BERIAH BROWN, EDITOR. Seattle, W. T., June 10, 1875.

Opinion of Judge Lewis on Indian Testimony.

At Chambers, Seattle, June 3, 1875. The Petitioners were committed by a Justice of the Peace, in default of bail in the sum of one thousand dollars each, charged with murder in the second degree.

The only evidence against them before the committing magistrate was given by witnesses who are Indians, and Petitioners claim that Indians are not competent witnesses in criminal prosecutions, wherein a white man is defendant.

Counsel for petitioners has most earnestly and candidly argued the point, and I have given it careful consideration. In support of his views he cites secs. 139 and 231 of the criminal practice act of 1873.

It is provided by section 231 that: "Witnesses competent to testify in civil cases shall be competent in criminal prosecutions." That Indians shall be competent witnesses as herein provided, or in any prosecutions in which an Indian may be a defendant.

By the provisions of Sec. 139 of the criminal code of 1873, it is provided that in prosecutions for selling liquors to Indians an Indian is a competent witness.

These sections—139 and 231—correspond with and are identical with sections 133 and 226 of the criminal code of 1869.

In order therefore, to determine who are competent in criminal cases, we must necessarily ascertain who are competent in civil cases, for it is declared that those who are competent in civil cases are competent in criminal prosecutions.

Referring then to section 381 of the civil practice act of 1873, it is declared, hat "Every person of sound mind, suitable age and discretion, except as hereinafter provided, may be a witness in any action or proceeding;" and it is further enacted by section 384 "That the following persons shall not be competent to testify, to wit:

- 1. Those who are of unsound mind or intoxicated. 2. Children under ten years of age.

For the purposes of this case, these are the only exceptions stated in the statute.

Counsel insists that inasmuch as by the latter clause of Sec. 231, Cr. Practice act, it is therein declared that an Indian is a competent witness against an Indian that the maxim "Expressio unius est exclusio alterius" is applicable, and it follows that an Indian is not competent in cases wherein a white man is defendant.

The rule is elementary that in the construction of a statute, the intention of the lawgiver is to be deduced from a view of the whole and of every part taken and compared together.

and if the words are not explicit, the intention is to be collected from the context, from the occasion and necessity of the law, from the mischief felt and the object and remedy in view. I Kent, 462. And it is so said by Lord Coke, "That construction of a statute must be made, in the suppression of the mischief and in advancement of the remedie."—Coke upon Littleton, 381a.

If we concede that the words of the statute are not explicit, and examine the whole statute in the light of the above rules, we shall easily reach a satisfactory conclusion.

It is a part of the fundamental law of the land as now declared by the Courts "that all men are equal before the law," and our law makers have within the last twenty years made remarkable progress toward enabling the parties to get the whole of the facts in a cause to the jury, leaving the jury, who are the sole judges of the facts, to weigh the evidence.

Hence, the old rule, that a party in interest is excluded from testifying, has been swept away, and the modern tendency of Legislation is to permit every person to testify, leaving to the jury to determine as to the credibility of the witnesses.

This spirit of reform years ago reached the Halls of our Legislature. An examination of the Statute of 1863, page 155, section 330, discloses, that at that time, in addition to the two exceptions above referred to in section 384, Code 1873, it was declared that "Indians, Negroes and Chinamen should not be competent to testify."

It had not then nor in 1869 been discovered that "all men are equal before the law."

The Legislature of 1869, however, made much progress, and the exceptions as to Negroes and Chinamen were stricken out. Code of 1869, section 386, our law makers at that time were still unwilling to believe that jurors were competent to weigh the testimony of an Indian.

