FROM DAILY OF THURSDAY. The B. B. Mail has entered on its third volume.

Union Revival Services at the Congregational Church to-night at 7 1/2 o'clock.

The bark Iconium sailed for San Francisco this morning. She was towed out by the Etta White.

LIME—The schooner Gen. Harney arrived here this morning with 150 bbls. of lime from San Juan kiln.

NEW BUILDINGS.—There are now eight buildings being put up in this place, five dwelling houses, two stores, and a stone building for the bank.

An individual, with his long aboard, was furnished free night's lodging at the expense of the city, last night, and discharged with a reprimand this morning.

CONCERT.—The Amateur Concert for the benefit of the M. E. Church, advertised to take place on the 9th has been postponed until the 23rd evening of the 16th. We hope they will meet with success.

Our Marshal some time ago, gave notice that he would arrest all persons bathing in the bay, within the city limits. Why doesn't he do it? There are small boys in swimming along Front street, at all hours.

Agents are out canvassing for subscriptions to Mr. Meeker's pamphlet on the Sound Basin. Mr. Meeker intends to publish 10,000 copies of this pamphlet if he receives subscriptions enough to justify him in so doing.

CITY ELECTION.—There seems to be very little interest felt in City Election this year. Although the election takes place next Monday, there are yet no candidates in the field and no immediate prospect of there being any.

Supreme Court.—The Supreme Court for Washington Territory commences its annual session at Olympia on Monday, July 12. There are 15 cases to try, and the session is expected to last from 10 to 12 days. There is but one case from the 1st District, which will probably be tried on Tuesday. No case from 3d District will come up before Wednesday.

AN ACCIDENT.—Hon. T. M. Reed slipped and fell, while on a stairway, at his residence, Tuesday morning, and put his shoulder out of joint. Dr. Willard and Benj. Harned pulled his arm into place again. He is improving rapidly, and hopes to be able to walk about in a few days.—Echo.

A STABBING AFFRAY.—A man named George Stevens of Seattle was found, by the deputy marshal, Harry Hazlewood, lying drunk on Fourth street, at 3 o'clock Sunday morning. He was told he had better go and engage a bed. Stevens responded by telling special policemen Hazlewood and Goodnight that they had no authority to bid him do anything. In the endeavor to arrest him, Stevens became enraged, and stabbed Mr. Hazlewood rather seriously under the left shoulder. He has been confined to the house since the stabbing was done. Mr. Stevens was taken before the Committing Magistrate, and, after proper trial, was ordered to give bonds to the amount of \$3,000 to appear at the District Court, in default of which he was committed to the Thurston county jail.—Echo.

FROM DAILY OF FRIDAY. Yesler is laying down a new line of water pipe along Mill street, from the little creek on Fourth street.

The steamer Libby went over to Port Blakely, to bring over a raft of piles from that place, to be used on the extension to Yesler's wharf.

The new drop curtain for the Pavilion is almost finished. It will probably be hung in the course of the next three weeks. Messrs. Pike and Shoudy deserve great credit for the beautiful design and tasteful execution of this curtain.

YACHT RACING.—Yacht racing is getting to be the popular amusement here now. There will be a race for the championship to-morrow between the Amelia and the Lillie Bell. The winner will probably be challenged by Mr. J. Driggs, to sail against his yacht the Jolly Times, for money. The race to-morrow will commence at 2 o'clock.

CLEANING UP.—Marshal Webster is making a general cleaning up of the alleys, side streets and back yards of the city, as a measure of precaution against the small pox, which is raging in Victoria and may possibly be brought here. He has also rented the house formerly occupied by Mr. Strunk, to be used as a pest house, in case of need.

We had the pleasure of a call from W. T. Ballou, the surveyor, this morning. "Billy," as he is familiarly called, has been doing good service lately, in the way of hunting up locations for immigrants. He has conducted several parties up the Snohomish and Stillaguamish rivers, and is quite enthusiastic in his descriptions of the farming land adjacent to the last named river.

GOING TO LEAVE US.—The Bowman brothers, stock-raisers and storekeepers of Falls City, Snoqualmie, intend leaving shortly on a visit to Ohio, for a few months. They have resided in Snoqualmie for the past six years, have built up a good business and made many friends, who dread their departure. On their return they intend to settle in Arizona, where they will go into their old business of stock-raising.

WHITE RIVER.—The cattle on White River are rolling fat and the crops look exceedingly well. We wonder what will be done with all the potatoes and hay that will be raised on that River this year, if the farmers meet with no misfortune in their crop. Independent of the River we are informed that on the margin of the Sound, from Three-tree point to the point above Commencement Bay the ranchers have large fields of potatoes, onions, carrots, beets and cabbage, etc., planted, and all look well. A coal vein has been recently discovered at some point opposite Vashon's Island, on the mainland, and is reported to be extensive and good. We have not learned its exact locality.

