NORTHERN PACIFIC RAILROAD.—The telegraphic news that the assets and affairs of the Northern Pacific Railroad have been placed in the hands of a Receiver, for the benefit of the bondholders and other creditors of the Company, is the most hopeful event that has transpired in connection with that project since the suicidal act of locating a terminus in the interest of a Land Ring. We have strong faith that the railroad will now be built. Gen. Cass, the Receiver, has no superior in the country as a railroad organizer and manager, and his connection with the Company as its ostensible head did not impair the confidence of capitalists and business men in his ability or integrity, as is manifest by his selection by the creditors as Receiver. It was well understood that he had no interest or sympathy with the gang of unscrupulous and artful speculators by whom he was surrounded, and that all his plans and recommendations were overruled and thwarted by them, in their own private interests. He never had any stock in or connection with, either of the Land Rings organized inside of the Company for the purpose of applying all its resources to private account, and strongly opposed the location of the western terminus at Tacoma, publicly declaring his own preference for Seattle as the most natural and available point on Puget Sound for such terminus. He is now rid, happily rid of all these malign influences, supported by the trust and confidence of all those who have any money invested in the enterprise, and under his wise and honest management we have no reasonable doubt that the means will be promptly furnished for the completion of the road in the shortest practicable time, and such connections made as will be for the best interests of the country and the success of the road, uninfluenced by private speculation.

SEATTLE, April 23.
MR. EDITOR.—People of sedentary habits should take a walk from the center of town to the Post Office and return before breakfast, sidewalk all the way, ravenous appetite the result. Geologists are invited to examine the drift exposed to view by the Main street tunnel. Nervous people and members of the City Council should visit Yesler's warehouse and gaze on one ton of gun powder, 50 cases of kerosene and 25 cases of matches, stored side by side in the same room. It will soothe them. The opportunity to see the latter should not be put off, as the council will, on completion of the S. & W. W. R. R. & T. Co. pass an Ordinance, compelling the storage of all combustible material, except nitro glycerine and giant powder, outside the city limits.

FATAL ACCIDENT.—PORT MADISON, April 23.—Charles Vickers, the second engineer of the steamer Polikofsky, was accidentally killed this morning. It appears from the evidences that he had been oiling the engine and was looking down the crank pit at the top part of the engine when the crank came down and caught him, striking him on the back of the head and the breast, killing him almost instantly. An inquest was held on the body this afternoon. The jury returned the following verdict: "That Chas. Vickers came to his death through injuries received from being struck on the head and breast by the crank of the engine on board the steamer Polikofsky."

AN OLD SETTLER.—The boiler to be used in the new flouring mill, in the course of construction upon Yesler's wharf, was bought in Pittsburg, by Mr. Yesler, in 1852, and the same year was placed in his mill in this place. It was the first steam boiler brought to Puget Sound for milling or machine purposes, and has been in almost constant use, for various purposes, ever since, and is still in a good sound condition, promising long years of usefulness in the future. Its capacity is about fifteen horse power, and it will furnish steam for an engine of ten horse power.

SAN FRANCISCO STEAMERS.—Mr. Harrington writes from San Francisco to his partner, Mr. Crawford, that Goodall, Nelson & Perkins have concluded to haul off their line of steamers between San Francisco and Puget Sound; for the present. This, under the circumstances, is a faithless act towards the public. Another company would have occupied this line before now, under permanent arrangements, if Goodall & Co. had not come in when they did, and by their interference this much needed steam communication is delayed indefinitely; but the demand is too great to allow it to remain long unoccupied.

I. O. O. F. EXCURSION.—Quite a number of Odd Fellows of this city contemplate going to Olympia on Monday, to assist in the celebration and grand Odd Fellows' Ball at that place. They have chartered the Phantom and undoubtedly will have a very pleasant time.

DEAD.—Abe Frazer, shot by Delaney lately at the Lake Washington Coal Mine, died Friday from the effects of the wound.

PERSONAL.—Mr. M. O'Conner, formerly of this city, arrived last evening on the North Pacific and remained until the Favorite came along, visiting his old friends.

The City Delinquent Tax List will be published on May 6th. Delinquents for 1873 and 1874 would save expense by calling on Sam. F. Coombs, City Collector.

ESCAPED.—We learn by telegraph from Port Townsend that Albert Schwabhausen, held for the murder of George Cruger, at Port Townsend, escaped from jail on Friday evening, 23d inst. He may make his way to Victoria.

AGENT.—Mr. R. V. Griffin has been appointed our agent for the Renton, Talbot & Clymer Mines. All persons in that vicinity desirous of subscribing to either Daily or Weekly can learn terms, etc., by applying to him. Dailies will be delivered every day at either mine.

Two young men in Walla Walla got into a dispute over a game of cards, which turned into a fight. A constable stepped in to stop the fight, when one of the young men laid hold of him and threw him over his head. The young man was afterwards arrested and next day fined \$12 for showing the constable a new trick.

CAUTION.—Men are getting lost on the beautiful trails leading from the outlying creeks and having their hands and feet frosted. Cariboo has nobly responded to an appeal for aid for Peter Macdonald who lost his hands by frost bite; \$2500 has been raised for the poor fellow. A party have gone out to prospect the creeks lying between Willow and Bear Rivers.—Colonist.

CITY ORDINANCES.—A young man was yesterday arrested and fined \$5 and costs for running his horse through the city in company with a young lady. He was not aware of the city ordinance which he violated. There is another ordinance which is not generally known, or regarded: every householder is required to keep upon his premises a barrel of water, to be used in case of fire. The Marshal will see that the ordinance is obeyed or the penalty enforced.

L. M. C. BOAT CLUB.—The young ladies of this boat club have reorganized with the addition of some few new members, and intend giving a ball at Yesler's Hall on Wednesday next, for the purpose of raising funds to procure a boat for their use the coming season. They will have excellent music from Olympia and a very enjoyable affair is expected. We hope a large crowd will be present to the young ladies will not be disappointed in their endeavors to get a boat. The admission will be \$1.

EMIGRATION.—Mrs. Dr. Sawtelle has consented, on invitation of citizens, to deliver a lecture, on Saturday evening, the 24th inst., at Yesler's Hall, on the subject of emigration. Mrs. Sawtelle, some time ago, delivered a course of lectures in the Eastern States on the subject under the patronage of Commodore Vanderbilt, Horace Greeley and other prominent citizens, and did much towards intelligently presenting and exciting an interest in the advantage presented to emigrants upon this upper Pacific Coast. Her lecture will be highly interesting to our citizens and we hope there will be a general attendance.

THE RAILROAD.—Arrangements have been agreed to, and only await confirmation by necessary legal contract, for constructing and equipping a section of about twenty miles of the Seattle and Walla Walla Railroad, extending from this city to the Cedar River Coal mountain, connecting on the way with the Talbot, Renton and Clymer coal mines, to be completed the present season.—When the road is completed, the coal mines it will tap will be in condition to deliver at least five hundred tons of coal daily, and this immense industry will inevitably be followed by others of like importance to the material prosperity of the town and country.

PARIS, April 20.—The duel yesterday between Maggiva, editor of the Union, and Rogat, editor of the Pays, resulted in the wounding of both. The weapons were swords.

