TO MEET THE PRESSING WANTS OF many persons on Puget Sound needing Medical and Surgical aid, and for comfortable rooms, good care and moderate prices, I have fitted up a Hospital, where every convenience and comfort will be provided in connection with experienced and skillful Medical and Surgical attendance.  
We aim to make this a permanent institution, and to give special attention to cases of fracture and injuries of all kinds that are constantly occurring in the saw mills, coal mines and logging camps surrounding us.  
Seattle being centrally located, with regard to these interests, and more accessible than any other point, we mean with the aid of these advantages, and by giving personal and thorough attention to its entire management, to build up an institution indispensable to the sick and disabled, and worthy of the confidence and respect of the public.  
The Hospital is in a pleasant and healthy location, and the rooms are clean and cheerfully furnished.

## Local Items.

FROM DAILY OF THURSDAY.

CRANBERRIES.—In an article in relation to the culture of cranberries the Olympia Transcript says:

The Puget Sound basin presents many advantages for cranberry cultivation not found in the most favored localities in the East; among which are the cheapness of lands, the almost entire absence of hard frosts, and the unequalled facilities for flooding with pure water.

The cost of cultivation to the bearing period is not exceeding \$175 an acre, and with proper attention the yield will probably average twenty bushels to the acre.

Taking the wholesale prices in California, which have been four dollars a bushel clear of packages, as a basis of calculation, and it is easy to see what may be accomplished by the investment of a very small capital and the labor of a few individuals in three or four years time.

And looking forward to the time in the near future when the shipping of Puget Sound shall connect us with the ports of the civilized world, there seems to be no more certainly remunerative branch of business for this country than cranberry culture.

The performance of the Merry Makers last evening was attended by a very large audience—double the number that was there the first evening, which showed how well they were appreciated.

The Worell sisters are graceful and easy in comedy, and charming and vivacious in their vocalism. Geo. S. Knight was emphatically a success in his delineations of Dutch character, and repeatedly set the house in a roar.

Mr. Richards was a perfect rubber-man, and the was he threw around his lengthy and somewhat attenuated limbs was fearful to contemplate.

He was really the most remarkable dancer that ever appeared before a Seattle audience.

Mr. Jones was a splendid musician, and appeared to have the faculty of getting music out of anything. He played on a great variety of instruments, ranging from a cornet to a cow's horn, and including a Chinese guitar.

The troupe left on the North Pacific for down Sound.

A new swindling dodge has been devised in San Francisco. Silver coin packages have passed current at the brokers by weight, and it was seldom that the purchaser thought of inspecting the rolls to discover either the quality of the coin.

The sharpers appear to have worked on this idea and prepared lead tubes of the size and length which when rolled up with a half dollar at each end would resemble a twenty dollar package.

Using wrappers stamped with the name of the California Insurance Co., and being of exact weight, a large number of galena tubes were sold to the unsuspecting brokers before the swindle was detected.

The game is now of course at a close, but it subjects the business man to a great deal of trouble whenever coin packages are the medium of exchange.

The steamer Dakota returned from up-Sound this afternoon at two o'clock. She had on board 1/4 of a million of hoop poles, 40 cords of stave bolts, and 30 cords of wooden pipes, which latter she took at \$10 per ton.

She will take on here 60,000 laths from Colman's mill, and will then go under the Seattle Co.'s bunkers, where she coals with 250 tons. She sails for San Francisco via Victoria to-morrow night at 10 o'clock.

Among her passengers booked so far are 18 from Portland.

DAINGEROUS ACCIDENT.—One of the quartermasters on the steamship Dakota, met with a very dangerous and possibly fatal accident, while the vessel was at Tacoma yesterday morning.

While assisting in loading freight, he made a mistep and fell through the hatchway to the lower hold.

In the all his throat struck on some sharp substance and was horribly gashed, nearly cutting it in two, and his wrist was badly dislocated.

He is very low, but some hopes are entertained of his recovery.

The double-bodied calf, which is now en route for Philadelphia, claimed as an Oregon production, was reared by Daniel Wilson, of Pacific County, in this Territory.

It is nine months old, and the only non-descript of the kind ever known to live.

It has two bodies united at the shoulders—the joint owners of one head.—The smaller body has three feet like those of a horse; the larger is maned like a colt.

The Zephyr, Capt. Wright master, leaves for the upper Sound to-morrow at 8 A. M. Returning, leaves Olympia at 8 P. M. on Saturday.

The bark Aureola arrived here last evening, and immediately went under the Seattle bunkers; so the lack of vessels in the harbor did not last long.

The Revenue Cutter Oliver Wolcott arrived here yesterday, and has been lying at anchor in the harbor since.

THE schooner Juanita arrived here last night, and is discharging her cargo of farm produce at McCallister & Carty's wharf.

DIED.—In this city, this morning, Henry, son of Mr. and Mrs. John F. Damon.

ATTENTION.—Members of the band are requested to meet this evening at the music store for practice. Also important business to be transacted.

THE bark Caroline Reid arrived in Port Blakely yesterday, where she loads lumber.

NEW BEER HALL.—Mr. Weiman will on Saturday next open a beer garden on the corner of Second and Washington streets.

M. E. CHURCH.—Preaching tonight at 7 1/2 o'clock, by Rev. A. C. Fairchild, Presiding Elder of Puget Sound District.

STEAMER Alida, Capt. Browner master, left for Olympia this morning at 8 o'clock. She makes the return trip on Friday.

THE Unitarian Society of Olympia have taken preliminary steps toward the erection of a hall for religious purposes.

