FOUND DEAD IN HIS BOAT.—
 Thomas Robinson, boatman,
 running between this port and
 Whidby Island, brought the
 news Wednesday afternoon that
 the body of an unknown man
 had been found in Admiralty
 Bay on the morning of the 27th
 inst., lying in a skiff. The re-
 mains were clad in red-colored
 canvas overalls, gray flannel
 drawers, red inside flannel and
 checked plaid outside shirts, and
 heavy gum boots, and in the
 skiff was an oil-skin overcoat.
 He had evidently died from ex-
 posure or sudden illness. A pa-
 per was found in one of his pocket-
 ets stating in substance that a
 man by the name of S. Anderson
 had entered his house and put
 some cloth on the walls, to which
 he had objected and torn it down.
 Argus.

FALL OF A WHARF.—About 100
 feet of the Puget Mill Company's
 wharf at Port Gamble, including
 the warehouse, broke down yester-
 day and \$1,000 worth of
 goods, stored in the warehouse,
 were ruined by the immersion in
 the "salt chuck." The accident
 was caused by the heeling over
 of a vessel which was lying
 alongside the wharf. Two men
 who were on the wharf at the
 time, escaped by jumping on the
 rail of the vessel.

THE DRYGOODS WAR.—The
 opening of three or four new
 dry-goods and clothing stores in
 this city and the prospect of the
 opening of as many more during
 the incoming month has caused
 a most astonishing coming down
 in prices of drygoods, notably
 at the store of Schwabacher
 Bros. & Co. Besides the im-
 mense reductions in standard
 prints, the price of almost every
 article in their drygoods and
 clothing department has been
 reduced more than 25 per cent.

THE DAKOTA.—A dispatch re-
 ceived this noon from Otis Free-
 man announces that the Dakota
 has been so detained by head
 winds and heavy freight for
 Victoria that she will not arrive
 here until to-morrow (Friday)
 morning.

SNOW.—There was a light fall

 this morning, soon melted it,
 however.

 able Seattle race-horse, was shod

HAULED OUT.—The ship Com-
 modore, loaded with \$1,600 tons
 of Seattle coal, has hauled out
 from the coal wharf and her
 berth has been taken by the
 bark Aureola.

A biting sarcasm was the reply of a

 picked himself out of the mud very
 carefully, and said in a mild, reproving
 manner: "You Christian; me heathen."

BERIAH BROWN, EDITOR.

Seattle, W. T., April 6, 1876.

GROWTH OF SEATTLE.—From one stand point, upon the bill east of the business portion of the city, fifty houses can be counted in the course of construction, and this, too, during the most unpropitious season of the year for building. During the first year the productive business of this town has been nearly or quite double, the population increased at least twenty-five per cent., and, of course, real values have increased in proportion. All this has been done without scarcely an effort on the part of the older property holders, whose property has been doubled upon their hands without themselves contributing anything towards the increase. From Balltown to the Duwamish Bay, four-fifths of the mills, machine shops and manufacturing establishments are run by men who but recently, if now, have had or have proprietary rights in the real estate which they are improving, while four-fifths of the real estate is owned by non-producers.

Of course, we do not state these facts by way of reproach or complaint. We fully recognize the right of every man to the enjoyment of his own possessions, honestly acquired. But, as Ike Hall would say: "What reciprocity is there in that?" where one party creates all the values and another party reaps all the benefits of the increase. Individual rights are sacred, but the rule which governs communities is the higher law of necessity. Where the common interests or the common defence is concerned, those who will not volunteer must be drafted; and the rights of property are certainly not paramount to the rights of person. The greatest public benefactor in this city; the man who has contributed more to its material wealth than any other; is but the lessee of the manufacturing establishment which he operates. It is hardly necessary to say, in this community, that James M. Colman is that man. Reduced to bankruptcy but a few years since by a devastating fire, he has since, as the lessee of the mill property of H. L. Yesler, by industry, enterprise and business capacity, accumulated a handsome competence, every dollar of which has been expended by himself or loaned to others for improvements in the town. We will suggest no comparisons between Mr. Colman and others of much larger means, because comparisons are odious; but we deem it not only a duty, but a pleasure to honor those who devote the accumulations of their energy and skill to the promotion of the general prosperity.