LONDON, April 21.—Dr. Kenealy appeared at Guildhall Justice Room in response to a summons at the instance of Wright, editor of the Advertiser, charging him with libel. The room was filled with the friends of the Doctor and a dense crowd gathered in the streets after hearing the summons, dismissed. The result was greeted with immense cheering by the people in the room which was caught up outside. Kenealy was escorted from the building by thousands of people.

It is rumored that Bismarck addressed a note to Luxemburg similar to that sent to Belgium.
At Epsom, to-day, the great metropolitan stakes were won by Hampton, Temple Bar second and Blush third.

WASHINGTON, April 21.—An investigation of the conditions of the winter throughout the United States, presents the crop as a whole much below that of last year. The greatest injury done by the hard winter is in portions of Indiana, Illinois, Missouri and Kansas. South of the 36th parallel, wheat is reported as vigorous.

DEBROT, April 21.—Reports from all parts of Michigan, indicate bad prospects for the wheat crop, much having been injured by the drought last fall and the severity of the winter.

NEW ORLEANS, April 21.—The majority report of the House Committee on elections provides for the seating of Conservatives from St. Helens, Orleans and St. Martin's Parishes in place of Republicans, and the House has adopted a resolution introduced in the Senate, unseating Good and reseating Crossier. Resolutions to impeach Charles Clinton, State Auditor, of high crimes and misdemeanors have been recommended by Lowell, Chairman of the Committee, appointed to examine public accounts.

WASHINGTON, April 21.—Rumor has it that Attorney General Williams will soon retire from the Cabinet. To inquiries made, he does not deny the truth of the report, and admits that he may before long engage in other pursuits.

LONDON, April 21.—The Mark Lane Express, in its weekly review says of wheat: "There have been large arrivals of wheat and in better condition without the market being shaken, although some heaviness yet remains in some of the markets. Wheat does not bring better prices, but the arrivals are not sufficient to influence London quotations which are almost at the bottom."

OREGON, April 21.—The blockade on the Union Pacific Railroad appears to be about ended. Trains will leave here to-morrow morning for the East and passengers are also expected to arrive here from the East to-morrow night.

NEW YORK, April 21.—It is authoritatively stated that the ceremony of imposing the Baretta upon Cardinal McClosky will take place in the cathedral of this city on Tuesday. In addition to some 40 Archbishops and Bishops, and about 1200 priests, it is expected that the President and Cabinet, Gov. Tilden and staff and the municipal officers of the city will be present.

CHICAGO, April 21.—Remarkably cold weather for the season of the year still prevails throughout the West, and reports from every section bring accounts of damage to fruit crops, and, in some instances to winter wheat. It is hardly probable, however, that wheat has been seriously injured by the recent cold snap.

NEW ORLEANS, April 21.—The House this morning adopted by a vote of 73 to 21, a resolution for the impeachment of State Auditor Clinton for malfeasance in office.
NEW YORK, April 21.—Judge Blatchford of the U. S. Court gave a decision to-day in the case of Chas. A. Dana, arrested upon an attachment of the Supreme Court of the District of Columbia. The Judge discharged Dana from custody. The famous racer, Kentucky, owned by August Belmont, is dead. The Graphic's Washington correspondent says the President is not a candidate for reelection for a third term and never has been. He never suggested the idea himself, and never gave any one the slightest warrant for supposing he would take a nomination if offered him, and it is understood in Washington that if he had ever been asked by any authoritative body he would have declined to be considered a candidate under any circumstances.
COLUMBIA, S. C., April 21.—Ex-Treasurer Parker was arrested to-day on a charge of embezzlement of \$28,000 from the State sinking fund. He has not procured bail.

NEW ORLEANS, April 21.—The Democratic majority in the House having unseated the Republican members, Marshal Packard telegraphed the fact to Congressman Frye and asked if, by the award, the Democrats were not pledged not to disturb any members of the House but those included in the award. Frye replied that they were so pledged and have violated good faith and plighted honor in this outrageous action.

NEW YORK, April 21.—The Panama Pacific Mail steamer Payta, struck a sunken reef just off Santa Pera and had to be run ashore to prevent her from sinking. It is hoped the ship or much of the cargo will be saved.

NEW YORK, April 19.—The Tribune publishes the following: "John P. Jones and Renor W. Park, representing Panama Railroad and Jay Gould, representing the Union Pacific Railroad and Pacific Mail Steamship, held another conference on Saturday for the purpose of trying to arrive at an amicable adjustment of the differences between the Companies. Both Companies realize the importance of harmonious working arrangement. Only point of difference remaining unadjusted was the division of the earnings on through freights."

NEW YORK, April 21.—Dispatch from London, Canada, says: "The Mormon Apostles laboring there are making numerous proselytes."

OMAHA, April 22.—A large train of delayed passengers and mails from the West arrive here this morning and the through train will probably leave here for the West to-morrow.

NEW ORLEANS, April 22.—The Senate passed a joint resolution suspending Auditor Clinton from office during his trial. The Senate resolved itself into a court of impeachment on the case.

WHEELING, West Virginia, April 22.—About all the nail feeders in the mills have struck, but nailers, so far, feed their own machines and so keep the mills running.

NEW YORK, April 22.—John Harper, senior member of the Harper Bros., died this evening after a prolonged illness in his 79th year.

WASHINGTON, April 22.—Atty. Gen. Williams to-day tendered to the President the resignation of his office to take effect the 5th day. The resignation is not expected therefore no person is named as his successor. Intimate friends of Judge Williams say he designs returning to Oregon and entering the contest for U. S. Senator from that State.

It is believed Secretary Bristow will be appointed Attorney General in place of Williams.
The report that the President has requested or intimated to Secretary Delano to resign is positively denied at the Executive Mansion.

The following postal changes have been ordered for the Pacific Coast. Postmaster appointed, A. S. Patterson, Tilton, Umatilla county, Oregon. Offices discontinued, Kodiak, Alaska.
Secretary Delano returned here this morning. He says the reports that the President had requested his resignation are not true.
LONDON, April 21.—Bark Edward Anamac, Sowlands Islands for Liverpool was abandoned at sea in a sinking condition. The crew were rescued.
The steamship Oceania purchased from the White safe line by the Occidental and Oriental line, for the San Francisco and China trade, has sailed for Hong Kong, via Suez canal. No vessel of her size has passed through the canal.
PARIS, April 22.—The President of the French Geographical Society has handed Minister Washburne the gold medal presented by him to the late Captain Hall, in commemoration of his explorations in the American arctic explorations.
LONDON, April 22.—In the House of Commons this evening, Sullivan announced, for the purpose of terminating the anomalous relations between the press and the House, that he would nightly call attention to the presence of strangers. This will have the effect of compelling a withdrawal of all persons except members.
BRUSSELS, April 22.—The examination into the alleged Duchesse conspiracy against Bismarck began to-day. The prisoner Duchesse twice refused to give the name of his accomplices.
CHICAGO, April 23.—A Washington special says the most prominent names mentioned in connection with the office are Matt Carpenter, Edward Pierrepont and E. W. Sloughton.
The same dispatch says Williams will at once return to Oregon to conduct the Senatorial canvass in his own behalf.
A Washington special says it is rumored that Robeson and Belknap as well as Delano, will soon leave the Cabinet.
The Tribune says of the report of Attorney General Williams' resignation: "That is possibly true, and if so, well. If not true, then it is the country's loss, and adds that in filling the vacancy, it is to be hoped the President will select a lawyer."

