## Puget Sound Dispatch.

FROM DAILY OF THURSDAY.

A RARE TREAT FOR THE LOV-  
ERS OF GOOD MUSIC.—Our report-  
er learns that Mrs. A. J. Duni-  
way and our ex-Mayor, Hon. H.  
L. Yesler, have been practicing  
"Old Grimes" during the great-  
er portion of the day, prepara-  
tory to singing this good old song  
at the entertainment to be given  
at Yesler's hall to-morrow even-  
ing. Their voices harmonize  
most wonderfully on this piece,  
and it is positively understood  
that they will sing it together.  
Don't fail to come out and hear  
them, if you want a hearty laugh.

BROKE DOWN.—The Ruby  
started over from Madison last  
night, having on board Dr. B.  
Baker, who had been attending a  
patient at that place. Some of  
her machinery gave out when  
near Sandy Point and she was  
obliged to lay there all night.  
At an early hour this morning  
she was taken in tow by the  
Teazer and brought up to town,  
arriving here about 5 o'clock.  
Her machinery was repaired in  
the course of 4 or 5 hours and  
she returned to Madison.

RAILROAD MEETING.—There is  
a meeting of the stock-holders  
of the S. & W. W. Railroad to-  
night at the Company's office.  
It is to be hoped that as many  
as possible will be in attendance,  
as the business on hand will be  
of the most pressing importance  
and a general action on their  
part is deemed advisable. If the  
stock-holders are favorable to  
the scheme, of which there seems  
to be no doubt, work on the first  
section will be commenced im-  
mediately.

ANOTHER REDUCTION.—Schwa-  
bacher Bros. & Co., in consid-  
eration of the increasing oppo-  
sition, have determined to make  
another large reduction in the  
prices of dry-goods and clothing.  
They are out to-day with pos-  
ters, announcing that during the  
next fifteen days they will sell  
off their entire stock at cost, in  
order to make room for their  
new goods, which are constant-  
ly arriving.

The steamer Zephyr left  
for Tacoma at 4:30 this morning,  
having in tow a scow on which  
to bring down the lumber for  
the new river steamer of Messrs.  
Robbins, Wright and Stretch.  
The lumber has been cut at the  
Tacoma mill. The keel of the  
new steamer will be laid on  
Hammond's ways as soon as the  
Zephyr returns.

The following additional  
names and amounts have been  
entered on the subscription  
to the bonds of the Railroad:  
Jeremiah Driggs, \$300; L. C.  
Harmon, 100; Wildman & Cros-  
sen, 100; Geo. D. Hill, 100; L.

nection with his confectionery,  
will shortly pass under the man-  
agement of Mr. Downs, chef-de-  
cuisine of the Occidental hotel.

The bark Marmion has  
commenced loading with Renton  
coal from scows.

tate of Mary Jane Gilliam has

valued at about \$10,000.

coma.

terprising Jeweller in the Terri-  
tory, has issued small hand bills

the prices of his enormous stock.  
All ye that desire noble articles  
in his line take notice.

want a first class pair of boots  
or shoes, go to Geo. I. Lambert,

DAUGHTER ACCIDENT.—Last  
evening, while Mr. H. Butler  
was transporting, on a truck  
drawn by six horses, a large coil  
of wire rope weighing nearly 7  
tons, the truck got mired in  
the sawdust on Mill St. A man  
named Baldwin went out to as-  
sist the teamsters in extricating  
it and took hold of the spokes of  
the wheels, though repeatedly  
told he could be of no assistance.  
As the truck moved ahead, he  
fell down and his arm was caught  
under the wheel, which passed  
over it the entire length, from  
the hand to the shoulder, crush-  
ing it in a frightful manner. He  
was taken to Morrill's drug  
store, where his arm was set by  
Dr. Weed. It was found that  
his arm was broken above the  
elbow and below it, and there  
was a compound fracture of the  
bones of the hand.

REAL ESTATE SALES.—Samuel  
Denny and Ozone Denny to A.  
M. McCorkle, lots 9 and 12, bl.  
66, A. A. Denny's plat, \$376.

JUST ARRIVED.—M. A. Kelly  
& Co. are just in receipt of the  
finest line of pure drugs, perfum-  
eries, fancy articles, that ever  
came to this market, direct from  
J. D. Porks & Son, Cincin-  
nati, Ohio. Give them a call  
and see for yourselves.

Hall & Paulson and Stet-  
son & Post have purchased of  
J. T. Jordan & H. A. Atkins, the  
property at the foot of Commer-  
cial street, known as Atkins'  
wharf, the former firm paying  
for the East half the sum of \$1-  
650 and the latter for the west  
half a corresponding sum. Hall  
& Paulson will shortly move  
their furniture factory down to  
that place, and Stetson & Post  
will also move there with their  
sash and door factory and grist  
mill. Since the certainty of the  
immediate commencement of  
work on the railroad, the south  
end of town is looking up some-  
what.

RAILROAD MEETING.—The meet-  
ing of the stock-holders of the  
Seattle & Walla Walla Railroad  
last evening was attended by the  
representatives of 676 shares,  
out of the 1,124 out. The propo-  
sition of Mr. Colman was sub-  
mitted to them and unanimously  
adopted, and the contract with  
him was closed.