COUNCIL ROOM, CITY OF SEATTLE, July 8th 1876.

To be continued—if the Gods permit and the Editor will allow.

A CHILD OF WENFOOT. FROM DAILY OF SATURDAY.

Thermometer 90° in the shade.

Look out for the Alleghanians.

The Alida left a 3 o'clock to-day for Port Townsend and way ports.

No mail came by the Favorite last night and we can hear of no reason why.

H. B. Leslie, agent of the Alleghanians and Swiss Bell Ringers, is in town.

HARVESTING.—The farmers on White and Duwamish rivers are now harvesting, and there is a great demand for harvest hands at \$2 per day and board.

FOUND DEAD.—In an out-house in Victoria, a man by the name of Butler, who came from the Sound and had reported that he had lived here many years. The Doctors say that he died of heart disease.

Items on the Way.

Left Dallas, Ogn., July 13; come down the western State road through one of the finest wheat Country on the Pacific Coast. Thousands of acres of wheat and oats can be seen on every side, that is from 3 to 6 feet high and well filled. Stayed over night at Sheridan, a quiet little town with 3 stores, a blacksmith shop and 3 churches, a butcher shop, etc., number of inhabitants, 300. During the night the young folks of the burg indulged in a social dance, which was a decided success, both socially and financially.

Came on down from Sheridan on Sunday morning, the 4th, to McMinnville in Yamhill county, all along either side of the road can be seen almost as far as the eye can reach, in places, magnificent fields of grain and a general indication of thrift and prosperity. Had breakfast in the renowned and famed McMinnville Hotel. They did not announce the fact that the hash was billed by the firing of cannon; neither was it by the blast of trumpets and clash of cymbals, nor yet by the braying of a platoon of asses, but the old lady simply "yanked" a 10 year old boy by the ear and ejaculated, "git," and he got that boy was in training. The way he lit out over a three legged stool and cleared at one bound a rickety table as he made for the door, would have done an old Roman gladiator's soul good to see. As he went he grasped a rusty, crooked piece of iron in one hand and old "paw clevis" in the other and didn't go for it. We waited for some time to see if he would stop but that boy had struck his long suit and strong and he did not stop. We approached him nimbly and implored him to desist, but he only went it stronger. We spoke louder, thinking perhaps that he was deaf, still he went on. We sat down and stuck our fingers in our ears and assumed an imploring attitude, but it was no go. That boy was now a rather of sweat. We backed out and eyed the surroundings; by chance our classic eye fell on an antiquated boot; we seized that boot and hauled it at that boy. It struck his infernal instrument, when he fed in doors, running over, as he went, a good sized sheet that was blindly sniffling the odor that was being emitted from a tremendous pot of hash setting on a stone in the further end of the room. The old lady patted him on the back and said, "I guess that'll fetch em souny, and likewise ad." I did not know exactly what this last expression meant until I happened to look across the street and see "Dad" coming home. Just where he had been that it took such a noise to fetch him I never found out. We set down to the table and mildly asked the waiter of what particular kind of cloth entered in to the composition of the table cloth; was it a relic of antiquity preserved from the looms of Persia? He stared at us a while and dodged in to the kitchen and said in a stage whisper, "man that feller is drunk—sure." We partook of the good things set before us—went to bed amidst the din and dash of bed bugs, chinches, fleas, lice, graybacks and other fellow critters and fit it out on that line. Arose pale and emaciated from the loss of blood and again sent ourselves to the desperate undertaking of again wrestling with that beef steak.

On Saturday, after our arrival, we went out to the grove to hear and see the good people of the place celebrate the 4th. The Hon. Eye Simpson was the orator of the day, and his oration, although not delivered with the fire of eloquence, was a perfect epitome of logic and patriotic sentiments, and showed him to be not only a ripe scholar but a complete logician.

WELCOME BACK.—F. V. Snyder has just returned from a tour on the East side of the Cascades, where he has been buying cattle. His numerous friends and customers will be glad to know that he has made arrangements by which he will be enabled to sell the best quality of meats cheaper than ever.

RETURN.—Rube Lowe returned last night from Portland, Oregon says everything looks dull over that way, the weather is very warm. The thermometer stood at 98° for two days, and he don't know but what it was higher. He hunted a cool place and let it rise. He says Seattle is the most flourishing place he saw.

