BERIAH BROWN EDITOR Seattle, W. T., May 20, 1875.

COUNTY AFFAIRS.—It will be recollected that we were severely censured and accused of falsification, last summer, by certain parties, for our statement that the County was greatly damaged by a transaction between the Commissioners and John W. Pinnell, in the sale of the county farm and the purchase of two city lots, ostensibly for a site for county buildings. That transaction, as shown by the records, was as follows: The Commissioners purchased of John W. Pinnell two city lots for two thousand dollars; the County farm was conveyed to Pinnell for one thousand dollars of the purchase price, and the other thousand was to be paid in gold coin. Pinnell immediately conveyed a portion of the County Farm, containing a stone quarry supposed to constitute the chief value of the farm, to Mr. A. Mackintosh. The following appears in the published proceedings of the new board of Commissioners at their recent session: "In the matter of J. W. Pinnell vs. County Farm, a written agreement was signed by the Court and said Pinnell to the effect that King County deeds back to said Pinnell Lots 7 and 8 in Block 19 of D. S. Maynard's plat to the Town, now City, of Seattle, free from all incumbrances, and issues to said Pinnell retail liquor licenses to the amount of six hundred dollars in currency, and the said J. W. Pinnell deeds back the County Farm, less the tract sold to A. Mackintosh, to King County free from all incumbrances; said agreement to be fulfilled on or before the 20th day of June, 1875."

Whether Pinnell relinquishes to the County the one thousand dollars in coin part of the consideration or not, does not appear from this record. If he does then the County is only damaged by the previous transaction in the amount of six hundred dollars in currency, which Pinnell gets, and the valuable portion of the County Farm which Mackintosh gets. That the present Commissioners have made a good bargain for the county, will be generally conceded by those best acquainted with the value of the property. Our former comments upon this matter are fully justified in every particular. Further discussion is unnecessary.

The following letter explains itself:

To the editor of the Tribune: Sir:—In your report of the election of officers of the Congressional Union, in your paper of Friday last, it was stated that the Rev. Dr. George B. Bacon declined reelection as a trustee of said society because of his objection to Henry C. Bowen as a member of the Board, and that I was chosen in his place. I was not present at that meeting, nor did I know of my own election until I saw the report in the Tribune. Allow me to say, therefore, that I most heartily sympathize with the action of my friend Dr. Bacon. For the same reasons that led him to decline a reelection, I have declined to become his successor, and I ask the privilege of this statement because one less public might lead some to think that Dr. Bacon stands alone. I believe our Churches are with him; at least it cannot be doubted that they would prefer to have their contributions dispersed by men of unquestioned Christian character. (Signed) A. H. The United Kingdom alliance for the suppression of the liquor traffic, gave a breakfast today to Neal Dow, who is about to sail for the United States. Sir Wilfred Lawson, Bart., Member of Parliament, the President of the association, presented Neal Dow with a farewell address.

The Mark Lane Express, in its review of the breadstuffs market says that there has been a marked improvement in the temperature the past week, reaching the highest point attained in the summer, and changing the face of the country. This coming on a dull market made business still more difficult. Had high prices been paid a smart decline would have followed; but at the present rates there is no room for statement. All over Europe a beneficial change has been felt but the markets are little altered in prices, perhaps a shilling lower.

BARCELONA, May 18.—The government forces gained an important victory at Montorat and captured formidable positions of the Carlists on the mountain, with the loss of only 93 killed and wounded.

OFFICIAL PAPER OF THE CITY.

Seattle, W. T., May 20, 1875.

RACES.—The American horses Oceola, Tom Merry and Confidence, are announced to run on the Beacon Hill course Victoria, on the 22d inst.

Col. Lane, who arrived on the Otter from a prospecting tour to the Queen Charlotte Islands, brings very encouraging news from that quarter of valuable quartz reefs.—Colonist.

TWO FAVORITE SOLD.—On Saturday the steam-tug Favorite was sold, in satisfaction of debt, by the United States Marshal. The boat was "knocked down" to Mr. John Nation for the sum of \$2,900, who bid for Captain D. B. Finch, of the Sound.—Oregonian.