WASHINGTON, April 23.—There is nothing of general interest before the Cabinet to-day, and nothing whatever by any one in regard to changes in the Cabinet or question of new appointments to fill the vacancies that may occur.

Investigation of mail contract frauds is still progressing by the Postmaster General and Second Assistant Postmaster General Tyner, who, this morning discovered a fraudulent bill among those for mail routes in Louisiana. About six clerks have already been discharged for complicity in the frauds and it is understood that at least a dozen more are implicated. Tyner stated that the Department has determined to make a thorough investigation if it takes all summer.

BERLIN, April 23.—The police authorities have personally notified all Ursuline sisters of this district who are natives of Germany that they must leave within two months.

LONDON, April 23.—There has been an unusually increase of dementia among the inmates of the Liverpool workhouse, which is attributed to religious excitement.

After the transaction of some unimportant business, Kenealy rose and moved that a Royal Commission be appointed to investigate the circumstances attending the Tichborne trials. In a powerful speech in support of his resolution, he alluded to the growing disaffection at the result of the trials, and the manner in which they had been conducted by the Bench. Nothing short of a Royal Commission of enquiry would content the people of England, who were convinced that justice had not been done. He stated that he had received many letters from Americans to the same effect. This discontent had grown into a torrent which was pouring over the land. The late ministry had partly owed its downfall to its conduct in regard to the Tichborne case. He asserted that he had positive proof that Chief Justice Sir Alexander Cockburn in society, while the trial was in progress, said he would give the claimant fifteen years imprisonment. He spoke severely of the Pittidgeburg forgers and stated that the claimant was unable to call more witnesses for lack of funds. Penalties for contempt had been directed against one side only. Witnesses were browbeaten and the partiality of the bench was patent throughout the proceedings.

Kenealy declared he had sacrificed himself to a sense of honor and duty, and had been irretrievably ruined in his profession. He believed the defeat of the motion would spread dismay in the country. He spoke three hours and was followed by Whalley, who seconded the motion.

Sir Richard Baggeley opposed the appointment of the Commission, as there was not the slightest ground to justify it.

Whalley remarked that the House seemed to be interested in the suppression of all inquiries which would lead to the exposure of a Catholic conspiracy against the Tichborne claimant.

Sir Henry James, who was Attorney General under the last Gladstone ministry, denounced the motion as an attack on the jury system and declared the commission asked for was unprecedented.

Disraeli said Kenealy's speech was the thirteenth tale of charges of misconduct against the Chief Justice that were entirely unsupported. Alluding to Kenealy, he regretted that that talented man, under hallucination had destroyed his reputation.

John Bright reviewed the evidence in the Tichborne trial and declared he could not but agree with the jury in their verdict. The motion of Kenealy was then rejected by a vote of 433 yeas to one ye.

OMAHA, April 23.—The first train through the blockade arrived at 4 30 this afternoon. Two more trains followed a few minutes after. There were 21 coaches, 11 baggage and the mail and express cars altogether on the three trains.

About 200 were first-class passengers and the rest immigrants. All of the immigrants will proceed west this evening. Two more trains of immigrants will arrive from the east this morning; they have not reached Eranston yet, but there appears up to this time nothing serious to prevent their passage to Green River to-night.

The situation on the road according to official sources is as follows: The track is now in running order to Omaha to Lawrence Station, 193 miles east of here, between which place and Green River three bridges are gone, two of them will be repaired in two days, which will reduce the distance over which teams will have to transfer freight and passengers, to two miles. Work between Green River and Lawrence is heavy and difficult, and it is calculated it will take until next Tuesday to complete it. There are not less than 2,000 passengers east of Green River to come west, besides about three thousand still at Omaha. All will be pushed forward as rapidly as possible.

The weather continues calm along the line, with indications of rain. Some of the streams have fallen and others have risen to-day.

NEW ORLEANS, April 23.—The steamboat Exporter, John Kyle and Chas. Bodman were burned to-day. The fire originated in a blacksmith shop on the Kyle and spread with such rapidity that the cabin was in flames in less than five minutes after the alarm. She was cut loose and drifted up stream. The Exporter and Bodman were also cut loose, and the burning vessel drifted cut loose, the Exporter setting her on fire at once. The people on board, seeing no other refuge jumped on the Bodman, which in a moment also caught, and was soon enveloped in flames, and the three burning boats drifted into the current and the people on board were lost. Two jumped overboard and though some were saved, the larger part are believed to be lost. The number is variously estimated at from 20 to 100. One of the boats was an excursion party from Cincinnati or Pittsburg. Many are feared to be lost. Loss \$18,000; all are supposed to be insured.

NEW YORK, April 23.—Chas. C. Lewis of the firm of Webster & Lewis, which recently failed, committed suicide at his home yesterday.

At a meeting of the Board of Directors of the Northern Pacific Railroad to-day the resignation of Gen. G. W. Cass, President, was accepted and Charles B. Wright of Philadelphia was elected to fill the vacancy. He has been four years a Director and is Chairman of the finance committee.

A FOUNDER OF STATES.—In a brief biography of the late Gen. Mortimer M. McCarty, the Tacoma Tribune mentions the fact that he was a member of the Convention which formed the Constitution of Iowa, and also a member of the Convention which formed the State Constitution of California. He was also the founder and first settler of the town of Burlington, Iowa, selected the site of the present city of Sacramento, was a member of the Provisional Government of Oregon, and after a long, active and useful life, finally ruined himself pecuniarily and died of chagrin by founding the town of Tacoma and attempting to create a great city against the laws of nature and the demands of commerce. How pitifully his great mind and mental energies had become demented in his last hours, may be judged by the statement that "the last thing done for him, within half an hour of his death, was to comply with his request for the reading of the Tribune, then just issued from the press." What a sad ending of a glorious career!

EXCLUSIVELY TO THE DAILY DISPATCH.

EGGERS CURE, April 24.—A horrible accident occurred in this city last evening. Harry Hagleman, proprietor of the City Brewery, while walking upon a board over one of his large vats filled to the brim with hot, scalding beer, fell in. He was rescued from the vat as soon as possible, but died this morning at four o'clock, after intense suffering.

SAN FRANCISCO, April 24.—The Young Men's Republican Club held an excited meeting last evening, in the lower Dashiway Hall. There was a large attendance, including delegations from the Custom House and other departments under the patronage of the Federal government.

The chairman of the committee on Constitution and bye-laws reported a platform, in substance demanding the nomination for State and municipal officers of honest and capable men who shall be held strictly responsible for the management of the details of their offices. Honest and economical administration of Government. Equal assessment of property. Vesting of ownership and control of the water front, gas and water works of San Francisco, in the municipality. That interference by corporations with the affairs of Government has become a gigantic evil and demanding from candidates absolute freedom from such influences. That the perpetuity of American institutions rests upon Common Schools and demanding the maintenance of strictly unsectarian public school system and compulsory education.

