

Puget Sound Dispatch.

SEYMOUR BROWN, EDITOR. Seattle, W. T., March 25, 1875.

Mr. Entress:—It must now be conceded that the further prosecution of the Northern Pacific Railroad is postponed indefinitely. Is it not, then, high time that some steps be taken to restore the lands to market which have been set aside for the benefit of that unfortunate corporation? Everything now points to a large immigration to the Pacific Coast in the near years ahead. The fearful severity of the past winter, together with the oft-recurring droughts in the Atlantic States, and the grasshopper plague of Iowa, Minnesota, and the great Interior Territories, will turn the steps of a half million people to the general shores of the Pacific.

Washington Territory will get her share, and a fair share too, even before the completion of the Winemucca road, probably the only practicable railway enterprise pending to the Northwest, and after its completion a flood of immigrants will pour into the Puget Sound Basin.

We must be able to offer them cheap homes, lands at \$1 25 per acre. Water powers must be utilized, ship yards established and manufactories of wood and iron. But first of all we must get rid of the incubus of Jay Cooke's railroad, and with it the horde of incompetents who are straggling along from Portland to Tacoma. The public lands must be restored to market, and that speedily.

We have a new man now for our Delegate in Congress. May I be permitted to suggest to him that the very best thing he can do to signalize his usefulness, and perpetuate his position, will be to get these lands restored to the people from whom they have been withheld so long by such speculators in subsidies as Jay Cooke & Company?

Whether the end can be best reached by a legal proceeding on the part of the Attorney General, or by an Act of Congress, I am unable to decide. But let it be done somehow.

ONE OF THE PEOPLE.

MARK TWAIN DELIVERS A CHARITABLE LECTURE—CHARACTERISTIC LETTER.

Samuel L. Clemens has consented to lecture in Hartford for the benefit of the poor. Following is his letter: HARTFORD, Feb. 20th, 1875.

GENTLEMEN:—I accede to your request with pleasure. Many months ago I permanently quitted the lecture field, and said I would not appear on the platform any more unless driven there by a lack of bread. By the spirit of that remark I am debarred from delivering this proposed lecture, so I fall back on the letter of it and emerged upon the platform for this last and final time because I am confronted by a lack of bread—among Father Hawley's flock. Most people lie by the spirit and the letter too, but I am not of that kind, for I have been very carefully brought up. I wish to impose upon you the condition that the expenses of this enterprise shall be paid out of four or five private pockets, (mine in one of them,) to the end that all of the money that comes in at the door shall go to Father Hawley's needy ones, unimpaird by taxes on its journey. I am glad to know that you are going to put the tickets at \$1; for what we are after now is money for people who stand sorely in need of bread and meat—and so the object justifies the price. As this will probably be the last time I shall ever have the opportunity of hearing sound wisdom and pure truth delivered from the platform, I wished to buy a ticket to this lecture, and I herewith send money for the purchase. I am aware that I could get in for nothing and still be acting in a measure honorably; but when I run my lecture over in my mind and realize what a very bonanza of priceless information it is, I find I cannot conscientiously accept of a free pass.

Respectfully, MARK TWAIN.

COLONIZATION OF PALESTINE.—The Jewish Times favors this scheme. We quote:

Sir Moses Montefiore, the venerable advocate of the Jews, has issued a circular letter urging the colonization of Palestine and the encouragement of Jewish agriculturists and mechanics. The project seems by no means impracticable. Whatever opinion people of a liberal turn of mind may entertain regarding the veneration due to the ancient home of the Jews, there can be no doubt entertained that millions of Jews look upon Palestine as the land holy par excellence, the place nearest to the future abode of bliss, and in direct connection with the Paradise of Saints. An irrepressible desire and burning longing dwells in the breast of thousands of our brethren for the land which in their opinion, is alone worthy to contain the temple for the worship of the true God, and where they may best secure the due preparation for entering the home of eternity.

Julia Ward Howe is organizing a literary club in Washington. In connection with it will be a free night school for carpet-bag representatives who cannot spell words of more than two syllables.

Mr. Tracy proposes—so it is said—to read in evidence the whole of Mr. Tilton's novel "Tempest Tossed," and the other side will retaliate by reading Mrs. Stowe's book on Byron and Mrs. Beecher's Cook-Book. The privilege of attending the great trial is nearly equivalent to a liberal education.

TWENTY-CENT PIECES AT LAST.—The coinage of 20 cent pieces has been authorized, and the same are made a legal tender to the extent of \$5. This is purely a Pacific coast measure, but will be alike beneficial to all parts of the United States upon the resumption of specie payments. It is a long step in the way of perfecting our decimal system, and we presume does away with the coinage of 25 cent pieces. It will of course be some little time before the new coin can be issued, but its introduction into our currency system will put a stop to a great deal of petty swindling which has been developed in connection with what is known here as the bit system. The days of long bits and short bits are numbered, and honest dealing in respect to change is at hand.

TAKES ON SPIRITS AND TOBACCO.—We clip the following from the San Francisco Chronicle of March 8th:

Collector Sedgwick, of the First Revenue District of California, has received the following telegram from Washington with reference to the taxes on spirits and tobacco. You will resume the sale of tax-paid spirit stamps at 70 cents per gallon for spirits produced that is in distern room or warehouse prior to midnight of the 3d inst. Make requisition for such tax-paid spirit stamps as will be at once required for spirits produced subsequent to March 3, 1875. Resume sale of tobacco stamps at 24 cents per pound, cigar stamps at \$6 per thousand, and cigarette stamps at \$1 75 per thousand. Words, "issued under Act of March 3, 1875," must be written or imprinted on each tobacco, cigar, or cigarette stamp. Tobacco, cigars, or cigarette in the hands of manufacturers, legally packed and properly stamped on the morning of March 3d, will be unaffected by change in the rate of tax. Unstamped stamps in the hands of manufacturers at that time may be exchanged in the manner prescribed by Circular No. 98, issued July 1, 1872, but cannot legally be used to pay a higher rate of tax. J. W. DOUGLASS, Commissioner.

PLYMOUTH KISSES.—The testimony in the great Brooklyn trial reveals a singular proneness to giving and receiving personal endearments among certain prominent actors in the scandal. Mr. Tilton swears that Mr. Beecher kissed him, and that he endured it, even after he knew that Mr. Beecher had committed adultery with his wife. Mrs. Moulton says that she kissed Mr. Beecher directly upon his confession of guilt and threat of self-murder. Mr. Beecher is represented on several occasions as laying his hand caressingly upon Mr. Moulton's shoulder; and from a question put to Mrs. Moulton by Mr. Beecher's counsel it would seem that an attempt will be made to show that not only Mrs. Moulton, but also Mr. Moulton and Mr. Tilton were in the habit of kissing Victoria Woodhull. On reading these things the profane reader is reminded of the popular quatrain:

"I saw Esau kissing Kate. In fact we all three saw; I saw Esau, he saw Kate, And she saw I saw Esau."

