PORTLAND PAPERS.—We yesterday spoke of the two daily papers of Victoria, and the way in which they had used each other up (ostensibly) in a Kilkenny cat fight. On the other side, in Portland, the commercial metropolis of the Northwest, there are three first class daily papers, which in outward appearance would be creditable to a city of five times its population and business. These papers are of good size, handsomely printed and ably conducted in all their departments. Yet it is no exaggeration to say, that during the past year, or more, not less than three-fourths of the aggregate leading editorials of the three papers have been devoted to personalities, of no relevancy to public measures, and in no manner affecting the public welfare beyond the moral and social standing of perhaps half a dozen individuals the influence of whose personal acts never extended beyond their own immediate vicinity, and are of no possible interest to anybody outside of that circle. These unprofitable discussions occupy the most prominent columns of those papers from day to day, from week to week, from month to month, with a "damnable iteration" which has become painfully monotonous to all their readers. What possible good is attained, or what useful information imparted by the daily repetition of the charges that Scott is a brute, Hill a sharper, O'Meara a dabbler, Sam Clarke a bilk, Bellinger a squirt; that they are all unscrupulous liars, and that their several backers are no better than they should be? It does not affect the standing of these men where they are known, and outside of that, who cares? For all the legitimate purposes of a newspaper, the space occupied by such matter had better be left blank, and we believe all the Portland dailies would be greatly improved by dispensing with the services of their several leading editors. We believe in newspaper personality in exposing and denouncing public wrongs; but when it is used for purposes of personal spite to defame private character, it is disgraceful to journalism.

QUESTIONABLE MORALITY.—The Delles Mountaineer, the editor of which is a gentleman of unquestionable personal morality, gives Senator Mitchell the benefit of the following quasi endorsement:
 A friend of ours writing from Washington, says: "that the petition sent from Washington to have Mr. Mitchell expelled from the Senate contained only three hundred and fifty names, and of these only forty-eight were Republicans. If these persons could only see what little effect that petition has made here and the influence and many friends Mr. Mitchell has made since his arrival, they would be heartily ashamed of having had anything to do with it."
 Here we have unequivocally endorsed the sentiment that success sanctifies crime. Neither Mitchell nor any of his adherents deny the facts: 1st, That in the maturity of manhood, he seduced a young school girl, bearing to him the confidential relation of pupil; and that he married her under duress, as an alternative to criminal punishment. 2d, That he deserted this wife and two of his own legitimate children, leaving them in poverty and her to support herself and his children, through long years, as a common house servant, while he was living in elegance and luxury with other women. 3d, That in deserting his family he took with him a woman he had seduced and with whom he lived in adultery under an assumed name and false pretenses, and subsequently left, to what fate public investigation has not yet ascertained. 4th, That in his clandestine departure from his own home, he robbed his partner of a large sum of money held in trust by the firm, and years afterwards compounded for the felony by returning the stolen money; and then only when he was a candidate for the United States under an assumed name, the election to which would be certain to expose him to criminal process. 5th, That he married the second time, under a false name, years before he sought for or obtained a divorce from the deserted wife, who is still living, thus adding to his other crimes the penitentiary offence of bigamy; and finally, under the same circumstances which constrained him to compromise the money theft, he clandestinely obtained a decree of divorce, dated several years after his second marriage, by tampering with a partisan court and bribing a mendacious wife with five hundred dollars not to appear as a witness against him. 6th, His private character in the community where he lived for fourteen years before the foregoing facts, or his real name was known to the public, his social infidelities were matters of almost constant public scandal, and though his general deportment was plausible and not offensive to the deceptions of social life, he was not a man in whose social honor any intelligent person would care to trust. 7th, As a politician he never exercised even the decent hypocrisy of pretending to be honest. He was one of those who profess and act upon the maxim, "all is

fair in politics;" and no fact is more notorious in Oregon, than that his election to the Senate was the direct result of large expenditures of money by a railroad company of which he was Attorney.
 We have no personal or party prejudices against Hippell-Mitchell, nor do we desire to discuss his character or the manner of his election. We but protest, most solemnly and earnestly, in view of the foregoing facts in his history, which are indisputable, that his success through a life blackened by infamous crime should not be commended to the emulation of our youths; that his endorsement should not go forth as the standard of public morals in this country, and that decent people should not be ashamed for respectfully asking that truth, honesty, justice and public decency be vindicated by expelling from the Senate a man whose whole career has been a disgrace to himself, his country and the civilization of the age.

PERSONAL.—We were favored with a call to-day from Mr. B. D. Pitt, the corresponding agent of the San Francisco Bulletin and Call.
FOR THE CASSIAR MINES.—On the arrival of the Prince Alfred at Victoria, the steamer Anderson sold 45 tickets for Fort Wrangle. She will probably have 75 or 80 passengers by this trip.
Captain Irving's new steamer for the Stickeen river was launched at Victoria on Monday. She will have two 16 inch cylinders, and is constructed for both speed and safety.
Capt. W. Hall and party came up by the last steamer to Port Ludlow to commence a new schooner there, of 100 tons, for the coast trade in California.
Judge Greene arrived here by the Zephyr, last evening, and will deliver a lecture at the Pavilion, this evening, by invitation of the Seattle Library Association. Admission free.
THE CONCERT.—The benefit concert to the Misses Bell on Friday evening was well attended and was a very enjoyable affair, every one taking part in it doing very well. The net receipts were about \$75.
Capt. J. C. Glidden came up on the last trip of the Prince Alfred, and went to Port Blakely to take command of the new fore-and-aft schooner built by Sanders and now owned by Messrs. Hooper Brothers, San Francisco.
RAFFLE.—All persons having chances in the raffle for the gold watch and chain, at the Gem Saloon, are requested to be on hand on next Saturday evening at 7 1/2 o'clock, at which time the raffle will come off.
Hon. S. Garfield is now in this city, and it is rumored, is negotiating for the building of a new steamer for his mail route from Port Townsend to Sitka. It is anticipated that one or two smaller steamers will be constructed here this season, for shorter routes.

CALICO BALL.—Professors Wood and Lutzinger will give a farewell Calico Ball, on March 20th, at the Pavilion. These gentlemen, who have made many friends during their stay with us this winter, will, we understand, leave town about the end of the month.
The S. S. North Pacific is expected up on Tuesday night. Her damage was much less than at first supposed. It cost more to repair the ways to haul her out on, than the repairs on the hull. Painters are putting fresh color on the outside of the ship. Nearly all claims by shippers for damages by the accident have been amicably adjusted.

