LANDS ON SAN JUAN AND OREGON ISLANDS.—An act passed Congress at its recent session to ascertain the possessory rights of British subjects under the treaty of the Emperor of Germany under the treaty of Washington of May 8, 1871.

1. A Commissioner is to be appointed by the President to make and report to the Secretary of the Interior a list of all British subjects who, on the 15th day of June, 1846, were in the occupation of any of said lands, together with a description of the land actually occupied by each at said date; and said Commissioner shall proceed to the vicinity of the land in question, and there receive proof of the occupancy of such land and of the mode by which such occupancy was acquired, after first giving reasonable notice as to the said matters to be so reported by him.

2. The Commissioner shall be sworn to by the President to make and report to the Secretary of the Interior, under oath, and such documentary proofs as the said occupants may present. The testimony of all witnesses shall be reduced to writing, and all documentary proof offered by the parties and received by the commissioner shall be attached to the deposition of the party offering such proofs, which testimony and proofs shall be submitted by said Commissioner with his report, and such report shall be subject to review by the Secretary of the Interior, whose action thereon shall be final.

3. All British subjects whose claims shall be approved by the Secretary, as provided in section one of this act, shall be allowed to purchase from the United States the land so designated at any time within one year from such approval, at the ordinary minimum price per acre where the lands are situated outside railroad limits, and at double minimum price where the lands are within railroad limits.

4. That such entries shall be accorded the improvements of such occupants; and where two or more parties shall have improvements on the same smallest legal subdivision, they may make a joint entry thereof; Provided, that in case entry and payment are not made within one year from the date of such approval by the Secretary of the Interior, then all such possessory rights shall be considered forfeited, and the lands shall thereafter be deemed and treated as a part of the public domain, to be disposed of as other lands.

Our Railroad in Congress.—In Senate, June 8, 1874, the Committee on Territories, to whom was referred the bill granting the right of way to the Seattle and Walla Walla Railroad and Transportation Company, by Mr. Boreman reported as follows:

The terminal point of the railway proposed in the bill is the cities of Seattle and Walla Walla, in Washington Territory, and the road to pass through the Cascade Mountains, by way of what is known as the Snoqualmie Pass. Seattle is the largest town in the Territory and situated on one of the most easterly and best harbors on Puget Sound. The largest ocean vessels sail through the straits of Juan de Fuca and the Sound, thus reaching the city of Seattle without towing, and with perfect safety. The harbor is very large, well protected, and affords at least fifteen fathoms of water.

Walla Walla, the largest town east of the Cascade Mountains, is situated in the southern portion of the Territory, about thirty miles from the Columbia River, and is without any outlet or market for the products of this section except down the river. The cost of transportation on the Columbia River is so very great on account of the numerous rapids and cascades in the river, as to render this mode of transportation practically valueless. The route for this proposed road is the shortest feasible one from Walla Walla to the Sound, and the entire length will be about two hundred and ten miles. The gauge to be the same as that adopted by the National Railroad Convention held in Saint Louis in 1873, and designated as the standard narrow gauge, namely, three feet. The road will pass through the counties of King, Yakima, and Walla Walla, the aggregate population of which exceeds twenty thousand.

These three counties possess property of the assessable value, according to the most recent statistics, of \$9,700,000; or an average of over three millions of assessable property to each county.

The importance of this road to the counties through which it will pass, as to the sections less directly interested, can scarcely be overestimated. It appears that the road east, for thirty miles from Seattle, will pass through a very extensive timber, iron, and coal country. The timber, for ship building, piles, and other purposes, has no superior in the United States. The iron and coal in

quantity are almost inexhaustible, and of quality as good as any yet discovered upon the Pacific coast. The remainder of the route is through a very rich grain and fruit growing and stock raising country, destitute of coal, and containing but little wood or timber.

The records of the General Land Office show that in Walla Walla and Yakima Counties there are two millions and six hundred thousand acres of first rate agricultural land. The average yield of wheat is estimated at forty bushels an acre.

Walla Walla County in 1873 produced one million bushels surplus of wheat. The cost of transporting this wheat to San Francisco was 85 cents per bushel, total 850,000. The county also exported in 1873, barley, rye, cattle, oats, fruit, hogs, sheep, wool, &c. The freight of which is about one half that of wheat 425,000.

The farming implements, groceries and other merchandise shipped to Walla Walla in 1873 aggregated 10,000 tons freight; cost from San Francisco per ton, \$55 550,000.

There were 2,000 votes cast in Walla Walla county at the last election; it is a fair estimate in this purely farming country to say that fifty hundred of these voters are householders, and will consume 20 cords of firewood per family per annum. Total cords, 30,000; cost per cord, \$12 360,000.

Total amount of freight in Walla Walla county for year 1873, including wood, 2,185,000. On a three foot gauge railroad the cost of moving a ton of freight per mile is one cent; (see report of National Railroad Convention for 1872, report of Denver and Rio Grande Railroad for 1873.)

Allowing one cent per ton per mile for profit, &c., the price per ton per mile from Seattle to Walla Walla would be 20 cents per ton per mile. Freight is now carried from Seattle to San Francisco for \$4 per ton by sailing vessels, or about 12 cents a bushel for wheat.

Cost by this road and sailing vessels from Walla Walla to San Francisco per bushel 26 1/2 cents. For 1,000,000 bushels 265,000.

For other exports of Walla Walla county, at same rate imports shipped from San Francisco to Walla Walla, 10,000 tons, at \$6.80 per ton, 68,000. One ton of the Seattle coal is said to be equal to two cords of Walla Walla wood. The coal can be shipped for \$1.20 per ton and transported to Walla Walla for \$4.80 per ton; allowing \$3 per ton for profit, coal would thus cost \$7.80 per ton, equal to \$90 for each family, 1900 families 135,000.

Total amount of freights on exports and imports, including fuel, per year, by this road, for Walla Walla Co. 620,000.

Total saving to Walla Walla county, by this road, with the present population and producing and consuming capacity of the county 1,564,500.

Which is more than six times the amount the county is asked to take stock in the road.

The market report of prices in March 1873, quote lumber in Seattle from \$10 to \$20 per thousand feet, and in Walla Walla from \$25 to \$42.50.

