COMMERCIAL ST., BETWEEN
MAIN AND JACKSON
SEATTLE, W. T.

TO MEET THE PRESSING WANTS OF
many persons on Puget Sound needing
Medical and Surgical aid, and for comfortable
rooms, good care and Moderate Prices, I
have fitted up a Hospital, where every con-
venience and comfort will be provided in con-
nection with experienced and skillful Medical
and Surgical attendance.
We aim to make this a permanent Institution,
and to give special attention to cases of frac-
ture and injuries of all kinds that are constantly oc-
curring in the saw mills, coal mines and log-
ging camps surrounding us.
Seattle being centrally located, with regard to
these interests, and more accessible than any
other point, we mean with the aid of these ad-
vantages, and by giving personal and thorough
attention to its entire management, to build up
an Institution indispensable to the sick and dis-
abled who have no homes, and worthy of their
confidence and that of the public.
The Hospital is in a pleasant and healthy lo-
cation, the rooms neatly and cheerfully fur-
nished.

UNMERITED CENSURE.—The nomination of Gen. R. H. Milroy as Assessor of Internal Revenue, has excited more surprise and created more popular indignation than any event of the kind which has ever happened in the Territory, and we are sorry to see so many intelligent men allowing their excitement to so far dominate their reason as to charge the responsibility of this offensive appointment to Judge Jacobs, our Delegate, for which there is not a shadow of proof, as a glance at the circumstances will show. The nomination was made instantly on the receipt of the telegraphic announcement of the death of Mr. Giddings, the incumbent of the office. The body of the deceased was not yet cold and had not yet been prepared for the grave, when the nomination of his successor was made by the President. The Delegate had a right to expect that he would be consulted in a matter so nearly affecting his constituents, and a sense of decency would naturally restrain him from acting in hot haste. Summarily seizing upon the effects of the deceased, pending the funeral ceremonies, when no public emergency demanded hasty action. Not so, however, the friends of Gen. Milroy, Senator Morton and ex-Senator Pratt, who were on the alert to provide for an impetuous and decayed personal and party friend, at the public expense—the Territories being regarded by Washington politicians as a legitimate field upon which to quarter decayed politicians. The Delegate was not consulted when Gen. Milroy was first sent to this Territory as Superintendent of Indian Affairs, and the Delegate, with no vote in Congress, cuts but a small figure against the demand of Senators for places for their friends. Can any one recall a single instance where a Delegate controlled a leading Federal appointment in this Territory against the demand of a Senator or other Member of Congress? The President, we are credibly informed and believe, sincerely desires to fill all Federal offices in the Territories by citizens thereof, and in all such cases he concedes to the Delegate the naming of the candidates; but the President himself is only the creature of political and party necessity. The success of Administration measures depends upon Congressional support; all his appointments upon Senatorial confirmation, and Senators and Members, in all matters of official patronage, are not above demanding reciprocity as a condition of their support.

appointments and jobs. Judge McFadden with genial qualities well calculated to command influence, allowed his political vanity to get the better of his sounder judgment, by permitting himself to be presented in Congress as the representative of a party triumph over the ruling majority. Judge Jacobs has thus far made no such mistake. He has not identified himself with any personal or factional intrigues looking to Federal office or patronage, and has done nothing to make himself offensive as a partisan. That he has labored with untiring energy and zeal for the best interests of his constituents, promptly attended to every demand made upon his time and attention and won the confidence and respect of all with whom he has come in contact, we have abundant proof. If the result of his labors have not thus far been made manifest to the public, there are abundant reasons for that which no man, under the same circumstances could have avoided. He entered Congress at a time when the investigations of the present Administration and preparations for the election of next, in neither of which he has any vote, were the absorbing and overwhelming matters under consideration. All that could be done he has done with sincere will and honest purpose, and has thus been preparing himself for future usefulness which can only be thwarted by the mistake of his constituents in insisting upon a change to some new man who would have his lesson to learn without promise of any better results.

JUDGE JACOBS AND THE N. P. R. R. CO

Some time ago Judge Jacobs addressed a letter to the management of the Northern Pacific Railroad Co., suggesting a certain reform in a matter in which his constituents are largely interested, and received a favorable reply as will be seen by the correspondence printed below. The resolution referred to by President Wright was subsequently passed and has been published, in which the Company stipulate to perform all that was asked by our delegate, and which will meet the approbation of every citizen of Washington Territory:

WASHINGTON, D. C., Feb. 2. HON. C. B. WRIGHT, PRESIDENT N. P. R. R. CO.:

SIR:—There is much complaint and a great deal of dissatisfaction in my Territory at a seeming want of disposition on the part of the Northern Pacific Railroad Co. to recognize the prior and first rights of those settlers who took up claims under the Homestead and preemption laws, within the limits of the Railroad grant, after the filing of the map of the line in the office of the Commissioner of the Public Lands, but before the actual notice thereof had been received at the local land offices. An early recognition of the paramount rights of these settlers by the Company you represent, I am satisfied, would be promotive of the best interests of the Company.