THE funeral of the late Dr. Josiah Settle take place this afternoon at two o'clock. The remains were accompanied to the grave by the members of the Masonic order of which he was an old and esteemed member.

DISTURBANCE AT FORT WRANGLER.—Late advices from Fort Wrangel represent that a serious disturbance occurred there. A number of Indians were drunk at their camp. The U. S. commanding officer sent a guard down to arrest the noisy ones. They refused to go, and threatened to fire on the soldiers.

A Gatling gun, says the Victoria Colonist, was trained on the camp, and the savages given a few minutes in which to send out their chief as a hostage for their good behavior.

He came out in time to prevent the discharge of the Gatling, and was taken to jail, where he hanged himself the same night. The tribe then demanded 1,000 blankets in compensation for the death of their chief. The commanding officer invited them to square the account with shot and shell, whereupon Shakes, the big chief, fled to Stickerson river, with threats to wreak satisfaction upon the miners. It is said he has issued orders that steamboats shall not be allowed to ascend the river when navigation opens.

ROBBERY.—The room of one of the inmates of Stott's dance house was robbed last night of a quantity of money and jewelry, aggregating in value over \$300. A man named

Puguet Sound Dispatch.

BERIAH BROWN : : : : EDITOR

Seattle is making a desperate effort to build the first fifteen miles of her railroad. At Walla Walla one man has constructed thirty miles of road, and this without incurring one dollar of outside indebtedness.

"That's what's the matter" If "one man" had not constructed that thirty miles of road, the probabilities are that it could never have been done, and the people of Walla Walla would have been "standing out" yet, as the people of Seattle have for the last three years, waiting for the "one man" power to accomplish the work.

TIME'S CHANGES.

For the greater portion of our life we labored under the delusion that fidelity to a political party meant only fidelity to principles; that principles were the only proper basis of party—the sole claim to the allegiance of its members.

"A bullion, contraction, and destruction of values sheet—a pseudo-Democratic concern—has a column and a quarter of the slushiest sort of drivel, begging Democrats to ignore the currency question, and join with its gold-forked tongue hypocrisy, in the gospel of 'harmony,' for the benefit of bumper politicians."

the spoils of office be the only object of success, to win would be a misfortune and disgrace. The foregoing are not isolated cases, but the sentiments expressed are common to every school district throughout the land east of the Rocky Mountains.

Telegraphic

WASHINGTON, May 19.—The Herald's Washington special says: It is proposed to bring the Legal Tender question to another test before the Supreme Court.

WASHINGTON, May 19.—A number of leading Democrats in the House, held a caucus to-day and after stating reasons and listening to others, agreed that tomorrow the chairman of the Ways and Means Committee, offer a concurrent resolution, fixed the 12th of June as the time for adjournment.

WASHINGTON, May 19.—If a struggle should take place, as everybody is dreading, between the native Christians and Musselmans, the Christians would prove victorious providing the troops did not help the mob, but in a general rising of Mohammedans, the large number of European subjects in Constantinople and along the Bosphorus Sea, would be in greater danger than native Christians.

LONDON, May 18.—In the House of Commons, Viscount Sandon, vice president of the committee of the council on education, introduced an elementary education bill. The measure provides that no child shall be employed in agricultural or other labor before the age of twelve, or between 10 and 14 years, and has a certificate that it has attended school 250 days of the year for five years or has passed examination showing a certain degree of education.

CINCINNATI, May 18.—Arrangements have been made with nearly all railroad companies west of Pittsburg and Buffalo, and east of Mississippi river to carry passengers to the Cincinnati Convention at one-half fare the round trip.

NEW YORK, May 18.—At the meeting of Plymouth Church to-night Henry C. Bowen was unanimously expelled. Speaking of the Plymouth Church meeting the Sun says, Bowen said after the meeting that he was not surprised at the result of the meeting. If Plymouth Church can afford thus to be satisfied, said he, then I suppose I ought not to complain, but I imagine that their troubles are not yet ended.

PHILADELPHIA, May 18.—Owing to recent rains the exhibition grounds are in terrible condition, making it almost impossible, still there is a fair attendance. The annual election of officers occurred to-day. Gen. Hawley re-elected President, and Campbell, secretary.

000, and shot their own horses, mounted the best ones belonging to the stage and rode away. WASHINGTON, May 19.—Mitchell submitted a resolution instructing the committee on commerce to inquire into the extent and condition of the salmon fisheries on the Columbia river in Oregon and Washington Territory and report a bill for the regulation of such fisheries, and protection of artificial hatching in said river adopted.

VICTORIA, May 19.—Appropriation bills passed in the House: A resolution introduced by opposition censuring the Government for omitting from assets the claims against Dominion for money expended on the docks, thereby imperiling if not virtually surrendering the claim, was rejected. Among appropriations passed was the sum of \$31,800 for dock at Esquimaux. License amendment bill imposing a tax of \$200 per year on commercial traders, and \$150 on other non residents selling goods in British Columbia.

PHILADELPHIA, May 21.—The number of paying visitors at the Centennial yesterday was 17,000. A mass meeting will be held to-night. GALVESTON, May 21.—The Galveston News' special from Brownsville of the 20th says Gen. Beuveler Escobedo reached Matamoros last night at 8 o'clock, and the American and German Consuls turned over the city to him. Escobedo arrived here this morning.