B. Greenbaum, of Greenbaum Bros., is amongst the new arrivals. This house is known to us long and favorable, and we are confident that there is no larger or more respectable house in their line in San Francisco. They are wholesale clothing and are the sole manufacture of the Justly Celebrated Patent Overhauls and Duck Pants.

BURLARY.—While Mr. George Sharp, who lives near Maryatt's landing, in Island county, was at work away from his house which he had left locked up, some Indians or burglars broke in and robbed the house of everything in the shape of clothing, provisions, tools, etc., which they could carry away. They came in a boat, as it could be seen where one had been landed, but no other trace was left behind they.—Intelligencer.

PURCHASING LOTS.—Capt. Matson of the bark Harvest Home, has bought a block of lots on Mill street, and intends to build. Capt. Belma has also made a purchase. Capt. Gove, has located on lands on the Stillaguamish. Capt. Hatch is negotiating for city lots and land. Capt. Robinson has located on land. Capt. Ross and Capt. Tuttle have made arrangements to secure land and city lots. Verily, these navigators know what they are doing. Mr. Yesler sold the first named lots and the others were obtained from different parties, mostly through Ballou.

BELLINGHAM BAY.—Hon S. D. Howe has just arrived here from Sehome. He fears that he will be unable to raise the bark Union, which was wrecked near Bellingham Bay some time ago and which was purchased by him, but thinks he has made a good speculation in buying her.

The coal mines at Bellingham Bay are doing well, and the new discovery on the Nooksak is said to be a success. The farmers up that way and on the Swinomish, Samish, Stillaguamish, and Semiamho are joyous over their crops this year. They will soon commence harvesting and there will be a great demand for harvest hands.

ICE CREAM.—While our entire office force was almost prostrated by the heat, Piper, with thoughtful generosity, sent us plates of his delicious ice cream for all hands. The generosity of the gift was only equalled by the flavor of the ice cream.

SWIMMING.—The City Marshal made quite a haul of small boys, to-day, for going in swimming within the city limits. They were taken up before Justice Scott, and, after much tearful entreaty, they were released on their promises never to do so again.

ACCIDENT.—The new locomotive of the S. C. & T. Co., on the other side of the Lake, jumped the track yesterday afternoon. The little locomotive was taken across the Lake to bring down the coal cars, but broke down. In consequence of these mishaps the usual evening train did not arrive.

NEW TOWN.—A surveying party has been engaged for the past week or so in laying out the town plat of the new town of Renton, near the Renton coal mine. The first building in the new town has just been put up.

The grandeur of nature was well displayed last night in the Southwestern sky. They were lit up by continuous lightning so perfectly that Blakely, Freeport and the surroundings were plain in sight. We never saw anything more beautiful.

CITY ELECTION.—Up to the eve of our City election, few took any interest in the result, save Mr. Bagley and his friends, who felt that the sand was gradually slipping from under him in the new order of things attendant upon the increase of population and enterprise, and that a popular endorsement was absolutely necessary to his reestablishment as a party leader and one of the solid men of the city.

From Port Townsend.

PORT TOWNSEND, July 13, 1875. ED. DISPATCH.—The last two or three days have been pretty lively, even for Port Townsend. On Saturday, Jimmie Good, the notorious, had a row in his mad house. He got drunk and beat a squaw badly and then attacked a buck.

On Sunday, a cutting scrape occurred at Port Discovery, one sailor stabbing another very severely, the knife entering the left side about the lower rib. The wounded man and his assailant were brought to town immediately; the one going to the hospital and the other to jail. I did not learn the cause of the dispute.

AN "UNFORTUNATE" WOMAN, INDEED.—One autumn afternoon, six or seven years ago, the wife of a settler living in Chilliwhack Valley stepped from her house to hang out clothes in a lot few rods off. She left a little baby asleep in a cradle, in one corner of the kitchen. She was absent from the house about fifteen minutes. When she returned her eye sought the cradle. The baby lay apparently as sound asleep as when left by the mother a few minutes before. An hour passed away; still the baby slept, and the mother moved softly about the room, fearing to awaken it, casting now and then, a fond look at the sleeper. By and by the woman was attracted to the cradle by an extraordinary pallor which seemed to settle upon the face of the infant. Drawing back the little cover she was startled to discover blood on the bedclothes, blood on the child's dress, blood on the floor. Clasp the babe to her breast she was horrified to find that it was dead! Her wild shrieks summoned the neighbors to the house. An examination revealed a small round hole in the left breast, directly over the heart, from which the life current had welled. A bloody knitting-needle, one end of which had been sharply pointed, was picked up on the mattress. Tracks led from the window of the kitchen towards a clump of bushes. They were evidently those of Indians, with some of whom the husband of the distracted mother had had difficulty about some land a few days before. The late Dr. Black found that the knitting-needle had been forced into the heart of the child during the absence of the mother while it slept; but the perpetrator was never discovered. The mother of the murdered child was sentenced, ten days ago, by Judge Crease to one year's imprisonment in the Penitentiary. Who can tell what potent influence the grief caused by the mysterious death of her little one may have had on the wretched woman's subsequent career?—Victoria Colonist.