Lumber, for building and fencing, is not included in the estimate of import and exports above stated.

The market reports of March, 1873, quote wheat in Walla Walla at 40 cents per bushel, and in Seattle at \$1.50 to \$1.44. Flour in Walla Walla \$3.50 per barrel; in Seattle, from \$7 to \$8 per barrel. Salt at Seattle \$1 to \$1.50 per cwt., or \$30 to 30 per ton; in Walla Walla, from \$4.50 to \$5 per cwt., or from \$90 to 90 per ton. The cause of difference in price is cost of transportation.

To ship wheat from Walla Walla to Portland, Oregon, requires several handlings or transshipments.

In 1870, as shown by the United States Census Report, Washington Territory had 192,000 acres of improved land, assessed at from \$5 93 to \$93 per acre.

There were, in 1873-74, 3,385 patented and pre-emption claims taken. Very much of the surplus of the Territory is lost by the costly and imperfect means of transportation.

What is true concerning the advantages of this road to Walla Walla County is also true of the other counties through which it will run, with the addition that most of the farming portion of Yakima County is too remote from the Columbia River to receive much benefit therefrom.

Umatilla County, Oregon, and Whitman County, Washington Territory, will also be greatly benefited by this road.

The coal along the western division, or Puget Sound end of the road, is good for the manufacture of gas. Much of this quality of coal is now shipped from foreign countries to Seattle, for illuminating purposes, because it is cheaper to import it than it is to haul it in cart or wagons from the Seattle mines, twenty miles distant, and they are not able to furnish any better means of transportation, unless permitted to use their united property in the manner proposed by this bill.

They ask nothing from the Government, except to be placed upon an equal footing with the other Territories in the United States. The sixth section of the organic act of Washington Territory is different from that of any other Territory, and has been construed as prohibiting the territorial legislature from authorizing the counties to aid in the construction of railroads.

This bill asks for no subsidy from the Federal Government, either of lands, bonds, or money, but simply for the privilege that the counties therein named may issue bonds to aid in the construction of a greatly needed improvement in their own midst.

We are indebted to Pumpfrey & Young for a large bundle of late Eastern periodicals.

NOT RECOVERED.—The body of Jacob Schwartz, drowned in Lake Kitcheloo, has not yet been recovered. We have just received a note from Mr. Joseph Fares, in which he says: "We have not found the body yet. It has been quite windy since we have been here, which makes the search difficult. The water is about seventy feet deep and very rough and rocky on the bottom. We think we can find the body when the weather is favorable."

INSTALLATION OF OFFICERS.—The following Officers were installed for the ensuing term, commencing July 1, 1874, in Olive Branch Lodge No. 4, I. O. O. F., by G. N. McConaha, D. D. G. M.: C. H. Burnett, N. G.; Jno. F. Damon, Y. G.; Matthew A. Kelley, R. S.; Jno. L. G. P. S.; E. W. W. T.; Geo. W. Hall, Warden; W. H. Pumpfrey, I. G.; E. Calvert, O. G.; C. C. Perkins, R. S. N. G.; William Meydenbauer, L. S. N. G.; W. J. Wallis, R. S. V. G.; Jno. Winzer, L. S. V. G.

ABOLISHED.—It is reported that orders have been received at the office in Olympia abolishing the office of Superintendent of Indian Affairs for Washington Territory. It was with the express understanding that the office would be abolished at the close of the session of Congress, that Gen. Milroy was restored after his suspension by Supervisor Kemble, and all the subsequent assaults of Milroy and his friends upon the character of Col. Kemble, were only inspired by the agony of impending and inevitable dissolution. Kemble yet lives.

The following is the Roll of Honor of the First Division of the North Seattle School for the term ending June 26th, 1874:

Moved and carried that the division of the City into wards be referred to the voters at the coming election.

On motion adjourned.

EDWARD H. BROWN, City Clerk.

NELLIE GRANT'S HUSBAND.—The entertaining young Briton who has captured our President's daughter is not a man of wealth. On the contrary, he is barely well-to-do. In this matter I speak by the card, my information coming direct from Mrs. Grant. His father, Edward Sartoris, has a small estate in Southampton, and is somewhat interested in a Sheffield manufactory. Algeron originally came to this country with an idea of serving the Sheffield house as a traveling salesman. He had comparatively little education and no profession. It has been reported that he was a civil engineer, but this is untrue. If he ever studied engineering at all, it was for a short time, and entirely too little to acquire a knowledge of the science.

The death of his elder brother made him heir to his father's estate, but as Sartoris, Sr., still lives, it can do him no good for the present. All the income he has is such as his father allows him, and may be cut off at any moment. He is also sadly deficient in morals, his chief pleasure being apparently the society of a party of jovial fellows over a glass of good wine. Unless he mends, it will be a sorry alliance for Miss Nellie.

The house in England, also, which has been the subject of so many glowing descriptions, is nothing but a neat little cottage on the elder Sartoris' grounds. It is by no means an elegant building, and can only be maintained as Sartoris, Sr., permits. Nevertheless, I am told by people who know the family that Algeron Charles Frederick's mother is a splendid woman, and that she will make it very pleasant for Nellie.—Chicago Post.

## SCREAM!!

BERNHARD BROWN, EDITOR

Seattle, W. T., July 9, 1874

Mining News.

From the British Colonist, July 4. J. W. McKay, Esq., came down by the Maude last evening, having reached Nannimo in a canoe from Stekeon on Wednesday. Mr. McKay left Victoria on the 13th of May with the object of visiting the Cassiar gold fields and reporting as to their value. He left Dease Creek, June 10. His opinion is favorable as to the richness of the fields. Their extent has yet to be determined. When he left Dease Creek the water was falling and Moore & Co., Bath Bros. and other companies had resumed operations. The reported yield of these and other claims early in the season is confirmed by Mr. McKay. He saw gold in the sluices of the companies at work and all the prospects were encouraging. The health on the creek was good and there had been no accident.

Just before Mr. McKay left Dease Creek the report came into camp from Liard River that a man had washed out \$43 with a pan in one day on a small creek emptying into the Liard—about 100 miles distant from Dease Creek. Stickeen River was falling, and the steamer Hope was seen in the river on her way up to Buck's Bar.

