriate \$125,000 to complete the survey. No action was taken on the amendment to the general appropriation bills withholding payments from the Pacific railroads.

In the Senate the Goat Island bill was reported without recommendation, and passed to the calendar; the testimony was ordered printed. Morton reported evidence in the Caldwell case, with a resolution declaring that he was not legally elected. Hogan indicted his dissent from the report.

The committee on elections reported favorably the resolutions to rescind 22 joint rule, as to determining dispatches as to the electoral vote.

House bill, authorizing the increased issue of twenty-five millions of National bank notes in States having less than their proportion of circulation, was rejected.

The report of the Senate committee in Caldwell's case was very voluminous. The committee say they have no doubt that money was paid for votes in the Legislature, and it was discussed by the committee whether the measure of Caldwell's guilt demanded expulsion, or his election be declared invalid. A majority of the committee favored the latter view, and they reported accordingly for action by the Senate committee. Caldwell is as much sinned against as sinning. He was a novice in politics and was in the hands of men who encouraged the practice of carrying elections by money.

The Senate committee in the case of Pomeroy, had a second session this morning; took a recess until 3 P. M., when the examination of witnesses will be commenced in public.

Senate committee on military affairs this morning, were unable to agree on

Puget Sound Dispatch.

Official Paper of the City.

SEATTLE, THURSDAY, FEB. 20, 1873.

Telegraphic

EXCLUSIVELY FOR THE DAILY DISPATCH

WASHINGTON, Feb. 13.—Washington specials give details of a story in circulation there, to the effect it has been discovered that the repeal at the last session of Congress, of tax on borrowed capital, was secured by the expenditure of several thousand dollars by one Clinton Colgate, an agent of New York Stock Exchange. One of specifications in the payment of a \$10,000 fee to Judge Chas. Sherman, of Ohio, for argument before the Senate Finance committee, and for securing the influence of his brother John Sherman and Gen. Garfield for the bill. Mr. Dawes has been looking into the matter, his attention having been called to it by the passage to such in a New York paper. Colgate claims to have Judge Sherman's letter enclosing bill for amendment of fee.

The Pomeroy investigation will not begin until Saturday, when Senator York and other witnesses from Kansas will be at Washington.

In the Senate, the Credit-Mobilier committee met this morning. Patterson and Cummins were absent. Logan appeared and said, that he had nothing to add to his testimony given before the House committee. Logan was questioned about his transactions with Oakes Ames, but he insisted that he would be first told what the testimony was against him. Harlan appeared and asked about Durants \$10,000 contribution. After some discussion it was decided to swear Harlan, whereupon he proceeded to detail the whole transaction. Wilson, of the committee, to-day heard additional testimony from Oakes Ames.

The House appointed Dawes and Beck, a committee to notify the President and Vice President of their election.

The committee on printing reported in favor of giving the reporting and publishing of debates of Congress to W. J. Murtagh, of the Washington representatives.

House proceeded with the consideration of the report of the committee on mines.

A resolution of Wood, to refer with pleasure to the Republican government of Spain, was objected to and not received.

Boston, Feb. 13.—The jury in the case of Alley, charged with the murder of Ellis, gave a verdict of not guilty. Alley was discharged.

New York, Feb. 13.—At the West Farms, near Harlem yesterday, the coroner's decision resulted in finding James Dennis guilty of kicking his wife to death.

The inquiry of the coroner into the murder of Grahame, at Little Neck, Long Island, resulted in arrest of a half-breed of Dresden.

WASHINGTON, Feb. 13.—A special says that the Spanish Minister says, that he does not think that Spain will retrograde to despotism. A change in the government will not effect the status of Cuba. He considers Amadeus honest and liberal. At the State department it is debated, success will follow in case Rivero Brest is President, although his qualifications are conceded.

PHILADELPHIA, Feb. 13.—This morning a passenger train on the Baltimore Railroad, owing to a miss-placed switch, ran into a coal train below Hay's ferry. Engine boiler and tank burst. The conductor of the passenger train was the only one injured.