YALIMA MINES.—A letter was lately received by Mr. Bush, of Squak, from his daughter in Kittitas Valley, which says: "We have just learned that the miners have struck rich gold diggings near Swak." We credit this report for the reason that the most expert miners who have prospected that region agree in the opinion that the indications are that there are rich gold deposits in the vicinity. These mines are nearer to Seattle than to any other port on the Sound or on the Columbia river, and promise to be the source of a valuable trade.
JUDGE GREENE'S LECTURE.—The lecture by Judge Greene, on Thursday evening, on the subject of "Public Spirit," was a masterly production, and was listened to with delight by a large and appreciative audience. The Judge generously declined any remuneration for his services or re-embursement of his travelling expenses. The collection at the close of the lecture netted the Library fund about \$30.
 We would take this opportunity of protesting against a too common practice prevailing in this community of disturbing and annoying both audience and speaker by coming into public meetings long after the appointed time for the exercises to commence. During two-thirds of the lecture on Thursday even-

ing the meeting was almost constantly disturbed by the tramp of the tardy comers crowding forward for front positions. Is there any reasonable excuse for persons afflicting others with their own tardiness?
DULL TIMES.—Wherever we go the cry of "dull times" greets our ear, and we are forced to conclude that there is a great deal of truth in the statement. The stores are without patrons, and the clerks in the same are like so many Micawbers, waiting for something to turn up. Express wagons and drays are jostling each other as they rush through the streets loaded with nothingness. The Courts are without their usual victims, and the local reporters, not exempt from the common lot of mortals in general, are of necessity compelled to rake the Universe for something to fill up their apportioned space, and the dear readers finding business dull, open the paper with a yawn and throw it aside as worthless, because it does not contain two or three columns of murders, and an elopement or two, never dreaming that business is dull and that the public has to be law-abiding of necessity.
PORTLAND NEWS.
A COLLISION AT SEA.—The schooner Oregonian, from San Francisco for this port, while beating her way up the coast came into collision with a vessel bound down off Cape Lookout, on the evening of Wednesday last. The Captain of the Oregonian informs us that he did not see the vessel's lights until she was so close upon him that a collision was inevitable. Luffing his vessel all that was possible, she being braced sharp up at the time, his bow-sprit locked that of the strange vessel, and turning her end for end, both came along-side each other without any injury to their hulls. Both vessels extricated themselves from their too close proximity as quickly as possible, and the Oregonian lay to a short distance off from the stranger, awaiting developments. He observed the sailors on board the vessel, which he took to be the three-masted schooner Hera, clearing away the wreck of their bowsprit, which had been carried away in the first shock, and receiving no signs of recognition he continued on his way, having suffered but very little damage. The vessels at the time of the collision were under full headway, and had they not locked bowsprits just as they did, the collision would have been a fearful one, and would have involved the sinking of one if not both.

COLD WEATHER—HARD TIMES.
 The following interesting article is from the British Colonist of March 12: The steamer California, from Sitka and Wrangle, arrived yesterday morning, bringing W. K. Lear and other passengers. She left Sitka early on the morning of the 6th inst. with 56 passengers for Fort Wrangle, mostly Russians and Indians, to pack up the Stickeen River for Messrs. Goldstein and W. K. Lear. Arrived at Wrangle the same evening; left early on the morning of the 7th inst.; arrived at Nanaimo on the 10th left there at 4 40 p. m. same day; arrived off Victoria at 4 a. m. the 11th; landed the pilot, Capt. R. Hicks, and 2 passengers and proceeded on to Portland. The California will leave Portland on Saturday next for Victoria, Wrangle and Sitka. The California made the round trip to Sitka and back in 14 days. Out of this she lay three days at Sitka.
 Capt. Hicks says the weather has been the coldest and stormiest he has ever experienced on this coast. Last Sunday night the steamer experienced a hurricane from the northeast accompanied by snow-squalls and bitter cold. The mercury dropped to the bulb and much discomfort was occasioned to those on board.

TOBAGAN PARTIES.
 Mr. Lear says that nearly all the miners have left Wrangle for the Forks. The ice still held good. Another passenger by the California says that he went 40 miles up the Stickeen. The miners had had a hard time. The snow in places was 3 and 4 feet deep, in which several tobagan came to grief. Others found their loads too heavy before proceeding far and had to throw away quantities of stuff. Some of the men were a month in reaching the H. B. Co.'s post on the Stickeen. They had suffered greatly from the cold, many of the poor fellows being but thinly clad.

INTERESTING LETTERS.
 The road from Buck's Bar was open and interesting letters came through.
 Mr. J. R. Adams writes from the Forks to his son in this city that the road is now good to the mines, weather clear but cold, and nearly all the miners had left Buck's Bar and gone into the diggings.
 A correspondent writes from Buck's Bar under date of Nov. 25th: He had been to Dease Creek and found from six bits to a dollar to the pan. The pay-dirt is 4 feet deep; weather become too cold to work. He thinks the prospects for the coming seasons are splendid. The cold was 30 degrees below zero. The mercury froze and they had to cover their faces with furs.
 From a letter received by a gentleman of this city from Peter Cargottich, dated Buck's Bar, Jan. 11th, we learn the following particulars: With a map of Dease creek the writer encloses a portion of the skin of his fingers, frozen Nov. 4th last, as a proof of the intensity of the cold. Cargottich alone reached V. Barovich's claim; where he secured himself a claim which promises to be very rich and easy to work. The miners had been taking in their provisions over the ice, when at that date they were driven to their cabins, the thermometer marking 35 degrees below zero.
 In a postscript the same writer states that the mercury had remained congelated during 8 days and that at that date, the 24th Jan., 40 miners and 30 Indians had ventured out on the canyon clad in skins, their faces protected with masks of marten skins. The Indians had, with all these precautions, their faces frozen.

BERNARD TOWN: EDITOR

Seattle W. T., March 19 1874.

THEY ARE GOING TO BUILD THAT RAILROAD, SURE!—The people of Olympia have determined to have a railroad to connect with the Northern Pacific at Tenino, and they will have it. The last reported movement in that direction is conclusive—the women have taken hold of it. At a recent meeting "several ladies agreed to go into their kitchens and do their own house work for a month, and send their Chinamen on the grade for a month's work." The following named ladies each subscribed a month's work. Mrs. Governor Ferry, Mrs. Frazer, Mrs. Lawson, Mrs. Percival, Mrs. Wingard, and Mrs. Rebecca Howard. The men present at the same time subscribed twenty-three months' labor. The lands heretofore subscribed aggregates 6,200 acres, together with 200 town lots. This is sufficient, at a low valuation, to grade and lay the superstructure of the fifteen miles of road contemplated.

Cannot the citizens of Seattle, with much more abundant means and greater resources, build fifteen miles of the Seattle and Walla Walla railroad during the present season without any foreign aid? Nothing is necessary but unity of purpose and the will to do it. With fifteen miles of the road completed and in running order, which is certain to pay large dividends upon its cost in the transportation of coal, a basis would be established which would ensure the extension of the road, and gaining strength by each advance, would finally accomplish the whole project. No great undertaking ever succeeded without the courage to dare united with the energy to do.

DAILY DISPATCH.—With the present number commences the fourth volume of the DAILY DISPATCH, which is sufficient to demonstrate the fact that the paper has become one of the permanent institutions of Seattle. We cannot say that the experiment has been a pecuniary success, but it has come as near to it as we could reasonably expect under the circumstances. While it has cost us, out of our own earnings from other sources, every dollar we have paid for telegraphic dispatches, we have the satisfaction of knowing that it is the only newspaper in Washington Territory that can pay for the dispatches, and that we have contributed over fifteen hundred dollars in coin to the general prosperity of our town. With our very limited means, this has only been made up by hard labor and the closest economy, allowing us meager time or means to devote to the local news or other needed additions to our columns; being under the necessity of putting all our editorial matters in type without committing them to writing. We have the expectation, under arrangements now negotiating, to very soon enlarge the paper, and improve all its departments to the standard of a first class city daily. Whether our expectations in this respect are realized or not, we shall not surrender so long as incessant toil will command the means to sustain our DAILY DISPATCH.