Mr. Gerke writes to his partner, Mr. Leiser, in this city, that he has bought Millard's pack train and goods and that the diggings are splendid.

Louis Stemmer and Honck of this city, have a claim on Thibert Creek, which, they write, they would not sell for \$5,000.

Messrs. Hanna & Sevenoaks, butchers, writing to Mr. James Kelly, from Dease Creek, advising him of the sending of \$250 in gold dust, say beef is 50 and 60 cents per pound, and give it as their opinion that the diggings are the best ever struck in British Columbia.

Mr. McKay brought down a little gold dust. He met the other 30 miles this side of Fort Rupert on Saturday last.

From the Nanaimo Free Press. The following extract from a letter written to his son-in-law, by Mr. Wilcox, late of this city, has been published by permission.

The letter is dated the 4th of June, and is therefore one of the latest. I have purchased a full claim for you and a half one for myself. Leave your business and come right away. I forward you two ounces of gold, taken by myself from your claim. The ounce of coarse gold is from one end of the claim and the fine gold from the other end.

Jersey Ned says he is doing well, taking out about \$50 per hand with a rocker and would not sell out for \$1500.

One claim sold for \$350; if it had been mine, I would not have sold it for \$3,000. The purchaser took out 5 ounces the next day with a rocker.

The mines are all in the bed of the creek, no hill or bench diggings having been found yet. I am confident that Dease creek will pan out big as soon as the water goes down.

Joe, (his son) took out \$90 in three hours with a rocker.

The ice has all disappeared, but the ground is frozen and we have to thaw off the top earth.

Grab is still very high.

A WONDERFUL NEGRO.—They have got a colored man in Troy, N. Y., the seventh son of a seventh daughter, who has the faculty of moving the walls of his abdomen; shifting the ribs directly over his bowels; changing the position of the heart to the right breast, and suspending the pulse and heart-beats. In addition to the abnormal feats, he has travelled all over the world; has been awarded a diploma at the Edinburgh Medical University; speaks French, German, Portuguese, Italian and Hebrew; has two wives and twelve children; bends a bar of iron seven eighths of an inch in thickness over his forearm and has fought twice in the prize-ring. If there is anything else this wonderful negro can do, it is not narrated; but what little he can do is only another proof of the remarkable achievements of American genius and enterprise. It may be added that he has a brother in Paris who is six feet two inches high, and has the wonderful power of shutting himself up like a telescope to the height of three feet two inches. Oh! my eye!

THE BORDER TROUBLES.—More troubles are reported from the Texas border. In fact, the disorders complained of are chronic, and each new story is but a repetition of the former one. Sifted down the last grief amounts to this: The Mexicans are running off Texas cattle, and an American was lately fired on from the Mexican side of the Rio Grande.—That cattle should not be stolen by Mexicans argues an unsettled condition of affairs on the border which will surprise nobody. That complaint should be made of a solitary shot from the other side of the line must excite the amusement of those who know how promptly the sharp crack of the rifle responds to any little unpleasantness in that region of country. It is undoubtedly true that there is a great deal of stealing and miscellaneous wickedness on the Mexican border. It is also true that very many of the complaints from that region are exaggerated.

A correspondent says: "You never see a young girl in velvet and her mother in tulle except they are an American mother and daughter, and I never saw a French woman whose front hair

looked like a poodle dog's back. Vanity without common sense has made more 'frights' in looks among American women than their Creator is accountable for, and now, when fashions are so adaptable, no one is excusable in not being at least presentable. But, so long as the word 'stylish' supercedes all others in our vocabulary, and so long as 'oddy' is the synonym of style, I suppose those of us who are neither the one nor the other can only fold our hands, and wait for our turn."

THE NEW COSMOPOLITAN LANGUAGE.—The Westliche Post's local editor deserves the credit for the discovery of the following piece of literature, written in German American. He found it in the complaint book at the City Engineer's Office. It read thus: "Herr Inspector, Sir: Ter ist ein tam bad blase in der Seitvolk in der Franklin Ebenen Streets vor mein Hans and I want him fix quick, at vonst; als mein vrow and der Kinder—she falls in dem and now I gits dam docker bill zu pay."

The name is signed in full. The Seitvolk (sidewalk) was "fix at vomst."

Mark Twain is out in an essay in favor of woman suffrage. He says "as Adam ate of the apple and laid it on Eve, thus showing himself to be a coward, Eve ought to vote if Adam did!" Then we say, as Eve shifted the blame from her own shoulders on to the serpent, by the same line of reasoning the snake ought to be allowed to vote if Eve votes. And as the serpent alighted to its understanding to have been the Devil, then everybody should be allowed to vote from man down to the devil himself.

The Evansville, Ind., Journal relates a sad story, for the truth of which it vouches. A man named Kyle, with a wife and two children, recently settled in the new country. A few days ago the wife having gone a short distance from the house to do the family washing, took one child, an infant, with her and left the other, two years old, at the house. Having occasion to be absent for her baby for a few minutes, when she returned she found that a rattlesnake had fastened its fangs upon the child's wrist. She quickly despatched the snake and freed the child, which almost immediately died. Clasp her infant in her arms she hastened to the house, where she found the other child drowned in a tub of water. Her screams of agony at beholding this second bereavement started her husband, who, losing his presence of mind, fell from the roof, where he was at work, and was instantly killed.

How THEY GOT ACQUAINTED.—No particular intimacy appears to have existed between the President and Senator Jones of Nevada until it transpired that Jones owned a very lucrative silver mine. Meeting him shortly after this discovery, Grant embraced Jones with great ardor, at the same time exclaiming: "Jones, my dear fellow, you must have noticed what an effort it has cost me to hide so long the esteem, the confidence, the friendship, the affection that has been resting in my bosom for you."

Jones flipped a new silver dollar into the air, recaptured it cleverly, and said: "Grant, you're right—that mine's a big thing."—Brooklyn Argus.

Darwin has a practical supporter of his theory in the shape of the first gorilla ever tamed and now in London. A small party dined with him not long ago, and we are told that Monsieur Gorilla behaved like any courteous diner-out, except that his conversation was not brilliant, and that at one point in the meal he calmly extended his paw and removed from his neighbor's plate to his own some pretty little kickshaws, which particularly pleased him. He drank claret with his steak, lounged in his chair between the courses, and cracked his walnuts and took his afternoon glass of port with the most graceful ease. He is very particular about his food, and always takes hot rum and water, sweetened with honey, before retiring. Darwin ought to be a happy man.