There are also a few persons, who in good faith, made cash entries of land within the limits of the grant, during said time. Their money has been within the coffers of the Government from three to five years, while their certificates of entry are held for cancellation. As the quantity of land so enclosed is but small and the company can take other land in lieu thereof, I see no reason why the Company should not do so. By so doing the new organization would establish a reputation for justice and fair dealing honorable to themselves and satisfactory to the public. Yours Respectfully, O. JACOBS, M. C., W. T.

NEW YORK, FEB. 3, 1876. HON. ORANGE JACOBS, DELEGATE IN CONGRESS FROM WASHINGTON TERRITORY.

Dear Sir: I have your letter of the 2d inst., in which you present the claims of many of your constituents who have settled on lands within this Company's grant, in Washington Territory. They are justly entitled to consideration, and shall receive it. Our Board of Directors will meet on the 16th day of February, when I will lay your letter before them, and have action taken on it. This will probably be in the form of a resolution to relinquish in favor of actual settlers, any lands of this Company not patented, now occupied by and in the actual possession of bona fide settlers, whose entries or filings under the Homestead or Preemption laws were allowed before the time when the Company's right attached, and the notice of withdrawal was received at the District Land Office. I will send you a certified copy of this resolution when it is passed. I am most respectfully yours, C. B. WRIGHT, Pres.

Gold closed at 112 1/2 @ 112 1/2. PHILADELPHIA, April 28.—At the evening session of the Centennial Commissioners, it was decided to close the exhibition grounds on Sunday; but as a compromise, the grounds will be open to the public on that day, free.

WASHINGTON, April 28.—The Herald's Washington special says: A good deal of remark has been occasioned here by the fact that Boutwell, Chairman of the Senate Committee to investigate the political affairs of Mississippi, has begun the work by calling ex-Governor Ames to testify. Ames was recently impeached by the Mississippi legislature. He is now called to impeach Mississippi.

The investigation of the New Orleans Custom House will create no little excitement. It is charged that a false roll of imaginary persons had been kept, whereby from ten to twenty thousand dollars had been nominally expended to pay certain employees. It is also alleged that this roll is now missing.

No late reports of outrages upon American citizens on the Rio Grande. The latest advice to the War Department relative to affairs in a better condition.

Next week the Attorney General will present to the Cabinet, the result of his examination of the law on the question regarding the submission of original papers in Executive Departments, to Congressional Committees.

The Treasury to-day received \$20,000 in silver 20 cent pieces which is being exchanged for fractional currency in the same manner as our coin.

SAN FRANCISCO, April 28.—The Panama Railroad Company have attached the stores of the steamer City of Panama, and will do the same with all the Pacific Mail steamers themselves without filing bonds of indemnity.

It is reported that Dom Pedro will start East direct to-morrow morning instead of visiting Virginia City mines, as was originally intended; but it is difficult to prophesy his movements as he keeps his own counsel very closely, his own suite being often in ignorance of his intentions. Dom Pedro visited the stock board this morning about the time the California was being called and was lustily cheered by all hands. He remained during the call of a couple of weeks.

The Virginia City Enterprise of Wednesday referring to the recent break in the stock market says editorially: A gentleman connected with that paper well versed in mining affairs, within a few days made a thorough examination of Consolidated Virginia and California mines, and reports them looking as well or better than a year ago. The article continues in effect, it is well understood in Virginia City that a drop in the market about this time would be a big thing for Keene who well understands the power of a well told lie on so excitable a subject as the stock market.

BERLIN, April 28.—A dispatch from Vienna says the Forté has sent a circular note to its representatives at various European Courts asking for military assistance to suppress the insurrection and citing as a precedent the suppression of the Hungarian insurrection by Russia in 1849.

The Austrian troops in Delmatia are being increased to 400,000. 29th.—A Vienna correspondent telegraphs the insurgents are willing to permit the Montenegrins to revictual Niscic if the Forté consents to a fresh armistice and pledges itself not to reinforce its troops during the armistice. The Forté persists in revictualing Niscic by force. Peace depends on the Forté. A telegram from Athens says: Although the Forté had been induced to abandon the immediate attack on Montenegro, he will concentrate 40,000 soldiers at Scutari and 50,000 in Herzegovina. The public of Turkey is weary of diplomatic interference. The government object seems to be only to gain time to assemble forces and strike a blow regardless of the consequences.