ANOTHER CREDIT MOBILIZER.—That very funny paper called the Tacoma Tribune, which is printed only a few miles from the present railroad terminus and therefore assumes to represent the interests of that uninhabited town plat, has a long article to prove that the Directors of the Northern Pacific Railroad are identical with the managers of the Tacoma Land Company. If this is true—which we do not believe—it is all the worse for the Railroad Directors. The thing differs in no particular from the Credit Mobilier, of infamous notoriety, or from the Lake Superior and Puget Sound Land Company, of like infamous intent, which the Railroad Company was forced to buy out to save its own organization from ignominious ruin. A ring of that kind inside of any corporation existing by a subsidy from the Government can have only fraudulent objects in view, and is bound to end in disastrous failure to all engaged in it. No good business man, with a knowledge of the facts, will ever invest a dollar in permanent improvements in a town founded in fraud, without a single natural advantage in its favor as a commercial city. With all the power that the Railroad Company can command in its favor, Tacoma can only be a repetition of the failures of Duluth and Kalama.

INDEPENDENCE IN POLITICS.—The Standard, in some rather equivocal comments upon our political position, says: "As it is impossible to contemplate such a thing as Mr. Brown going in the enemy's camp, we should not be surprised from the signs to see the Republicans all coming over to him before the next campaign." Our military friend is most indubitably correct in his first proposition, and it is not impossible that his anticipations may likewise prove true. Most assuredly we shall not go into any "enemy's camp," or do battle under the banner of any party. In casting off the shackles of a party to which the best aspirations and energies of our life had been devoted, we certainly had no purpose of accepting service under any other master; but therefore to act upon our own independent convictions of public duty, without submitting our opinions to any caucus test, or permit them to be biased or directed by any considerations of party patronage.

If, in maintaining this position, we should happen upon such a course that

we should "see the Republicans all coming over" to us, it would not surprise us or influence our action in the least. At the last general election we had all the Republicans with us in the support of some of the candidates, and all the Democrats with us in support of some others, without any bargain or claiming or receiving any favor from either on political grounds. We are not surprised that there are many party editors to whom that sort of independence is incomprehensible; they never knew any other condition than that of party servitude, and no other means of subsistence than party spoils.

But we would ask our friend to point out the difference between the Republicans coming over to us on independent grounds, and the Democrats all going to the Independents on terms dictated by the latter; albeit the party Democrats gobbled up the products?

Pertinent to this subject is the following extract from Col. John W. Forney's "Anecdotes of Public Men":

"A political defeat, like a political victory, is soon forgotten. It is true, nothing pleases the American people more than a great victory, military or civil, except the power of being able to overcome and bring back those they have conquered. This is a peculiar American quality. Every party in the country is led by the paroled leaders of the other side. The Republican party of to-day is in a considerable degree marshalled by old Democrats. The Democratic party of the present day is, to a considerable degree, marshalled by old Whigs. We have Morton, Carpenter, Hamlin and Bontwell in the Senate; and Grant and Sherman, and Sheridan, old Democrats in the Administration; while on the other side we have old Whigs, like William B. Reed, now of New York, Samuel J. Randall and John C. Bullitt, of Pennsylvania, William E. Preston, of Kentucky, and Caleb Cushing, of Massachusetts, leading the Democratic party.

"The tendency of all such struggles as that through which we have passed is to create an independent spirit among public men; to teach them to prefer integrity of office, and to encourage hostility to fraud of all kinds. Unless this can be done, there is danger, especially in great cities, of the complete overthrow of our liberties. But no such spirit can be aroused or crystallized without sacrifices. To fight in a minority, to work for a minority, to protest in all manner of abuse and loss—these are the prices which must be paid if there is to be any rescue from existing evils. Henry Clay was never half so great as when he lost the Presidency. Webster was never really himself save when he fought in a minority. To protest, to brave spite in resolute under fetters. It revolts from obedience to party rules. No independent man holds an office without feeling that he is manacled by a chain. Of the men who obey without question, and who object conscientiously, the latter are the most useful to society."

An old and distinguished Democratic friend in Washington, who sent us the article from which the foregoing is extracted, writes: "What do you think of the philosophy of your old friend John W. Forney? It seems to me he must have had you in mind as he wrote the latter part of it." We think of Forney's philosophy, it corresponds exactly with our own observations and conclusions; and however much the partiality of our old friend may exaggerate our personal worth, he makes no mistake in judging of our position and disposition politically.

COMMENCE OF PUGET SOUND.—The Port Townsend Argus, which has access to the Custom House records, gives the statistics of foreign exports and imports for the year 1873. Exports, in American vessels, \$365,416; in foreign vessels, \$229,184. Total, \$594,600. Imports \$31,725.

The foregoing does not exhibit the exportation of lumber from Puget Sound to San Francisco and other domestic ports, as it is mainly transported in licensed vessels which do not enter and clear. It is estimated that between forty and fifty vessels are so employed, carrying from Puget Sound, during each year, 150,000,000 feet of lumber, valued at about \$2,000,000.

No mention is made of the exports of coal, which were not less than 30,000 tons, valued at \$300,000.

The importations from San Francisco by vessels, nearly all of which are licensed, is estimated to exceed \$500,000 per annum.

We may mention the additional fact, that more than one half of the exports to Puget Sound, both foreign and domestic, are for the Seattle trade.

AWARDS OF MAIL CONTRACTS.—The Washington correspondent of the Standard reports the following awards, many of which we have not had before:

The award of contract for the Olympia and Victoria route has been made. The present pay is \$16,235 per annum, and the lowest bid for the next four years' service is by Geo. S. Wright, at \$26,000 per annum.

The contract from Olympia to Monticello, is to be given to the railroad, at the usual rates.

The route from Olympia to Astoria, via Oysterville, has been awarded to J. S. Stout, at \$4,750. The present pay is \$5,878.

Olympia to Yelm, to Gilbert Bates, for \$298.

Olympia to Skokomish, L. D. W. and L. T. Shelton, \$498.

Steilacoom to Elbi, Henry E. Light, \$411.

Seattle to Schome, Samuel Coulter, \$3,600.

Seattle to Franklin, John Webster, \$590.

Seattle to Snoqualmie, E. M. Cudworth, \$590.

Seattle to Blakely, offered to N. L. Bartlett, at \$150.

Senbeck to Union City, lowest bid considered too high; offered to Franklin Kennedy at \$750.

Port Townsend, via San Juan, to Sealmahoo, not let, check defective; lowest bidder, Saml. Coulter, \$5,688; present pay \$8,800.

Port Townsend to Port Angeles, lowest bid \$1,330, considered too high; offered to J. F. Lukey and George Cooper at \$1,000.