WHO PAYS FOR IT?—The New York Sun says: "Mr. Leland Stanford, of the Central Pacific Railroad is about to build a house in San Francisco which will eclipse in splendor the magnificent residence lately erected by Mr. Sharon, the newly elected Senator from Nevada, who, by the by, actually resides with his family in San Francisco. Mr. Stanford's house will be 125 feet square on the ground, and the largest private residence in California, and will be finished inside and outside in the most elaborate and expensive manner. In the meantime the people of the whole country are annually taxed to pay the interest on the bonds of Mr. Stanford's railroad."

HOW A CAT WON A WAGER.—A number of persons were in the American House billiard saloon last night, when a man came in with a cat in his arms. A momentary wonder was expressed as to what the companionship meant, as men are not in the habit of going about with cats in their arms. The observers had not long to wait, as the cat carrier exclaimed: "Bet anybody this cat will carry a bottle of ale ten feet." Somebody, either doubting the pussy would perform the feat, or willing to see it done, took the bet. Two chalk lines were made on the floor, the bottle was produced, and the performance began. The bottle was placed on one mark, and the cat was to carry it to the other. Seizing the animal by the tail, the man hung her head down over the bottle. Obeying a known impulse, the cat grabbed the bottle with her fore feet. The man then walked over to the chalk mark, and the cat, clinging desperately to the bottle, carried it along the floor to the specified distance. The wager was won.—Miners' Journal.

Professor Churchill, of Oberlin, says that too many hours of study are exacted of pupils in the public schools; that instructors are careless of the amusement of children; and that the courses of study require too much, only a few of the brighter ones being able to perform the labor required in the time allotted. He advocates not the lowering of the standard of the high school, but the lengthening of the time devoted to the lower grade.

It is reported that the Queen wanted to confer a title on Sartoris, and Mrs. Sartoris wouldn't permit her—said she had had enough work to Americanize her husband without any of that nonsense.

Mrs. Lovit, of Springfield, Mass., has found her husband and three grown-up sons to take board at a neighbor's, as she finds it impossible to spare time for housework while the Tilton-Beecher trial is going on. She is a slow reader and gets up at day-light.

Charles Francis Adams has settled down again. He is one of those rare and delicate objects preserved in the Cabinet of National Esteem, that are only taken out on great occasions, and exist rather for ornament than for use.

"Where's the molasses, Bill?" said a red-headed woman sharply to her son who had returned with an empty jug. "None in the city, mother. Every grocery has a big black board outside, with the letters, N. O. Molasses."

A GOOD STORY OF MRS. GENERAL CROOK. A Washington correspondent tells a nice little story about Mrs. Gen. Crook, who has been passing some weeks at the capital. She is very desirous of having her husband transferred from Arizona, where the climate is telling upon his health, so she says. At a recent entertainment the President was promenading with Mrs. Crook, when she ventured on a plea for her husband. The President answered her by saying that General Crook was too valuable where he was to be exchanged to any other post, and added: "He serves his country so much better when his wife is with him that you will have to return." Mrs. Crook was a Miss Daly of Winchester, and was captured by her husband just after the celebrated battle in which her husband acted so conspicuously and brave a part. She is very handsome and sprightly, so she saucily answered the President by telling him that her husband was a greater general than he or Sherman: "for," said she, "it only took him two hours to reconstruct me, and after ten years trial, you and Sheridan have failed with the South." The President got even with her at their last meeting, when she asked: "Am I really to take that long journey through the Indian country to join my husband?" "No," he said; "I am going to send General Crook to Alaska, and you can join him at San Francisco."

Mrs. Crook has had nine happy years with her husband, and is as proud of his military record as if she had never needed reconstruction. She thinks that if the same policy had been adopted for reconstruction on a larger scale as the conquering hero practised upon her, there would be no discontent now. That same old law of love and kindness that binds the hearts with bands of steel.

SENDING A BABY TO HEAVEN IS A BALLOON.—One of the strangest and most horrible of sensational incidents took place the other day at Pateaux. A party of children who were playing in the environs discovered floating in the air and partly entangled amid the branches of a tree a white parcel upborne by means of some twenty or thirty little toy balloons, which were attached to it. The attention of the police being called to this singular object, it was brought down and the package opened, which proved to contain the corpse of a new-born infant. Investigation into the matter brought to light the following facts: The child was that of a poor toy maker and his wife; just after the confinement of the latter the husband had died suddenly and all the household goods and chattels had been sold for rent. The unfortunate woman had been driven mad by this accumulation of misfortunes; she killed her infant and then went and threw herself into the river, leaving behind her a written paper in which she declared her intention of committing suicide, and said that she "had gotten her baby all ready to up to heaven." A sadder tale with a stranger termination it would be hard to find. The toy balloons evidently had formed part of the dead husband's stock in trade.—Philadelphia Press.

A lawyer out West received a letter from a man in Oswego who wanted a divorce. The letter concluded as follows: "While I was taking a bath, my wife slipped out of the house, ran to the train and eloped with him. She has been waiting for this opportunity nearly two years. I am convinced." Perhaps if he had bathed oftener she would not have seized the opportunity.

A nephew of Stonewall Jackson married a niece of Geo. B. McClellan, at Denver the other day.

STAMPS ON CHECKS, DRAFTS, ETC.—U. S. Internal Revenue Commissioner J. W. Douglas has forwarded to the Collection offices an official circular, containing the following important notifications: Section 15 of the Act of February 8, 1875, provides: That a bank check, draft, order or voucher for the payment of any sum of money whatsoever, drawn upon any bank, banker, or trust company, shall be subject to a stamp tax of two cents.

By this enactment, checks, etc., drawn on time, are liable to the stamp tax, as well as those payable at sight or on demand; so also are receipts and other vouchers taken by banks, bankers, or trust companies for the payment of money by them.

Anna Dickinson is soon to make her debut as Joan of Arc. She will appear, mounted on a snow-white palfrey, but is much embarrassed by the conflict of historical authorities as to whether Joan used a side saddle or followed the rule laid down in the United States cavalry tactics.

THE NINETEENTH CENTURY.—In 1807 Fulton took out the first patent for the invention of the steamboat.

The first steamboats that made regular trips across the Atlantic Ocean were the Sirius and the Great Western in 1836.

In 1813 the streets of London were for the first time lighted with gas.

About the year 1832 the first railroad in the United States was completed.

In 1840 the first experiments in photography were made by Daguerre.

The anthracite coal business may be said to have begun in 1820.