Clergymen ought not to lie. But Rev. Wm. M. Baker writes to the Independent that Gen. Phil. Sheridan was invited by a lady to take a walk which he declined upon the plea of threatening weather. A little while afterward the lady detected him in the act of stealing out of the front door alone. Upon charging him with the inconsistency of his conduct, he replied: "Yes, Miss, yes. The weather is too bad for two of us, but I thought it might be good enough for one." This story, Reverend Baker, is at least a centennial. The jest books attribute it to Richard Brinsley Sheridan, a hundred years ago.

NO TERMINUS! And yet Alive Schwabacher Bros. & Co. Would respectfully inform the Public that they are still to be found at the old stand, and with a LARGER STOCK OF GOODS than ever; consisting of a full line in everything required by either Mechanics, Farmers, Ship-builders, Miners, Hotels and Restaurants. Our assortment in DRY GOODS & CLOTHING are far superior to any ever offered in the Territory; and as to PRICES, it is simply absurd to argue that we CAN BE UNDERSOLD.

Our Jobbing Department being of the best selection, we would cordially invite Country Dealers to give us a call, to assure them that our Prices compare well with San Francisco.

Our past success in business speaks volumes regarding our mode of dealing. We are willing to let Public Opinion decide whether we are worthy of Patronage or not. Call and examine our Goods before purchasing elsewhere, and remember WE HAVE BUT ONE PRICE. SCHWABACHER BROS. & CO.

OFFICIAL PAPER OF THE CITY. Seattle, W. T., July 15, 1875.

FROM DAILY OF THURSDAY.

Hon. Wm. Pickering is in town.

Lots of work oxen in town for sale. See John Pinnell.

Mr. Orien Denny is building a neat little cottage on Second street.

The Zephyr left at 6, with a big freight and large number of passengers.

The Libby left at 8, with a good sized freight and passenger list.

Jos. Borst's band of extra beef cattle arrived at Squak last night. They are intended for the Seattle market.

We are obliged to leave out several new advertisements to-day. They will appear tomorrow.

The Favorite arrived at 5 o'clock this morning, bringing for passengers 18 chinamen. She left at 7 with 30 passengers and 49 tons of freight.

Cummings, who was arrested for stabbing a Chinaman at Freeport, was bound over to the next term of Court in the sum of \$300.

The bark Harvest Home has on board 130 hides, 30 cords of hoop-pools, 35 cords cotton-wood staves and bolts. She is now loading with Seattle coal.

The steamer Mortie makes 2 trips to the Seattle, Renton and Talbot mines daily, crowded with passengers. The easiest and best route to see all the mines in one day.

The North Pacific arrived at 9 o'clock last night and left at 2. She had on board 70 passengers, and took away 45 head of cattle, 6 horses, 300 sheep, 27 tons of freight, mostly for Victoria.

There are 15 grass widows in the Yakima country. Old Sla says she ought to be time soon to commence haying over that way, and thinks grazing east is good.

During the thunder storm on Sunday morning last, the lightning struck a tree standing about 60 yards from the railroad near Lake Union, scattering splinters in every direction.

OLD PERSONS.—There were four persons took dinner on Sunday at the residence of Mr. R. C. Smith, on Duwamish river, whose united ages amounted to 329, a pretty good for a new country.

THE BROTT.—This handsome new school house was opened on Saturday last, by Alger & Mixon, with appropriate ceremonies (free drinks for the crowd). The school is elegantly fitted up, and as the gentlemen are experienced in their business they will certainly make it a success.

Grass is plentiful on the East side of the Cascade mountains, and stock are doing well. Butter can be had for 10 cents a pound and eggs 10 cents a dozen; other things in proportion, but with no market therefor. No money is the only complaint.

The school is closed at the Renton mine district. A new school house is to be built and the school will be re-opened about the first of September.—Miss Theobalds, the former teacher, we regret to say, leaves for California tomorrow. We hope she will soon return.

RACE.—There was a little trial of speed between the Favorite and Zephyr this morning. They left the wharf together, the Zephyr bound for Snohomish and the Favorite for Victoria. They kept together pretty well until opposite the coal wharf, when the Zephyr gradually forged ahead and kept the lead as long as they were in sight.