NOTICE.—There will be a spe-  
cial meeting of Olive Branch  
Lodge No. 4, I. O. O. F., Mon-  
day, April 24. A full attendance  
is requested. By order of the  
N. G. L. DILLER, R. S.

RUNAWAY.—Some excitement  
was created yesterday afternoon,  
by the team belonging to Phelps  
& Wadleigh running through  
town at the top of their speed.

## Marine Intelligence.

SAN FRANCISCO, April 20.—Ar-  
rived, bark Dublin, Seabeck.  
Sailed, bark Martha Rideout,  
Port Blakely; ship Lookout,  
Bellingham Bay.

PORT GAMBLE, April 20.—Sail-  
ed, Emerald. Arrived, ship  
King Phillip.

Efforts are being made to  
rebuild the Whatcom wharf, so  
as to accommodate mail steam-  
ers. All steamers land at the  
Sehome wharf, about a mile from  
the proposed one at Whatcom.

CORRESPONDENCE.  
UTSALADY, W. T.,  
April 18, 1876.

ED. DISPATCH.—We arrived here in  
good time Monday. The place seems  
quite lively, though the mill is not run-  
ning.

At Coupeville things look seemingly  
brisk. Major Haller's store was well  
crowded with buyers. A good quantity  
of goods was landed at that port.

To-day forenoon I have seen many  
here who came to get their mail; from  
Seadgit, Stilaguamish, Samish, Decep-  
tion Pass, Oak Harbor, Larrabee's Cove,  
and elsewhere. All seem to wear cheer-  
ful faces. The hills look verdant, and  
the gals are fat.

This afternoon I have been at work  
on the Utsalady Estate in bankruptcy,  
and I am surprised to see so much val-  
uable property lying dormant, and I  
think that one who has money and will  
get here by Monday night will do well.

To numerate the lot of stuff would fill  
your paper; the Onward and Brontes  
look well, and it is not required to  
pump them out but once in 4 days; the  
Favorite and Linnie are in fine condi-  
tion; all of the upper work that was  
put on the Favorite while she was a  
mail boat is to be sold. The spars to be  
sold are good. A large lot of doors,  
sky-lights, dead eyes, fixtures and fur-  
niture, in fact, there is about four times  
as much to be sold as I expected when  
I came up.

It seems that the Gamble Company,  
Capt. Renton and the Discovery Com-  
pany are bucking at each other to see  
who will get the most timber land up  
this way. I do not blame them, for  
better timber than is in this vicinity  
cannot be found on the Coast.

The immigration to the Stilaguamish  
and Skadgit has been large this year,  
and I am surprised at the reports which  
I get and believe to be reliable. Over  
30 families have located on the Skadgit  
and 17 on the Stilaguamish. It is my  
earnest opinion that this place will  
within 5 years be one of the most im-  
portant points on the Sound, as it com-  
mands a trade from the most fertile  
valleys and the best timber lands on  
the Pacific Slope. As a point for ship-  
building it cannot be surpassed.

The estate of Thos. Cranney under the  
management of Mr. S. D. Howe, is  
progressing finely, and all is being done  
to make the most money out of the prop-  
erty. Mr. Howe is hard at work all  
the time.

No deaths, marriages or births to re-  
cord.  
Catching dogfish and reducing them  
to oil has been a success in Deception  
Pass.  
Potatoes are way up here. Cabbage  
none. Vegetables of all kinds scarce,  
owing to the heavy shipments to the  
British Colony.

OLD SLASHER.  
ALFALFA.—The cultivation of alfalfa  
is increasing all over California, and it  
seems certain to prove of very great  
value to farmers generally and especial-  
ly to stock-raisers. Upon favorable  
soils the yield per acre is enormous,  
often three or four times greater than  
any of the grasses. When it can be ir-  
rigated four crops per year can be raised,  
affording abundance of green feed at all  
seasons. It is one of the hardest  
plants known, very difficult to be eradicated  
when once well established, and is  
green when all other kinds of vegeta-  
tion are dead and bare. This constant  
vitality seems to depend upon the power  
of its roots to penetrate to great  
depths as if in search of water. We  
know of no other plant except the  
grapevine that sends down its roots so  
far. A few years ago, upon the high  
bank of a stream where a flood had  
caused a part of the soil to fall into the  
water an alfalfa root was traced seven  
teen feet downward from the surface  
where the plant was growing.

News Items  
Ad. Nye, ex-Sheriff of Umatilla  
county, Ogn., was badly hurt by a young  
stallion last Saturday. He will not  
travel on his beauty in future.

It is said that Tom Thumb contem-  
plates purchasing a stock ranch in Tex-  
as. He will need a body guard to pro-  
tect him from the grasshoppers.

Last week H. Bundy, of Junction  
city, sold his farm, near Monroe, Ber-  
son county, Ogn., consisting of 80  
acres, well-improved with good build-  
ings, etc., for \$16,000.

A suit for \$3,000 damages has been  
instituted by Charles Brown, one of the  
millers of the bark Thordjke, against

the mate and captain of that vessel for  
cruel treatment while at sea.

The Daily Olympian says: Indian  
Jim, who is supposed to have killed  
Jim Lightner, came up last week, ac-  
cording to agreement to stand his trial,  
but as the jury failed to find an indict-  
ment he was discharged, and last night  
returned rejoicing to Tulalip.