The government is exhausting its resources in warlike preparations and declares it can pay nobody.

NEW YORK, April 29.—Commodore Vanderbilt is failing fast; his physical constitution is rapidly going to pieces. He has suffered from hemorrhage half his life but the real causes are more deep ly seated. Vanderbilt being noted for his caution in all business affairs for years, has been prepared to resign his post, and so complete are all his arrangements in this respect, that it is believed, that notwithstanding his great influence in the business of the country, his death would have but little effect on the stock markets. The stock which he holds in the New York

Central and Harlem railroads, would not, it is said, be thrown on the market within one year after his death if at all.

In the race yesterday between Stoton English by Circle Champion, and the horse White Cloud, five mile race, horse won easily.

The Herald's Washington special says: The passage of the legislative appropriation bill shows that the House means to expediate business and hopes to adjourn the second week in June. The question, however, is complicated with the impeachment trial. If, however, it is delayed longer, a recess is probable to enable members to attend the convention.

LONDON, April 29.—The failure of another broker was reported on the Stock Exchange to-day.

The Great International Steeple Chase took place to-day at Sundown Park, Chimney Sweep was winner, Palm second, Shiffault third. Six stated. The last betting was 2 to 1 against Chimney Sweep, 3 to 1 against Palm and 8 to 1 against Shiffault.

ROME, April 29.—Respecting the secret conference between the representatives of the great powers and several influential members of the Sacred College, with the view of ascertaining the best means of ending the conflicts between church and state. It appears allusions was made to the possibility, in event of a vacancy occurring in the Holy See, of the election of a Pope, favorable to a conciliatory policy. The cardinals replied by continued the print-excellence of the Pope's health and the consequent improbability of a speedy vacancy. In conclusion they stated that the respective governments would be convinced, that considering the universal unanimity of the Catholic Church, the future Pope would in no wise alter the present policy.

BERGAMO, April 30.—It is stated in government circles that the militia have been ordered to supply themselves with a weeks provisions and hold themselves in readiness to march at 24 hours notice.

VICTORIA, April 28.—The steamer Grappler leaves here to-morrow evening for Fort Wrangle with Cassiar bound miners, connecting with the steamer Gertrude on the Stickeen river. She will be followed by the steamer California on or about the fifth, and the Otter on the sixth of May.

It is understood that two surveying parties will go out early in May for the purpose of resuming surveys from the interior. That one or two more parties will proceed to Black Water and operate towards the seaboard, and that a third party will be placed on that portion of the line between Telegram Creek and Port George. It is also stated that one or more parties will be placed on the line through the Frazer river canyons.

NEW YORK, April 29.—Gold closed at 112 1/2 @ 112 1/2. Tilden's prospects for the Democratic Presidential nomination are considerably improved by the action of the New York State convention. Tilden is clear, by the choice of his party here, and if nominated at the National convention will get the entire party vote of the State. In this respect his case is the reverse of Conkling's, whose nomination would divide and not unite the Republicans. Bayard says he cannot expect much from New York, when it has Tilden to offer, whom the regards as a man of unquestionable ability, and believes him to be so regarded by the country.

Blaine's campaign seems to progress

favorably, as Carl Schurz says of Bristol, he emerged from his mud bath of scandal stronger than before. Conkling develops little added strength.

Vice President Huntington denies that the C. P. R. Co. is engaged in efforts to make peace between the Pacific Mail Co. and Panama Railroad.

The gold gamblers have been busy the last day or two circulating in Wall street the wildest stories about the panic in the California Stock market, but little effect.

NEW YORK, April 30.—Henry P. Han na died at New London, Conn., to-day. He was the Republican candidate for Governor of that State in 1873, and Presidential Elector the year before.

For 40 years he has been extensively engaged in the whaling business, and latterly, in connection with San Francisco parties, has controlled the Alaska seal business by contract with the Government.

Richard M. Corwine, formerly of Ohio, died last night.

Justice Dowling, of New York, is dying.

Sargent's speech on the Chinese question will be delivered early next week. He is sanguine that by the thorough persuasion of the subject which he proposes to make to the Senate, important action as party of the treaty making power can be secured to accomplish the desired result.

PHILADELPHIA, May 1.—The following is the first official announcement of the Director General as to the opening day, the 10th instant: General Order, No. 1.—The exhibition will be open to the public on Wednesday the 10th in the afternoon. Exhibitors are notified that their shelves and exhibits must be placed in order not later than Monday evening the eight instant, so that avenues and public passage ways may be cleared upon the 9th; all exhibits must be unremoved and exposed at 9 o'clock Wednesday morning the tenth. Signed A. T. Goshorn, Director General.