NEW YORK, May 20.—The Herald's Washington special says if the Senate shall decide it has jurisdiction, Chandler intends to recommend to the House the impeachment of Thompson, one of his predecessors, who was Secretary of the Interior before the war. Thompson, as Secretary of the Interior, abstracted more than \$700,000 of public money in the best securities and exchanged them for individual notes of contractors, and that was the last the Government ever heard of this immense sum, thus virtually stolen from the public treasury.

WASHINGTON, May 20.—Bills were introduced and referred, as follows: By Kelly, of Oregon, for the relief of certain claimants under the donation land laws of Oregon, approved Sept. 29, 1850; by Mitchell, of Oregon, to establish post routes from Astoria to Fort Clatsop, and from Silver Lake to Pineville, Oregon.

NEW YORK, May 20.—Ben Holliday's property at his Westchester county farm was sold yesterday at Sheriff's sale to satisfy judgments. Gold closed at 112 1/2 @ 113. The Sun foresees the purpose of the greenback democrats to nominate Wm. Allen as the independent greenback candidate, if the heresy fails of recognition and support by the St. Louis Convention.

CHARLES FRANCIS ADAMS has been selected by the Centennial committee of this city for orator on the Fourth of July 1876. NEW CASTLE, Del., May 20.—Ten criminals, white and colored were flung at the jail to-day, the number of lashes ranging from 10 to 30. Before the whipping two white men and one colored were publicly exposed in the pillory for an hour.

WHEELING, W. V., May 20.—Joblin, who left Carthage, Missouri, with a wheel barrow containing 500 pounds of minerals for the Centennial, and the 79 year old gentleman that left New Albany, Indiana, about three weeks ago for the same point, passed through this city this morning, both appearing in good health and spirits.

NEVADA CITY, Cal., 20.—A very unreasonable and severe snow storm occurred here last night. About six inches of snow fell during the night, causing great damage to fruit and shade trees.

CHEYENNE, May 20.—A fire to-day at Green river, Wyoming, destroyed \$7,000 worth of property.

LONDON, May 19.—Funeral of murdered Consul took place at Salonicca to-day with great ceremony and in a manner satisfactory to every one. Perfect order prevailed.

COLOGNE, May 20.—Intelligence from London published here gives as reasons for England's refusal to adhere to memorandum of the Berlin conference, that proposals require from Porte what is unreasonable. That England wishes to remain unfettered in whatever course future events may take. It adds, England however will not advise Sultan to reject proposal.

SAN FRANCISCO, May 20.—Legal Tenders—89 @ 89 1/2 buying, 89 1/2 @ 90 selling. The Chronicle is after the navy yard this morning to the extent of a column. It makes the cost of repairing the steamer Lackawanna nearly \$800,000, while the original cost of the ship was \$450,000. If the facts and figures given could be verified it would show a state of things at Mare Island disgraceful to the whole management of naval affairs.

VIRGINIA CITY, Nev. May 20.—More snow fell last night. The streets are frozen hard this morning. LONDON, May 22.—A Vienna dispatch says the mental condition of

Sultan causes grave apprehension that he is subject to delusions and fearing he will be buried alive or poisoned. Insurgents are now under arms in Belgrade, and they have fled to the mountains. The Saffas have sent a deputation proposing alliance.

LONDON, May 21.—Count Andrassy yesterday said in conversation: "I am now able to state that the peace of Europe will not be disturbed. The proposed reforms will be accepted by Europe and Turkey, and joyfully greeted by the insurgents, who now only desire guarantees for their execution. The recent action of the powers is directed toward the peaceful removal of obstacles preventing the accomplishment of reforms."

WASHINGTON, May 21.—It is now tolerably certain that the Senate will vote against having jurisdiction in the impeachment base. NEW YORK, May 22.—Gold closed at 123 1/2 @ 124.

NEW YORK, N. J., May 22.—A hail storm of great fury passed over here last night. The hail stones killed chickens and many birds on the wing. Plate glass was shattered as easily as common glass. There is not a greenhouse, hot-bed or sky-light in town which has escaped.

PHILADELPHIA, May 22.—From 25,000 to 35,000 people were within the Centennial grounds to-day. The paying visitors on Saturday numbered 18,182.

NEW YORK, May 22.—The more one examines the huge mass of testimony given before the House Naval Committee the stronger becomes the conviction that the days of Robeson as a Cabinet officer are numbered. The administration can scarcely venture to brave public opinion by retaining in its councils a man whose official career shows so many ugly and suspicious blemishes.

WASHINGTON, May 21.—The President sent to the Senate the nominations of Pierpont for Minister to England, Judge Taft for Attorney General and McDonald Cameron, son of S. Cameron, for Secretary of War. The nomination of Don Cameron for Secretary of War will be regarded as the selling price of Pennsylvania's vote for Conkling at the Cincinnati Convention. The President also sent to the Senate the name of J. R. Hayden for Collector of Internal Revenue for Washington Territory.

WASHINGTON, May 22.—The Senate, in executive session, confirmed the nomination of Pierpont, Taft and Cameron. Blaine is still confined to his bed by illness. Pierpont will take immediate steps to depart for England, and Taft will, without delay, take charge of the Department of Justice.

SAN FRANCISCO, May 22.—Legal tenders—89 @ 89 1/2 buying, 89 1/2 @ 90 selling. The small pox has again made its appearance in this city. Four cases have been discovered among the white residents in the vicinity of the Chinese quarters, and it is supposed that a number of cases exist there that have not come to light.