The man who pointed Patience as a  
healthy-looking female perched on a  
chunk of sand-stone never saw our editor  
chewing the end of a pencil whilst  
three compositors stood in the back-  
ground yelling for copy.

Robert Moore of Walla Walla, a short  
time since, while preparing kindling  
with which to make a fire, broke a tam-  
arack stick in two; a splinter flew and  
penetrated his left eye. Medical assist-  
ance was called and the splinter, meas-  
uring an inch, was extracted. The re-  
sult of the accident is the loss of the  
eye.

Captain Connor will leave for the  
East for the purpose of bringing out the  
Geo. W. Elder, a large sized steamship  
lately purchased by the Oregon Steam-  
ship Company to ply between Portland  
and San Francisco. The vessel is about  
one year old, is 1562 tons register, and  
draws only 16 feet with fuel and 1400  
tons of freight in. Since launched she  
has been in service between New York  
and New Orleans.

A WELL-POSTED BOY.—History never  
jumps over Detroit. There are too  
many old battle-grounds around here for  
the historian to get past without at least  
a few paragraphs. The fight at Bloody  
Run has been largely read of, and  
strangers often ask to have the locality  
pointed out. Yesterday a man who  
dropped off a street car at Jefferson  
avenue bridge to look around and let  
memory carry him back to Indian days,  
felt anxious to know how the fight came  
to be called Bloody Run. By and by a  
boy came stamping along, and the  
stranger beckoned to him and asked:  
'You are bloody right it is,' was the  
rejoinder.

'Right around here is where the  
British troops were, is it?'

'Yes sir; and down in the gully there  
were the bloody Indians.'

'And they fought?'

'Bloody sure; they didn't come here  
to play, you bet.'

'Was there much loss?'

'A bloody big one.'

'Can you tell me,' continued the  
stranger, looking around, 'why they  
call it Bloody Run?'

'Yes, sir; coz' when them soldiers

BERIAH BROWN, EDITOR. Seattle, W. T., April 26, 1876. THE FUTURE OF SEATTLE.

The best job ever done for Seattle was when the Railroad Company voted unanimously to accept the proposition of Mr. J. M. Colman to finish the construction of fifteen miles of the railroad, from this city to the Renton and the Talbot coal mines. That proposition, as most of our readers already know, was to advance \$30,000 in gold coin, to be taken in stock, upon condition that other citizens of Seattle would take and pay for \$30,000 in ten per cent. bonds of the Company, payable in ten years upon which Mr. Colman agrees to complete and stock the road and put it in running condition without further assessment upon the stock-holders. The only matter which delays, or can possibly defeat the consummation of this grand project, so fraught with consequences to the future prosperity of the town, is that about ten per cent. of the amount of the bonds remain unsold, while many of the property holders who are to be the largest beneficiaries of the improvement, have not yet taken a dollar of the bonds. When these men come to consider the meanness of thus withholding their aid from a public work by which they expect to be largely profited, and the contempt which such manifest selfishness will inevitably entail upon them, we believe the very shame of the thing will constrain them to make up the required amount. If they do not, others, less able but with more regard to their duties and obligations to society, will. The work is bound to go on, even though it may enrich those who do not deserve it.

On a mere superficial view this seems but a small thing upon which to base such large hopes for the future of our town. The investment of two or three hundred thousand dollars in a public enterprise cuts but a small figure in a commercial city. Like amounts are invested in milling business and in coal mines without building up cities where they are situated. But the construction of this section of railroad is but a beginning, an earnest, an assurance of much greater results. It may truthfully be said: "There are millions in it!"

When this fifteen miles of railroad is completed and in running order, the Company will only have a bonded debt of \$30,000 to meet, with convertible real estate, which has been taken for stock, to more than three times that amount, rapidly appreciating in value. So that practically the road will be free from debt, with a surplus of \$40,000 or \$50,000. The business of the road is assured. When it is completed there will be not less than 500 tons of coal a day to be transported, and this amount will be doubled within the following year. The freight on the latter amount, at 50 cents a ton, would make the net earnings of the road \$120,000 a year on this single product. There need be no fears that the supply of coal will ever exceed the demand. Now the average supply of coal delivered upon our wharves is about 500 tons a day; five or six vessels are constantly waiting in our harbor for freight, and the P. M. steamers, more than half their trips, have to go to Nausimoo, in British Columbia, for coal because it cannot be furnished here.

Upon this basis of capital and credit, with the immense profit of the investment in the first section of the road demonstrated to the public, and the whole under the management of James M. Colman, we regard the continuance and completion of the road over the Cascades to the Columbia road, to connect with the Walla Walla and Columbia River road in the shortest practicable time, as a fixed fact. This achievement would not be as wonderful as Mr. Colman has already demonstrated his capacity for. But four or five years ago he was forced into bankruptcy by a casualty which no business sagacity could avoid. Commencing then empty handed, by untiring industry, indomitable perseverance and business sagacity without a parallel in this section of country, he has achieved a large fortune, every dollar of which has been turned to public use as well as self-interest, doing more for the permanent prosperity of the town than any other man who ever resided in it. Such rare public spirit, business capacity and pluck, cannot fail in the accomplishment of its purpose. The circumstances under which Mr. Colman acquired the means to construct this fifteen miles of railroad were not as propitious as those which now offer to enable him to complete the entire line. It is the testimony of all successful business men, that their last millions were more easily acquired than their first thousands. We have an abiding faith, which has all the tangibility of certainty, that Colman will build that road, and that, too, in as short a time as economy will warrant, and that with its progress the future growth and commercial prosperity of our town will be assured. Five years from to-day Seattle will be the largest town north of the California line. If any one doubts this, they have but to take a retrospect of the town for the last three years, under the most discouraging circumstances. Look at the census returns and the business directory of this city three years ago and compare them with the present, and it will be seen that the growth of this town has had no parallel in Oregon or Washington Territory. During the past year the number of building erected in this town has been more than double those erected in Portland during the same time. Saloons