HANNOVER, Feb. 13.—Ex-Governor Cary's funeral took place to-day with posing ceremonies.

LONDON, Feb. 13.—A Paris special says, that it is reported this morning that troops of the regular army of Spain, divided in their choice of form of government. Cavalry are said to have pronounced in favor of Monarchy, with Prince Asturias, son of the Ex-Queen Isabella, for a King, while the infantry favor a Republic.

A Rome special says, the abdication of Amadeus is received with surprise on all sides. Neither Victor Emanuel nor the government gave any advice to Amadeus. Latter telegraphs to Rome formally giving information concerning the situation. It is also reported that serious disturbances had taken place at Madrid, and that fighting had occurred in the streets.

BERLIN, Feb. 13.—The patience and courage by Amadeus while on the throne is universally praised.

LISBON, Feb. 13.—The Portuguese Minister of public works, prominent railway officials and Spanish Minister, in accordance with orders from the government, has gone to Badagos to meet Amadeus and his family and escort them to Lisbon. A palace is prepared for them which they will occupy until their departure for Italy. Ex-Royal family expected to-morrow, will be met at the railway station by King Louis and his Minister.

LONDON, Feb. 13.—A Madrid dispatch says the abdication of Amadeus and the declaration of a Republic, is disseminated all over Europe, and it now occasions disturbances.

Serrano arrived at Madrid last night. Spain continues tranquil. The Assembly has chosen Martes President.

WHITE PLAINS, Feb. 10.—Surrogate Coffin, of Westchester county, delivered his written decision, in the matter of proving the last will of Horace Greeley, at the opening of his court to-day, extinguishing the will of 1872, must be refused probate. The will of 1871 having been duly proven, must therefore be admitted as the last will and testament of Horace Greeley.

MADRID, Feb. 10.—A correspondence to-day, announces the probability that the session of Cortes will be suspended for a few days. Upon the re-assembling the proposition from King Amadeus to abdicate the throne, will be read, whereupon an effort will be made to dissuade the King from his purpose. Should he persist, a special law will be passed, electing Regent and Cabinet.

SAN FRANCISCO, Feb. 11.—Arrived, the bark Florence, from Port Blakely. No news of the Nevada, 13 days over due from Australian ports. The Loleta is taking freight for Seattle.

H. Schassler, Civil Engineer, presented to the board of Supervisors last night a report on the feasibility of constructing a tunnel under the Bay, from Rincon Point to Goat Island. He says, such a tunnel, 22 feet high and 25 feet wide could be constructed for eight million dollars. The report was placed on file.

PORTLAND, Oregon, Feb. 13.—Nothing has yet been heard from the missing steamer George S. Wright, now 19 days overdue. It is understood that the Revenue cutter Lincoln, now on the Sound, will be sent in search of the Wright.

LONDON, Feb. 12.—There is no further news from Madrid. The announcement of the abdication of Amadeus, produced a profound sensation. The German papers hint that it was caused by French intrigues. Since six o'clock this morning, dispatches received from Madrid, state that no disturbances had occurred. There seems to be a disposition to maintain order, and support the provisional authorities. Yesterday the two Houses of the Cortes, assembled at 7 o'clock, when a formal message of abdication was read. Upon completion of the reading, the Senate and Congress met together and consulted themselves a so-called Cortes. Revere, president of the Congress, in a speech declared himself ready to answer for the preservation of order. The abdication of Amadeus, was then accepted unanimously.

Senator Pio proposed a resolution establishing a Republic, and vesting in the Assembly the supreme power. The resolution was adopted by a vote of 253 yeas against 32 nays. The Assembly was still in session when the foregoing was telegraphed. It is believed that Revere, president of the Cortes, will be elected President of the provincial Republic, established by the vote last night. There is perfect order here, and the attitude of the regulars and national guards is satisfactory.