SAN FRANCISCO, May 21.—The Nevada and Northern Telegraph Co. was yesterday adjudged a bankrupt before Reg. ister Mitchell. Principle creditors are Platte Buttr, of Portland, Ogn., \$28,500, Teltotson & Co., New York, \$6,000, Central Pacific Railroad Company, \$5,000, total indebtedness \$48,000; the assets consist of a telegraph line from Winnemucca, Nev., to Portland, Ogn., via Idaho, which has cost about \$150,000, and is now estimated to be worth \$65,000 or 45,000.

WASHINGTON, May 21.—Postoffices established, Bay Center, Pacific county, W. T., Sidney Smith, postmaster. Postmasters appointed, Henry Jackson, Lowell, Snohomish county, W. T.

PARIS, May 22.—Special dispatches from Athens reports three more executions to take place in Salonica. During funeral of the murdered Consul, Foreign men of war in the harbor at Salonica had orders to bombard the town at first signal in event of disturbance.

LONDON, May 22.—In the House of Commons to-day Disraeli in reply to a question of Maurice Brooks, liberal and home rule member from Dublin, as to whether he intended to advise the Queen to extend royal mercy to persons imprisoned for breach of allegiance to her Majesty, stated that only 15 persons remain in custody within the category of the Brooks question, after a lengthy explanation showing that two of these had been convicted of murder, six were in English prisons and the remainder in West Australia and under military surveillance merely, Disraeli said considering the Irish character, the government cannot now recommend further amnesty. John O'Connor Powers, member from Mayo county, who is a liberal and home ruler, under a motion to adjourn strongly protested against the government's course. George Anderson, liberal from Glasgow, Joseph Gollis Bigges, from Canon, Ireland home ruler and liberal, spoke in reply upholding the action of the minister and declaring that England's honor was at stake. After further observations by Chas. S. Maniell, home ruler, from Neash, Phillip Oonlin, from Dembock, and others, some of the English members saying they signed the petition for amnesty under misapprehension, the subject of Fenians dropped. The scenes during the debate was very animated.

In replying to the question of Campbell Disraeli said that the government was unable to concur in the proposal of the northern powers for the pacification of Turkey's provinces, and that it was impossible to publish the terms of the proposal which had been formally communicated to the Porte. Sir Wm. Vernon Bason, liberal member for city of Oxford, will to-morrow question the government as to whether before the final release of Winslow the house will have an opportunity to consider the correspondence between the United States and the British Government in his case. It is understood that the government will ask that Winslow be further remanded to-morrow, and as Baron Pollock is not likely to make any difficulty there is little probability of the prisoners immediate discharge.

LONDON, May 23.—A Paris correspondent telegraphs that England has communicated to the foreign representatives at London the text of their reply declining agreement to the conclusions of the Berlin conference. The point to which England principally objects is the decision of the three powers that in case their friendly intervention should not effect pacification the six powers unitedly would have considered other and more efficacious measures. England thinks this declaration contains principles of armed intervention, and is injurious to the liberty and independence of Turkey. It stated that negotiations have already been commenced for the modification of this declaration, so as to induce England to sign the proposition of the conference. A dispatch from Berlin says intelligence has been received in official quarters there from Constantinople which indicate that the Sultan will be compelled to abdicate the throne very shortly. LONDON, May 22.—The Standard says that Admiral Connelly, of the Channel squadron, has received telegraphic instruction countermanding previous orders for the squadron to proceed to Madeira, it being considered desirable to keep the vessels in readiness to be in the Mediterranean should an emergency require it. The iron turret ship Monarch has already been detached from the Channel squadron to proceed immediately to Malta. The Admiral Superintendent of the Malta dock yard, who, except under very extraordinary circumstances, remains at Malta, will join the Mediterranean fleet on board the Monarch. One iron-clad and the steam frigate Raleigh, 22 guns, now lying at Plymouth, have received orders to prepare for sea with all possible dispatch and proceed to the Mediterranean. The iron-clad steamer Hector, 18 guns, and the armor-plated steamer Iron Duke, 14 guns, both of the Coast Guard service, have been ordered to join the Channel squadron. Special dispatches from Vienna report Russia about to send five iron-clads from Constadt and the Egean Sea. In the House of Commons the Merchant's Shipping Bill, as reported from the Committee of the Whole, was considered. Plymston proposed an amendment to the bill. QUEBEC, May 23.—Louis Riét arrived to-day, en route to the Beaufort Asylum. It is said his health is completely broken down. NEW YORK, May 23.—Drew and Vanderbilt are recovering. The Herald's cable says: "I have information that Derby withdraws his opposition to Winslow's extradition, though he cannot interfere with the law. It is believed he will be surrendered to-morrow." Pioneers of the territorial days of California will assemble at the Pacific Coast Centennial Hall in Philadelphia Sept. 9th, the 29th anniversary of the admission of California into the Union. A gathering of Californians is expected on that occasion. The Tribune's Philadelphia special says, Donald Cameron heads the delegation to Cincinnati. While Cameron can control a majority of the Pennsylvania delegation for Conkling, Blaine is likely to get part, despite yesterday's trade, including probably all of the Philadelphia twelves. Prospects of a bitter fight by the anti-Cameron and Conkling men are imminent. NEW YORK, May 23.—Gold closed at 112 1/2 @ 113. TRENTON, May 23.—The Democratic State Convention met to-day. Resolutions favoring nomination of Joel Parkes for President were received with great applause. A resolution was agreed upon declaring for hard money. WASHINGTON, May 23.—Every member of the Senate has received by mail from San Francisco anonymous pamphlets arguing what is styled the other side of the Chinese question in California, and elaborately denying nearly all the allegations of the San Francisco Anti-Chinese mass meeting. It contends that the Chinese number less than one-eighth of the population of San Francisco, and one-thirteenth of the population of the State; argues that Mongolian cheap labor is desirable; challenges effective testimony to sustain the charges that the Chinese in California consent to any extent of slaves or criminals; and generally argues that these presence is a blessing to the interests of California and the country at large. The Times' Washington special says, that friends of Senator Cameron, of Pennsylvania, are quietly at work in his interest for his nomination as Vice-President. The transfer of the war portfolio to Cameron, and the Attorney-Generalship to Taft, will not take place until some time early next month. Pierpont, to-day, said he would not formally accept the English mission