Port Townsend to Coveland, James H. Swift, \$425.

Schome to Nooksack, Samuel Caldwell, \$490.

Centerville to Utsalady, not let, lowest bidder, \$470, considered too high.

Skagit to Utsalady, not let, lowest bid \$470 considered too high.

Vancouver to Battle Ground, Joseph A. Woodin, \$135.

Vancouver to Kalama, Michael Shea, \$800.

Chinook to Astoria, not let, to be re-advertised, lowest bid, \$630. There was an informal bid of \$500, which had to be thrown out.

Cowlitz to Grand Prairie, lowest bid informal; offered to Ad. Edgar at \$95.

Clacquo to Boisfort, L. A. Davis, \$172.

Walla Walla to Missoula, Montana, Wm. Glover, \$19,000. Present pay, \$62,232.

Walla Walla to Lewiston, Idaho, V. W. Howard, \$6,500. Present pay, \$14,970.

Walla Walla to Wallula, S. S. Hunter, \$775.

Spokane Bridge to Fort Colville, Chas. W. Wood, \$1,134.

Portland, Oga., via Port Townsend and San Juan, to Sitka, Alaska, S. Garfield, \$26,000. Present pay, \$34,900. There is some doubt as to the legality of this award, in consequence of the bidder holding the position of Collector of Customs.

A story has been told of graceless scamp who gained access to the Clarendon printing office in Oxford, England, where the forms of a new addition of the Episcopal Prayer Book had just been made up and were ready for the press. In that part of the form containing the marriage service he substituted the letter k for v in the word live, and thus the vow to "love, honor, comfort, etc., as long as ye both shall live," was made to read, "so long as ye both shall like!" The change was not discovered until the whole edition was printed off. If the sheets thus rendered useless in England be still preserved, it would be a good speculation to have them neatly bound and forwarded to Indiana, Connecticut and Chicago.

OFFICIAL PAPER OF THE CITY. Seattle, W. T. March 19 1874.

Telegraphic

EXCLUSIVELY TO THE DAILY DISPATCH.

Calico Ball.—In another column will be found the advertisement of the calico ball to come off on Friday. Ladies are expected to wear calico dresses, and the gentlemen calico neckties.

Excursion.—Capt. Wright, of the Zephyr, has invited the brass band to take a trip to Olympia and return, and they have selected to-morrow, Tuesday, as the day to make the trip. We understand that quite a number of Seattleites will take advantage of this to make an excursion to Olympia.

Temperance Lecture.—The lecture by Rev. J. R. Thompson, on Tuesday evening, was one of the most earnest, logical, eloquent and temperate appeals for his cause. Such addresses as this no reasonable man can object to, and we believe will do much good.

A Fast Sailer.—The new barkentine Modoc, built at Utsalady, sailed up to the wharf on Monday afternoon, completing her first round trip to and from San Francisco. She made the run down in 5 1/2 days, and from San Francisco to Port Townsend in 6 days. This is first class time, at this uncertain season, for both ways.

Quaker Supper.—We again call special attention to the Quaker Supper and Apron Festival, on Thursday evening, in aid of the Congregational Society. The supper will be choice and abundant. There will be music by the band. No admission fee. We bespeak for the ladies under whose auspices the entertainment is given, a great success.

Library Presentation.—After the lecture at the Pavilion on Tuesday evening, a Temperance Library, consisting of about thirty nicely bound volumes contributed for the purpose by Mr. Levi Leland, Grand Lecturer of the G. T. for Oregon and Washington, was presented to the Washington Territorial University, by the Good Templars of Seattle. Rev. J. R. Thompson, made the presentation speech, to which Mr. Beriah Brown, the President of the Board, responded on behalf of the Regents.

Quaker Supper.—Gentlemen should remember not to forget that they can take their supper on Thursday evening at the Pavilion, and by so doing aid the Congregational Society. Coffee and oysters, with a choice variety of attractive dishes, will be in readiness at 6 o'clock, and thereafter till 10 o'clock. Ladies making aprons for the festival will please send them to the house of Mrs. A. B. Young, on Wednesday before noon.

IMPORTANT NOTICE FROM THE COLLECTOR OF CUSTOMS RESPECTING FOREIGN GOODS INTENDED FOR STICKLEEN RIVER.—The Collector of Customs thinks it right to give public notice that no port on the Stickleen River, has yet been declared a port of entry by the Government at Ottawa, and that under these circumstances, and until orders to the contrary are issued by the Government all foreign goods intended for the mines at Dease Lake and its neighborhood must be entered, and duty on them collected, at one of the existing ports of entry in British Columbia. Every facility will be given for passing such goods, in other cases, at Victoria or Esquimalt. On foreign goods already passed up the North Coast and intended for these mines, duty will be collected at the Boundary post or at Back's Bar, and on payment of duty they will be allowed to be taken for consumption into British Columbia.—Colonist.

Ten Years in Washington.—We have given this book a hasty perusal and have been so charmed with its matter and style that we deem it a favor to the public to commend it to general patronage, by publishing the following notices: SEATTLE, W. T., March 12, 1874. D. Ross, Esq., Dear Sir—I reckon the volume entitled "Ten Years in Washington," by Mary Clemmer Ames, among the best you could present for the patronage of the general public. Its spirit is perfectly in accord with the purest principles of our National Government; elevating in style, beautifully and graphically true in description, its concise historical sketches mirror the scenes and characters prominent in the national heart, and forever perpetual in the national memory. It will entertain the old, enlighten the young, and educate, in the best sense, all without political distinction, who may peruse its pages. Wishing you all success in every effort of equal merit, I am Yours truly, JOHN F. DAMON.

The name of Mary Clemmer Ames has become a familiar and honored household word. She has enjoyed rare facilities for observation and for obtaining reliable information concerning the "inner life" at Washington, its mysteries, wonders, marvels, secret doings, etc., such as no other person of either sex has ever before been able to command. Her keen eye has been watchful of every person, cognizant of every fact. In this volume she takes us with her and points out to us not only what an ordinary observer might see and describe, but what (with a woman's wit and a patriot's devotion) she herself has seen and felt. This work will be sold only to those who order of the Agent. Mr. Ross is an agent, and will canvass this city for subscribers.

BUSINESS NOTICES

Dr. B. R. Freland will be at his office, on 2nd street, from March 5th until further notice.

SAN FRANCISCO, March 13.—A meeting of retail grocers was held last night, at which bitter speeches were made against the ladies' temperance movement, and resolutions were adopted to organize for vigorous opposition to it and to the passage of the proposed Ordinance by the Board of Supervisors, discriminating against their class. The colored citizens held a meeting last night and passed proper resolutions of condolence on the death of Charles Sumner. Their churches will be draped in mourning 30 days and the people will wear crepe on their arms for the same period.

WASHINGTON, March 13.—On Wednesday next the Pacific Mail Steamship Company's new steamer City of Pekin will be launched at Chester, Pa. President Grant and his Cabinet, the Senators and Representatives and a number of prominent gentlemen from the Pacific Coast have been invited to witness the launch. A special train will leave here with ex-couriers. The City of Pekin will be, next to the Great Eastern, the largest steamer in the world, being about 5,000 tons burden, and built entirely of American material.