CALL AND SETTLE.—All accounts not paid on or before the tenth day of July will be put in the hands of a Justice for collection. L. P. SMITH & SON, Seattle, W. T., July 1st, 1874.

OFFICIAL PAPER OF THE CITY.

Seattle, W. T., July 9, 1874.

FOR SALE.—A good Piano. Enquire of L. P. SMITH & SON.

VOTERS.—424 names of voters have been registered for the coming city election.

Considerable interest is manifested in the coming city election and bets are numerous.

FOUND.—A snary bird came to my residence on Wednesday. The owner can have the same upon application to me. G. A. WEED.

W. H. White, Esq., Attorney-at-Law, can be found for the coming three weeks at the office of A. Mackintosh, Esq.

CLOSED.—Wells, Fargo & Co. have discontinued their office at Kalama, as there was not enough trade to warrant the continuation of the office any longer.

The Zephyr left for Olympia this Tuesday morning with a very large passenger list. Among others were Secretary Struve, Judge Greene, five Baptist ministers, and the editor of the DISPATCH.

Madame Annie Bishop with a large troupe will leave San Francisco on Wednesday, the 8th inst., for Victoria and the Sound. She will probably be here in about two weeks.

RETURNED.—Dr. S. F. Chapin, who has been visiting in California, Nevada and Oregon, has returned. He reports that he has found no place that suits him better than Seattle, hence he will remain and practice his profession.

ACCIDENT.—A Mr. Harmon, working in Hammond's ship yard, cut his foot very badly with a broad axe, the corner of the axe making a gash about two inches long and quite deep. He probably will not be able to use the foot for two months.

CORSE.—A corse has been visible in the north for a week or two past. It is approaching us very rapidly and will be the nearest to the earth on the 3rd of August. With a telescope it is a grand spectacle even now.

It is rumored that the steamer John T. Wright, a vessel of about 1,000 register, will be placed on the route between Victoria and Frisco, in lieu of the Prince Alfred. It is, however, more probable that a steamer called the Ventura, an ex-man-of-war will succeed the latter.

The Citizen's Committee held an adjourned meeting at the office of John Webster last evening and put in nomination the following ticket: For Mayor, H. L. Yesler; Recorder, C. C. Perkins; Marshal, H. L. Webster. Councilmen, Henry Adams, T. D. Hineckley, J. C. Kellogg, I. Waddell, B. F. Briggs, M. R. Maddocks, E. G. Farnham.

INSTALLATION OF OFFICERS.—The following officers of Court Washington, No. 5,835, A. O. F., were installed on Monday evening, the 6th inst., for the ensuing 6 months: Geo. D. Hill, C. R. D. N. Hyde, S. C. R.; J. S. Anderson, T. Geo. N. Reynolds, S.; John Levy, J. W. John Leary, J. W.; J. C. Grass, S. B.; C. Maidment, J. B.; D. T. Wheeler, M. S.; S. F. Chapin, M. D., Court Surgeon.

THE FOURTH IN SEATTLE.—Although no previous preparations had been made, an impromptu celebration was organized by a few of our public spirited citizens, during the forenoon of the Fourth, calling for a meeting in the Plaza at 3 P. M. Sheriff Atkins acting as Master of Ceremonies. After prayer by Rev. Daniel Bagley, the Declaration of Independence was read by C. D. Emery, Esq., and eloquent addresses made by Judge Jacobs and John Denny and G. N. McCosha, Esqrs.

BASE BALL CASUALTY.—A son of Rev. Joseph Castro, aged 24 years, one day last week, while engaged in a game of base ball, near Salem, dropped dead from over-exertion. Mr. Castro was first informed of the melancholy event when on his way to attend the Conference in this city.

About the same time, George W. Bell, President of the University Base Ball Club at Salem, while playing, broke a cord in one of his legs, which will probably cripple him for life, if the leg is saved.

FOUND.—Dutch Ned, who was sent by Mr. Snyder to look for the body of J. Swartz, found it a day or two ago floating around near where he was drowned. He secured the body and upon the arrival of Messrs. Shoudy and Bush, it was searched. The only money found was \$46.25 in a buck-skin purse in his pocket. What has become of the \$1500 is not known. The body was buried near where it was found, and all articles of value were brought to town.

SHOT.—Mr. Emery, a school teacher at Fort Madison, while hunting at Port Washington with Sheriff Williams, on Monday, accidentally shot himself. He attempted to take his gun from the bow of the boat when it was discharged, the entire load fearfully lacerating his right arm above the elbow and severing an artery. Mr. Williams bound up his arm, put him in the boat and brought him here for medical attendance. The wound was dressed by Dr. Chapin and he is doing well.

Telegraphic

EXCLUSIVELY TO THE DAILY DISPATCH.

WASHINGTON, July 3.—Gen. Ketchum called on the President at noon and formally accepted the appointment of District Commissioner. He was selected after the President had a consultation with Dennison and Blow, who said the appointment would be quite agreeable to them. The committee of army officers appointed to select a model of equestrian statue of Gen. Geo. A. Thomas, have agreed upon that designed by Ward, and will have the statue erected in Washington if Congress or the District Government makes the necessary appropriation to erect a pedestal.

New York, July 3.—The exact facts as regards the withdrawal of a large bid for new five per cents, with which Wall street was yesterday agitated, are stated as follows: The Secretary of the Treasury sent a circular to all the prominent bankers of the country, inviting them to submit bids for new five per cent. In the mean time he received a number of invited bids, and among them one from Han Hoffman & Co., which was not, however, the highest received. The Secretary declines to accept any bid until all have had an opportunity to make their offers. In the meantime Han Hoffman & Co. withdrew their bid, in the interest, as is believed, of another house, whose bid the Secretary was strongly urged to accept at once.

CHICAGO, July 3.—A Washington special says no announcement has yet been made of successor to Postmaster General Crosswell. Indications are that G. W. Schofield, of Pennsylvania, will be appointed. A Philadelphia special says that a report is current there that the President has tendered Postmaster Generalship to John W. Forney.