The Congress of the United States in 1870 by law declared, that all persons within the jurisdiction of the United States shall have the same right in every State and Territory to give evidence, and to the full and equal benefit of all laws for the security of persons, as is enjoyed by white citizens. Revised Statutes,

section 1911. For the purpose of adapting this idea to the laws of the Territory, our Legislature of 1873, struck from the excepted class of section 384 of the law of 1869. Indians, and under the wise provisions of the Statute of 1873, an Indian may testify in all civil and criminal actions, unless debarred by the provisions of sections 139 and 231. These sections insofar as they relate to Indians, must be taken for naught. The provisions therein contained were necessary so long as the Indian was prohibited generally from testifying, and the fact that they are there, is doubtless an oversight by the Codifier.

Looking at the whole Statute there is no doubt that our Legislature intended to remedy the mischievous provisions of our Statute making distinctions on account of race and color, and make our laws accord with the laws of the United States, and with the civilization of the age in which we live.

This view of the Statute is to my mind clear, and I have no doubt but that an Indian has the same right to testify in this Territory as a white man, and that the testimony of all witnesses must now be weighed in the same balance, and its truth or falsity be determined in accordance with the rules and principles of common sense and justice instead of prejudice.

The application must be denied. JOSEPH R. LEWIS, Judge.

Government will endeavor to prevent adventurers from going to that country, still having hope to effect a treaty.

The other day a man in Milwaukee found four boys playing cards on the hay-mow, and he was proceeding to give them "fits," when one of them spoke up and said: "We won't playing keards. There was once a Pennsylvania Legislator who laid by thirty thousand dollars in one session. When he was asked how he managed this with a salary of one thousand dollars, he said he saved it by doing without a hired girl.

This is the season of the year too, when you may see a lonely and melancholy young man standing on a street corner at about eight o'clock in the evening, waiting for something, and pretty soon that something will come along in the shape of a good looking girl, and he'll hook his arm in her's and walk off with a smile a yard long on his countenance.

THE BANDITS OF THE SOUTHERN COUNTRIES.—It would appear from the following from the Inyo Independent that the American residents in that section are about to take decisive action for the extermination of the bandits which have been ravaging that section: It is an established fact that several heavily armed parties of Mexicans have lately been seen coming into this county from the south, and although it is possible their intents may be all legitimate and honest enough, the peculiar conditions existing here at this time give cause for suspicion. It is a matter of the greatest importance to the Mexican population of this county that these outlaws be effectually suppressed. There are many Americans and others who will not be at all nice in their discriminations as to the guilt or innocence of Mexicans they may meet here and there, and it is quite possible the innocent may have to suffer for the acts of the guilty, if the latter are allowed to continue their outrages. Altogether, it behooves all classes of our population to take some active measures to put a lasting check on those outlaws. This is of quite as much interest to those of the Mexican nationality as the American.

HOW TO KEEP THE DOG FROM BARKING.—A genius from Albany has made a discovery which will prevent a dog from barking. A post is put alongside of the dog-house, on the top of the post is a pulley; a clothes-line is attached to the collar of the dog and passed through the pulley, and thence to the bed chamber of the sleeper. The dog barks and Bill pulls the rope. Soon the dog's head is heavenward, and his feet leave the ground. A moment suspended, he is let down, and with his tail turned inward, forward he scoots for his kennel, with no further desire to elevate himself by barking. Two pulls for the first night is a permanent cure.

OFFICIAL PAPER OF THE CITY. Seattle, W. T., June 10, 1875.

Lost.—An ivory fan, with red feathers and tassel. The finder will confer a favor by leaving it at this office.

Isn't it about time that some of our public-spirited citizens were taking steps toward having a celebration at this place on the coming Fourth of July.

Large numbers of strangers are in town, a large majority mechanics and laboring men looking for employment, which most of them find almost immediately.

H. L. Yester is tearing down and moving some of the old buildings on Mill Street, back of the Alhambra Saloon, to make room for a large new building, which will be put up immediately.

SCIENTIFIC AND AMUSING.—Prof. McDonald and Dr. Rice will soon commence an interesting course of lectures upon Phenology and The Laws of Life at Yester's Hall. A rich treat may be looked for.

The Windward has hauled up alongside of the Renton coal bunker's on Yester's wharf, to finish trading.