until he retires from his present office. The House committee on commerce heard an argument from Representative Page in advocacy of the concurrent resolution recently introduced by him and requesting the President to propose an additional article to the treaty with China. The committee subsequently authorized Representative Page to report the resolution to the House for passage, with an amendment requiring the President to negotiate for an additional article substantially as follows: "The United States of America do hereby reserve the right to regulate, restrict or prevent the immigration of Chinese subjects into the United States except for commercial purposes, and reciprocally the Emperor of China reserves the right to regulate, restrict or prevent the immigration of citizens of the United States into the Empire of China except for commercial purposes."

The House Committee on Territories adopted the favorable report made by Wigginston, as sub-committee on Lane's bill to annex Walla Walla and Columbia counties to Oregon, and authorized him to report it to the House for passage. The committee on ways and means will to-morrow hear arguments of counsel for various parties interested in the investigation of matters relative to the lease and present management of the Alaska Fur Seal Islands. J. Black appears for Louis Goldstone of San Francisco who claims he is entitled to the award of the lease instead of the Alaska Seal Fur Company. The committee has refused to examine further witnesses, for the reason that one of the parties in San Francisco preferred the charges which were to be proved by them has recently written to the committee withdrawing all of these and stating in an accompanying affidavit that they were without foundation, and were the result of a conspiracy to make money out of the company. The testimony already taken however is very voluminous. SAN FRANCISCO, May 23.—Legal tenders 89 @ 89 1/2 buying; 89 1/2 @ 90 selling.

A SHIPMENT of one hundred pairs of prairie-chickens, ten pairs of wild turkeys, and ten pairs of wild geese is soon to be sent from San Francisco to Auckland, New Zealand, for the purpose of introducing there hitherto unknown birds. The prairie chickens were caught in Iowa. THEY are making a new style of fence at Walla-Walla, which is said to overcome most of the objections to other fences built with posts. The fence resembles the ordinary "worm" fence, consisting of rails firmly set into posts which are stood on the surface of the ground, kept erect by the zigzag course of the panels. The timber being all above ground is, of course, as durable as it is in the nature of such material to be, and its strength is sufficient to withstand the strong winds which often prevail in that part of that Territory. It is made by machinery specially designed for the purpose, and is finished ready for setting up at about one-third additional cost over the "stake and rider" fence.

THE St. Louis Republican is authority for this story: An intelligent and closely observing lady, upon whose head the snows of age are lightly drifting, has recently returned to her St. Louis home after a prolonged residence in Europe. Speaking to a friend of the difference between the social usages of the Old World and the New, she said, "the fact is, my dear, there is no place in American society for old women. I don't mean women of sixty-five and upward, but those on the shady side of forty and the sunny side of three score; women who are too old to indulge in the follies of fashion, and yet too young to want to enter a coffin or a convent. What enjoyment, pray, does America provide for them?"

HOME MISSIONARY HYMN.

BY "A LADY OF VIRGINIA."

[In behalf of certain friends of the Home Missions, the editor of Rocky Mountain Presbyterian, published at Denver, Col., some months since offered a prize of \$100 for the best Home Missionary hymn. From about seven hundred submitted to the Committee of Award, the following was declared entitled to the prize. The modest writer required that her name should be withheld from the public.]

Saviors of God! the dawn is brightening / Token of our coming Lord; / O'er the earth the field is whitening; / Louder rings the Master's word,— / "Pray for reapers / In the harvest of the Lord."

Feebly now they toil in sadness, / Weeping o'er the waste around, / Slowly gathering grains of gladness, / While their echoing cries resound,— / "Pray that reapers / In God's harvest may abound."

Now, O Lord! fulfill thy pleasure, / Breathe upon thy chosen band, / And, with pentecostal measure, / Send forth reapers o'er our land,— / Faithful reapers, / Gathering sheaves for thy right hand.

Ocean calleth unto ocean, / Spirits speed from shore to shore, / Herald of the world's commotion; / Hear the conflict at our door,— / Mighty conflict,— / Satan's death-cry on our shore!

Broad the shadows of our nation, / Eager millions hither roam; / Lo! they wait for thy salvation; / Come, Lord Jesus! quickly come! / By thy Spirit, / Bring thy ransomed people home.

Soon shall end the time of weeping, / Soon the reaping time will come,— / Heaven and earth together keeping / God's eternal Harvest Home. / Saints and angels! / Shout the world's great Harvest Home.

THE weather is rapidly becoming warm. The thermometer registered as high as 80 degrees in the shade this forenoon, and linen coats and straw hats were the order of the day.

AN unfortunate drunk reposing calmly on the sawdust at the foot of Mill street, yesterday, had a large placard pasted on his back by some mischievous youth bearing the legend: "Take warning; I am dead—drunk." The latter part of the warning was superfluous; it was self-evident.