These reflections are caused by hearing some of our large property holders constantly complaining of high taxes, resisting every city improvement for the general benefit, and refusing to subscribe to the stock or bonds of the railroad, while they persistently hang to their real estate for the advanced prices made through the liberality and public spirit of others. It is fortunate for the future prosperity of the town that a majority of the people have the right to direct public expenditures for the general good, and we only regret that they have not the right to tax the property of the town for the building of the railroad. It would be fair and equitable. If they would enlist in a cause so manifestly for the public interests, there ought to be a power to draft them.

Telegraphic

New York, March 31.—Henry C. Bowen did not meet the special committee of Plymouth Church. He sent a note explaining his absence, the contents of which the committee refused to disclose. It was conjectured that Bowen refused to appear, was based on a determination of the committee at a previous meeting, not to receive the testimony of Bradshaw, whom Bowen wished to introduce as a witness. The committee framed a reply to Bowen's note.

WORCESTER, March 31.—The flood by the dam disaster did no material damage below South Worcester. The losses in part are estimated as follows: City of Worcester, dam and reservoir, \$125,000; Olney's house and barn, \$100,000; Smith's mill, \$20,000; Ashworth's mill, \$10,000; Hunt's mill, \$50,000; Vick's Manufacturing Co., \$150,000; City of Worcester losses, \$150,000, by damage to highways, besides damage by falling of mills. Nearly all the dams are destroyed. One man and two boys are missing; supposed to be drowned. It is impossible to form an estimate of damage sustained by the Boston and Albany railroad.

The evidence in the Belknap case is being prepared by the district attorney, for presentation to the grand jury, and it is probable that an indictment will be found soon.

Cox presented a memorial from women citizens of the United States, asking for a form of government in the District of Columbia, that will secure to women citizens the right to vote. He

asked as a matter of grace and favor that the memorial be printed in the record. Banks remarked that it was one hundred years to-day, since the wife of John Adams, member of the Continental Congress, wrote him to secure in the organization of the government, the interests and rights of women. Memorial was received and referred to the committee for the District of Columbia, and ordered printed in the record.

The Senate Bill declaring the 14th of April next a public holiday in the District of Columbia, to allow the officials to witness the unveiling of the statue of Abraham Lincoln, was passed. The House then proceeded to vote on the bill for the issue of Subsidiary Silver Coin-Bill. Passed—yeas 122, nays 100. Following is text of bill: Section 2. That the Secretary of the Treasury is hereby directed to issue silver coins of the United States of the denomination of ten, twenty, twenty-five, and fifty cents of an equal amount of fractional currency, whether the same be now in the treasury awaiting redemption or whether it be presented for redemption, and the Secretary of Treasury may under the regulations of the Treasury Department provide for such redemption and issue by substitution at regular Sub-Treasuries and public depositories of the United States until the whole of the amount of fractional currency outstanding shall be redeemed. Section 3. That the silver coin of the United States of the denominations of one dollar shall be a legal tender at their nominal value for any amount not exceeding fifty dollars in any one payment, and the silver coins of the United States of denominations of less than one dollar shall be a legal tender as their nominal value for any amount not exceeding twenty-five dollars in any one payment.

NEW YORK, 2.—The Times' Salt Lake correspondence professes to disclose the details of the intrigue under which the Mormons are arranging to abandon Salt Lake and take possession of New Mexico, and thus get into the Union under the bill for its admission as a state. The correspondent says the initiatory steps are already taken, and in a short time, several thousand Mormons will start for New Mexico. In a general way, this movement has been on foot for a considerable time, but nothing occurred to excite suspicion until July last, when Baxill, late governor of Utah, and well known as standing high in favor and confidence of Brigham, was transferred to the government of New Mexico, in which capacity he is enabled to pull the wires and manipulate the schemes of the Mormon Church among the Indian and Spanish people of that Territory. Several Mormon elders were secretly dispatched to New Mexico to reconnoiter the country and begin the work of proselyting among the superstitious natives. About the same time the authorities of the Church here gave orders to all young priests to begin the study of the Spanish language. The book of Mormon was translated into the Spanish language and the disciples went vigorously to work studying it. Preparations were next made to gain possession of large tracts of land in New Mexico, by purchase of some of the Spanish grants outright, and of an interest in others. The bill for admission of New Mexico as a State is also to be pushed to its passage. This bill gives to the governor, chief justice and U. S. Attorney, unlimited power in fixing the time of the election. In case of passage, several thousand Mormons will be at once hurried into New Mexico in time to vote at this election to overcome the present vote which is understood to be largely against the state project. By getting possession of the land grants they will control nearly all the valuable lands in the Territory, and can exclude the gentiles by refusing to sell them any. The bill of admission provides that the Territory may come into the Union at once upon the adoption of resolutions, without further action by Congress, and these people can make a constitution which will render it almost an independent sovereignty under the plan of keeping out gentiles. If the scheme succeeds, it will turn New Mexico wholly over to the followers of Brigham Young, and the long sought kingdom of Mormon's, will at last be established under the authority of the government of the United States.