There is a rumor around the Sound that Prosch, of the Tacoma Tribune, intends moving his establishment to Seattle.

Mr. Theobald, formerly editor of the Olympia Courier, is now connected with a newspaper at Washington Corners, Alameda Co., Cal.

Mr. Frank Gilder announces another Grand concert at Yester's Hall to night. The success of last night's entertainment is enough to guarantee a crowded house.

ENLARGING.—Messrs. Wilson Bros., the Seattle foundrymen, are enlarging their building and increasing the capacity of their foundry, to meet the requirements of their growing business.

MOVING.—Mr. Thomas Stringham has his paint shop, formerly in rear of the Alhambra, on wheels, and is moving it around to a wide street. Workmen are also engaged in moving the building in rear of Mr. S. Davis store.

LAUNCH.—The launch of the S. C. & T. Co.'s large scow at Lake Washington will take place to day at half past four o'clock. The scholars of the University have been invited to go out to the lake to witness the launch.

RETURNED.—Mr. J. L. Jameson, formerly of this city, who has been working in a jewelry store in Victoria for about two months, returned to this city last evening on the North Pacific. Johnny was received on the wharf by a large number of his former comrades, who gave him a cordial welcome.

off of her. She has been laid up at Portland, for the most of the time, for the last four years. They report a rather rough passage, but fortunately had the wind with them all the way.

CONCERT.—The Gilder concert troupe will give one of their concerts this evening at Yester's Hall. The troupe is highly spoken of by the press of California and Oregon, and we bespeak for them a full house. Mr. Gilder will be remembered as the pianist who accompanied Mrs. Anna Bishop in her tour about two years ago.

FIRE.—A dispatch from Victoria gives an account of a disastrous fire at that place at 3 o'clock this morning, which destroyed the Colonial Hotel, Mansells shoe store, Gilmore's clothing store, and the San Francisco barber saloon and bath house. The fire originated in the Hotel billiard room. Loss about \$30,000; partly insured.

The bark Aureola, Capt. Ross, will finish loading with Seattle coal to-night or to-morrow, and her place will be immediately taken by the ship Alaska, which has been waiting in the harbor for two weeks. By order of the Committee of Arrangements.

CONCERT.—The concert last night was a decided success. The hall was crowded, most all the seats having been reserved before the doors opened. Of the playing of Mr. Gilder we cannot speak too highly. He is undoubtedly one of the most brilliant performers in this country. Mme. Babcock has a very clear, sweet soprano voice, and rendered beautifully the song "Love may come to-morrow." Telegraphic

EXCLUSIVELY TO THE DAILY DISPATCH

NEW YORK, June 2.—At the annual meeting of the N. P. R. R. to-day a dividend was declared of one and one-half per cent on the capital stock of the company out of the earnings for quarter ending June 30. To holders of stock on record June 15th, the dividend payable on and after July first.

A dispatch from London says the specie on board the wreck steamer Schiller remains undiscovered. Mutilated bodies of victims of the disaster continue to come ashore.

CHICAGO, June 2.—The National Temperance Convention here to-day passed resolution requesting Congress at its next session to appoint a committee to enquire into the effect of alcoholic drug in the United States.

NEW YORK, June 2.—Gold closed at 163 1/2; stocks active and steady.

COLEMBUS, June 2.—At the Republican State Convention to-day, the following ticket was nominated: For Governor, R. B. Hayes; for Lieut. Governor, F. L. Young.

The following platform adopted: That States are one as a nation and all citizens are equal under the law and entitled the fullest protection. That that policy of finances should be steadily pursued which without shock to business will ultimately equalize the purchasing capacity of coin and money. That we are in favor of a tariff for revenue with protection to American consistency. That a grateful people can never cease to remember the service of our soldiers. That liberality and generosity should obtain in the adjustment of pay and bounties. That we demand the public domain be scrupulously reserved for actual settlers. The observance of Washington's example in retiring to the close of the second Presidential term will be in future as in the past, regarded as a fundamental rule in the unwritten laws of the republic. That the distinguished success of his administration, which to the fame of patriot and soldier has added that of the capable and judicious statesman, entitles President Grant to the gratitude of his countrymen.