SAN FRANCISCO, April 21.—A dispatch from Santa Barbara reports a large steamer on fire about ten miles off shore and firing minute guns. It is very foggy on the water, and no definite information can be obtained concerning her. A gentleman living on the hill three miles from Santa Barbara says he saw the whole fore part of the ship on fire.

SANTA BARBARA, April 21.—Nothing more definite of this burning steamer. A schooner has been sent out to look for her, but has not yet returned. The fog is very heavy. The steamer has been seen occasionally as the fog lifted. Smoke was pouring from her stern and guns were firing. It is evidently a large vessel, and it is thought it may be the Panama steamer. Everything possible is being done to render assistance. The greatest excitement prevails.

MONTREY, April 22.—From the freight clerk of the ship your reporter learns the following particulars of the disaster to the steamer Ventura. With about 132 passengers and 400 tons of freight, the vessel left San Francisco at 9 o'clock A. M. Tuesday, 20th inst., and passed New Year's point about 5 P. M. the same day, encountering a heavy fog bank. The captain took bearings, adjusted the course of the vessel and lowered sail. The vessel traveled through the fog until about 8 P. M. making fair headway. At that hour she struck a rock, rebounded, and swung around with her stern toward the beach, the propeller striking the rocks and being carried away. The vessel was then at the mercy of the wind. The sea being comparatively quiet, she was driven against the rock, which protruded several feet above the water. Dismay and consternation prevailed among the passengers on board, but on becoming safely grounded against the rock, they quieted down, and boats were lowered. The two first that put out for shore were not heard from until the next morning at 7 o'clock when they returned, having made the land safely. The second two boats succeeded in making a landing near the wreck, on the sand beach, and made fast a line by which all on board were saved. A fire was built and everything made as comfortable as circumstances would admit. About 7 o'clock next morning many of the passengers took foot passage for this place, where they arrived in the evening about ten o'clock foot sore and weary. The vessel has 13 feet of water in the hold, and will become a total wreck.

The Santa Cruz left this place at 11 o'clock last evening for the wreck for the purpose of bringing up any remaining passengers, and is expected to return at 5 o'clock this afternoon, when full particulars will be received. It is claimed the accident was caused by false action of the compass.

NEW YORK, April 24.—At Rockville, Alleghany county, James Lafferty killed his grandmother and robbed her house and afterwards shot Miss Van Rax, who refused to marry him, and her mother, and then killed himself.

LOUISVILLE, April 24.—Information from Lexington states that John C. Breckenridge has been very ill all winter and his health is still very precarious.

NEW YORK, April 24.—The Chicago, Rock Island and Pacific R. R. Company began to-day to pay their dividends without rebate.

ST. LOUIS, April 24.—Arthur B. Barrett, Mayor of this city, died about 4:30 this morning of inflammation of the bowels, superinduced by overwork during the recent canvass.

NEW ORLEANS, April 24.—Both houses of the Legislature adjourned sine die today. In the Senate a resolution suspending State Auditor Clinton, was postponed until the session of 1876. But few, if any reform measures were passed by the Legislature.

NEW YORK, April 24.—No California mail has arrived here since that of the tenth, nor can we ascertain that the daily mails are moving either way.

The restaurant keeper at whose place Beecher dined on the day of the alibi has been found. He was struck by reading Beecher's testimony, that about the time mentioned Mr. and Mrs. Beecher took lunch together in his saloon. He had made a memorandum of the circumstance at the time. On looking over his books he found the date corresponded with the one mentioned by Beecher.

WASHINGTON, April 24.—Williams retires on May 15. He denies the intention of going to Oregon to compete for the Senatorship. He remains here to practice law.

The President has not yet accepted the resignation of Attorney General Williams.

Delano's early retirement is conceded by some who stoutly deny that the resignation is forced, or consequent upon any official irregularities. The President emphatically says he has always considered Delano as an honest and efficient executive officer. Delano's immediate friends say that the President has told him that he has never thought of asking him to resign, and that consequently he will remain in the Cabinet.

The Spanish government has paid \$45,000 of the \$80,000, on account of the Virginia affair.

LONDON, April 24.—A St. Petersburg dispatch reports that Maquis de Canx, husband Adolina Patti has been killed in a duel.

The strike of cotton operatives at Blackburn has ended.

The opening meeting of Sundown Park at Esler, Surrey county, within run of the metropolis closed today with a grand international steeple-chase, in which twenty horses started. Goldfinder won, Lavine, the favorite, second, and Revenge, third.

April 25.—The morning papers announce the death of Rev. Wm. Selwyn, Chaplain to the Queen, aged 69; and H. W. Pickersgill, the portrait painter, in his 94th year.

THE HIGHEST PRICE paid for business property in New York was at the corner of Wall and Broad streets, where the Drexel Bros. paid about \$288 a sq. foot. The highest business property in Chicago has not been held at more than \$25 a sq. foot. In the burnt district of Boston condemnations have recently been made where the land was valued at a rate equal to \$6,000 or \$12,000 a front foot.

Grand Duke Nicholas, of Russia, offers three prizes, respectively of \$4000, \$2400 and \$1600, for the best works concerning the history of military operations on horseback; the functions, attributes, growth, development and mutations of the cavalry in all ages and countries; and the general and particular theories and practices of cavalry operations. Foreigners are invited to compete, and January 1st, 1877, is the last day for receiving the manuscripts.

Notice to Contractors! The Hon. Secretary of the Interior has appointed the undersigned as a Committee to superintend the expenditure of an appropriation of \$5,374 75, made by Congress for furniture, carpets and mason work and material, painting, plastering, and other work necessary for the proper repair of the Capitol building at Olympia, W. T.

Sealed Proposals are invited from all persons desiring to contract for the whole, or any portion, of the work required to be done; said proposals to be in duplicate and delivered to any member of the committee on or before the hour of 12 o'clock P. M., on Tuesday, the 24th day of May, A. D., 1875, at which time said bids will be opened publicly by the committee. The committee is the Secretary of Washington Territory. The following is a general statement of the work contemplated by the committee to be done:

Mason Work. A good and substantial foundation of brick or stone for the whole building, also the building of the main chambers, library, vestibule and committee rooms; contractors to furnish all labor and materials.

Carpenter Work. The erection of a building to be used as a wood-house, waterclosets and storeroom, portico, cupola, porch and flagstaff on the main building; also blinds and shutters for all the windows, and a new roof, also all necessary repairs on doors, windows, staircase, baseboards, clerks' and speakers' members' desks, together with other repairs enumerated particularly in the specifications hereinafter referred to; also benches, fuel boxes, shelves, etc.; also a good and substantial sidewalk eight feet wide, all labor and material to be furnished by the contractor.

Carpets. About 685 yards, more or less, of carpeting and matting; the principal part of the carpeting to be the best article of tapestry or three-ply, of such kind, pattern and in such quantity as may be agreed on by the Committee, to cover the floor of the Library and of the Council Chamber, and the floor of the vestibule within the bar; the matting to be of the best quality of coco matting, to cover the floor of the lobby, east and west vestibule, also a limited quantity of stair carpet one yard in width; all the carpeting and matting required to be fitted, sewed, and laid down, to the satisfaction of the committee, by the contractor some time in the month of September, 1875. Contractors to specify in their bids the price per yard for each article required.