ALEXANDRIA, April 1.—The Prince of Wales arrived at this port to-day and at once proceeded on board the steamship Serapis, which will sail on Monday.

NEW YORK, April 1.—The Herald's London special, says the Home Rule members of Parliament at a recent conference, were given to understand tacitly by Cross, Home Secretary, who was present, that if they supported the Royal Title Bill, all the Fenian prisoners would be released. On the contrary the regular press dispatches dated London to-day, states: The Observer, on well-informed authority, says it is reported in official circles that the government intend to announce to-morrow, the abandonment of the title of Empress, but will persevere with the Royal Title Bill. In the meantime the liberals members have been notified to be in their seats on Monday, to support Earl Shaftesbury's motion for an address to the Queen, praying her not to assume the title of Empress.

SAN FRANCISCO, April 1.—The citizens Anti-Chinese Committee met last evening. Committee was notified that Gov. Irwin could preside at the mass meeting on Wednesday evening.

Well executed counterfeit trade dollars are circulating here in large quantities.

Recent disclosures of semi-official character, render it beyond doubt that frauds of a certain character have been perpetrated on the custom house at this port. Close observation and careful estimates show that goods, the duties on which would amount to not less than five or six millions, annually enter the country without paying a cent. The largest part perhaps of this business is carried on by the steamers of the Pacific Mail Line, between New York, San Francisco and Panama. Valuable merchandise is landed at Panama which is a free port, and in transshipment there is substituted for other packages which have been shipped from San Francisco to New York, thus escaping duty.

NEW YORK, April 2.—Yesterday Secretary Taft, Gen. Sherman and Hancock, made an informal visit to the forts on the harbor.

Mrs. Elizabeth Greenfield, renowned as the Black Swan, died in Philadelphia on Friday.

NEW YORK, April 3.—The Herald's Brownsville special of yesterday says: Perfora Diaz presented himself with 1,000 men to attack Matamoros. The town sent out 300 men to receive him. These pronounced for, and joined, Diaz. The National Guard, 1,000 strong, and the artillery, in the city, refused to fire a shot. The ninth Cavalry however held firm, and after some fighting, seeing he was betrayed, left with a squad of the 9th Cavalry for Brownsville, where he now is. Diaz is in Matamoros, where he was received with enthusiasm. At latest accounts fighting was still going on about Matamoros by remnant of government troops who refuse to surrender. Hundreds of families have arrived here from Matamoros during the past week.

CHICAGO, April 3.—The Times Ottawa special says the government have announced their policy, respecting the Pacific railway, which is to ignore the ten years limit, and build it as rapidly as the circumstance of the country will permit. The line has been located from Lake of the Woods, across Red River, via Fort Petty and Edmonton, through the Jasper House Pass to Fort George in British Columbia. The difficulty is to decide on the route from Fort George to the Pacific Coast, three thousand miles. The Fraser River route has been abandoned as impracticable. So either Eute Inlet or more likely Dean Channel, 150 miles north of Victoria, on the Pacific Coast, will be adopted as the Western route. At the Eastern end, it

is not at all probable that any attempt will be made to construct the section from Lake Nepigon, north of Lake Superior, and Lake Huron to Nipissing, for many years, so that it may be looked on as practically abandoned, unless there is a change of government at the next general election in two years from now.

WASHINGTON, April 3.—In the House, a resolution was introduced to incorporate the Sioux City Black Hill's and Pacific Railroad Company.

The principal of the bonds is to be paid in thirty years in gold.

PORTLAND, April 3.—Legal tenders in Portland, buying, 87 1/2; selling, 88 1/2.

WASHINGTON, April 3.—The following is the full text of Wigginton's anti-Chinese resolution:

WHEREAS, It is alleged that there are at the present time, 100,000 Chinese on the Pacific Coast, many of whom have been brought thither under contracts for servile labor, and that their numbers are constantly increasing to the great detriment of the laboring men of that coast, and in derogation of the treaty stipulation existing between the United States and the Empire of China. Therefore be it

Resolved, That the President be, and he is hereby requested, to open negotiations with the Chinese Government, for the purpose of modifying the provisions of the treaty between the two countries, and restricting the same to commercial purposes. This is no joint resolution and therefore does not require action by the Senate.