are said to be the most certain index of the prosperity of towns on the Pacific coast. The Business Directory of Seattle published in 1872, gives 4 saloons and 3 beer halls; now they number 35. There has been a like increase in business houses and manufacturing establishments, while the railroad project has been lingering and our great expected rival, the terminal city of the N. P. Railroad contains about a dozen tumble-down shanties and has less population now than when it was first established. These are only indications of what the future has in store for us if we improve our opportunities.

New York, April 21.—The Times editorially, says the very limited circle of people who read the World must have felt somewhat alarmed yesterday morning about the safety of the country. At the head of its first column appeared in capital letters of ponderous size, the following: "At last President Grant; Gen. Williams betrays his accomplices; How Grant elected himself; The Treasury of the United States drained to carry the elections in New York; The most melancholy news which has ever fallen to our lot to lay before the public, hardly excepting the assassination of President Lincoln, etc." This was simply a garbled report of some evidence taken before a Congressional committee, from which it appears the Department of Justice had paid on the requisition of John J. Davenport about \$30,000 for the detection and punishment of election frauds in this city. The World's Washington special, says Grant's veto message indicates he knows nothing at all of the constitution. He quotes several times that the constitution says, while the constitution says nothing on the subject. Some people are enjoying the joke and others ask if that is the document he has sworn to obey and protect.

Grant recently said he was in favor of no candidate and would favor none either by word, deed or intimidation.

Victoria, April 21.—The Governor General's warrant for the extradition of Dabney Jones, an escaped convict, arrived last week. Sheriff Billings of Washington Territory came over yesterday to receive the fugitive and took him back with him to Olympia last night, where he will serve out his term of twelve years imprisonment for the crime of murder in the second degree. Presentation of government taxation bill has been postponed on account of not being printed.

A. J. McLellan, contractor of Baynes Sound Colliery Railway, returned from there yesterday. He reports the railway already commenced, a hotel built, and some sixty men actively employed. He has come to this city to engage another company of 40 workmen.

Weather fine at Comox. All the farmers at work plowing.

The Indians at Cape Mudge are going to remove to Baynes Sound.

On Sunday night an explosion of gas took place in Devlins Level, Wellington Colliery. Damage slight, no lives lost; caused by working with a naked lamp.

The Italian ship Avo Guisepe, reported as having sailed from Portevideo, a few days ago, has not yet left; is still anchored in the Royal Roads.

Washington, April 20.—Following resolution was introduced by Sargent: That the Senate recommend the President that he cause negotiations to be entered into with the Chinese government to effect such changes in the existing treaty between the United States and China as will fully permit the application of restrictions to the great influx of Chinese subjects to this country. It was ordered printed, and to lie on the table.

Canfield, chairman of the committee on expenses in the department of justice, has written to Bristolow saying it is wholly unnecessary for him to appear before the committee as he stands exonerated of even a suspicion.

It is known in Government circles that when Pierpont came into office as Attorney-General he found that within 2 years 180,000 had been paid Col. Whiteley by his predecessors, Ackerman and Williams. \$50,000 of this amount it is said was paid to Davenport. To day search was made for vouchers but none could be found. This statement creates much comment in official circles, and it is probable that the Cabinet meeting which is called an hour earlier than usual for to-morrow, will consider this and kindred subjects.

The New York Tribune's Washington special says, the report which startled Washington yesterday turns out to have been misunderstood. The money was sent as stated, but expended to prevent illegal voting and the only irregularity was in using the secret service funds.

San Francisco, April 21.—The coal and stores of the Pacific Mail Company were attached by the Panama R. E. Co. to-day.

The Chief of Police announces his intention of enforcing vigorously in the Chinese quarters the law passed by the last legislature demanding 500 feet of cubic air to each lodger in houses.

Legal Tenders, in San Francisco, 89 @ 89 1/2 buying, and 89 1/2 @ 89 1/2 selling; half dollars to-day at 3 per cent.; trade dollars at 6 @ 7 per cent.

San Francisco, April 21.—Cabin passengers per steamship Dakota: Victoria.—Robt Reid, H Thibert, F Gordon, M Barry, Hon M Cornwall, Hon F J Roscoe, Hon Mr Bunster, D Cummings, W A Jones, Col Houghton,

Mr and Mrs Dance, G Blane, Linnea Jas Harvey and wife, Capt Starr, Mrs S Duck, Chas Meller, H Robertson and wife, Wm Lawrence, A S Robertson, D M Robertson, C Phinney, Mr McQueneek, T Smith, F P Noble, H Langton, J P Miller, Wm Leonard, B G Brody, L Hart and 100 in the steerage and 33 tops of freight.