ELECTION.—The City Election is passing off rather quietly. Up to 2 o'clock the following vote had been polled: in the 1st ward, where there were 89 votes registered, 40; in the 2nd ward, where there are 132 registered voters, 79; in the 3rd ward where there were 52 voters, 22.

SWAUK.—We are informed by Mr. F. V. Snyder that a rich lode of gold and silver bearing quartz has recently been discovered at Swauk; also that a lode of excellent cinnabar has been discovered some 10 miles distant from Swauk. Crowds of miners are rushing in and great excitement prevails.

THUNDER STORM.—On Sunday morning, at half past 3 o'clock, our citizens were surprised by a heavy thunder storm, a thing of most unusual occurrence. There were two or three very heavy claps of thunder, followed by a heavy shower lasting only about ten minutes. From all accounts the rainfall was only in the immediate vicinity of Seattle.

FIRE.—The woods are on fire at Eleven mile creek, on the road between Seattle and Snohomish, and Mr. J. W. Denny's house is burned. The fire has not extended into any very heavy timber land yet, but is likely to snap through a portion of that large body of good timber, unless a rainfall prevents it, belonging to the Port Gamble Mill Co., in Townships 32 and 27, N. R. 4, and 5 E.

CITIZENS MASS CONVENTION.—The Citizens Mass Convention met on Saturday evening at 8 o'clock, and, after the election of officers, proceeded to make nominations. On the 3d ballot, D. Bagley was declared the nominee for Mayor. L. V. Wyckoff was the nominated for Marshal by acclamation, and Roswell Scott for Recorder. The convention then went into committees of the several wards and made the following nominations for Councilmen:

First Ward.—G. W. Bullene and John Leary. (Mr. Leary declined to serve and the name of C. Naeher was substituted.)

Second Ward.—Jas. R. Robbins, W. N. Pumphrey, and G. A. Weed.

Third Ward.—Chas. B. Shattuck and J. H. Hall.

During the balloting, one of the tellers accused a gentleman present of casting more than one vote, which the gentleman denied, whereupon the teller called him a d—d liar. There were hopes of fracas for a few minutes but friends intervened, and the matter ended without bloodshed.

FROM DAILY OF FRIDAY.

Hon. E. C. Ferguson, of Snohomish City, is in town. He arrived by the Zephyr.

ON EXHIBITION.—A miniature copy of Davis's patent hay press was on exhibition to-day at the United States Hotel.

The bark Osmyd sailed to-day for San Francisco, with 700 tons of Seattle coal.

The Alleghenians arrived in Victoria on the Pacific. They will be over here next week. Be sure and attend.

Hoyt, the Photographer, has returned from Snohomish, where he gave, as usual, universal satisfaction.

T. J. Jackson, of Port Blakely, the owner of the U. S. Hotel, is building a fine residence on Second street, near the Seattle coal wharf.

NEW STORE.—Messrs. Jackson, Packard & Co., are building a large store at Snohomish City, and intends to open about the 1st of August with a large stock of goods.

Quite a number of lawyers went up to Olympia this morning to attend the Supreme Court, which is now in session. There are eleven cases from this District on the docket.

ON THE WAR PATH.—Francis Peas was arrested to-day and will be tried before Justice Smith tomorrow. He is accused of striking his mother and other persons with a club. He is a boy about 15 years of age.

FISHERIES.—There are two fisheries ready to commence operations at Mukilteo as soon as salmon commence running; Tull & Co. and Reinheimer, Vining & Co. It is the intention of both firms to pickle all they catch.

We call the attention of our readers to the advertisement of Messrs. Greenbaum Bros., San Francisco clothiers. They are the sole manufacturer of the goods they advertise and are a good house to deal with.

Ross Bros., on the Skykomish, cut, hauled and put into that river, two million feet of saw logs in 40 days, so we are informed. This is likely the best work ever done by any loggers in the Territory.

FROM SNOHOMISH.—The Zephyr arrived from Snohomish last night with quite a number of passengers and a large freight list, consisting mainly of ham, bacon, furs, skins, eggs and empty lager kegs. This speaks well for Snohomish country.

NOTICE.—Mrs. Kidd Stackpole offers her services to the public as a spirit medium, to those that feel an interest in the phenomenon. Hours from 1 to 9 p. m. Residence, Mill street, near Third, next the brewery.

QUARTZ.—Mr. Ireland and other prospectors have found a very rich gold and silver lead on one of the tributaries of the Skykomish. Everybody up the river has a slight attack of quartz fever in consequence. This quartz is supposed to be quite rich and the lead is extensive.