A dispatch from Madrid says, that arrangements have been made for Amadeus and the Royal family to leave that city this morning.

WASHINGTON, Feb. 12.—The galleries were filled this morning with spectators to witness the counting of the electoral vote for President. A message was sent to the Senate, that the House was prepared to receive that body, and proceed with the counting of the electoral vote for President and Vice President. A one o'clock the members of the Senate entered the House. The Vice President was called to the chair, when he called the convention to order and said, that they would now proceed to the counting of the electoral votes for President and Vice President. A sealed package containing the votes of each State was then opened, and the tellers announced the vote in each case. Hear objected to the vote of Georgia being counted for Greeley, but a disposal of the matter was withheld. Objections were also raised to the vote of Mississippi, whereupon the Senate retired. The House then passed a resolution objecting to counting the Georgia vote. The Senate voted to count the Georgia vote.

New York, Feb. 12.—A London special says, a ten million dollar Erie loan was subscribed yesterday.

The Children's Aid Society have resolved that if Greeley's estate is in the same condition as it was in 1871, they

Jack's band of Modoc Indians, for murder in the first degree. Mrs. Brotherton and son, survivors of the Brotherton family, swore positively to these Indians as the band who massacred the settlers in December last, on Lost River. It is not yet understood what steps will be taken by the Sheriff to make the arrest, but it is probable that action will be deferred until after the meeting of the Peace Commission.

CHICAGO, Feb. 14.—A Washington special says, that representative Negley strenuously pushing the bill introduced by him last Session, which, under pretence of incorporating the Little Cottonwood Railroad, is in reality a measure asking for formidable land grant. The line of road is from Sandy Station, on the line of the Utah Southern Railroad, to Alta City, in Little Cottonwood Canyon. The bill asks for five or six sections of land per mile. Another company is to be organized to build a road over the same route, simply ask to be incorporated by the General Government.

General Purdiss says, in regard to his New Zealand steamship enterprise, that he is interested in the proposed line of iron steamers, to be run between San Francisco and Australia. New Zealand, touching at the Sandwich Islands. That line will be organized whether subsidized by Congress or not. He admits that his new line is intended to supercede the existing Webb line.

At the request of Caldwell the Senate election committee deferred the presentation of their report in his case, until his counsel returns from Philadelphia. It is reported that Caldwell intends to resign, as he is apprehensive that the report of the committee will recommend expulsion, at least, express severe measures amounting in effect to a recommendation of expulsion.

The special States' Wilson committee have started off on a range of inquiry which promises to last until after the adjournment of Congress.

The committee has commenced an inquiry into the Central Pacific, and as a beginning has taken the testimony of their agent in this city, familiarly known as Dick Franchot. As his ignorance of all matters likely to be investigated, was even more remarkable than Oakes Ames' memory, it is probable that the committee will have to send to Cuba for witnesses, and it is intended to continue the Central Road inquiry. Franchot has been agent of the road in Washington since 1856, and although he is paid \$20,000 a year for representing the road here, during the session of Congress, he knew nothing whatever of the road builders, stockholders, or anything else, except from hearsay. The committee did not question Franchot about legislation of any kind, but said to-night, that he knew more about that subject than the committee.

Before his execution he said a few words, begging pardon of those whom he had wronged; said he was crazy-drunk when he committed the offence. Had he been allowed to manage his own defence, he would have thrown himself on the mercy of the law.

New York, Feb. 14.—A fire broke out this morning, at the New Haven and Harlem railroad freight depot, damaging the property of the company to the amount of \$30,000; J. Eager's machinery and factory, \$20,000; Thomas Jones' glass factory, \$20,000, and several other small amounts, all reaching \$100,000.

Judge Boardman denies the application for a new trial by Stokes.

BERLIN, Feb. 14.—A dispatch says the Prussian Minister required of Counsellor Wagoner, a profege of Bismarck, an explanation of his conduct in permitting concessions in fulfillment of the State railway contracts, by which fraud was committed upon the government.