Passengers for Seattle—Chas Cobb, W H Taylor, L M Robbins, O N Lee and wife, A F Dallaside, T B Morris, Mrs Geo O'Comaner and 3 children, C Jorgensen and wife, Mrs John Twomey, W C Fallard.

For Olympia—Mrs T J Clendenin, G C Hewitt, Major Wheat, Mrs Eastery, Mrs Sterael, A Sisco and wife. For Tacoma—Jno W Pitteck. For Port Townsend—Theo P Spitz. For Portland—C Jonalarkly, Rev R S Stubbs, wife and 2 children.

PHILADELPHIA, April 22.—The North American says it requires no prophetic power to know that Conkling cannot have the Pennsylvania vote in the convention and it is doubtful if he could get the state vote at the election. Judge David Davis continues to loom up as a Democratic candidate. His friends propose to withhold his name at St. Louis, until the two thirds rule shall have excluded the present prominent candidates and then present him as a compromise. Party leaders, however, don't consider Davis as strong in the party as Thurman or Bayard. Morton's friends stand by him pluckily but his probable vote does not appear to grow. Tilden's pipe laying bids fail to give him control of the Union convention next Wednesday. The Boston Globe says Bristolow said to a government official lately: I will be satisfied to stay where I am; I have never sought the Presidency.

New York, April 22.—The Panama Railroad Company is preparing bonds that will enable it to seize and to hold every Pacific Mail steamer that arrives at San Francisco. At a meeting of the Directors of the Panama Railroad to-day, it was ordered that from this date all freight for San Francisco, South and Central American ports be carried at local rates. This rule to apply to all business received from all sources. A Panama Railroad official also states that a new attachment against the coal supplies and other property of the Pacific Mail Company in California, were issued to-day at the suit of the Panama Company on its claims of \$400,000 dollars, and arrangements to furnish the necessary bonds on the attachment against the ships are complete.

LITTLE ROCK, April 12.—Of the six men hung at Fort Smith to-day one was a full blooded Choctaw, one a full blooded negro, one a full blooded Cherokee and one a white man; all sentenced at the late term of the U. S. Court. The six were executed on the same scaffold.

PHILADELPHIA, April 22.—President and Mrs. Grant visited the Centennial ground and buildings to-day.

New York, April 22.—Gold closed at 113.

WASHINGTON, April 22.—John J. Davenport, United States Supervisor of Elections at New York, before the committee on expenses in the department of justice, explained the funds committed under the form of Naturalization.

He was paid for the work of preparing affidavits in several cases of fraud the same as any other supervisor was paid. He issued warrants in 1872 for 1200 registered persons, believing they had no existence.

The House Committee on Pacific railroads to-day resumed considerations of the Senate bill to extend the time for completing the Northern Pacific R. E., and the proposition offered by Senator Morton as an amendment to extend the time also for the Texas Pacific R. E.; the Committee adjourned without action till next Wednesday.

The World's Washington special says the Caulfield Committee sent to the Treasury Department to-day and secured the book in which the Secret Service accounts were audited. Official figures show that in 1872 alone there were expended over \$150,000 in Grant's behalf instead of \$45,000. If gross sums of money have been improperly used in New York the responsibility must fall on the Attorney-General.

Davenport's testimony puts the President's in a new and more favorable light.

PORTSMOUTH, April 22.—Queen Victoria and Princess Beatrice with suite, arrived to-day.

CONSTANTINOPLE, April 23.—It is understood that Montenegro has been notified that unless she maintains strict neutrality, Turkish troops will immediately cross the frontier.

ROME, April 22.—Ex-Queen Isabella has written a letter to the Pope, offering to intervene with her son, King Alfonso, in connection with the religious questions.

BERLIN, April 22.—Austria has initiated fresh negotiations with the great powers, as to the proper course to be pursued if the present attempts for the pacification of Turkish provinces prove fruitless.

Serbia has purchased 2,000 horses in Hungary. The Servian Minister of War has declared that no person liable to military duty will be allowed to quit the country even for the shortest interval.

LONDON, April 22.—An explosion of powder to-day, during the operations in the new railway tunnel in course of construction near Meath, South Wales, caused the roof to fall, burying all the workmen. Thirteen dead bodies and a number of wounded, have been recovered. The search for victims continues.

BREXIN, April 22.—It is understood that Turkey has refused to continue negotiations with Northern Powers, and is closing the armistice under the impression that the alliance between the three Emperors has become weakened. As this supposition has now proved to be unfounded, it is hoped in diplomatic circles that the Porte will ultimately assent to further negotiations, a course which is also being pressed upon her by England.

SALT LAKE, April 23.—12 P. M., all eastern rivers down east of Evertown; supposed to be caused by high waters.

New York, April 23.—The Times says: Bristolow is recognized to-day as a representative of the reform sentiment and his claim to this position grows stronger steadily.

The Times' Boston special says: The republican delegates from Massachusetts thus far are nearly equally divided between Blaine and Bristolow; the best part of the organization are for Blaine, the people are more for Bristolow.

A Philadelphia special says: The Committee of Naval affairs have finished investigation. The developments are unknown, but the Committee express great satisfaction; over 200 witnesses have been examined. Robeson will be fortunate if he escapes an attack upon his honor. The Brooklyn Navy Yard investigation follows next week.