The Richard K. Ham, Capt. Gove, arrived in Port Blakely on Saturday morning with seven emigrant passengers from Wisconsin and a large amount of freight. Amongst the freight was a new boiler for the mill at that place, which immediately suspended operations to put it in and this morning started up as usual.

In the Oregonian appears a letter from Seattle, signed "Northwest," in which occurs the following: "Messrs. Mason & Hamlin's hardware store is a very complete establishment; they do a large business in their line." We suppose the correspondent refers to the establishment of Messrs. Crawford & Harrington.

WONDERFUL!—Mr. L. B. Andrews has held the office of Clerk of the United States Court for this District for many years. On turning over the office to his successor, he voluntarily accounted for and surrendered every article and item of stationery in his possession which had been purchased with public money. This is a most remarkable case, which deserves public mention.

MONTE SHARPS.—From the Idaho statesman of May 8, we learn that two of the monte sharps that late afflicted Seattle with their presence, a part of the gang of the notorious McDonald, stayed it on a Malad man to the extent of \$500.

Two more of the same gang, one of them being Duffy, well known here and at Victoria, victimized Mr. Graves, the hotel proprietor at Salem, Oregon, out of \$55 and their board.

NOTICE TO TAX-PAYERS.—The City Assessor of the City of Seattle, having filed the city assessment roll in the Clerk's office, the said roll will be open to the inspection of all parties, until the 29th of May 1875, when there will be a meeting of the City Council for the purpose of the equalization of said Assessment.

By order of Council. W. R. ANDREWS, City Clerk.

FROM KLIKTIAT.—Mr. H. Chambers of the firm of D. J. Chambers & Co., of this city, arrived from the lower Yakima and Klikitiat country on Saturday last, bringing about thirty five head of beef cattle for this market. He purchased eighty-five head more, to arrive here in a few days. Mr. Chambers reports the grass good in that region, and stock all doing well. A good rain, an unusual matter for this season of the year, had just fallen, which will undoubtedly secure them fine crops this season.—Transcript.

How TRUE PUT IT.—This is how an Olympia paper puts a homicide at Tacoma. Human life must be cheap across there: "A man by the name of 'Brownie' was shot and killed at Tacoma, last Thursday, by J. R. Ralston. It is supposed that Mr. Ralston will not be brought to trial for committing the act, as 'Brownie' was the aggressive party."—Colonist.

LOUISVILLE, Ky., May 12.—A Lexington dispatch, just received, says John C. Breckenridge is sinking rapidly and death may be expected any minute. A difficult surgical operation was performed upon him yesterday by Dr. Hayes of Philadelphia, and Dr. Sayres of New York, which it was hoped would afford him permanent, or at least temporary relief, but since morning he has been failing. His physicians think his illness is the result of a blow received from a fragment of a shell during the war. He is now sinking rapidly and death cannot be long delayed.

Some of the distillers whose property has been seized threaten to bring suits for damages.

HUNTINGTON, Pa., May 12.—About 900 men and women went to Fishers & Whitehead's mines today and compelled the miners to suspend operations, and then sacked their houses and appropriated valuables. The strikers have become ungovernable and declare that all new men must and shall leave that region. If the men had resisted blood would have been shed freely. The Sheriff had promised to be in attendance to protect the new men, but, owing to some cause not fully explained he did not come. The successes of the mob for the last 2 days threatens to cause the suspension of business. Miners propose to clean out every bank operated.

CHICAGO, May 12.—A Washington special asserts positively that Secretary Fish's retirement from the Cabinet, at the close of the present year, is certainly determined on; and quotes from an editorial in the National Republican, which the correspondent says emanated from the White House, which reviews, in highly complimentary terms, Fish's record as Secretary, and plainly intimates his retirement as a settled thing.

A searching investigation will be made into the conduct of supervisors and other prominent Internal Revenue officials, and all against whom charges have been or may be preferred, with a view to secure the prompt punishment of the guilty parties engaged in the whiskey frauds.