All of yesterday was occupied by the U. S. Court sitting at Madison, Wisconsin, in further hearing of application in case of Northwestern Railroad bondholders. Arguments were made by ex-Chief Justice Dixon and Assistant Attorney Stein, for State, and by E. W. Stoughton, for bondholders. The case seems to turn upon two points: first, the jurisdiction of the Court; second, an alleged conflict between the Potter law and the general Railway law. The Counsel for the bondholders argued that the passage of a law later than the time when it is signed by the Governor; that Potter law passed before general law, and that section in the latter which provides "for a reasonable and just compensation," has superseded the power of making arbitrary rates which the Potter law conferred. The arguments in the case will probably be concluded to-day.

New York, July 3.—U. S. Circuit Court has granted an order to show cause why an adjudication of bankruptcy should not be made in case of Hoyt, Sprague & Co. The petitioner is Evan Randolph, of Philadelphia.

The Governor of Porto Rico has conceded the use of government lands for telegraphic lines. Weather reports from St. Thomas, Barbadoes and Guadalupe to Majorca and thence to Washington for signal service. Jewell, minister at St. Petersburg, has accepted by cable the Postmaster Generalship tendered him this morning. Until the arrival of Jewell, Marshall, First Assistant, will be temporarily appointed.

OMAHA, June 3.—The Union and Central Pacific railroads have reestablished second class fares, taken off two years ago. Prices by second class express train from this city to San Francisco, Stockton, Marysville and Lathrop, in \$75; to Cheyenne, \$25; to Ogden, 60; to Salt Lake, \$62.

PHILADELPHIA, July 3.—Lewis, trustee of the estate of Jay Cooke & Co., received a letter from the President of the Oregon Steam Navigation Company enclosing a check for dividend on \$1,500,000 stock held for estate, amounting to \$37,500 in gold, which was exchanged for currency and produced over \$41,000.

PITTSBURGH, July 3.—Ernest Ortwien, who was convicted of the murder of the Hammett family, was sentenced to death. Ortwien seemed perfectly indifferent, manifesting no sign of emotion.

HALIFAX, July 3.—Communication with ship Faraday established the fact that she was greatly delayed by fogs after leaving Halifax. It is hoped that she will reach Portsmouth in a few days. She left Torbay June 30. The report of her wreck was sent to News office by E. W. Chapman, of Halifax.

New York, July 3.—Overland railroads are reducing freight rates to San Francisco just before the departure of each steamer and increasing them again afterwards. Steamers are consequently carrying freight at \$25 per ton.

Over 21,000 emigrants landed here during June.

WASHINGTON, July 3.—It is reported that some of the depositors in the Freedmen's Bank are selling their pass books for less than the value either from necessity or from the fact that the bank examiner Meigs, after a thorough examination of the affairs of the bank, placed its assets after deducting bad and doubtful at 93 cents on a dollar. The officers of the Company say that with proper care on the part of the management the books will be worth more than that sum, and that large dividends will be made as early as a day as practicable. The President has appointed Jacob A. Sikes and Paul O. Hecroft to the Board of Commissioners to investigate and report a permanent plan for the reclamation of the alluvial basin of the

Mississippi River subject to inundation. D. L. Walton has been appointed Collector of Customs for the Southern District of Oregon. U. H. Holt, of Illinois, it is said, will be appointed as Chief Clerk of the Internal Revenue Bureau vice Mr. Avery, who is appointed Chief Clerk of the Treasury Department.

The Attorney General has decided that Nebraska is not entitled to five per cent upon the value of a reservation for Indian tribes in that State.

WASHINGTON, July 5.—A terrible storm of wind and rain panned over the city last evening. The trunks of trees two or three feet in circumference were snapped by the hurricane, and ornamental and shade trees all over the city, including the Capital and the President's grounds, and in the public parks were either entirely destroyed or shorn of their branches. Five houses in a row were completely stripped of their roofs which were carried several hundred feet. Several carriages passing along the streets were overturned, and a lady in one sustained severe injuries. The telegraph wires to all points were prostrated. While a number of children were enjoying themselves in a Hall, the roof fell in, caused by the wind straining the rafters, and four of the children were injured. The steeple of the Metropolitan Methodist Episcopal Church, 100ft. high, was moved five feet from its perpendicular and is now in a dangerous condition.

BUFFALO, July 5.—A party of 8 were sailing on Lake Erie last night, when the boat capsized and the following named persons were drowned: John Langley of Chicago, Wm. Forrest of Canada; Annie Yought and Mary Kartz, of Erie, Pa., and Lizzie Glass of Buffalo. The rest clung to the boat and were rescued.

CHICAGO, July 5.—The town of Pontiac, Ill., was visited by a disastrous fire last night. The Court House, containing the county records, and Union block, occupied by the finest stores in town, were completely destroyed with other valuable property. Loss is estimated at \$200,000; insurance unknown. Fire-escapers caused the fire.

OMAHA, June 5.—A Bismarck special says Gustav's courier reports that the command was 30 miles west of the Missouri River at noon yesterday. No Indians were seen. Gustav's orders prohibit firing on Indians unless they are unmistakably belligerent.

Five soldiers and one teamster were struck yesterday.

MADRID, July 5.—Gen. Soballo has taken command and held a review of the army of the north. He has informed his officers that he comes to fight the insurgents and intends to sink all political sympathies and opinions in the struggle.

The Pope has telegraphed his benediction to the National army, in response to the congratulations forwarded to Rome on the anniversary of his accession to the See of St. Peter.

LONDON, July 5.—The anniversary of American independence was celebrated at St. Petersburg with a dinner at the United States legation, Minister Jewell presiding.

SAN FRANCISCO, July 6.—M. M. Builay and son made an illuminable balloon ascension from Woodward's Gardens. The balloon presented a brilliant appearance, and at last accounts was drifting towards the San Joaquin Valley.—This is the first ascension of this character ever made from San Francisco, and consequently attracted much attention.

Rev. Julius Eckman, the first Jewish Rabbi who came to California, died in this city yesterday from apoplexy. He was for a long time Rabbi of the Congregation of Emanuel, subsequently resided in Oregon for five years, returning to this city about 12 months since to assume editorial charge of the theological department of the Hebrew Observer.