BERLIN, June 1.—The official Gazette commenting on Earl Derby's statement in the British House of Lords admits that the increase of French army created a certain amount of uneasiness which was not attended, however, with war like resolves or deliberations in Germany. The idea of requesting France to reduce her forces or discontinue her military organization was not entertained or mentioned.

LONDON, June 1.—The anti-slavery society deputation, comprising half a dozen members of parliament yesterday evening presented a memorial to Lord Derby, urging on the Government of Great Britain the duty of taking decisive steps by way of friendly mediation to bring about an equitable termination of war in Cuba and abolition of slave trade. Mr. Ashley said as the United States had relinquished the idea of annexing its good offices might be relied to support this movement.

Others called attention to the atrocities in the coolie traffic. Lord Derby said the Government had no right to interfere in the coolie question. An assertion was made by memorialists in favor of the insurgents was premature. He did not think Spain will view any proposal of mediation favorably. Lord Derby said the British Government would be glad to avail itself of any prospect offered for putting an end to existing state of things in Cuba; emancipation of the slaves would not doubt sooner or later be accomplished. Slave owners are aware of this and are only fighting for the continuance of the present system. He believed emancipation would not be accomplished by itself but must form a part of a scheme for the pacification of the Island. The present time was not favorable for English interference. He believed the United States had no desire to annex Cuba, but at the same time the American Government would receive any attempt of England to interfere between Spain and Cuba with suspicion and be apt to put a wrong construction upon it.

LONDON, June 2.—A mass meeting was held in Hyde Park to-day to express sympathy for the cabinet makers who have just been released from imprisonment to which they were sentenced for assisting comrades on their way to work and endeavoring to induce them join in the strike. It is estimated that 80,000 people took part in the demonstration. Resolution were adopted declaring the sentence a gross violation of personal rights. The speakers denounced the laws as being in the interest of the privileged class.

ST. PETERSBURG, June 2.—The International Telegraphic Conference opened here to-day. The Czar gives a banquet to the delegates to-morrow.

WASHINGTON, June 2.—The President had a council with the Indians at the Interior Department to-day. The President explained the agreement that had been drawn up, relinquishing the right to hunt in Nebraska, and reserving to them the country north of Nebraska

River outside of the reservation. All the country north of North Platte is to be considered as unceded territory. By this they give up a portion of this country and reserve the portion where the Red Cloud and Spotted Tail Agencies are located. He said the \$25,000 was for presents and to be given in money. He offered to allow them to name a person to receive the money and buy such things as they wanted. He expressed a desire to see them well provided for during his term of office, and asked them to consider the question of removing to Indian Territory. Spotted Tail said the Government was making too much; that a certain portion of their country had never been ceded and he wanted to know when they were to be paid for that. He declined to sign the document, but would go home and send word what he would do. The President was finally compelled to leave, the Indians having declined to sign the agreement.

SAN FRANCISCO, June 2.—The barkentine W. H. Gawley, from Port Madison, struck on Anita Rock, just inside Fort Point, where she now lies, in a leaky condition. Three tugs were endeavoring to haul her off to-day. She is engaged in discharging her deck load of lumber.

NEW YORK, June 3.—The silk merchants here are moving to protect themselves against smugglers and invite the co-operation of merchants of other cities.

Great fires are raging in all parts of Pennsylvania, and in Monroe county several lives have been lost. Locust, Ridge, Evergreen, Stoddardville, Gouldsboro and many other lumbering settlements are all driven from their homes. Hundreds of people have saved only what clothing they wore. Families are driven for miles before the advancing conflagration, and several old and feeble persons have been burned to death.