In 1836 the first patent for the invention of matches was granted.

In 1844 the first telegram was sent.

The first successful trial of a reaper took place in 1843.

In 1845 Elias Howe obtained a patent for his first sewing-machine.

A loving heart and a pleasant countenance are commodities which a man should not fail to take home with him. They will season his food and soften his pillow. It is a great thing for a man that his wife and children can truly say of him: "He never brings a frown or unhappiness across this threshold."

NOTICE.

To all whom it may concern: WHEREAS THE COMMISSIONER OF General Land Office, in letter dated July 8, 1874, ordered that the lands in township 23 North, range 6 East, in the district of lands subject to sale in Olympia, W. T., should be withheld from disposal as agricultural lands until the nominal character thereof shall have been fully established. And, whereas, Charles J. Allen, deceased, late of King county, Washington Territory, made a homestead entry in said township and range, viz: upon the NW 1/4 of section 3, and the SE 1/4 of NE 1/4 of section 4, and the administrator of the estate of the said Charles J. Allen, deceased, now makes application to enter said described land as agricultural land, and has filed his own affidavit, declaring that there is not within the limits of said land, to his knowledge, any coal or other valuable mineral deposit, and that said land is essentially nonmineral land.

Now, therefore, in accordance with instructions from the Commissioner of the General Land Office, it is ordered that testimony touching the character of said land shall be taken before us, at the United States District Land Office, at Olympia, W. T., on the 23rd day of April, A. D. 1875, beginning at 10 o'clock, A. M., at which place and time all persons having interest in the matter of the character of the above described land, are required to appear and there and in the presence of any three or more disinterested persons, to be sworn to, declare that there is not within the limits of said land under the homestead laws of the United States.

Given under our hands at our office in Olympia, W. T., this 11th day of March, A. D. 1875. ROBERT G. BROWN, Register. ROBERT G. STUART, Receiver.

THE SEATTLE Hospital!

CONDUCTED BY G. A. WEED, M. D. COMMERCIAL ST., BETWEEN MAIN AND JACKSON, SEATTLE, W. T.

TO MEET THE PRESSING WANTS OF many persons on Puget Sound needing Medical and Surgical aid, and for comfortable rooms, good care and moderate prices, I have fitted up a Hospital, where every convenience and comfort will be provided in connection with experienced and skillful Medical and Surgical attendance.

We aim to make this a permanent Institution, and to give special attention to cases of fracture and injuries of all kinds that are constantly occurring in the saw mills, coal mines and logging camps surrounding us.

Seattle being centrally located, with regard to these interests, and more accessible than any other point, we mean with the aid of these advantages, and by giving personal and thorough attention to its entire management, to build up an Institution indispensable to the sick and disabled who have no homes, and worthy of their confidence and that of the public. The Hospital is in a pleasant and healthy locality, and the rooms neatly and cheerfully furnished.

For further particulars apply either in person or by letter to G. A. WEED, M. D., Feb 16 Seattle, W. T.

OFFICIAL PAPER OF THE CITY OF SEATTLE, W. T., MARCH 25, 1875.

DIED.—In this city, on the 20th inst., of consumption, Rebecca, wife of B. F. Briggs, aged 26 years.

OVERBOARD.—A Chinaman fell into the bay this morning while attempting to go aboard the steamer Success. He escaped with a wetting.

FOR THE LADIES.—Just received a fine assortment of Ladies' Furnishing Goods and Fancy Articles. Call and see them at Mrs. Jamieson's, Cherry street.

NEW STORE.—Mr. J. R. Bean, formerly of Oregon, is opening a new stock of tobacco, cigars, notions and stationery, in Wells, Fargo & Co.'s building. An enterprise of this kind should receive encouragement.

PARLOR CONCERT.—The young people of Seattle will give a concert at Yester's hall, on Friday evening next, for the purpose of raising funds for the Congregational Church. The finest amateur talent of the city have volunteered. Admission 50c.

FOUND DEAD.—A clothman from Stillaguamish was found dead this morning on Third street near the Catholic Church. She died from delirium tremens and exposure. No inquest was held. Her ill-timed took charge of the remains.

SAN FRANCISCO, March 20.—Passengers per Mohongo for Victoria: B. H. Wilson, W. Denny, H. Elliott, B. S. Hennessy, A. Porter, J. B. Clark, O. J. Williams, E. J. Mayor, G. R. Warwick, C. T. Millard, Capt. Storker, A. B. Sharlow, A. Hughes, W. W. Frances, Captain Crosby, J. H. Wright, John Dickinson, E. B. Marvin, F. Adams, Mrs. Alderton, Mrs. Denin, John Laspall, Mrs. Pierce and 60 in the steerage. The steamer started at 2 p. m.

A SATISFACTORY APPOINTMENT.—The district attorney of J. B. Allen, U. S. District Attorney, has thus far elicited not a single growl from any quarter, that we have heard of. This is very remarkable, considering the fact that Mr. Allen depended upon a party caucus nomination for his appointment, he would have failed, for the reason that he is not one of the party managers. Yet no one doubts his ability or his integrity; but he is not one of the kind who would succeed in manipulating popular elections.

THEATRE.—On last night (Monday) the Phelps Dramatic Company performed "Uncle Tom's Cabin" to a large and select audience as we have seen in Yester's Hall.

WE HAVE NOT the space for an extended notice of the performance but we must say that the rendition of the character of Eva by little Vivia was wonderful for so young a child. Mrs. Phelps made a very good Tony, and the other characters were well sustained by the rest of the Company.

TONIGHT, their last in Seattle, will be performed the "Lady of Lyons," concluding with the farce of "The Omnis." All who have seen the acting of the Company will be sure to attend and to all others we would say that we have never seen a better troupe in Seattle.

MARINE INTELLIGENCE.—PORT BLAKEY, March 20th.—Sailed, bark Palousa with lumber to Peru. SAN FRANCISCO, March 19.—Arrived, bark Oregon, Seabeck; bark Forest Queen and ship Commodore, Port Ludlow; schooner Alice, Port Gamble. VICTORIA, March 21.—Arrived, bark Stella, Glasgow.

SAN FRANCISCO, March 22.—Arrived, steamer Los Angeles, Victoria; French bark Stella Maria, Newcastle; ship Jas. Cleston, Port Gamble. Sailed, bark Oak Hill and Martha Bideout, Port Blakely.

SAN FRANCISCO, March 20.—Arrived, brig Tanner, Port Discovery; barkentine S. M. Stetson, Port Madison; bark Modoc, Utsalady. Sailed, bark Milan, Port Gamble; barkentine W. H. Gawley, Port Madison; steamer Mohongo, Victoria.

SAN FRANCISCO, March 21.—Sailed, bark Aureola, Seattle.