CINCINNATI, Ohio, July 6.—Union coal miners at New Straitsville, Ohio, ended their long strike on Saturday by returning to work.

The son of J. J. Platt, the poet, was killed on Saturday by the explosion of a vial of gunpowder.

NEW YORK, July 6.—In the stoep chase at Long Branch on Saturday J. Donahue's Tammany, after falling at the hurdle, was remounted, but soon fell again and died. George Ayer's Victor, which had a felloe broken in jumping the last hurdle in the same race, was soon afterwards shot.

New York, July 6.—A house in Brooklyn, together with a child of the occupants, was burned on Saturday night, having ignited from a ball of fire thrown into the window from a Roman candle.

BOSTON, July 7.—It is reported that a shore line train was thrown off the bridge by a misplaced switch between New London and New Haven this morning, and that Capt Wilson was killed and several others injured.

Boulder being threatened by strong bands of Carlites, the authorities have telegraphed for reinforcements. Several war ships have moved up ready to shell the approaches to the city on the appearance of the insurgent.

PLYMOUTH, Mass., July.—The jury in the Sturtevant murder case returned a verdict of murder in the first degree.

CHARLESTON, July 3.—Governor Moses yesterday pardoned the three County Commissioners of Marion county, lately convicted of malfeasance in office and sentenced to imprisonment.

BOSTON, July 3.—Saml. Hooper declines a reelection to Congress.

WASHINGTON, July 3.—The appointment of Jewell as Postmaster General is received with favor, though surprise is felt that the President should recall a minister who has not been long at his post, to discharge the duties of a representation office at home. Although Jewell is popular at St. Petersburg and his position agreeable, it is known that he preferred office in his own country to a diplomatic position abroad. The settling of his affairs in Russia and the time necessarily occupied on the return voyage, will prevent his entering upon the Postmaster Generalship before the first of August.

NEW HAVEN, Conn., July 6.—An accident at Stone Creek this morning, on the Shore Line Railroad, occurred as follows: The train after taking on 2 passengers at that station, started for this city. Station-master Wm. Beech, replaced the rails just before the rear truck of the last car had passed the switch, consequently the train bumped along with the truck of the last car a few rods until the trust work bridge over Salt Marsh was reached, when the rear car rolled off the bridge, down 15 feet to the mellow below, dragging with it all the rest of the train, except the locomotive and tender. The cars were badly demolished. Superintendent Wilcox, who was in the baggage car, as soon as he felt the jolting of the rear car on the ties, jumped for the bell rope, rang the bell, and then jumped out of the side door into the marsh. The car immediately followed him, fell on him and broke his neck. 107 persons received injuries, but most of them were not of a serious character. There are 2 or 3 whose cases are critical, among them Geo. Davis of Guildford, and Rev. E. H. Hall of Fairhaven. Several have a broken arm or a broken leg. A Coroner's jury this evening rendered a verdict that Superintendent Wilcox came to his death by reason of the careless act of stationmaster Beech, but the latter claims that he did not reverse the switch until the train had passed, and until he had noticed that the rear car was off the rails. This explanation is not credited. The train was a purely local one, and the casualties are confined, with a few exceptions, to the inhabitants of this city.

HALIFAX, July 6.—The steamer Falmouth, just arrived, reports passing yesterday, six miles off Seal Island, a steamer with cable laying gear attached, supposed to be the Faraday.

PARIS, July 6.—Dispatches from Spain report that 4,000 Carlites attacked Terul last Saturday. After an engagement which lasted 12 hours, they were obliged to return, with a loss of forty killed and sixty seriously wounded and two hundred prisoners. The Republicans lost nine killed and fifteen wounded.

Excitement runs high at Versailles. Legationist deputies to the number of 100 have decided to vote against the ministry to-morrow. They have drawn up an order censuring the Government for a misuse of the powers conferred by the state of siege; avoiding any mention of the manifesto of Count de Chambord or the suppression of Le Union, so as to secure the support of the left. The position of the Ministry is critical. It is thought that some change will be unavoidable, even if the counter coalition in favor of Perrier's bill should succeed.

The meeting of the Assembly to-morrow may possibly result in a dissolution, unless the fear of such a step should restrain the opponents of the Govt.

ST. PAUL, Minn., July 6.—A special dispatch to the Press from Pembina says a party of Sioux Indians attacked the settlement of St. Joseph yesterday, and killed four persons. Several children are missing. A company of soldiers has started for the scene of the massacre and a volunteer company is organizing.

New York, July 6.—There was a decline in St. Paul & Northwestern R. R. stocks to-day, in consequence of the decision of the U. S. Circuit Court that the Wisconsin Railroad law regulating fare and freight charges is constitutional.

CHICAGO, July 6.—President Keech of Northwestern Railroad has written a letter to the Governor of Iowa, similar in tone to that recently written by Supt. Biddle of the Chicago, Rock Island, & Pacific Railroad, accepting the Iowa railroad laws, and promising conformity to their requirements, under protest.

NEW ORLEANS, July 6.—Organization and consolidation of the Mississippi Central, and the New Orleans, St. Louis & Chicago Railroad Companies was effected to-day by the election of Col. M. S. McCoombs President. His friends claim that this is the fifth leading continental trunk line.

WASHINGTON, July 7.—Gillman has declined the appointment of principal clerk in the appointment bureau of the Treasury, and accepted the position of Chief Clerk of the Treasury.

Alexander H. Stevens has declined a renomination to Congress on account of ill health.

SALEM, July 7.—An old man named Jarvis Babel, a bath sewer in the em-

ploy of the Capital Lumbering Co. in this city, had his hand cut off to-day in endeavoring to extricate a splinter which was fastened in the saw. He is attended by Doctors Carpenter and Peyton.