As the accusers of H. W. Beecher have failed to bring into life the scandal, the examining committee have requested the committee of three appointed by the late Advisory Council for that purpose to form the commission to hear additional testimony. The committee have agreed to do so. Shearman says the examining committee thus challenges the statements of several persons that there was testimony not yet heard to furnish the committee the names of the persons claiming to possess such information.

BALTIMORE, April 24.—The American publishes the statement of one of the passengers by the Hibernian which arrived yesterday to the effect that among the passengers who landed at Halifax were Don Carlos of Spain and three of his generals. It is said they are to make a tour of the United States, incognito, and will reach St Louis to-day.

LEAVENWORTH, Kansas, April 24.—Advices have been received here that some time on Thursday night a family of emigrants named Baker were massacred by Indians about 100 miles northwest of Custer City. The family consisted of man, wife and 12 children; all of whom were branded with hatchets or tomahawks and then scalped. The bodies of victims were decently buried when found.

WASHINGTON, April 24.—It is expected Senator Jones will make his speech on the silver question to-day. It is understood that Jones favors a double standard making silver a full legal tender with gold, increasing the weight of silver coins to make the value correspond with gold. The bill before the Senate is simply an entering wedge for an attempt to secure the double standard.

The Louisiana Democratic Delegation favor Hancock.

Beknap has written a letter to a friend denying in positive terms that he has made any confession whatever concerning the charges against him relative to the Fort Sill post-tradership.

LONDON, April 23.—The Somerville paper mills near Bristol were burned; loss estimated at £70,000. Over 500 workmen disemployed.

Madrid dispatches says the Spanish Government has consented to suspend the collection of the forced war loan from and billings of soldiers upon English residents while negotiations with Great Britain on the subject are pending.

Berlin dispatches report that the Serbian war office has ordered all the militia men prepared for a foreign campaign; it is considered however exceedingly improbable that Serbia will go to war unless she is attacked by Turkey.

New York, April 25.—The Tribune's editorial on Blaine's speech says it is straightforward and lucid. If his statement of facts be accepted there will be little or nothing left to support the scandal in any of its present forms.

The Sun's editorial says: Blaine's promised speech came yesterday. His subject was the \$64,000 paid him by the U. P. Co. for worthless bonds. His explanation is not satisfactory. We believe he had the money.

The Herald says: We think the long statement by Blaine will be accepted by the candid men of both parties. To be sure it is ex parte, but he assigns very good reasons for collecting the evidence himself and coming forward in his own vindication.

The Times' says: To the most of his opponents even his attitude will seem that of conscious innocence. His defense is far more specific and complete than the charges brought against him. At present Blaine must be held acquitted.

The Tribune's editorial says: The speech of Jones urging that silver should be made legal tender in certain proportions to gold will attract attention. Its display of erudition upon the subject, whatever may be thought of the financial theories of the Senator, in this speech so far as delivered is very far superior to the usual flood of Congressional wisdom on such subject.

WASHINGTON, April 25.—The Committee on Expenditures in Department of Justice decided to require an answer of Attorney-General Ackerman to the question as to whether he had con-

sulted with the President before paying money over to Davenport. Ackerman put in a protest against answering on the ground that it was both illegal and prohibited by statute that such communications with the executive should be made public.

The Tribune's Washington special says one of the investigating committees had a witness before them to impeach Grant's honesty who after some questioning proved to be insane.

TROX, N. Y., April 25.—This morning a mob of union moulders attacked the boarding houses of non-union men and four of them were probably fatally injured. One of the assailants was mortally wounded.

SAN FRANCISCO, April 25.—Dom Pedro and party arrived this evening. At Pleasanton, 40 miles from the city, his car was detached from the train put behind another engine and rushed over the road half an hour ahead of the overland train to avoid any demonstration on his arrival, and it was a success. The party passed through Oakland without attracting attention, crossed the Bay and arriving at the wharf took carriage to the Palace Hotel without half a dozen people knowing they had arrived. On arrival of regular train at Oakland a great crowd was in attendance with bands playing and colors flying while Dom Pedro was already encoined in his apartments at the Palace Hotel.

SAN FRANCISCO, April 25.—Legal Tenders 89 @ 89 1/2 buying; 89 1/2 @ 90 selling.

TRAFFIC THROUGH THE SUEZ CANAL.—In a current number of the Economist Francois, M. Leroy-Beaulieu gives the statistics of the traffic through the Suez Canal during last year. From these it appears that the number of vessels which passed through the canal in 1875 was 1,454, being an increase of 230 over the preceding year, and an increase of 1,008 over 1870, the first whole year the canal was open. The tonnage in 1875 amounted to 2,940,708 tons, being an increase of 517,036 tons over 1874, and an increase of 2,504,797 tons over 1870. The number of ships using the canal has been nearly quadrupled in the six years, while the tonnage has been multiplied nearly seven times. M. Leroy-Beaulieu gives no information as to the receipts or expenditure in 1875. With regard to the prospect of the canal, M. Leroy-Beaulieu estimates from official documents that the total foreign trade of India employs between 5,000,000 and 6,000,000 of tons annually. In six years, therefore, he concludes, half the whole foreign trade of India has taken the route of the Suez Canal.

A DETROIT widow owns and occupies a cottage under the shadow of a church steeple which is supposed to be in danger of falling when a high wind blows. At midnight, a few days ago, when the wind blew fiercely, she got up and dressed, called the children up and dressed them, and then folded her arms with the remark: "Now then, if that steeple falls and kills us, people will know that we were a respectable family any how. George brush up your hair a little more, and Sarah you take your feet off the stove-hearth and pin your collar more to the left."