NEW YORK, April 4.—The Sun's Washington special, says it is reported on undisputed authority, that in a few days, evidence of an undisputed character will be furnished, showing that the government has employed notorious black-mailers, who are publicly known as thieves, and who are utterly disreputable in character, and that such are now in the employ of the government in important confidential positions.

SAN FRANCISCO, April 4.—Greenbacks 88 1/2 buying, 89 selling.

The board passed a resolution, that all prisoners in the county jail and city prison, should have their hair cropped on entrance. The resolution is intended as a blow at the Chinese pigtail.

A very demonstrative anti-Chinese meeting was held at South San Francisco this evening. An orator by the name of Keebo, in the course of his remarks, said he had documents in his pocket to prove the existence of an organization numbering 20,000 in this city, who were pledged that this should be the last attempt to remedy the Chinese evil by legal means, that if failing in these, the members of the society were prepared to take the law into their own hands, and root out the evil with fire and steel. His speech was loudly applauded.

LATER.—Advices from South San Francisco report that two or three hundred butcher boys and others, were raiding on the Chinamen, and a force of police had been sent over to preserve order. It is evident, however, that a strong feeling in favor of extreme measures pervades certain classes in the community, which will require careful

handling on the part of the more moderately inclined and law abiding portion of the population.

New Warramurra, April 4.—W. R. Lewis, a stage driver at New Westminster, won the \$5,000 in the Seattle Gold Coin Lottery. He holding ticket 818.

CINCINNATI, April 4.—In the election yesterday for members of the board of public works the democrats elected three and republicans two. The republicans will have a majority in the city council and in the school boards.

Returns from 54 towns show a general republican majority in 22 and a democrat majority in 15; of the rest 10 are divided. Local questions entered so fully into the contest that the result is no test of party strength.

CLEVELAND, Ohio, April 4.—The general republican ticket was elected by 2,500 majority on an average. The council will stand 22 republicans to 14 democrats. The republican ticket elected 15 out of 18 council men yesterday. The returns generally show republican gain, although politics were ignored in many cases.

\$300,000 in silver coin was this morning received at the Treasury Department from San Francisco. An additional \$100,000, in quarters, is expected to-morrow, which will complete the present order, which is for \$500,000. As there is necessity for still more coin, orders will be forwarded to San Francisco for additional supplies at once.

CHICAGO, April 4.—Proceedings in forfeiture will be commenced to-morrow against the 13 distilleries in this city which have been seized by the government for frauds and irregularities.

MEMPHIS, April 4.—All indications seem to point to a flood of at least as great magnitude as has ever resulted from high rivers. The bottom opposite the city is flooded back to Madison.

LONDON, April 4.—It is reported that Earl Granville has sent Count Von Arnim explicit assurance that as far as he is concerned, there is no foundation for the statement inquired about by Sullivan in the House of Commons of March 20th, that the British Government had protested against the appointments of the Count as Ambassador to England, on his lordship's late unfaithfulness. His Lordship said the late government disclaims using any such language as that.

In the House of Lords last night, the Earl of Shaftesbury offered his motion for an address to the Queen, praying her Majesty not to assume the title of Empress. He argued that the title was distasteful to a vast majority of the people, and made the point, that after the recent argument of Disraeli, the assumption of such title would be an insult to the Czar. The Earl of Carnarvon opposed and Lord Selborne supported the motion, which after a long debate was rejected by a vote of 137 to 91. The Royal Title bill then passed through the Committee.

We breathe in sleep about fifteen times every minute. If the bowels are loose lie down in a warm bed, remain there and eat nothing until you are well. Do not allow yourself to read a moment in any reclining position, whether in bed or on a sofa. Never swallow an atom of food while in a passion, or if under any great mental excitement, whether of a depressing or elevating character; brutes won't do it. The importance of wholesome water and good sewerage to every single dwelling cannot be overestimated, and any city neglecting this vital matter must expect to suffer at all times, and particularly when an epidemic of any kind sweeps over the country. To be able to lie down at night and fall asleep within ten minutes, and to know no dream or waking until the morning comes, and then to bound out of bed full of health, freshness, and good humor, is a blessing well worthy the warmest outpourings of a thankful heart towards Him who giveth us all things richly to enjoy. The great regulator of sleep is exercise; it is the best antidote in the universe, and is the only one that is always wholesome and natural. If you cannot take much exercise, take a little, and every second hour increase the distance, and soon you will be able to walk a mile more easily than you walked the first hundred yards. If an action of the bowels does not occur at the usual hour, eat not an atom until they do, at least for thirty-six hours; meanwhile drink largely of cold water or hot tea, and exercise in the open air to the extent of a gentle perspiration, and keep this up until things are righted; this one suggestion, if practiced, would save myriads of lives every year, both in the city and country.