WASHINGTON, July 7.—Indian Commissioners received a telegraphic report from John D. Mills, Indian Agent at Usage City, Kansas, stating that hostile Cheyennes, Comanches and Kivas appeared near Cheyenne and Arrapahoe agency on the 2nd inst., and killed and scalped 5 persons. Troops were temporarily granted from Fort Sill to protect the agency. Mr. Mills with an escort proceeded to Lee and Reynolds' ranches, where the Indians made an attack and were repulsed. Four men were found murdered and scalped near by and their bread wagons loaded with provisions for the Harwood agency destroyed. One victim had been tied to a wagon and burned. At the next ranch teamsters, stages, etc., were gathered. They reported that one hundred Indians passed that morning. Mr. Mills advised all ranchmen to abandon their places which was done. There are now but two ranches occupied on the road. The Indians will doubtless clean everything until repulsed. Mr. Mills in return for the office of his own life to save others asks for two or three companies of cavalry to protect the Government's interests between the Cheyenne agency and Caldwell. The Military Department endorsed his request. Hostile Indians number about 2,000.

PHILADELPHIA, July 7.—Wool quite steady and in fair demand. Colorado, washed, 30@35 cents per lb., unwashed, 22@25; Extra and Merino, pulled, 45@50, No. 1 and Superfine, pulled, 40@45; Texas, fine, medium, 30@35, coarse, 30@35; California, coarse, 25@30.

St. Louis, July 7.—A serious riot occurred at Fredericktown last night between a party of lumbermen and the employees of a circus. These latter drew revolvers freely, wounding a number of persons. A large force of special police was sworn in and the people rallied in large numbers. The circus men were finally overpowered and thirteen were arrested. This forenoon the Supreme Court granted an injunction restraining them from leaving town before an investigation.

New York, July 7.—The Erie Railroad Company has filed an answer to the Angell suit, in which it denies every allegation thereof. Erie Company has commenced a suit for \$1,293,000 against Jay Gould to cover the amount expended by him for its proceeds in the transaction with the United States Express stock.

PARIS, July 7.—Assembly to-day passed the municipal electoral bill. The position of the Ministry becomes critical. It is understood that Duval, Monarchist, intends to move to-morrow, a dissolution of the National Assembly. The Judge who investigated the proceedings of the Central Bonapartists' Committee is reported to have applied to the Assembly for authorization to prosecute M. Roncher.

SAVANNAH, July 7.—Sailed, Buenos Vieta for Nansaimo.

PORT TOWNSEND, July 7.—Arrived, Levi Stevens.

PORT TOWNSEND, July 5.—Arrived, Dublin.

SUMMONS.

In the District Court of the Third Judicial District of the Territory of Washington, holding terms at the City of Seattle, in and for the Counties of King, Snohomish and Skagitania.

FRANCIS M. GUY, Plaintiff, vs. GEORGE A. MEIGS and MARY MEIGS, his wife, Defendants.

United States of America send Greeting To George A. Meigs and Mary Meigs, his wife, Defendants. YOU ARE HEREBY REQUIRED TO appear in an action brought against you by the above named plaintiff, in the District Court of the Third Judicial District of the Territory of Washington, holding terms at the City of Seattle, in the County of King, for the Counties of King, Snohomish and Skagitania, on the 22nd day of June, 1874, at 10 o'clock of the said day, to answer the complaint filed therein, within twenty days (exclusive of the day of service) after the service on you of this summons, if served within the said County of King, or if served out of that County, but in this District, within thirty days, otherwise within sixty days, or judgment by default will be taken against you, according to the prayer of the complaint. The said action is brought to compel you to execute and deliver to the Plaintiff a good Deed for the land described in the complaint. And you are hereby notified, that if you fail to appear and answer the said complaint as above required, the said Plaintiff will take a Deed against you, or a judgment by default and apply to the Court for relief demanded in the complaint. Witness the Hon. Orange Jacobs, Judge of said Court, and given under my hand and the seal of said Court, this 2nd day of June, A. D. 1874. L. B. ANDREWS, Clerk.

Egyptian Bitters OF TREE OF LIFE. Patented June, 1866, to Peter Poncin.

THIS VALUABLE MEDICINE, IN USE for several years past in the Eastern States with marvellous success, has just been introduced in this place by the patentee. The first person who tried it here, offers the following testimony to its merits: SEATTLE, August 19, 1873. I have been a sufferer for several years from chronic bilious affections from which no medicine tried by me afforded any relief. As an experiment, I tried Mr. Poncin's Egyptian Bitters from the effects of which I have experienced the most gratifying results. I can sincerely recommend it to others similarly afflicted. HUGH McALEER. Manufactured and sold by P. PONCIN On Second Street, corner above Methodist Church.

Telegraphic

EXCLUSIVELY TO THE DAILY DISPATCH.

MADRID, June 30.—General Serrano has arrived at Miranda. The Army of the North is falling back in good order and will be rapidly reorganized. Reinforcements are constantly arriving. Gen. Loma has been placed in command of a division. It is reported that the Carlists murdered many of the prisoners taken in the recent battles.

BARCELONA, June 30.—The Carlists claim that eight hundred prisoners fell into their hands during the retreat of the Republican army after the battle of Muro.

LONDON, June 30.—A Standard special reports the Republican loss in the just attack on Estella to have been 800 killed and wounded. Another dispatch to the same paper says Marshall Serrano has decided to take command of the Republican army immediately.

WASHINGTON, June 30.—H. T. Blow, here-to-day and in company with ex-Postmaster-General Dennison, had an interview with Secretary Dristow with reference to their duties as Commissioners for the temporary government of the District of Columbia. The tenor of Blow's conversation clearly indicated that he will accept the position.

Secretary Fish remarked in conversation to-day that the demand on Spain for indemnity for the American prisoners executed in Cuba by order of Brriuel was in accordance with the protocol concerning the settlement of the Virginia affair, apart from the duty imposed on the Government to claim satisfaction for such wrongs.

NEW YORK.—The Atlantic and Great Western Railway defaulted to-day in the payment of the interest on consolidated first mortgage bonds. It is proposed to fund these coupons until the rentals under the Erie lease can be applied to their payment.

The Indianapolis, Bloomington & Western Company also defaulted, and the California Pacific on an extension of bonds, though it paid on the other issues.

WASHINGTON, July 1.—Public debt statement issued to-day shows a reduction of \$2,280,197. Balances in Treasury at the close of business to-day are currency, \$14,576,010 special deposits; legal tenders for redemption of certificates of deposit, \$5,876,000; coin, \$74,205,304, including coin certificates of \$22,825,100 and outstanding legal tenders, \$382,000,000.