BERLIN, May 10.—The Czar arrived here to-day and was received at the railway station by Emperor William and Princess of the Emperor's family. Generals VonMoltke, Manteuffel and other distinguished personages. The Emperor's greeting was exceedingly cordial. An immense crowd gathered around the station and cheered enthusiastically. The city is decorated with flags. The Czar, accompanied by Prince Gortschakoff, has visited Prince Bismarck.

LONDON, May 10.—The Times in its leading editorial says: "We believe the Czar is resolved to hold most decided language in favor of the maintenance of peace and the use of every effort to put a stop to the present alarm. A few days will probably bring forth official disclaimers of the recent reports. It is possible it will be said that there is nothing to justify French apprehensions but there should be no mistake on this point. As long as the present conditions remain there must be uneasiness, even danger, an unforeseen incident or an outbreak of jealousy may precipitate a rupture. The Czar is unable to guarantee that France will not attack Germany within a few years. Gigantic armaments are a mutual menace while they exist. It is beyond the power of even Imperial peacemakers to allay apprehensions."

RIO JANEIRO, South America, May 11.—Advices from Buenos Ayres state that the President opened the Chambers with a speech in which he proposed amnesty for political offenses and announced all difficulties with foreign powers will be settled.

The Dutche Allegemere Correspondent which is considered a well informed journal says the expediency of mobilizing the German army was seriously discussed here during the visit of the Emperor of Austria. As Austria and Italy do not at present seem inclined to join France apprehensions are allayed. The military affairs of France and Belgium and the movements of the ultimatum are still closely watched from Berlin.

There is a general recognition that Germany's temperate policy in this is the best guarantee that an understanding will be effected and all fears dispelled.

New York, May 13.—There is much doubt as to what will become of the negotiations between the Panama and Pacific Mail Companies, although the friends of each side insist that there is no serious obstacle to a satisfactory understanding and that the delay in reaching that end will be but temporary. Negotiations were yesterday said to be off entirely.

TOLEDO, May 13.—The Blade publishes an elaborate wheat report compiled from statements from fifteen points in Ohio, Indiana, Illinois, Missouri, Kansas and Iowa indicating that there has been a quarter to a third of the winter wheat crop was killed, but which is nearly offset by the increased number of acres sown and that the quantity of spring wheat put in, if everything keeps favorable, brings the whole production up to the average crop. One fourth of last year's crop remains in farmers' hands. The amount of corn put in this year greatly exceeds last year.

This service, which has heretofore been semi-monthly, will under the new contract be semi-monthly during 6 months and weekly during the remainder of the year.

BE KIND TO THE LITTLE ONES.—We heard two old fossils yesterday exchanging falsehoods about the days of their childhood. One said his father was an old Puritan fraud, whose shoe squeaks were more terrible than an army with banners, who read his Bible on the Sabbath, and would not let him play, though the boys were outside and the birds and the sunshine. He continued: "After a while the old man died, and though I pretended to be sorry I was glad enough."

The other said: "My father was my God in my childhood. I heard him, when I was about eight years old, tell a neighbor he was going to send me to college, though he had not much hope of me for he thought there was nothing in me." He continued: "I believed him then, and it benumbed me; I was a dozen years in awakening, and when I did, though my father was dead, I listened to these old frauds, who thought we would put down their words, and make it occasion to say to parents, be very tender to your children; they will have sorrow enough; let their morning be sunny, and after you shall have gone back to dust their lips shall bless you, and with trembling voices they will say your lives were a treasure and death an endless regret."—Nevada Enterprise.

LONDON, May 14.—Boytton will make a second attempt to swim across the channel on the 28th inst.

The Panama has discontinued from further consideration the freights, and the Pacific Mail managers don't seem disposed to grant any concession. The Panama directors at their meeting rejected the propositions of the Pacific Mail Company. The differences between the two companies relate to the character of manner in which settlements shall be made and restrictions on passengers and baggage over the Panama railroad.

CHICAGO, May 14.—The order of Judge Blatchford, of the U. S. District Court, for the sale at auction of the Northern Pacific Railroad was on the order of Jay Cooke and Charlesmagne Tower, holders of the first mortgage bonds. The sale of lands and land grants and other property in the several States and Territories in which they are located, will be held on the first Monday in August at the Custom House here.