Furniture. Five dozen cast-iron arm-chairs of the pattern known as the "A. B. C."; also two large stoves for the main chambers, suitable for either coal or wood; one smaller stove for the library, and one small stove for the committee room. Also, two eight-light chandeliers, two two-light chandeliers and sixteen side-lamps, all of suitable pattern; also, ten new tables of the pattern now used in the Capitol; all of the foregoing articles to be placed and set up in the Capitol building, on or about the 1st day of October next.

Painting. Also three coats of good white paint on the whole outside of the building, including doors, windows, etc., and also all of the woodwork on the inside to be grained and varnished in good, workmanlike style; also, the painting of the outside of the wood-house with three coats of white paint.

Clearing and Grubbing. Clearing and grubbing of a space of 300 feet square within the contemplated enclosure, including the removal of such tree and undergrowth as required by the Committee, leveling the ground, and the satisfaction of the committee, by the contractor some time in the month of September, 1875. Each bid must contain a copy of this advertisement and refer to it as well as the plans and specifications in the hands of the Secretary of the Committee and must state the price in United States currency, in writing as well as in figures. The Hon. Secretary of the Interior acting in behalf of the government of the United States, reserves the right to reject any or all of the bids. The successful bidder or bidders will be designated by the Secretary of the Interior and will be required to enter into a written contract with the Government to execute the bid awarded to him and also to execute a bond with sufficient sureties in double the amount of the bid for the faithful performance of the contract. When such contract and bond is approved, the work must be commenced and completed without delay.

All the carpenter, mason and painter's work must be finished by the 15th of September, 1875. Further instructions as to the manner of bidding and conditions of contract will be given by the committee or any member of the same. Contractors will be paid after inspection and acceptance of the work by the Committee and the approval of their accounts by the Department of the Interior.

OFFICIAL PAPER OF THE CITY. Seattle, W. T., April 29, 1875.

The editor of this paper took a trip down Sound this Monday morning, which will account for the lack of editorial for a day or two.

The remains of Abe Fraser, the murdered man, were brought to this city and buried on Sunday in the Masonic cemetery.

The repairs to the Mastick are nearly completed and in a short time she will be turned out in better condition than ever before.

THE LAST OF THE SEASON.—A few days more only, can those delicious Oysters be obtained. Piper knows how to cook them. Don't miss the chance!!!!

WANTED.—A servant girl, who can cook, wash and iron and do general house work for a small family. Wages, \$20 per month. Apply at this office.

Judge Lewis, Judge Jacobs and quite a number of the other members of the bar of this city went to Port Townsend to attend the term of court at that place.

The Oregonian says: "The Seattle Dispatch reaches us again, the first time for six months." The paper containing the above item was the first copy we have received in nearly a year.

PERSONAL.—Mr. Curtis Brownfield, who has been in San Francisco for several months past finishing his trade as a brick maker, returned to this city last Saturday.

COAL.—The fleet of five large vessels, now in the harbor, will all load with coal for San Francisco. Four with Seattle C. & T. Co.'s coal and one with Renton Coal.

COMING.—Gen. G. W. Cass, the recently appointed Receiver of the N. P. R. with a large party of Directors of the road, leave for this coast on or about the 15th proximo.

PROBONO.—The British Columbia Parliament, 1st Parliament, 4th session, was prorogued by His Excellency the Lieutenant Governor, after a session of fifty-three days, on Thursday, April 22d.

Winter suddenly set down in the lap of spring at Salt Lake last week and the Tribune says: "The mosquitoes that were humming so playfully a few days ago now sleep peacefully beneath the pure white snow."

ACCIDENT TO JUDGE LEWIS.—Chief Justice Lewis met with a painful though not very serious accident, at Port Townsend, on Monday evening, spraining his ankle by stepping on a broken sidewalk. He will return to Seattle on Friday.

SAN FRANCISCO, April 27.—Passenger list per steamer Los Angeles for Victoria: Miss Cunningham, Mrs. Cunningham, W. K. Foster, Mrs. Astell, C. Stanley, W. T. Wickware, Hon. J. Cunningham, Thos. Burk, John Macoun and 50 steerage passengers.

Some person is making a practice of hitting up our back yard with No. 14 linen collars. We would not care a cent if the collars fit us, but as they are half an inch too small the owner can have them by calling at this office.

COMMITTED.—Peter Delaney, who killed Abe Fraser at the Lake Washington coal mine, was brought before Justice Scott on Saturday and waived an examination. He was committed to the Port Madison jail to await the action of the Grand Jury.

STILL THEY COME.—On Tuesday morning the Renton & Talbot Stage Company had to put on an extra four horse stage to accommodate the number of passengers for those mines. The passengers were all immigrants, lately arrived, going to the mines to work.

EMIGRANTS.—In a letter from London to a late Alta California, Col. Massett, — James Pipes says that at least 20,000 English laborers are willing and anxious to emigrate to the Pacific coast, the coming year. He also says there is great lack there of printed information regarding the coast.

COLLISION.—Yesterday evening about half-past five o'clock, a fast going along Commercial street at first speed, came in contact with the eye of a teamster. Although considerable blood flowed, the teamster, with the assistance of four or five able bodied men, gained his feet and wended his way homeward.

CLAM CANNERY.—The clam cannery of Waddell & Miles, under the superintendence of Mr. Manning, is now fairly in running order and is putting out about twenty dozen cans a day. They find a ready market for all they put up, and hope in the fall to extend their facilities so as to can 100 dozen a day.

AN AVERAGE.—During the last twenty-four hours there has been in our harbor twelve steamboats, four large barques, one barkentine and the U. S. surveying schooner Euxatroy. This is about the average shipping in our harbor and will compare favorably with any harbor on the upper coast.

FOR THE LADIES.—Just received a fine assortment of Ladies Furnishing Goods and Fancy Articles. Call and see them at Mrs. Jamieson's, Cherry street.

ACCIDENT.—On last Saturday afternoon Miss Addie Wood was boating in the vicinity of Tacoma Hall, and while engaged in taking the soundings of the Bay she lost her balance and fell into about twelve feet of water, but being a good swimmer she escaped with only a thorough wetting.—N. W. Farmer.

The Salem Mercury asks, "Where in thunder is that daily that Mart. Brown was going to issue?" M. B. responds thus: "We will inform our cotemporary that he must hold on a little while. The sign isn't right yet. Our granger education teaches us never to plant dailies in the dark of the moon, else they will all run to root, and then it will be, root daily or fizzle out."

A panther was brought into town last Wednesday morning by Mr. Samuel Strange, which met its death by indulging too freely in the masticating of nutmeg tinnetured with strychnine. The carcass upon which he feasted constituted the fourth victim to his rapacity. He measured, from his nose to the tip of his tail, about six feet.—Argus.

SPELLING.—Gen. Mart. Brown, of the Albany Democrat, the State Printer of Oregon, was knocked out of time by the word "colander" at a spelling school match in Albany recently. He says in his last issue: "We want them to give us something hard at the next spelling school match—words of five or six syllables like 'baker' frustance."