LONDON, July 1.—A Paris correspondent to the Times says among stories current there, is that the death of Marshall Concha was instigated by Serrano because he was an Alphonst. Another is that by the death of Concha the influence of Germany is increased, which is favorable to the restoration of a dynasty attached to the throne.

A report reaches here that an accidental fire in two houses near Estella was made a pretext by Carlists for the massacring of all wounded Republicans who fell into their hands.

There is great excitement in Corfu in consequence of the elections, which take place Sunday next. Thirty citizens were killed and wounded yesterday by troops called out to quell disorders. Further trouble is apprehended on the day of elections.

The Atlantic and Great Western R.R. Company declined to-day to receive and pay coupons on their first mortgage bonds.

HALIFAX, July 1.—Steamer Faraday, engaged in laying the new Atlantic cable, left Halifax a week ago. Intelligence from Pictou, just received, represents that she struck an ice-berg off Sussex and is a total wreck.

WASHINGTON, June 1.—All the prominent Western Railroads to-day concluded an arrangement cutting down through passenger and freight rates about fifty per cent. The revised tariff will go into operation immediately.

Ex-Postmaster General Cresswell stated on leaving the Cabinet meeting he would act as Postmaster General until his successor should be appointed, but he intended to insist upon leaving the Department as soon as possible.

SAN FRANCISCO, July 1.—Tilton says he did not publish all of Beecher's letter of apology, and that the portion suppressed was worse than all.

Three hundred and seventy-five females in the Bureau of Engraving and Printing were discharged yesterday. 14 fainting upon receiving their dismissal.

James B. Saunders, a lawyer, was fatally shot in a court room at Yonkers, N. Y., by one Lachman, a party to the suit.

The Ottoman Government will send an army to the Turkish frontier immediately.

SAN FRANCISCO, July 2.—Sir James Douglas, Governor of British Columbia, arrived last night, en route for England.

Boston, June 2.—The general features of the wool market are the same as last week. There continues to be a good demand for desirable lots and prices are well sustained. A large portion of the new Western clip is now on the way to this city, and manufacturers will soon have a splendid assortment to select from.

to Cherry Creek, where he arrested the thieves and recovered the mules. He stopped at a spring to get a drink, and as he stooped over one of the prisoners made a jump for his revolver and succeeded in getting possession of it. House being provided with another, turned loose upon them and instantly killed both. He then drove on to a place 15 miles further, gave the particulars, and after refreshing himself, started through a mountain pass for Corinne. House is a man of undoubted reputation and is one of the most respected and prominent citizens of Corinne. As yet no efforts have been made to secure his arrest, and the names of the prisoners have not been ascertained.

WASHINGTON, July 2.—The Grant Jones memorandum on the finance project to have been a chapter out of a pamphlet entitled "How to Resume," published a few weeks since by ex-Judge Pascal.

New York, July 2.—The Times repeats the statement that the California Pacific Railroad is not prepared to pay its interest.

The discovery of forged bonds here creates considerable excitement in financial circles, and tends to depress the securities, because time purchasers fear getting the spurious issues.

NASHUA, N. H., July 2.—The wife of Maj. Geo. Daniels was killed and the Major and his grandson probably fatally injured at Milford to-day, while crossing the track in front of an approaching train.

New York, July 2.—Merchants' Exchange has a dispatch from Pictou saying that nothing can be learned either there or at Halifax, justifying the report of the loss of the cable steamer Faraday.

The Tribune says a meeting of rail road men here last night declared war against the Pacific Mail by deciding on greatly reduced rates to California. It is said the Company had representatives at the conference. It is believed, however, that a new effort is making to renew the combination between the overland and the isthmus routes, to the public disadvantage, and that the question is still undecided. Russell Sage says the Pacific Mail Company is going to build three steamers of 3,000 tons burden each.

WASHINGTON, July 2.—Lieut. Charles P. Eagan of California, who was wounded seriously in the Modoc War, has been appointed Captain in the Subsistence Department of the Army.

LONDON, July 2.—In the House of Commons last night, the discussion on Dr. Butts' Home-Rule motion was resumed. Daniel O'Donnell, the Member from Tralee, said the Home-Rule movement was a miserable compromise concocted by those who did not understand the penalties of Fenianism. He acknowledged the desire of England to conciliate Ireland, and said perseverance in this agitation would be in defiance of gratitude, justice and common sense.

He said the ultimate object of the leader of the movement was to incite Irishmen to force a repeal of the Union, and their success would plunge Ireland into a civil war and annul the recent progress in that country. He said further that if England continue to remove every pretext on the plea of misgovernment in Ireland, the result would be a disgraceful failure. He firmly believed that its success would bring ruin to every man in Ireland.

Robt. Lowe, Member from the University of London, said the establishment of a local Irish government would involve the necessity of similar bodies in Scotland and England, and the result would be constant disputes and difficulties.

Disraeli was unable to see that Ireland had a right to a greater amount of self government than Scotland or England. He demonstrated the groundlessness of the complaint that Irishmen were not appointed to high offices under Government, and denied that Ireland was treated as a conquered country, and said that two separate parliaments would be constantly in collision, and that the minority in the Irish Parliament would be always appealing to the Imperial Parliament. He opposed the motion because it was injurious to both countries, as a great crisis of the world was nearer than some supposed. He wished the people to be united, to accept this motion would produce dissensions in England and might result in the destruction of the Empire. Messrs. McCarthy, Mitchell, Nolan, the O'Connors, Don, and others spoke in support of the motion. At a late hour last night, the House divided, and Dr. Butts' resolution was rejected by a vote of 61 yeas to 458 nays.

New York, July 2.—Mayor Havemeyer has reappointed Police Commissioners Charles and Gatchner, who were convicted of malfeasance in office, and whose position had been declared vacant by Governor Dix. Havemeyer, being questioned, said he had taken the step after mature deliberation and in pursuance of the law as he understood it. John Kelly of Tammany stated that he had no intimation of the reappointment of the Commissioners, but if were true immediate steps would be taken to prevent them from performing the duties of their office. Tammany Hall would have nothing undone to have Mayor Havemeyer removed from his position.