Telegraphic

EXCLUSIVELY TO THE DAILY DISPATCH.

CHICAGO, March 19.—A Washington special says of Senator Booth's speech on the Hawaiian reciprocity treaty: He captured the Senate as an orator and demonstrated how he made such a success upon the stump in his State. He is a very fluent speaker and reminds one in his ease of expression and tendency to ornateness of Matt Carpenter in his pulpy days. His action is clear and musical, and his action is very graceful. One Republican Senator in speaking of him to-night, says he will be successor of Matt Carpenter in capturing the galleries. Whenever he rises to address the Senate in open session, he will be sure of a good audience, and he showed himself well calculated to take position as leader in an independent wing of the Senate. He is just the aye of a man to become very popular, and as he has a good record, there is no knowing to what heights may obtain in political field of the East.

LONDON, March 19.—The perfume manufactory of Eugene Renill, 96

Stand, with several adjoining buildings, was destroyed by fire this morning.

NEW YORK, March 19.—A numerous meeting of bondholders of the Northern Pacific Railroad was held here yesterday. An encouraging statement from President Cass was received and after considerable discussion the following preamble and resolution were adopted:

Whereas, The Board of Directors of the Northern Pacific Railroad Co. express confidence, confirmed by time and investigation, in the great merits and ultimate success of the Northern Pacific Railroad, in the most extensive meaning of these words. And

Whereas, Said Board has reported to this meeting that, in their judgement, the earnest and efficient aid and support of the bond-holders is essential to the early resumption of work and that with such aid and support as the bond-holders can wisely and safely give it is possible to proceed with the work of construction at an early day. Therefore,

Resolved, That the chairman of this meeting appoint a committee of seven to confer with the Directors of the N. P. R. Co. with relation to its management and the present and future interests of the bond-holders, and they report at some future meeting.

PORT DEPOSIT, Md., March 19.—The flood here is fearful. Water is from 5 to 10 feet deep in the streets. Nothing like it was ever seen before. Almost the whole town is flooded and there is great destruction of property. No lives lost so far. The railroad depot is full of water. The telegraph operators were forced to abandon the office in boats.

AT HAVRE DE GRACE the ice has gorged about 5 miles below town and wharves are flooded. The street next to the river, above the bridge, is completely blocked by ice. The wood and lumber was washed from the wharves.

WICHITA, Kan., March 19.—At the roll-call of the Cheyenne Indians at the Cheyenne Agency Catharine Garm, one of the white girls recently held captive by that tribe, identified four of the Indians who murdered her father and mother. They were, Medicine Water, who shot her father, a squaw who burned her sister, and two others. The remaining thirteen of the murderers could not be found. During roll call several young Indians fled from camp and were pursued by cavalry, but not overtaken.

Gen. Neil and Agent Miles have discovered that the terms of surrender of Stone Calf and his band had not been complied with. More than 100 young Indians of the band, having the best horses and arms of the tribe, are still on the plains, making their way to the North.

VINELAND, N. Y., March 17.—Mr. Carruth, editor of a paper published here, was fatally shot this morning by Chas. K. Landis, known as the father of Vineland. The affair rose out of an article in the paper, which Landis referred to him, but in which no names were mentioned.

SAN FRANCISCO, March 19.—The execution of Vasquez took place to-day at San Jose. Last night while being interviewed his coffin arrived from the undertaker. He wished to see it and it was brought in. On examining it he remarked, "That's my way up."

AT 7:30 this morning he said farewell to sleep on earth. At half past one the rope was adjusted to the beam. About the same time the death warrant was read. When the Deputy Sheriff had concluded, Vasquez landed him a piece of paper on which was written: "I am destined to die and I hope that God will have mercy on my soul." His legs and arms were strapped, a white shroud was then drawn over his body, the rope was placed about his neck and with the prayers of the priest ringing in his ears the doomed man dropped beneath the platform dying without a struggle. He maintained his composure to the last.

Sheriff Adams has signified his intention to give the body to his relatives for interment in the Catholic Cemetery at Santa Clara.

Greenbacks, 86% buying, 87% selling. NEW YORK, March 22.—Wall Street Markets all higher than Saturday except money and foreign exchange.

The weather is extremely cold, the thermometer being several degrees below zero. An improvement in general trade is reported, but it is less than it would be if the weather was any way reasonable.

Gold closed at 16 1/2. Governments dull and strong. Stocks active and unsettled.

MONTGOMERY, Ala., March 22.—The Legislature adjourned sine die. The last act was one withdrawing the license tax from hotels and permitting the proprietors to make special contracts with boarders.

WASHINGTON, March 22.—The Interior Department will as soon as possible send a competent geologist to examine the Black Hills and ascertain accurately its mineral wealth.

PORT JERVIS, March 22.—An ice gage has formed in the Delaware River 6 miles above the Water-gate and extending back 18 miles. Ice is piled ten to fifteen feet high all the way. Much alarm is felt along the valley.

NEW YORK, March 22.—Bessie Turner's testimony on last Friday night in the Beacher trial stirred up the idle and curious to such a degree that this morning the greatest crowd yet besieged the doors of the Brooklyn City Courtroom, clamorous for admittance. There was

the usual complement of women. The place in the Courtroom assigned for the audience was packed, and the part reserved, since the sickness of a juror, for counsel and reporters, was trampled upon.

WASHINGTON, March 22.—In the Supreme Court to-day the case of Brown vs. Brockett, et al., error to the Supreme Court of California, was decided. This was an affirmation of judgement in an action concerning an old Mexican title in Mariposa Co., Cal. In respect to Mexican land grants it is held that confirmation is limited by the extent of the claim made, and it does not follow that because the tract embraced within the description of the grant, is more extended than the land claimed, that the confirmation would have been made to any greater amount than that claimed, if it had been prayed. The Court declines to go into a general consideration of these grants and the effect of confirmation, remarking that every conceivable aspect of the subject has been before presented and is here affirmed. Mr. Justice Field delivered the opinion.

The Attorney General is said to have decided that the Secretary of the Treasury cannot accept the resignations of the Commissioners of the Freedman's Bank, tendered a few days ago, with the condition that the acceptance should release their bonds, nor can the Commissioners demand a divestiture of their trust till the affairs of the bank are finally administered or Congress, by new legislation, comes to their relief.

CHICAGO, March 22.—A Washington special says the Mexican litigation these have received evidence tending to show that the Mexican Government is not responsible for the recent massacre of Protestants at Acapulco. The evidence shows that the military commandant hastened to the scene to protect them and, it is said, was among the killed. The Mexican authorities claim that the murder was the work of fanaticism and say that the U. S. war vessel which has been ordered to the coast, cannot accomplish anything there which the Mexican Government has not already performed.