It was proposed to launch the vessel on Saturday, a more convenient day for Congressmen, but owing to the size of the vessel it was found necessary to take advantage of high tide. This is the first of the new line of large steamers of this company, another of the same class will be launched in about 30 days.

LONDON, March 13.—Viscount Sandon was to-day re-elected to Parliament from Liverpool. At the regular half yearly meeting of the Directors of the Bank of England it was announced that the total expense incurred in the pursuit and prosecution of the two Bidwells and McDonald, the parties who committed frauds on the bank, was \$46,000.

LONDON, March 14.—Disraeli has issued an address to his constituents asking once more for their suffrages. He proposes to defend the rights of all. Imperialists from all parts of France have arrived here on the way to England to attend the festivities at Chislehurst on Monday, on the occasion of Prince Louis attaining his majority.

PARIS, March 13.—In the Committee of the Assembly on the electoral law, a proposition has been made by the Right for the disfranchisement of the Colonies of France. Laboulaye made an earnest remonstrance warning the members that the British Colonies of America had been alienated from the mother country by a denial of the right of representation. The Colonial Deputies have unanimously declared that right.

BERLIN, March 13.—Prince Bismarck is ill, suffering from a recurrence of the gout. NEW YORK, March 14.—News from Havana states that a train from Neuvaits with volunteers for the Defrino district, were fired into by Insurgents. 27 volunteers were killed and a large number wounded.

The jury in the Challis libel suit against Woodhull and Claflin to-day returned a verdict of not guilty. Judge Sutherland characterized the verdict as one of the most outrageous he had ever heard. BOSTON, March 14.—Faneuil Hall has seldom been the scene of a popular demonstration of love and respect to exceed the one exhibited to-day. An hour and a half before the exercises commenced ladies were admitted to the balcony, which were thrown open to the public. The hall was filled to its utmost capacity and was elaborately draped. On the platform were Vice President Wilson and a large number of distinguished men. Opposite the platform was a portrait of the late Senator with the date of birth and death. Mayor Cobb presided. Among the Vice Presidents were Wendell Phillips, Robert C. Winthrop, Richard H. Dana, B. R. Curtis, Sidney Bartlett, and Wm. Lloyd Garrison. Services commenced by reading from some manuscript of Sumner's an eulogy on President Lincoln, followed by a prayer from Rev. Dr. Lathrop. Richard H. Dana then addressed the meeting and offered a series of resolutions, which were adopted. Addresses were also made by J. R. Smith, R. N. Rice, Rev. E. E. Hall, ex-Mayor Gaston, Ralph Waldo Emerson, N. H. Banks and others. Governor Washburn requests officials cities and towns throughout the commonwealth to make provisions for the solemnization of the hour named for the funeral, at three o'clock Monday afternoon, by tolling bells and such services as they may deem appropriate.

LA CONNER, A special from Lightning Creek, B. C., dated the 16th, gives the following wash-up for the past week: Spruce, 96 ounces; Point, 92. Van Winkle, 130; Victoria, 90; Vancouver, 232. The Vulcan Company struck slum in their shaft last week and there were fears that they would lose the shaft, but by great exertions they managed to save it. Weather changeable but mild, and the roads improving.

JEFFERSON, March 14.—Fifty crusaders paraded the streets, visiting the saloons, singing and praying, this afternoon; no result was evident. Missionaries have been summoned from adjoining States. The Mayor was asked to prohibit the bands from standing on the

pavements, but said he had no authority to suppress assemblages of that kind. Mrs. Eliza Mordant claims that the question is a two sided, and she will lecture against crusaders on Tuesday next.

WOODBRIDGE, Canada, March 13.—Burglars entered the office of the Woodbridge agricultural implement and machine works, blew open the safe, took the contents, fired the building and escaped. Total loss, \$200,000. 100 men are thrown out of employment.

WASHINGTON, March 14.—Senator Boutwell walked out to-day. He expects to take his seat in the Senate Tuesday.

Judge Lewis Dent, brother of Mrs. Grant, is lying at the point of death, at his residence here. Cause, tumor in the stomach.

The appointment of Senator Stewart to the chairmanship of the select committee to investigate the charges of fraud in the District of Columbia, made against the Department of Public Works, excites much adverse comment, because Stewart's real estate has been largely exhausted by the local improvements in which fraud is charged, and Stewart has recently prejudiced the case by remarks in the Senate.

House Judiciary Committee, not concurring in the Senate amendment to the bankruptcy bill, are remodelling it such a way that it is hoped the two houses will be brought to an agreement on it.

BOSTON, March 14.—The committee in charge of the body of Sumner arrived at seven o'clock this evening. 100,000 people were at the depot. At Springfield and Worcester immense crowds stood at the depot as the train passed. The body was conveyed to the State House, and deposited in Doric Hall, where the Shaw Guards, colored, will act as guard of honor.

WASHINGTON, March 14.—Senator Jones, at the suggestion of Clayton, will move in the Postal Committee that the President be requested to transmit all letters urging Stone's retention Clayton and Hagar will go before the Committee and testify that the public sentiment in San Francisco has undergone no change. Sargent supports Coey.

GOLD HILL, Nev., March 14.—An immense land slide occurred last night, on the Virginia and Truckee R. R., a short distance below the Tyler mine, American Flat. The slide was 80 feet in length, 50 feet in width, and 25 feet in depth.—The pressure on the track forced it up to a position nearly at right angles to the one originally occupied. At the point where the slide occurred there is a sharp turn in the road, and the engineer of the first western bound train, composed of cars loaded with ore, which left here at 5 o'clock this morning, being unable to see the obstruction on the track, ran into it. The conductor jumped off the locomotive before it struck the slide, but the freeman and engineer remained.—The locomotive and tender fell over the sideways and was half covered up with dirt. No one injured. One ore car was wrecked and three others jumped the track. Passengers arriving from Reno and different points were transferred to trains on this side. They expect to have it open to-morrow.

Nearly all the locomotives on the road are draped in mourning, out of respect to the memory of Henry Shriver. WASHINGTON, March 14.—The committee on Commerce steadily refuses to consider any proposition for river and harbor improvements that is not contained in the revised estimates of the Engineers Department. These do not include the San Antonio creek appropriation. ELKO, Nev., March 14.—The Westward bound passenger train, consisting of a mail, express, and baggage car, one sleeper, two first-class coaches and an emigrant car, met with quite a serious accident this morning, when about ten miles west of Toano. The accident occurred on an embankment about 20 feet high. The train was an hour late and running at the usual speed, when suddenly a rail broke and precipitated the hind coach and emigrant car down an embankment. The coach which was filled with passengers, turned completely over and now lies upside down. The emigrant car, which was the rear one, was thrown violently down the grade, but maintained its equilibrium. The forward car and the sleeper was also thrown from the track, but did not go down the embankment.

The following is the list of the injured obtained by a special reporter sent to the scene of the disaster: Jas Dick, Colorado, slight cut in right shoulder, bruised; was in next to the rear car; Benjamin Carson, Providence, Rhode Island, deep cut in forehead, not dangerous; was in emigrant car; Mrs Wm. Roe, Dundas County, Canada, seriously injured about the head, right arm fractured, shows signs of internal injury. Several others sustained slight injuries, but none of a serious character.