ONLY one vessel is now in the harbor, the bark Aureola, now under the Seattle bunkers, and she will soon finish loading and sail. Unless there are some arrivals in the course of a day or so, we will be without a single vessel in the harbor, for the first time in two years.

Since the above was in type the bark J. B. Bell and Osmyn have both arrived in the harbor, and the latter has gone under the Seattle bunkers. They arrived here in tow of the Walker about 3 o'clock this afternoon.

A NEW sewer is being laid to-day along Second street.

WHILE on a trip to Seattle this week, we saw hanging in a frame a printed table of distances, courses, soundings and other matters pertaining to the navigation of the Sound and Straits of Puca that must prove invaluable to navigators of those waters in the absence of lately corrected charts. We were informed that it was gotten up by Mr. Lawson, of this city, and was undoubtedly correct in detail, having been collected from the records in the Coast Survey office, and embodies in a succinct form the labors of that Department in these waters for years past. Mr. Lawson has conferred great benefits upon shipmasters and will undoubtedly find such ready sale of his publication as to realize a handsome sum.—Olympian.

Marshal Hopkins took to McNeil's Island, on Wednesday, a prisoner named O'Keely, from Walla Walla, convicted of manslaughter and sent to the penitentiary for ten years.—He was a soldier and killed a man in a quarrel.

THE garrison at Fort Walla Walla has been furnished with two Gatling guns. These formidable implements of war are constructed on the revolving principle, and are discharged with fearful rapidity by the simple turning of a crank. It is confident these guns, the artillery hitherto used in modern warfare sinks into insignificance.

The bark Aureola, Capt. Black, is loading with lumber for New Caledonia, and the barkentine C. L. Taylor, Capt. Bergman, for San Pedro.

The Italian bark Bengalla, Capt. Degregoria, arrived there day before yesterday, 46 days out from Callao. She loads for the same port as does the Italian bark Ozero, which is also there.

THE CITY OF PANAMA.—Mr. Freeman furnishes us with the following information in relation to the City of Panama: As to-day is the Queen's birthday and the steamer could not, consequently, enter at the Custom House at Victoria, the agents there arranged to go out and meet her last night with a tug and lighter, to take off her freight and passengers, after which she was to leave for the Sound immediately. She may, consequently be expected here this evening. She does not stop here on her return from the Sound, but will leave Olympia for Victoria direct. She will take on 1,400 tons of coal at Departure Bay.

BRITISH COLUMBIA.—We glean the following items from the Colonists. A little child living at the Bush Tavern, Esquimalt road, was poisoned on Sunday by eating toaststools which it mistook for mushrooms.—Dr. Coates, R. N., was summoned and succeeded with much difficulty in saving the child's life. This poisonous fungus is very plentiful on the road.... Capt. Jimmy Jones has become demented. He was brought down from Nanaimo yesterday, handcuffed, having been examined by medical men, pronounced insane by Capt. Spalding.... Last evening a woman living on View street attempted to commit suicide by taking an overdose of laudanum. Fortunately, however, medical aid was gained before too late, an emetic was administered and the life of the unfortunate saved.... Old Mrs. Copperman, known at Victoria as "Mother" Copperman, while attending a wedding at the Greek Church at Sitka was taken violently ill. She retired to the porch, where she became insensible and subsequently died.

PRIVATE dispatches received from Portland yesterday announce the marriage of G. N. McGonaha, of this city, to Miss Rosa Bybee, of Portland. The happy couple are expected to arrive on the North Pacific this evening. They have our successful congratulations.

Quite a crowd was collected on the streets last evening by a man who marched through town playing the bag-pipes.

The citizens of Snohomish County are endeavoring to get up a Centennial Celebration at that place.

To-day is the 56th anniversary of the birth of Her Majesty Queen Victoria. The day will be celebrated in Victoria by a grand regatta and other sports.

A gang of men are at work to-day excavating for the new sewer, which runs up James street and along Second to Cherry.

The old decayed saw-dust, which is being removed in the excavations for the new building of Frauenthal Bros. is being spread out on Commercial street. Those whose places of business are in that neighborhood are much disgusted, as the decayed sawdust emits a most unpleasant odor.

DEAFNESS, noises in the head, defective sight, nervous head and mind complaints, catarrhs, amaurosis, ophthalmia, gutta serena, loss of eyelashes, inflammation and all diseases of the eye and ear treated upon new and scientific principles.

THE St. Louis Republican is authority for this story: An intelligent and closely observing lady, upon whose head the snows of age are lightly drifting, has recently returned to her St. Louis home after a prolonged residence in Europe. Speaking to a friend of the difference between the social usages of the Old World and the New, she said, "the fact is, my dear, there is no place in American society for old women. I don't mean women of sixty-five and upward, but those on the shady side of forty and the sunny side of three score; women who are too old to indulge in the follies of fashion, and yet too young to want to enter a coffin or a convent. What enjoyment, pray, does America provide for them?"

Puget Sound Dispatch.

BERIAH BROWN : : : : EDITOR

No rogue ever felt the halter draw, With good opinion of the law. There is a fellow publishing a Democratic green-back paper in Washington, Iowa, who has lately taken the pains to assail Judge Lewis in whole columns of vituperative epithets, and to send the papers, with these articles marked to various parties on Puget Sound. None of them contain any specific charges against the moral character of the Judge, but are manifestly inspired by bitter hatred on account of some personal wrong, real or imaginary, and are intended to create the impression here that the Judge's character was not above reproach at the place of his former residence.