CHICAGO, March 22.—Andrew Johnson's speech to-day on the Louisiana question will be at least three hours long. It is exactly seven years to-day since proceedings were begun in the Senate for Johnson's impeachment.

CHICAGO, March 22.—It is not at all probable that the special session will be prolonged beyond next Wednesday.

LONDON, March 22.—An extra Herald is filled this morning on the occasion of Moody and Sankey meeting. Victoria Theatre is engaged for Wednesday and Thursday afternoons of this week.

MADRID, March 22.—Only eight of the Carlist chieftains followed Gen. Calera over to Alfonso.

Castellar has resigned his professorship to the University in consequence of the government re-establishing in the schools and colleges the text books and prospectus prescribed during Isabella's reign and otherwise changing the manner of public instruction.

PARIS, March 22.—Gen. Calbreza has issued another manifesto explaining his recent declaration in favor of Alfonso, which is in effect that he wants peace, that Don Carlos won't learn anything nor follow his advice.

LONDON, March 20.—Arrived at Liverpool, ship Star of Scotia, San Francisco. At Queenstown, ship Greta, San Francisco.

John Mitchell is dead. The annual boat race between Cambridge and Oxford's crews took place on the course on the Thames. It was won easily by Oxford's. Weather favorable for boat race, though rather cold. Betting during the morning was three to one on the Oxford's. The banks of the Thames were, as on former occasions, lined with the mass of people, and all avenues leading to the river were choked with vehicles and pedestrians, and at noon London presented a deserted appearance. Spectators of the race were unprecedented in numbers and included many persons of rank and distinction. Cambridge took the lead at the start but Oxford soon overtook and passed them and won the race easily by 10 lengths. The steering of the Cambridge boat was bad. The Cambats row with quicker stroke than the Oxonians and led to a narrow margin where the dark blue drew up with them at Hammersmith Bridge. Oxford was a length ahead and maintained the lead to the end.

The Irishmen had a mass meeting in Hyde Park to-day. It is estimated that 30,000 people were gathered there. Resolutions were adopted demanding the release of Fenian prisoners, condemning coercive laws in Ireland and condoning with the family of John Mitchell.

LONDON, March 21.—The time of the waters in the University boat race yesterday officially announced as twenty-two minutes and two seconds.

Moody and Sankey preached this morning, afternoon and evening at the Agricultural Hall. At the three meetings the audiences numbered respectively 16,000, 14,000 and 19,000. There was some confusion in consequence of the vast crowd in and around the hall especially in the evening.

VICTORIA, March 22.—The German bark Stella, which arrived in Royal Roads on Saturday night from Glasgow loaded with iron pipe for the Victoria water works, dragged two anchors and drifted ashore in Equilmatt harbor. Her position was a very bad one and fears were entertained of her safety as the wind was blowing a fearful gale.

but she succeeded in getting off at high tide this morning without sustaining any damage.

Snow has been falling at intervals for several days.

U. S. Marine Hospital! PORT TOWNSEND, W. T. Any sick Seaman who has paid Hospital dues for two months preceding his application is entitled to Hospital relief free of charge.

THE ABOVE INSTITUTION HAVING BEEN placed on a permanent footing, as the United States Hospital of Marine Patients on Puget Sound the Proprietor takes pleasure in announcing that no pains or expense will be spared in ministering to the comfort and convenience of private patients. This is the largest General Hospital north of San Francisco, and by far the most complete in equipment. It has been thoroughly refitted and refurnished. Its general wards have accommodations for about one hundred patients and are particularly adapted for cases requiring the most careful treatment and constant supervision at limited expense. Those who desire them will be furnished with private rooms, entirely separate and distinct, at a slight additional cost. The attention of Mill owners, and those interested in shipping, is called to the fact that seamen suffering from contagious diseases will be treated outside the Hospital without expense to the vessel. THOMAS T. MINOR, Managing Surgeon. 15-71

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made purely from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The quantity is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great Blood purifier, and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Biliary Diseases.

The properties of Dr. Walker's Vinegar Bitters are Aperient, Diaphoretic, Nutritious, Laxative, Diuretic, Sedative, Counter-irritant, Sanguiferous, Alterative, and Anti-Bilious. Extracts from their most wonderful Invigorant that ever sustained the sinking system. No person can take these Bitters according to directions, and remain long unwell, provided their bowels are not destroyed, or their system poisoned or other means, and vital organs wasted beyond repair. Bilious, Remittent, and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Canada, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and especially so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essential. They exert no cathartic for the purpose only of Dr. J. Walker's VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time they destroy the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with the Bitters. No epidemic can take hold of a system thus fore-armed. Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement. Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Mercurial affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, Dr. WALKER'S VINEGAR BITTERS have effected a cure of the most obstinate and intractable cases.

For Inflammatory or Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by vitiated Blood. Mechanical Diseases.—Persons engaged in Painting, Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take Dr. WALKER'S VINEGAR BITTERS.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ringworms, Scald-head, Sore Eyes, Erysipelas, Itch, Scours, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters. For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display no decided influence that improvement is soon perceptible. Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

Telegraphic

NEW YORK, March 15.—Gold closed at 15 1/2.

Chicago, March 16.—A. J. Thompson, an operator on 'Change, who was short on wheat and consequently a heavy loser, attempted suicide this evening by shooting himself in the abdomen. It is thought he cannot survive.

Last night Mrs. Malinski, a Pole, and two children were found dead in the northern part of the city, having evidently been poisoned. A third child was in a dying condition. It is not known whether the mother, in a fit of insanity, attempted to kill the children or herself or whether they were poisoned by some one else. Her husband has been arrested on suspicion but there appears nothing so far to warrant a belief in his guilt.

FALL RIVER, March 16.—The mill operatives' strike is ended and mills open Thursday.

NEW YORK, March 16.—The Henry Channing sailed from Aspinwall for New York on the 14th.

HARRISBURG, March 16.—The House bill to repeal local option passed the Senate on the 3rd reading to day, with a stringent license law added and sent back to the House for concurrence. It is thought the House will not accept the bill and local option will stand.

SCRANTON, Pa., March 16.—The magnificent bridge spanning the Susquehanna at Pittston was swept away by a flood to-night, about ten minutes after the passenger train passed over. The river is rising rapidly and is full of immense cakes of ice. It is feared the two passenger bridges lower down will be destroyed.

WASHINGTON, March 16.—The President nominated J. B. Allen United States Attorney for Washington Territory.

The Spanish Minister to-day presented to the President an autograph letter from King Alfonso.

It is stated that the Louisiana arbitration will give the Conservatives the lower House, but there will be a small Republican majority on joint ballot, which will make the Senatorial contest in case of the rejection of Pinchback very exciting.