The accident was a fortunate affair in its results, as railroad men consider escape of so great a number uninjured from the coach landing bottom upward, as almost miraculous. Heavy snow, however, in the vicinity of the disaster probably accounts for so small a number injured. The wounded with one exception, that being Mrs. Roe, will be able to proceed to their destinations.—The engine, express, mail and baggage cars passed over the broken rail and felt nothing of it, showing clearly that the rail broke while the train was passing over it. Every provision has been made by the company for those who sustained any injuries. The snow along the road between Wells and Toano is

very deep and high winds are apt to produce blockades at any time.

CHICAGO, March 16.—A Washington special says it has been represented in some quarters that the Ways and Means Committee have decided to modify existing laws rather than recommend their unconditional repeal. The fact is, that the Committee have unanimously instructed Foster, of Ohio, one of its members to bring in a bill repealing every vestige of law under which Sanborn, Jayne, and others operated. It will probably be reported to the House this week, and there is no doubt, whatever, of its passage. Sanborn is here and desires law so modified as to reduce the percentage of moiety, but the disposition of the House is in favor of abolition of moiety business both in exercise and custom laws.

OSWEGO, March 16.—A fire here last night caused a loss of \$30,000. Insurance \$17,000. NEW YORK, March 16.—Owen Manyhart, residing at No. 200, West Twentieth street, threw a lighted kerosene lamp at his wife last Saturday night and burned her so severely that she died yesterday. Manyhart was committed to jail to await the action of the Coroner. Judge Brady has granted the motion of Tweed's counsel to amend the Clerk's records of Tweed's sentence, to conform to Judge Davis' language as taken by the stenographers, thus substituting County jail for Penitentiary.

The House Committee on Pacific railroads will hold a special meeting to-morrow to consult with Government Directors of the Union Pacific Railroad, in relation to proposed legislation, regulating subsidized railroads. Operations of the Wyoming coal and other inside rings are to be investigated. The question of further exemption of railroad lands from taxation; the propriety of having the principal office of the Union Pacific Company removed from Boston to some point on the line of the road, and from other matters requiring legislation will also be considered.

HAVANA, March 16.—The Letter gives another account of an attack on volunteers between Neuvaits and Puerto Principe. It seems that on the arrival of the first bands of volunteers at Neuvaits, they found the railroad leading to Puerto Principe cut, and attempted a march to the latter place, when they were attacked by Cubans, losing 25 killed and 70 wounded. The remainder retired to Neuvaits.

NEW YORK, March 16.—The Cubans of this City received information of an uprising of slaves on sugar estates in the district of Marietta, about 45 miles from Havana in the neighborhood of Bahai, Honda. Uprising began in the state of Jaguire, fomented by poor planters, who are under the impression if slaves should rise in their vicinity the authorities would feel bound to arm whites to maintain their power at home, and thereby prevent them from being sent to fight on the eastern part of the Island. The Captain General has ordered troops to the vicinity of trouble.

BOSTON, March 15.—Committee in charge, finding that the body and face of Sumner had greatly changed, did not open the coffin to-day. An immense crowd passed through Doric Hall, leaving decorations and floral tributes. SPRINGFIELD, Mass, March 15.—A letter from Sumner to a personal friend, dated March 20th, 1873, states that his sickness resulted from injuries received twenty years before. He lamented the fact that the American people had a false conception of his stand on the battle-flag question, which will be regretted in a day of light.

PHILADELPHIA, March 12.—Owing to the non conviction of parties indicted for selling liquor on Sunday, the police have been instructed to arrest only in a case of flagrant violation of the law—the entering at a side door business.

PARIS, March 15.—The Pays publishes a correspondence which shows that the Empress Eugenie and her son have finally broken off all relations with Prince Napoleon, because of his refusal to go to Chislehurst to-morrow.

LONDON, March 15.—Meeting in favor of Fesian amnesty in Hyde Park to-day was attended by 20,000 people. Good order prevailed.

SAN FRANCISCO, March 16.—About 10 o'clock last night, at the corner of 1st and Mission streets, Wm. Handley stabbed a widow, named Mary O'Connor, and her son, inflicting wounds which may prove fatal. He wished to marry Mrs. O'Connor, and on her refusing to have him he attacked her with a knife, cutting her severely in the face and neck. Her son came to her assistance, and the fellow, mad with liquor, stabbed him too. He was finally disarmed and taken into custody.

WASHINGTON, March 17.—G. F. Wilson and several other Government Directors of the U. P. R. R. had a conference with the House Committee on Pacific Railroads, on the Government interest in the road. The House Committee will report to compel the Union Pacific to prorate freights with the Kansas Pacific road. It was shown to be impracticable, as the western part of the road cost twice as much as the eastern. The Committee will soon call on the Secretary of the Interior to confer in regard to the time fixed for declaring the completion of the road. At present the road lands are exempt from taxation, though not patentable. While the Government officers are not pleased with the change in the management, they concede that the officers seemed disposed to act fairly, and enhance the value of the property.

The new Directors appear to desire an amicable arrangement with the Government Directors. The President of the road says the Company have taken possession of the Wyoming coal mines and hereafter will own them.

Bald Mountain, in the Western part of North Carolina, reported in a state of eruption. People are fleeing from the base.

BOSTON, March 16.—The obsequies of Senator Sumner took place at 3 30 this afternoon. The remains were conveyed from Doric Hall of the State House in a hearse drawn by 4 black horses, with a squad of mounted State constables. The procession included Executive and Congressional authorities, Congressional Commissioners, United States officials, and municipal authorities. The pallbearers were ex-Governors Clifford, Bullock, Claflin and Washburne, ex-Chief Justice Bigelow, N. P. Banks, Robert C. Winthrop, Charles Francis Adams, J. G. Whittier and Ralph Waldo Emerson.

As the casket passed from the hall Baldwin's band played the Dead March from Saul. The procession was preceded by four men bearing a cross nine feet high, composed of calla lilies, lilies of the valley, violets and other choice flowers. At the base, wrought in white violets were the words, "A tribute from his native city and home."

At the church a prelude was given on the organ after which Rev. Mr. Foote recited the passages, "I am the Resurrection," etc.; and, "I know that my Redeemer liveth." The choir sang "To Thee, O Lord, I yield my spirit;" followed with alternate reading and chanting. The benediction was then pronounced and the cortege moved to Mount Auburn, and after the recital of the Lord's Prayer, and music from the Apollo Club, the last sad rites were performed over the remains of the honored son of Massachusetts.

SPRINGFIELD, Mass., March 16.—In this city the bells were tolled at 3 o'clock in honor of Sumner.

At Holyoke a memorial service was held, business being generally suspended.

At Westfield stores were closed; and throughout Western Massachusetts generally bells were tolled.

NEW YORK, March 16.—Dispatches from a number of Southern and Western cities state that the colored people appropriately noticed the death of Sumner.