PASSENGERS.—From Victoria, the following passengers sailed in the steamer Pacific April 26th: H. Mansell, Mrs. M. McLarty and child, Mrs. Moon and child, Mrs. H. B. W. Aikman and 4 children, Mrs. Richard Baker, A. Buler and wife, Mrs. Phipps and child, R. Wallace, W. Charlton, J. Moss, E. Stevens, Mrs. J. Gosnell, A. Lewis, T. Wilton, T. Kelly, Miss Kate Denis, and 20 in the steerage.

ADVERTISED LETTER LIST.—List of letters remaining in the Seattle Post Office for the week ending April 24, 1875.

Ruth, Keating, James Matheson, Miss C. J. Chattin, Mrs. W. C. Murray, Annie Calhoun, Jack Munroe, Fred De Focin, Mrs. G. Madden, Jane Goldmore, William Paylor, Miss Alice E. Gow, Miss Kate Ferter, O. V.

Persons calling for the above will say they are advertised. W. H. PUMPHREY, P. M.

FOR THE STEAMER.—The Oregon Steamship Company have determined to run a boat on the Sitka river the coming season, and are now giving the E. N. Cooke a thorough refitting for that trade. She will be repaired, refurnished and stiffened up, and will be undoubtedly the finest and staunchest river boat north of the Columbia. Next Monday, the 26th inst, in company with the *Gusset Telfair*, she will leave Portland, and passing out of the Columbia will go to Fort Wrangell via Victoria. Those who contemplate a passage up the Sitka to the Eldorado, will find her a fine craft. She will be commanded by Capt. Geo. A. Pease, who can navigate any body of water, from the high seas to the smallest creek.—Oregonian.

MAUDE. BY MEM LINTON.—Roebucked mouth, Inland with pearls; Amber eyes, And Amber curls. Dainty foot, Small and slender; Dimpled hands, White and tender. Sympen waist, Slight and supple; Finely cut, Without scruple. And a laugh, Glad as thrushes, Scorning any Stops or rushes. Drooping grace Of the bare bell, Not found in Chisold marble. This is Maude, Peerless woman; Sweet maid Maude, Divinely human. (Albany Democrat.)

BRITISH COLUMBIA AT THE CENTENNIAL.—Mr. James Richardson, of the Canadian Geological Survey, arrived yesterday overland, twenty-one days from Montreal, via railway to Sacramento—being detained by snow—stage to Portland, thence the usual route by the Sound, to Victoria. He is commissioned by the Canadian Government to make a collection of our minerals, cereals, woods, plants, and other of the products for which British Columbia is famous, and which are to be forwarded for exhibition at the forth-coming Centennial of the United States to be held at Philadelphia next year. It is intended that British Columbia's contribution shall be worthy of a rising Province of Canada, and Mr. Richardson will be glad of the assistance and suggestions of the general public and particularly those desirous of seeing the Province hold a good place among the exhibitions of the greatest nations of the world. Mr. Richardson has had a large experience in the forming of collections for the several Universal Exhibitions in the capitals of Europe. It is owing to him that Canada made so complete a showing at the London Exhibition of 1862. B. C. Standard.

REPAIRS TO THE CAPITOL.—The amount appropriated for repairs on the Capitol is now available, and a contract will soon be made for the alterations and improvements. The building will be raised and placed upon a brick foundation, a new roof will be laid and a cupola erected, a portico with fluted columns will grace the front entrance, and the exterior be thoroughly painted. A large portion of the "Capitol Grounds" will be cleared and fenced, and a new side-walk constructed along Thirteenth Street to Main. The interior of the building will be lathed and plastered throughout, and the wood-work grained. New carpets will be provided and chandeliers and side lamps will take the place of the primitive sconce and junk bottle. The appropriation, which amounts to \$5,970, it is thought will be ample to place the building in thorough repair.—Standard.

Last Monday Mr. Fine, a teamster of this place, had a narrow escape from injury, perhaps death. While driving over Swanton bridge with a large wagon load of wood, one of the stringers gave way, and a section of the planking fell, leaving the wagon balanced on a few planks and the horses standing just beyond the brink. The driver cut the tugs, as he expected the wagon to fall at any instant, and the team escaped injury. The break has since been repaired, at a cost of perhaps fifty dollars. The accident was caused by the bolt-head of an iron rod used in the framing to support the lower stringer pulling through the rotten wood. As there are other bolts liable to do the same thing at any time, the safety of the traveling public demands that a thorough inspection and repair of the bridges on both sides of town should be immediately made.—Courier.

THEATRICAL.—Mrs. Fanny Morgan Phelps proposes to leave Victoria on the 30th inst. for the Sound, playing at Townsend, Gamble, and Madison on her way to this city, and here on the 5th and 6th of May. In addition to her dramatic company, she has secured Capt. McDonald's band of Trained Indians, which have been an immense attraction wherever they have exhibited.

BRITISH COLUMBIA NEWS. (Colonist April 27th.)

CASSIAR.—About 25 of the passengers on the Pacific are bound for Cassiar.

Mr. O'Connor, telegraphic operator at Clinton, came over on the Favorite in San Francisco and broke an arm.

THE FLOODS.—We received a lengthy dispatch from Yale last evening concerning the floods. No additional information is furnished beyond that given by the *Colonist* on Sunday, beyond the fact that the ruin is more severe and wide-spread than at first supposed. The roads and bridges have suffered severely, and at least \$50,000 will be required to repair the damage. This heavy expenditure the country can ill-afford at the present moment, when the resources are already strained to the utmost and the bank account of the Province is on the wrong side of the ledger by about \$350,000.

ARRIVAL FROM SITKA AND WRANGELL.—The steamship California, Capt. Hayes, arrived from Nansimo last evening at 8 p. m., bringing no later news from Cassiar. The run up from Nansimo to Fort Wrangell was made in 2 days, 18 hours and 30 minutes—the quickest time on record. From Queen Charlotte Sound to Sitka and return to Queen Charlotte Sound the weather was very unsettled and quite cold, with fog, rain and snow. The steamer was compelled to lay by 16 hours on account of snow and fog.

Residents of Wangel and Sitka complain of the severe weather experienced at both those places this spring; in fact, there has been no sign of spring at either place. A heavy fall of snow occurred at Sitka on the day the California left there, while on the 22d, at Wrangell, 9 inches of snow fell. There was no sign of the ice in Sticksen River giving way when the California left, and if the weather holds out as cold and severe as it then was the river will not be open for some time to navigation. It was reported that Johnston, the mail carrier, who was at Wrangell, would very likely start for the river with a mail for the mines the day after the California left. No news from mines. Affairs quiet at Wrangell and Sitka. The passengers are a Russian Deacon and his family.

Langley's Directory of San Francisco, for 1875, sets down the population of that city at over 230,000, which the San Francisco Bulletin considers about 30,000 beyond the facts.

Illinois refuses money to finish the Douglas monument. Douglas died some years ago, you see. No profit in men in that condition.

It is funny. The San Francisco News Letter wants to know why a dog license costs \$2.50 and a marriage certificate only \$2. One has to be renewed every year, and with some, the other offender—but this cannot be the reason. There must be a better one. The "happy dog" who gets the \$3 worth sometimes has to wear something more galling than a collar; but that can't be it, either. The dog half is surely not a premium over the better half; and yet, why is it charged? The license frees the dog, the certificate holds the pur. It is better to hold a pair than frees out even a dog.