APPOINTED.—Mr. J. R. Bean has been appointed Wells, Fargo & Co.'s agent in place of Mr. S. F. Coombs resigned, who is about to start a commission business in Seattle. Mr. Coombs has acted and held the agency ever since the office was established here, some 8 or 9 years.

392 piles were driven by Dick Atkins at Bensonville and at the Portage, before he brought his pile driver down. The driver was brought down through Black and Duwamish Rivers. She leaves in a day or so for Tacoma, to finish the wharf for the Mill Company at that place.

TALBOT BUNKERS.—The coal bunkers, now being built on Yesler's wharf by Joseph Frazer for the Talbot Coal Company, is a good piece of work and proves a fact that a practical mechanic always improves on theory. The wharf is being enlarged and improved and will give four times the accommodation it did formerly.

SERENADE.—Last evening, about 10 o'clock, Hon. B. Gatzert, our newly elected Mayor, was the recipient of a serenade from the Seattle Brass Band. He came out and cordially invited the boys to come in and partake of some refreshments, which invitation they accepted. After the refreshments and another piece from the band, the crowd adjourned.

FROM DAILY OF SATURDAY

Call at Kelly's Drug Store and get your reserved seats.

BORN.—In this city, on the 13th inst., to the wife of Mr. A. W. Piper, a son.

If you don't come early you can't get no reserved seats.

FRUITS.—A small quantity of grapes and plums is in market, bought up by the Pacific.

MUSEUM.—Father Prefontaine is collecting a cabinet of minerals and curiosities and solicits contributions.

DOING WELL.—We understand that the agents of the Seattle Homestead Association are doing very well at Port Gamble. Lots go off there like hot cakes.

FAVORITE.—The Port Townsend Agency has information that the Favorite will be drawn off this week for repairs. Her place will be temporarily taken by the Blakely.

RETURNED.—Mr. A. Treadwell, of the New Seattle Coal Mine, returned from San Francisco, by way of Victoria last evening, having been below about six weeks.

CROWDED.—The steamers last night were crowded with the passengers of the Pacific, which arrived in Victoria on Saturday. All are anxious to secure homes on Puget Sound.

Mr. Katz, of the firm of Waterman & Katz, of Port Townsend, has been officiating as purser of the steamer Favorite for the last few trips, while Mr. Moore is enjoying a brief holiday in Victoria.

HARVESTING.—The ranchers on the Stillaguamish have commenced harvesting. The crops look better than ever before and the yield is expected to average more.

ACCIDENT.—Mr. S. W. Green, who has been cooking for King at Port Washington Bay, fell on one of our rotten sidewalks a day or so ago and broke his leg. Property owners should be compelled to keep their sidewalks in repair.

NEW STORE.—The new store for Mr. Geo. I. Lambert's boot and shoe business, in Bell's block on Cherry St., is nearly ready for the occupant. Mr. Lambert will put in the largest stock of goods in his line ever brought to the Sound, and as he is an enterprising and experienced gentleman will probably secure a large share of trade.

BRITISH COLUMBIA ITEMS. [From the Colonist.] Messrs. Joseph Nicholson and George Baker have been awarded the contract for building the Comox bridge and road for the sum of \$7,920.

The unfortunate Mrs. Greer and child, and Miss Jones of Cariboo, are now confined in the Victoria jail. The term of imprisonment is for one year. We hear that Pilot Ramsey intends to bring a suit for damages against the steamship Pacific for running into him and knocking the nose of his boat in the Straits on Saturday last. Victoria prisoners no longer luxuriate in the festive tobacco. The supply has

been cut off and henceforth no more "rations" of the weed will be issued. The French corvette Volard, expected here from Japan, has on board a son of the Prince de Joinville and grandson of old King Louis Philippe.

NEW SIDEWALK.—The new sidewalk along Front street, from Amos Brown's residence to the railroad track, is being rapidly put in. The laying of this sidewalk necessitated a large amount of grading, which has been quite an expense to property holders. The grading is nearly finished, and the planking is being put down.

SEATTLE, W. T., July 11, 1872. EDITOR DISPATCH.—False rumors are still current in Seattle. Francis Pease did not strike his mother as reported in yesterday's DISPATCH, neither is he 15 years of age—only 13 and 1 month. He has not been arrested yet. It is a shame for one big woman and two boys to attack one small boy, as Mrs. Scott and her two sons did on Monday 1st, and in Mr. Pease's yard at 1st. A. WITNESS.

OFFICERS ELECTED.—At a meeting of the stockholders of the Talbot Coal Mine Company, held to-day at the office of McNaught & Leary at Seattle, John Collins was elected President, John Leary Secretary and M. Padden Superintendent. The trustees elected for the ensuing year are: Cyrus Walker, John Collins, M. Padden, James McNaught and John Leary.