Advices from Massachusetts indicate the probability that Dawes will be elected to succeed Sumner, notwithstanding the efforts to beat him by exciting suspicion that he has been leagued with Butler. The Tribune to-morrow will advocate the election of Charles Francis Adams in place of Sumner. The Boston Advertiser favors Adams.

CHICAGO, March 16.—A delegation of 100 ladies from a large meeting in Clark street Methodist Church, marched this evening to the City Hall and presented to the Council a remonstrance against the repeal of the Sunday Saloon closing Ordinance. The Council received the petition but passed the Repeal Ordinance by a vote of 22 to 14. The defeated ladies then ran the gauntlet of a mob of bummers, who insulted, hooted and yelled at them all the way from the City Hall back to the church.

EXCLUSIVELY TO THE DAILY DISPATCH.

VICTORIA, B. C., March 11.—The str. Eliza Anderson sailed last evening and the Otter this morning for Cassiar, carrying away about one hundred and twenty-five passengers. The steamer California, from Sitka, passed down this morning. She brings no news of any importance from Cassiar. The miners are going into the diggings, notwithstanding the intensely cold weather.

LA CONNER, March 11.—The Bellingham Bay Mail has a notice from the County Treasurer calling in certain County Scrip for redemption. This is the first instance in the history of the county that the Treasurer has called in to redeem County orders, except in lieu for taxes.

The citizens bordering on the Nootsack will soon hold a meeting to take steps for the removal of obstructions from that river, having given up all hope of Government aid.

The weather is clear and mild. A Lightning Creek, British Columbia, dispatch says the washes for the week are as follows: The Spruce Company, 191 ounces; Van Winkle, 118; Victoria, 100; Vancouver, 193; Point Co., 78.

The Victoria company are now sinking another shaft down about thirty feet. Vulcan company are down about seventy-five feet. The Castello Co. expect to have their machinery at work in about eight days. Companies on the outside Greeks are getting ready to commence work.

WASHINGTON, D. C., March 10.—In the United States Supreme Court, Oregon (Steam Navigation Company vs. Winsor, et al.), in error from the Supreme Court of Washington Territory, plaintiff in error sued to recover \$75,000 as stipulated damages for an alleged breach of covenant, averring being that in May, 1864, California Steam Navigation Company, engaged in transportation of freight and passengers on waters of that State, sold to plaintiff steamer New World for the sum in question, and for the further consideration of a covenant whereby plaintiff agreed not to run or employ steamer, or suffer it to run or employ, on any routes of streams or rivers, bays or waters of California, for a period of ten years, with a penalty of \$75,000 for breach of covenant.

The Court held the covenant to be in restraint of trade and imposing unreasonable restrictions and therefore void. This decision is assigned as error in this court, the plaintiff in error maintaining that such partial restraint as in case presented is grounded upon a valid consideration and is not open to the objections sustained against it. The cause was argued by G. H. Williams for plaintiff in error and by B. F. Dennison for defendant.

WASHINGTON, March 11.—Yesterday in the Senate, Senator Sumner had a slight attack affecting the nerves of the heart; but when he returned home he was sufficiently well to entertain his friends at dinner, at the close of which he made allusion to the condition of his heart. Between nine and ten he was taken so sick as to require the attendance of a physician. An hour or more after he had a second attack of his old disease, angina pectoris. Several of his nearest personal friends were sent for and remained with him during the night. He passed a quiet night under a subcutaneous injection of morphia.

CONCORD, March 11.—Returns from 152 towns show an aggregate of 56,093; McCutchins (Rep.), 27,003; Weston, (Dem.), 27,496; Blackner (Prohibitionist), 1,614. There are 82 towns to hear from and Weston may not overcome the present majority against him. Council will probably stand, Republicans 3; Democrats, 2; The Senate will probably be a tie, and the house will be very close, the political complexion depending on the towns that hold elections to-day.

NEW YORK, March 11.—A letter from Havana says the city is filled with volunteers, who are daily departing for the seat of war. Each receives \$100 from the Government on entering the barracks, and has \$800 deposited to his credit in the bank, subject to the order of himself or his heir, at the end of six months service. All look well and in marked contrast with the militia, who received but \$10.

BOSTON, March 11.—Oliver Ames was to-day chosen President and E. P. Rollins Secretary of the Union Pacific R. R. Co.

SAN FRANCISCO, March 11.—Celebrated actress, Miss Neilson, made her first appearance in the State of California last night as Juliet. The house was large and she was warmly received.

fairly arranged. The question of track stands in the way. The owners of the former horse prefer the Sacramento track; Mr. Treat the Oakland course.

LOSANOS, March 10.—Additional dispatches from the Gold Coast report that Gen. Woolesey recrossed the River Pruh February 15th. Three of the Kings tributary to King Koffee have given in their submission to the British. The Ashantee throne is considered at an end and the Kingdom hopelessly disrupted.

STANLEY, The Herald correspondent, telegraphs from Lisbon that negotiations between General Sir Garnet Woolesey and the King of Ashantee are completed. The King agrees to pay \$50,000 ounces of gold, renounces all claim to Adanzi and other Territory as specified, and consents to withdraw from Apollon and the Coast provinces, to keep the road free from Coomassie and the river Pruh, protect commerce, prohibit human sacrifice, and keep the peace forever.

The Standard special from Spain says Serrano and Gen. Dominerez are at Castro Urdiales, 25 miles east of Santander, on the Bay of Biscay, and are daily receiving reinforcements. Don Carlos has ordered siege operations against Iremund and Bizade.

WASHINGTON, March 11.—During the last two hours of Sumner's illness his intellect seemed much clearer, and he was perfectly conscious to the last. This condition was doubtless the result of his recovery from the effect of the morphia administered during the morning. His sufferings toward the last seemed intense, and he several times exclaimed, "I want quiet; I am tired." He recognized friends who came into the room. One of the last to whom he spoke was Ex-Attorney General Hoar, of Massachusetts, to whom he said, "Take care of the Civil Rights Bill." Take care of a quarter before three o'clock he was attacked by a spasm in which he died.

WASHINGTON, March 11.—The pall bearers at Sumner's funeral to-morrow will be Senators Anthony, Schurz, Sargent, McCreery, Oglesby and Stockton. Those especially invited to attend the funeral are the President and the members of the Cabinet, the Justices of the Supreme Court, the Diplomatic Corps, General of the Army and Admiral of the Navy. The invitations to the two last named include invitations to Army and Navy officers of the Marine corps, respectively.

BOSTON, March 12.—Neither branch of Massachusetts Legislature transacted any business to-day. Upon assembling of the Senate, a message was received from the Governor announcing the death of Sumner and paying an eloquent tribute to his memory concluding with congratulations that resolution rescinding vote of censure reached him as it did. On motion of Banks the message was referred to a joint committee of both Houses, with instructions to report a plan for properly honoring the memory of the deceased Senator.

Among the names mentioned as successors to Sumner are H. L. Dawes, ex-Governor Bullock, Clifford, Gov. Washburne, E. R. Howe, Gen. Banks, Gen. Butler. The election will probably occur on the 28th inst.