The explanation of these violent attacks is in the fact that Judge Lewis was for many years Prosecuting Attorney in the district where that paper is published, and if he showed as little toleration for criminal practices as prosecutor as he does as Judge, no wonder he was hated. His Iowa assailant has a very considerable number of sympathisers in this Territory, including one or two editors, but none, we believe, among those who desire to see the laws faithfully administered and offenders properly punished.

Pike Street Blockade.

EDITOR DISPATCH: Some months since an ordinance was passed giving the Seattle Coal & Transportation Company the privilege of using a portion of Pike street, but requiring them to remove obstructions from the balance of the street. The Council have been petitioned, and the Company asked, to have a portion of that street opened to travel, but neither they nor the Council pay any attention to the matter. Evidently the rights and convenience of property holders are of no consequence. Mr. A. J. Brunn had lumber hauled on the ground to erect a building on the corner of Front and Pike streets, but owing to his inability to have Pike street opened was compelled to remove his lumber. Do the Council and the Company intend to compel property holders to have recourse to law to secure their rights? Or have the tax payers no rights that the Council are to respect? Surely, in no other city would so little regard be paid to carrying out the provisions of an ordinance as is manifested in Seattle. A TAX PAYER.

INDIANAPOLIS, May 17.—Between two and three hundred delegates to the Independent National Convention arrived to-day. They claim to represent twenty-one States. Other delegations are expected to arrive to-night. At an informal meeting held to-night the question of postponement of the nomination of the President until after the Cincinnati and St. Louis Conventions had been held was freely discussed. A few Eastern delegates favor the postponement, while the large majority are for immediate action.

CHARLESTON, S. C., May 17.—The Chamber of Commerce to-day adopted a strong resolution opposing the passage of the bill to carry into effect the Hawaiian Treaty, on the ground that the removal of the duty on rice will seriously injure the rice planters, and throw out of employment thousands of colored laborers. A delegation was appointed to proceed to Washington and lay the facts before the Senate.

CINCINNATI, May 17.—In the Democratic Convention this evening the reports of the minority of the Committee on Resolutions in favor of soft money was adopted—366 to 390. Considered a victory for Allen.

NEW YORK, May 17.—The New Jersey delegates to Cincinnati go unpledged.

LOUISVILLE, May 16.—Don Pedro passed through the city this evening, en route to the Mammoth Cave, and will return and attend the races to-morrow.

NEW YORK, May 17.—The Times' New Orleans special says a dispatch from East Feliciana and Wilkinson Counties, Mississippi, estimates that about sixteen colored men have been killed there during the past three days of trouble; also one white killed at the beginning of the affair. Aaronson, a white man, had accused a colored man of stealing, and had whipped him. Aaronson was subsequently killed, and dispatches say he was killed by the White Regulators of Mississippi, he being in bad odor and charged with being stolen cotton at his store. A large number of Regulators rallied at the proclamation of the Sheriff of Williamson County and invaded East Feliciana, stampeded the colored men, shooting some and taking prisoners and hanging others. The excitement is great. Yesterday about 500 armed white men were reported in the vicinity of Woolville, and the skirmishing has continued, resulting in a reign of terror. A company of U. S. troops has been ordered to compel peace. The refugees have fled to other parts

for safety. Fears are entertained that Senator Weber will be killed.

NEW YORK, May 17.—Four persons died to-day in Steuben County from trichina. Others are sick.

WASHINGTON, May 16.—In the Senate secret session to-day Edmunds argued in favor of jurisdiction. It is not probable that a decision will be reached before Thursday. It is generally believed the Senate will decide affirmatively.

NEW YORK, May 17.—When the Senate went into conference to-day on the question of jurisdiction in the Belknap trial, the discussion on the question of jurisdiction was continued, and Edmunds constructed his arguments in favor thereof. He was followed by Wright against jurisdiction, and Conkling then took the floor; but before he had spoken long a motion to adjourn until to-morrow was agreed to, when he will finish his argument.

LONDON, May 16.—A dispatch from Constantinople says: Embassadors and others believe an outbreak is intended. The embassadors are making joint arrangements for the protection of their countrymen. All the legations had men under arms. The French landed sailors for the protection of the steamers of Messageries Maritimes. The British fleet was telegraphed for to come to Bessica bay.

17th.—Advices from Salonica state that six of the principal culprits in the late outrage there, have been publicly executed.

VERSAILLES, May 16.—The amnesty proposal was discussed in the Chamber of Deputies to-day and drew great crowds. No conclusion was reached. It is reported that before the discussion is closed, Prince Napoleon, whose recent election has caused so much excitement, will speak in favor of amnesty.

SALONICA, May 17.—Two French iron clads and two frigates, carrying 30 guns and 1200 men, arrived here. Up to the present date, eleven persons, all of the lowest classes, have been convicted of complicity in the murder of the French and German consuls.

VIRGINIA CITY, NAVAJO, May 17.—Another three hour snow storm here to-day. Weather very cold. Yesterday was the roughest day of the season. The wind was blowing a hurricane from early morn until 7 P. M., causing some little damage to buildings in town: At 9 o'clock P. M., snow commenced falling and continued falling at intervals until this morning with a prospect of a still greater fall.

LONDON, May 18.—Isaac Butt, O'Connor, Power and Lord Coningham yesterday forwarded to Disraeli the declaration, signed by one hundred and thirty eight members of Parliament in favor of the release of Fenian convicts.