PORTLAND MUSEUM.—Mr. J. M. Garrison, of Oregon is in the city, representing the Portland Museum. The reasons may probably be found in the unsettled relations of the road with the Government and want of faith in the Pacific Coast manager.

PARIS, July 7.—The father of Don Carlos has been released on a promise to quit French Territory.

VIENNA, July 7.—The remains of

Emperor Ferdinand were deposited in the Church of the Capuchins, in the same vault with those of Maximilian and Emperor of Mexico.

LONDON, July 7.—The Times to-day refers to the military and political situation in Spain and gives a gloomy view of the Alfonsoist cause. It says the recent minor successes of Jovellar have been outweighed by reverses elsewhere, and the Carlists seem about to give forward march. All the bright hopes Alfonso brought to Spain, have vanished and his best Generals are less active than heretofore. They have met defeat instead of victory and the King has not been more successful in Madrid. He has failed to satisfy the Church and has engaged the liberals. Hence the ministry seem ready to try the effect of as much religious toleration as will permit protests to worship in the back streets. But such concession will disgust clericals and not satisfy Alfonso's political supporters. Neither has the King made peace between the warring factions. The Press is huzzled to prevent it from being distasteful and there are no funds to pay the army and navy.

ROME, July 7.—The Opinions announces that the Ministerial Commission appointed to consider whether it really shall participate in the Philadelphia Centennial exhibition has decided in the negative on account of the considerable expense is necessary.

NEW YORK, July 7.—Beecher was before the Grand Jury to testify in the Loeder and Price case, Mrs. Tilton will give her evidence to-morrow. Another affidavit from Price is published to-day, giving the alleged details of the method of getting up the Loeder accusation against Beecher. Price says Loeder instructed him what to say and that Morris paid him at various times small sums of money to spend in liquors, cigars, &c. Price declares the affidavit signed by him in Morris' office is false in every particular. He was never in Tilton's house and never saw Mrs. Tilton. It is asserted by the Brooklyn Argus that Moulton will endeavor to secure the indictment of Beecher by the Grand Jury, now in session, for alleged perjury.

LONDON, July 6.—The bark Martha from Marseilles for San Francisco, on the 5th inst. put in here leaking, and will have to discharge for repairs. BERLIN, July 6.—Dr. Hantz is about to leave here for San Francisco to superintend the erection of a naval hospital which the Government has decided to build in that city for the use of its squadron in the Pacific ocean.

MADISON, July 7.—The following platform was adopted by the Republican State Convention yesterday: That the Republicans of Wisconsin declare unalterable adherence to the indissoluble union of States, right of the States and equality of all men before the law. That we declare parties to be only deserving of support so long as they advance wise and patriotic principles and promote honest and efficient administration of public affairs. That we accept with approval the letter of President Grant, discouraging the continuance in office of any Chief Magistrate of the nation for a longer period than two terms.

ST. PAUL, July 8.—The Democratic State Convention to-day adopted the following: That the adoption of the 14th, 15th and 16th amendments to the Federal Constitution, closed a great era in our politics, and marked the end forever of human slavery and of struggles that grew out of that system. That we favor a return to gold and silver as the basis of the currency of the country with preparation and effective measures to secure resumption of specie payments.

The following is the ticket for Governor: D. L. Buel, and Lieut. Governor E. W. Durgt. NEW YORK, July 8.—Gold closed at 167; stocks active but weak.

WASHINGTON, July 8.—The counters of the money in the Treasurer's office have counted all in the cash vault and to-day counted \$16,000,000 in the reserved vault. No errors have been discovered, except the recently stolen \$47,000.

LONDON, July 8.—In the House of Commons this evening, John Bright presented a petition signed by 60,000 members of the agricultural laborer's union and others, asking extension of household suffrage to counties and boroughs, and for redistribution of parliamentary seats. Trevelyan moved a second reading of the household franchise or counties bills. Hon. P. W. E. Forster supported the bill. The principle involved had already been decided upon its merits by all parties. The proposed measure was one of such pure justice that its eventual passage was inevitable. Henry Forcett said the agricultural laborers had been neglected in regard to education and other things, because they had not been enfranchised. The House would ultimately be obliged to concede the demands of an indignant people. The speakers on the other side pointed to the large majority against the bill at the last session and urged that the measure was inopportune. The House divided and the motion for second reading of the bill was lost by a vote of 166 yeas to 268 nays.