SAN FRANCISCO, March 13.—Dispatches from the Palisades and Battle Mountain state that the Central Pacific Railroad track near the latter place is impassable for a distance of about 10 miles. The track sunk down. Culverts washed away. Floods of water and severe storms of rain, hail and snow in the Sierras. No trains can run through until the track is repaired.

The Pope has written a letter to the Austrian bishops, urging them to resist the proposed ecclesiastical law.

WASHINGTON, March 12.—Supervising architect Mullett fully admits that the Government was swindled in furnishing stone for the new San Francisco mint, but the records clearly show that Mullett Superintendent Stebbins was alone responsible for accepting stone inferior to contract. When Mullett reached San Francisco and saw the stone for himself, he immediately denounced the swindle, and has ever since urged the Department not to pay another dollar to the contractor; and thus far no settlement has been made with Emery, who, while admitting that the stone was inferior to the sample, claimed that Stebbins insisted on having it from another stratum of the quarry than the one from which the sample was taken. Mullett is also opposing his influence to Emery's claim for \$33,000 in addition to the \$74,000 already paid for flagging.

Mullett is unreserved in his denunciation of Emery and other California contractors who assisted. He calls them the most unreliable he ever had anything to do with. Emery is seeking a release from the granite contract, for appraiser's stores, but Mullett opposes it because Emery's signature would give the contract at higher figures to the next bidder, Frank M. Brown, who Mullett says is Emery's partner.

NEW YORK, March 12.—The new board

of directors of the Union Pacific Railroad met yesterday in Boston and elected the following officers: President, Sidney Dillon, New York; Vice President, Elisha Atkins, Boston; Treasurer, E. Rollins. The Directors' ticket elected was a compromise agreed to by Jay Gould, who represented New York. The announcement from Boston yesterday of the election of Oliver Ames, President of the R. R. was a mistake.

The following are the directors: Oliver Ames, John Duff, Elisha Atkins, Sidney Dillon, R. P. Morton, T. G. Jordan, Dexter B. E. Bates, Jas. D. Smith, C. J. Osborne, Geo. Scott, Saml. Mills, Jay Gould, E. H. Baker, J. Richardson.

BUFFALO, N. Y., March 12.—The people of Buffalo to-day exhibited, in a marked manner, their veneration for deceased ex-President. At 9 o'clock the family and a few friends of the deceased gathered at the residence, where services were conducted by Revs. R. Hotchkiss and John O. Glord. Eight officers, with an escort of the whole company of Buffalo City Guards, bore the remains to St. Paul's Cathedral.

WASHINGTON, March 12.—The Senate Committee on Commerce have agreed to report favorably to House bill authorizing the Secretary of Treasury to fix the number of fur seals that may be killed annually on the Island of St. Paul and St. George, respectively, provided that total number of 100,000 now allowed by law to be killed annually, shall not be exceeded.

The Senate Committee on Indian Affairs has reported adversely and the Senate has postponed indefinitely, the bill introduced by Oglesby and endorsed by the Interior Department, in accordance with the report of Special Commissioner Shanks, proposing to create an immense reservation in the north-eastern part of Washington Territory for the Coeur de Alaines and eight other tribes of Indians.

CONCORD, N. H., March 12.—Weston fails of election by from 300 to 500 votes. Four Republican and four Democratic Senators are elected with no choice in four districts. From the return already in, the House stands Dem., 172; Republicans 167. Eight towns to hear from which at last election chose Democrats, they probably have done so this year.

NEW YORK, March 12.—The jury in the case of King charged with murder of O'Neil rendered a verdict of murder in the second degree. The sentence was deferred.

A partial examination of Brooklyn accounts shows that the amount of alleged defalcation will reach \$100,000.

WASHINGTON, March 12.—The pall bearers at Sumner's funeral to-morrow will be Senators Anthony, Schurz, Sargent, McCreery, Oglesby and Stockton. Those especially invited to attend the funeral are the President and the members of the Cabinet, the Justices of the Supreme Court, the Diplomatic Corps, General of the Army and Admiral of the Navy. SAN FRANCISCO, March 14.—A passenger train bound west, on the Central Pacific jumped the track this morning between Toano and Wells, and went down an embankment 30 feet high. It is reported that there is great loss of life. The accident was caused by a broken rail.

Senator Sumner's body has been taken to Boston for interment. The proceedings in the Senate were of the most solemn and imposing character. The remains were taken by the Sergeant-at-Arms of the Senate by a special train. Funeral takes place next Monday from the State House.

GOOD RULES FOR FARMERS.—1. Keep account of farm operations. 2. Do not leave implements scattered over the farm, exposed to rain or heat. 3. Repair tools and buildings at a proper time, and do not suffer a subsequent three-fold expenditure of time and money.

4. Use money judiciously, and do not attend auction sales to purchase all kinds of trumpery, because it is cheap. 5. See that fences are well repaired and cattle not grazing in the grain fields, or orchards. 6. Do not refuse to make correct experiments, in a small way, of many new things. 7. Plant fruit trees, care for them, and get good crops. 8. Practice economy by giving stock good shelter and good food, taking out all that is unsound, half rotten or mouldy. 9. Do not keep tribes of cats or snarling dogs around the premises, who eat more in a month than they are worth in a whole life-time. 10. Read the papers, also the advertisements; know what is going on, and save money by it. 11. Educate your children carefully and practically. Fit them for the every-day duties of life. A few dollars spent now will be worth thousands to them in the future.

A KANSAS JUDGE.—A Kansas paper gives the following report of a Judge's sentence, lately passed on a criminal: "Bumley, you infamous scoundrel! You're an unredeemed villain! You haven't a single redeeming trait in your character. Your wife and family wish we had sent you to the penitentiary. This is the fifth time I've had you before me, and you have put me to more trouble than your neck is worth. I've exhorted and prayed over you long enough you scoundrel! Just go home and take one glimpse at your family, and be off in short order! Don't let's ever hear of you again! The grand jury have found two other indictments against you, but I'll discharge you on your own recognizance, and if I catch you in this neck of woods to-morrow morning at daylight, I'll sock you right square in jail and hump you off to Jeffersonville in less than no time, you infamous scoundrel! If ever I catch you crossing your finger at man, woman or child—white man or nigger—I'll sock you right square into the jug! Stand up, your scoundrel, while I pass sentence on you!"

From the top of Kearsarge Mountain in New Hampshire, may be seen the birthplaces of Ezekiel and Daniel Webster, William Pitt Fessenden, Gov. John A. Dix, Vice President Henry A. Egyptian Bitters OF TREE OF LIFE. Patented June, 1866, to Peter Poncia

THIS VALUABLE MEDICINE IN USE for several years past in the Eastern States with marvelous success, has just been introduced in this place by the patentee. The first person who tried it here, offers the following testimony to its merits: SEATTLE, August 19, 1873. I have been a sufferer for several years from chronic bilious affections, with no medicine tried by me affording any relief. As an experiment, I tried Mr. Poncia's Egyptian Bitter from the effects of which I have experienced the most gratifying results. I can sincerely commend it to others similarly afflicted. HUGH McALLISTER, Manufactured and sold by P. PONCIA, On Second Street, corner above Methodist Church. ang 20