INDIANAPOLIS, June 3.—A heavy rain storm occurred here yesterday doing large damage to various parts of the city. The whole north section of the city is overflowed to the depth of 3 to 5 feet, filling cellars and stories of a large number of dwellings in the best part of the city. The damage to the railroads of this section is very serious.

CHICAGO, June 3.—At the National Temperance Convention to-day a resolution that women should be entitled to the electoral franchise and that the convention had sympathy with the warmest efforts to that end was defeated by 78 to 52. It was resolved that the relations of the national government and its responsibility for the liquor traffic, and resolved that the convention ask the next Congress to prohibit the manufacture and sale of all alcoholic beverages in the district of Columbia and Territories of the United States and prohibit importation from foreign countries and require total abstinence on the part of all officials and subordinates in the civil, military and naval service and to adopt ratification by the several States of the union a constitutional amendment which shall make the traffic in alcoholic liquors illegal throughout the national domain. PORTSMOUTH, June 3.—This morning a dispatch was received from Mahoney City stating that large crowds of men from Hazelton and vicinity arrived at Mahoney City this morning compelling all to go with them to stop working the mines that had resumed work since Monday last. About 1000 men are now marching from colliery to colliery, compelling miners to stop work. They have visited Silliman's, Stell's, Lentz's and Bowman's collieries. Bowman's mines stopped work on account of the refusal of advance wages. Troops have been applied for. At Ninna City to-day it was reported only a part of Bowman's and Lentz had stopped work and the mob is on the way to Hartford colliery.

SCRANTON, Pa., June 4.—Daniel Harris and Mr. Wagenhurst were killed by a boiler explosion near Goldboro to-day. Several others were seriously.

SPRINGFIELD, Mass., June 4.—The coroner's jury in the Holyoke disaster rendered a verdict this evening. They find no blame attached to any person in connection with it, but can't too strongly condemn the almost criminal carelessness in the construction of the galleries and main egress therefrom. They declare that parties who build such death traps should receive the unmeasured censure of the community, and find the cause of fire was from the use of trimming of laces, paper, etc., and to the fact that the building sheathed with pine instead of being plastered.

COLUMBUS, June 4.—A special officer

One of their chiefs fired on the sheriff. The firing then became general, the rioters firing a volley on the citizens, who were outnumbered. Henry Lietenburger, a policeman, was wounded and, in a critical condition. Henry Lochman was wounded in the leg, Wm. Eank shot in the head and another man in the shoulder. Eight rioters were wounded and carried away, one of them killed. The strikers have dispersed in different directions. Col. Robert Wisart, charged with being one of a gang who some time ago negotiated some five million dollars worth of stolen altered U. S. bonds and who having been arrested on the requisition of Gov. Tilden and brought to this city, was to-day brought before Judge Brady on a writ of habeas corpus. The return on the writ set up his arrest under the requisition of Gov. Tilden on the charge of forgery and in that he is now held in custody under the process of law. The travelers in turn set forth that the prisoner is not the person that had been arrested on the requisition papers and that he never has been a resident of Pennsylvania and hence the requisition proceedings are illegal. The Judge allowed the District Attorney till Tuesday to produce proof of identity.

Among them are sons of Flores and several other persons who had been banished from Cuba in former years as enemies of Spain. The Government refused to allow them to land, for the reason of the informality of the ship's papers, the Paig being a Spanish merchant-ship, which was chartered by the Argentine Government. Capt. Genl. Valvezada has telegraphed to Madrid for instructions, and the Paig is under the guns of a Spanish man-of-war. Twenty-five prisoners were allowed to embark on the City of Mexico, which left for New York to-day. Some of the prisoners are reported to be men of wealth and position in the Argentine Confederation.

The clergyman, who was as devout as he was loyal, took occasion, during the long prayer that preceded the sermon, to give all the glory of the exploit to the God of Battles. Allen's notion of the share which Providence had in the matter did not exactly agree with his pastor's. For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.