In the House of Commons this afternoon, Lord Hamilton, under Secretary of State for India, in answer to an inquiry of Grant Duff, touching the difficulty between Great Britain and Burmah said the earlier matters in dispute had been satisfactory arranged. That the murder of Maragay necessitated the Government insisting that the King of

Burmah should give every facility for the punishment of offenders. The King had refused to permit the passage of British troops through Burmah, but Hamilton said that he hoped they would yield to the representations of the British envoy and thus prevent a collision.

Disraeli made a statement in regard to the contemplated visit of Prince of Wales to India. He said the simplicity suitable for a visit to the colonies would not be in place for a journey through India. Although the Viceroy had intimated that the prevalent custom of making ceremonious presents need not be observed, yet the Prince must be placed in a position to exercise generosity and display splendor. It would, however, be indigued to enter into a discussion upon the point.

His Royal Highness will start for India on the 17th of October, and the visit will last six months. The expenditures to insure the necessary pomp and dignity will \$710,000.

McDonald, John O'Connor and Power protested against the grant for the Prince of Wales' Eastern trip. Debate on the measure takes place on the 15th inst.

VICTORIA, July 8.—William Hadley, for the last fifteen years a Custom House officer at this port, committed suicide yesterday by shooting himself in the head. The deceased was an American and formerly lived in Springfield, Mass. He had been discharged from the Custom House a few days ago for drunkenness. No other cause than that of intemperance is known for the rash act.

LA CONNER, July 8.—A Yale, B. C. dispatch says the weather is very hot and the thermometer registered 103 in the shade yesterday and is now at 83. The river is rising.

CHICAGO, July 9.—A Sioux City special says gold hunters are leaving that city daily for the Black Hills.

CINCINNATI, July 9.—A dispatch to the Superintendent of Adams' Express Company in this city states that a desperate attempt was made to rob the express messenger Burke, on Long Point, Illinois, on the Vandavia railway last night. The engine and cars were cut loose and the engineer killed. Burke barricaded the doors and kept the robbers at bay until help arrived. There is intense feeling among railroad men over the tragical death of Ames, the engineer, and should the perpetrators be caught, it is believed it will cost the State nothing to prosecute them.

Several suspicious persons are already under arrest and every effort is making by the railroad Company to bring the robbers to justice.

ST. LOUIS, July 9.—Gen. F. P. Blair, Jr., died last night at 11 o'clock.

BELFAST, July 9.—The members of the rifle team, accompanied by the Mayor of Belfast, passed here to-day, visiting the principal manufacturers of the city and were enthusiastically cheered by the operatives. At lunch, the Mayor proposed the health of the team, remarking that friendly contests, such as those at Dublin and Belfast, tended to increase the friendship between the two nations and ought to be encouraged.

LONDON, July 9.—Mr. Hamilton, of the Irish team writes to the Standard: "I have shot against the American teams both in the United States and in Ireland, and I can say with confidence there never has been any team in this country able to beat them."

BELFAST, July 9.—A farrow banquet was given the American team this afternoon. Mayor Lindsay entered near the close of the banquet and presented Gilderleeve with a cup won by him at Clarendonville. The Mayor said the citizens of Belfast were glad to hear the cup was going to American. After further speeches, the company proceeded to the pier to take the steamer for Glasgow, escorted by the Mayor and a delegation of citizens. Thousands of people lined the docks and piers to see them off and there was loud and hearty cheering as the vessel steamed out. The party will visit Scotch Lakes to-morrow and expected to arrive at Edinburgh in the evening.

MADRID, July 9.—Official dispatch report that the Carlism General, Dorregaray, after reaching the villages of Angues and Casbas, at the foot of Mount Guara, between Huesca and Jaca, succeeded in entering Bolansa district in Aragon, near the Pyrennes. SAN FRANCISCO, July 9.—The preliminary examination of Capt J. M. Lindell, charged with wilfully wrecking the bark Union on May 7th, in the Straits of Rosario, was commenced before U. S. Commissioner O'Byrne this afternoon. There was a large attendance of spectators. Ellis H. Deane, chief mate of the Union, testified much in accordance with his previously published statements; that the Captain expressed to him his desire to wreck the vessel, and said to him just before the bark struck the rock: "This is a good place to plump her. I am ruined if I do not leave this bloody bark. Now is the only chance." The cross examination will not be completed until to-morrow.

For about a year ago a very diminutive Troy man was married, and in due season he found himself a happy father. Last Friday night his wife, as she supposed, lifted the infant over her side. She did not discover her error, however, until she tried to force a dose of syrup down the infant's throat, when she was startled by hearing her spouse exclaim: "What in thunder are you about?" The good lady had mistaken her "hobby" for the babe.