The fight against Governor Axtell of Utah was originated and has been promoted by ex-Governor Woods in the hope of being reinstated. Woods is also making efforts to obtain either Superintendent of the San Francisco Mint or some foreign mission, but is regarded as an impotent place hunter, without chances of success.

Mr. Lyman, chief of the civil service board of the Treasury Department, reported to the Secretary of the Treasury to day that, in accordance with instructions all sub-boards have been abolished.

LONDON, March 16.—Mark Lane Express says: "The long winter has made a backward season, though all accounts agree that the young wheat has passed its trials successfully. Most European markets show an increase of from one to two shillings."

News is received that the natives of Anan have massacred a surveying party commanded by a British Lieutenant and consisting of 63 surveyors and coolies.

The steamship Oter, which sailed from Southampton to-day for New York, took \$55,000 in specie.

PARIS, March 16.—When the Assembly met to-day, Duke d'Audiffret Pasquier took the chair and read an address with some strongly worded expressions against the Bonapartists, which were loudly cheered by the left.

BERLIN, March 16.—In the lower house of the Prussian diet to-day, the debate opened on the first reading of the new ecclesiastical bill, Dr. Falk, Minister of Public Worship, in a speech explaining the necessity of fresh legislation on the relations of State and Church, dwelt specially on the fact that the Pope had authorized the Austrian bishops to obey laws similar to those denounced in Prussia. He was not afraid of the encyclical, but considered the matter serious and the Government would not allow itself to be treated with scorn by the Church. Bismarck made a powerful speech in support of the bill. He said the motto that more obedience was due God than man certainly did not mean that more obedience was due a Pope misqu岸ed by Jesuits than to a king.

NEW YORK, March 16.—A letter from Guadalajara given an account of an earthquake which, on the 4th of February, shook a large portion of Northern Mexico. The little town of San Cristobal was almost entirely destroyed and 70 dead bodies were taken from the ruins. The centre of the disturbance appears to be in the volcano of Ceboruco. The earthquake occurred in the night and the terror of the people was increased by darkness.

NEW YORK, March 17.—The celebration of St. Patrick's day is universal. The processions of the various societies number, it is estimated, fully 20,000. Mansions and walks along the route are crowded. Dispatches from the chief cities and towns of the Middle, Eastern and Southern States report the day generally observed.

CHICAGO, March 17.—St. Patrick's day was celebrated in the usual manner. The procession numbers over 10,000.

PORT JERVIS, N. Y., March 15.—At 6 o'clock this morning the large shop whistle warned people that the flood was rising with fearful rapidity. The telegraph had previously announced that the ice had swept through every barrier above and was coming down upon the city, riding on the crest of waves ten feet high.

7, A. M.—The water is rising rapidly and King's street is inundated. A large charge of nitro-glycerine was exploded, which did great execution to the ice damming up the head of the gorge. The Delaware railroad bridge, three miles west, has been swept away. The flood is coming with inconceivable force and the inhabitants are fleeing in confusion from the flats.

9, A. M.—The gorge remains firm, but the volume of water has made a river of King Street, carrying all before it, and submerging a great part of the lower portion of town. The flood is now within 100 yards of the telegraph office.

8:45, A. M.—A great shout of thankfulness has just gone up. The gorge has broken and the ice is floating down stream, while the water in the village is lowering. The Barriett bridge is standing, though badly damaged. Probably 30 blocks were inundated and 600 houses carried off. As far as heard from no lives are lost. The wrecks of the two bridges are being carried a great way down stream. The suspension bridge, 8 miles below, is felt to be doomed.

About 300 houses in Port Jervis proper, between the railway and the river, were more or less damaged by water, many of them filled to the second story.

1, P. M.—March 17.—The scene at Germantown, in the lower part of the city, beggars description. Ice is piled on shore in many places 30 feet high and some pieces weighing 30 tons. 200 houses are filled with water to the second story.

It is reported that one man was killed. Four of the five spans, in all 66 feet, of the Delaware railway bridge are gone. All the large shops of the Erie railroad had more or less water in them but no damage done.

The debris of the railroad and Barriett bridges caught fast on Van May's Island, three miles below, thus saving the tower of the suspension bridge.

Damage to the Barriett bridge, about \$5,000, and other losses in the village, about \$20,000. The river is now going down and danger is over.

NEW YORK, March 17.—A dispatch from Pittston, Pa., states that all but the east span of the magnificent new bridge across the Susquehanna there was swept away this morning, and the old bridge, a quarter of a mile above, followed soon after. The Lackawanna bridge had previously gone down. The loss in the bridge alone is not less than half a million dollars. The flood is making terrible inroads on the valuable property in West Pittston, having already covered the lower portion of the place, and the loss is considerable.

NEW YORK, March 17.—John B. Dickinson, the banker who died suddenly yesterday at Chicago, was on his way to San Francisco to visit his daughter, Mrs. Sherman.

ATLANTA, March 17.—A fire this morning burned a number of stores. Loss, \$130,000; insurance, about \$48,000.

HARRISBURG, Pa., March 17.—The local option repeal bill, with the license law attached, after being amended by the conference committee, passed both houses to day.

BOSTON, March 17.—The Traveller reports that Beck Bros., stock brokers, have suspended. An examination of their books is in progress. James Beck, senior partner, died at his residence on Monday from an overdose of chloroform taken to relieve pain.

MALDEN, March 17.—Advices from the north state that nine battalions of Carlists made a night attack on the town of Segudary, but were repulsed with great loss after two hour's fighting.

LONDON, March 17.—Sjordet & Co., general merchants, 59 Mark Lane, have suspended. Liabilities, \$2,000,000. Their suspension was caused by the failure of John C. Inthurn & Co. Other suspensions are reported imminent. The Lincolnshire handicap was won to-day by Gunner; Kaiser second, and Maid Wilford third.

RIO JANEIRO, March 17.—An extraordinary session of Brazilian legislative Assembly, called for the purpose of considering the budget and disorder in the country, convened to-day. The speech from the throne was delivered by the Emperor in person.

BOSTON, March 18.—S. W. Bennett, book-keeper and small partner in the wholesale millinery house of Prescott, Wood & Co., it is discovered, has been embezzling funds for several years. He confesses, and thinks his pecuniations amount to between thirty-five and forty thousand dollars. Since his detection he has twice tried suicide.

CARRO, Illinois, March 18.—A fire here last night burned a livery stable and 22 horses.

SUNBURY, Pa., March 18.—The ice here broke last evening, but went over the dam, but before the great gorge between here and Daaville came, which started soon after, bringing with it several bridges and tearing away the public bridge between here and the island and knocking the span out of another bridge over the North Cumberland. The railroad bridges are safe, having been heavily loaded with coal cars.