A Vienna dispatch says a panic prevails among the Christians in Rustsheek, and the Consuls sent their families across the Danube. The Porte has refused to allow a Greek man-of-war to pass the Dardanelles, declaring that the powers which signed the Treaty of Paris are only entitled to station vessels of war in the Golden Horn. The Russian telegraph agency received a special communication stating that the population of Constantinople is still discontented, and considers the changes made in the Government not sufficiently radical: The Panic among Europeans is consequently much increased. The foreign representatives are taking every precaution.

CINCINNATI, May 7.—The Democratic State Convention re-assembled this afternoon. The last resolution is a review of the services of the Democratic party. The majority report opposes legislation fixing the date for resumption; demands the repeal of the specie resumption act; disfavours the renewal of the National Bank charters and favors only a revenue tariff. The majority report demands the immediate and unconditional repeal of the Republican resumption law; the defeat of all schemes for resumption which involve either contraction of the currency, perpetuation of bank issue or increase of the interest burden of the debt; the gradual but easy substitution of legal tenders for National Bank notes; the issue by the general Government alone of all circulating medium, whether paper or metallic.

NASHVILLE, May 18.—The Republican State Convention met here yesterday morning. Two hundred delegates, one fifth colored, were present. The friends of Morton claim 15 out of 24 delegates, 7 for Bristow and 2 for Blaine. Bristow's friends claim 10 delegates to 9 for Morton. A careful canvass shows the delegation favors Morton, but is equally divided for Blaine and Bristow.

DES MOINES, May 18.—A careful canvass of delegates shows that 17 out of 22 have a decided preference for Tilden.

NEW YORK, May 18.—The Times special admits that the New Jersey delegates, though unpledged, have a preference for Blaine. The majority of those from Tennessee are for Mor-

ton; those from Alabama for Bristow. ST. LOUIS, May 18.—Don Pedro made an extended visit to this city and suburbs to-day. He and suite leave for New Orleans to-morrow on the steamer Grand Republic.

PHILADELPHIA, May 17.—An increased attendance was at the Centennial this morning although the morning opened stormy and cold. The attendance up to noon numbers 20,000.

FORT LARAMIE, May 18.—Mr. May, of Cheyenne, brings in the news that he was told by a Mr. Church that J. C. Sanders of Cheyenne and twenty others were killed a few days ago on Sand creek, near Custer city. The informant helped bury the bodies of those who were out.

INDIANAPOLIS, May 18.—The National Independent convention passed resolution against railroad subsidies. The nominations on fifth ballot Peter Cooper, of New York, for President, and Newton Booth, of California, for Vice-President.

NEW YORK, May 18.—Peter Cooper in a speech this afternoon stated he would not accept the nomination for the Presidency tendered him by the Indianapolis convention.

AGUSTIA, May 18.—The Third District Republican convention passed resolutions endorsing Blaine.

WASHINGTON, May 18.—The President sent the following nomination to the Senate: James Hayden, Collector of Internal Revenue for Washington Territory.

SAN FRANCISCO, May 18.—Legal Tenders 89 1/2 buying; 90 1/2 selling.

NEW YORK, May 18.—Gold closed at 112 1/2. LONDON, May 18.—The news from Salonica is somewhat re-assuring. The burial of the murdered French and German Consuls took place on Wednesday. A Berlin dispatch says, the measures taken by Turkey for the punishment of the Salonica assassins have given satisfaction in Berlin.

Fagdad advices state that from the 23d to the 29th of April the deaths from the plague numbered 39. At Hills during same period there are 199 deaths.

A letter to the Times says: The excitement caused by the Salonica affair has not abated. A party of Saffas paraded the streets of Stamboul crying, "Down with the Grand Vizier." The dedication of the new English Church which had been arranged for has been indefinitely postponed at request of the British Ambassador, who had consulted the Minister of Police on the possible consequences of the ceremony.

A dispatch to the same paper from Constantinople says, an outrageous article which appeared in the Levant Herald Tuesday has caused great indignation among the Diplomatic body and public at large. As the Herald is generally temperate and cautious, the invective is supposed to have been inspired by Midhat Pasha or the anti-Russian party. The Herald has been suspended.

A letter from Constantinople under date of 12th, says the excitement during the last 3 days amounted to a panic. The demand for weapons both by Saffas and Christians was so great that most of the shops in Stamboul have sold out their stock. The Saffas, that is all persons attached to the Mosques in any capacity whatever, are practically masters of the situation. They number about ten thousand, and are uttering threats against the Sultan and his Ministers, and against the Christians.

A STRANGE CASE.—The other afternoon an old lady and her daughter drove into the city on the Gratiot road in a one horse wagon, and the horse was secured in an alley near the lower park on Randolph street, while the women went off in search of a dry goods store. Some boys wandered through the alley, saw a chance for a joke, and one of them borrowed a wrench, others got a pry, and in about five minutes they had placed the hind wheels of the vehicle where the fore wheels had been in the habit of running. By and by the woman and her daughter returned, untied the horse, led him out, and the mother looked at the vehicle and remarked: "Seems as if this darned old horse had been kicking in the dash board." "Pile in, mother," called the girl, as she tied up the halter; but the mother couldn't. The pitch was so great that the seat slanted skyward, and the woman got off the hub, walked around the wagon, and said: "I'll bet onions that this horse is hitched to the wrong end of this 'ere wagon!" They were in a great puzzle when a boy came along, saw the true state of affairs, and he leared up against a store and laughed till the tears came. A blacksmith was sent for, the wheels properly placed, and the old lady remarked, as she climbed up: "Blamed if I wasn't afraid for one spell that I'd either gone cross-eyed or was losing my reason. I just want to get hold of some of these Detroit boys!"