Reports from portions of Minnesota, Missouri, Kansas and Nebraska state that grasshoppers are already devastating the country of every green thing and that farmers are greatly discouraged. The pests seem to be young, at least they are very small ranging from the size of a flea to that of the common house fly, but their destructive powers appear quite as great as those of the full grown insect. Gentlemen who have recently made a tour throughout Southwest Missouri says the grasshoppers are devouring every thing green in that section. The people are panic stricken. Cattle and horses are dying by hundreds of starvation. They can find nothing to eat, not even in the wood, as the grasshoppers have eaten the leaves of the trees. In Minnesota, the investigation by the reporter of the St. Paul Press, sent out especially for the purpose, shows, so far, only a portion of four counties are troubled with the pests, but the deposits of eggs are

found in other sections and serious damage to crops is feared.

WASHINGTON, May 14.—The whiskey frauds are still receiving the attention of the Treasury Department and Solicitor Wilson is continually unearthing new frauds. Further evidence was discovered to-day against the Union Copper Distilleries of Chicago and 150 barrels of spirits were seized at their works. Three hundred barrels were also seized in St. Louis on April 30th. Mr. Wilson called upon the Collectors of Internal Revenue in different localities to furnish certain information concerning the transaction in their districts but up to last night very few of them had responded and to-day the Secretary of the Treasury called upon them for an explanation of the non-compliance with the request for an immediate reply and caused a determination that all orders of this nature shall be obeyed or Collectors must take the consequences.

ROME, May 14.—The Senate have voted a national donation to Garibaldi.

BERLIN, May 14.—The inquiry instituted into the Catholic society of Berlin at the time of Kullman's attempt to shoot Prince Bismarck has been closed. The public prosecutor has made charges against their directors and the cases will come up for trial.

LONDON, May 14.—One of the Schiller's officers has informed a correspondent of the Standard that many persons on board the steamer were drunk when she struck and that several firemen and many steerage passengers lay helpless until they were swept away by the waves.

PROTECTION FROM FIRE.—In the Intelligence of to-day is a long editorial on this subject. It is stated that if the Council would pay half the expense necessary to the establishment of a fire department in this city the business men of the city would pay the other half. It also speaks at length on the necessity of a fire department.

While we thoroughly agree in the necessity of a fire department still we doubt if it can be accomplished. A little over a year ago, some thirty or forty young men met and organized a fire company and appointed committees to canvass this city for subscription to buy an engine. They received no encouragement whatever. Not a business man they saw would subscribe one cent. Upon this being reported the company disbanded. We do not think there is any more chance of raising the money now than there was then.

A good old Democrat of Chicago, when his beautiful and accomplished daughters asked him for fifty cents each to enter for a spelling tournament in which they were sure they would win the first prize—a copy of Webster—replied emphatically: "No, girls, no. It's a rascally Whig track—there's something under all this. I see that Webster once at Washington, when he was in Congress, and I never believed that he did hang him for murdering Dr. Parkman, but that his last words, 'I still live,' would yet come true. And they have, and he's just trying to work off some of his old spelling-book truck on the market. No, my dears, your father has traveled and is up to these games, but your sweet lives."

A witty editor, who had just failed, said he did it with all the honors of war, and retired from the field with flying colors—Sheriff's flag fluttering from two windows and the door, and a white flag hung out of his person as a token of surrender.

LIQUOR DRINKING.—The statistics for 1874 of the quantity of spirituous and fermented liquors imported into the United States, together with the home product of these articles, shows formidable proportions. The total cost of imported spirits to the consumer is placed at \$25,000,000, while that of domestic product is the astonishing amount of \$216,000,000. It certainly shows Americans to be great guzzlers, but whether from the fact of their being lovers of strong drink, or merely because they desire patriotically to add to the national revenues, is left for the reader to determine.

When Beecher declined kissing the Bible, on being sworn to testify, there was a sensation in the assembled crowd. It was a sensation of amazement. People looked at Elizabeth and then at the old greasy book, and wondered with much wonder if he could kiss the first, why not the last. But Mr. Beecher is an eccentric man of genius.