NEW YORK, March 18.—John Riley and John Monahan of South Brooklyn quarrelled yesterday and Monahan was fatally shot.

CHICAGO, March 18.—Dispatches re-veal a fearful snow storm yesterday throughout Iowa and Minnesota, stopping railroad trains and causing much delay to travel. A St. Paul dispatch says all the railroads have been blocked since Monday night and the telegraph has been the only means of communication with the outside world.

Messrs. McCord and Malone of the Fashion Stables, San Francisco, are in this city with about a dozen fine trotters recently purchased in Kentucky to take to San Francisco, several of them being for J. R. Keene's stables. Nearly all the lot are capable of trotting in the thirties, and taken as a whole they are said to be the finest lot of horses ever brought here. They leave for San Francisco this evening.

CINCINNATI, March 18.—The Republican city convention to-day unanimously nominated John Robinson, a circus proprietor, for Mayor.

NEW YORK, March 18.—A London dispatch says: "General South American Banking Company, limited, with a capital of \$600,000, has suspended." Another dispatch says the suspension was caused by a large advance made to Inthurn & Co.

WASHINGTON, March 18.—The mission of the U. S. S. Saranac to Acapulco is merely to ascertain the circumstances of the massacre of Americans some weeks ago, and to protect the interests of American citizens in that and other parts on the western coast. No hostile movements are contemplated.

LONDON, March 18.—Bullion in the Bank of England has increased \$238,000 in the past week. The amount of bullion gone back on balance to-day is £40,000. The proportion of bank reserve to liabilities is 40 per cent.

PARIS, March 18.—Specie in the bank of France has increased 10,000,000frs. during the past week.

BERLIN, March 18.—In consequence of the petition of Arch-Bishop of Cologne to the Sanding against that part of the ecclesiastical bill which gives the people participation in the control of local church property, the Government has had the bill altered so as to deprive the priests of any share in the administration of such property.

TORONTO, March 17.—Rev. Dr. O'Brien, of Brockville, has been appointed Roman Catholic Bishop of Kingston. His consecration will take place April 18th.

SAN JOSE, Cal., March 18.—Preparations for the execution of Vasquez is progressing rapidly. The gallows are in the north end of the jail yard. Every precaution being taken to make the hanging a certainty. The doomed man is an excellent spirit and resigned to his fate. He has concluded not to speak from the scaffold, but has made a statement which was copied down and will be published after his death. The execution will take place promptly at half past 1 o'clock to-morrow. He has requested a glass of wine and a cigar to be given him on the scaffold.

Old Bilkins' young wife has nothing to do but read about the Beecher trial, while the old man is ignorant of the whole business. The other night he lay in bed thinking of one thing and another she whispered in her sleep "Oh, my good husband, may you not need the further discipline of being misled by a good woman as I have been by a good man," and old Bilkins with one great screech hopped clean out of bed and wouldn't get back again until she told him that was only Mrs. Tilton said to Theodore, and that it was running in her head, so to speak.

A correspondent of the Record, writing from Independence, says: "A merchant (?) of Independence went into the pork business and when he rendered the lard he mixed over 1,500 pounds of tallow with it. The tallow cost him 7 cents, his lard brought him 15 cents, so he made a nice thing of it. But look a little further. The lard was sold in Portland, and the greater portion shipped to Washington Territory and Idaho. Now this lard will not keep as sweet as it has been rendered pure, and of course will spoil on somebody's hands, who is sure to curse the Oregon farmers for practicing such a cheat."

Sometimes the Rocky Gulch Herald, of Nevada, talks one way and sometimes it talks another. On last Monday evening it said that Mrs. Mary Heller, as a lecturer, was "a dried up old hag, who knows no more about her subject than heaven does of a ballet dancer;" and then on Wednesday evening when Mrs. Heller's business manager had been around with a reviewer, the Herald said: "Mrs. Heller is a queenly woman. She possesses all the charms that captivate an audience, and her lecture is a sparkling and finished composition. We hope she will come again."

Constantine was satisfied that secret impurity would be less pernicious than public scandal; and the Nicene council was edified by his public declaration that if he surprised a bishop in the act of adultery, he should cast his imperial mantle over the Episc pal sinner.—Gibbon.

A Baltimore lady of wealth and piety is said to have remained single until the age of forty years, refusing many offers, because she had resolved to marry no man except a clergyman. A while ago she was wedded to a penniless, but devout pastor of a little church, and the honeymoon was hardly over, before he resigned his charge and set up as a broker with her money.

The Springfield Republican marvels that the Plymouth Church women are ready to pledge their lives that Beecher is innocent and Mrs. Tilton guilty; but it does not explain Tilton's story that Beecher is guilty and Mrs. Tilton innocent.

DIDN'T UNDERSTAND IT.—A countryman bought a shirt in Raleigh, N. C., which was the first white one he had ever owned. The next Sunday he was to be married, and that was the important occasion that had incited him to the purchase. The shirt had a nice starched bosom and was open in the back—a style that was new to its possessor. After careful study he put it on with the opening in front, concluding that the stiff bosom was intended as a kind of shoulder brace to make him stand erect. Thus dressed he met the bride at the church door; but her knowledge was greater than his about shirts, and she made him go home and reverse the garment before she would allow the ceremony to proceed.

PENSION TO MEXICAN WAR VETERANS.—In the House Committee on Invalid Pensions, four out of six members agreed to report adversely on the bill to give pensions to the survivors of the Mexican War. Crittenden, of Missouri presented a minority report. In it he reviews at length the many advantages obtained by the United States through the Mexican war. The report proceeds to show from reliable data that the country by that war gained territory embracing 937,178 square miles; the population of that territory now aggregates 2,000,000 persons, and its agricultural wealth now amounts to \$1,200,000,000. He advocates, in earnest terms, granting pensions to the survivors of that war, and says the country should not refuse to reward such faithful and worthy patriots.

YOUNG WING MARRIES A CONNECTICUT GIRL.—Mr. Young Wing, of Canton, China, chief of the Chinese educational commission now at Hartford, was married on Wednesday to Miss Mary L. Kellogg, at the residence of the bride's father, B. S. Kellogg, in Avon, the ceremony being performed by Rev. J. H. Twitchell, of the Asylum Hill Congregational Church in Hartford, the pastor and a very particular friend of the bridegroom. The bride wore a dress of white crepe, imported expressly for this occasion from China, and elaborately trimmed with floss silk embroidery, and also the customary marriage veil. Her brother and sister attended. The house was very beautifully decorated. After the ceremony a fine collation was served, in which Chinese delicacies were mingled with more substantial dishes of American style. Messrs. Yeh Shu, Tang, manager, and Young Yun Foo, teacher of the commission at Hartford, were present at the ceremony in national costume, but the groom, who has long since adopted our style, appeared in full evening dress. The bride presents were numerous costly. Mr. and Mrs. Wing left on the evening train for a short wedding trip, via New York.—Springfield, Mass. Republican.