NEW YORK, May 1.—The Tribune's Washington special says, should the Senate decide it has jurisdiction in the Belknap matter, it is understood he will have no difficulty to prove in an action before the Court on his indictment that Clymer guaranteed immunity if he resigned. Clymer denies any such guarantee, but he told another member of the Committee he should recommend Belknap's impeachment if he was in office at noon the next day. His remark was not officially made as Chairman and therefore is not binding.

Banks will introduce a bill to-morrow to utilize the product of gold and silver mining in the United States. The notes issued on this system would have a purely representative character, and the currency would be actual put in circulation not by the Government but by the owners of gold and silver bullion.

The amount of currency which would be issued under such a bill as the amount of bullion in the country at any given time, which as long as it remains in the United States and was not exported or used in arts would be available as a circulating medium.

The Pacific Coast Centennial Committee held a meeting to-day at 10 o'clock, for the purpose of placing the balance of work in the hands of the executive committee of five, and relieving the general committee from further responsibility in it.

The attachment placed on the stores and coal of the Pacific Mail steamer Alaska on Saturday, was released to-day on a bond of \$27,000, to enable her to sail for China and Japan.

Platt Burr, of Portland, Oregon, has brought suit before the register in bankruptcy, against the Nevada and Northern Telegraph Company, to recover \$28,750 alleged to be due him on the construction of the line from Winnemucca to Portland. The act on which the bankruptcy of the company is predicated, is the attachment on the company's office at Portland, by Ladd & Tilton.

NEW YORK, May 2.—The sub-committee of ways and means investigating the Alaska matter to-day took the testimony of Louis Goldstone of San Francisco, who says he was the lowest bidder and should have been awarded the lease of the fur islands. Senator Boutwell appeared before the committee and at the conclusion of Goldstone's testimony stated the reasons which controlled his action, as Secretary of Treasury, in giving preference to bid of Alaska Commercial Co. Both witnesses referred to the executive documents published by a former Congress as containing the full transaction of the various bids, papers, and correspondence relating to the matter which are now on file in the Treasury Department. Nothing additional of importance was elicited to-day.

TAOY, N. Y., May 2.—The democrats

to-day elected the Mayor and 5 out of 7 of the Councilmen. Election hotly contested. Democrats were successful for the first time since 1868.

NEW YORK, May 2.—Commodore Vanderbilt and Justice Dowling at the improvement.

UTICA, N. Y., May 2.—The Herald of this city having published the names of certain delegates to the democratic national convention as in favor of the nomination of Horatio Seymour and against Tilden, the former writes to say that he could not accept the nomination even in the improbable event that one should be tendered, and that he knows the delegates mentioned are Tilden's earnest supporters.

PHILADELPHIA, May 2.—It is now estimated that nine-tenths of all exhibits for the Centennial Exhibition are now in place in the different departments, and that the schedule will be completed in the next few days.

INDIANAPOLIS, May 2.—The republicans carried the city election to-day by a large majority; electing 11 out of 13 councilmen. After the closing of the polls a severe fight was commenced near the sixth ward voting place, which was continued northward on Illinois street to the vicinity of the Grand and the Bates hotel when it assumed the character of a riot lasting for 20 or 30 minutes, probably fatally injuring two men, and several others are known to have been taken to their homes more or less hurt.

WASHINGTON, May 2.—The Senate confirmed E. P. Perry, as Governor of Washington Territory.

The President transmitted to the House to-day, the report of the President of the Centennial Commissioners, upon the ceremonies to be observed at the opening of the exhibition on the 10th, and calls attention to the invitation extended to the Senators and Representatives.

The Times editorial says: The statement on the part of Blaine is so clear and conclusive, that it is a pity he did not give it to the country sooner. He hardly needs to have feared that the public would confuse it with the other which he has already made. The news papers generally believe Blaine's defense complete.

This afternoon Blair made an elaborate speech, and it must be admitted a conclusive refutation to the House of the story that he had improperly used a number of Kansas Pacific bonds. The evidence shows that the man who organized the story had admitted his mistake. The day closes here with Blaine's skirts clearer than the rest of the involved republican presidential candidates. Blair made here that Belknap will not be punished at all, even some democrats will vote against jurisdiction. The case has been badly damaged owing to Clymer's inconsiderate zeal to make a cheap reputation. The grand jury had not indicted Belknap, and it is doubtful if they will.