Business Notices. Good News for the Ladies and Gentlemen, too.

Oysters in the most delicious style will be served at the Puget Sound Confectionery from this date. Families supplied with fresh opened oysters at 37 1/2 cents per pint. Parties of 40 persons can be accommodated at a time in the saloon. The saloon will be open nightly till 12 o'clock.

Health the source of Happiness. The relation of the nervous system, which creates an disposition to mental or bodily action, is of very frequent occurrence. It is found that a torpid liver, debilitated stomach or deranged bowels are the great causes. For years Dr. HENLEY'S OLEAGINOUS I. L. BERRIES has been successfully used throughout the United States, as an unflinching restorative and health-giving medicine—restoring and invigorating those organs to their original strength. It has never failed to restore to health and invigorate the whole system. Dyspepsia, indigestion and loss of appetite, general debility, rheumatism, fever and ague, disappear with its use. As a medicine for diseases arising from impure or impoverished blood, it is without an equal. They are composed of an absolutely pure diffusive stimulant, medicated with the extracts and juices of the most effective roots, and will prove a safeguard against the attacks of dyspepsia and liver complaint. How to GET STAMINA. Iron frames and strong constitutions are not the lot of all. But the feeble need not despair. By getting the right means, they may live as long and enjoy life as much as their more robust neighbors. Physical invigoration is, however, necessary to this end; and while the spirituous tonics and nervines usually administered eventually depress both mind and body, Dr. WALKER'S CALIFORNIA VINEGAR BITTERS invariably supply new vigor to the frame, while they regulate every disordered function. ap9 1m

NOTICE. To all whom it may concern: WHEREAS THE COMMISSIONER OF General Land Office, in letter dated July 8, 1874, ordered that the lands of the North range 5 East, in the district of lands for sale at Olympia, W. T., should be withheld from disposal as public lands until the nominal character thereof shall have been fully established; and whereas, Elizabeth Fitch having made and procured filing upon the NW 1/4 of the NE 1/4 and the NE 1/4 of the SW 1/4 of Section 30 in said Township and Range, now has application to transfer said described lands as agricultural lands, and has filed in this office her own affidavit, declaring that there is not within the limits of said land to her knowledge, any coal or other valuable mineral deposit, and that the said land is essentially nominal land.

Now, therefore, in accordance with instructions from the Commissioner of the General Land Office, it is hereby ordered, touching the character of said land shall be taken before us, at the United States District Land Office, at Olympia, W. T., on the 1st day of May, A. D. 1875, beginning at 10 o'clock, a. m., at which place and time all persons having interest in the matter of the character of this above described land, are required to appear and there and then to show cause, if any there be, why the said land should not be sold; and it is further ordered that a copy of this order be published in the Puget Sound Dispatch, a weekly newspaper published in said Seattle, for four successive weeks before said time of hearing.

A TEXAS TRAGEDY.—Helen Rodius was the belle of Selma, Texas, and John Kincaid was her accepted lover. Two years ago, after again asking her to marry him and again hearing her refusal, he told her he could no longer bear to be near her. "I am going to Mexico," he said, "and I forbid you to marry anybody else. If I hear of your disobeying this injunction I will come back and kill you." He went away and Helen thought lightly of his threat. After a while she fell in love with a druggist named Faust, and married him. A month ago they attended a public ball, and Helen was astonished to see her rejected lover there. He was affable at first, but as the night wore on he drank excessively of brandy, and then disappeared. Faust took his wife home and then started for Houston on business. In the morning she was found stabbed to death in bed, and Kincaid has not been seen in Selma since.

A Philadelphia woman inquires, through the medium of the Press: "Where are the poor who seek employment? Vainly I have searched for a fortnight for a woman willing to go eighteen miles into the country, at high wages, to live in a comfortable, warm kitchen, with plenty of food and kind treatment, and cook for a small family, doing her duty as a faithful servant."

A Court in Ohio has decided that it is illegal to use a postal card for a dun to a delinquent creditor, inasmuch as it tends to injure his credit and reputation. Unless the Postoffice corps reveal that which they have no right to tell, how can the dun now result?—"Dun? Dun no!" should be their answer to any interrogatory on the subject.

A SHERIFF DANDY.—This is the way an impecunious Parisian dandy managed: He kept at his residence a costume of a groom. When offering an attention to the fair sex he used to say: "Permit me to send you a bouquet by my black servant." He then repaired to his garret, took his blacking bottle, polished his face and hands, put on his livery, and knocked at the lady's door. "Here," said he, "are some flowers from master to madame." He had spent his last franc in the purchase. Madame was so delighted with the present that she presented the bearer with a louis. This is a clever pocketing of three dollars, and a lady's favor into the bargain.

There is a report that the President has requested Secretary of the Interior Delano to resign; but Assistant Secretary Cavan and the officials of the Interior Department discredit it, considering it very improbable, as the President and Secretary are now traveling in company for pleasure. Many persons however believe the report to be true.

The President and several of his party, who have been to Massachusetts, returned to-day. The Postmaster General, Mr. Jewell, who was with them and Secretary Delano, whom report says had been asked to resign, from what he heard there declares the report untrue.

It has been the unpleasant duty of Judge O'Melveny to send no less than twenty-five persons to the Insane Asylum during the past year. We learn that about three-fourths of the number were Englishmen by birth, and nearly all employed as sheep herders, and the causes of their insanity may generally be traced to the habits engendered by a life of solitude. Verily, "it is not well for man man to dwell alone."—Los Angeles Mirror.

A TRUE AMERICAN.—A gentleman at the Windsor Hotel, New York, was greatly disturbed by hearing some one walking heavily in the room overhead, up and down, ceaselessly, by the hour. Finally, thinking the person might be in great distress, and being anxious to relieve him if possible, the gentleman rushed up the stairs and knocked at the door. A voice bade him to enter, and upon doing so he saw a young man, apparently in great distress of mind, standing in the middle of the room. "My friend," said the humane caller, "what is the matter?" "Oh, sir," was the reply, "I am ruined. I have \$5,000 to pay in the morning, and I can't raise a dollar!" "Is that all?" was the soothing response, "then go to bed, young man, go to bed, and let the other man walk." There is a whole chapter of modern American philosophy in this yarn, and it ought to be true, if it isn't.

THIRD CLASS MAIL MATTER.—Mailable matter of the third class, consisting of books, pamphlets and merchandise, is hereafter to be charged one cent an oz., which is an increase of double the former charge. This was ordained by a late act of Congress, which contained this amendment, without being intended by a majority of those who passed it, and there is no doubt of its being repealed as soon as the next Congress can do it. Congress occasionally passes things through in a hurry, so that great harm is done. The effect of this law is to throw an immense business that used to be done through the mails into the hands of the express companies. A great deal is said about it in our Eastern exchanges and the operation of the new law has been deferred by the Postmaster General, so it is said, for the reason that its passage was undoubtedly a mistake, and to give time for the people to learn the new requirements. It was anticipated that the sudden enforcement of the law would cause great trouble. People are apt to deposit in the Post Office articles prepaid at the old rates of 8 cents per pound and all such would go to the dead letter office, or be detained for want of sufficient postage, and so many valuable articles would never reach their destination.