The saloon keepers of West Salem give notice to those persons who do not want liquor sold to their relatives, to leave the names of such persons with the Chairman of the Town Board of Hamilton, who will furnish them with a copy of the same for their guidance. The names so far furnished will be posted conspicuously behind the respective bars in the West Salem saloons, and the parties thus tabooped will not be sold liquors of any kind for "love or money."—Wisconsin paper.

A STORY OF A SCRUB WOMAN.—Employed as a scrub woman in the new County Court House was a woman named Mrs. Thompson, who once drove in her carriage and had her hired servants to wait on her. Her husband was the Mr. Thompson who took the contract to supply the marble for Stewart's new residence at Fifth avenue and Thirty-fourth street. The contract was made before the war, and resulted in the financial ruin of Mr. Thompson, whose mind became affected by his losses, and he died insane. Last week Mrs. Thompson was removed from her place as cleaner of the Court House by Commissioner Fitz John Porter, who doubtless was not aware of the circumstances above stated. The matter came to the ears of the Mayor subsequently, and he went immediately to the office of Commissioner Porter and had Mrs. Thompson restored to her humble position.—N. Y. Evening Post.

The Salt Lake Tribune says that a large number of people met at Laramie recently to witness the first rolling of railroad iron ever manufactured in the Rocky mountains.

It may be said that cigars, drink, fast horses, and rich suppers are the worst and most notable forms of extravagance. It is true these run many; but not any more than large outfit for fine houses, fine carriages, and dress do.—Evrevidence Journal.

I wretch, a friend of ours, broke off an engagement for the following cogent reasons: "You know a case is a fearful nuisance, and I always carry my keys loose in my vest pocket. The necessary amount of affection towards Molly was awful rough on 'em. Never came away from that house but every one of 'em was smashed. Couldn't expect a fellow to waste good tobacco that way, could you?"

A POISONER.—There may be seen daily on Chestnut street a man dressed in faultless apparel, with a great diamond upon his breast, vainly endeavoring to outglitter the magnificent solitaire on his finger. In a German University he learned chemistry, and not even Liebig knows it better. His occupation is the mixing and adulteration of liquors.—Give him a dozen casks of deodorized alcohol and the next day each of them will represent the name of a genuine wine or a popular spirit. He enters a wholesale drug store bearing a large basket upon his arm. Five pounds of ice-land moss are first weighed out to him. To raw liquor this imparts a degree of smoothness and oleaginousness that gives to imitation brandy the glossiness of that which is most matured. An astringent called cate-hu, that would almost close the mouth of a glass inkstand, is next in order. A couple of ounces of strychnine, next called for, are quietly conveyed to the vest pocket, and a pound of white vitriol is as silently placed in the bottom of the basket. The oil of cognac, the sulphuric acid, and other articles that give fire and body to the liquid poison are always kept in store.—Philadelphia Bulletin.

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable Preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of WALKER'S BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of WALKER'S BITTERS in healing the sick of every disease. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Biliary Diseases.

The properties of Dr. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Nutritious, Laxative, Diuretic, Sedative, Counter-irritant, Stimulant, Anodyne, and Anti-Bilious. Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

No person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs are not irremediably injured. Bilious, Remittent, and Intermitent Fevers, which are prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Redwood, James and many others, with their evil tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by excessive derangement of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essential. There is no cathartic so safe and so effective as Dr. J. Walker's Vinegar Bitters, as they will speedily remove the dark colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluid with the BITTERS. No epidemic can take hold of a system thus fore-armed. Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Belching, Flatulency, Biliary Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia. One bottle will remove a better guarantee of its merits than a lengthy advertisement.

Serofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Gout, Scrofulous Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Scars, Eruptions, etc. In these, as in all other constitutional diseases, Dr. WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory or Chronic Rheumatism, Gout, Bilious, Remittent and Intermitent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Painful and Mineral, and other occupations, such as gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take Dr. WALKER'S VINEGAR BITTERS.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Eruptions, Carbuncles, Ringworms, Scars, Boils, Carbuncles, Erysipelas, Itch, Scurs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

For Female Complaints, in young, adult, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display an decided influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.