WHY MEN WILL NOT MARRY NOW.—Says a New York paper: "New York is crowded with rich unmarried men, afraid of the expense of supporting these gilded beauties.—There is a bachelor at the Sixth Avenue Hotel whose income is \$30,000 a year, and still he says he can't afford to get married. He's a proud fellow, and says as a single man he can have the best horses, best rooms, and best box at the opera."

"If I should get married," he said, "I would have to stint myself or overdraw my income."

"How is that?" asked a friend. "Well, now, come into the parlor and I will show you. You see, ladies are extravagant nowadays. They dress so much more in Europe. I mean, they don't wear rich diamonds like the women of Florence and Milan, but they wear such rich dresses, laces, shawls and furs. Now, I'm proud, and I would not want my wife to be outdressed, so I have to keep out of the marriage business."

"Do you see that lady there?" he asked, pointing to a fashionable caller. "Yes."

"Well, she has on a \$400 panned, wadded, polonaised, brown, grosgrain dress, and I wear a \$60 coat. She wears a \$1,200 camel's hair shawl and a \$500 set of sable, while I wear a \$70 overcoat. She wears a \$70 bonnet, while I wear an \$8 hat. She wears \$200 worth of applique and point agulle, while I wear a \$6 shirt. Her ordinary morning jewelry, which is changed every year, not counting diamonds, cost \$400, mine cost \$50."

"Well, how does it foot up?" "Why, the clothes she has on cost \$2,225, mine cost \$205, and that is only one of her dozen outfits while I only have—say three. The fact is," said he, growing earnest, "I couldn't begin to live in a brown-stone front with that woman and keep up appearances to match—carriages, clauds, dinners, opera and seaside for \$20,000. I'd have to become a second rate man, and live in an eighteen foot house, or withdraw over to Second avenue, and that I'll be hanged if I do!" and he slung his fists down into a side silk hat in the excess of his earnestness.

If the Southern people really want to encourage good feeling with the North, why do they keep sending us word every week that they are "enjoying green peas and strawberries in Savannah," etc.

"Mr. Smithers, how can you sleep? The sun has been up these two hours." "Well, what if it has?" said Smythers. "He goes to bed at dark, while I'm up still after midnight."

A Washington special says enough is already known by the House Louisiana Committee of the character of the election returns for members of the Louisiana Legislature to make it certain that their revision of these returns will not give a Conservative majority on joint ballot, so in case Pinchback is not admitted to the senate, any election held after the Wheeler compromise is carried into effect will be in control of the Republicans.

In regard to the charge that Andrew Johnson paid \$10,000 to secure his election to the Senate, an investigation of which has been begun by the Tennessee Legislature, Johnson says that for several reasons the charges cannot be true; among the reasons is one, that since Jay Cook's failure, by which he lost \$70,000, he has not had money enough to pay ordinary election expenses.

KILLED WHILE "COASTING."—A writer from Meriden, Connecticut, relates the following:

A terrible and fatal accident occurred recently in this city, while a party of thirteen persons were engaged in coasting. The people were seated on what is known as a double "ripper." It was twenty feet long, and was constructed for the purpose of entertaining those seriously injured, and was made very strong. The start was made from the top of Broad street. The moon shone brightly, and the hill was a glade of solid ice. Several trips had been made, and the party, consisting of young ladies and gentlemen, were in great glee. Unfortunately on this particular downward trip the steering apparatus got caught and refused to act. As the "ripper" approached Liberty street, the steepest part of the hill at that point, the steersman was unable to manage the hoist. With speed faster than an ordinary railroad train, the "ripper" was canted on one side of the street into the gutter, and finally brought up with a crash against the iron post of a fence. William Munchen, aged sixteen years, was killed almost instantly, his head striking a post, cleaving it almost in twain. Dr. T. S. Rust, a dentist, had his head badly cut. Lina Woods, a girl aged seven years, had a hip bone broken. Lilla Bacon had both eyes forced from their sockets, and will probably lose them. Addie Harvey, sixteen years of age, received internal injuries of a serious character. Hattie Cooley, sixteen, was hurt about the chest: None of the party escaped uninjured. The place where the accident took place, for a space of fifty feet, was covered with blood. Drs. Davis, Newport and Fitch were notified, and were quickly on the ground to render assistance. Dr. Bacon of New Haven, was also sent for, and arrived to-day. Miss Wood's injuries were found to be more serious at first supposed. The last report states that she was unconscious. Miss Bacon's hurts are in the chest and abdomen, and so complicated that the physicians are unable to decide whether or not the wounds are fatal. Miss Harvey is in a critical state. Her head is fractured, her tongue is swollen, and still bleeding. Dr. Rust, when conveyed home, became unconscious, and remained so for several hours. His head was literally covered with gore, and two ugly cuts were found on the scalp at the top of his head. The event has thrown sadness upon this entire community, and much sympathy is expressed for the parents of the dead boy and his injured companions.

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found in the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of Walker's Bitters?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Restorer and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease. They are a gentle Purgative as well as a Tonic, relieving Constipation or Inflammation of the Liver and Visceral Organs, in Bilious Diseases.

The properties of Dr. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious. VINEGAR BITTERS are a PROTECTIVE and INVIGORATING agent, and are the only medicine that ever sustained the stomach and liver. No person can take these Bitters according to directions, and remain long unwell, provided that bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair. Bilious, Remittent, and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their dark, colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs. Fortify the body against disease by purging all its fluids with the Bitters. No epidemic can take hold of a system thus fore-armed. Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Stomachic, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Pain in the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the off-springs of Dyspepsia. One bottle will prove a better guarantee of its merit than a lengthy advertisement. Scrofula, or KING'S Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Gout, Rheumatism, Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Scrofulous Eyes, etc. In these, as in all other constitutional Diseases, Dr. WALKER'S VINEGAR BITTERS have shown their great curative powers. In the most obstinate and intractable cases, For Inflammatory or Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood. Mechanical Diseases.—Persons engaged in Pains and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take Dr. WALKER'S VINEGAR BITTERS. For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blisters, Spots, Pimples, Pustules, Boils, Carbuncles, Ringworms, Scald-head, Sores, Erysipelas, Itch, Scurs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuge, no anthelmintics will free the system from worms like these Bitters. For Female Complaints, in young or old, mercurial, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible. Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow. R. H. McDONALD & CO., Druggists & Gen. Agents, San Francisco, California, and Sole Importers for the Pacific Coast, by W. R.