Transient newspapers are on the list of third class matter, and any newspaper that weighs over one ounce will require a two cent stamp to prepay it.

"CHECK."—Of all the articles whereof there is a constant glut in the market check ranks first on the list. It is one of those things that "just come." As Topsy says, and its possessor cannot rid himself of it. It grows as naturally as knots in wood, and the bark on trees, although wherever found nothing could be more offensive, its growth cannot be checked, and decent people continue to tolerate it. Check has no fears of slaps or kicks, for a blow on one side he assumes to be but an invitation for him to turn the other also. He lives and breathes and exists, in every sense of the word, by servile imitation, and depends upon cunning for subsistence.—He is a fraud upon all that is manly; but check takes no offense at his accusers. He really belongs to the unblushing species, and insists upon it, that he is a man of nerve.

A Salt Lake paper tells that a peasant vendor of that city, whose stand is near the court house, has been much annoyed recently by the petty thefts of prominent citizens, who, in passing, have been in the habit of helping themselves to a few nuts. To protect himself he "prepared" a quantity by saturating in croton oil, and placed them in the most accessible place outside the store, and waited results. Presently a well known mining engineer corralled a handful; then a notary public came by, taking his share, followed by a policeman, a broker, a clerk from the post office, and an attorney. All of these held an indignation meeting a few minutes after, in the rear of the court house, and resolved not to patronize that dealer any more.

No WONDER.—A lady went into a Dutch corner grocery, the other day, for some trifling thing. The goods wanted were on the very top shelf. The woman placed a box on a chair and climbed up to the shelf, at the evident risk of her limbs. He husband sat by the stove, playing with a small dog. Lady said: "Why don't you make your husband reach it?" A look of infinite contempt came into her face as she replied: "My husband! I got awfully sucked in mit dat man. He knows nothing but to play mit a dog."

A father in consulting his daughter, who had lost her husband, said, "I don't wonder you grieve for him, my child, you will never find his equal." "I don't know as I can," responded the sobbing widow, "but I'll do my best." The father felt comforted.

Boys, Go HOME.—Ah, boys! you who have gone out from the old Homestead into the rush and bustle of life, do you ever think of the patient mothers who are stretching out to your arms powerless to draw you back to the home-land? Arms that were strong to carry you once, pressed closely to hearts that love you now as then.

No matter though your hair is silver-streaked, and Dot in the cradle calls you "Grandpa." You are the children of the old home. Nothing can crowd you out of mother's heart. You may have failed in the battle of life, and your manhood may have been crushed out against the wall of circumstances; you may have been prosperous, and gained wealth and fame, but mother's love has followed you always. Many a "boy" has not been home for five, ten, or even twenty years. And all this time mother has been waiting. Ah, who does not know the agony expressed by that word? She may even now be saying: "I dreamt of John last night. Maybe he will come home to-day. He may drop in for dinner," and the poor trembling hands prepare some favorite dish for him. Dinner comes and goes, but John comes not with it. Thus, day after day, month after month, and year after year passes, till at last, "hope deferred maketh the heart sick," says, sick unto death; the feeble arms are stretched out no longer.

The dim eyes are closed, the gray hairs smoothed for the last time, and the tired hands are folded to everlasting rest, and the mother waits no more on earth for one who comes not. God grant she may not have to vainly wait for his coming in heaven.

Once more I say unto you, boys, go home, if only for a day. Let mother know you have not forgotten her. Her days may be numbered. "Next winter" may cover her grave with snow.

FRANK MOUTON'S VIEW OF THE OUTCOME OF THE TRIAL.—I had a bit of evidence that seems to be more or less important and fully as pertinent to the issues as most of the other testimony for the defense now taking in Brooklyn. It relates to a conversation with Frank Mouton only the other day. A gentleman met the Mutual Friend on the street, when the following colloquy occurred:

Accoster.—How are you, Mouton? How is the Beecher trial coming on? Mouton.—All right I guess. Accoster.—How is it coming out? Mouton.—Can't tell.—Hope it will go for plaintiff, however, for that will please Tilton and won't hurt Beecher. Accoster.—Why, how's that? Mouton.—Whatever happens, Plymouth Church can't afford to ship Beecher.

Accoster, (astonished).—Even if he is convicted of adultery? Mouton, (philosophically).—You see it's their way. Popular preachers are like good cooks. A good cook will get drunk and a popular preacher will commit adultery.—Y. Y. Sun.

THE GUILTY ONE.—An exchange says: "We expressed no opinion in relation to the Beecher-Tilton case but judging from the opinions of others, especially the ladies, we conclude that Beecher is innocent and Mrs. Tilton guilty."

WHAT IT COSTS TO BE A LOAFER.—Does the young man who persists in being a loafer ever reflect how much less it would cost to be a decent, respectable man? Anybody can be a gentleman if he chooses to be, but it is expensive being a loafer. It costs friends. Your consorts will be only the buccannery of society. It costs health, vigor, dignity, self respect, and the respect of the world when living, and finally all regret and consideration when you are dead.

Veritas.—The only known and sure Remedy for Tumor of 12 Years' Growth Cured by Radway's Resolvent.

DR. RADWAY.—I have had Ovarian Tumor in the ovaries and bowels. All the Doctors said "there was no help for it," and I tried every thing that was recommended, but nothing helped me. I saw your Resolvent, and thought I would try it, but had no faith in it, because I had suffered for twelve years. I took six bottles of the Resolvent, and one box of Radway's Pills, and two bottles of your Ready Relief, and there is not a sign of tumor to be seen or felt, and I feel better, smarter, and happier than I have for twelve years. The worst tumor was in the left side of the bowels, over the groin. I write this to you for the benefit of others. You can publish it if you choose. HANNAH P. FOSTER.

DR. RADWAY'S PERFECT PUGATIVE PILLS perfectly cleanse, purge, and sweeten the blood, purify, regulate, purify, cleanse, and strengthen the Stomach, Liver, Bowels, Kidneys, Bladder, and all other organs, Headache, Constipation, Costiveness, Indigestion, Dyspepsia, Biliousness, and all other ailments of the Internal Viscera, warranted to effect a positive cure. U. S. Marine Hospital! PORT TOWNSEND, W. T.

Any sick Seaman who has paid Hospital dues for two months preceding his application is entitled to Hospital relief free of charge.

THE ABOVE INSTITUTION HAVING BEEN placed on a permanent footing, as the United States Hospital of Marine Patients on Puget Sound, the Proprietor takes pleasure in announcing that no pains or expense will be spared in ministering to the comfort and convenience of private patients.

This is the largest General Hospital north of San Francisco, and by far the most complete in equipment. It has been thoroughly refitted and furnished with the most modern and complete apparatus for about one hundred patients and is peculiarly adapted for cases requiring the most careful treatment and constant supervision at limited expense. Those who desire them will be furnished with private room, entirely separate and distinct, at a slight additional cost. The attention of Mill owners, and those interested in shipping, is called to the fact that seamen suffering from contagious diseases will be treated outside the Hospital without expense to the vessel.