THE DRAWING OF THE GOLD COIN LOTTERY.—The drawing of the Grand Gold Coin Lottery, of which Mr. Conkleman is manager, came off yesterday afternoon, in the presence of a large crowd. A platform had been erected in the square in front of the Occidental Hotel, on which were the glass wheels, one to contain the prizes and the other the blanks. About three o'clock Mr. Conkleman appeared on the platform and announced that the management had been unable to sell more than half the tickets, and, in consequence would either have to postpone the drawing altogether or to cut down the value of the prizes one-half. After considerable discussion in the crowd it was finally decided to have the drawing go on and to reduce the value of the prizes, making the 1st grand prize \$5,000; the second, \$1,500; the third, \$500, etc. Capt. Geo. D. Hill came forward and read an affidavit to the effect that a committee, consisting of H. McAleer, Frank Matthias and himself had counted the tags and thrown out all those of which the corresponding tickets had not been taken. The tags on which were the amounts of the prizes and the number of tickets were then placed by the committee in the respective wheels, and a committee, consisting of Capt. Geo. D. Hill, H. McAleer and John Anderson, were chosen by the ticket-holders present to conduct the drawing. Two small boys were put on the platform and blindfolded and the drawing commenced. The list of tickets which drew prizes has not yet been published.

The schooner Junita, loaded with hay and farm produce, arrived here this morning.

Several bills were also ordered paid, including that of Mr. Palmer, for the plans of the jail.

A PREVIOUS UNDERSTANDING.—A night or two since a chap about thirty-five years old, looking as if he had crawled out of a cave to commence life anew, entered one of the hotels in this city, and waiting at the counter until the clerk was at liberty, he asked: "Is this a hotel?" "Yes, sir," was the reply. "Good living, good beds and the most courteous attention?" "Yes, sir." "Well," said the stranger, after a long look at the railroad time table, "I suppose you don't trust?" "No, sir." "Wouldn't let a man stay here four or five days until something turned up?" "No, sir." "That's what I wanted to know. I always like to have a previous understanding about such things, for if anything makes me mad is to have a great big hotel clerk jump in on me and kick me down stairs on account of my straitened finances." "You'd better find some other place," suggested the clerk.

"Oh, I shall," replied the stranger. "The outside of this hotel seemed to smile a welcome at me, but as I said before, my present policy is to get along without being kicked. I've got mental feelings as well as anybody else, and I'm getting so worn down in flesh that a mere common grand bounce from a healthy hotel clerk upsets me for a whole day. Farewell, young man—don't bile me extra taters for me!"

EDUCATING A TRICK HORSE.—There, said Mr. Harrison, pointing to him, I raised him myself. He's rising nine, now, and just as good an animal as he ever was. Come here, Charlie. The horse came up to him, and looking at me with his head over his master's shoulder.

"Is he a trick horse?" "Yes, but I don't often use him for that. He can walk on his hind legs, and dance, and drink out of a bottle; but that's always empty. I usually do only the 'Arab and his dying steed.'" "How do you train him?" "By kindness—that's the only way—to be sure. Of course you can make any animal obey by lathering him enough; but then some time when you ain't looking out he'll play you an 'sly trick—balk when you're jumping, to let you tumble on the ground, or rear and fall backwards on you. They're cunning about that sort of thing. I've seen a splendidly educated horse come into the ring and just stand still, not do a single trick, and seemed to enjoy to see his master hooted at."

"What is the method of educating animals?" "Well, with different animals there's different ways. With horses and dogs you show 'em first what you want done, and show 'em often enough for them to understand it. Then I lift them several times, till they find out what you want done and do it themselves. Then I reward them on the spot. It's all easy; you've only to keep your temper and be kind. Some horses learn very quickly, but that kind forget it just as soon I like best a slow horse, because he'll remember longer."