JOHN Q. ADAMS ON GIFT-TAKING.—The story of St. Louis of France is beautiful and suggestive. Leaving on a crusade, he charged the Queen Regent, who remained behind, "not to accept presents for herself or her children." Such was one of the injunctions by which this monarch, when far away on a perilous expedition, impressed himself upon his country. My own strong convictions on this Presidential pretension were aroused in a conversation which it was my privilege to enjoy with John Quincy Adams, as he sat in his sick room at his son's house in Boston, a short time before he fell at his post of duty in the House of Representatives. In a voice trembling with age and with emotion he said that no public man could take gifts without peril, and that he himself, through his long career as Minister abroad, Secretary of State, President and Representative, always refused gifts, unless it were a book or some small article, in its nature a token and not a reward or bribe.

New York, April 19.—The World says \$220,000 were raised at Moody and Sankey's meetings.

Henry C. Bowen has withdrawn from the Congressional Union. He was one of the founders of the Union and one of its staunchest supporters. It is said that he contributed more money to it than any man in the country; he took a deep interest in its success. He stated that he was heartily in sympathy with Dr. Storrs and Briddington, and his reasons for withdrawing, were similar to theirs.

The Emperor of Brazil and suit attended the opera at the Academy of Music, last night. The orchestra played the Brazilian National Air, while the audience arose.

ANN ARBOR, Michigan, April 19.—Prof. Watson reports that he discovered on the night of the 16th inst. in the Constellation of Virgo, a planet hitherto unknown. It shines like a star of the eleventh magnitude.

The crovasse at Delhi, Monday night, caused great alarm at Friar's Point and all the citizens at that point turned out en masse to try to repair the breach. The water was pouring through with fearful force at last accounts, overwhelming the plantations bordering on Moon Lake.

NEW ORLEANS, April 19.—The levee is broken at Point Lookout in Carroll Parish. This is the largest protection levee in the state of Louisiana. The break here is a mile wide and the water is flowing through without making a ripple. The loss there is tremendous and it is estimated it will reduce the crop sent to this city, 250,000 bales.

NEW YORK, April 19.—The Herald's Brownsville special says the American Consul at Matamoros again calls for assistance from the American troops. The raiders and rancheros are all Diaz men. Some persons have been assassinated at Zacatecas. The government troops have been victorious near Monterey. Both sides are confident.

The World's Washington special says a prominent Congressman says Grant is determined when summoned before the investigating committee to tell everything he knows regardless of the consequence. Having no chance for re-nomination he had rather sacrifice the party than himself. He claims he made appointments with honorable intentions but was deceived by friends.

The President's veto message says the President's salary was \$25,000 when we had only three millions of people; now we have forty millions, wealth has largely increased and the cost of living is vastly out of proportion. He states from personal experience that the salary is inadequate for the expenses of the White House.

WASHINGTON, April 19.—The first payment of silver coin was made to-day by Treasurer New to representative Foster of the appropriation committee. The regular payment to the public for fractional currency, will begin on Thursday. It is expected there will be a heavy demand for coin for the first few days.

There is the authority of the President for denying the statement that he had requested the discharge from the public service, of the employees who were appointed to their position at the request of Babcock.

INDIANAPOLIS, April 19.—The Democratic State Convention met to-day. Jas. D. Williams was nominated for governor. The platform declares in favor of the maintenance of free schools, economy in the government federal states and local the debt, our financial distress and public corruption are attributed to the unwise government and legislation, the vicious financial policy of contraction and the extravagance of the republican party. That it is the first duty of the people to purge out improper officials. That a thorough and general change is the only means of reform. We believe that gold and silver are the true and safe basis for the currency and we are in favor of measures that will produce uniformity in coin and paper money. We oppose the contraction of the volume of our paper currency and declare ourselves in favor of the adoption of measures looking to the gradual retirement of the circulation of national bank notes, and substitution thereof of circulating notes, issued by authority of the government.

PORTLAND, April 19.—Gold in New York 88 selling; 89 buying.

SAN FRANCISCO, April 19.—Wheat for fair average lots, \$1 65 per cental; sacked flour, best brands, \$5; good outside Country, \$4 75 fine and superfine \$4 @ 4 25; barley choice brewing \$1 35 @ 1 40; feed \$1 25 @ 1 30.

The racer, Kate Pense, was sold at auction to-day for \$3,850. Judge Mee being the purchaser.

VICTORIA, April 19.—The steamer Otter returned to-day from the search for the steamer Sir James Douglas. The report of the railway engineers on the latter vessel as to the impassable state of Gardner's Inlet on the tenth of April and the report of the Otter as to the condition of Butte and Deane canals a week ago it is said will decide the question of the location of the route of the road as far as Fort George in favor of Butte Inlet. During most of February, March and part of April while engineers were at Gardner's Inlet fierce gales prevailed and it was intensely cold with five or six feet of snow on the level. The waters frozen a distance of 25 miles below the head and bad anchorage.

The Otter reached Waddington Harbor, head of Butte Inlet, April 12th and found no ice in the Inlet, and merely a sprinkling of snow on the banks. She afterwards proceeded to Deane canal and found ice and deep snow everywhere. Indians reported the canal as having been frozen all winter.