SAN FRANCISCO, May 2.—Legal Tenders 90 1/4 buying; 91 selling. No gold reported.

ANTIOCH, Cal., May 1.—On Saturday morning, thirty-five or forty citizens proceeded to the Chinese dens and notified them to leave town before three o'clock as trouble would ensue. This they all promised to do and several of them started up the river in a sail boat, while others taking steamer for San Francisco. Saturday afternoon a woman returned which roused the excitement. About 8 o'clock P. M., Sunday, Chinatown was set on fire; but little was done to stay the fire and all but two of the buildings were destroyed. The inmates fleeing terror stricken. Antioch is now free from this degraded class. Cause of excitement was that several people had visited a Chinese house of prostitution and were now under doctor's treatment.

FRAUDULENT TRUSTEES.—From the N. Y. Herald of a late date we call the following:

It appears now that Mr. Barrett, who recently absconded from this country in default to several estates, had also raised money by forgery, and this offence is included in our extradition treaties with England and France. Should he, therefore, be found in either of those countries, he can be returned and dealt with according to law for the crime of forgery. For the other offence, however—the greater crime—he would still be out of the reach of Justice. Here is the starting contrast—the wicked inequality of the law made painfully clear. For twenty thousand dollars wrongfully obtained from one source this man could be sent to the State Prison for perhaps fourteen years. For one hundred thousand dollars, perhaps two hundred thousand, wrongfully obtained from another source he cannot be punished in any way whatever. He robs a steamship company and it is a crime; he robs families, orphans, widows, and it is a kind of misconduct, an impropriety, whatever you choose, but not a crime. Now, which of the two—a powerful corporation or an orphan child—needs most the protection of the law? Why should the law unequally protect one person's property and not another's? Can any one give any good reason why a man should be punished for offences against those who are altogether helpless? This defect in our law should be remedied. We are in this respect behind the world. In other civilized countries dishonest trustees are punished, and in England the penalty extends in some cases to transportation. That such offences are not punished here is a shame to our justice.

AN ACUTE WITNESS.—Lyman Tremain was cross-examining, lately, a colored man, Aurelian Peek by name, a witness in the trial at Johnston, N. Y., of Smith for the murder of Yost, when the following queer dialogue occurred: The witness had testified that he had once been in business on his own account in Utica. 'Did your business break up?' inquired Mr. Tremain. 'No, sir, it busted up,' was the sable witness' reply. 'You say you have a brother-in-law at Fort Plain; is he also a colored man?' inquired Mr. Tremain. 'He couldn't be my brother-in-law and be anything else,' replied Peek. 'It could not be strange if he were a white man; the white and colored races often marry and intermarry,' replied Mr. Tremain. 'That is only done among the Republicans,' responded Peek. This, of course, 'brought down the house,' the court and the prisoner joining in the laugh.

WHEN a young man who has just reached the years of goslinghood, has his boots blacked regularly twice a day, puts on a new paper collar before each meal, trims his finger nails every half hour, keeps his three-jazz power moustache perpetually dyed and scented, and his hair solemnly done up and elaborately parted behind, with semi-occasional practicing of graceful attitudes and seductive smiles in the reflective bottoms of new tinware, you can bet your last trade-dollar that some girl's heart or his is in a state of gentle kerfummixment.

THE Louisville Courier-Journal perpetrates the following: Gen. Schenck got to Washington on Monday night, and Fernando Wood had a party of five made up to meet him. 'My dear friend' said the ex-ambassador, 'I really cannot play.' 'Oh, nonsense,' says Fernando, 'that little investigation needn't trouble you.' 'But,' says Robert, 'there is another reason why I shouldn't play.' 'What is that?' says Fernando. 'I haven't got any money,' says Schenck. 'Ah!' says Fernando moving mournfully away.

In an adjacent town, the other morning, an absent-minded New York lady visitor left her hotel to do a little shopping, forgetting to remove her crimping tins. That afternoon eleven young lads promenaded the streets with a halo of tinware around their heads, enjoying the proud consciousness that they were up to the latest style.

A Boston pawnbroker has got into trouble by receiving a stolen dog. You may steal a Bostonian's diamond pin; hurry off his youngest boy for a Charley Ross, and forge away his entire bank account, but just lay your hand on his valuable dog if you want to discover the spirit of Bunker Hill.

The statement is made that the largest annual salary paid a choir organist in New York is \$2,500, and the largest paid a singer is \$1,500, while the total amount paid by churches for their choirs is not less than half a million dollars a year.

A school teacher got the boys down on him by taking their apples away from them when they had them around, in school time, and eating them himself, but he looks at them very carefully since he is one charged with red pepper.