In House, yesterday, Premier Elliott announced intention of government to appoint a Gold Commissioner for Cassiar District, and on Thursday and Friday would introduce acts in relation to taxation.

HULL, April 18.—The loss of the Victoria from Shields for San Francisco is now proved beyond doubt. She had besides Capt. Jones, whose body was found yesterday, 25 hands and a pilot, all of whom were undoubtedly lost.

LONDON, April 19.—It is reported that Count Andrassy expressed his conviction that for a year at least the peace of Europe would not be endangered.

OMAHA, April 20.—The Democratic State Convention held at Lincoln yesterday, was the largest and most influential ever held in the state. Resolutions for hard money and reform were adopted with great unanimity. Two-thirds of the convention favored the nomination of Gov. Tilden for President, but no formal expression was given to this preference.

WASHINGTON, April 20.—The President informed Congressman Page to-day, that he had directed the Secretary of State to instruct Minister Seward to officially call the attention of the Chinese Government to the practical operations of Burlingame's Treaty, with a view to modifying it in accordance with the suggestion of the resolution recently adopted by the House. This order of the President's is to be the foundation for negotiations to confine the treaty to commercial purposes.

PITTSBURG, April 20.—The Republican primaries of Philadelphia, on the evening of the 17th inst., elected delegates favorable to Blaine.

NEW YORK, April 20.—Gold closed at 113.

The World's Washington special publishes the following under immense head lines: Important and trustworthy evidence, directly implicating the President of the United States in illegal and corrupt use of the public money, has been taken to day before the committee on the Department of Justice, and comes from no less a person than an ex-member of his Cabinet, ex-Attorney General, Geo. H. Williams, who in fact shields his illegal conduct behind the written order of the President. It involves payment out of the Secret Service Fund, by order of Grant, of \$32,000 to aid in carrying elections in the City of New York in 1871-72 and 75. All this money was paid to the notorious John L. Davenport, who was chief supervisor under the enforcement act. Ex-Attorney General Williams says he was first called upon to pay Davenport six thousand in 1871. He hesitated to use public money in that way and called upon the President, who, after a brief conversation, ordered its payment by a written order. In 1872 \$20,000 was ordered paid to Davenport upon the verbal order of the President. Williams half remonstrated against the large payment when Grant ran against Greeley. The President said Davenport is engaged in a great work up there; he must have money. When pressed by the committee the ex Attorney General evaded and dodged and seemed reluctant to tell, though not so willing after, to protect the President.

The Herald's Washington special, says astounding developments were made to-day; the testimony involving in a very painful manner, President Grant. The story confines the charges made in New York in 1872, that the administration had interfered in corruption of elections that year. The President will probably be subpoenaed before the committee, to answer these questions for himself. It is stated there has been uneasiness in administration circles for some days about the coming and embarrassing developments. The World says editorially: "The most melancholy news which has ever fallen to our lot lay before the public, hardly excepting the assassination of Lincoln, is that which we publish this morning, reciting the political and moral suicide of President Grant. Were the term of the President but beginning instead of drawing to a close, his impeachment for high crimes and misdemeanors would be an imperative duty; as it is perhaps the sounder judgment will, for the sake of his former services to the state, he be spared that public pillory."

Ex-Attorney General Williams explains his testimony by saying Davenport was preparing a perfectly accurate list of voters in New York which would be an effectual preventive of fraudulent voting. The money was paid Davenport with the express understanding that the money was to be used for no other purpose than that of completing this registration. Davenport properly shows where every dollar of the money was expended. He has been summoned and will no doubt explain the matter satisfactorily. There was nothing wrong in this transaction and the President will not hesitate to say that he directed the money to be paid for the purpose I have explained.

CONSTANTINOPLE, April 20.—In Hillah and Bagdad, from March 29th to April 14th, there were 217 deaths. The plague has crossed to the left bank of the Tigris.

PEKING, April 20.—The Kieleg Nepe newspaper asserts that Monteng has declared war against Turkey.

VICTORIA, April 21.—In the House yesterday, a resolution was passed unan-

imously, praying the Lieut. Govern or to take into consideration with a view of preventing foreign drovers with large bands of black cattle, horses and other stock from pasturing them on the public domain without charge as has been done.

Papers laid before the House, show that the sum of \$50,665 50 has been expended on the dry dock account, and the local government on the thirteenth inst., made application to the Dominion Government for the advance of that sum under the arrangement made with Canada in view of the ten years guarantee.

The C. P. R. R. Engineers allotted to the British Columbia division, will leave Ottawa immediately to resume their labor.

Large quantities of supplies were shipped to the mainland last week to be followed by more to-day.

The ship Itasca with a cargo of 1,100,000 feet of lumber from Burrard Inlet, arrived here yesterday bound for Valparaiso. She has not yet sailed. Steamer City of Panama sailed at 6 o'clock P. M., yesterday for San Francisco. Has about seventy passengers.

LONDON, April 20.—The free handicap race at New Market to-day was won by Maitland, Preankness, the American horse was fourth.

The Post and Standard criticizes Signor Rossis' interpretation of the character of Hamlet unfavorably. The Post concludes, however, that the general verdict was eminently favorable. The Standard says, those who expected much from Rossis' Hamlet must make up their minds to be disappointed.
